**18.** Additional information, pursuant to Regulation 36 (3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and Secretarial Standard 2 in respect of the Directors seeking appointment / re-appointment at this Meeting is

furnished as annexure to the Notice of this Meeting. The Directors have furnished consent / declaration for their appointment / re-appointment as required under the Companies Act, 2013 and the Rules made thereunder.

19. The Company has transferred the unpaid or unclaimed dividends declared up to Financial Years 2012-13, from time to time on due dates, to the Investor Education and Protection Fund (the IEPF) established by the Central Government. Pursuant to the provisions of Investor Education and Protection Fund (Uploading of information regarding unpaid and unclaimed amounts lying with companies) Rules, 2012, the Company has uploaded the details of unpaid and unclaimed amounts lying with the Company as on the date of last Annual General Meeting on the website of the Company ([www.sundaramgroups.in](http://www.sundaramgroups.in)), as also on the website of the Ministry of Corporate Affairs. The unclaimed dividend amount pertaining to Dividend for the year 2013-14 will be due for transfer to the Investor Education and Protection Fund of the Central Government on October 29, 2021.
20. The Ministry of Corporate Affairs had notified provisions relating to unpaid / unclaimed dividend under Sections 124 and 125 of Companies Act, 2013 and Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016 (IEPF Rules). As per these Rules, dividends which are not claimed by the shareholder for a period of seven consecutive years shall be transferred to the Investor Education and Protection Fund (IEPF) Authority. The IEPF Rules mandate the companies to transfer such shares of Members of whom dividends remain unpaid / unclaimed for a period of seven consecutive years to the demat account of IEPF Authority. Hence, the Company requests all the Members to claim their respective dividend. The Members whose shares are transferred to the IEPF Authority can now claim their shares from the Authority by making request to Company or Registrar and Share Transfer Agents.

The year 2020 was an unusually challenging year for us. We were all affected by the Covid-19 pandemic in different ways as the lockdowns hit across the world.

In these difficult times of the pandemic, resilience for an organization is paramount. During the year, the Company focused on improving cash from operations and cutting costs while achieving its goals. The health of the employees and workers became a priority; stoppage of operations for an uncertain period resulted in a large financial burden on the one hand and workforce idling on the other. The Company initiated various measures for the entire business eco-system helping the vendors and employees wade through this crisis. We made timely payments to all our business partners, including vendors. Salaries were paid to all employees for the entire period.

The office based employees were working from home with the help of adequate digital and other assistance and those working from plants and other locations ensured undertaking utmost care and precaution at all times. Company's HR department is continuously in touch with the employees to guide them and solve their problems and have continuously created the awareness of Covid-19 among the employees of the Company through E-mails and has also educated the employees in respect of personal hygiene and precautions which needs to be taken in this situation of pandemic. India is currently experiencing a massive second wave of Covid-19 infections. However, we expect no major changes in the economic activity as the nation is preparing to face the Pandemic with vaccines and preparedness.

#### **15. COMPANY'S POLICY ON DIRECTOR'S APPOINTMENT, REMUNERATION AND EVALUATION:**

However, due to the COVID-19 situation, state wide restrictions along with the massive spike in cases of the corona

virus disease (Covid-19) in the State of Maharashtra and the consequent lockdown which has hit the business operations in the Company's peak selling season, it has impacted the financial performance and business operations of the Company. Hence, the same stands due as on date.

• **Management's Response for the Auditors Observations:**

The Management would like to state that the stamp duty amount is a substantial amount and owing to COVID-19 pandemic situation which has impacted the financial performance and business operations of the Company, the Company has deferred the payment of stamp duty. Except for the stamp duty matter, the findings of the audit have been satisfactory.

**32. INTERNAL AUDITOR:**

The Company appointed M/s. F. A. Ansari & Associates, Chartered Accountants, Mumbai, as its Internal Auditor for Financial Year 2020-21 as well as 2021-22. During the year, the Company continued to implement their suggestions and recommendations to improve the control environment. Their scope of work includes review of processes for safeguarding the assets of the Company, review of operational efficiency, effectiveness of systems and processes, and assessing the internal control strengths in all areas. Internal Auditors findings are discussed with the process owners and suitable corrective actions taken as per the directions of Audit Committee on an ongoing basis to improve efficiency in operations.

**33. COST AUDITOR:**

Pursuant to Section 148 of the Companies Act, 2013 read with the Companies (Cost Records and Audit) Rules, 2014 the Cost Audit Report is not mandatorily applicable to our Company; hence, no such audit has been carried out during the year.

**34. REMUNERATION OF DIRECTORS AND EMPLOYEES OF LISTED COMPANIES:**

Disclosures pertaining to remuneration and other details as required under Section 197(12) of the Act read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 are provided in the **Annexure-2** to this Report.

In terms of the provisions of Section 197(12) of the Act read with Rules 5(2) and 5(3) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, a statement showing the names and other particulars of the employees drawing remuneration in excess of the limits set out in the said

rules are mentioned in **Annexure-2** to this report.

**35. COMPLIANCE WITH SECRETARIAL STANDARDS:**

The Company hereby affirm that during the year under review it has complied with all the applicable secretarial standards (including any modifications or amendments thereto) issued by the Institute of Company Secretaries of India.

**36. EXTRACT OF ANNUAL RETURN:**

Extract of Annual Return of the Company is available on the website of the Company viz. [www.sundaramgroups.in](http://www.sundaramgroups.in).

