The Vision of Two Legends

KVB, one of the oldest banks in the country, has been a trendsetter in the field of banking and has justly merited the reputation of being one of the best of its kind. The seeds of the Bank were sown on 1st July 1916 by two great visionaries and illustrious sons of Karur, late Shri M. A. Venkatarama Chettiar and late Shri Athi Krishna Chettiar. They were men with sound business acumen, pragmatic vision, clear foresight, unwavering determination and a high spirit of nationalism.

The founders envisaged a commercial bank which will meet the credit needs of the merchants, thereby alleviate the problems of the middle class. They took upon themselves the task of proceeding with the formation of the banking company. It took them nearly three years to mobilise seed capital, a major part of which was collected only on the basis of their personal assurance / guarantees.

On their part, while promoting a company for the purpose of banking, they visualized that it should be an institution based on ethics and integrity. It was more of a mission for trust and community service rather than a commercial venture.

Today KVB continues the glorious tradition initiated by the founders and is committed to serving its clientele and society at large with the same zeal and enthusiasm.

Managing Director & CEO's Letter to the shareholders

Dear Shareholders,

On behalf of the Board of Directors and the employees of the Bank, it gives me great pleasure to invite you all to the 99th Annual General Meeting of your Bank.

As we enter our 103rd year of operations, on behalf of the Board of Directors, I take this opportunity to thank our shareholders for their continued support. Equally importantly, I would like to express our sincere gratitude to our valued clients for their continued patronage. Their continued belief in the products and services has enabled us to grow profitably. I wish to thank and commend our employees - their dedication to the cause has enabled your Bank to build an enviable reputation for customer service and customer centricity.

Before I present the financial performance of the Bank during the year 2017-18, I would like to make a brief mention of the following:

Global Economic Scenario

World Economic Outlook of IMF indicates a pickup in global economic output. Economic activity in the US as well as in the Euro area continues to remain strong. Trade related disputes arising out of actions taken in the United States may impact growth in merchandise trade. This particular aspect requires close watch as it is currently developing. The Indian economy, having adjusted to significant structural reforms, is expected to gather steam. Oil prices and their consequent impact on India's Current Account Deficit represent headwinds that our economy will undoubtedly weather.

Domestic Economic Scenario

2017-18 was a landmark year. During the year, two key developments – the rollout of Goods and Services Tax (GST) and the enactment of the Insolvency and Bankruptcy Code (IBC) took place. These are significant structural reforms that will aid faster growth of the economy in the future. In order to enhance growth, several steps were taken by the Government. First, recapitalisation of the public sector banks to enable them to support the economy better; second, increased infrastructural spending to enhance infrastructure quality which has a knock on effect on demand and costs; third, increased focus on agriculture so as to ensure rural growth etc. These and other actions have enabled India to leapfrog 30 places in the World Bank's 'Ease of Doing Business' ranking. From a banking perspective, the development of Aadhar, robust credit bureaus and near instant payment / settlement systems has reduced friction in banking transactions. This, in turn, is expected to enable the economy to grow faster as we move forward.

Indian Banking Environment

Despite the above positive developments, the Indian Banking sector continues to face challenges. Asset quality and costs associated with asset quality are one area of challenge. The system as a

whole is burdened with high Non Performing Assets, with the public sector banks being particularly impacted. Credit growth remained muted at 9.75% for the industry during 2017-18, whereas the Gross NPA levels grew to double digits for many banks. While market liquidity remained comfortable, expectation of increased Governmental borrowing during the year, led to hardening of rates in the GOI Securities market, which in turn impacted profitability of banks. The need to ensure appropriate management of Operational Risk was highlighted by an instance in which a bank found itself straddled with large financial burden, owing to the malfeasant action of a few of its employees. This in turn, exposed the industry to enhanced scrutiny by the media as well as by the regulators.

The success of the Insolvency & Bankruptcy Act to resolve stressed assets in a reasonable period is a major positive for the industry. This will help in the restoration of bank balance sheets to health. As the Indian economy grows from strength to strength, fresh opportunities are expected to arise that will enable prudent banks to grow and prosper. The strengthening of the regulatory regime, the resolution processes are key landmarks in a new era of banking in India.

I now present to you the performance of your Bank – KVB – during FY 2017-18 :

Financial Performance

During the year 2017-18, your Bank has crossed the total business milestone of ₹ 1,00,000 crore. Credit growth has been robust at 11% and Gross Advances as on 31.03.2018 stood at ₹ 45,973 crore. CD Ratio as on 31.03.2018 improved to 80.81% from 77.16% as on 31.03.2017. Retail advances recorded a significant growth of more than 20% (₹ 1,280 crore) during the year, while the share of retail in the overall asset book improved by 200 bps to 17% of gross advances. Within retail portfolio, housing loan segment has grown by ₹ 465 crore during the year.

Deposits, especially the retail segment, continued to grow with increased thrust on CASA growth. During the year, a growth of 13% and 10%, respectively, has been recorded in the Current and Savings segments. Your Bank's growth rate in transactional balances significantly outpaces that of the industry. CASA mix of your Bank has reached a level of 29%. 63% of total term deposits were less than ₹ 15 lakhs, and only 8% of term deposits form value of ₹ 5 crore or more, indicating low dependence on wholesale deposits.

The operating profit of your Bank for the year 2017-18 reached a new high of ₹ 1,777 crore, registering a growth of 13%. This was made possible by tight expense controls that ensured your Bank managed its expense base efficiently in spite of the following:

- a. Significant branch expansion;
- b. Substantial investment in Digital Transformation – a technology initiative that will position your Bank for the future;
- c. Significant investments in migrating to the latest version of Core Banking. This again will enable your Bank to take advantage of newer technologies to foster growth.

Net Interest Income improved by 11% (₹ 224 crore) during the year. Even though subdued securities market conditions yielded lesser securities trading income, Non Interest Income of your

Bank has improved by 15% and reached a level of ₹ 900 crore. Operating expenses have risen by 11% during the year, which was mainly on account of overall increase in staff expenditure, and other overheads.

Your Bank has shown an improved NIM by 16 bps to 3.86%. This was achieved by bringing down the cost of funds by 61 bps during the year (and certain one time credits that helped buoy NIM). The fall in yield on funds by 49 bps offset the reduced cost, and the spread went up by 12 bps to 3.22%.

The deteriorating asset quality issues faced by the industry also had an impact on your Bank, as a result of which Gross NPA numbers grew considerably. This, coupled with other regulatory provisions requirements, necessitated higher provisions towards the following:

- a. Increased credit provisions for growth in GNPA (including provision for ageing of NPAs);
- b. Additional provisions as directed by RBI in respect of select accounts (which were referred to NCLT for resolution); and
- c. Continuation of provisions to amortise losses incurred in the sale of assets to ARC.

Thus, credit related provisions escalated by 84% from ₹ 648 crore for FY 2016-17 to ₹ 1,190 crore in FY 2017-18. Whilst very substantial provisions have been created in the Balance Sheet, Provision Coverage Ratio (PCR) remained virtually unchanged. The increased provision requirements impacted your Bank's Net Profit, which was subdued at ₹ 346 crore.

Other Developments

Your Bank was successful in completing the rights issue of shares during the year. 11,73,17,101 shares of face value ₹ 2/- each was issued at a price of ₹ 76/- per share, which has resulted in increase in share capital to ₹ 145.33 crore. CRAR under Basel III thus improved to 14.43% as on 31.03.2018, as a result of increased Share Capital, Share Premium and internal accruals.

During the year, the pace of branch expansion continued by opening 79 branches, taking the overall presence to 790 branches across the country. 1795 ATMs, 533 Cash Recyclers are also deployed by your Bank at various centres.

Digital business thrust continued during the year, and the PoS terminals deployed reaching 22,873 at the end of the year. Your Bank had also piloted the introduction of FASTag e-toll collection initiative and 12,169 FASTags have been issued during the year.

Way Ahead

Your Bank continues to be on the forefront of technology driven growth, and is currently undertaking the following initiatives:

- a. Migration to the latest version of Flexcube Core Banking platform - which will enable seamless electronic banking transactions across multiple channels, in a secured environment, through API enabled architecture. This will considerably enhance customer experience whilst customers use your Bank's digital offerings;

- b. Digital Transformation – This is a key initiative your Bank is undertaking. This unique initiative (arguably amongst the first in the industry), provides the following advantages:
 - i. Enables a highly automated underwriting process that relies on third party data (Credit Bureaus, Banking Data and Tax related data amongst others);
 - ii. Enables credit decisions to be taken in minutes as against in days while tightly managing credit risk;
 - iii. Reduces paper and increases digitisation with concomitant benefits for account maintenance and portfolio management.
- c. Continuing focus on MSME – specially the smaller MSMEs – This is the area of core strength of your Bank. One of the work-streams in Digital Transformation is the automation and digitisation of Working Capital facilities. This initiative is partially operative and enables customers to renew their own facilities and offers our branches a simplified mechanism for account renewal. We expect this system to start accommodating New to Bank (NTB) customers in August.

Your Bank is enhancing its already robust risk management systems and ensuring due care is taken to adhere to the letter and spirit of the rules / regulations with respect to corporate governance. It is our aim to emerge as a respected industry leader that our customers are pleased to deal with and our regulators satisfied with the quality of our systems and processes.

Awards and Accolades

Your Bank has received, for the 9th successive year, the Best Small Bank for Innovative use of Technology award from Institute for Development and Research in Banking Technology (IDBRT).

We were also adjudged the Best Small Bank Runner Up, 2016 by Business World - PwC.

Your Bank was also awarded for the Most Disruptive Payments Technology - FASTag - at Kamikaze Payments & Cards Summit.

NSDL has also declared your Bank as Runner Up for the Number of Demat Accounts opened in Bank category.

Once again, I thank the shareholders and all stake-holders for their support and patronage. I would also like to thank Reserve Bank of India for their guidance and support. The Bank will continue its quest of becoming the 'Smart Way to Bank' and commits itself to the highest standards of service, transparency and corporate governance.

With warm greetings,

P. R. Seshadri,

MD & CEO

Your Bank's average advances to micro enterprises and weaker sections stood at 8.88% and 13.44% respectively. Your Bank continues to achieve the targets stipulated as per the regulatory guidelines under priority sector, agricultural lending and weaker section advances.

Asset Quality

The Banking industry in India continued to face a challenging period with increase in Non-Performing Assets particularly from Corporate Segment due to various macro economic and other factors. Bank experienced higher slippages to Net Non-Performing Assets (Net NPA stood at 4.16% in FY18 as against 2.53% of earlier fiscal) mainly due to slippage in Corporate / Consortium accounts.

The Bank has taken numerous measures to arrest the fresh slippages and is in the process of strengthening its credit underwriting system. The net NPA stood at ₹ 1,862.83 Cr for the FY18 compared to ₹ 1,033.46 Cr for the FY17. The Provision Coverage Ratio (PCR) stood at 56.50% as compared to 57.83% in the previous year.

DIRECTORS' REPORT

Bank introduced a follow-up mechanism with Senior Executives dedicated for close monitoring of NPA accounts having outstanding of ₹ 50.00 lakh and above. In order to improve penetration in NPA accounts, Division-wise monitoring of daily recovery progress was introduced. In addition, the Bank initiated various steps to strengthen the recovery mechanism process including opening of specialised Asset Recovery Branches and recovered ₹ 559.80 Cr out of which, Cash Recovery was ₹ 179.09 Cr.

For speedy decisions on One Time Settlement (OTS), the Bank delegated requisite powers to Branch Heads for sanction of OTS of NPAs up to ₹ 5.00 lakh.

e-Auctions of immovable & movable properties secured to the Bank were carried out throughout the year. Special thrust was given in taking physical possession of immovable properties by moving application before the concerned authority under SARFAESI Act. Bank participated in Lok adalats actively during the year under report and recovered an amount of ₹ 120 Cr through compromise from 1417 accounts.

NPA Accounts of above ₹ 100 lakh are reviewed by the Senior Management through Conference call / video conference with the Divisional Managers / Branch Heads to guide them in recovery initiatives.

Loan Monitoring is further enhanced and recovery efforts have been intensified. Your Bank is optimistic on reduction in slippages.

During the fiscal 2017-18, your Bank has started 3 Asset Recovery Branches (ARB) at Chennai, Hyderabad and Madurai to ensure specific thrust on recovery and follow-up. ARBs will provide close follow up with their specialized skills and the Branches can now concentrate more on business growth. The ARB's handle NPA accounts above ₹ 15 Lakh adhering to guidelines issued by RBI from time to time. A new initiative is taken to conduct settlements through Adalats in all Branches having large number / value NPA accounts in every quarter. This thrust for recovery is giving encouraging results.

Outbound Calls

In order to cater the need for improving collection mechanism of retail loans, Bank has started Centralised outbound calls facility for SMA follow-up, which is making a reasonable impact on the retail segment. The outbound call facility is being used to call Pre-delinquent customers i.e. 3 days prior intimation is given

to the customers about their repayment due date, Delinquent accounts falling under SMA on PAN India basis. The outbound collection call services are introduced to support the branches in reduction of SMA's & NPA's. Going forward, your Bank is planning to use this facility to commercial loan borrowers as well.

Investments

The investment portfolio of the Bank has reached ₹ 15,992.25 Cr as on March 31, 2018 as against ₹ 14,955.48 Cr as on March 31, 2017, y-o-y growth of 6.93%. The average investment as on March 31, 2018 stood at ₹ 16,030.61 Cr. The investment portfolio composition is consistent with the corporate requirement, risk perception and Investment Policy of the Bank.

Income earned on investments during 2017-18 was ₹ 1,122.93 Cr as against ₹ 1,106.04 Cr in 2016-17 registering a marginal increase of ₹ 16.89 Cr (i.e. 1.53%). Low growth is on account of overall fall in yields in the market and due to sale of securities from HTM category during the year. Profit on sale of investments was ₹ 101.08 Cr for the fiscal 2017-18 as against ₹ 204.64 Cr recorded in the previous fiscal. Liquidity position was comfortable throughout the year 2017-18.

Income

Interest income of your Bank has increased by ₹ 77.30 Cr and stood at ₹ 5,699.65 Cr as on 31st March 2018. Net Interest Income of the bank increased to ₹ 2,298.11 Cr from ₹ 2,073.70 Cr, registering a growth of 10.82%.

Non-Interest Income grew by 15.05%, y-o-y from ₹ 782.22 Cr to ₹ 899.93 Cr.

Yield on advances dropped from 11.34% to 10.29% and Yield on investment slightly decreased from 7.22% to 7.00%.

