EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013.

Item No. 6

Shri D. S. Chandavarkar was appointed as an Additional Director of the Company with effect from 30th May, 2017. Accordingly, he will hold office up to the date of the 94th Annual General Meeting. The Company has received a notice in writing from a member alongwith the deposit of requisite amount under Section 160 of the Companies Act, 2013, proposing his candidature for the office of Director of the Company.

Shri D. S. Chandavarkar is not disqualified from being appointed as a Director in terms of Section 164 of the Companies Act, 2013 and has given his consent to act as a Director, if appointed.

Shri D. S. Chandavarkar is having more than 35 years of experience in lube and greases industry. He is in the Board of various companies, which inter alia deal in manufacturing of greases, automotive and industrial lubricants.

The Board recommends appointment of Shri D. S. Chandavarkar as a Director.

No person, as specified under Section 102(1)(a) of the Companies Act, 2013, other than Shri D. S. Chandavarkar and Shri Vinod S.Vyas is in any way concerned or interested in this Resolution proposed to be passed.

Item No. 7

Shri S. Sundareshan is due for retirement from his first term as Independent Director. Based on his skills, experience, knowledge and performance evaluation, it is proposed that Shri S. Sundareshan be re-appointed for another term of three years from 3rd November, 2017 to 2nd November, 2020 as an Independent Director of the Board.

In accordance with Section 149 (10) and (11) of the Companies Act, 2013 an Independent Director shall hold office for a term up to five consecutive years on the Board of a Company, but shall be eligible for re-appointment on passing of a Special Resolution by the Company and disclosure of such appointment in the Board's report.

No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after the expiration of three years of ceasing to become an Independent Director.

As Shri S. Sundareshan fulfills the requirement of Independent Directors as laid down under Section 149(6) of the Companies Act, 2013 hence his re-appointment is being proposed.

Shri S. Sundareshan joined the Board of Directors (the Board) of the Company on 3rd November, 2014 and he was appointed as an Independent Director by the shareholders pursuant to the Companies Act, 2013 through shareholders' resolution dated 22nd July, 2015 for a term up to 2nd November, 2017 (first term under the Companies Act, 2013).

The Company has received a notice in writing pursuant to Section 160 of the Companies Act, 2013 from a member alongwith a deposit of requisite amount as specified in the said section proposing the candidature of Shri S. Sundareshan for the office of Independent Director, to be re-appointed as such under the provisions of Section 149 of the Companies Act, 2013.

The Company has received from Shri S. Sundareshan (i) consent in writing to act as a Director in Form DIR 2 pursuant to Rule 8 of The Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR 8 in terms of The Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under sub-section (2) of Section 164 of the Companies Act, 2013 and (iii) declaration confirming his eligibility that he meets the criteria of independence as provided in sub-section (6) of Section 149 of the Companies Act, 2013. Performance of Shri S. Sundareshan has been evaluated by the Board and Nomination and Remuneration Committee (NRC) thereof. The Board and NRC considered and noted the valuable guidance and contribution provided by Shri Sundareshan to the Board and the Company during his tenure. This may be deemed to be disclosure as required under applicable Secretarial Standards with regard to re-appointment of Independent Director(s).

In the opinion of the Board and based on the Board's evaluation, Shri S. Sundareshan fulfills the condition specified in the Companies Act, 2013 and Rules made thereunder for his re-appointment as an Independent

Director of the Company and is independent of the management. A copy of the draft letter for the appointment of Shri S. Sundareshan as an Independent Director setting out the terms and conditions would be available for inspection without any fee by the Members at the Registered Office of the Company during normal business hours on any working day upto 26th July, 2017. The Board considers that his continued association would be of immense benefit to the Company and it is desirable to continue to avail the services of Shri S. Sundareshan as an Independent Director. Accordingly, the Board recommends the resolution in relation to the re-appointment of Shri S. Sundareshan as an Independent Director, for the approval by Members of the Company.

No person, as specified under Section 102(1)(a) of the Companies Act, 2013, other than Shri S. Sundareshan, is in any way concerned or interested in this Resolution proposed to be passed.

Item No. 8

Smt. Nayantara Palchoudhuri is due for retirement from her first term as Independent Director. Based on her skills, experience, knowledge and performance evaluation, it is proposed that Smt. Nayantara Palchoudhuri be re-appointed for another term of three years from 7th April, 2018 to 6th April, 2021 as an Independent Director of the Board.

In accordance with Section 149 (10) and (11) of the Companies Act, 2013 an Independent Director shall hold office for a term up to five consecutive years on the Board of a Company, but shall be eligible for re-appointment on passing of a Special Resolution by the Company and disclosure of such appointment in the Board's report.

No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after the expiration of three years of ceasing to become an Independent Director.

As Smt. Nayantara Palchoudhuri fulfills the requirement of Independent Directors as laid down under Section 149(6) of the Companies Act, 2013 hence her re-appointment is being proposed.

Smt. Nayantara Palchoudhuri joined the Board of Directors (the Board) of the Company on 7th April, 2015 and she was appointed as an Independent Director by the shareholders pursuant to the Companies Act, 2013 through shareholders' resolution dated 22nd July, 2015 for a term up to 6th April, 2018 (first term under the Companies Act, 2013).

The Company has received a notice in writing pursuant to Section 160 of the Companies Act, 2013 from a member alongwith a deposit of requisite amount as specified in the said section proposing the candidature of Smt. Nayantara Palchoudhuri for the office of Independent Director, to be re-appointed as such under the provisions of Section 149 of the Companies Act, 2013.

The Company has received from Smt. Nayantara Palchoudhuri (i) consent in writing to act as a Director in Form DIR 2 pursuant to Rule 8 of The Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR 8 in terms of The Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that she is not disqualified under sub-section (2) of Section 164 of the Companies Act, 2013 and (iii) declaration confirming her eligibility that she meets the criteria of independence as provided in sub-section (6) of Section 149 of the Companies Act, 2013. Performance of Smt. Nayantara Palchoudhuri has been evaluated by the Board and Nomination and Remuneration Committee (NRC) thereof. The Board and NRC considered and noted the valuable guidance and contribution provided by Smt. Nayantara Palchoudhuri to the Board and the Company during her tenure. This may be deemed to be disclosure as required under applicable Secretarial Standards with regard to re-appointment of Independent Director(s).

In the opinion of the Board and based on the Board's evaluation, Smt. Nayantara Palchoudhuri fulfills the condition specified in the Companies Act, 2013 and Rules made thereunder for her re-appointment as an Independent Director of the Company and is independent of the management. A copy of the draft letter for the appointment of Smt. Nayantara Palchoudhuri as an Independent Director setting out the terms and conditions would be available for inspection without any fee by the Members at the Registered Office of the Company during normal business hours on any working day upto 26th July, 2017. The Board considers that her continued association would be of immense benefit to the Company and it is desirable to continue to avail the services of Smt. Nayantara Palchoudhuri as an Independent Director. Accordingly, the Board recommends the resolution in relation to the re-appointment

of Smt. Nayantara Palchoudhuri as an Independent Director, for the approval by Members of the Company.

No person, as specified under Section 102(1)(a) of the Companies Act, 2013, other than Smt. Nayantara Palchoudhuri, is in any way concerned or interested in this Resolution proposed to be passed.

Item No. 9

Your Company has been procuring lubricating oil and other chemicals from Standard Greases and Specialities Private Limited (SGSPL), which has been offering competitive rates for its products to your Company. SGSPL is one of the largest grease producers in Asia and they are processing grease on behalf of your Company to meet the needs of Western Region of the Company as there is no grease plant thereat.

Section 2(76) of the Companies Act, 2013, inter alia, states that 'related party' with reference to a Company, will include any private company in which a Director or manager is a member or Director. Since Shri Vinod S. Vyas and Shri D. S. Chandavarkar are Directors of SGSPL and also are in the Board of your Company, SGSPL will be deemed to be a related party as per the definition of the term in Section 2 of the Companies Act, 2013. Further SGSPL is a joint promoter of your Company.

Under Regulation 23 of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, 'Material Related Party Transaction', has been defined to include transaction / transactions to be entered into individually or taken together with previous transactions during a financial year, exceeding 10% (ten percent) of the annual consolidated turnover, as per the last audited financial statement of the Company and that material related party transactions must have prior approval of the members of the Company by way of a Resolution.

Section 188 of the Companies Act, 2013 read with Rule 15 of the Companies (Meetings of Board and its Powers) Second Amendment Rules, 2014 inter alia states that except with the prior approval of the Company by a Special Resolution, a company shall not enter into a transaction or transactions involving sale, purchase or supply of any goods or materials, directly or through appointment of agent where the transaction or transactions to be entered into exceed(s) 10% (ten percent) of the turnover of the Company or Rs. 100 (One Hundred) crores, whichever is lower.

As your Company proposes to procure lubricating oil and other chemicals from SGSPL and also process grease through them, cumulative transaction value whereof during the financial year ending on 31st March, 2018 (i.e. Rs. 205 crores), is envisaged to exceed the limits stated under Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Companies Act, 2013 read with Rules framed thereunder, your approval is sought by way of passing a Special Resolution. This may be deemed to be a disclosure as required under Rule 15 of Companies (Meetings of Board and its Powers) Second Amendment Rules, 2014.

The Board of Directors of your Company considers that the proposed Special Resolution is in the interest of the Company and recommends the same for your approval.