**37. MANAGEMENT DISCUSSION AND ANALYSIS REPORT:**

As per requirements of Regulation 34 of Securities and Exchange Board of India (Listing Obligations and Disclosures) Regulations 2015, the Management's Discussion and Analysis of the financial condition and results of operations have been provided separately in the Annual Report.

**38. CORPORATE GOVERNANCE:**

Your Company has complied with Regulation 34 of SEBI (LODR) Regulations, 2015. The Report on Corporate Governance as stipulated under Regulation 34 of SEBI (LODR) Regulations, 2015 along with Secretarial Auditor/PCS Certificate forms part of this report. A certificate of the Managing Director and CFO of the company in terms of Listing Regulations, inter alia, confirming the correctness of the financial statements and cash flow statements, adequacy of the internal control measures and reporting of matters to the Audit Committee, is also annexed. Also a declaration signed by the Chairman and Managing Director stating that members of the board and senior management personnel have affirmed the compliance vide Code of Conduct of the board and senior management is attached to the report on corporate governance.

**39. DISCLOSURE UNDER SEXUAL HARASSMENT AT WORK-PLACE:**

The Company has in place an Anti-Sexual Harassment Policy in line with the requirements of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. All women employees (permanent, contractual, temporary and trainee) are covered under this Policy. During the year 2020-21, no complaints on sexual harassment were received.

**40. LISTING AND DEMATERIALISATION:**

convert their holdings to dematerialized form to derive its benefits by availing the demat facility provided by NSDL and CDSL.

#### 41. CASH FLOW AND CONSOLIDATED FINANCIAL STATEMENTS:

As required under the regulation 34 (2) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a cash flow statement is part of the Annual Report 2020 - 2021. Further, the Consolidated Financial Statements of the Company for the financial year 2020 - 2021 are not applicable as there was only one subsidiary company which has been amalgamated with the Company on or before the signing of Annual Audited Financial Statements.

#### 42. PREVENTION OF INSIDER TRADING:

The Company has also adopted a code of conduct for prevention of insider trading. All the Directors, Senior Management employees and other employees who have access to the unpublished price sensitive information of the Company are governed by this code. During the year under report, there has been due compliance with the said code of conduct for prevention of insider trading based on the SEBI (Prohibition of Insider Trading) Regulations 2015.

#### 43. OTHER DISCLOSURES/REPORTING:

Your Directors state that no disclosure or reporting is required in respect of the following items as there were no transactions on these items during the year under review:

1. None of the Directors of the Company have resigned during the year under review;
2. The Company has not issued equity shares with differential rights as to dividend, voting or otherwise;
3. The Company has not issued any sweat equity shares to its directors or employees;
4. No application has been made under the Insolvency and Bankruptcy Code; hence the requirement to disclose the details of application made or any proceeding pending under the Insolvency and Bankruptcy Code, 2016 (31 of 2016) during the year alongwith their status as at the end of the financial year is not applicable;
5. There was no revision of financial statements and Boards Report of the Company during the year under review;

#### 44. CAUTIONARY STATEMENT:

Statements in this Directors' Report and Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or

predictions may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make difference to the Company's operations include raw material availability and its prices, cyclical demand and pricing in the Company's principle markets, changes in Government regulations, Tax regimes, economic developments within India and the countries in which the Company conducts business and other ancillary factors.

#### 45. ACKNOWLEDGEMENT:

Your Directors place on record their appreciation for employees at all levels, who have contributed to the growth and performance of your Company.

Your Directors also thank the clients, vendors, bankers, shareholders and advisers of the Company for their continued support.

Your Directors also thank the Central and State Governments, and other statutory authorities for their continued support.

## MANAGEMENT DISCUSSION & ANALYSIS REPORT

### GLOBAL ECONOMY:

The events of 2020 tested the resilience of our business model, people and financial strength. The pandemic has been ferocious, unrelenting and unprecedented in its scope and coverage. In face of such uncertainty, we relied on our established tenets of communication, engagement, positive support and team working to tide over challenges. The satisfactory outcome has further affirmed our resolve to deepen our principles of sustainability, technology & trust with exceptional standards of governance.

The COVID-19 pandemic has unleashed unprecedented disruption to human life and economic activity the world over, and has sent the already slowing global economy into a massive recessionary shock. With world output estimated to contract by 5% to 7% in 2020 (as per latest estimates of international agencies) the anticipated recession would be the deepest since the Great Depression of the 1930s and the first one since 1870 to be triggered solely by a pandemic. In emerging economies, the pandemic is likely to cause the first output contraction in the past six decades.

FY 2020-21 has been an unprecedented year in modern times, with the COVID-19 pandemic impacting human life extensively across the globe. Its impact on the economic front, too, has been significant. The slowdown across economies witnessed in 2019 exacerbated further in 2020 by the shock delivered by the pandemic. As a result, the global GDP is believed to have contracted by ~3.3% in 2020, with all major economies moving into negative territory. China was the only exception amongst the major economies to have posted a positive growth in 2020, albeit at a much lower rate of 2.3%.

The pandemic will result in significant contractions across the vast majority of advanced economies, emerging markets and developing economies; the ultimate outcomes, however, remain uncertain. While the immediate priorities are to alleviate human costs, protect vulnerable sections of population and mitigate the near-term economic losses, a credible commitment to sustainable policies and structural reforms would be necessary to buttress long-term prospects, once the crisis abates. Building capacity to deal with similar future events and appropriate safety nets to support the weaker sections of society will take centre stage in policy formulation going forward. Coordination and cooperation on a global scale will be of paramount importance to revive the world economy.

