CHAIRMAN'S MESSAGE

I am pleased to present the performance and prospects of J Kumar Infraprojects to our widening family of stakeholders. Despite one of the most challenging phases for the construction sector in the last five years, marked by stretched Balance Sheets, J Kumar grew revenues and profits every single year across five years. The financial year 2018-19 has been memorable one and has positively emerged as a year of many 'firsts'. We ended the year on a bright note, as we created the milestone of ₹ 2,787 Crores in revenue, ₹ 177 Crores in PAT and ₹ 10,372 Crores in order book. This is a source of great pride for all of us at JKIL and in fact, it is one that signifies our strength and capabilities in the businesses we operate in. Our achievement over the past few years also validates the robustness of our business model and adaptability to a rapidly evolving external environment.

Over the years we have set JKIL as a benchmark among construction companies with our unique business model and operational approach. Performance in F.Y 19 is an outcome of our asset light business model, strong execution track record coupled with our financial discipline. We reinforced our commitment to deliver projects on schedule through a sustained investment in cutting-edge technologies and equipment. Besides, the Company continued to invest in capital equipment, making it possible to reduce the external hiring of equipment (and related rentals), enhance equipment availability, rotate our equipment faster and complete projects on schedule

We continue to strengthen our execution capabilities and reaffirm market share in Urban Infrastructure business, leveraging our strong project management skills, quality deliverables, estab-

lished systems and client relationship. JKIL is well positioned to take advantage of rapid infrastructure development in India given its strengths, experience and domain expertise across various segments of infrastructure.

Strong performance across businesses

Operationally, the Company performed well across all the business verticals and majority of the financial parameters. For 2018-19, JKIL reported revenue growth of 36% to ₹ 2,787 Crores driven by well-planned execution. Our EBITDA grew by 36% to ₹ 436 Crores and PAT grew by 30% to ₹ 177 Crores backed by focused execution, several cost optimization initiatives and focused working capital management. The financial year 2018-19 has been a momentous year for JKIL as far as order inflows and the order book is concerned. We received new orders of ₹ 4,970 Crores. The Order Backlog as of March 31, 2019 stood at ₹ 10,372 Crores compared with ₹ 7,480 Crores in the previous year.

Dividend

We have a consistent track record of paying dividends. The Board of Directors of the Company at its meeting held on May 29, 2019, have recommended payment of Equity Dividend of ₹ 2.25 per share (@45% on Equity share of ₹ 5/- each), subject to shareholders' approval at the forthcoming AGM.