No person, as specified under Section 102(1)(a) of the Companies Act, 2013, other than Director(s) nominated by SGSPL on the Board of Directors of the Company is in any way concerned or interested in this Resolution proposed to be passed.

The Audit Committee of your Company has approved this resolution in the meeting of the said Committee held on 10th February, 2017.

As per the provisions of Section 188(1) of the Companies Act, 2013 and Regulation 23 of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, all entities falling under the definition of related parties shall abstain from voting on this resolution irrespective of whether the entity is a party to this transaction or not.

Item No. 10

During 2014-15 pursuant to a Joint Venture Agreement between JXTG Nippon Oil & Energy Corporation (formerly JX Nippon Oil & Energy Corporation), Japan and your company, JX Nippon TWO Lubricants India Private Limited

(JXTL) was formed, wherein the business segment relating to 'ENEOS' range of products was transferred. JXTL is a Joint Venture Company and is also an Associate Company as your Company holds 50% stake therein. JXTL is construed to be a 'related party' in terms of Section 2(76) read with Section 2(6) of the Companies Act, 2013. Shri R. N. Ghosal, Managing Director is also a Director of JXTL.

As per the agreement, your company acts as toll manufacturer of the Joint Venture Company with respect to Factory Fill oil segment (FF segment) and provides manufacturing, warehousing & logistics, sales, invoicing, accounting and collection services in relation to Service Fill oil segment (SF segment). As such, the said arrangement(s) may be construed to invoke provisions as contained in Section 188 of the Companies Act, 2013 and rules made thereunder.

Under Regulation 23 of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, 'Material Related Party Transaction' has been defined to include transaction/ transactions to be entered into individually or taken together with previous transactions during a financial year, exceeding 10% of the annual consolidated turnover, as per the last audited financial statement, of the Company and that material related party transactions must have prior approval of the members of the company by way of a Resolution.

Section 188 of the Companies Act, 2013 read with Rule 15 of the Companies (Meetings of Board and its Powers) Second Amendment Rules, 2014 inter alia states that except with the prior approval of the Company by a Special Resolution, a company shall not enter into a transaction or transactions involving sale, purchase or supply of any goods or materials, directly or through appointment of agent where the transaction or transactions to be entered into exceed(s) 10% (ten percent) of the turnover of the Company or Rs. 100 (One Hundred) crores, whichever is lower.

As your Company manufactures/supplies oils relating to FF segment and SF segment on behalf of / to the Joint Venture Company viz. JX Nippon TWO Lubricants India Private Limited and also provides allied services, referred above, with respect to the concerned business, cumulative transaction value whereof during the financial year ending on 31st March, 2018 (i.e. Rs. 183 crores), is envisaged to exceed the limits stated under Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Companies Act, 2013 read with Rules framed thereunder your approval is sought by way of passing a Special Resolution. This may be deemed to be a disclosure as required under Rule 15 of Companies (Meetings of Board and its Powers) Second Amendment Rules, 2014.

The Board of Directors of your company considers that the proposed Special Resolution is in the interest of the Company and recommends the same for your approval.

No person, as specified under Section 102(1)(a) of the Companies Act, 2013, other than Shri R.N. Ghosal, Managing Director, is in any way concerned or interested in this Resolution proposed to be passed. The existing Promoters, Directors and Key Managerial Personnels of your Company do not hold any equity shares in JXTL.

The Audit Committee of your company has approved this resolution in the meeting of the said committee held on 10th February, 2017.

As per the provisions of Section 188(1) of the Companies Act, 2013 and Regulation 23 of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, all entities falling under the definition of related parties shall abstain from voting on this resolution irrespective of whether the entity is a party to this transaction or not.

Item No. 11

The Company is required under Section 148 of the Companies Act, 2013 (Act) read with Companies (Cost Records and Audit) Amendment Rules, 2016 to have the audit of its cost records conducted by a Cost Accountant in practice. The Board of Directors of the Company, on the recommendation of the Audit Committee, has approved the appointment of Messrs. DGM & Associates, Cost Accountants to conduct audit of cost records of the Company for products covered under the Companies (Cost Records and Audit) Amendment Rules, 2016 for the financial year ending on 31st March, 2018, at a remuneration of Rs. 1,50,000 (Rupees One Lakh Fifty Thousand only) plus reimbursement of out-of-pocket expenses.

In accordance with the provisions of Section 148 of the Act read with the said Rules, the remuneration payable to the Cost Auditors as recommended by the Audit Committee and approved by the Board of Directors has to be ratified by the Members of the Company.

Accordingly, the consent of the Members is sought by way of passing an Ordinary Resolution as set out at Item No. 11 of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending on 31st March, 2018.

The Board of Directors of your company considers that the proposed Ordinary Resolution is in the interest of the Company and recommends the same for your approval.

No person, as specified under Section 102(1)(a) of the Companies Act, 2013, is in any way concerned or interested in this Resolution proposed to be passed.

Item No. 12

Shri R.N. Ghosal was appointed as the Managing Director of the Company vide shareholders' resolution no. 8 dated 16th August, 2012 for a period of 4 (four) years with effect from 2nd November, 2011 or upto the date of his superannuation, whichever is earlier. Subsequently, the tenure of his appointment as Managing Director was extended till the close of business on 28th February, 2017 vide shareholders' resolution no. 12 dated 29th August, 2014.

However, considering his extra-ordinary performance and valuable guidance provided to the Company, the Board of Directors (Board) on recommendation of the Nomination & Remuneration Committee of the Board decided to further extend the term of appointment of Shri Ghosal till the close of business on 28th February, 2019.

As variation of term of appointment of any Whole Time Director requires sanction of shareholders, your approval is hereby sought for extension of term of appointment of Shri R.N. Ghosal, Managing Director of the Company till 28th February, 2019.

The Board considers that the proposed resolution is in the interest of the Company and recommends the same for your approval.

No person, as specified under Section 102(1)(a) of the Act, other than Shri R.N. Ghosal is in any way concerned or interested in this Resolution proposed to be passed.

Notes:

1. A Member entitled to attend and vote at this meeting may appoint a Proxy to attend and vote in his stead. A proxy need not be a Member of the Company. Proxies, in order to be effective, must be received at the Company's Registered Office not less than forty-eight hours before the meeting. A person can act as a proxy on behalf of Members not exceeding 50(fifty) and holding in the aggregate not more than 10% of the total share capital of the Company. PERFORMANCE AND STATE OF COMPANY'S AFFAIRS

The performance of your Company during the year under review was commendable. The turnover recorded significant increase to reach Rs. 1317.29 crores (net of discount and rebates Rs. 1132.02 crores), the highest in the history of the Company, compared to Rs.1275.34 crores (net of discount and rebates Rs. 1098.30 crores)

in the previous year, an increase of 3.29%. The volume of sales also recorded a satisfactory increase partially due to the Company's continued focus on building its brand equity and bazaar sales. However, the overall lubricant industry remained depressed due to constant upgradation of engine design and presence of long drain lubes. As a result of the negligible generic growth the market witnessed intensified competition among the existing market players for a greater share. On the other hand, the rising input costs and volatility in the market led to greater pressure on margins. Notwithstanding the adverse factors, the Company achieved a Profit before Tax (PBT) of Rs. 151.03 crores as compared to a PBT of Rs. 133.27 crores (Rs. 157.76 crores before adjustment of exceptional item) in the preceding year.

Premium segment remained a major focus area during the year. Your Company has adopted more customer-centric approach, executing campaigns on the electronic media and undertaking elaborate field level activities. Realignment of the distribution network, efforts in maintaining direct contacts with the customers and various strategic alliances with the leading Original Equipment Manufacturers (OEMs), helped your Company to achieve improved results and increase its presence in new markets.

The Company's Plants at Silvassa, Turbhe, Oragadam and Faridabad continue to be accredited under ISO 9001:2008 for quality standards. Plant at Ramkrishnapur has obtained accreditation under ISO 9001:2015 for quality standards. The Silvassa and Oragadam Plants had obtained accreditation under ISO 14001:2004 for environmental standards. The support provided by the Company's accredited R&D Centers have helped in improving the quality of products and upgrading product formulation.

Your Company's products primarily marketed under the 'VEEDOL' brand name are well established and accepted in the industry for their quality and range. The Joint Venture Company (JVC) viz. JX Nippon TWO Lubricants India Private Limited (JXTL), wherein your Company and JXTG Nippon Oil & Energy Corporation (formerly JX Nippon Oil & Energy Corporation), Japan, have 50:50 stake, continues to undertake marketing of the 'ENEOS' brand of products in India. The production

facilities, warehousing, logistic and other ancillary support continue to be extended by your Company to the JVC. Details of performance of this joint venture are stated in the later part of the report.

CHANGE IN SHAREHOLDING STATUS

Subsequent to the open offer for acquisition of further shares of the Company, Standard Greases & Specialities Private Limited (SGSPL) emerged as a single largest shareholder of this Company. Post completion of the offer SGSPL requested for re-classification of their status from 'public shareholder' to 'joint promoter' along with Andrew Yule & Company Limited and re-classification of status of Janus Consolidated Finance Private Limited, Person Acting in Concert in the concerned open offer, from 'public shareholder' to 'part of promoter group'.