The rapidly worsening economic outlook and deterioration of the risk sentiment have prompted a series of government initiatives across the world. Further, central banks across the world have responded synchronously effecting sharp cuts in policy interest rates, boosting liquidity and undertaking large asset purchase programs to help stimulate economic activity and alleviate tight financial conditions.

### INDIAN ECONOMY:

The Indian economy too witnessed similar stress, with the nationwide lockdown from end March 2020 bringing business activities to a standstill for the major part of April and May 2020. An accommodative monetary policy from the Reserve Bank of India (RBI) and fiscal policy interventions by the central government, coupled with the gradual reopening of the economic activities from June 2020, have led to a sequential recovery in economic output. India's real GDP clocked a 0.4% growth in the October-December 2020 quarter on a year-on-year basis after a sharp fall in the first two quarters of FY 2020-21. However, the recovery is largely centered around the formal part of the economy. The informal players, especially the Micro, Small and Medium-sized Enterprises (MSMEs) in many industries have taken a disproportionately large hit. Inflation picked up over the year, despite the pandemic, primarily led by food inflation and higher fuel taxes. On the exchange rate front, post the initial bout of depreciation in the Indian currency in the beginning of the financial year, the currency has been relatively well supported on account of robust portfolio inflows in the economy as well as a better current account position.

The fundamentals of the economy remain strong as gradual scaling back of lockdowns along with the astute support of Atmanirbhar Bharat Mission have placed the economy firmly on the path of revival. This path would entail a growth in real GDP by 2.4 percent over the absolute level of 2019-20-implicating that the economy would take two years to reach and go past the pre-pandemic level. These projections are in line with IMF estimate of real GDP growth of 11.5 per cent in 2021-22 for India and 6.8 per cent in 2022-23. India is expected to emerge as the fastest growing economy in the next two years as per IMF.

The Indian economy is showing early signs of a broad V-shaped recovery, owing to the large public stimulus spends, revival of consumer confidence, robust financial markets and an uptick in manufacturing activity. Income levels and livelihood opportunities are expected to further improve in FY22, as economic recovery gathers pace and vaccine administration progresses. The Indian government has undertaken a slew of reforms, including labor reforms, corporate tax cuts and production linked incentives (PLIs) to steer the recovery. However, key factors that will drive this rebound include normal monsoons, success in averting a full-fledged second wave of COVID-19, and discretionary spending staying unaffected by cost pressures, particularly those stemming from high retail prices of petrol and diesel.

### INDUSTRY STRUCTURE AND DEVELOPMENTS GLOBAL:

Paper Industry, occupies a prestigious position, among the various manufacturing enterprises, in view of its significant contribution to the Society. Role of paper in promotion of

literacy and education, propagation of information and knowledge and in packaging of commodities of commercial value, makes it an indispensable product. Its hygiene products offer appropriate solutions to society's needs.

Despite predictions that the on-going digital revolution would make paper obsolete, paper remains central to our lives. Paper is interwoven with human life in innumerable ways. Think of the hundreds of times, we touch paper, every day. Paper is a bio-degradable product with a benign footprint at the end of its life cycle and this adds further strength to this product, promoting its growing usage.

Paper Industry is a significant player in the World Economy. Its annual revenue exceeds US \$ 500 billion. World consumption of paper and paper boards grew from 169 million tonnes in 1981 to 253 million tonnes in 1993 and to 352 million tonnes in 2005. Current consumption is in excess of 400 million tonnes. Paper usage has been declining in North America and Europe since 2006 while steeply rising in China and other Asian Economies. About half of the paper produced each year is recycled. (200 million tonnes).

India's book market is accounted as sixth largest in the world and the sector is expected to grow rapidly in near future. As per the Book Market Reports, industry can estimate CAGR of 19.3% for the industry in coming years. Overall book industry is growing at a rapid rate and thus leading the book manufacturers at better place. The growth in the market is also driven by the strong demand for skilled workforce and growing number of primary and secondary educational institutions; expanding enterprise segment as evidenced by the increase in number of corporate offices and home offices and the ensuing increase in consumption of stationery products. Asia-Pacific ranks as the fastest growing market with a CAGR around 6.1%, led by the factors such as growing population and education needs, increase in literacy rates, and increase in business development activities resulting in increase in demand for office stationery products.

#### **EDUCATION INDUSTRY:**

The global education industry is expected to reach over US \$8 trillion by 2025. It is fair to say that education is one of the fastest-growing sectors worldwide, generating large scale revenues and employment every year. While the growth is steady, the sector has undergone significant transformation in recent years. The education system worldwide is shifting towards digitized and more inclusive learning. While some developed countries have successfully made the transition, developing countries like India are catching up at a faster pace. Public spending on education has increased substantially across the globe. New materials are being demanded and produced in various formats at a rapid pace to meet the needs of growing market.

As the Indian education industry continues to carve new paths for better education, the sector on the path of promising growth. The country's higher education segment is expected to increase to around Rs.250,000 crore (US\$ 35 billion) by

2025. The Government, too, is taking various measures to improve the quality of education in India. Foreign Direct Investments in education sector has increased at a CAGR of 55% from Rs.168 crore in 2011 to Rs.5,479 crore in 2019. In the 2020-21 Union Budget, the Government has earmarked Rs.93,224 crore for the Education sector.