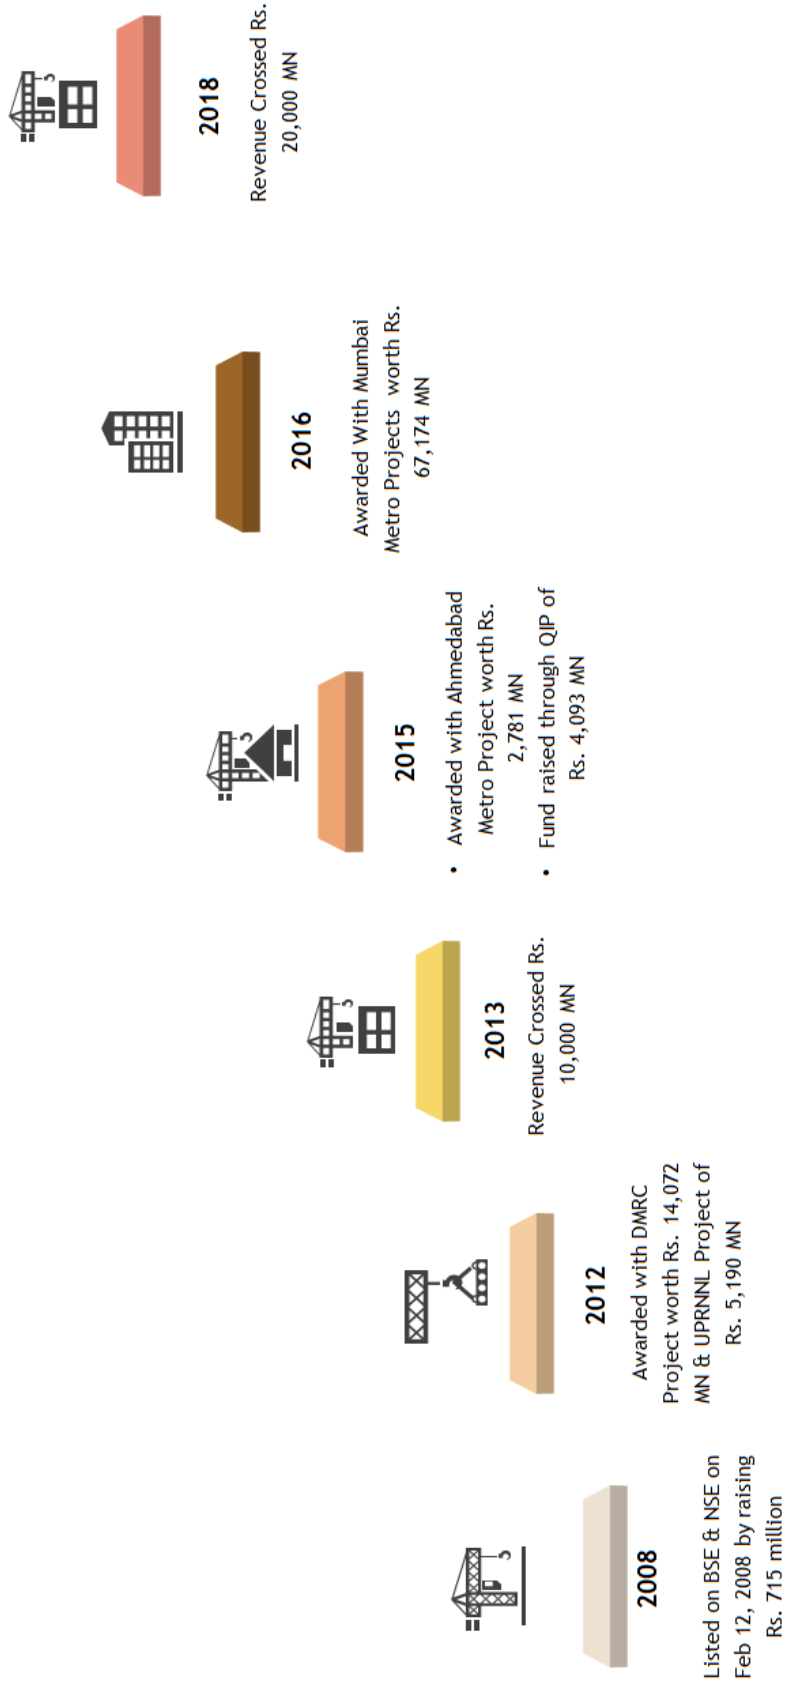

Optimism

At JKIL, we are optimistic of the long-term prospects of our business. It took India 60 years to emerge as a one-trillion dollar economy; the country replicated this growth in just seven years and is now expected to emerge as a US\$ 5 trillion economy by 2025. Looking ahead In the face of global economic volatility and risks driven by socio-political factors, India's macro-fundamentals are robust. The infrastructure sector has been the government's biggest focus area for several years now. The increased impetus for accelerating infrastructure development will open up vast opportunities for a specialised player like JKIL to extend its business presence by leveraging its demonstrated competence. The Company will continue to focus on sustaining profitable growth and shall strive to drive operational excellence.

I thank our customers, bankers, shareholders and other stakeholders for their continuous support. I also extend a special vote of thanks to our employees for their tremendous engagement and efforts over the past year.

Jagdishkumar M. Gupta
Executive Chairman

Secretarial Audit Report

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2019
[Pursuant to section 204(1) of the companies Act, 2013 and rule No. 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
J. KUMAR INFRAPROJECTS LIMITED

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **J. Kumar Infraprojects Limited**. (Hereinafter called “the Company”). Secretarial Audit was conducted in a manner that provides me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company’s statutory registers, papers, minute books, forms and returns filed with the Registrar of Companies and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2019 has prima facie complied with the statutory provisions listed hereunder:

I have examined the statutory registers, papers, minute books, forms and returns filed with the ROC and other records maintained by the Company for the financial year ended on March 31, 2019 according to the provisions of:

- (i) The Companies Act, 2013 (“the Act”) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 (“SCRA”) and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings - Not Applicable during the audit period;
- (v) The following Regulations and Guidelines prescribed under Securities and Exchange Board of India Act, 1992 (“SEBI Act”):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;

Though the following laws are prescribed in the format of Secretarial Audit Report by the Government, the same were not applicable to the Company for the financial year ended March 31, 2019:-

- (a) The Securities And Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - (b) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (c) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 ;
 - (e) The Securities and Exchange Board of India (Issue and listing of Debt securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client.
- (vi) For Other laws applicable to the Company:

I report that, the Company has various on-site projects, hence the management & Board of Directors of the Company are responsible to comply with the provisions of the applicable laws & I rely on their certificate for the Compliance issued by the management.

J. KUMAR INFRAPROJECTS LIMITED

I have also examined compliance with the applicable clauses of the following:

- (a) Secretarial Standards 1 and 2 issued by the Institute of Company Secretaries of India.
- (b) The Listing agreements entered into by the Company with Stock Exchanges read with SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has prima facie complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above.

I further report that:-

- a) During the audit period there were no significant and material orders passed by regulators or courts or tribunals during the financial year March 31, 2019 however the company had received notice through BSE Ltd and National Stock Exchange Ltd that directions issued by Securities and Exchange Board of India (hereinafter referred to as “SEBI” of “Regulators”) dated August 7, 2017 vide which it had directed the Exchange to impose certain restrictions on the trading of the company for suspecting it to be a shell company by placing the company in Grade VI of the Graded Surveillance Measures. The Whole Time Member of Securities and Exchange Board of India passed an Interim Order on September 28, 2018 against the Company. SEBI advised the Company to file reply/observations within 30 days of receipt of order and the Company has filed reply within the time. This matter is still pending.
- b) And It appear that company has disclose the details about the policy developed and implemented by the company on corporate social responsibility initiatives taken during the year in its Directors’ Report and company has prima facie complied with section 135 subject to specify the reason for unspent amount of CSR.
- c) I have not examine the Financial Statement, financial Books & related financial Act like Income Tax, Sales Tax, Value Added Tax, Goods and Service Tax Act, ESIC, Provident Fund & Professional Tax, etc. For these matters, I rely on the report of statutory auditor’s for Financial Statement for the year ended March 31, 2019.
- d) The board of directors of the company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
- e) as per the information provided the company has prima facie adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on agenda items before the meeting and for meaningful participation at the meeting.
- f) as per the information provided majority decision is carried through while the dissenting members’ views are captured and recorded as a part of the minutes.
- g) there are prima facie adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.
- h) the management is responsible for compliances of all business laws. This responsibility includes maintenance of statutory registers/ files required by the concerned authorities and internal control of the concerned department.
- i) During the period under review, as per the information provided by the Compliance Officer, prima facie there were no instances of transaction in the securities of the Company during the closure of window.
- j) I further report that during the audit period, there were no instances of:

GLOBAL ECONOMY

As per the IMF report, global economy is expected to grow at 3.3% in FY 19, which is slower than FY 18. Previous economic estimates for FY18E & 19E were projected at 3.9%, much has changed since then. Couple of factors which have led to the possible revision in the estimates can be attributed to, Tariff wars between US and China thus having a spread over effect across countries, devaluation of currencies in Argentina, turkey and Indonesia hurting consumer confidence thus leading to funds outflow etc. Every country is corrective action is aimed to protect growth and avoid the contagion. IMF expects H2-2019 to witness a better pick up in momentum as H1-2019 has been tepid. Keeping this perspective in mind, global economy growth is project at 3.6%, Beyond 2020 growth will stabilize at around 3.5%, supported by China and India and with their increasing weights in world income.

India cementing a position as a fast growing economy as growth is projected at 7.3% in 2020 which is higher than 2019, supported by the continued recovery of investment and robust consumption amid a more expansionary stance of monetary policy and some expected impetus from fiscal policy

INDUSTRY OVERVIEW: India's Infrastructure sector has been a key determinant for economic growth. Thus it has been a priority sector for the government to oversee and has witnessed huge sums of investments. India has been increasing spends on infra to the tune ₹ 1,000 bn every year. As per Interim Budget 2019-20, India's vision is to become a 5 trillion economy by 2023 and a 10 trillion by 2031. Thus the thrust towards the Infrastructure investment needs to increase to achieve these targets

Roads: India has one of the largest road networks to the tune of 59.03 Lakh km and national highways constitutes 2.24%. Budgetary allocation towards the welfare and development of roads and highways is estimated to be at 83,016 crores for FY20E. Out of this Roads and Bridges account for 55% of the expenditure followed by NHAI which is 44%. Road expenditures include development of National Highways, expressways, road connectivity and lane expansion for various projects.

ECONOMY OVERVIEW

India retained its position as the sixth largest and fastest-growing economy in 2018-19. After growing 7.2% in 2017-18, the Indian economy grew at 6.8% in 2018-19. The principal developments during the year comprised a sustained increase in per capita incomes, declines in national inflation, steadying interest rates, declining crude oil prices, sustained government spending in digitisation, infrastructure building etc.

However, the year under review was also marked by weakened consumer sentiment in the second half of the financial year. This was on account of a large non-banking financial company announcing its inability to address liabilities. This affected credit expansion, financial markets and consumer sentiment. In 2018, the country attracted more foreign inflows and witness a 23 notch jump to a record 77th position in the World Bank's latest report on the ease of doing business that captured the performance of 190 countries. The key government initiatives during the year under review comprised bank recapitalisation scheme, sustained infrastructure expansion, increased minimum support price announced for 22 mandated kharif and rabi crops and FRP for sugarcane, implementation of the The Insolvency Bankruptcy Code (Amendment), ordinance 2018, announcement of Pradhan mantri Kisan Samman Nidhi (assuring marginalised farmers with a steady income support) and sustenance

of the Direct Benefit Transfer initiative. Assuming no major global and domestic political shocks, India markets are expected to perform better due to increased government spending. The result is that India risk expected to grow at 7.1% in FY 2019-20.

Infrastructure Sector Overview:

The Infrastructure sector is the second largest employer in India with the sector's output increasing by 4.3% during FY2018-19. The Indian Government increased infrastructural allocation more than ₹ 1 Lakh crore to ₹ 5.97 Lakh Crore in FY 19. India has a vision to become a five trillion dollar economy in the next five years and a ten trillion dollar economy in the next eight years thereafter. Infrastructure investment needs to increase commensurately to attain these targets

BUSINESS OVERVIEW

J Kumar Infraprojects Ltd (JKIL) is one of the leading urban infrastructure Company. As a pure play EPC Company, we have developed a niche in construction of Urban Infra Projects including Metros (Underground & Elevated), Flyover, bridges, skywalk etc. and roads, irrigation and piling work. Due to our focused business approach, we believe that we enjoy leadership position in transportation contracts in Mumbai. As on FY19 JKIL Mumbai (75%) and Delhi (20%) made up for a larger chunk of the order book (95%), and the balance accruing from Uttar Pradesh and Gujarat.