The matter was considered by the Board of Directors at its 309th meeting held on 11th August, 2016. On meeting the requisite eligibility criteria, the Board pursuant to the provisions of Regulation 31A(2) and 31A(8) of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 approved the said re-classification and necessary disclosure thereof was made to the Stock Exchanges and required effect was given in the shareholding pattern of the Company.

BRAND 'VEEDOL'

With the acquisition of Veedol International Limited, the Company got the global rights to a wide portfolio of registered trademarks for the master brand 'VEEDOL' as well as its associate product sub-brands and iconic logos. The Company has exploited this opportunity for marketing lubricants under the 'VEEDOL' brand to various geographies around the world.

INTERNATIONAL OPERATIONS

During the year your Company has invested in 100% shares of Price Thomas Holdings Limited (PTHL), having a wholly owned subsidiary viz. Granville Oil & Chemicals Limited (GOCL), which is engaged in manufacturing and selling of lubricants and automotive after care products. Since GOCL has its own manufacturing facility, it has resulted in competitive product pricing internationally. Also, the range of products and its sales distribution network have been

beneficial for the Company's international operations. GOCL mainly operates in United Kingdom and key brands marketed inter alia include Granville, Gunk, Nova, Autosol and Turtle Wax.

Other than as stated above and besides holding 100% shares of Veedol International Limited the Company has two wholly owned subsidiaries viz. Veedol International DMCC (VID), Dubai and Veedol International BV (VIBV), Netherlands to cater to the Middle East Asian Region and Europe, respectively.

Veedol Deutschland GMBH (VDG) has been incorporated as a 100% subsidiary of Veedol International BV to relaunch the brand in Germany, Austria and Switzerland.

Further Veedol International Americas Inc. has also been floated as a wholly owned subsidiary of Veedol International Limited, UK. This has relaunched Veedol in Andean region of South America.

Veedol International Limited has also licensed the Veedol brand to a licensee in North America and Mexico and other licensees in Bangladesh, Ecuador and Republic of South Africa for sales thereat.

WIND ENERGY BUSINESS

During the year 2016-17, the revenue generated from the Wind Energy Project amounted to Rs.1.70 crores. The Company produces enough clean energy to offset its electricity consumption from fossil fuel sources. The sector is poised to provide adequate returns over the years.

DIVIDEND

In view of present financial results, your Directors have the pleasure in recommending a final Dividend of 2000% (Rs.100.00 per ordinary share) on the Ordinary Shares of Rs. 5/- each for the financial year 2016-17 as against 1750% (Rs.87.50 per ordinary share) for the previous year to the equity shareholders of the Company. The Directors at its 310th Meeting held on 25th November, 2016 declared interim dividend of 1000% (Rs.50.00 per ordinary share) involving a total dividend outflow of Rs.17.42 crores. The same was distributed to the Shareholders on 12th December, 2016. The final dividend is in addition to the interim dividend, as already distributed. The Dividend Distribution Policy is enclosed with this report. The same is also available at the official

website of the Company at the weblink www.tidewaterindia.com/wp-content/uploads/2017/02/DIVIDEND%20DISTRIBUTION%20POLICY.pdf

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Management Discussion and Analysis Report for the year under review, as stipulated under Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 is presented in a separate section forming part of the Annual Report as Annexure I.

CORPORATE GOVERNANCE

Your Directors affirm their commitment to good Corporate Governance practices. The report on Corporate Governance as per the requirement of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 together with a certificate from the Statutory Auditors of the Company and declaration by the Managing Director forms part of this report.

SUBSIDIARY COMPANIES

On acquisition of 100% shares, Veedol International Limited had become a wholly owned subsidiary of the company with effect from October, 2011. Further to explore possibilities of marketing the products under 'Veedol' brand in the Middle East Asian Markets, your Company had floated another wholly owned subsidiary under the name Veedol International DMCC at Dubai, UAE. With a view to cater to the European Markets (excepting the DACH region), the company had set up another wholly owned subsidiary viz. Veedol International BV, having its office at Amsterdam, the Netherlands.

As the 'Veedol' brand enjoys considerable brand equity in the DACH region, Veedol Deutschland GMBH had been set up as a 100% subsidiary of Veedol International BV. Veedol Deutschland GMBH had initiated its marketing operations for the DACH region and the same operates from Langenfeld, Germany.

Veedol International Americas Inc. has been incorporated as a 100% subsidiary of Veedol International Limited. Veedol International Americas Inc. markets Veedol products in the Andean region of South America. This Company operates from Ontario, Canada.

During the year your Company has also acquired 100% shares of Price Thomas Holdings Limited (PTHL), having a wholly owned subsidiary viz. Granville Oil & Chemicals Limited, which has its own manufacturing facility and is engaged in manufacturing and selling of lubricants and automotive after care products throughout United Kingdom (UK). GOCL operates from Rotherham, UK.

The Statement of Accounts along with the Report of the Board of Directors and Auditors relating to your Company's Overseas Subsidiaries viz. Veedol International Limited, Veedol International DMCC, Veedol International BV and Price Thomas Holdings Limited for the financial year 2016-17 are not annexed. Shareholders, who wish to have a copy of the full Report and Accounts of the aforesaid subsidiary companies, will be provided the same, on receipt of a written request. These documents will also be available for inspection by any shareholder at the Registered Office of the Company and the concerned subsidiary companies during business hours on all working days till 26th July, 2017.

PERFORMANCE OF SUBSIDIARIES AND JOINT VENTURE COMPANIES AS PER RULE 8(4) OF THE COMPANIES (ACCOUNTS) RULES, 2014

A report on the performance and the financial position of each of the Subsidiaries and Joint Ventures Companies as per the Companies Act, 2013 is annexed to the Consolidated Financial Statement and hence not repeated here for the sake of brevity.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Industry Structure and Developments

The Indian lubricant market remains the third largest after USA and China. Over the past years, the lubricant industry has witnessed a moderate and steady growth. With continued growth in the economy, the industry has also recorded growth. However, with the introduction of smaller, efficient engines and long drain lubes, there has been a structural decline in the per-vehicle lube consumption. As such though realisations improved on account of premiumisation, yet the headline volume growth weakened offsetting the advantage. During the year the crude oil prices increased which had its adverse effect on the base oil and additive prices. However, India's move to BS-VI by 2020 is expected to open up scope for innovation and modification in lubricant properties which may lead to higher realisations and margins. Your Company with its well-diversified basket of products, strong brand recognition and wide distribution network is well-equipped to perform steadily in the coming years and exploit envisaged opportunities. Further, acquisition of Veedol International Limited and Price Thomas Holdings Limited bestowed competitive edge unfolding promising opportunities globally.

Opportunities and Threats

In lube industry innovation and brand building are the main focus areas. Though new products are launched based on homogenous specifications, promotional activities create product differentiation and aid in gaining market share. With greater focus on pollution and emission control, industry players are bracing for cleaner oils. While OEMs continue to remain significant player in the after-market, the bazaar trade is lucrative in terms of margin and volume, particularly with the advent of new multi brand service centers, presence of second-hand fleet and associate workshops. Your Company is also in constant effort to build strong partnerships with key OEMs across vehicle categories. The Company has a wide range of excellent products in different segments under its umbrella brand "VEEDOL" to cater the industry demand. This is supported by an effective and efficient network of dedicated distributors, dealers and consignment depots across the country. The Company's various other sub-brands such as Prima, Turbo and Take Off have also been able to create goodwill in the market for their quality.

The various Loyalty Programmes with the dealers and the retailers have strengthened the marketing and distribution network of the Company.

Volatility in input prices is one of the most material threats. An adverse foreign exchange situation and high inflation could also put pressure on margins. Further, the newly promulgated taxation system is also expected to have its effect in the industry in terms of volume and profitability in the short term.

Segment-wise Performance

The Company is a single segment company as mentioned in Note 2.2 of the Accounts.

Outlook

In the coming year, your Directors expect the Company to continue its focus on core strategies and line of business besides leveraging other opportunities to extend the distribution base and network for increasing

its market share. Given your Company's brand salience, sound R&D set up, innovative business plan and wide distribution network, it is expected to meet the expectation of the shareholders in times to come.

With an overall growth in the Indian economy, the growth in lubricant industry is expected to remain healthy. Accordingly, it is anticipated that the Company will continue to grow in future. Further with acquisition of Veedol International Ltd. and Price Thomas Holdings Limited and establishment of multiple subsidiaries in foreign countries, your Company is well poised to explore global opportunities.

However, with the advent of technological changes, the volume growth is expected to remain moderate.

Risks & Concerns

Your Company is exposed to usual industry risks, which inter-alia includes, market risk, product liability risk, product failure risk, research and development risk, technical obsolescence risk, credit risk, inventory risk, manpower risk, foreign exchange fluctuation risk, regulatory and compliance risk and capacity utilization risk. Apart from the aforesaid normal risks applicable to an industrial undertaking, the Company does not foresee any serious area of concern.

Internal Control System

The Company has proper and adequate system of internal control.

Financial Performance

The details of financial performance of the Company are appearing in the Balance Sheet and the Statement of Profit & Loss Account for the year. During the year, the Profit before Tax has increased by 13.33% after considering exceptional item.

Human Resources

During the year, employer/employee relationships remained cordial.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1 : Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others?