With close to one-third of India's population being under the age of fifteen, the country has a remarkable growth opportunity for the education sector. The outlook of this industry remains bright in light of growing middle-class population coupled with thriving income levels, boost in "Beti Padhao" campaign, increase in variety of courses offered by colleges and universities, growing emphasis of the Government, and more. However, accessing quality education and financial commitment to education development continues to remain challenging.

Fast forward to 2020! Of all the status-quos that COVID-19 has disrupted, the education industry has perhaps faced the biggest challenge. Several prior theories had to be discarded considering that the current education system is undergoing its biggest shift ever; it has never been interrupted at the fundamental level globally, until now. The uncalled conditions due to COVID-19 have resulted in disruptions in life as we all know. The effect on education sector has been evident due to suspension of schools over a prolonged period. But as students and faculty remain confined to their homes, educational institutions are exploring ways to keep students engaged virtually and maintaining the learning momentum. While all educational institutions are not equipped to connect with students, some have started leveraging meeting platforms having video conferencing facilities for streaming online classes.

#### **OUTLOOK ON OPPORTUNITIES AND THREATS:**

##### **E-LEARNING & K-12 MARKET:**

E-learning is the process of acquiring knowledge through electronic technologies and resources. A sharp rise in the number of internet users has boosted the demand for e-learning platforms and courses. The global e-learning market has seen a tremendous increase in demand for content developed and designed to meet remote learning needs. Anyone from anywhere in the world can access self-paced learning modules offered by educational institutions.

The global e-learning market is expected to reach US\$ 238 billion by the end of 2024. Educational institutions are collaborating with suppliers to leverage e-learning and expand their students' reach. This gap indeed leads to more opportunities for the supply side of the e-learning industry. Important emerging trends like e-classrooms, micro learning, mobile learning and social learning are driving exponential growth in the market.

The COVID-19 has resulted in schools shut all across the world. Globally, over 1.2 billion children are out of the classroom. As a result, education has changed dramatically,

with the distinctive rise of e-learning, whereby teaching is undertaken remotely and on digital platforms. Covid-19 accelerated the adoption of technology in education to create more opportunities. Online learning allowed students to work through the learning material at their own pace and time.

The pandemic has proven the importance of e-learning and will change the way we look at education. According to the World Economic Forum, around 1.2 billion children are unable to continue learning as schools are shut down completely. Demand for e-learning solutions has seen a sharp rise during the lockdown period.

The eLearning companies in India is striving to replace the traditional education system with the modern education system by adopting latest educational technologies. The eLearning companies in India are working effectively with the government, and educational boards to make the cloud platform prevalent. Besides, by adopting learning analytics or big data analytics, these eLearning companies are helping online course providers design custom-made courses, ensure self-regulation of learners, conduct frequent auto-graded quizzes, and make grades and learning progress accessible to students. Thus, the evolution and rising awareness regarding latest technologies will increase the adoption of eLearning in the Indian market, thereby pushing growth in the online education market in India.

Indian K-12 education market had shown outstanding performance in the world with around 26 crore students enrolled. The K-12 system of education ensures to provide basic elementary education to children kinder garden to 12th grade. Globally many countries have made the adoption of this system mandatory. In India schools are willingly accepting K-12 model of education to align with the concepts of education to all i.e. Sarva Shiksha Abhiyan and Right to Education resulting in system being broadly accepted by both Government and Private schools in dispensing education to all. At present there are around 15 lakh K-12 schools in the country, out of which Central and State Government administers more than half and around 20% is managed by local authorities and rest of the schools are managed by private sector. The purpose of K-12 model is to systemize the distribution of education across all ages from children to college.

The K-12 education system in India is expected to reach US\$ 1.55 billion by 2024. Thanks to an increasing number of schools pressing emphasis on higher quality of education, the industry is poised to grow exponentially in the coming years. The technological advancements in teaching methods, along with government intervention, has further boosted opportunities in the K-12 education sector. It is interesting to note that digital learning modules have picked up pace in the sector. E-learning and m-learning have revolutionized the way educational content is consumed. Government initiatives to modernize the industry have also encouraged private players and entrepreneurs to undertake investments

to strengthen their position in the Indian K-12 market. Many schools are using creative and unconventional methods of teaching with the use of technology. Parents from the most remote parts of India have started giving due importance to education, thus enhancing the growth of the number of students every year.

## **BUSINESS REVIEW/STATE OF THE COMPANY'S AFFAIRS:**

### **SUNDARAM:**

Our brand, Sundaram was established in 1985. It started off as a school and office paper stationery manufacturing company. With having a tremendous demand for quality products, we have recorded a strong year on year growth.

The world today may be shifting to a more web driven one but still the paper industry has its own significance. This belief combined with our 30+ years of experience has helped us to cover the paper stationery product market extensively with various manufactured products.

We at Sundaram believe quality products along with good service are the key factors in our industry. Our goal is to provide products to all the states in the country, and provide durable and high-quality products to consumers.

Over the past 30+ years the company has grown by many folds and diversified into various other verticals of business. Our dedication and passion to deliver the best has led us to explore new avenues and foresee the future.

With a wide range of over 200 products today Sundaram sells more than 5 lakh books everyday through its strong distribution network of 15000 dealers and distributors.