Considering the strategic nature of the projects we undertake, our order book is largely dominated by government projects (100% of the order book). The company believes in owning key assets i.e. modernised construction equipment's, which is not only critical for specific projects to be completed within stipulated time line but also aids in garnering better utilization and thus higher margins and better return ratios for our shareholders. This keeps the financial requirement to bare minimum with a large asset base as JKIL's participation is limited to execution expertise in EPC contracts. The average time line for completion of these project ranges between 2 – 5 years

With more than 3 decades of experience in the TRANSPORT VERTICAL including designing and construction on turnkey basis i.e. EPC, the Company is able to demonstrate its leadership position in Mumbai. Transport Vertical accounts for more than 90% of our revenues and has been the greatest driver of company operations and growth. **The various sub-segments under this vertical include Metro Rails (Underground & Elevated), Flyovers, and Road Projects.** The metro rail projects (elevated and underground) account for more than 67% of the total transportation order book of ₹ 9,33,514.85 Lakh. JKIL leverages its 7 Tunnel Boring Machine which is the state of art technology to develop tunnels in a way without disturbing the ecosystem. There are different kinds of TBM's mix called soil types, some rock type, etc. which has helped to cut soil types for various projects taken.

CIVIL CONSTRUCTIONS: JKIL offerings entails execution of projects related to commercial. This includes works like Railway terminus and stations, building sports complexes, hospitals, swimming pools etc. JKIL's order book for civil work is to the tune of ₹ 98,156.10 Lakh which is 9% of the order book of ₹ 10,37,243.34 Lakh.

IRRIGATION: JKIL is entrusted with works of building dams, canals, and irrigation tanks etc. Tunnels is one of the most expensive and resource exhaustive projects that can be undertaken. JKIL's esteemed clientele includes Vidharbh Irrigation Development Corporation, Pimpri Irrigation Division and Bambla Irrigation Division. The order book for FY19 stands at ₹ 5,572.38Lakh which is less than a percent of its total order book.

PILING: JKIL entered this segment in FY06 acquiring piling rigs. In totality JKIL currently owns 42 hydraulic piling rigs catering to major real estate and infrastructure companies. Its clientele include leading infra companies viz. LODHA, Rustomjee, L&T, HCC etc. The average execution time for piling contracts ranges between 3-6 months, which makes it compelling to undertake these projects also the lead time is less and margins accretive.

Our pillar of strength lies in its human capital, JKIL employs over 6,582 full time employees and approx 7,000 labourers for based on the kind of projects awarded. This has enabled the company to keep its fixed cost tied to the project execution, thus cushioning itself from cost during slower periods of business.

OUR KEY STRENGTHS

- Experienced management capabilities:** JKIL at the helm is spearheaded by Mr Jagdishkumar M. Gupta along with Mr Kamal J. Gupta and Mr Nalin J. Gupta. JKIL has been named after Mr Jagdishkumar M. Gupta under whose visionary leadership, the Company has been able to reach to current levels. Today, JKIL is a Registered Class I-A construction company. He has been instrumental in shaping up the business and successfully completed various projects like construction of metro (underground and elevated) roads, bridges and flyovers, swimming pools, earthen dams, airport contracts, housing and commercial complexes. Ably supported by Mr. Kamal J. Gupta and Mr. Nalin J. Gupta, both having more than 22 years of experience in the field of construction. Mr. Kamal J. Gupta has streamlined projects like flyovers, skywalks, swimming pool and rail over bridges. Mr. Nalin J. Gupta has been pivotal in setting up and developing the piling business. The collective management experience and focused approach has enabled to qualify for large orders in each vertical of its presence. Over the years JKIL has been successfully expanded its order book.
- Robust order backlog & huge market opportunity:** As of FY19 the total order book for JKIL stood at ₹ 10,37,243.34Lakh with 60 % concentration with Metro projects, 24 % flyovers, 9% civil projects, 6% road and the balance for irrigation. The order book has witnessed a growth of 39% over FY18. Sensing the opportunities in Urban Transport Segment like metros, we were able to successfully expand our order in the transport segment. We foresee, transportation segment to be major driver in near future. The recent Union budget had further laid emphasis on Urban Infrastructure and increased budgetary allocation. At JKIL, we are all geared to Capitalise on Opportunity of huge Infrastructure development in Country. We will continuously explore growth opportunities. With the sustained order inflow and our expertise in executing and delivering projects on time we are optimistic that we shall witness a healthy and sustainable growth.