Clause 2.1 of the BR policy deals with the provisions relating to business ethics. The same applies to all employees of the Company and endeavor is to extend it to other business partners, to the extent feasible. The Company ensures that agreed contractual contracts are in line with ethical business practices ensuring actions where conduct of employees, vendors and other business partners are found inconsistent. Moreover, the Company has in place a Code of Conduct which is applicable for all the Directors and employees of the Company and each year your Company engages its Senior Management in Code of Conduct Certification.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.
During the year no complaint was received relating to ethics, bribery and corruption from any stakeholder.

Principle 2 : Businesses should provide goods and services that are safe and contribute to sustainability throughout your life cycle

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

Given the nature of its business your Company is aware that its products could have environmental concern during production and consumption. Over the years it has been constantly investing efforts in producing products which are environment friendly. In order to successfully do this, it has a capable R&D team that works constantly on innovating new products and improving existing products. In a depleting natural resources scenario, these products are to bring in higher efficiency in vehicles, thus leading to lower fuel consumption. Some of our products which lead to higher fuel efficiency include:

- a) Take Off 4T premium 10W-30 SM
- b) Powertron 5W-30 SM
- c) Blue Blood 10W-30

Further, your Company has taken various energy efficiency measures at its plants which have been enumerated under the section 'Conservation of Energy' in the Directors' Report for 2016-17 and hence not repeated here for the sake of brevity.

2. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Your Company sources its inputs from reputed national and international sources / entities, which are expected to be well versed with BR obligations. Finished product movements take place through roadways. All safety and environmental protocols are followed, in course of such transportation. Transportation is carried out through specialized vehicles which ensure minimum loss.

3. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place or work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Packaging materials are sometimes sourced locally. Proper quality checks are in place to ensure adherence with industry accepted standards. Findings, if any are reported and proper guidance / assistance are provided for improvement, whether in terms of capacity or capability.

4. Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The nature of business conducted by your Company does not provide for a high scope for using recycled material. The estimate of the percentage of waste recycled would be less than 5%. That being said your Company constantly looks for opportunities to recycle waste generated, if any as a result of its operations.

Principle 3 : Businesses should promote the well-being of all employees

1. Please indicate the Total number of employees - 506 (permanent), 802 (including temporary/contractual/casual)
2. Please indicate the Total number of employees hired on temporary / contractual / casual basis - 296
3. Please indicate the number of permanent women employees - 28
4. Please indicate the number of permanent employees with disabilities - 1
5. Do you have an employee association that is recognized by management? Yes (4 nos.)

6. What percentage of your permanent employees is members of this recognized employee association?
32%
7. Please indicate the number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

No.	Category	No. of complaints filed during the financial year	No. of complaints pending as on end of the financial year
1	Child labour / forced labour / involuntary labour	Nil	Not Applicable
2	Sexual harassment	Nil	Not Applicable
3	Discriminatory employment	Nil	Not Applicable

At each of four regions of the Company, Internal Complaints Committees have been set up in terms of Sexual Harassment Of Women At Workplace (Prevention, Prohibition & Redressal) Act, 2013 with a view to provide protection against sexual harassment of women at workplace and for prevention and redressal of complaints of sexual harassment and for matters connected therewith or incidental thereto.

8. What percentage of your under mentioned employees were given safety & skill upgradation training in the last year?
- (a) Permanent Employees - 58%
- (b) Permanent Women Employees - 39%
- (c) Casual/Temporary/Contractual Employees - 44%
- (d) Employees with Disabilities - N.A

Principle 4 : Businesses should respect the interest of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized

1. Has the Company mapped its internal and external stakeholders? Yes/No
The Company has mapped its internal and external stakeholders as follows: employees, customers, dealers, suppliers, shareholders, regulatory authorities and members of the society who are directly or indirectly affected by your Company's operations.
2. Out of the above, has the Company identified the disadvantaged, vulnerable & marginalized stakeholders.
There has never been any discrimination in treatment and rights available to any of the stakeholders.
3. Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.
Various social initiatives for facilitating quality of life of stakeholders operating or residing around the factories are provided, depending upon specific requirement to this effect. CSR initiatives of the Company include steps undertaken by the Company for providing skill development training to garage owners / mechanics.

Principle 5 : Businesses should respect and promote human rights

1. Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?
Clause 2.5 of the BR Policy of the Company deals with provisions relating to promotion of human rights. As per Clause 2.5.3 of the said policy your Company recognizes and respects human rights of all relevant stakeholders and groups within and beyond the workplace, including that of communities, consumers, etc.
2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?
The Company did not receive any complaint regarding human rights violation from any quarter during the financial year under review.

Principle 6 : Business should respect, protect, and make efforts to restore the environment

1. Does the policy related to Principle 6 cover only the Company or extends to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others.

Clause 2.6 of the BR Policy of the Company deals with provisions relating to protection of environment, which covers only the Company.

2. Does the Company have strategies / initiatives to address global environmental issues such as climate change, global warming, etc.? Y/N. If yes, please give hyperlink for webpage etc.

The Company recognized that climate change is a real threat facing not just the Company but the entire global community, of which it is just a part. Your Company also recognized it can play a meaningful role in trying to mitigate the problem by adopting certain strategies and initiatives in its day to day operations.

Information in this regard is available at the official website of the Company at the weblink www.tidewaterindia.com/wp-content/uploads/2017/02/Environment-Protection-1.pdf.

3. Does the Company identify and assess potential environmental risks? Y/N

Your Company actively tries to identify, assess and address potential environmental risks and takes preemptive action to minimize such risks in a structured manner.

4. Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

The Company has 2 (two) windmills in Kasthurirengapuram and Kumbikulam in Tirunelveli, Tamil Nadu of 1.5 MW each. However, the Company has not registered itself for carbon credit in connection with the same.

5. Has the Company undertaken any other initiatives on - clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for webpage etc.

The Company has been progressively reducing its energy consumption. Constant efforts are in place to conserve energy and improve energy efficiency in all its plants. The 'Conservation of Energy' section of the Directors' Report for 2016-17, specifies steps taken in this regard. Further, the Company had invested in two windmills with a total capacity of 3MW for generation of renewable energy at Tamil Nadu. The Company produces enough clean energy to offset its electricity consumption from fossil fuel sources.

6. Are the Emissions/Waste generated by the Company within the permissible limits given by CPCB/SPCB for the financial year being reported?

All factories of the Company comply with the prescribed emission norms of various State or Central Pollution Control Boards.

7. Number of show cause/legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

During the year 2016-17, no show cause / legal notice has been received by the Company from CPCB / SPCB.

Principle 7 : Businesses, when engaged in influencing public and regulatory policy should do so in a responsible manner

1. Is your Company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Tide Water Oil Co. (I) Limited is a member of The Bengal Chamber of Commerce and Industry.

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No: If yes, specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy Security, Water, Food Security, Sustainable Business Principles, Others).

Your Company believes in promoting public policies and regulatory framework that serve the common good of the society. During 2015-16 the Company had contributed towards Swachh Bharat Kosh, which had been set up to attract funds from corporate sector, individuals and philanthropists in response to the call given by Hon'ble Prime Minister to achieve the objective of Clean India (Swachh Bharat) by the year 2019, the 150th year of the birth anniversary of Mahatma Gandhi through Swachh Bharat Mission.

Principle 8 : Businesses should support inclusive growth and equitable development

1. Does the Company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes, details thereof.

Your Company's CSR initiatives aim at skill development of mechanics and garage owners. Veedol Auto Mechanic Academy (VAMA) has been set up for imparting necessary training to the mechanics / garage owners for skill development.

2. Are the programmes / projects undertaken through in-house team / own foundation / external NGO / government structures / any other organization?

A consultancy agency has been engaged to structure and review the scope of VAMA, from time to time. An existing in-house team is entrusted with the work of implementation of the CSR initiatives.

3. Have you done any impact assessment of your initiative?

Impact of CSR activities are assessed by Board from time to time. Considering the scale of activities assessment by an independent body is not deemed justified.

4. What is your Company's direct contribution to community development projects - Amount in INR and the details of the projects undertaken.

VAMA initially was aimed at imparting training for four wheeler segment. Considering the increasing population of two and three wheelers and commuters thereof, it was felt that proper training need to be imparted to the garage owners and mechanics serving this sector as well. Training curriculums for two and three wheeler segments are being formulated.

Necessary particulars in connection with contribution towards CSR activities are provided in the CSR Report forming part of this Annual Report, hence not repeated for the sake of brevity.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

VAMA has been successfully set up at Kolkata, Silvassa and Faridabad. VAMA has received accreditation from National Skill Development Council. Till the date of this report, 210 persons have received training out of which 31 persons have received industry placements.

Principle 9 : Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

Proper system is in place to track customer feedback. Though during the year the Company has received few minor customer complaints, however, none is pending as on 31st March, 2017. No consumer case has been lodged against the Company, during the year under review.

2. Does the Company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A./Remarks (additional information)

Product labels are reviewed and updated from time to time. Your Company endeavors to disclose not only informations mandated under local laws but also those which are required under applicable statutes, in force. Besides industry benchmarks are also adhered to, to the extent practicable.

3. Is there any case filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

No case has been filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years.

4. Did your Company carry out any consumer survey/consumer satisfaction trends?

Consumer surveys are undertaken on regular basis to understand the performance, quality, etc. of the products of the Company vis-à-vis industry standards.