Expenditure

The interest expenditure reduced from ₹ 3,548.65 Cr in FY17 to ₹ 3,401.54 Cr in FY18, registering a decline of 4.14%. Operating expenses increased from ₹ 1,284.95 Cr in FY17 to ₹ 1,420.72 Cr in FY18 working out to an increase of 10.57% (₹ 135.77 Cr).

Cost of Deposits reduced from 6.60% in FY17 to 5.99% in FY18 due to mobilisation of low cost / no-cost deposits during the year under report. Increase of Net Interest Margin (NIM) from 3.70% in FY17 to 3.86% in FY18 and growth in spread on funds from 3.10% in FY17 to 3.22% in FY18.

DIRECTORS' REPORT

Currency Chests help the branches to accept soiled & mutilated notes from general public and from customers over the cash counters. Apart from conducting soiled note melas at the chest attached branches, lower denomination currencies and coins are distributed to customers and general public by the Currency Chests through our various branches.

Technology Initiatives

Your Bank has always been a forerunner in implementing robust IT services which would enhance productivity and efficiency of our products and services besides delighting customers.

Your Bank introduced a number of significant IT-driven initiatives during the FY18 covering various facets of banking system. They are as under:

- **Digital Banking**

During the year, Bank has initiated digital transformation project and engaged Boston Consulting Group (BCG) to draw the road map and implement the project. We are glad to share that, in the first phase, Bank has rolled out end-to-end paperless Digital Application for Home Loan processing and Digital Customer Portal for renewal of working capital limits up to ₹ 100 lakh. Both the applications are well received by the market and Bank is embarking on digitalising entire lending system of the Bank and creating a Digital Application for Customer on boarding and services.

- **Bharat QR (BQR)**

We have introduced a mobile application, Bharat QR (BQR), a new initiative by National Payments Corporation of India (NPCI) in the payment system which aims to increase the merchant based digital transaction by displaying their QR at their outlets. The Mobile application is available for facilitating both merchants and customers to make payments.

- **Digital Village**

Your bank has implemented the Digital village at Kathirampatty (Near Erode, Tamilnadu) and Bandarupalli village (Near Guntur, Andhra Pradesh) to promote financial literacy among the people and to create awareness of bank's digital services. The objective is to open accounts for the residents of the village thereby enabling the villagers to do their day-to-day transactions through their account by using the touch-points like Cash Recycler, Automatic Passbook Kiosk, Micro ATM's, Tablets etc., The day-to-day transactions covered under this will range from withdrawal & deposit of cash, payment of utility bills, subscription to purchase of goods and the users are encouraged to use the internet banking in the Tablets available at the branch. Branch has been equipped with a Television facilitating the villagers to view the agriculture related programme and to make use of the same in their daily life. Restricted Wi-Fi facility at a radius of 1.5 kms has been provided to the villagers at free of cost to make use of our Bank's Digital Applications in their own gadget and operating the same from their home or at any location within the village. In order to provide novel shopping experience in the village, Bank has on-boarded few shopkeepers in the village on Micro-ATM as Banking Correspondence wherein the customers use their Aadhaar cum Biometric details to authorize the transactions during the purchase of household and grocery items. All these lead to the foundation for a less-cash society.

- **ISO: 27001**

Your Bank has been certified with ISO/IEC 27001:2013 conformance on 20th February 2018 by the certifying body M/s. TÜV SÜD South Asia Pvt. Ltd, Chennai. ISO 27001:2013 is a global certification which provide the standards for establishment, implementation, monitoring & review, maintenance & improvement and an overall management & control framework for managing an organization's information security risks.

It is indeed a privilege for the Bank to receive the ISO 27001:2013 Information Security Management System (ISMS) certification for few offices, which is a highly recognized trust mark for the highest levels of internal controls towards information security management, business continuity and disaster recovery. Information Security is an integral part of the overall Risk Management Framework at KVB. Through this certification, we have taken a step forward towards its vision and strategy to establish the highest standards of Corporate Governance, benchmarked with global best practices, ensuring that the organization is managed and monitored in a responsible manner.

DIRECTORS' REPORT

• Near Line Data Centre

Your bank has established a Near DC (NDC), so as to have a synchronous replication between DC & NDC and to ensure zero data loss. In case of any disaster at DC, the latest data can be retrieved from Near DC. The asynchronous replication between DC & DRS will still happen at the current time lag of 15-30 min to ensure cost effectiveness.

The NDC will be synchronously replicated from DC through storage based replication, which means that the data written at Data Centre Storage will be committed only after data being written on the Near Data Centre Storage. Your Bank is now able to achieve zero data loss on the critical applications being hosted in the Near Data Centre.

• National Electronic Toll Collection (NETC) – Acquiring

Electronic Toll Collection is a secure and interoperable solution for NHAI toll collection. NETC system will reduce wait time at toll counters, reduce fuel consumption and cash handling considerably. NETC system will use RFID tag which is pasted on the windshield of vehicle. The RFID Tag on the vehicle is read by the long range RFID reader hoisted on the NETC lanes which will allow vehicle without manual intervention.

We have taken one toll plaza at Rothak city towards acquiring of NETC tags and we are able to process the NETC tags affixed to the vehicles.

• e-Surveillance at offsite ATMs

During the FY 2017-18, your Bank has implemented remote monitoring of offsite ATM premises through e-Surveillance for 422 locations. The solution is capable of monitoring the ATM locations, Energy management, Incident control and alerting mechanism to alert the response team to take action on the incident monitored in the ATM premises. Centralized team is placed to monitor the ATM locations on 24x7 basis. Remote monitoring of ATM premises through e-Surveillance is one of the best initiative through "Internet of Things" to have better operational control with cost reduction. As on date, 515 ATMs and its locations are monitored under e-Surveillance.

• Implementation of Green Pin at ATMs

Your Bank has implemented "Green Pin" which helps the customers to generate their ATM pin on their own and it is a trend set towards the Green Initiative.

Financial Inclusion

With the basic objective of bringing the large unserved population under the banking mainstream, the Bank is striving towards a more inclusive growth by making financial products and services available to financially excluded and marginalized sections of the society in particular. As per the Government of India and the Reserve Bank of India directions, the Bank has been actively pursuing the agenda of Financial Inclusion (FI). The Bank has 61 Financial Inclusion (FI) Branches and also engaged 117 Business Correspondent Agents (BCAs) under Business Correspondents (BC) model. In addition, 38 Ultra Small Branches (USBs) are also operational in the Bank.

The business correspondents are paying the old age pension and the NAREGA payments to the eligible persons at their door steps using the hand held devices.

Pradhan Mantri Jan Dhan Yojana (PMJDY):

PMJDY is the initiative from Government of India for comprehensive financial inclusion of the households hitherto excluded from the purview of banking and empowering them with benefits and facilities provided by the banking industry. Accounts opened under PMJDY are issued with RuPay Debit card, accidental Insurance coverage to the extent of ₹ 1 lakh, life insurance cover of ₹ 30,000/-. The Bank was allotted 409 Urban Wards for implementation of PMJDY.

Performance highlights under PMJDY:

- Opened 1,89,296 accounts under PMJDY and mobilized a CASA deposit of ₹ 17.65 Crore.

Management Discussion and Analysis

The Management Discussion and Analysis Report for the year under review as stipulated under Regulation 34(2)(e) of the Listing Regulations is presented in a separate section forming part of this Annual Report.

Risk Management

Given the risks and challenges that the Bank faces, having a robust Risk Management system is of paramount importance for ensuring the financial stability and sustained growth of the Bank. A well designed Integrated Risk Management system has been put in place by the Bank to identify measure and manage the Risks faced by the Bank in the course of conducting its business. The Board sets the Risk Appetite of the Bank and the overall Risk Management strategies to be adopted by the Bank. The Risk Management and Asset Liability Management Committee (ALCO) of the Board assists in formulating various Risk Management Policies, oversee the implementation of the Risk Management strategies and monitor the risk levels across the Bank. The Bank has created a strong Risk Management structure at the Executive levels by forming Risk Committees with special focus – Credit Risk Management Committee (CRMC), Operational Risk Management Committee (ORMC), Market Risk Management Committee (MRMC) and Asset & Liability Management Committee (ALCO).

The Bank has a Risk Management Department (RMD) headed by the Chief Risk Officer (CRO) with requisite independence to effectively discharge the Risk Management Function. While RMD acts as a nodal centre for co-ordinating the Risk Controls and mitigation measures in the Bank, other Departments / Offices / Branches manage the risks in their respective business areas.

The Bank has Board-approved Risk Management Policy covering various operational areas that provides the foundation for formulating and approving business development initiatives and the day-to-day functioning of the Bank in accordance with the Risk Appetite set by the Board. These policies are updated from time to time and reviewed at least annually. It is also ensured that the policies are not only in line with the current regulatory guidelines but also provide sufficient opportunity for the Bank to maximize its growth and profits while maintaining the risks at acceptable levels.

Vigil Mechanism / Whistle Blower Policy

The Bank has in place the "Whistle Blower Policy" since 2011. The said Policy is in compliance with RBI Guidelines, provisions of the Companies Act, 2013 and the Listing Regulations. The Audit Committee of the Board quarterly reviews the Vigil Mechanisms in the Bank.

MANAGEMENT DISCUSSION AND ANALYSIS

Economic Overview

Global economic activity is gaining strength with most regions of the world growing at a robust pace. Global trade is expanding, due to gradually improving global demand and especially, the revival of investment activity in advanced and emerging market economies. Crude prices have firmed up on strong demand and geo-political concerns, necessitating the drawdown of inventories even as production cuts by the Organisation of the Petroleum Exporting Countries (OPEC) restrain supply. Metal prices have risen, fuelled by demand-supply imbalances and resurgent demand as economic prospects improve. Inflation remains subdued and below target levels across most regions despite improving demand and firming up of crude oil prices.

Generally buoyant global financial markets have been interrupted by bouts of volatility triggered by specific events including but not limited to: monetary policy renormalisation in the US and Europe; protectionist rhetoric and actions arising from the United States and the expected retaliatory response from major trading nations including India. These developments have an amplified effect on India and the Emerging Market Economies (EMEs). As these entities become more tightly coupled with the Global Economic System, they become more dependent upon it for capital that is essential for their development. Equally, these changes impinge upon trade, especially of EMEs, by restricting access and by impacting their terms of trade.

While economic trends have been generally positive - strong global growth and global merchandise trade growing faster than the economy - markets remain volatile. The resultant volatility in Foreign Exchange (FX), Bond and Capital markets pose a challenge to EMEs. These, when coupled with uncertainty arising from protectionist action on trade, cloud the global trade outlook. In an era of resurgent oil prices, EMEs reliant on imported oil - like India - face the addition issue of coping with rapidly increasing deficits on the current account. These concerns, in turn, feed into volatility in FX and interest rates.

Monetary policy stance has remained accommodative in many countries, with the Fed's policy normalisation progressing along expected lines. The US Fed raised its policy rate by 25 bps each in December 2017 and March 2018. In contrast, the ECB has maintained its ultra-accommodative policy stance and kept its rates at a record low. The strong euro is weighing on inflation and keeping it below target. The Bank of Japan has continued with its ultra-accommodative stance as inflation has

remained well below target. Monetary policy stances remained diverse in EMEs, with many central banks in key EMEs reducing policy rates.

The International Monetary Fund (IMF), in its World Economic Outlook, projects global growth to strengthen from 3.8% in 2017 to 3.9% in 2018 and 2019, driven by a projected pickup in growth in emerging market and developing economies and resilient growth in advanced economies. Risks remain from build-up in financial vulnerabilities and inward-looking protectionist policies, which could impinge on trade flows and consequently on productivity and efficiency.

Indian Economic Scenario

The Indian economic performance has been mixed this year. Economic activity in the first half was impacted as manufacturers and the trade adjusted to an important reform-GST, However, the economy bounced back during the second half. It is useful to enumerate the various reforms undertaken during the year:

- a. Introduction of Goods and Services Tax;
- b. Introduction of e-Way Bill;
- c. Recapitalisation of State Owned Banks;
- d. Enhancing affordable housing by providing 'infrastructure' status;
- e. Renewed emphasis on highway construction and the growth in Lane Kilometers laid on a daily basis under the Bharatmala Pariyojana Project;
- f. Several Measures to improve ease of doing business which in turn have helped in raising our ranking in the Ease of Doing Index; and
- g. Further refinement in the Aadhaar Stack and associated digital infrastructure that enable digital economic activity.

In addition, other sectoral initiatives undertaken include measures to revive the construction sector and promotion of exports in textile and apparel industry.

An outcome of demonetization has been an increased reliance of the general public on digital payment systems. As digital transactions increased during the year, they have provided new opportunities for banks and other financial service intermediaries. Further improvements in the digital payment architecture - India's Immediate Payment Service (IMPS) being the only system at

MANAGEMENT DISCUSSION AND ANALYSIS

level 5 in the Faster Payments Innovation Index (FPII) - has provided positive feedback further enhancing the rate of transformation.

This has led to the evolution of a new generation of *internet only* banks, specialist payment providers and a clutch of 'Fintech' companies that exploit new capabilities in the digital world. In addition to payments becoming increasingly digital, banking related processes are undergoing a similar revolution. India, with the advent of Aadhaar, high quality credit bureaus and digital enablement of other entities like ROC, MCA, etc., has transformed itself into an "information rich" country. This enables financial service intermediaries to engage customers' on an entirely virtual basis, consequently enhancing customer service quality and availability, while not impinging on quality of decision-making.

From a payment mechanism perspective, Debit Cards have replaced Credit Cards as the preferred payment mode in India. Debit cards accounted for 87.6% of the total card spends.

India's economy grew at its fastest in seven quarters in the January - March period, bolstered by strong performance in construction, manufacturing and public services, pointing to generalised revival. Gross Domestic Product (GDP) rose a better-than-expected 7.7 per cent in the fourth quarter, retaining India's ranking as the world's fastest-growing major economy, outpacing China by nearly a percentage point. The economy grew at the highest rate since September quarter of FY17 - the period immediately prior to demonetization in November 2016 - indicating that the economy has now taken advantage of the various reforms to post structurally higher growth rates.