3. **Debt with healthy cash flow generation:** We believe that the most sustainable companies have less debt and high net worth. Our careful project selection criteria, strong bidding and estimation capabilities, efficient project planning and management coupled with asset ownership are key to our success. Timely completion of projects is something which we take pride in. Apart from creating a Brand Equity, timely completion also reflects the operational efficiency and planning capabilities. It aids better cash flows, better equipment churns and achieve targeted margins by minimising cost overruns. Our projects and the quality which we deliver are testimony of our execution capabilities. This has helped us in expanding our client base further and also expansion in margins. This has boded well for the company as it has substantially increased its return to equity and debt holders. As on FY 19 the total debt has been around ₹ 69,108 Lakh with a debt equity ratio of 0.41x.
4. **Metro contracts being key sub-segment:** Over the past few years, JKIL has been awarded order for the development of metro railways both underground and elevated. This has ensured steady business revenue stream given the execution capabilities and long standing relationship that it has built over the years. The likelihood of being awarded future awards puts JKIL in a bright spot. These projects are magnanimous in terms of the quantum. JKIL has made investment in to Tunnel boring machines (TBM) which could be utilised for these projects thus optimally utilising its resources. Ownership of 7 TBM provides us with enough comfort to bid for and execute orders which may come our way in near future. It also reduces our investment / capital requirement for acquiring TBM, enabling us to improve our margin and shareholders return.
5. **Pure Play EPC business:** We believe that in a sector where project and product standards are enhancing all the time, there is a premium on the need to specialise. JKIL has reinforced its focus as being a pure play EPC company. This is a well thought of segment that it caters to, given the large and diversified asset based it's invested in. We believe in lean balance sheet structure, wherein we only own assets required to execute the project and are paid by the client for the work done. As a strategy, we will never enter the BOT space. Our expertise lies in EPC, wherein we can make use of our planning and engineering experience accumulated over the years by executing varied projects. At JKIL, project screening and estimation for bidding is given utmost importance. This is getting reflected in our improving financial performance over the past few years. A carefully selected projects, keeps the leverage under check, improves/ maintain margins and keeps the working capital cycle within permissible limits. At JKIL we would like to conserve resources and management bandwidth for larger value projects which provides revenue and margin visibility.
6. **Large Asset base:** We believe that among the most profitable investments that a company of our kind can make is in the ownership of technology-intensive assets. The advantages of direct ownership: timely access to key equipment, investment in cutting-edge technologies and a superior amortisation around higher volumes. JKIL began its business operations with the idea of owning a large fleet of assets based on the type of projects it envisaged to execute. This has helped the company in to stay a couple of steps ahead of competition. Despite the large asset base JKIL continues to have a strong operating profit as utilization levels have inched higher with every contract bagged and executed thus helping JKIL to attain operational efficiencies

7. Geographical Diversification: JKIL was incorporated in the year 1999 in Mumbai, Maharashtra. by Mr Jagdishkumar Gupta and during that phase, its business operations were mainly concentrated in the state of Maharashtra and all major projects came from this state. However with the expertise and well developed business model, JKIL has been able to source its revenues for various other projects executed. These include Delhi which accounts of 20% of the order book, followed by Gujarat and U.P which count of 2% each as on FY 19. This lowered the concentration risk of addressing one state and also enabled JKIL to make in-roads in to newer states thus building a stronger brand and presence with its service offerings.

We are poised to capture the growing infrastructure market with our well established capabilities

FINANCIAL OVERVIEW

During FY 19 Order inflow was strong at ₹ 4,97,013 Lakh leading paving way for stronger revenues in the years ahead. With the Increased government thrust towards growth the infrastructure industry JKIL stands to be the beneficiary. The Margins for FY 19 remained are expected to remain at elevated levels of 16.7% which can be attributed towards better utilization of its assets and all the equipment's are owned by the company

Outlook:

At JKIL, we are optimistic of the long-term prospects of our business for a number of reasons. As India's economy continues to grow faster than every major economy, the infrastructure development will be central to any and every government policy. It took India 60 years to emerge as a one-trillion dollar economy; the country replicated this growth in just seven years and is now expected to emerge as a US\$ 5 trillion economy by 2025. As the Indian economy sustains its economic momentum, we believe that a number of adjacent business opportunities (metros, flyover, bridges etc.) will emerge. This development will make it possible for a specialised player like JKIL to extend its business presence by leveraging its demonstrated competence.

Key Business Risk

- Manpower risk:** There is an urgent requirement of qualified and talented manpower to look after day-to-day operations

Mitigation: The Company's employee strength stood at 6,582 on March 31, 2019 for FY 2018-19. Over 80% were skilled and semi-skilled workers comprising qualified engineers and management professionals. The Company also strengthened worker training to equip them with necessary skills.

2. **Competition:** The bidding for infrastructural projects can be competitive, reducing margins.

Mitigation: The Company consciously selected to not bid for projects where its forecasted profitability was below its desired rate of return.

3. **Execution delays:** Delays in execution for any projects can impact the revenues and margins of JKIL.

Mitigation:

The Company forecasts outcomes and bids for profitable projects secured by a structured and sequenced plan of action leading to timely project implementation. The Company invested in business strengthening processes and practices directed to accelerate project progress.

Internal Control system and adequacy:

The Company has adequate internal control system running throughout the organisation. Internal processes of the Company commensurate with our nature of business. The Company has appointed internal auditor who audits the adequacy and effectiveness of the internal control system as laid down by the management and suggests improvements as required. The audit committee periodically reviews the audit plans, internal audit reports and adequacy of internal controls and risk management.

Cautionary statement;

Statement in the management's discussion and analysis report describing the Company's projections estimates, expectations or predictions may be forward looking statements within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that would make a difference to the Company's operations include demand-supply conditions, raw materials prices, change in governmental regulations, tax regimes, economic developments within the country and other factors such as litigation and labour negotiations.