DIVIDEND DISTRIBUTION POLICY

1. Background and applicability

The Securities and Exchanges Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 requires top 500 listed companies (by market capitalization as on March 31 of every financial year) to disclose a Dividend Distribution Policy in the annual report and on the corporate website.

The Board of Directors of Tide Water Oil Co. (I) Limited has adopted this Dividend Distribution Policy to comply with these requirements.

The Policy shall apply to the ordinary equity shares issued and outstanding and shall not apply to determination and declaration of dividend on preference shares or any other class of shares, as and when issued by the Company, as the same will be as per the terms of issue approved by the shareholders.

2. Objective

The objective of this Policy is to ensure the right balance between the quantum of Dividend paid and amount of profits retained in the business for various purposes. Towards this end, the Policy lays down parameters to be considered by the Board of Directors of the Company for declaration of Dividend from time to time.

3. Definitions

"Applicable Laws" shall mean the Companies Act, 2013 and Rules made thereunder, the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time and such other act, rules or regulations which provides for the distribution of Dividend.

"Board" shall mean Board of Directors of the Company.

"Companies Act or Act" shall mean the Companies Act, 2013 and Rules thereunder, notified by the Ministry of Corporate Affairs, Government of India, as amended.

"Company" shall mean Tide Water Oil Co. (I) Limited.

"Dividend" includes any interim dividend.

"Policy" means this Dividend Distribution Policy.

"Regulations" shall mean the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as notified by The Securities and Exchange Board of India, as amended, from time to time.

4. Financial Parameters and Internal and external factors that would be considered for declaration of dividend

- Distributable surplus available as per the Act and Regulations;
- The Company's liquidity position and future cash flow needs;
- Track record of Dividends distributed by the Company;
- Payout ratios of comparable companies;
- Prevailing Taxation Policy or any amendments expected thereof, with respect to Dividend distribution;
- Capital expenditure requirements considering the expansion and acquisition opportunities;
- Cost and availability of alternative sources of financing;
- Statutory provisions and guidelines;
- Macroeconomic and business conditions in general;
- Any other relevant factors that the Board may deem fit to consider before declaring Dividend.

5. Circumstances under which shareholders may or may not expect dividend

The Dividend for any financial year shall normally be paid out of the Company profits for that year, as calculated in line with the applicable laws. If circumstances require, the Board may also declare dividend out of accumulated profits of any previous financial year(s), subject to compliance of applicable laws.

The shareholders of the Company may not expect Dividend under the following circumstances :

- Whenever it undertakes or proposes to undertake a significant expansion project requiring higher allocation of capital;
- In case of significant higher working capital requirements adversely impacting free cash flow;
- Whenever it undertakes any acquisitions or joint ventures requiring significant allocation of capital;
- In the event of inadequacy of profits or whenever the Company has incurred losses;
- For any other reason as the Board may deem fit from time to time.

6. Utilization of retained earnings

Retained Earnings may be used for corporate actions in accordance with applicable law and for investments towards growth of the business.

7. Procedure

Final dividend is declared at the Annual General Meeting (AGM) of the shareholders on the basis of recommendations of the Board. The Board may, at its discretion, also declare an interim dividend.

8. Parameters to be adopted with regard to various class of shares

Since the Company has issued only one class of equity shares with equal voting rights, all the members of the Company are entitled to receive the same amount of dividend per share. The Policy shall be suitably reviewed / amended at the time of issue of any new class of shares depending upon the nature and guidelines thereof.

9. Disclosures

The Dividend Distribution Policy shall be disclosed in the Annual Report and on the website of the Company

10. Modification of this Policy

The Board is authorised to change/amend this policy from time to time at its sole discretion and/or in pursuance of any amendments made in the Companies Act, the Regulations, etc.

11. Disclaimer

This document does not solicit investments in the Company's securities. Nor is it an assurance of guaranteed returns (in any form), for investments in the Company's equity shares.

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
TIDE WATER OIL CO. (INDIA), LTD.

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **Tide Water Oil Co. (India) Ltd.** ("the Company"), which comprise the Balance Sheet as at 31st March, 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").

“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT

The Annexure referred to in Paragraph 2(g) under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Tide Water Oil Co. (India) Ltd** (“the Company”) as of 31st March, 2017 in conjunction with our audit of standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls considering the essential components of internal financial controls as per section 134(5)(e) of the Act and as stated in the applicable Standards of Auditing issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately

and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

In view of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

According to the information and explanations given to us, the Company has not fully documented its Internal Financial Control over Financial Reporting that is in vogue, based upon the criteria of the Guidance Note on audit of Internal Financial Control over Financial Reporting issued by The Institute of Chartered Accountants of India (ICAI). However, we have carried out some walk through and other audit tests to ascertain the effectiveness of Internal Financial Control over Financial Reporting as practiced by the Company, so far as it affects the financial reporting on the key account balances and processes.

Based on our audit procedures, in our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

1 Corporate Information

Tide Water Oil Co. (India) Limited is a public limited company domiciled in India. The company is primarily engaged in the business of manufacturing and marketing of Lubricants. Its shares are listed on Bombay Stock Exchange, National Stock Exchange and Calcutta Stock Exchange. The registered office of the company is located at Kolkata.

The financial statements were approved for issue in accordance with the resolution of the Board of Directors on 30th May 2017

2 Summary of significant accounting policies

2.1 Basis of preparation

2.1.1 Compliance with Indian Accounting Standards (Ind AS)

The financial statements are prepared on accrual basis of accounting and comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (The Act) [Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016] and other relevant provisions of the Act.

The financial statements up to year ended 31st March 2016 were prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India, the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Act.

These financial statements are the first financial statements of the company under Ind AS and Ind AS 101 "First Time Adoption of Indian Accounting Standards" has been applied. Refer Note 40 for an explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.1.2 Basis of Measurement

The financial statements have been prepared on accrual basis of accounting under historical cost conventions, except for the following financial assets and financial liabilities which are measured at fair value:

- i) certain financial assets and liabilities (including derivative instruments and car loan to employees) that is measured at fair value;
- ii) defined benefit plans – plan assets measured at fair value.

The methods used to measure fair values are discussed in Note 2.25

2.1.3 Functional and Presentation Currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest crores (upto two decimals) for the Company.

2.1.4 Use of estimates and management judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures including contingent assets and liabilities at the Balance Sheet date. The estimates and management's judgements are based on previous experience and other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

In order to enhance understanding of the financial statements, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that may have the most significant effect on the amount recognised in the financial statements are included in the following notes:

a) Useful life of Property, Plant and Equipment

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, completion and other economic factors (such as the stability of the industry and known technological advancement) and the level of maintenance expenditure required to obtain the expected future cash flows from the assets.

b) Recoverable amount of property, plant and equipment and capital work in progress

The recoverable amount of property, plant and equipment and capital work in progress is based on estimates and assumptions. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount resulting in impairment.

c) Post-retirement benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increase, the inflation rate and expected rate of return on plan assets. The Company considers that the assumptions used to measure its obligation are appropriate and documented. However, any changes in the assumptions may have any impact on the resulting calculations

d) Provisions and contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has been made on the basis of best judgement by management regarding probable outflow of economic resources. Such estimation can change due to unforeseeable developments.

e) Impairment of the Trade Receivables

Considering the historical credit loss experience for trade receivables, the Company applies the simplified approach of recognising the expected losses from initial recognition of the receivables on case to case basis as provision for impairment.

f) Investment in Subsidiaries and Joint Venture

Investment is carried at cost and provision is made for any indication of impairment on such investments.

2.2 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The Board of Directors is collectively the Company's CODM. Based on the synergies, risks and returns associated with business operations and in terms of Ind AS 108, the Managing Director of the Company has assessed that the Company is predominantly engaged in the business of a single reportable segment of Lubricants during the year. Therefore disclosure requirements of Ind AS 108 on Operating Segments are not applicable to the Company.

2.3 Foreign Currency Transactions

Foreign currency transactions are translated into Indian Rupee (INR) which is the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit and loss are recognised in profit and loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as Fair Value through Other Comprehensive Income (FVOCI) are recognised in Other Comprehensive Income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction.

2.4 Revenue Recognition and Other Income

Revenue is recognised when significant risks and rewards of ownership have been transferred to the buyers and to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Based on the Educational Material on Ind AS 18 on "Revenue" issued by the ICAI, the Company has assumed that recovery of excise duty flows to the Company on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the Company on its own account, revenue includes excise duty.

However, sales tax/ value added tax (VAT) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

2.4.1 Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Revenue from sales is based on price specified in the Sales Contracts, net of discounts and schemes which are assessed based on published circulars and expected achievement threshold. No element of financing is deemed present as the sales are made generally with a credit term, which is consistent with market practice.

2.4.2 Sale of Power

Revenue from the sale of power is recognised based on the units as per invoice as transmitted to buyer.

2.4.3 Rental Income

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit and loss due to its operating nature.

2.4.4. Interest

Interest Income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

2.4.5 Dividend

Dividends are recognised in profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

2.5 Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Additional income taxes that arise from the distribution of dividends are recognised at the same time the liability to pay the related dividend is recognised.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.6 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the leases. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit and loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

2.7 Impairment of non financial assets other than inventories

- a) The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any Indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets of the Company. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognised in the Statement of Profit and Loss.
- b) In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

2.8 Statement of Cash Flows

a) Cash and Cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown under borrowings in current liabilities in the Balance Sheet.