India's Current Account Deficit (CAD), rose to USD 13.0 billion or 1.9 per cent of GDP in Q4 of 2017-18, up from USD 2.6 billion or 0.4 per cent of GDP in Q4 of 2016 -17, but moderated marginally from USD 13.7 billion or 2.1 per cent of GDP in the Q3 of 2017-18. In the capital account, foreign portfolio investment recorded net inflow of USD 2.3 billion in the quarter compared with an inflow of USD 10.8 billion in Q4 last year - on account of moderation in net purchases in both the debt and equity markets. While inflows through NRI deposits amounted to USD 4.6 billion in Q4 of 2017-18 as compared with USD 2.7 billion a year ago. Capital account surplus amounted to USD 25 billion during the quarter compared to USD 10.4 billion in the same period last year. The overall balance of payments ended in a surplus of USD 13.2 billion during the quarter, compared to USD 7.3 billion the same

period a year ago. For FY'18, the overall balance of payments surplus amounted to USD 41 billion compared to a surplus of USD 21.5 billion in FY'17. Indian rupee depreciated by 0.48% in the financial year 2017-18 as compared with 2.1% appreciation in previous financial year.

The fiscal deficit target had been revised for 2018-19 to 3.3% of the Gross Domestic Product (GDP) against the earlier target of 3%, after breaching the deficit target for 2017-18 of 3.5% of GDP. India's Wholesale Price Index (WPI) and Core Consumer Price Index (CPI) Inflation rises to 3.18 per cent and 4.6 per cent respectively in April 2018. Considering the developments like stabilization in GST implementation, credit growth, revival in investment activity and recapitalization of PSU banks, the growth prospects for Indian Economy including Banking Sector is positive for the FY 2018-19.

As per the World Economic Situation and Prospects 2018 report of the United Nations, the Indian economy is projected to grow at 7.2 per cent in 2018-19 and 7.4 per cent in 2019-20. The report indicates that the outlook for India remains largely positive, underpinned by robust private consumption and public investment as well as on-going structural reforms.

Developments in the Banking Sector

The banking sector, being the barometer of the economy, works in tandem with the broader economy. The Indian banking system continued to battle asset quality issues which turn enhanced capital requirements. Credit, Market and Liquidity Risk studies suggest that Indian banks are generally resilient and have withstood the global downturn well. Credit offtake improved during the year with the outstanding bank credit being ₹ 86.51 lakh crore as on March 31, 2018 - which constitutes a 10.3% growth as against the 8.2% growth of previous year. The credit offtake during the year was primarily driven by retail and services sector, which recorded double digit growth. Aggregate Bank deposits grew 6.7 per cent as of March 31, 2018.

On the Monetary policy front, the RBI reduced the repo rate only once by 25 basis points to 6.00% during FY18. The 10 year benchmark G-Sec yield rose by 72 basis points to 7.40% during FY18. RBI in its last bi-monthly policy for FY 2017-18 continued its neutral policy stance with the objective of achieving the medium term target for Consumer Price Index (CPI) inflation of 4% within a band of +/- 2%, while supporting growth. Call money rates closed higher than the Repo rate at 6.15%.

MANAGEMENT DISCUSSION AND ANALYSIS

The enactment of the Insolvency and Bankruptcy Code (IBC), 2016 and promulgation of the Banking Regulation (Amendment) Act, 2017 has significantly altered the financial landscape. The resolution of the long pending cases, under this law, will bolster bank balance sheet going forward. The Government's decision to infuse capital amounting ₹ 2.11 lakh crores to Public Sector Banks over the two years is a positive move.

Banking sector faces some significant challenges, these arise from asset quality challenges and convergence with Basel III and International Accounting Standards, concurrently. Going forward, addressing asset quality concerns and strengthening banks' balance sheets to reinvigorate credit growth remain key priorities, within the overall objective of promoting a competitive and efficient banking sector.

Improving accounting standards and nurturing competitive efficiency alongside niche competencies in the banking space are other elements of this drive. Strengthening and harmonising regulations across financial intermediaries and adherence to global standards are other focus areas. Concomitantly, promoting digitisation, managing technology-enabled financial innovations and dealing with cyber-security risks will entail strategic policy responses.

Reserve Bank of India introduced a revised framework for early identification and reporting of stressed assets vide their circular dated 12th February 2018. In a bid to hasten the resolution of bad loans, RBI has tightened rules to make banks identify and tackle non-payment of loan rapidly. RBI has also withdrawn the existing mechanism which included Corporate Debt Restructuring Scheme (CDR), Strategic Debt Restructuring Scheme (SDR) and Scheme for Sustainable Structuring of Stressed Assets (S4A).

India is one of the fastest growing economies in the world with a potential to be one of the largest global economies over the next decade. As India's growth increases; rapid urbanisation, enhanced spending on infrastructure are likely to increase the credit intensity within the economy. Also, the advancements in technology and digitization have brought the mobile, tab based and internet banking services to the fore. The banking sector is laying greater emphasis on providing improved service experience to their clients and also upgrading their technology infrastructure, in order to give banks a competitive edge. The improved prospects of global economic growth will be positive for the banking sector.

Opportunities and Threats

The changing environment in the Banking Sector which is faced with challenges also provides immense opportunities. Banking has moved from the Branch to the internet / mobiles, these enabling the customers interact with banks without boundaries of space and time constraint. As customers adapt to new technologies, they also demand new services which, in turn, increases business potential for the bank.

Your Bank, as a traditional institution with deep and abiding roots in the communities served, has made significant progress. We had transitioned from a "Commercial" bank to one that embrace all customer types - Retail, Commercial and Corporate. We continue to evolve our systems, products and processes to serve these diverse segments better.

Credit demand and growth opportunities are expected to be substantial given the environment. Your Bank is well positioned to take advantage of these opportunities and consequently grow rapidly. To realise this potential, your Bank has taken the following steps to create a dedicated

- a. Retail Asset (Loan) Sales Force; and
- b. Third Party Product Sales Force (to make available insurance and other third party products).

Fintechs continue to lead innovation in the banking industry. Not only are they offering innovative new products, they have also sharpened the focus on customer experience. Consequently, banks face a number of choices; replicate what fintechs are doing and respond with equally innovative solutions, become more symbiotic and less competitive, or pursue a mix of these strategies that fit their unique capabilities and market positions.

Your Bank has started developing digital customer solutions and also building the necessary digital skill set within the bank to cater the needs of SME and Home loan customers in its digital transformation in line with the thrust given to digital banking by the Government of India.

In this environment, it becomes incumbent on banks to have an effective cyber security policy as part of their overall risk management framework. Cyber-attacks entail an operational and reputational risk for banks, as they undermine customer confidence. The Reserve Bank of India has been issuing guidelines from time to time to enhance cyber-security awareness and to collaborate with the industry in upgrading cyber-security resilience on an ongoing basis.

DIGITAL TRANSFORMATION JOURNEY

Indians are witnessing a transformational change in the digital environment / ecosystem. Aadhaar, an initiative of the Central Government, has been adopted to drive digital transformation in many states. This and other innovations at the State and Central level have created an environment in which banks can provide financial solutions entirely digitally. Not only can products and services be made available this medium, new technologies such as Machine Learning and Analytics are identifying and creating opportunities that did not exist in the past. These opportunities are uniquely suited for the new medium of delivery i.e., through the internet / phone.

Your bank has a history of pro-actively engaging with new technologies ahead of most of competitors e.g., Lean branch, self-service kiosks and technology based products. Your Bank understands the opportunities and challenges that digitization brings. In order to ensure that your Bank continues to remain at the cutting edge of technology, the following initiatives have been taken:

- Study tours to South East Asia to benchmark our capabilities vis-a-vis industry leaders; and
- Retaining Boston Consulting Group (BCG) - a leading consulting firm to provide advice and support as Your Bank transitions to a digital institution.

MANAGEMENT DISCUSSION AND ANALYSIS

Your Bank, with the assistance of BCG has launched a digital transformation project that is expected to redefine the way in which customers' are dealt with and the products / services offered.

Your bank has started an exclusive digital centre of excellence, focussed on developing digital customer solutions and also building digital skill set within the bank. We have embarked on an ambitious journey over the last 6 months and have achieved the following milestones;

- Paperless, fully digital Working Capital Renewals for MSME customers;
- Digital Home loan solution - sanction in 15 Minutes - end to end paperless / seamless process;
- Digital Loan Against Property solution - sanction in 15 minutes;
- Instant Unsecured Personal Lending - sanction in 10 minutes; and
- Digital Retail Banking application - 3 step online account opening.

Customer response has been very encouraging. With the new tools, loans can be approved quickly with limited manual intervention enabling your Bank to expand its business significantly. Your Bank is in the process of establishing the foundation of a strong digital architecture. Your Bank is supported in this endeavour by about 10 other companies specialising in Digital Technologies. This new initiative takes advantage of new technologies such as: first, the AGILE method of execution; second, iterative design and development sprints to deliver Minimum Viable Products (MVP); third, the use of decision science to improve decision quality and reduce human bias etc., At the same time appropriate risk management processes are being followed including security reviews and audits to ensure risk mitigation and business continuity.

Over the next year, we are confident that your bank will continue to deliver more value to the customers through innovative and efficient digital solutions.

Outlook for the fiscal 2018-19

Economic activity is expected to gather pace in 2018-19, the prospects for Indian economy need to be assessed in the light of emerging global and domestic developments. Whilst broad indicators signal continuing strength in the global economy, the issues highlighted in the “Economic Overview” will drive actual outcomes. Mercantilist policies and the global re-calibration Central Bank Balance sheets are immediate threats to global growth. In this backdrop, global economic growth is expected to improve thus providing an opportunity both domestically and externally.

Whilst growth will provide an impetus to increase merchandise and other exports, increased oil prices and the concomitant increase in Current Account Deficits are expected to have a weakening impact on the Indian Rupee. This may lead to inflationary pressures in the local market, with knock-on effects on interest rates. Increased interest rates in the market place will impact investment decisions as well as corporate profits. Indian financial markets have changed over the years, with a large proportion of asset growth being concentrated in the Non-Bank sector. This sector may find itself vulnerable to interest rate movements and availability of credit from the banking system. Deposit growth continues to be suppressed as depositors take advantage of alternate avenues. The upshot of this scenario is increased lending and borrowing costs and the need of Banks to manage risks arising from pricing asymmetry between the two. Your Bank is cognizant of this scenario and is taking steps to minimise impact.

Whilst these challenges lie ahead, there are signs of revival of investment activity in the economy and the recent pick up in the growth of fixed investment can be expected to maintain momentum in the coming year.

GST related teething troubles have receded; credit offtake has improved in the recent months and is becoming increasingly

broad-based, which portends well for the manufacturing sector and new investment activity; large resource mobilisation from the primary market could strengthen investment activity further; the process of recapitalisation of public sector banks and resolution of distressed assets under the Insolvency and Bankruptcy Code (IBC) may improve the business and investment environment; global trade growth has accelerated, which should encourage exports and reduce the drag from net exports; the thrust on rural and infrastructure sectors in the Union Budget could rejuvenate rural demand and also crowd in private investment.

The International Monetary Fund (IMF) reaffirmed that India will be the fastest growing major economy in 2018, with a growth rate of 7.4 per cent that rises to 7.8 per cent in 2019 with medium-term prospects remaining positive. On 6th June 2018, the Reserve Bank of India increased the repo rate by 25 basis points, increasing the repo rate from 6.00% to 6.25%. The decision was taken in the second bi-monthly policy statement for the year 2018-19. The reverse repo rate has also seen an increase, increasing from 5.75% to 6.00%. The Marginal Standing Facility (MSF) Rate and the Bank Rate now stand at 6.50%. This is the first time the repo rate has increased in more than four years.

Risks and concerns

A robust risk management system will ensure long term financial security and success of the Bank. In order to ensure that the bank has a world class Risk Management Function, a Chief Risk Officer was hired in April 2018. He has been tasked with creating a contemporary Risk Management Department that has broad oversight of the various risks that the bank takes.

Whilst the above activity is being undertaken, Your Bank is leveraging its existing Risk Management architecture to ensure that risks assumed by it are within the defined risk appetite and is closely monitored. The overall responsibility of setting the Bank's risk appetite and effective risk management rests with the Board and apex level management of the Bank. The risk is managed through following Committees viz: Risk Management and Asset Liability Management Committee of the Board (RM&ALM), Credit Risk Management Committee (CRMC), Asset and Liability Management Committee (ALCO), Operational Risk Management Committee (ORMC) and Market Risk Management Committee (MRMC). These Committees work within the overall guidelines and policies approved by the Board.

MANAGEMENT DISCUSSION AND ANALYSIS

The Bank has Policies for identification, measurement and management of major risks - liquidity risk, market risk, credit risk and operational risk. These policies are reviewed and updated from time to time, keeping in view the dynamic business environment. Risk Management Department acts as a nodal centre for co-ordination with other Departments / operating units engaged in managing risk in their respective business areas.

A comprehensive Asset Liability Management (ALM) System is in place for effective management of Liquidity Risk and Interest Rate Risk, which are identified, measured and monitored by the ALCO through the prescribed statements viz: Statement of Structural Liquidity, Liquidity Coverage Ratio Statement, Statement of Interest Rate Risk Sensitivity (Traditional and Duration Gap methods) and Stress Testing on Liquidity and Earnings etc., ALCO discusses these statements in detail and takes corrective action where necessary. As per the Bank's ALM Policy, Contingency Funding Plan is reviewed on quarterly basis. Benchmark Prime Lending Rate (BPLR) / Base Rate (BR) / Marginal Cost of Lending Rate (MCLR) (Lending Rate) and Card Rates for Deposits are discussed and decided by ALCO on monthly basis as per RBI guidelines.

Credit Risk: The Bank has a standardized credit sanctioning procedure wherein the credit proposals are subjected to a rigorous process of appraisal. The Credit Risk Rating of proposals is mandatory for pre-sanction in the Bank. For retail loans e.g. Home Loans, the Bank uses risk scoring models. Your Bank will start using a statistically validated model for Loan Against Property and Working Capital Loans (small ticket) in the near future. For other advances, the Bank has a number of Board approved Credit Risk Rating Models for rating Manufacturers, Traders, Corporates etc. The Bank has in place various Credit Risk mitigation measures such as internal prudential limits on single borrower and group borrower exposure, industry specific and sector specific exposure, exposure to sensitive sectors, take-over norms, benchmark financial ratios, hurdle rate etc. A structured delegation of powers enables the Bank officials to make quick credit decisions with adequate controls being exercised over the decisions.

Market Risk: The market risk emanating from the Investment and Trading activities and funds management are controlled and mitigated through adherence to various Board approved policies and risk limits. The Front Office and Back Office functions are well segregated. An independent Mid-office function reporting to Risk Management Department closely monitors the risk

positions and transactions against policy prescribed limits. The Bank uses Risk Measurement metrics and stress testing tools to assess the resilience of investment portfolio and the aggregate market risk in this regard.