We design, manufacture and market paper stationery products – exercise note books, long books, note pads, scrap books, drawing books, graph books – for students of all ages, as well as office/ corporate stationery products and printing, writing & packaging paper.

With the strong brand and market penetration we are present in pan Maharashtra and have a strong brand recall among consumers. The brand Sundaram stands for trust, quality products and for a legacy. As its rightly said, “Education is the strongest weapon” we want to deliver quality products at the best rates to the entire country.

The times have changed, people don't take the risk of buying substandard products any more. The market for branded products is very huge today, and it can demand a premium. The extended products and high quality paper premium products can be introduced under the same brand. The brand will be used for other stationery products in the market in the near future.

SUNDARAM is mainly in the Business of School & Office stationery as well as E-learning segment. The enormous size of School and paper stationery industry of India makes it one of the most important sectors of Indian Economy. Increasing

Economic Growth, High Literacy Rate, more Government Spending on Education, Growing Population, Urbanization, higher proportion of young adults, better living standards, shift in focus from inexpensive to quality products etc. are some major factors that are driving the paper stationery business to flourish. The thrust on education by the Government is the prime growth of the notebook industry.

#### **E-CLASS:**

E-class is a revolutionary product by our company, developed to help the students ease the burden of studies and score more marks. E-class is an innovative educational content for the students of Maharashtra State Board's 1st to 10th standards for all subjects, available in **English, Marathi, Semi English, Hindi and Urdu** medium as per the syllabus.

With the stress and difficulties in education arising every day, we have created content which will help the students learn in a better and a new way. It is said what we see (visuals) is often remembered more than what we simply just read. Keeping that concept in mind, we have converted the black and white textbook into audio-video animated content explaining each chapter and subject in detail.

E-Class is an attempt to encourage quality learning and help the process of learning by making it effective and engaging in innovative ways. At E-Class we have developed solutions and delivery platforms that enrich teaching and learning experience. The main aim is to go beyond the traditional black and white textbook approach and connect technology with education.

Edzam is a revolutionary online digital app and portal that has transformed the process of learning through the support of audio- visual content, assessment tool, question bank and analytical reports.

We believe that to become a leader in any field one must foster a conception of excellence in education. Education is the pillar and base of entire human life and we believe our learning solutions will not only help build the base but will make the education roots stronger forever. We are building an army of students for this nation and we support the Digital India mission strongly.

#### **GLOBAL PANDEMIC - COVID-19**

Due to outbreak of COVID-19 pandemic globally and consequent lockdown imposed by the Government of India from March 23, 2020 to curb its wide spread, a massive economic disruption and social distress has been witnessed in India. 2020-21 started amidst a strict nationwide lockdown in India — with tough restrictions on economic activity and mobility — and an unprecedented uncertainty about the eventual impact of the Covid-19 pandemic. Soon enough, however, it was clear that the crisis would severely impact economic performance and disrupt livelihoods and businesses.

Revenue of the Company has been significantly reduced as

compared to corresponding quarter majorly on account of delay in opening of schools amid Covid-19 lock-down and due to other related impacts. The company has made assessment of its liquidity position for the current financial year and considered internal and external information in assessing the same. The impact assessment of COVID-19 is an ongoing process, and may be different from that estimated as at the date of approval of financial results, given the uncertainties associated with its nature and duration and the company will continue to monitor all material changes to the entity's business environment.

#### **FINANCIAL PERFORMANCE:**

The macro-economic environment for the year under review was particularly challenging, marked by deceleration in economic activity accentuated by a sharp decline in consumption, especially in rural areas. Severe crunch in market liquidity conditions and disruptions caused by spatial variations in monsoons in several parts of the country added to the pressure. Just as the business environment was showing signs of an incipient recovery in the beginning of the fourth quarter, the onset of COVID-19 pandemic, changed the situation dramatically. In the initial stages, the contagion had a significant impact on the Education and Stationery Products businesses as it coincided with the peak season and the onset of the school session, respectively. Operations of all businesses were impacted towards the close of the year as the pandemic gained momentum.

Overall for Financial Year 2020-21 gross revenue from the business operations of the Company was Rs. 5,059.17lakhs. Company had incurred net loss of Rs.883.54 lakhs.

#### **RISK AND CONCERN:**

The risk is always the part and parcel of any business activity. The Company operates in a highly competitive environment that is subject to innovation and varying level of resources available to each player in this segment of business. The common risks inter alia are: Risk to Company Assets and Property, Employees Related Risks, Foreign Currency Risks, Risks associated with Non-Compliance of Statutory enactments, Competition Risks, Operational Risks, Business risk, Technology obsolescence, Investments, Retention of talent and Expansion of facilities. Business risk, inter-alia, further includes financial risk, political risk, fidelity risk, legal risk. Immense competition is faced by the company from the international players and unorganized sectors. The Company is constantly reviewing the risk that would impact adversely. Cost of raw material and inflationary pressure also increase the cost of manufacturing, but the availability of raw material from the suppliers at the right time and at the right price has enabled the company to reduce the cost of manufacturing. For Inflationary pressures and its impact the company has taken suitable cost control steps.

The Company's Human Risk is minimal as it enjoys a harmonious industrial relationship in the manufacturing units of the Company. Lack of clarity on future Government

policy continues to be an area of major concern for the industry. The exact impact of this cannot be evaluated until the proposed changes are actually introduced and implemented.