- b) Statement of Cash Flows is prepared in accordance with the indirect method prescribed in Ind AS-7" Statement of Cash Flow"

2.9 Trade receivables

Trade receivables are recognised initially at transaction price and subsequently measured at amortised cost less provision for impairment.

2.10 Inventories

Raw Material (including Packing Materials), Stores and Spare parts and Finished Goods are stated at lower of cost and net realisable value. Cost of raw material comprises cost of purchases. Cost of Finished Goods comprise direct material, direct labour and appropriate portion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost are assigned to individual items of inventory on the basis of weighted average method. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.11 Investments in subsidiaries and joint venture

Investments in equity shares of subsidiaries and joint venture are carried at cost.

2.12 Financial Assets other than Investments in subsidiaries and joint venture

2.12.1 Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit and loss), and
- those measured at amortised cost

The classification depends on the company's business model for managing the financial assets and the contractual terms of cash flows.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

For assets measured at fair value, gains and losses will either be recorded in profit and loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt instruments when and only when its business model for managing those assets changes.

2.12.2 Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit and loss are expensed in profit and loss.

Debt Instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its Debt instruments.

- Amortized Cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- Fair Value through Other Comprehensive Income (FVOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- Fair Value through profit and loss

Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss and is not part of a hedging relationship is recognised in profit and loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit and loss. Dividends from such investments are recognised in profit and loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

2.12.3 Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 2.26 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach of recognising the expected losses from initial recognition of the receivables on case to case basis as provision for impairment.

2.12.4 Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

2.13 Offsetting financial instruments

Financial Assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.14 Property, Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Transition to Ind AS

Property, Plant and Equipment upto 31st March, 2015 were carried in the Balance Sheet in accordance with Indian GAAP. The Company has elected to avail the exemption granted by Ind AS 101 "First Time adoption of Ind AS" to regard those amounts as 'Deemed cost' at the date of transition to Ind AS (i.e. as on 1st April, 2015).

Stand-by equipments and servicing equipments which meet the recognition criteria of property, plant and equipment are capitalised.

Spare parts (procured along with Plant & Machinery) or subsequently which meet the recognition criteria are capitalised. Other spare parts are treated as "Stores & Spares" forming part of inventory.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values on the basis of useful lives prescribed in Schedule II to the Companies Act, 2013, which are also supported by technical evaluation.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Leasehold land is amortised on a straight line basis over the period of lease.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit and loss within other gains/ (losses).

2.15 Capital Work-in-Progress]

Capital Work-in-Progress upto 31st March, 2015 were carried in the Balance Sheet in accordance with Indian GAAP. The Company has elected to avail the exemption granted by Ind AS 101 "First time adoption of Ind AS " to regard those amounts as deemed cost at the date of the transition to Ind AS.

Expenditure incurred on assets under construction is carried at cost under Capital Work-in-Progress. Such costs comprise purchase price of assets, including duties and non-refundable taxes and other costs that are directly attributable to bringing the asset to the location and conditions necessary for it to be capable of operation in the manner intended by management.

2.16 Investment Properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable, borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Transition to Ind AS

Investment property upto 31st March, 2015 were carried in the Balance Sheet in accordance with Indian GAAP. The Company has elected to avail the exemption granted by Ind AS 101 "First time adoption of Ind AS" to regard those amounts as deemed cost at the date of transition to Ind AS.

2.17 Intangible Assets

Costs associated with maintaining software programmes are recognised as an expense as incurred. Cost of purchased software are recorded as intangible assets and amortised from the point at which the asset is available for use. Intangible assets are amortized over their best estimated useful life ranging upto three years on straight line method. Costs associated with maintaining software programmes are recognised as an expense as incurred.

Intangible assets upto 31st March, 2015 were carried in the Balance Sheet in accordance with Indian GAAP. The Company has elected to avail the exemption granted by Ind AS 101 "First time adoption of Ind AS" to regard those amounts as deemed cost at the date of transition to Ind AS.

2.18 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value/transaction value and subsequently measured at amortised cost using the effective interest method.

2.19 Borrowings Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

2.20 Provisions, Contingent liabilities and Contingent Assets

Provisions for legal claims, discounts, schemes and returns are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are possible obligations that arise from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company, such obligation is disclosed as contingent liability.

Contingent Assets are possible assets that arise from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in financial statements when in flow of economic benefits is probable on the basis of judgement of management.

2.21 Employee Benefits

2.21.1 Short Term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

2.21.2 Other Long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit and loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

2.21.3 Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plans which are Gratuity and Post retirement medical scheme.
- (b) Defined contribution plans which are provident fund, Superannuation and Pension.

(All Figures in Rs. Crores unless otherwise mentioned)

2.22 Dividends

Dividends and interim dividends payable to the Company's shareholders are recognised as change in equity in the period in which they are approved by the Company's shareholders and the Board of Directors respectively.

2.23 Earnings per share**2.23.1 Basic Earnings per share**

Basic earnings per share is calculated by dividing :

- The profit/ loss attributable to owners of the Company
- By the weighted average number of equity shares outstanding during the financial year.

2.23.2 Diluted Earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.24 Financial liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company.

The Company's financial liabilities include loans & borrowings, trade and other payables.

a) Classification, initial recognition and measurement

Financial liabilities are recognised initially at fair value minus transactions costs that are directly attributable and subsequently measured at amortised cost. Financial liabilities are classified as subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss or in the carrying amount of an asset if another standard permits such inclusion, over the period of the borrowings using the effective rate of interest.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

b) Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss or in the carrying amount of an asset if another standard permits such inclusion, when the liabilities are derecognised as well through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

c) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

2.25 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Normally at initial recognition, the transaction price is the best evidence of fair value.

However, when the Company determines that transaction price does not represent the fair value, it uses inter-alia valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. This categorisation is based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial assets and financial liabilities that are recognised at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

2.26 Financial risk management

The entity's activities expose it to market risk, liquidity risk and credit risk. In order to minimize effects of the above, various arrangements are entered into by the entity. The following table explains the sources of risk and how the entity manages the risk in its financial statements.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost	Ageing analysis, Credit analysis	Credit limits and letters of credit
Liquidity Risk	Borrowings and other liabilities	Cash Flow forecasts	Credit facilities
Market Risk – foreign exchange	Recognized financial assets and liabilities not denominated in INR	Cash Flow forecasts	Monitoring of currency movements
Market Risk – interest rate	Long term borrowings / liabilities	-	Monitoring of interest rate movements
Market Risk – security prices	Investment in Securities	-	Portfolio management

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

A) Credit risk

Credit risk arises from cash and cash equivalents, investment carried at amortized cost, deposit with banks and financing institutions as well as credit exposure to customer and other parties.

For banks and financial institutions, only high rated banks/ institutions are accepted. For other financial assets, the entity assesses and manages credit risk based on internal credit evaluation. It monitors partywise exposure and based on evaluation credit rating is allotted for each party. Thereafter a credit limit is assigned to each party depending on the solvency of the said party.

The entity considers the probability of default on ongoing basis and at each reporting period.

Microeconomic information is incorporated as part of internal rating model.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 60 days past due.

Reconciliation of provisions for doubtful assets has been provided as under:

Particulars	Amount
Provision for Doubtful Debts on 01.04.2015	3.19
Charges during 2015 - 2016	0.27
Provision for Doubtful Debts on 31.03.2016	3.46
Charges during 2016 - 2017	-0.29
Provision for Doubtful Debts on 31.03.2017	3.17

B) Liquidity risk

Prudent risk liquidity management implies maintaining sufficient cash and cash equivalents and the availability of committed credit facilities to meet obligations when due.

Management monitors rolling forecasts of the group's liquidity position on the basis of expected cash flow. The entity has access to the following undrawn borrowing facilities at the end of the reporting period:

	As at 31.03.2017	As at 31.03.2016	As at 01.04.2015

28 Employee Benefits:		
(I) Leave Obligations		
The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number days of unutilised leave at each balance sheet date on the basis of year-end actuarial valuation. The Scheme is unfunded.		
The amount of the provision of Rs. 3.34 Crores (31 st March 2016- Rs. 2.52 Crores) is presented as current, since the Company does not have any unconditional right to defer settlement for any of these obligations.		
(II) Post employment obligations - Defined Benefit Plans		
(A) Gratuity		
The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees as per Payment of Gratuity Act, 1972. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount as per Payment of Gratuity Act, 1972. Vesting occurs upon completion of five years of service. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. The plan is being managed by a separate Trust created for the purpose and obligations of the company is to make contribution to the Trust based on actuarial valuation. The scheme is funded.		
(B) Post- retirement Medical Scheme		
Under this scheme, employees get medical benefits subject to certain limits of amount and types of benefits depending on their grade at the time of retirement. The liability for post-retirement medical scheme is determined on the basis of year-end actuarial valuation. The Scheme is unfunded.		
(C) Pension Benefits		
The Company has a defined benefit pension fund. The Scheme is unfunded. This is not applicable to members in employment at present.

(All Figures in Rs. Crores unless otherwise mentioned)

The above Sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

- (h) Category of Plan Assets: The Company has not received any break up of the compositions of investments by category with respect to gratuity fund managed by LIC, hence disclosure required, has not been given.