The Liquidity Risk and Interest Rate risk are monitored by the ALCO through the prescribed statements viz Statement of Structural Liquidity, Liquidity Coverage Ratio, Statement of Interest Rate Risk Sensitivity (Traditional approach and Duration Gap methods). ALCO meets at least once in a month and reviews the Liquidity position and Interest Rate risk of the Bank. A Contingency Funding Plan is prepared for each quarter and is placed before ALCO for discussion and guidance. ALCO also reviews and sets the Interest Rates on Deposits and Advances and facilitates achieving the desired product-mix and tenor-mix of the Assets and Liabilities of the Bank. Adherence to various risk limits pertaining to Liquidity Risk, Interest Rate Risk and Foreign Exchange Risk are also monitored by ALCO.

Operational Risk: Operational Risk is managed by having a well-established internal control system, which includes segregation of duties, standardized operating procedures, clear lines of authority and reporting etc. Operational risk events are typically associated with weak links in internal control systems or laxity in complying with the existing internal control systems and procedures. The Bank has put in place a structured Internal Audit mechanism. The Bank also has a Board approved Business Continuity and Disaster Recovery (BCP&DR) policy to manage disruptions to its operations.

The Bank has implemented the Basel III capital framework and is calculating the Capital to Risk Weighted Assets Ratio (CRAR) as per the guidelines laid down by the Reserve Bank of India. The Bank has adopted the Standardized Approach (SA) for Credit Risk, Basic Indicator Approach (BIA) for Operational Risk and the Standardized Duration Approach (SDA) for Market Risk for computing CRAR. Bank is planning to move to advanced approaches under Basel in a phased manner.

Cyber Risk: Cyber Risk can be defined as the risk connected to online business activity such as Internet Banking, Mobile Banking, Electronic Systems and storage of sensitive Information, over computer networks. Common categories of Cyber Risk include, inter-alia, Hacker Attacks, Data Breach, Virus / Malware transmission and Cyber Extortion. Of late, cyber-attacks are being carried out by skilled individuals / teams specifically targeting individual organizations and persons with increased sophistication. Financial gain continues to be a

MANAGEMENT DISCUSSION AND ANALYSIS

primary driver of the most sophisticated criminal offenses and presents evolving challenges as criminal networks reinvest the revenue they generate into developing more sophisticated capabilities. Thus every organisation must stay vigilant to defend cyber-attack as it can happen at any time, from anywhere. Aware of this risk, your Bank has constantly been upgrading its Security Infrastructure and implementing the Cyber Security Resilience framework, defined by the RBI.

Cyber security risks are products of three elements: threat, vulnerability and impact. Your Bank has the holistic risk picture based on periodic vulnerability assessment and threat intelligence from advisory bodies such as CERT-In (Indian Computer Emergency Response Team) and IB-CART (Indian Banks – Center for Analysis of Risks and Threats). Your Bank has also invested in advanced systems such as antivirus / anti-malware, threat protection, network firewalls and application firewalls; and continuing to invest to enhance the overall effectiveness of your Bank's security posture. This enables your Bank to prioritize and align its resources to detect and respond to cyber incidents quickly; and prevent emerging cyber security risks. In addition to the above protections, your Bank has taken Cyber Security Risk Insurance cover with Bajaj Allianz General Insurance Company,

Internal Control systems and their adequacy

A well-established independent audit system and structure is required to ensure, not only adequate internal control for safe and sound operations but also compliance to regulatory guidelines. Your Bank's Inspection and Audit Department (IAD) performs independent and objective assessment to monitor adequacy, effectiveness and adherence to internal control systems and procedures laid down by the management and extant regulations. This function supports the Bank's role in safeguarding its assets. The macro level guidance and direction on the control aspects is provided by the Audit Committee of the Board (ACB). The Committee takes an overall view on the internal control aspects and formulates the related policy guidelines.

Internal Audit is carried out under Risk Based Internal Audit (RBIA) as envisaged under Risk Based Supervision of RBI with focus on assessment of risks on the basis of inherent business risk and internal control mechanism. RBIA lays greater emphasis on the internal auditor's role in mitigating various risks while at the same time continuing the traditional risk management and control methods involving transaction testing etc. RBIA not only offers suggestions to the management for mitigating current

risks but also on potential future risks, thus playing a vital role in the risk management process of the Bank.

The IAD reports to the MD & CEO for day-to-day activities and to the Audit Committee for Audit Planning and Reporting. Your Bank had conducted the RBIA Audit of all the targeted branches & Divisional Offices for the year.

Your Bank subjects its operations to Concurrent Audit by various experienced audit firms to complement its Internal Audit function besides periodical audit under RBIA, wherein branches have been categorized into appropriate groups as per risk perception and are subject to varying degrees of audit. Concurrent Audit of selected branches are done by external audit firms taking into account risk perception and business turnover. During the year 2017-18, 369 branches covering 87% of the total business of the Bank were subjected to Concurrent Audit. Concurrent Audit also covers core activities such as Treasury operations, International Division, Regional Processing Centers, ATM cell, Demat cell, other operations and branches.

Apart from the RBIA and concurrent audits, your Bank also conducted revenue audit of all the branches for the year 2017-18 to check for any leakage of legitimate income.

Your Bank has also ventured into a unique area of integrating all audit system under a single software called e-Thic to enhance and provide focused attention in the audit mechanism taking cognizance of the various requirements borne out of experience.

Your Bank has also conducted SNAP audit in 718 branches to ensure that the compliance aspects in respect of internal control are followed at the branch level.

Your Bank has a system of re-appraisal of jewels pledged under Jewel Loan portfolio once in a year covering all branches which have the Jewel Loan portfolio. During 2017-18, in 718 branches, re-appraisals were carried out. As an added measure during RBIA inspection, Inspecting officials also carry out verification of purity of jewels on selected outstanding jewel bags as of inspection date.

Currency chests of the Bank are subjected to inspection at periodical intervals as per extant guidelines of RBI. Inspection of all the seven (7) currency chests of the Bank were covered during the year under report.

Information Security Audit is conducted once in a year covering all branches and back offices viz., Central Office, Divisional Offices, Regional Processing Centres etc. During the year under report, the Bank conducted IS Audit across 747 branches/offices.

MANAGEMENT DISCUSSION AND ANALYSIS

Your Bank has introduced the concept of Compliance Audit during 2017 at the branches to ensure compliance of RBIA remarks thereby ensuring quality compliance.

Your Bank has now been brought under revised Supervisory approach of RBI called SPARC-Supervisory Program for Assessment of Risk and Capital.

Your Bank has sharpened internal controls by instituting vigilance functions and introduction of a separate Staff Accountability Policy.

Credit Audit Department (CRAUD)

Credit Audit for advances with a fund based limits of ₹ 5 Cr and above or total exposure of ₹ 10 Cr and above, has been introduced from the fiscal 2017 onwards with the objective of improving the quality of credit portfolio with resultant favourable impact on the profitability and reduce stressed assets. It will also indicate possible remedial measures in respect of loan assets showing signs of weakness (such as the need for infusion of capital, need for strengthening the collateral etc.) as a pro-active measure for safeguarding Bank's interest. Your Bank has conducted Credit audit for 253 accounts for the fiscal 2017-18.

Credit Audit Department (CRAUD) will provide feedback to the Top Management of our Bank, based on the information gathered from reports of the various Credit Audits conducted, on the state of compliance with:

- Instructions / directives from the Government and Reserve Bank of India and;
- Bank's extant Credit Policy / procedures

Credit Audit aims at providing feedback and sending out early warning signals to the operating functionaries about the quality of advances that have been subjected to Credit Audit. Credit Audit may also indicate possible remedial measures in respect of loan assets showing signs of weakness (such as the need for infusion of capital, need for strengthening the collateral etc.) so that the concerned operating units and their Controlling Authorities can take proactive steps for safeguarding Bank's interests.

Credit Monitoring Group (CMG)

Your Bank has in place well-structured Credit Monitoring Group for continuous tracking of performance of loan assets. The core area and focus of CMG is to monitor the end use of credit facilities granted, besides ensuring the adherence to terms and conditions of sanctions. CMG is also ensuring for

Regulatory Requirements. The Early Warning Signals are identified in the loan assets quickly to initiate prompt corrective remedial follow up action to prevent slippages, minimize credit risk and improve Asset Quality.

Compliance Function

Bank has in place a comprehensive Compliance Policy, which was reviewed during FY18. The Bank has ensured that all Statutory / Regulatory and all other mandatory information's required to be sent to RBI and other regulators are submitted in time.

In terms of the RBI directions, the Compliance Department should have an Executive or senior staff member of the cadre not less than DGM cadre or equivalent designation as Chief Compliance Officer (CCO). In compliance with the above guidelines, the Compliance Department of the Bank is headed by Deputy General Manager & designated him as a Chief Compliance Officer.

The Department is functioning as a nodal point for regulators like RBI, SEBI, IBA and statutory authorities - PMLA, Income Tax, Sales Tax, Economic Offences Wing, Customs etc., for all compliance related matters. Nodal Compliance Officers (NCOs) are identified and appointed at Branches, Divisional Offices, Back Offices and Departments at Central Office for better compliance on an on-going basis.

The Bank is focusing on employee education through circulars, frequent contact session, etc., for creating compliance awareness and to sensitize them of the need for a strong compliance culture. Bank is continuously striving to put in place a robust compliance framework in the Bank to meet the challenges of the ever-changing dynamics in the compliance space.

Policy on Board Diversity

Bank has devised a 'Board Diversity Policy' in compliance with Listing Regulations, which articulated the Board's desire to be truly diverse - in perspective, experience, background, knowledge, skill, industry experience, gender, age etc. This diversity is, in view of the board, critical to ensure appropriate deliberation on complex issues as they arise which in turn lead to decisions appropriate for the issue discussed.

Nomination and Remuneration Committee (NRC) shall assess the appropriate mix of diversity, skills, experience and expertise required on the Board. NRC shall make recommendations to the Board in relation to appointment and maintain an appropriate mix of diversity, skills, experience on the Board and periodically review and report to the Board in relation to diversity on the Board.

Evaluation of Performance of the Board, Committees of the Board, and of Individual Directors

Board Evaluation framework has been formulated setting out the methodology and criteria for performance evaluation of the Board as a whole, Committees of the Board, Individual Directors including Independent Directors, Non-Independent Directors and the Managing Director & CEO, and the Chairman. The criteria and framework had been approved by the Nomination & Remuneration Committee (NRC) of the Board which is line with the provisions of the Companies Act, 2013, Listing Regulations and SEBI Guidance Note on the Board evaluation.

Process of Annual Performance Evaluation is being carried out on the basis of the Criteria and methodology laid down by the

NRC covering various aspects of the Performance of the Board and its Committees, including composition and quality, roles and responsibilities, processes and functioning, adherence to Code of Conduct and Ethics and best practices in Corporate Governance etc.,

Annual Performance evaluation of the Board as a whole, Independent Directors, Committees of the Board, MD & CEO and Chairman of the Board for FY 2017-18 was conducted in April 2018.

Performance of Independent Directors and of the Chairman was evaluated by the entire Board, excluding the Director being evaluated.

Performance of the entire Board was evaluated by the Board as a whole, based on inputs from Individual Directors on the basis of criteria such as Board composition and structure, effectiveness of Board processes, information and functioning, and other attributes such as discharging of roles and functions, professional conduct, governance, etc.

Performance of the Committees of the Board was evaluated after seeking inputs from the Directors, and evaluation was done on the basis of criteria such as composition of the Committee, roles and responsibilities, effectiveness of Committee meetings, etc.

Performance of the Chairman was carried out by the Board, as the Chairman being an Independent Director and that of the Non-Independent Directors was reviewed by the Independent Directors in a separate meeting of Independent Directors who had also reviewed the performance of the Board as a whole. The Chairman of the Board provided feedback to the Directors on individual basis, and significant highlights and action points with respect to the evaluation exercise were discussed among the Board members.

Independent Directors meeting was held on 27th March 2018 and the following agenda were carried out:

- Reviewed the performance of Non-Independent Directors and the Board as a whole.
- Assessment of quality, quantity and timelines of flow of information between the Bank Management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

CORPORATE GOVERNANCE REPORT

Dividend:

The Board of Directors of the Bank in its meeting held on May 25, 2018 has recommended dividend of ₹ 0.60 per equity share on the face value ₹ 2/- each (i.e., 30%) for the financial year ended 31st March 2018, subject to the approval of the statutory authorities and the shareholders at the ensuing Annual General Meeting (AGM) of the Bank. The dividend shall be paid during the period from 10th August 2018 to 16th August 2018.

Dividend Payments through electronic mode:

The Listing Regulations have directed that all listed companies shall mandatorily make all payments to shareholders including dividend, by using any of the electronic mode of payment facility approved by Reserve Bank of India viz., NACH, direct credit, RTGS, NEFT, etc.

In order to receive the dividend without loss of time, all the eligible shareholders holding shares in dematerialised form, are requested to update their bank account details as per the Core Banking System (CBS), including 9 digit MICR Code and 11 digit IFSC, e-Mail ID and Mobile No(s) with their respective Depository Participants. This will enable the making of payments of future dividends directly to your bank account through National Automated Clearing House (NACH) mode.

Shareholders holding shares in physical form are requested to update the bank account details as per the Core Banking System (CBS), including 9 digit MICR Code and 11 digit IFSC, e-Mail ID and Mobile No(s) with the Registrar and Share Transfer Agents

by mentioning the folio number and attaching a photocopy of the Cheque leaf of their present bank account and a self-attested copy of the PAN card and Bank Pass Book/Voter ID/Aadhaar Card to confirm the present address of the shareholder.

In case dividend paid by electronic mode is returned or rejected by the corresponding bank due to any reason then the Bank will issue a dividend warrant and print the bank account details available on its records on the said dividend warrant to avoid fraudulent encashment of the warrants.