INDEPENDENT AUDITOR’S REPORT

To the Members of
J. Kumar Infraprojects Limited

Report on Financial Statement
Opinion

We have audited the accompanying Ind AS financial statements of J. Kumar Infraprojects Limited (“the Company”), which comprise the Balance Sheet as at March 31, 2019, and the Statement of Profit and Loss (including other comprehensive income), statement of cash flows, statement of changes in equity for the year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and its profit including comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition – accounting for construction contracts	
Key audit matter Description	<p>There are significant accounting judgment including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition.</p> <p>The Company recognises revenue and profit/loss on the basis of stage of completion based on the proportion of contract costs incurred at balance sheet date, relative to the total estimated costs of the contract at completion. The recognition of revenue and profit/loss therefore rely on estimates in relation to total estimated costs of each contract.</p> <p>Cost contingencies are included in these estimates to take into account specific uncertain risks, or disputed claims against the Company, arising within each contract. These contingencies are reviewed by the Management on a regular basis throughout the contract life and adjusted where appropriate.</p> <p>The revenue on contracts may also include variable consideration (variations and claims). Variable consideration is recognised when the recovery of such consideration is highly probable.</p> <p>Refer to Note Number 2.2(g) Summary of significant accounting policies – “Revenue Recognition” of the Standalone Financial Statements</p>

Information Other than the Ind AS Financial Statements and Auditor’s Report

Thereon The Company’s management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company’s Annual Report, but does not include the Ind AS financial statements and our auditors’ report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Ind AS Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flow and changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with the companies (Indian accounting standards) Rules 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, the Board of Directors is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the entity has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of Ind AS financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements and other information of 19 Joint operations included in the financial statements of the Company whose financial statements/financial information reflect total assets of ₹1,24,796.49 Lakh as at March 31, 2019 and total revenue of ₹ 2,15,411.59 Lakh and total profit after tax(net) of ₹ 1,866.74 Lakh for the year ended on that date, as considered in the financial statements.

The financial information of 6 joint operations have been audited by the other auditors whose reports have been furnished to us by the management and for remaining 13 joint operations, whose financial information reflect total assets of ₹ 12,930.79 Lakh as at March 31, 2019

and total revenues of ₹ 6,873.44 Lakh and total profit after tax (net) of ₹140.96 Lakh, un-audited Financial information and Accounts certified by the management have been furnished to us by the management, and our opinion in so far as it relates to the amounts and disclosures included in respect of these joint operations and our report in terms of subsection (3) of section 143 of the Act, in so far as it relates to the aforesaid joint operations, is based solely on the report of such other auditors and Accounts certified by the management.

Our opinion on the Ind AS financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

Annexure “A” to the Independent Auditors’ Report

With reference to the Paragraph “1” referred to in the Independent Auditors’ Report to the members of the Company on the financial statements for the year ended March 31, 2019, we report the following:

i. In respect of the Company’s property, plant and equipment:

- (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (b) The Company has a program of verification to cover all the items of property, plant and equipment in a phased manner at regular intervals which, in our opinion, is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. Pursuant to the program, certain property, plant and equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us, the records examined by us and based on the examination of the conveyance deeds / registered sale deed provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date.

In respect of immovable properties of land and building that have been taken on lease and disclosed as property, plant and equipment in the financial statements, the lease agreements are in the name of the Company.

- ii. The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The Company has maintained proper records of inventory. The discrepancies noticed on verification between the physical stock and the book records were not material.
- iii. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms or other parties listed in the register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company.
- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- v. The Company has not accepted any deposits from the public within the meaning of section 73 to 76 of the Act and the rules framed there under.
- vi. We have reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 prescribed by the Central Government under Section 148 (1) of the Companies Act, 2013, and are of the opinion that prima facie the prescribed cost records have been maintained. We have, however have not made a detailed examination of the records with a view to determine whether they are accurate or complete. However, Cost Audit has been prescribed for the company and cost audit has been conducted by the Cost Auditor.
- vii. According to the information and explanations given to us, in respect of statutory dues:
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues applicable to it with the appropriate authorities.
 - (b) There were no undisputed amounts payable in respect of Provident Fund, Employees’ State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues in arrears as at March 31, 2019 for a period of more than six months from the date they became payable.
 - (c) Details of dues of Income Tax, Sales Tax, Service Tax, Excise Duty and Value Added Tax which have not been deposited as at March 31, 2019 on account of dispute are given below:

(Amount in ₹ Lakh)

Annexure B

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the financial statements of J. Kumar Infraprojects Limited (“the Company”) as of March 31, 2019, we have audited the internal financial controls with reference to the financial statements of the Company.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the company, is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective entity’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control system with reference to financial statements of the Company.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

1 Corporate Information

These statements comprise financial statements of J. Kumar Infraprojects Limited (CIN: L74210MH1999PLC122886) ('the company') for the year ended March 31, 2019. The company is a public company domiciled in India and is incorporated on December 2, 1999 under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the company is located at 16-A, Andheri Industrial Estate, Veera Desai Road, Andheri (West), Mumbai 400053.

The Company is engaged in the business of execution of contracts of various infrastructure projects including Transportation Engineering, Irrigation Projects, Civil Construction and Piling Work etc.

The Financial Statements of the Company for the year ended March 31, 2019 were authorised for issue by the Board of Directors on May 29, 2019

2 Significant Accounting Policies

2.1 Basis of preparation

(a) Compliance with Ind AS:

The Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended and Companies (Indian Accounting Standards) Amendment Rules, 2016 (Ind AS) . The Financial Statements comply in all material respects with Ind AS.

(b) Historical cost convention

The Financial Statements have been prepared on a historical cost basis, except for the following:

- a. certain financial assets and liabilities that are measured at fair value;
- b. defined benefit plans - plan assets measured at fair value;

The Financial Statements are presented in Indian Rupees ('₹') which is the functional and presentational currency and all values are rounded to the nearest Lakh, except otherwise indicated.