(i) Risk Exposure

The Company is exposed to a number of risks through the defined benefit plans. The most significant of which are detailed below:-

Funded

Superannuation Fund - This is a defined contribution fund, so there is no material risk.

Gratuity

i) Credit Risk:

The scheme is insured and fully funded on Projected United Credit Method (PUC) basis. There is a credit risk to the extent the insurer is unable to discharge its obligations including failure to discharge in timely manner.

ii) Discount Rate Risk

The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase in the ultimate cost of providing the above benefit thereby increasing the value of the liability.

iii) Regulatory Risk:

Gratuity Benefit must comply with the requirements of the Payment of Gratuity Act, 1972. There is a risk of change in the regulations requiring higher gratuity payments.

iv) Future Salary Increase Risk:

The scheme cost is very sensitive to the assumed future salary escalation rates for all salary defined benefit schemes. If actual future salary escalations are higher than that assumed in the valuation actual scheme cost and hence the value of the liability will be higher than that estimated.

v) Investment Risk

If Plan is funded then assets liabilities mismatch and actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

Non-funded

Leave encashment, Medical and Pension.

i) Discount Rate Risk

The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase in the ultimate cost of providing the above benefit thereby increasing the value of the liability.

ii) Future Salary Increase Risk:

The scheme cost is very sensitive to the assumed future salary escalation rates for all salary defined benefit schemes. If actual future salary escalations are higher than that assumed in the valuation actual scheme cost and hence the value of the liability will be higher than that estimated.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

iii) Life expectancy:

The pension and medical plan obligation are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liability.

iv) Pay-as-you-go Risk:

For unfunded schemes financial planning could be difficult as the benefits payable will directly affect the revenue and this could be widely fluctuating from year to year.

v) Withdrawals

Actual Withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rate at subsequent valuation can impact plans liability.

(j) Defined Benefit Liability and Employer Contributions

Gratuity is funded with LIC. Contribution is made annually to match with the obligation. As per policy of the Company, leave encashment and medical are paid from company's reserve fund.

Expected contributions to Post-employment benefit plans for the year ending 31st March 2018 are Rs. 3.10 Crores.

The weighted average duration of the defined benefit obligation is 15 years (March 31, 2016 – 15 years). The expected maturity analysis of undiscounted gratuity, leave encashment and post employment medical benefits is as follows:-

	Less than 1 year	Between 1-2 years	Between 2-5 years	Over 5 years	Total

(III) Post employment obligations - Defined Contribution Plans

The Company has certain Defined Contribution Plans viz. Provident Fund and Superannuation Fund. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The Company has a defined contribution Superannuation plan for which contribution is made at a rate not exceeding 4.87% of Basic and Dearness Allowance of the member with Superannuation. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 3.77 Crores (31st March 2016- 3.50 Crores)

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

40 First-time adoption of Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 2, have been applied in preparing the financial statements for the year ended 31st March, 2017, the comparative information for the year ended 31st March, 2016 and in preparation of an opening Balance Sheet as at 1st April, 2015. In preparing its opening Balance Sheet, amounts reported previously in financial statements have been adjusted suitably. An explanation of how a transition from the previous GAAP to Ind AS has affected the group's financial position, financial performance and cash flows is set out in the following tables and notes:

40.1 Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

40.1.1 Ind AS Optional Exemptions

40.1.1.1 Business combination

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. The exemption can also be used for intangible assets covered under Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly the Company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

40.1.1.2 Cumulative translation differences

Ind AS 101 permits cumulative translation gains and losses to be reset to zero at the transition date. This provides relief from determining cumulative currency translation differences in accordance with Ind AS 21 from the date a subsidiary or equity method investee was formed or acquired.

In line with the above, all such gains and losses have been set to zero.

40.1.1.3 Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment, measured as per the previous GAAP and use that as its deemed cost at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

40.1.1.4 Designation of previously recognized financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of facts and circumstances at the date of transition to Ind AS.

The entity has elected to apply this exemption for its investments.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

40.1.1.5 Leases

Ind AS requires an entity to assess whether a contract or arrangement contains a lease. This assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS.

The entity has elected to apply this exemption.

40.1.1.6 Joint venture

Ind AS 101 provides an exemption for changing from proportionate consolidation to the equity method. As per the exemption, when changing from proportionate consolidation to the equity method, an entity should recognize its investment in the joint venture at transition date to Ind AS. The initial investment should be measured based on the carrying amount of assets and liabilities that have been consolidated earlier. The balance of the investment in joint venture at the date of transition to Ind AS is regarded as deemed cost of the investment.

The entity has elected to apply this exemption.

40.1.2 Ind AS mandatory exceptions**40.1.2.1 Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP.

Ind AS estimates at 1st April, 2015 are consistent with the estimates as at the same date made with conformity with previous GAAP.

40.1.2.2 De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition retrospectively from a date of entity's choosing.

The entity has elected to apply the de-recognition provisions prospectively from the date of transition.

40.1.2.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of assets on the basis of facts and circumstances that exist at the date of transition to Ind AS.

The entity has applied this exception.

40.1.2.4 Fair valuation of investments

Under the previous GAAP, investments were classified as long term investments or current investments based on the intended holding period and realisability. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value changes of these investments have been recognized in retained earnings as at the date of transition.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

40.1.2.5 Deferred tax

Under previous GAAP, tax expense in the financial statement was computed by performing line by line addition of tax expense. Under Ind AS, deferred taxes are also recognized on undistributed profits of joint ventures and associates.

40.1.2.6 Trade receivables

The Company applies the simplified approach of recognising the expected losses from initial recognition of the receivables on case to case basis as provision for impairment.

40.1.2.7 Investment property

Under the previous GAAP, investment properties were presented as part of fixed assets. Under Ind AS, these are required to be separately presented on the face of Balance Sheet.

40.1.2.8 Bank overdrafts

Under Ind AS, bank overdrafts repayable on demand are included in cash and cash equivalents for the purpose of presentation of statement of cash flows. Under previous GAAP, bank overdrafts were considered as part of borrowings.

40.1.2.9 Proposed dividend

Under the previous GAAP, dividends proposed by the Board of Directors after the Balance Sheet date, before the approval of the financial statements were considered as adjusting events. Under Ind AS, such dividends are recognized when the same is approved by shareholders in the general meeting.

40.1.2.10 Excise duty

Under the previous GAAP, revenue from sale of products was presented exclusive of excise duty. Under Ind AS, revenue from sale of goods is presented inclusive of excise duty. The excise duty paid is presented as part of expenses.

40.1.2.11 Remeasurements of post-employment benefit obligations

Under the Ind AS, actuarial gains and losses and the return on plant assets, are recognized in other comprehensive income. Under the previous GAAP, they were forming part of the profit and loss for the year.

(All Figures in Rs. Crores unless otherwise mentioned)

Level 1

Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2

The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

(i) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

(ii) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the periods ended 31st March 2017 and 31st March 2016 :

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in Paragraph 2(f) under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2017, we have audited the internal financial controls over financial reporting of **Tide Water Oil Co. (India), Ltd** (hereinafter referred to as “the Parent Company”) and have considered the audit report of the other auditor on the internal financial controls over financial reporting of the joint venture company which is incorporated in India.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent Company and its jointly controlled entity which is incorporated in India, are responsible for establishing and maintaining internal financial controls considering the essential components of internal financial controls as per section 134(5)(e) of the Act and as stated in the applicable Standards of Auditing issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally

accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

According to the information and explanations given to us the Parent including and its joint venture company which is incorporated in India is yet to document its Internal Financial Control over Financial Reporting that is in vogue, based upon the criteria of the Guidance Note on audit of Internal Financial Control over Financial Reporting issued by The Institute of Chartered Accountants of India (ICAI). However, we have carried out some walk through and other audit tests to ascertain the effectiveness of Internal Financial Control over Financial Reporting as practiced by the Company, so far as it affects the financial reporting on the key account balances and processes.

Based on our audit procedures, in our opinion, the Parent Company including its joint venture company, which is incorporated in India has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Parent Company including its joint venture company, which is incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to its joint venture company as considered in the consolidated financial statements and which is incorporated in India, is solely based on the corresponding report of the auditor of such entity.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

1 Summary of significant accounting policies**1.1 Basis of preparation**

The consolidated financial statements relate to Tide Water Oil Co.(India) Ltd.("The Parent Company"), and its subsidiary companies (collectively referred to as "The Group") and its Joint Venture Company. The Consolidated Financial Statements of the group and its Joint Venture company have been prepared under the historical cost convention in accordance with Indian Accounting Standard (Ind AS) and the relevant provisions of section 133 of Companies Act 2013 and on accrual basis. Financial Statements of the subsidiary companies which are incorporated outside India have been prepared following the Accounting Standards applicable in their respective countries but suitably modified to conform to the uniform accounting policies, except where disclosed otherwise.

1.1.1 Compliance with Indian Accounting Standard (Ind AS)

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("The Act") [Companies (Indian Accounting Standards) Rules, 2015] and (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

The Consolidated financial statements up to year ended 31st March 2016 were prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India, the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) read with rule 7 of the companies (accounts) Rules 2014 and other relevant provisions of the Act.

These consolidated financial statements are the first consolidated financial statements of the company under Ind AS and Ind AS 101 "First Time Adoption of Indian Accounting Standards" has been applied. Refer Note 33 for an explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current non-current classification of assets and liabilities.