Unpaid Dividend

As per the provisions of Sec 124 (5) of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 as amended from time to time, the Bank is statutorily required to transfer to the Investor Education & Protection Fund ('IEPF'), established by the Central Government, all dividends remaining unpaid/unclaimed for a period of 7 years, from the date they became due for payment. The CSR Committee confirms that the implementation and monitoring of CSR policy, is in compliance with CSR objectives of the Bank. The resources deployed and spending has increased over the previous Financial Year. Banks' CSR budget is guided by the vision of creating on ground impact for the society. Bank has been building its CSR capabilities on a sustained basis. Bank has aimed at long term projects and is in process of evaluating the feasibility of such options, simultaneously exploring new opportunities with a view to create a sustainable and measurable impact on society. Hence, the entire expenditure pertaining to FY 2017-18 could not be spent in this particular year. This subtle approach enabled the institution to learn and then scale up commitment with the society for new projects. Committee expressed its desire to enhance CSR spending to meet the Bank's CSR commitment under the provisions of the Act in the areas of promoting preventive healthcare, green environment projects, providing safe drinking water, sanitary pads vending machines at girls schools in rural areas and waste management process etc,. Further Bank will continue to strengthen its processes to evaluate all projects which will benefit the society in a large way as per the requirements and is passionately committed towards CSR objectives.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with ethics, transparency and accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes / No. Does it extend to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others?

The Bank has put in place a Code of Conduct and Ethics which is applicable to all its employees. The Code articulates the ethical principles and acceptable behaviour that the Bank's employees are expected to demonstrate to uphold the Bank's values. The Code covers aspects related but not limited to ethics, accountability, conflict of interest, bribery and corruption. The Bank has put in place a Vigilance policy relating to ethics / bribery / corruption which is applicable to all its employees. The Bank has adopted a "zero tolerance" approach to bribery and corruption and employees who commit such acts are dealt with firmly by imposing deterrent punishments as per the provisions of bi-partite settlement (workmen) and Discipline and Appeal Regulation (Officers). The Bank's HRD policy-vision document highlights building of a strong team with integrity and aligning human resources with business goals.

The Bank has also adopted Code of Conduct and Conflict of Interest Norms in respect of Board of Directors to guide the Board members in ensuring highest ethical standards in managing the affairs of the Bank.

The Bank has adopted 'Model Code of Conduct for Direct Selling Agents' and is applicable to all persons involved in marketing and distribution of any loan or other financial product of the Bank. Similarly the Bank in its procurement policy has stipulated code of business conduct and ethics to act with utmost integrity from employees and suppliers as well. The Bank is having executive level Committees viz., Product Development Committee, Standing Committee on Customer Service, Staff Accountability Committee and Outsourcing Committee to ensure these principles. Further various Board level committees such as Audit Committee, Customer Service Committee, CSR Committee, etc., To review periodically and take necessary actions to protect behavioural and ethical standards in operations.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?

KVB established various channels for its stakeholders to communicate their expectations / concerns. The details of the stakeholder complaints during the FY2017-18 are as below:

	Pending as on 31.03.2017	2017-18		% of cases resolved satisfactorily	Pending as on 31.03.2018
		Received	Redressed		
Customer Complaints	13	490	498	99.00	5
Investor Complaints	0	133	133	100.00	0
Consumer cases	33	3	9	25.00	27

Investor's grievances are redressed either directly by Investor Relation Cell of the Bank or through Bank's Registrar and Transfer Agents, M/s SKDC Consultants Ltd, Coimbatore. Complaints received on SCORES (a centralized web based complaint redress system of SEBI) are attended within stipulated time. The Bank conducts meeting of Standing Committee on customer service as per RBI guidelines to review the customer service aspects prevalent in the Bank and to take necessary corrective action on an on-going basis. The Bank always strives to have a cordial relationship with its stakeholders and attempts to have an amicable settlement of the dispute.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

- List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and / or opportunities.

Considering the nature of the business of the bank and the products / initiatives, the banking products are not directly related to environmental concerns, risks and opportunities. However, KVB provides sustainable banking products, to cater the needs of different classes of customers, which incorporates social or environmental concerns, risks and opportunities;

- Digital Banking Products - KVB mPAY, KVB e-Book, Green Pin, Green Receipt, KVB FASTag, LOS and etc.,
 - Financial Inclusion Products - KVB Grama Jyothi, KVB Kalpatharu, KVB JanDhan Yojna and etc.,
 - Loan Products - SOLAR Pump Agri Term Loan, PMJDY Over Drafts, Joint Liability Group (JLG) and other Central and State Governments sponsored schemes and flagship programs.
- For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):
 - Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain?

Considering the nature of the business of the bank and its products / initiatives, usage of energy, water and raw material are not a significant issue to the banking sector in general. The major resources consumed at the Bank are grid electricity and paper. KVB undertakes various initiatives for energy conservations at its premises. Some of such initiatives are discussed below:

- Alternative and Renewable Energy - (i) KVB owns 850 KW Wind Turbine Generator at Govindapuram village, Theni District in Tamil Nadu. Installed in the year 2011, Bank is utilising the wind power generated for its Registered & Central Office at Karur and also at its Divisional Office, Chennai premises. 17,08,987 units were generated during the fiscal under report by the wind mill. (ii) ATMs with solar powered / Lithium UPS installation in areas of fluctuating power supply.
 - Energy Efficiency - Star rated and energy efficient Air Conditioners, Diesel Gensets and replacement with LED lights in the office.
 - Resource Efficiency - Washrooms installed with proximity sensors to save water.
 - Waste Management - Strong emphasis on recycling of paper and e-Waste of the bank are disposed-off through authorized vendors.
- Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Considering the nature of the business of the bank and the products / initiatives resource consumption during usage by consumers is not a significant material issue for the banking sector in general.

However, KVB is always forge ahead in swift adoption of technology, digitize operation and offering technology based products, reducing the incidence of paper usage and travel among its customers. Among many initiatives in line with such perception, few are mentioned below:

- 'Green PIN' gives hassle-free setting up of ATM PIN by the customers themselves at their convenience.

- Go Green initiative to save paper utilised for ATM and BNRM transactions and digitized the customer receipts.
 - KVB FASTag - National Electronic Toll Collection (NETC) is a secure and interoperable solution for NHAI toll collection. NETC system will reduce wait time at toll counters, reduce fuel consumption and cash handling considerably.
 - Concept of Digital village implemented by the Bank at two places namely Kathirampatty village (Near Erode, Tamilnadu) and Bandarupalli village (Near Guntur, Andhra Pradesh). The objective is to open accounts for the residents of the village thereby enabling the villagers to do their day-to-day transactions through their account by using the touch-points like Cash Recycler, Automatic Passbook Kiosk, Micro ATM's, Tablets etc. The day-to-day transactions covered under this will range from withdrawal & deposit of Cash, payment of utility bills, subscription to purchase of goods and the users are encouraged to use the internet banking in the Tablets available at the branch.
3. Does the company have procedures in place for sustainable sourcing (including transportation)?
- (a) If yes, what percentage of your inputs was sourced sustainably?
- Considering the nature of the business of the bank and the products, the Bank does not have any raw material requirements. The primary resources consumed for its day-to-day operations are paper, grid electricity, water from municipal sources and diesel for DG sets in location with erratic availability of electricity. The Bank strives to achieve greater transparency, compliance and adoption of environmental and labour best practices.
4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?
- (a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?
- The nature of banking sector is service oriented and not material resource intensive. However, the Bank procures locally the daily use items and services such as stationery, food and beverages and local transport. It works with most local vendors to align them with the Bank's procurement requirements and standards.
5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%).
- Considering that the Bank is not a manufacturing unit, the waste generated at its offices is managed as per the waste disposal process. The Bank has procedures in place to dispose of e-waste through authorised e-waste vendors.
- Principle 3: Businesses should promote the wellbeing of all employees**
1. Please indicate the Total number of employees.
- Total No. of employees as on 31.03.2018 - 7956.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes / No / Not Applicable / Remarks (additional information).

As the Bank operates in highly customer-focused sector, product-related transparency and communications are of highest priority to it. In line with the guidelines of the Reserve Bank of India and service standards set by the Banking Codes and Standards Board of India (BCSBI), the Bank

provides transparent information on its products through its website (www.kvb.co.in) and at its branches. This includes details on product features, service charges and fees applicable. Interest rates are published and updated on the website as and when change in deposit interest for various deposit schemes. The Bank provides sufficient data to customers to understand their eligibility, applicable interest rates and service charges for consumer loan products. SMS alerts are sent to customers when any charges or fees are triggered or levied to their account. Similarly, customers are made aware of free monthly ATM transactions available through SMS alerts.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and / or anti-competitive behaviour during the last five years and pending as on end of financial year?

In the ordinary course of banking business, some customers and borrowers have disputes with the Bank which could

result in their filing a civil suit or a consumer complaint alleging deficiency of services. The Bank always strives to have a cordial relationship with its customers / borrowers and attempts to have an amicable settlement of the dispute.

4. Did your company carry out any consumer survey / consumer satisfaction trends?

The Bank on a continuous basis measures the satisfaction levels of customers transacting across various sectors. As part of this exercise, the customer's feedback and satisfaction levels with the transaction experience are measured. This feedback is then analysed and the insights from the same are implemented to improve products and processes and enhance the service quality of the Bank. A standing committee on customer service, chaired by Managing Director & CEO / President & COO besides 3 Senior Executives of the Bank evaluate feedback on quality customer service on a quarterly intervals and place a review note to the customer service committee of the Board.

We have audited the standalone accompanying financial statements of The Karur Vysya Bank Limited ('the Bank'), which comprise the Balance Sheet as at 31st March 2018, the Profit and Loss Account, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information. Incorporated in these Financial Statements are the returns of 5 branches and 1 office audited by us, 848 branches / offices audited by Statutory Branch Auditors.

Management's Responsibility for the Standalone Financial Statements

2. The Bank's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Bank in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and provisions of Section 29 of the Banking Regulation Act, 1949 and circulars and guidelines issued by the Reserve Bank of India ('RBI') from time to time. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which

are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit of the Bank including its branches in accordance with Standards on Auditing ('the Standards') specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Bank's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Bank's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Banking Regulation Act, 1949 as well as the Companies Act, 2013 in the manner so required for banking companies and give a true and fair view in conformity with accounting principles generally accepted in India:
 - a. In case of the Balance Sheet, of the state of affairs of the Bank as at 31st March, 2018,
 - b. In case of the Profit and Loss Account of the profit for the year ended on that date; and
 - c. In case of the Cash Flow Statement, of cash flows for the year ended on that date.

INDEPENDENT AUDITOR'S REPORT

Annexure A to the Independent Auditor's Report of even date on the Financial Statements of The Karur Vysya Bank Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

1. We have audited the internal financial controls over financial reporting of The Karur Vysya Bank Limited ('the Bank') as at 31st March 2018 in conjunction with our audit of the financial statements of the Bank for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Bank's Board of Directors is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI')". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') and the standards on Auditing ('the Standards'), issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial

controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A bank's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A bank's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the bank;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the bank are being made only in accordance with authorizations of management and directors of the bank; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the bank's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

INDEPENDENT AUDITOR'S REPORT

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Bank has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

SCHEDULE 17 - SIGNIFICANT ACCOUNTING POLICIES

A. BACKGROUND

The Karur Vysya Bank Limited, incorporated in Karur, India is a publicly held banking company governed by the Banking Regulation Act, 1949 and is engaged in providing a wide range of banking and financial services including commercial banking and treasury operations.

B. BASIS OF PREPARATION

The financial statements are prepared following the going concern concept, on historical cost basis and conform to the Generally Accepted Accounting Principles (GAAP) in India which encompasses applicable statutory provisions, regulatory norms prescribed by the Reserve Bank of India (RBI) from time to time, notified Accounting Standards (AS) issued under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 to the extent applicable and current practices prevailing in the banking industry in India.

Use of Estimates:

The preparation of the financial statements require management to make estimates and assumptions that affect the reported amounts of assets and liabilities including contingent liabilities as of the date of the financial statement and the reported income and expenses during the reported period. The Management believes that the estimates and assumptions used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. The differences, if any between estimates and actual will be dealt appropriately in future periods.

C. PRINCIPAL ACCOUNTING POLICIES

1. Revenue Recognition

Income and Expenditure are generally accounted on accrual basis, except otherwise stated.

Interest income, other than on non-performing assets, is recognized on accrual basis. In respect of non-performing Advances/Investments and Funded Interest Term Loans (FITL) accounts, the interest income is recognized upon realisation, as per prudential norms prescribed by the RBI.

(i) Commission on Bank Guarantees, (ii) Commission on Letter of Credit, (iii) annual fee on cards, (iv) bancassurance

commission, (v) locker rent are accounted on receipt basis. Dividend income and Interest on Income Tax Refund is recognised when the right to receive payment is established.

2. Investments

Investments are categorized into three categories – (i) Held to Maturity, (ii) Held for Trading and (iii) Available for Sale, with sub-classification under each category viz., (i) Government Securities, (ii) Other Approved Securities, (iii) Shares, (iv) Debentures & Bonds, (v) Subsidiary and Joint Ventures and (vi) Others – Units of Mutual Funds, Certificate of Deposits etc., in accordance with the guidelines issued by Reserve Bank of India.

The category under which the investments would be classified is decided at the time of acquisition.

Shifting of securities among the categories is accounted at the least of the acquisition cost / book value / market price prevailing on the date of shifting and depreciation, if any, on such shifting is fully provided for.

Investments classified under HTM category are carried at acquisition cost, except in cases where the acquisition cost is higher than the face value, the premium is amortized over the remaining period to maturity.

Investments classified under HFT and AFS categories are marked to market at regular intervals and net depreciation within each sub-classification is recognized and provided for, while net appreciation is ignored.

The Bank follows the weighted average cost method for determining cost and accounting of profit on sale of investments.

Brokerage, commission and STT etc., pertaining to investment, paid at the time of acquisition are charged to the profit and loss account.

Security Receipts are valued as per Net Asset Value (NAV) provided by the issuing Asset Reconstruction Company from time to time.

3. Advances

Advances are classified as Performing and Non-performing Assets and provisions are made as per the prudential norms prescribed by RBI. Advances stated in the Balance Sheet are net of provisions, claims received from credit guarantee institutions etc. Amounts recovered against debts

SCHEDULES

written off is recognised as income and provisions no longer considered necessary based on the current status of the borrower, is reversed in the profit and loss account.

4. Fixed Assets

Premises and other fixed assets are accounted for at historical cost as reduced by depreciation written off. The cost includes cost of purchase, taxes thereon (net of input tax credit claimed) and all expenditure such as site preparation, installation cost and professional fees. Subsequent expenditure incurred on the assets already in use are capitalised only when it increases the future benefits from such assets or their functioning capacity.

5. Depreciation

Depreciation on Fixed Assets is provided on Straight Line Method (SLM) in respect of all fixed assets other than buildings. Computers, including software are depreciated under SLM at the rate of 33.33% as per Reserve Bank of India guidelines.