Education system in India is evolving so as the content for the learning. Further Prices of raw materials are becoming unstable, and it may result in increase in cost of production, thereby compelling the company to realign the prices to manage the risks.

#### CREDIT RATING:

During the year, the Company has not issued any debt instruments or borrowed funds in excess of the limits which necessitates any credit rating.

#### INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

Disclosure on Internal Financial Control and their adequacy & brief description on performance with respect to operational performance is given in Directors Report.

#### INDUSTRIAL RELATIONSHIP:

In challenging business environment, company & its management has maintained healthy and cordial relationships with all the stakeholders. Company had approximately 262 employees on payroll.

#### DETAILS OF SIGNIFICANT CHANGES, IF ANY, IN KEY FINANCIAL RATIOS:

## Independent Auditor's Report

### To the Members of Sundaram Multi Pap Limited

#### Report on the Audit of the Standalone Ind AS Financial Statements

##### Qualified Opinion

We have audited the accompanying financial statements of **Sundaram Multi Pap Limited ("the Company")**, which comprises of the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view, *except for the effects of matter described in the Basis for Qualified Opinion paragraph below*, in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

##### Basis for Qualified Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that

are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements

*The balances of trade receivables, trade payables, loans and advances are subject to confirmations, reconciliation and consequential adjustments if any. Further, no provision has been made for trade*

*receivables, which are outstanding since long and are to be provided for. The effect of same is not ascertainable in absence of complete debtors ageing.*

In view of above, we are unable to comment upon the resultant

impact of the above on the loss for the year, statement of changes in equity, investment, loans and advances, trade receivables, trade payables, current and non-current assets and liabilities, as at balance sheet date.

##### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the financial year ended March 31, 2021. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic

alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
  - d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts)

Rules, 2014.

- e. On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
  - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
  - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
    - ii. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

**“Annexure B” To the Independent Auditors’ Report on the Ind AS financial statements of Sundaram Multi Pap Limited for the year ended 31<sup>st</sup> March, 2021**

**Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Sundaram multi Pap Limited (“the Company”) as of 31 March 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is

sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Company, incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

At the start of the Company in the year 1995, we had a capacity of 5 tons per day of conversion of paper into paper stationery, which was increased to 60 tons per day as of now which is also considering 75% utilisation of the machinery.

### 1 Significant Accounting Policies

#### I Basis of Preparation

The Financial Statements comply with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standard) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

#### II Current/non-current classification

All assets and liabilities have been classified as current and non-current as per Company’s normal operating cycle and other criteria set out in the division II of Schedule III of the Companies Act, 2013, for a Company whose financial statements are made in compliance with the Companies (India Accounting Standards) Rules, 2015.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of business and their realization in cash and cash equivalents, 12 months has been considered by the Company for the purpose of current / non-current classification of assets and liabilities.

#### III Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty, net of returns, trade allowances, rebates, value added taxes and Goods and Service tax. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company’s activities as described below. Sale of goods :

The Company recognizes revenue on sale of products upon dispatch to the customer, which is when risks and rewards of ownership are passed to the customer. Sales are shown net of returns, discounts, excise duty and sales tax. Dividend and Interest income :

- a) Dividend income on investment is accounted for in the year in which the right to receive the payment is established.
- b) Interest income is recognized on the time proportion basis taking into account amount outstanding and interest rate applicable.

### IV Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amount for financial reporting purposes at their reporting date. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

### V Property, Plant and Equipment

Property, plant and equipment are stated at original cost net of tax / duty credit availed, less accumulated depreciation and accumulated impairment losses, if any. When a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as replacement if the recognition criterion is satisfied.

Property, plant and equipment is eliminated from the financial statements, either on disposal or on retirement from active use. Losses and gains arising from the retirement/disposal are recognised in the statement of profit or loss in the year of occurrence.

The asset’s residual value, useful lives and methods of depreciation are reviews at each financial year and adjusted prospectively, if appropriate.

On transition to Ind AS, the Company has availed the optional exemption under Ind AS 101 and accordingly it has used the carrying value as at the date of transition i.e. 1st April 2016 as the deemed cost of the property, plant & equipment under Ind AS.

Depreciation is provided on the “straight line method” based on the estimated useful life of assets which are equal to those suggested in Part C of schedule II of the Act.

The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual value of tangible assets.

Depreciation on additions / deletions is provided on pro-rata basis from the date of acquisition/ up to the date of deletion.

Changes in expected useful life or the expected pattern of consumption of future economic benefits embodied in an asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

## VI Goodwill and Other Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets comprising of "Computer Software" are recorded at acquisition cost and are amortized over the estimated useful life on straight line basis. Estimated useful life of software is assessed to be 6 years.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred over the fair value of net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

After initial recognition, goodwill is measured at cost less any accumulated amortisation or impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Goodwill on merger is amortized over the estimated useful life on straight line basis. Estimated useful life of goodwill is assessed to be 10 years.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit

may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

## VII Borrowing Cost:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. The Company has been granted restructuring of loan facility by its banks State Bank of India (Lead Bank). Lead Bank has discretion to recoup concession given to company at a future date depending on the financial position of the company. The management has decided to account such cost as an when event arises.

## VIII Impairment of non financial assets :

As at each balance sheet date, the Company assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, if any, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined as the higher of the fair value less cost to sell and the value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators. Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

#### IX Lease :

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### X Company as a lessee

The Company's lease asset classes primarily comprise of lease for land and building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets as below:

**i) Right-of-use assets :** The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of

the underlying assets (i.e. 30 and 60 years) If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of nonfinancial assets'.