2.2 Summary of significant accounting policies

(a) Property, plant and equipment:

All items of property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. The Company follows cost model for subsequent measurement for all classes and items of property, plant and equipment.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of assets are recognised in the Statement of Profit and Loss.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they meet the definition of property, plant and equipment.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

Depreciation on Tangible Fixed Assets is provided on Straight Line Method on the basis of useful life of assets specified in Part C of Schedule II of the Companies Act, 2013.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

Property, plant and equipment which are added / disposed off during the year, depreciation is provided on pro-rata basis with reference to the day of addition / deletion.

Gains and losses on disposals are determined by comparing the proceeds with the carrying value.

The residual values are not more than 5% of the original cost of the asset, wherever applicable.

The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and any changes there-in are considered as change in estimate and accounted prospectively.

(b) Investment properties:

Property that is held for long-term rental yields or for capital appreciation or both, and that is not in use by the Company, is classified as investment property. Land held for a currently undetermined future use is also classified as an investment property.

Investment property is measured initially at its acquisition cost, including related transaction costs and where applicable borrowing costs and are carried at cost less accumulated impairment losses.

(c) Impairment of fixed assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognised in statement of profit and loss.

(d) Inventories:

Inventories are carried in the balance sheet as follows:

(i) Raw materials, components, stores and spares :

Raw materials, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on a FIFO basis and includes all applicable duties and taxes.

(ii) Contract Work-in-progress:

Costs incurred that relate to future activities on the contract are recognised as contract work-in-progress. Contract work-in-progress comprises of construction cost and other directly attributable overhead valued at cost.

The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition. Goods and materials in transit are valued at actual cost incurred upto the date of Balance Sheet.

(iii) Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019**(e) Statement of Cash Flows:**

Cash flows are reported using the “indirect method”, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(f) Foreign currency transactions:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(g) Revenue recognition:

The company earns revenue primarily from Transport engineering, civil construction, irrigation projects, Piling, etc. Transport & Engineering comprises roads, metro (underground & elevated) bridges, flyovers, subways, over bridges, skywalks, railway terminus/stations etc. The company designs and constructs these projects as per client’s specifications on turnkey basis. Civil construction segment include both commercial and residential buildings. While the former includes office/commercial buildings, sports complexes, swimming pools, etc. residential buildings include housing societies, etc.

Effective April 1, 2018, the company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The company has adopted Ind AS 115 using the cumulative effect method. The effect of initially applying this standard is recognised at the date of initial application (i.e. April 1, 2018).

The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18 and Ind AS 11. The impact of adoption of the standard on the financial statements of the company is insignificant.

In respect of fixed-price contracts, revenue is recognised using percentage-of-completion method (‘POC method’) of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.

Revenue is measured based on the transaction price, which is the consideration, adjusted for, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contracts are subject to modification to account for changes in contract specification and requirements. The company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

Critical judgments in recognizing Revenue

The company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgment to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

Judgment is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component.

Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The company uses judgment to estimate the future cost-to-completion of the contracts which is used to determine the degree of the completion of the performance obligation.

Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding using the effective interest rate method.

Dividend income

Revenue is recognised when the company's right to receive the payment is established.

(h) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

(i) Company as a lessee:

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

(ii) Company as a lessor:

Leases in which the company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the company to the lessee. Amounts due from lessees under finance leases are recorded as receivables. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(i) Employee Benefits

(i) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

(ii) Post-Employment Benefits

The company operates the following post-employment schemes:

- (i) defined benefit plans and
- (ii) defined contribution plans

Defined benefit plans - Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans - Provident fund

The company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(j) Borrowing Costs:

Borrowing costs attributable to the acquisition or construction of qualifying assets. Borrowing costs are capitalized as part of the cost of such asset up to the date when the asset is ready for its intended use. All other borrowing costs are expensed as incurred. Borrowing costs consist of interest and other cost that an entity incurs in connection with the borrowing of funds. Borrowing cost includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

(k) Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue, share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(l) Taxes on Income:

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

(i) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI (Other Comprehensive Income) or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognised outside profit or loss is recognised in OCI (Other Comprehensive Income). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

(m) Provisions, Contingent liabilities, Contingent assets and Commitments:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation
- a present obligation arising from past events, when no reliable estimate is possible
- a possible obligation arising from past events, unless the probability of outflow of resources is remote. Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets. Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(n) Current and Non-current Classification:

The Company's presents assets and liabilities in the balance sheet are based on current/non-current classification.

An asset as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

Deferred tax assets / liabilities are classified as non-current.

All other liabilities are classified as non-current.

(o) Fair Value Measurement:

The Company measures financial instruments of certain investments at fair value, at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(p) Financial instruments

Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets:

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019**Initial recognition and measurement**

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

Subsequent measurement

After initial recognition, financial assets (other than investments in subsidiaries and joint ventures) are measured either at:

- i) fair value (either through other comprehensive income or through profit or loss) or,
- ii) amortized cost

Measured at amortized cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortized cost using the effective interest rate ('EIR') method less impairment, if any, the amortization of EIR and loss arising from impairment, if any is recognized in the Statement of Profit and Loss.

Measured at fair value through other comprehensive income (FVOCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI) net of taxes.

Interest income measured using the EIR method and impairment losses, if any are recognized in Profit and Loss.

Gains or Losses on De-recognition

In case of investment in equity instruments classified as the FVOCI, the gains or losses on de-recognition are re-classified to retained earnings.