Depreciation on assets purchased and sold during the year is provided on pro rata basis.

Useful life of the assets has been estimated in line with Schedule II of the Companies Act, 2013, as determined by the management, as under –

Class of Asset	Useful life (years)	Method
a. BUILDING	58	WDV
b. PLANT & MACHINERY		SLM

6. Foreign Exchange Transactions

Monetary Assets and Liabilities in Foreign Currencies, Outstanding Forward Contracts and Spot and Forward Positions are translated at the Exchange Rates prevailing at the year end as notified by FEDAI and the resultant Profit/Loss is recognised in the Profit and Loss Account.

Income and expenditure items are translated at the exchange rates ruling on the respective dates of the transaction.

Guarantees, Letters of Credit, Acceptances, Endorsements and other obligations in foreign currencies are translated at Closing Spot Rates notified by FEDAI at the Balance Sheet date.

7. Derivatives

Interest rate swaps pertaining to trading position and which are outstanding as on Balance Sheet date are marked to market and net appreciation is ignored and net depreciation is recognized in the Profit & Loss Account. Foreign Currency Options and Swaps are accounted in accordance with the guidelines issued by FEDAI.

8. Employee Benefits

Contributions to the Provident Fund and 'Defined Contributory Pension Scheme' are charged to the Profit and Loss account. Contributions to the recognised Gratuity Fund, Pension Fund and other defined employee benefits are made on accrual basis as per actuarial valuation as at the Balance Sheet date and net actuarial gains/ losses are recognised as per the Accounting Standard 15. Short term benefits are accounted for as and when the liability becomes due.

Options as and when granted under Employee Stock Option Scheme (ESOS) are valued and accounted for using Intrinsic Value Method.

9. Segment Reporting

The Bank recognises the Business Segment as the Primary Reporting Segment and Geographical Segment as the Secondary Reporting Segment, in accordance with the RBI guidelines and in compliance with the Accounting Standard 17.

Business Segment is classified into (a) Treasury (b) Corporate and Wholesale Banking (c) Retail Banking and (d) Other Banking Operations.

SCHEDULES

10. Earnings Per Share

Earnings per share are calculated by dividing the net profit or loss for the year attributable to the equity share-holders by the weighted average number of equity shares outstanding during the year.

Diluted Earnings per equity share are computed by using the weighted average number of equity shares and dilutive potential equity share outstanding as at the year end.

11. Income-tax

Tax expenses comprise current and deferred taxes. Provision for current Income Tax is made after due consideration of the judicial pronouncements and legal opinion.

Deferred income tax recognizes timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax Assets are recognized in the books of account to the extent of their future reversibility. Deferred Tax Liabilities are recognized fully in the year of accrual.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date.

12. Impairment of Assets

The Bank assesses at each balance sheet date whether there is any indication that an asset may be impaired. Impairment loss, if any, is provided in the Profit and Loss

Account to the extent the carrying amount of assets exceeds their estimated recoverable amount.

13. Provisions and Contingent Liabilities

A provision is recognised when there is an obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation as at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

In case where the available information indicates that the loss on the contingency is reasonably possible but the amount of loss cannot be reasonably estimated, a disclosure is made in the financial statements.

Contingent Assets are not recognized since this may result in the recognition of income that may never be realized.

14. Net Profit

The net profit disclosed in the Profit and Loss Account is after providing for:

- Provision for Taxes, Standard Assets and Non Performing Assets;
- Provision for Depreciation on investments;
- Provision for employee benefits; and
- Other usual and necessary provisions.

3.3.3 Disclosures on risk exposure in derivatives:

Qualitative Disclosure:

Structure, Organisation, Scope, Nature of risk management in derivatives:

The organization structure consists of Treasury Department which is segregated into three functional areas i.e., front office, mid office and back office.

Rupee derivative deals are executed for hedging or for trading. The risk in the derivatives portfolio is monitored by assessing the mark to market (MTM) position of the portfolio on a daily basis and the impact on account of probable market movements. The overall portfolio is operated within the risk limit fixed by the Bank.

Forex derivative deals are offered to clients on back-to-back basis. The outstanding deals are marked to market on monthly basis. The MTM values are informed to the clients every month and margin topped up where required.

SCHEDULES

The Board reviews the risk profile of the outstanding portfolio at regular intervals.

Accounting:

Accounting Policies as per RBI guidelines have been adopted. The hedge swaps are accounted for like a hedge of the asset or liability. The income / expense on hedge swaps are accounted on accrual basis except where swap transactions whose underlying is subjected to mark to market. Such hedge swaps are marked to market on a monthly basis and the gain / losses are recorded as an adjustment to the designated asset / liability. The non-hedge swaps are marked to market every month and the MTM losses in the basket are accounted in the books while MTM profits are ignored.

Collateral Security:

As per market practice, no collateral security is insisted on for the contracts with counter parties like Banks / PDs etc. For deals with Corporate Clients, appropriate collateral security / margin etc. are stipulated whenever considered necessary.

Credit Risk Mitigation:

Most of the deals are contracted with Banks / major PDs/ highly rated clients and no default risk is anticipated on the deals with them.

Dealing in derivatives is centralized in the treasury of the Bank. Derivative transactions are entered into by the treasury front office. Treasury middle office conducts an independent check of the transactions entered into by the front office and ensures compliance with various internal and regulatory guidelines. Back Office undertakes activities such as confirmation, settlement, accounting, risk monitoring and reporting.

The market making and the proprietary trading activities in derivatives are governed by the derivatives policy of the Bank, which lays down the position limits, stop loss limits as well as other risk limits. As far as forex derivatives are concerned, they are undertaken on back-to-back basis only.

Risk monitoring on derivatives portfolio is done on a daily basis. The Bank measures and monitors risk using PVBP (Price Value of a Basis Point) approach. Risk reporting on derivatives forms an integral part of the management information system and the marked to market position and the PVBP of the derivatives portfolio is reported on a daily basis to the top management.

Risk monitoring on forex derivatives is done on a monthly basis. It is reported to the top management and related clients on monthly basis.

Qualitative Disclosure

(a) Information relating to the composition and mandate of the Nomination & Remuneration (NRC) Committee:

The Nomination & Remuneration Committee (NRC) of the Board consists of five Directors. The Composition complies with RBI guidelines, provisions of Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015 ('SEBI LODR').

The mandate of Nomination and Remuneration Committee includes:

1. Recommendation of appointment / reappointment of Directors, MD&CEO / WTD of the Bank.
2. Recommending to the Board a policy relating to the remuneration for the MD&CEO / WTD, Part-time (Non-Executive) Chairman of the Bank and President & COO.

SCHEDULES

3. Devising a policy on diversity of Board Of Directors.
4. Framing of guidelines for the ESOS and considering granting of ESOS, administering and supervising the ESOS with particular reference to quantum of options to be granted, grant price, vesting price, exercise period etc., to the eligible employees.
5. No external consultants' advice had been sought by the Bank in the remuneration process.
6. Compensation Policy of the Bank, is approved by the Board, pursuant to the guidelines issued by RBI. The Policy is applicable to the MD&CEO / WTD, Non-Executive Directors, Part-time (Non-Executive) Chairman and President & COO. All other employees' upto Scale III cadre are covered under Industry level Bi-partite settlements of IBA.
7. To perform any other functions or duties as stipulated by the Companies Act, RBI, SEBI, Stock Exchanges and any other regulatory authority or under any applicable laws as may be prescribed from time to time.

(b) Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy:

NRC is entrusted with the responsibility of recommending to the Board an appropriate compensation payable to the Part-time (Non-Executive) Chairman, MD&CEO / WTD and the President & COO in the light of the guidance from the regulator from time to time.

The Compensation payable to MD&CEO / WTD of the Bank is divided into fixed and variable components. The fixed remuneration represents a significant proportion of total remuneration taking into account all relevant factors including the prevalent industry practices. Variable pay shall relate to the performance of the Bank and there is proper balance between fixed pay and variable pay. Variable pay must be paid on the basis of achievement of certain basic targets such as reaching business figures including net profits and other qualitative factors taking into account the extraordinary items, appropriate risk management and efficient consumption of capital and comparison of results with industry performance.

As the Bank is a party to the Bipartite settlement of IBA, the compensation of staff engaged in control functions like Risk and Compliance are covered under these Bipartite settlement which cover all employees upto the scale VII cadre. Recently, Bank has given its mandate to cover all employees till the Scale III cadre.

(c) Description of the ways in which current and future risks are taken into account in the remuneration processes. It should include the nature and type of the key measures used to take account of these risks:

NRC may use a wide variety of measures of credit, market and liquidity risks in implementation of risk adjustment. The risk adjustment methods should preferably have both quantitative and judgmental elements. Bank has system of measuring and reviewing these risks.

The risk parameters used for setting of performance objectives and for measuring performance which includes besides financial performance, adherence to internal processes and compliance. Compensation is effectively aligned in both fixed and variable pay. There is a proper balance between fixed and variable pay. Bank shall not offer any guaranteed bonus based on its performance in tune with the sound risk management principles. The Bank shall not grant any severance pay to the MD&CEO/ WTD and Bank shall not provide any facility or fund or permit MD&CEO/ WTD to insure or hedge his/her compensation structure to offset the risk alignment effects embedded in the compensation package.

(d) Description of the ways in which the bank seeks to link performance during a performance measurement period with levels of remuneration:

Bank would ensure that the compensation is adjusted to all types of risk, symmetrical with risk outcomes as well as sensitive to the time horizon of risk.

The variable pay could be in cash, stock linked instruments or a mix of both. Variable pay shall relate to the performance of the Bank.

SCHEDULES

Variable pay is considered only for MD&CEO / WTD of the Bank. Variable pay shall not exceed 40% of the fixed pay in any year.

For the Part-time (Non-Executive) Chairman of the Bank, only fixed pay / salary is payable apart from the sitting fees payable for attending the Board or Board Committee Meetings.

In the event of negative growth of the bank and or the relevant line of business in any year, the deferred compensation shall be subjected to malus and clawback arrangements in tune with the RBI guidelines.

(e) A discussion of the bank's policy on deferral and vesting of variable remuneration and a discussion of the bank's policy and criteria for adjusting deferred remuneration before vesting and after vesting:

For MD&CEO / WTD: If the variable pay is significant, then the bank would defer the payment over a period of three years.

(f) Description of the different forms of variable remuneration (i.e. cash, shares, ESOPs and other forms) that the bank utilizes and the rationale for using these different forms:

The Bank has paid only fixed remuneration to MD&CEO / WTD for the year 2017-18 as per RBI approval.

NRC may recommend a reasonable number of Stock Options under the ESOS to MD&CEO / WTD while granting ESOS as per SEBI Regulation. ESOS shall not form part of the total compensation of MD&CEO / WTD as per the Compensation Policy.

The Bank shall not grant any severance pay (other than the terminal benefits and gratuity as per the provisions) to the MD&CEO / WTD.

Bank shall not provide any facility or funds or permit MD&CEO / WTD to insure or hedge his/her compensation structure to offset the risk alignment effects embedded in the compensation package.

6.1 Qualitative disclosure around LCR

The LCR promotes short term resilience of banks to potential liquidity disruptions by ensuring that they have sufficient High Quality Liquid Assets (HQLAs) to survive an acute stress scenario lasting for 30 days.

Objective:

The LCR standard aims to ensure that a bank maintains an adequate level of unencumbered HQLAs that can be converted into cash to meet its liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario specified by supervisors. At a minimum, the stock of liquid assets should enable the bank to survive until day 30 of the stress scenario, by which time it is assumed that appropriate corrective actions can be taken.

The LCR requirement is binding on banks from January 1, 2015; with a view to provide a transition time for banks, the requirement has been fixed at minimum 60% for the calendar year 2015 i.e. with effect from January 1, 2015 and rise in equal steps to reach the minimum required level of 100% from January 1, 2019 as per the time line given below:

	January 1, 2015	January 1, 2016	January 1, 2017	January 1, 2018	January 1, 2019
Minimum LCR	60%	70%	80%	90%	100%

Composition of HQLA:

- Cash in hand
- Excess CRR balance as on that particular day
- Excess Government Securities in excess of minimum SLR requirement
- Government Securities within the mandatory SLR requirement to the extent allowed by RBI under MSF (Presently to the extent of 2% of NDTL as allowed for MSF)
- Facility to avail liquidity for liquidity coverage ratio at 9% of NDTL
- AAA rated bonds and AA- & above bonds and adding marketable securities representing claims guaranteed by sovereigns having risk weights higher than 20% but not higher than 50%
- Common equity shares not issued by the bank / financial institution / NBFC or any of its affiliated entities and included in NSE CNX Nifty and / or S & P BSE Sensex indices.

BASEL III – PILLAR 3 DISCLOSURES

PILLAR III DISCLOSURES UNDER THE NEW CAPITAL ADEQUACY FRAMEWORK (31.03.2018)

(BASEL III)

1. SCOPE OF APPLICATION (DF 1)

Karur Vysya Bank Limited is a Scheduled Commercial Bank which was incorporated on June 22, 1916 at Karur. The Bank has no subsidiaries. As on 31.03.2018, the Bank does not have investment in any insurance entity.

2. CAPITAL ADEQUACY AND CAPITAL STRUCTURE (DF 2)

Under Basel III banks are required to maintain a minimum Pillar 1 Capital to Risk-weighted Assets Ratio (CRAR) of 9% on an on-going basis (other than capital conservation buffer, counter cyclical capital buffer etc.). Banks are required to maintain a minimum capital conservation buffer of 1.875% additionally from the year ended 31.03.2018.

Capital funds are classified into Tier-I and Tier-II capital under the capital adequacy framework.

Tier-I Capital:

The Bank's Tier I capital shall consist of Common Equity Tier I and admissible Additional Tier I capital. Common Equity Tier 1 (CET1) capital must be at least 5.5% of risk-weighted assets (RWAs) i.e. for Credit risk + Market risk + Operational risk on an ongoing basis and Additional Tier I capital can be a maximum of 1.5%, thus making total Tier I capital to be at least 7%.

In addition to the minimum Common Equity Tier 1 capital of 5.5% of RWAs, banks are also required to maintain a Capital Conservation buffer (CCB) of 2.5% of RWAs in the form of Common Equity Tier 1 capital progressively from Financial Year 2016.

Tier-I capital includes paid-up equity capital, share premium, statutory reserves, capital reserves, other disclosed free reserves and balance in Profit and Loss account at the end of the previous financial year. Profits in current financial year may be included in Tier I on fulfillment of certain conditions regarding incremental provisions for non-performing assets.