**ii) Lease Liabilities :** At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**(iii) Short-term leases and leases of low-value assets**  
The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term. "Lease liability" and "Right of Use" asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows

#### Company as a lessor

Leases for which the Company is a lessor is classified as finance or operating lease. Leases in which the Company does not transfer substantially all the risks and rewards

incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

#### **X Inventories:**

Raw materials, stores and packing materials are valued at lower of cost or net realizable value. Cost is assigned on FIFO basis. Semi - finished goods are valued at raw material cost plus proportionate manufacturing overheads. Finished goods are valued at lower of the cost or net realizable value. Unrealized profit, if any, in inter unit transaction is eliminated to the extent possible. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### **XI Foreign Currency :**

The Company's financial statements are presented in INR, which is also the Company's functional currency. Transactions in foreign currency are recorded at the rate of exchange prevailing on the date of the transaction. Exchange differences arising on settlement of these transactions are recognized in the Statement of Profit and Loss. Monetary items (other than those related to acquisition of fixed assets) denominated in foreign currency are revalued using the exchange rate prevailing at date of the Balance Sheet and resulting exchange difference is recognized in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

#### **XII Employee Benefits:**

##### **a) Short Term Employee Benefits:**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries and wages, leave salary etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service.

##### **b) Post-Employment Benefits:**

###### **i) Defined contribution plans:**

A defined contribution plan is a post-employment benefit plan under which the company pays

specified contributions to the separate entity. The Company makes specified monthly contributions towards employee provident fund. The Company's contribution paid / payable under the schemes is recognized as an expense in the statement of profit and loss during the period in which the employee renders the related service and contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds.

###### **ii) Defined benefit plan:**

The Company has defined benefit plans comprising of gratuity. Company's obligation towards gratuity liability is funded and is managed by Life Insurance Corporation of India (LIC). The present value of the defined benefit obligations is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

###### **c) Leave encashment:**

Liability on account of Leave Encashment up to year end has been provided/ paid during the year. None of the employee is allowed to carry forward leave to subsequent period.

#### **XIII Earning per share:**

Basic earning per share is computed by dividing the profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earning per share is computed by dividing profit/(loss) for the period attributable to equity shareholders as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earning per share and the weighted average number of equity shares which could have been issued on the conversion at all dilutive potential equity shares.

#### **XIV Provisions**

The Company creates a provision when there is a present obligation (legal or constructive) as a

result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not result in outflow of resources. When there is a possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

## XV Cash and cash equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of statement of cash flows, cash and cash equivalent consists of cash and short term deposits, as defined above, as they are considered an integral part of the Company's cash management

## XVI Financial Derivatives Hedging Transaction:

In respect of derivatives contract, premium paid, provision for losses on restatement and gains/losses on settlement are recognized in statement of Profit and Loss. The company uses Foreign Currency Hedges to manage its risks associated with Foreign Currencies Fluctuation relating to Export receivable. The company does not use Hedges for speculative purpose.

## XVII Financial Instruments

### (i) Financial asset

#### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in case of financial asset not recorded at fair value through profit or loss, transaction cost that are attributable to the acquisition of the financial asset. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial asset measured at amortised cost. Subsequent measurement

For purposes of subsequent measurement financial assets are classified into two broad categories :

- Financial asset at fair value
- Financial asset at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit or loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income) A financial asset that meet the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- **Business model test** : the objective of the Company's model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes)

- **Cash flow characteristics test** : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. A financial asset that meet the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

- **Business model test**: the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets

- **Cash flow characteristics test** : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains or losses on them on different basis.

All other financial asset is measured at fair value through profit or loss. Derecognition A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either a) the Company has transferred substantially all the risks and rewards of the asset, or b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset. When the Company has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset

to the extent of the Company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

**Impairment of financial asset**  
The Company assesses impairment based on expected credit losses (ECL) model to the following :

- Financial asset measured at amortised cost
  - Financial asset measured at fair value through other comprehensive income
- Expected credit losses are measured through a loss allowance at an amount equal to:
- 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
  - Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates, if any. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

(ii) Financial liabilities

**Initial recognition and measurement**  
All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. Loans and borrowings – subsequent measurement  
After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the Effective Interest Rate (EIR) amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs

that are an integral part of the Effective Interest Rate (EIR). The Effective Interest Rate (EIR) amortisation is included as finance costs in the statement of profit and loss.

**Derecognition** A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

**Financial assets:**

**Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in case of financial asset not recorded at fair value through profit or loss, transaction cost that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial asset measured at amortised cost.

**Subsequent measurement**

For purposes of subsequent measurement financial assets are classified into two broad categories:

-Financial asset at fair value

-Financial asset at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit or loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income)

A financial asset that meet the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

**Business model test :** the objective of the Company's model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes)

**Cash flow characteristics test :** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meet the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

**Business model test :** the financial asset is held within

a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets

Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains or losses on them on different basis.

All other financial asset is measured at fair value through profit or loss.