1.1.2 Principles of Consolidation

- i) The consolidated financial statements of parent and its subsidiary companies are combined on line by line basis by adding together like items of assets, liabilities, income and expenses after fully eliminating intra group balances, transactions, and unrealised gains or losses.
- ii) In respect of subsidiaries, which are consolidated as non integral foreign operations that have a functional currency different from presentation currency are translated into presentation currency as follows:
 - a) assets and liabilities are translated at the closing rate at the date of that balance sheet.
 - b) income and expenses are translated at average exchange rate and
 - c) all resulting exchange differences are recognised in other comprehensive income
- iii) Interest in joint venture are accounted for using the equity method.
- iv) The difference between the cost of investment in the subsidiary over the net assets at the time of acquisition of shares in the subsidiary is recognised in the financial statements as goodwill or capital reserve, as the case may be.

1.1.3 Investment other than in subsidiaries and Joint Venture Company have been accounted for as per Ind AS-109, Financial Instruments.

1.2 Other significant accounting policies

These are set out under "Significant Accounting Policies" as given in the respective Financial Statements of Tide Water Oil Co. (India) Ltd., (the parent company), its subsidiary companies and its joint venture company respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

2.1 Financial risk management

The entity's activities expose it to market risk, liquidity risk and credit risk. In order to minimize effects of the above, various arrangements are entered into by the entity. The following table explains the sources of risk and how the entity manages the risk in its Consolidated Financial Statements.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost	Ageing analysis, Credit analysis	Credit limits and letters of credit
Liquidity Risk	Borrowings and other liabilities	Cash Flow forecasts	Credit facilities
Market Risk – foreign exchange	Recognized financial assets and liabilities not denominated in INR	Cash Flow forecasts	Monitoring of currency movements
Market Risk – interest rate	Long term borrowings / liabilities	-	Monitoring of interest rate movements
Market Risk – security prices	Investment in Securities	-	Portfolio management

A) Credit risk

Credit risk arises from cash and cash equivalents, investment carried at amortized cost, deposit with banks and financing institutions as well as credit exposure to customer and other parties.

For banks and financial institutions, only high rated banks/ institutions are accepted. For other financial assets, the entity assesses and manages credit risk based on internal credit evaluation. It monitors partywise exposure and based on evaluation credit rating is allotted for each party. Thereafter a credit limit is assigned to each party depending on the solvency of the said party.

The entity considers the probability of default on ongoing basis and at each reporting period.

Microeconomic information is incorporated as part of internal rating model.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 60 days past due.

Reconciliation of provisions for doubtful assets has been provided as under:

Particulars	Amount
Provision for Doubtful Debts on 01.04.2015	3.19
Charges during 2015 - 2016	0.27
Provision for Doubtful Debts on 31.03.2016	3.46
Charges during 2016 - 2017	-0.29
Provision for Doubtful Debts on 31.03.2017	3.17

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

B) Liquidity risk

Prudent risk liquidity management implies maintaining sufficient cash and cash equivalents and the availability of committed credit facilities to meet obligations when due.

Management monitors rolling forecasts of the group's liquidity position on the basis of expected cash flow. The entity has access to the following undrawn borrowing facilities at the end of the reporting period:

	As at 31.03.2017	As at 31.03.2016	As at 01.04.2015
Bank Overdraft	57.50	57.50	57.50
Letter of Credit	47.50	47.50	47.50

Bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice.

The following table gives the contractual discounted cash flows falling due within the next 12 (twelve) months.

Maturity of financial liabilities

Contractual maturities	Upto 1 year	Below 2 & 3 year	Above 3 year	Total
Obligation under financial lease	0.97	1.51	-	2.48
Trade payables	168.25	-	-	168.25
Other financial liabilities	4.40	3.08	18.39	25.87

C) Market risk**i) Foreign currency risk**

The entity is exposed to foreign exchange risk arising from foreign currency transactions, primarily with regard to AED, Euro, USD and GBP. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the entity's functional currency (INR). As per the risk management policy, the gross currency movements are continually monitored and necessary forward contracts are entered into as and when required. However, as the total exposure through currency risk directly is not material, generally forward contracts are not entered into on a regular basis.

The entity's exposure to foreign currency risk at the end of the reporting period expressed in INR is follows:

Particulars	As at 31.03.2017				As at 31.03.2016				As at 01.04.2015			
	GBP	AED	EURO	USD	GBP	AED	EURO	USD	GBP	AED	EURO	USD

31 **Employee Benefits:**

(I) Leave Obligations

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number days of unutilised leave at each balance sheet date on the basis of year-end actuarial valuation. The Scheme is unfunded.

The amount of the provision of Rs. 3.34 Crores (31st March 2016- Rs. 2.52 Crores) is presented as current, since the Company does not have any unconditional right to defer settlement for any of these obligations.

(II) Post employment obligations - Defined Benefit Plans

(A) Gratuity

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees as per Payment of Gratuity Act, 1972. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount as per Payment of Gratuity Act, 1972. Vesting occurs upon completion of five years of service. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. The plan is being managed by a separate Trust created for the purpose and obligations of the company is to make contribution to the Trust based on actuarial valuation. The scheme is funded.

(B) Post- retirement Medical Scheme

Under this scheme, employees get medical benefits subject to certain limits of amount and types of benefits depending on their grade at the time of retirement. The liability for post-retirement medical scheme is determined on the basis of year-end actuarial valuation. The Scheme is unfunded.

(C) Pension Benefits

The Company has a defined benefit pension fund. The Scheme is unfunded. This is not applicable to members in employment at present.

Notes:

- (a) The estimate of future salary increases takes into account inflation, seniority, promotion and other relevant factors, such as demand and supply in the employment market.
- (b) The expected return on plan assets is determined after taking into consideration composition of the plan assets held, assessed risks of asset management, historical results of the return on plan assets, the Company's policy for plan asset management and other relevant factors.

	Decrease by 0.25%	Increase by Rs.	0.27	0.12	0.10	Decrease by 1%	Decrease by Rs.	0.60	0.06	0.05

The above Sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

- (h) Category of Plan Assets: The Company has not received any break up of the compositions of investments by category with respect to gratuity fund managed by LIC, hence disclosure required, has not been given.

(i) Risk Exposure

The Company is exposed to a number of risks through the defined benefit plans. The most significant of which are detailed below:-

Funded

Superannuation Fund - This is a defined contribution fund, so there is no material risk.

Gratuity

i) Credit Risk:

The scheme is insured and fully funded on Projected United Credit Method (PUC) basis. There is a credit risk to the extent the insurer is unable to discharge its obligations including failure to discharge in timely manner.

ii) Discount Rate Risk

The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase in the ultimate cost of providing the above benefit thereby increasing the value of the liability.

iii) Regulatory Risk:

Gratuity Benefit must comply with the requirements of the Payment of Gratuity Act, 1972. There is a risk of change in the regulations requiring higher gratuity payments.

iv) Future Salary Increase Risk:

The scheme cost is very sensitive to the assumed future salary escalation rates for all salary defined benefit schemes. If actual future salary escalations are higher than that assumed in the valuation actual scheme cost and hence the value of the liability will be higher than that estimated.

v) Investment Risk

If Plan is funded then assets liabilities mismatch and actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

Non-funded

Leave encashment, Medical and Pension.

i) Discount Rate Risk

The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase in the ultimate cost of providing the above benefit thereby increasing the value of the liability.

ii) Future Salary Increase Risk:

The scheme cost is very sensitive to the assumed future salary escalation rates for all salary defined benefit schemes. If actual future salary escalations are higher than that assumed in the valuation actual scheme cost and hence the value of the liability will be higher than that estimated.

iii) Life expectancy:

The pension and medical plan obligation are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liability.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(All Figures in Rs. Crores unless otherwise mentioned)

iv) Pay-as-you-go Risk:

For unfunded schemes financial planning could be difficult as the benefits payable will directly affect the revenue and this could be widely fluctuating from year to year.

v) Withdrawals

Actual Withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rate at subsequent valuation can impact plans liability.

(j) Defined Benefit Liability and Employer Contributions

Gratuity is funded with LIC. Contribution is made annually to match with the obligation. As per policy of the Company, leave encashment and medical are paid from company's reserve fund.

Expected contributions to Post-employment benefit plans for the year ending 31st March 2018 are Rs. 3.10 Crores.

The weighted average duration of the defined benefit obligation is 15 years (March 31, 2016 – 15 years). The expected maturity analysis of undiscounted gratuity, leave encashment and post employment medical benefits is as follows:-

	Less than 1 year	Between 1-2 years	Between 2-5 years	Over 5 years	Total
As at 31 st March 2017					
Gratuity	1.64	0.47	2.94	9.73	14.78

Total	2.06	1.13	4.13	14.50	21.82

(III) Post employment obligations - Defined Contribution Plans

The Company has certain Defined Contribution Plans viz. Provident Fund and Superannuation Fund. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The Company has a defined contribution Superannuation plan for which contribution is made at a rate not exceeding 4.87% of Basic and Dearness Allowance of the member with Superannuation. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 3.77 Crores (31st March 2016- 3.50 Crore)

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1

Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2

The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

(i) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

(ii) Fair value measurements using significant unobservable inputs (level 3)