Equity Capital

The Bank has authorized share capital of ₹. 200 crore comprising of 100,00,00,000 equity shares of ₹. 2/- each. As on 31.03.2018 the Bank has Issued, Subscribed and Paid-up capital of ₹. 145.33 crore constituting 72,66,39,371 shares of ₹. 2/- each.

Tier-II Capital:

The Bank's Tier II capital includes general provision for standard assets and subordinated debt instruments (lower Tier II bonds) eligible for inclusion in Tier II capital.

Provisions or loan-loss reserves held against future, presently unidentified losses, which are freely available to meet losses which subsequently materialize, will qualify for inclusion within Tier II capital. Tier II capital will also include debt capital instruments issued by banks and premium, if any and Revaluation Reserves.

Tier II Subordinated Debt (Lower II bonds)

As on 31.03.2018, the Bank had an outstanding subordinated debt (Unsecured Redeemable Non-convertible subordinated lower Tier II Bonds) aggregating ₹. 1500 million, the details of which are stated below:

(₹. in million)

2.1 CAPITAL ADEQUACY ASSESSMENT PROCESS

The Bank has a process for assessing its overall capital adequacy in relation to the Bank's risk profile and a strategy for maintaining its capital levels. The process ensures that the Bank has adequate capital to support all the material risks and an appropriate capital cushion. The Bank identifies, assesses and manages comprehensively all risks that it is exposed to through robust risk management framework, control mechanism and an elaborate process for capital calculation and planning.

The Bank has formalized and implemented a comprehensive Internal Capital Adequacy Assessment Process (ICAAP). The Bank's ICAAP covers the process for assessment of the adequacy of capital to support current and future projections / risks.

The Bank has a structured process for the identification and evaluation of all risks that the Bank faces, which may have a material impact on its financial position. The Bank considers the following risks as material risks it is exposed to in the normal course of its business and therefore, factors these while assessing / planning capital :

- Credit Risk
- Market Risk
- Operational Risk
- Liquidity Risk
- Interest Rate Risk in the Banking Book
- Concentration Risk
- Strategic Risk
- Reputational Risk

The Bank has also implemented a Board approved Stress Testing policy. Stress Testing involves the use of various techniques to assess the Bank's potential vulnerability to extreme but plausible ("stressed") business conditions. Typically, this relates, among other things, to the impact on the Bank's profitability and capital adequacy. Stress Tests are conducted on the Bank's on and off balance sheet exposures to test the impact of Credit risk, Market risk, Liquidity risk and Interest Rate Risk in the Banking book (IRRBB). The stress test results are put up to the Risk Management Committee (RMC) of the Board for their review and guidance. The Bank

BASEL III – PILLAR 3 DISCLOSURES

periodically assesses and refines its stress tests in an effort to ensure that the stress scenarios capture material risks as well as reflect possible extreme market moves that could arise as a result of market conditions. The stress tests are used in conjunction with the Bank's business plans for the purpose of capital planning in the ICAAP. In line with the RBI guidelines for implementing the New Capital Adequacy Framework under Basel III, the Bank has successfully migrated to the framework from April 1, 2013.

In accordance with the RBI's requirement, the Bank has continued to adopt Standardized Approach (SA) for Credit Risk and Basic Indicator Approach (BIA) for Operational Risk to compute capital as on 31.03.2018. Besides this, the Bank continues to apply the Standardized Duration Approach (SDA) for computing capital requirement for Market Risk. RBI has prescribed banks to maintain a minimum CRAR of 10.875% with regard to credit risk, market risk and operational risk.

2.2 CAPITAL ADEQUACY AS ON 31.03.2018

The total Capital to Risk Weighted Assets Ratio (CRAR) as per Basel III guidelines works to 14.43 % as on 31.03.2018 (as against minimum regulatory requirement of 10.875%). The Tier I CRAR stands at 13.92 %. The Bank has followed the RBI guidelines in force to arrive at the eligible capital, risk weighted assets and CRAR.

CET 1 %	13.92%

3. RISK EXPOSURE AND ASSESSMENT

The Bank is exposed to various types of risk such as Credit, Market, Operational, Liquidity, Interest Rate, Reputational, Legal and Strategic risk. The Bank has separate and independent Risk Management Department in place which oversees the management of all types of risks in an integrated fashion.

The objective of risk management is to have optimum balance between risk and return. It entails the identification, measurement and management of risks across the various businesses of the Bank. Risk is managed through framework defined in policies approved by the Board of Directors and supported by an independent risk management function which monitors and takes corrective action so that the Bank operates within its risk appetite. The risk management function attempts to anticipate vulnerabilities through quantitative or qualitative examination of the embedded risks in various activities. The Bank continues to focus on refining and improving its risk management systems. In addition to ensuring compliance with regulatory requirements, the Bank has developed robust internal systems for assessing capital requirements keeping in view the business objectives.

The Board of Directors (BOD) approves the strategies and policies for Risk Management, based on recommendations of the Risk Management Committee (RMC) of the Board set up to focus upon risk management issues. The Risk Management Committee of the Board reviews various aspects of risk arising from the businesses undertaken by the Bank. Operating level risk committees comprising of senior management viz. Asset Liability Management Committee (ALCO), the Operational Risk Management Committee (ORMC), Market Risk Management Committee (MRMC) and the Credit Risk Management Committee (CRMC) oversee specific risk areas. These committees in turn provide inputs for review by the Risk Management Committee (RMC) of the Board.

3.1 Risk Management Committee (RMC) of the Board:

The Risk Management Committee of the Board is the primary tier to oversee implementation of Board approved strategies and policies, recommend setting up of tolerance limits wherever required, monitor implementation of strategies and policies, as well as adherence to prescribed tolerance limits etc. The RMC oversees the functioning of Executive level Committees for risk management.

BASEL III – PILLAR 3 DISCLOSURES

3.2 Executive Level Committees:

At Executive Management level, the organizational responsibilities for implementing and monitoring Board

approved strategies and policies and adhering to prescribed tolerance limits etc. are as under:

Sr. No.	Executive Level	Committee Focus Area	Chairman
1	Asset Liability Management Committee (ALCO)	All aspects of Asset Liability Management, Monitoring & Control, Interest rate review etc.	Chief Operating Officer
2	Credit Risk Management Committee (CRMC)	All aspects of Credit Risk Management, Monitoring & Control	MD&CEO
3	Market Risk Management Committee (MRMC)	All aspects of Market Risk Management, Monitoring & Control.	Chief Operating Officer
4	Operational Risk Management Committee (ORMC)	All aspects of Operational Risk Management, Monitoring & Control.	Chief Operating Officer

4. CREDIT RISK (DF 3)

4.1 Credit risk is defined as the possibility of losses associated with diminution in the credit quality of borrowers or counterparties. In a bank's portfolio, losses stem from outright default due to inability or unwillingness of a customer or counterparty to meet commitments in relation to lending, trading, settlement and other financial transactions.

The Bank adopts the definition of 'past due' and 'impaired credits' (for accounting purposes) as defined by Reserve Bank of India under Income Recognition, Asset Classification and Provisioning (IRAC) norms.

4.1.1. Credit Risk Management

Credit Risk Management Committee (CRMC) headed by MD&CEO is the top-level functional committee for managing credit risk. The committee is responsible for implementation of Credit policy approved by the Bank's Board. The committee considers and takes decision necessary to manage and control credit risk within the overall quantitative prudential limits approved by the Bank's Board. The Committee is entrusted with the responsibilities to formulate standards for presentation of credit proposals, financial covenants, rating standards and benchmarks.

The Bank adopts an integrated approach to credit risk management, which encompasses:

- Establishment and articulation of corporate priorities
- Institution and inculcation of an appropriate credit culture
- Determination of specific credit risk strategy and profile
- Implementation of appropriate credit risk controls
- Monitoring the effectiveness of credit risk controls

The Bank has implemented the Standardized approach for regulatory capital measurement for credit risk.

4.1.2. Credit Risk Strategy and Risk Profile:

The bank adopts a credit risk strategy and risk appetite, which is in line with its risk taking ability to ensure conservation and growth of shareholder funds, with a proper balance between risk and reward. Financial resources are allocated to optimize the risk reward ratio.

There is a clearly articulated definition of acceptable credit risk, based upon:

- Identification of target markets / segments
- Establishing of characteristics of desirable customers within the target market
- Assessing whether adequate resources are available to support the business
- Ensuring that all economic and regulatory requirements are complied with
- Ensuring that the portfolio is consistent with the Bank's strategy and objectives especially in relation to risk concentration, maturity profile and liquidity management

4.1.3 Credit Risk Controls:

Credit risk controls focus on identification, measuring, monitoring and managing the assumed risks and include:

- A documented credit policy and credit risk management policy
- Approval process with delegated authorities
- Asset quality and risk rating system and its verification
- Effective loan disbursement mechanism to minimize the legal risk

BASEL III – PILLAR 3 DISCLOSURES

- Effective loan administration to ensure past-due management and bad loan detection
- A loan review mechanism
- Portfolio management tools to manage portfolio risks

Management of credit risk is at three levels:

- Strategic or Portfolio level, so as to ensure that no single event can have a significant adverse impact.
- Established credit policy to have a minimum standard for assuming risk
- Reliance on the competence of trained staff to make sound credit decisions

The Bank relies upon formal and conventional credit risk assessment, viz.:

- The ability and willingness of borrowers to repay.
- Dependence primarily on cash flows for repayment with security taken to provide a secondary source of repayment.
- Quality of data and analysis thereof forms the basis of assessment and not external reputation or unsubstantiated beliefs.
- Rational assessment of probability of default and assessment of 'Worst Case Scenario'.
- Transparency and communication of all relevant facts (negative as well as positive) necessary for making an informed credit decision.
- Documentation of all assessment, rationale and decisions.
- Know Your Customers 'KYC' forms the bedrock of initiating and sustaining any relationship.

4.2 Total gross credit risk exposure: (₹. in million)

5. CREDIT RISK: Disclosures for portfolio subject to the Standardized Approach (DF 4)

- 5 (a). The Bank has used the ratings of the following domestic external credit rating agencies for the purpose of risk weighting their claims on the domestic entities for capital adequacy purpose:
- CRISIL
 - CARE
 - ICRA
 - India Ratings
 - Brickwork
 - SMERA
 - Infomerics
- 5 (b). A description of the process used to transfer public issuer ratings onto comparable assets in the banking book:

Bank has used short term ratings for assets with maturity upto one year and long-term ratings for assets maturing after one year as accorded by the approved external credit rating agencies. Bank has not cherry picked ratings. Bank has not used one rating of a CRA (Credit Rating Agency) for one exposure and another CRA's rating for another exposure on the same counterparty unless only one rating is available for a given exposure.

Notwithstanding the repayable on demand condition, cash credit exposures have been subjected to long-term rating.

If an obligor has a long term external credit rating that warrants RW (Risk Weight) of 150%, all unrated exposures on the same obligor whether long or short is assigned the same 150% RW unless mitigated by recognized Credit Risk Mitigates.

Bank has used only solicited rating from the recognized CRAs. In case the obligor has multiple ratings from CRAs, the Bank has a policy of choosing (if there are two ratings) lower rating.

Where RW associated with the rating by a CRA for a specific investment instrument is lower than one corresponding to unrated exposure, but the Bank's exposure is not in that instrument but some other debt, the RW for the rated exposure has been applied to Bank's unrated exposure provided the latter ranks pari-passu or senior to the specific rated exposure and the maturity of Bank's claim is not later than the rated exposure.

If either the issuer or a single issue has been rated warranting RW equal or higher than unrated claim, a claim on the same issuer which is unrated but ranks pari-passu or junior to the rated exposure has been assigned the same RW as the rated exposure.

No recognition of CRM technique has been taken into account in respect of a rated exposure if that has already been factored by the CRA while carrying out the rating.

For exposure amounts after risk mitigation subject to the standardized approach, amount of the Bank's outstanding (rated and unrated) in the following three major risk buckets as well as those that are deducted as on 31.03.2018 are as follows:

(₹. in million)

SI No.	Risk Weight	Fund Based	Non Fund Based
1	Below 100%	366,050	14,476
2	100%	121,592	18,624
3	More than 100%	54,663	10,629
	Total (1 + 2 + 3)	542,305	43,729

6. CREDIT RISK MITIGATION: Disclosures for Standardized Approach (DF 5)

- 6.1 The Bank has adopted Credit Risk Mitigation (CRM) Techniques and Collateral Management (CM) guidelines issued by RBI under Master circular – Prudential guidelines on Capital Adequacy and Market Discipline – New Capital Adequacy Framework (NCAF).

The Bank has utilized credit risk mitigation in the form of Bank's own deposits, LIC Policies, National Saving Certificate and gold, wherever the collateral is identifiable, marketable & enforceable and complies with RBI requirements. Sovereign exposures and Sovereign guaranteed exposures are risk weighted as per RBI directives.

BASEL III – PILLAR 3 DISCLOSURES

The general principles applicable for use of credit risk mitigation techniques are as under:

- i. No transaction in which Credit Risk Mitigation (CRM) techniques are used has been assigned higher capital requirement than as otherwise identical transaction where such techniques are not used.
- ii. The Bank has taken care to see that effects of CRM are not double counted. To ensure this no additional supervisory recognition of CRM for regulatory capital purposes is made available on claims for which an issue-specific rating is used that already reflects that CRM.
- iii. Principal-only ratings will not be allowed within the CRM framework. The rating should cover principal and interest.

The Bank has, therefore, put in place robust procedures and processes to control these risks, including strategy, consideration of the underlying credit, valuation, policies and procedures systems, control of Roll-off risks, and management of concentration risk arising from the use of CRM techniques and its interaction with the Bank's overall credit risk profile.

6.2 Eligible Financial Collateral:

The following collaterals are used as risk mitigants –

- i. Cash margins and fixed deposit receipts of the counterparty with the Bank
- ii. Gold bullion and jewellery
- iii. Securities issued by Central and State Governments
- iv. National Savings Certificates, Kisan Vikas Patras
- v. Life insurance policies with a declared surrender value of an insurance company which is regulated by an insurance sector regulator.
- vi. Debt securities rated by a chosen Credit Rating Agency in respect of which the banks should be sufficiently confident about the market liquidity and where they are either:
 - a) Attracting 100% or lesser risk weight i.e. rated at least BBB (-), when issued by public sector entities and other entities (including banks and Primary Dealers); or
 - b) Attracting 100% or lesser risk weight i.e. rated at least PR3/ P3/F3/A3 for short-term debt instruments.