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

-The rights to receive cash flows from the asset have expired, or

-The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either

a) the Company has transferred substantially all the risks and rewards of the asset, or

b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

#### Impairment of financial asset

The Company assesses impairment based on expected credit losses (ECL) model to the following :

-Financial asset measured at amortised cost

-Financial asset measured at fair value through other comprehensive income

Expected credit losses are measured through a loss allowance at an amount equal to:

-12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates, if any. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

#### Financial liabilities:

##### Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

##### Loans and borrowings – subsequent measurement

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the Effective Interest Rate (EIR) amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective Interest Rate (EIR). The Effective Interest Rate (EIR) amortisation is

included as finance costs in the statement of profit and loss.

#### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

#### XVII Cash Flow Statement:

Cash flows are reported using indirect method, whereby profit/(loss) before extraordinary item and tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future, cash receipts or payments. The cash flow from operating, investing and financing activities of the company are segregated based on the available information.

#### 2 Significant Accounting judgements, estimates and assumptions

The preparation of Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

##### Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### I Defined Benefit plans - Gratuity Benefit

The cost of defined benefit plans and other post employment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### II Useful life

The estimated useful lives of items of property, plant and equipment and intangible assets for the current and the comparative periods are as follows :

Asset	Management estimate of useful life	Useful life as per Schedule II
Building	30 Years	30 Years
Plant & Machinery	15 Years	15 Years
Furniture & Fixture	10 Years	10 Years
Vehicles		
-Motor Car and Tempo	8 Years	8 Years
-Scooter	10 Years	10 Years
Office Equipments	5 Years	5 Years
Software & Other Intangible	6 Years	6 Years
Computers and Data processing units	3 Years	3 Years

#### III Fair valuation of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation technique including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

## 27 Financial Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk. Market risk is the risk of loss of future earnings, fair value or future cashflows that may result from a change in the price of financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market sensitive financial instruments including investments and deposits, foreign currency receivable and payables and loans and borrowings.

If the risk exposure is significant then senior management reviews the position and takes decision regarding hedging / other risk strategies to mitigate such risk exposures.

### Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rate.

### Foreign Currency Risk

The Company is not exposed to foreign exchange risk as there is no overseas transaction during the reporting period.

Thus, the Company did not have any outstanding dues as on 31st March, 2021

### Credit Risk

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- “(i) Actual or expected significant adverse change in business
- (ii) Actual or expected significant change in the operating results of the counterparty
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty”

A default on a financial asset is when the counterparty fails to make contractual payments within 30 - 60 days of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

Financial assets are written off when there is no reasonable expectation of recovery. Where loans or receivables have been written off, the Company may engage in enforcement activity to attempt to recover the receivable due. Where

recoveries are made, these are recognised in profit or loss.

The carrying amounts of financial assets represent the maximum credit risk exposure

Exposure to Credit Risk	31-Mar-21	31-Mar-20
<b>Financial risk for which loss allowance is measured using 12 months expected Credit Losses (ECL)</b>		
Loans	3.35	3.70
Cash & cash equivalent	37.34	87.87
Bank deposits with more than 12 months maturity	-	-
<b>Financial risk for which loss allowance is measured using Lifetime expected Credit Losses (ECL)</b>		
Trade Receivables	1,749.97	1,703.32

The Company uses an allowance matrix to measure the expected credit losses of trade receivables (which are considered good). The following table provides information about the exposure to credit risk and loss allowance (including expected credit loss provision) for trade receivables:

Expected Credit loss for the period ending 31-03-2021				
Ageing	Gross Carrying Amount	Expected Credit Loss Rate	Credit Loss	Net Carrying Amount
0-30 days past due	268.84	0.00%	0.00	268.84

180-365 days past due	757.69	6.00%	45.46	712.23
More than 365 days past due	505.15	6.00%	30.31	474.84
<b>Total</b>	<b>1,829.32</b>		<b>79.36</b>	<b>1,749.95</b>

There are no specific forward looking information estimated by the management.

#### (iv) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecasts on the basis of expected cash flows.

### 31 Commitments

#### Non Cancellable Operating Leases:

- (i) The Company's lease asset primarily consist of leases for land and buildings for branch offices and warehouses having the various lease terms. Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Consequently, the Company recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset at an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised.
- (ii) Following is the summary of practical expedients elected on initial application:
- Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
  - Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
  - Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
  - Applied the practical expedient by not reassessing whether a contract is, or contains, a lease at the date of initial application. Instead applied the standards only to contracts that were previously identified as leases under Ind AS 17.
  - Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

(iii) Following is carrying value of right of use assets recognised on date of transition and the movements thereof during the year ended March 31, 2021

Particulars	Amount (Rs in Lacs)

<b>Balance as at March 31, 2021</b>	<b>86.55</b>
Current maturities of Lease liability {refer note 13(C)}	86.55
Non-Current Lease Liability	-

- (v) The adoption of the new standard has also resulted in increase in loss before tax and loss for the year by Rs. 3.36 Lacs (Increase in depreciation expense and finance cost by Rs. 24.23 Lacs and Rs. 9.73 Lacs respectively with corresponding decrease in other expense by Rs. 30.60 Lacs). The effect of this adoption is insignificant on earnings per share. Ind AS 116 has also resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments by Rs. 33.96 Lacs each.
- (vi) The maturity analysis of lease liabilities are disclosed in Note 25.
- (vii) The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 9.96%
- (viii) Rental expense recorded for short-term leases was Rs. 1.70 lacs for the year ended March 31,2021 (Rs. 4.97 lacs for the year ended March 31,2020). (refer note 24)
- (ix) The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.