- vii) Debt securities not rated by a chosen Credit Rating Agency in respect of which the banks should be sufficiently confident about the market liquidity where these are:
 - a) Issued by a bank
 - b) Listed on a recognized exchange
 - c) Classified as senior debt
 - d) All rated issues of the same seniority by the issuing bank are rated at least BBB(-) or A3 by a chosen Credit Rating Agency; and
- viii) Units of Mutual Funds regulated by the securities regulator of the jurisdiction of the bank's operation and mutual funds where:
 - a) Price for the units is publicly quoted daily i.e., where the daily NAV is available in public domain; and
 - b) Mutual fund is limited to investing in permitted instruments listed.

6.3 Total exposure covered by guarantees / credit derivatives Nil

7. SECURITIZATION EXPOSURES (DF 6)

As per RBI guidelines on Securitization exposure, investments by banks in securitized assets, representing loans to various categories of priority sector, except 'others' category, are eligible for classification under respective categories of priority sector lending (PSL) depending on the underlying assets.

As on 31.03.2018 the Bank does not have any securitization exposure as originator.

8. MARKET RISK IN TRADING BOOK (DF 7)

Market risk refers to the uncertainty of future earnings resulting from changes in interest rates, foreign exchange rates, market prices and volatilities. The Bank assumes market risk in its lending and deposit taking businesses and in its investment activities, including position taking and trading. The market risk is managed in accordance with the investment policies, which are approved by the Board. These policies ensure that operations in securities, foreign exchange and derivatives are conducted in accordance with sound and acceptable business practices and are as per the extant regulatory guidelines, laws governing transactions in

BASEL III – PILLAR 3 DISCLOSURES

financial securities and the financial environment. Market Risk in Trading Book is assessed as per the Standardized Duration approach. The capital charge for Held for Trading (HFT) and Available for Sale (AFS) portfolios is computed as per Reserve Bank of India prudential guidelines.

Market risk management objectives:

The objectives of market risk management are as follows:

- Management of liquidity
- Management of interest rate risk and exchange rate risk.
- Proper classification and valuation of investment portfolio
- Adequate and proper reporting of investments and derivative products
- Compliance with regulatory requirements

Structure and organization of the market risk management function:

Strategies and processes:

To comply with the regulatory guidelines and to have independent control groups there is clear functional separation of:

- Trading (Front office)
- Monitoring and control (Middle office) and
- Settlements (Back office)

The strategy/guidelines for controlling market risk include:

- Direct involvement of experienced line management
- Stringent controls and limits
- Strict segregation of front, middle and back office duties
- Comprehensive periodical reporting of positions
- Regular independent reviews of all controls and limits

- Rigorous testing and auditing of all pricing, trading and risk management

The scope and nature of risk reporting and measurement systems:

Reporting - The Bank periodically reports on the various investments and their related risk measures to the senior management and the committees of the Board. The Bank also periodically reports to its regulator in compliance with regulatory requirements.

Measurement - The Bank has devised various risk metrics for measuring market risk. These are reported to Asset Liability Management Committee. Some of the risk metrics adopted by the Bank for monitoring its risks are Value-at-Risk, Earnings at Risk, Modified Duration, Stop Loss limits amongst others.

The capital requirements for market risk are detailed below:
(₹. in million)

S No.	Risk Category	Capital Charge
1	Interest Rate Risk	1,554
2	Foreign Exchange Risk (Including gold)	49
3	Equity Risk	1,081
	Capital requirement for Market Risk (1 + 2 + 3)	2,684

9. OPERATIONAL RISK (DF 8)

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk but excludes strategic and reputational risk.

The Bank has put in place a Board approved Operational Risk Management Policy which outlines overall framework for management of Operational Risk.

The Bank manages Operational Risk by way of adopting best practices in processes as well as products. Utmost importance is given on communication and understanding of processes at transactional level and compliance to same are monitored through effective internal audits.

The Bank's selection of personnel and systems of rewarding performance are aligned to meet Bank's stated key priorities. There is a commitment to training and upgrading of staff skills. Strong 'ownership' of exposures is encouraged, through rewards as well as strong accountability.

BASEL III – PILLAR 3 DISCLOSURES

The Bank understands the criticality of business continuity in the event of any undesirable / unforeseen incident and has put in place an exhaustive Business Continuity Plan (BCP) in place which is subject to periodic drills. The Bank has robust Information Technology set up with Disaster Recovery (DR) site for critical functions and backups. Further there is a strict adherence to Information Security Policy across the Bank.

As per the mandate from RBI, the Bank is following the Basic Indicator Approach (BIA) for assessment of Operational Risk Capital.

Capital requirement for operational risk as per Basic Indicator Approach (BIA) as on 31.03.2018 is ₹. 4,874 million.

10. INTEREST RATE RISK IN BANKING BOOK (DF 9)

Interest Rate Risk in the Banking Book (IRRBB):

Interest rate risk is the potential change in Net Interest Income (NII) or Economic Value of Equity (Balance Sheet impact), caused by unexpected changes in market interest rates. Since NII or Net Interest Margin (NIM) of Bank is dependent on the movements of interest rates, any mismatches or gaps in the cash-flows on re-pricing dates exposes Bank's NII or NIM to interest rate risk. Interest Rate Risk in Banking Book results from an unavoidable position or gap arising from Bank's normal day to day business by holding assets and liabilities in different maturities and different re-pricing dates.

Risk management framework and monitoring:

The Board of the Bank, through Asset liability Management Committee, has overall responsibility for management of risks and it sets limits and policies for management of liquidity risk, market risk including foreign exchange, interest rate and equity risk. The Asset Liability Management Committee (ALCO), a strategic decision making body constituted by Board, headed by Chief Operating Officer and comprising of senior executives of the Bank is responsible for deciding the mix and maturity profile of the assets and liabilities, recommendation of risk policies, setting up of prudential limits to manage the risks and ensuring compliance with the limits set by the Board. The ALM policy of the Bank includes the prudential limits on interest rate risk, liquidity risk, foreign exchange risk and equity risk.

Risk Management Department is monitoring the limits laid down in the ALM Policy through various reports.

Risk measurement and reporting framework:

As a part of its regular activities, ALCO manages the impact of the interest rate risk in banking book, through various limits, reports and tools such as interest rate sensitive gaps, Earnings at risk analysis, duration gap analysis, stress testing, etc. detailed as follows:

a) Interest rate sensitivity:

The interest rate gap risk, at any given date, is the risk arising from the mismatches in the assets & liabilities over the different time intervals. These mismatches or gaps are arrived at after matching rate sensitive assets and rate sensitive liabilities in the particular time bucket taking into account all assets and liabilities (including off Balance Sheet exposure). The rate sensitive assets and liabilities are grouped in the buckets as per the residual maturity or re-pricing date, whichever is earlier and is reported on monthly basis. The gap indicates whether net interest income is positively or negatively impacted by a change in interest rates and the magnitude of the gap approximates the change in net interest income for any given interest rate shift. Limits are fixed on individual gaps.

b) Earnings at Risk Analysis (EaR):

The gaps in the report indicates whether the Bank is in a position to benefit from rising interest rates by having a positive gap (RSA > RSL) or whether it is in a position to benefit from declining interest rates by a negative gap (RSL > RSA). The Bank monitors the Earnings at Risk on NII for 2% change in interest rates on the open periodic gaps.

c) Stress testing:

The Bank measures the impact on NII/ EaR after taking into account various possible movement in interest rates across tenor and impact on the earnings is calculated for each of these scenarios.

d) Duration gap analysis:

Movement in the interest rates also have a long-term impact on the market value of equity of the Bank, as the economic value of the Bank's assets, liabilities and off-Balance Sheet positions get affected. Duration is a measure of interest rate sensitivity of assets, liabilities and also equity. It may be defined as the percentage

BASEL III – PILLAR 3 DISCLOSURES

change in the market value of an asset or liability (or equity) for a given change in interest rates. Thus Duration Gap Analysis measures by how much the market value of equity of a firm would change for the possible change in the interest rates.

The following tables show the impact on NII and economic value of equity for a given change in the interest rates. The impact is calculated assuming parallel shifts in the yield curve across all time buckets.

i) Impact on NII:

Changes in interest rates (in bps) (₹. in million)

Currency	100 bps	200 bps
INR	244	488

ii) Impact on economic value of equity:

Changes in interest rates (in bps) (₹. in million)

Currency	100 bps	200 bps
INR	977	1,953

* No major exposure in foreign currencies

11. General disclosures for exposures related to counterparty credit risk (DF 10)

Counterparty exposure :

Counterparty credit risk in case of derivative contracts arises from the forward contracts. The subsequent credit risk exposures depend on the value of underlying market factors (e.g., interest rates and foreign exchange rates), which can be volatile and uncertain in nature. The Bank does not enter into derivative transactions other than forward transactions.

Credit limits:

The credit limit for counterparty bank is fixed based on their financial performance as per the latest audited financials. Various financial parameters such as Capital, Networth etc., are taken into consideration while assigning the limit. Credit exposure is monitored to ensure it does not exceed the approved credit limit.

Credit exposures on forward contracts :

The Bank enters into the forward contracts in the normal course of business for positioning and arbitrage purposes, as well as for its own risk management needs, including mitigation of interest rate and foreign currency risk. Derivative exposures are calculated according to the current exposures method.

Credit exposure :

(₹. in million)

15. Disclosures on Remuneration (DF 15)

Qualitative Disclosures:

a) Information relating to the composition and mandate of the Nomination and Remuneration Committee (NRC):

The Nomination & Remuneration Committee (NRC) of the Board consists of five Directors. The Composition complies with RBI guidelines, provisions of Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015 ('SEBI LODR').

The mandate of Nomination and Remuneration Committee includes:

1. Recommendation of appointment / reappointment of Directors, MD&CEO / WTD of the Bank.
2. Recommending to the Board a policy relating to the remuneration for the MD&CEO / WTD, Part-time (Non-Executive) Chairman of the Bank and President & COO.
3. Devising a policy on diversity of Board Of Directors.
4. Framing of guidelines for the ESOS and considering granting of ESOS, administering and supervising the ESOS with particular reference to quantum of options to be granted, grant price, vesting price, exercise period etc., to the eligible employees.
5. No external consultants' advice had been sought by the Bank in the remuneration process.
6. Compensation Policy of the Bank, approved by the Board, pursuant to the guidelines issued by RBI. The Policy is applicable to the MD&CEO / WTD, Non-Executive Directors, Part-time (Non-Executive) Chairman and President & COO. All other employees' upto Scale III cadre are covered under Industry level Bi-partite settlements of IBA.

7. To perform any other functions or duties as stipulated by the Companies Act, RBI, SEBI, Stock Exchanges and any other regulatory authority or under any applicable laws as may be prescribed from time to time.

b) Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy:

NRC is entrusted with the responsibility of recommending to the Board an appropriate compensation payable to the Part-time (Non-Executive) Chairman, MD&CEO / WTD and the President & COO in the light of the guidance from the regulator from time to time.

The Compensation payable to MD&CEO / WTD of the Bank is divided into fixed and variable components. The fixed remuneration represents a significant proportion of total remuneration taking into account all relevant factors including the prevalent industry practices. Variable pay shall relate to the performance of the Bank and there is proper balance between fixed pay and variable pay. Variable pay must be paid on the basis of achievement of certain basic targets such as reaching business figures including net profits and other qualitative factors taking into account the extraordinary items, appropriate risk management and efficient consumption of capital and comparison of results with industry performance.

The Bank being party to IBA, Bipartite settlement process, has currently given its mandate to cover all employees till the Scale III cadre. The Bank shall ensure that the salary package payable to Risk takers and Control function staffs shall be in line with RBI guidelines.

c) Description of the ways in which current and future risks are taken into account in the remuneration processes. It should include the nature and type of the key measures used to take account of these risks:

BASEL III – PILLAR 3 DISCLOSURES

NRC may use a wide variety of measures of credit, market and liquidity risks in implementation of risk adjustment. The risk adjustment methods should preferably have both quantitative and judgmental elements. Bank has system of measuring and reviewing these risks.

The risk parameters used for setting of performance objectives and for measuring performance which includes besides financial performance, adherence to internal processes and compliance. Compensation is effectively aligned in both fixed and variable pay. There is a proper balance between fixed and variable pay. Bank shall not offer any guaranteed bonus based on its performance in tune with the sound risk management principles. The Bank shall not grant any severance pay to the MD&CEO / WTD and Bank shall not provide any facility or fund or permit MD&CEO / WTD to insure or hedge his/her compensation structure to offset the risk alignment effects embedded in the compensation package.

d) Description of the ways in which the bank seeks to link performance during a performance measurement period with levels of remuneration:

Bank would ensure that the compensation is adjusted to all types of risk, symmetrical with risk outcomes as well as sensitive to the time horizon of risk.

The variable pay could be in cash, stock linked instruments or a mix of both. Variable pay shall relate to the performance of the Bank.

Variable pay is considered only for MD&CEO / WTD of the Bank. Variable pay shall not exceed 40% of the fixed pay in any year.

For the Part-time (Non-Executive) Chairman of the Bank, only fixed pay / salary is payable apart from the

sitting fees payable for attending the Board or Board Committee Meetings.

In the event of negative growth of the bank and or the relevant line of business in any year, the deferred compensation shall be subjected to malus and clawback arrangements in tune with the RBI guidelines.

e) A discussion of the bank's policy on deferral and vesting of variable remuneration and a discussion of the bank's policy and criteria for adjusting deferred remuneration before vesting and after vesting:

For MD&CEO / WTD: If the variable pay is significant, then the bank would defer the payment over a period of three years.

f) Description of the different forms of variable remuneration (i.e. cash, shares, ESOPs and other forms) that the bank utilizes and the rationale for using these different forms:

The Bank has paid only fixed remuneration to MD & CEO / WTD for the year 2017-18 as per RBI approval.

NRC may recommend / grant a reasonable number of Stock Options under the ESOS to MD&CEO / WTD while granting ESOS as per SEBI Regulation. ESOS shall not form part of the total compensation of MD&CEO / WTD as per the Compensation Policy.

The Bank shall not grant any severance pay (other than the terminal benefits and gratuity as per the provisions) to the MD&CEO / WTD.

Bank shall not provide any facility or funds or permit MD&CEO / WTD to insure or hedge his/her compensation structure to offset the risk alignment effects embedded in the compensation package.