In case of Investments in debt instruments classified as the FVOCI, the gains or losses on de-recognition are reclassified to statement of Profit and Loss.

Measured at fair value through profit or loss (FVTPL):

A financial asset not classified as either amortized cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognized as 'other income' in the Statement of Profit and Loss.

The Company measures all its investments in equity (other than investments in subsidiaries and joint ventures) and mutual funds at FVTPL.

Changes in the fair value of financial assets measured at fair value through profit or loss are recognized in Profit and Loss.

Impairment losses (and reversal of impairment losses) on equity investments measured at FVTPL are recognised in Profit and Loss.

Impairment of financial assets:

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortized cost, FVTPL and FVOCI and debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

For trade receivable only, the Company applies the simplified approach permitted by Ind AS - 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables.

De-recognition:

A financial asset is de-recognized only when

- i) The Company has transferred the rights to receive cash flows from the financial asset or
- ii) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized.

Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognized if the Company has not retained control of the financial asset.

Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(ii) Financial liabilities

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at fair value.

Subsequent measurement

Financial liabilities other than those measured at fair value through profit and loss are subsequently measured at amortized cost using the effective interest rate method. The Company measures all debt instruments at amortised.

Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognized in Profit and Loss.

De-recognition.

A financial liability is derecognized when the obligation specified in the contract is discharged, canceled or expires.

Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterpart.

(q) Investment in Subsidiary and Joint Ventures

The Company's investment in its subsidiaries and joint ventures are carried at cost.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019**(r) Interest in Joint Arrangements**

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Company has joint operations.

Joint operations

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings.

(s) Segment Reporting - Identification of Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's Financial Statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgments, Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount.

(b) Estimation of Defined benefit obligations/ plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's history, existing market conditions as well as forward looking estimates at the end of each reporting period.

The management assessed that the fair value of cash and cash equivalent, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

The fair values for loans, security deposits and other non current assets were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the Fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

The fair values of non current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

ii. Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are recognised and measure at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table:

There have been no transfers among Level 1, Level 2 and Level 3 during the period

Level 1 - Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 - If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

iii. Valuation technique used to determine fair value

Specific Valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

iv. Valuation processes

The finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the chief financial officer (CFO) and the audit committee. Discussions of valuation processes and results are held between the CFO, AC and the valuation team at least once every three months, in line with the company's quarterly reporting periods.

36. FINANCIAL RISK MANAGEMENT

The company's activity expose it to market risk, liquidity risk and credit risk. The company's focus is to foresee the unpredictability of financial risk and to address the issue to minimize the potential adverse effects of its financial performance. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as interest rate swaps to hedge variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the company's management.

(A) Credit risk

Credit risk refers to the risk for a counter party default on its contractual obligation resulting a financial loss to the company. The maximum exposure of the financial assets represents trade receivables, work in progress and receivables.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 49,860.42 Lakh and ₹ 52,877.31 Lakh as of March 31, 2019 and March 31, 2018, respectively. However the Company has its major revenue from companies mainly consisting of government promoted entities having strong credit worthiness, Hence the exposure to credit risk is not material.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units with high credit rating mutual funds.

(B) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Long-term borrowings generally mature between 1 and 5 years. Liquidity is reviewed on a daily basis based on weekly cash flow forecast.

The Company had a working capital of ₹ 61,925.31 Lakh as of March 31, 2019 and ₹ 52,202.90 Lakh as of March 31, 2018. The Company is confident of managing its financial obligation through short term borrowing and liquidity management.

Total liabilities	1,08,233.38	1,08,233.38	96,893.44	11,339.94

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk such as equity price risk and commodity risk.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019
(i) Foreign currency risk

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the external commercial borrowings and foreign receivables.

The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies and standard operating procedures to mitigate the risks.

(a) Foreign currency risk exposure

(Amount in ₹ Lakh)

Particulars	
March 31, 2019	
Trade Receivables	2,968.49
Foreign Currency Loans	(3,244.13)

Trade Receivables	2,698.25
Foreign Currency Loans	(4,332.49)
Trade Payables	(678.76)
Net exposure to foreign currency risk	(2,313.00)

(b) Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will have the following impact on profit before tax:

Particulars	2018-19		2017-18	
	1% Increase	1% Decrease	1% Increase	1% Decrease
Foreign Currency	(5.27)	5.27	(23.13)	23.13
Net Increase/(decrease) in profit or loss	(5.27)	5.27	(23.13)	23.13

(ii) Interest rate risk

The company's main interest rate risk arises from borrowings with variable rates, which expose the company to cash flow interest rate risk. Company's policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. During March 31, 2019 and March 31, 2018, the company's borrowings at variable rate were mainly denominated in USD.

The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market

The company manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Under these swaps, the company agrees with other parties to exchange, at specified intervals (mainly quarterly), the difference between fixed contract rates and floating rate interest amounts calculated by reference to the agreed notional principal amounts. Generally, the company raises long-term borrowings at floating rates and swaps them into fixed rates that are lower than those available if the company borrowed at fixed rates directly.

(iii) Price risk

Equity instruments/Mutual Funds price risk - The company's exposure to listed equity instruments and mutual funds price risk arises from investments held by the company and classified in the balance sheet at fair value through profit or loss.

To manage its price risk arising from investments in equity instruments and mutual funds, the company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the company.

Profit for the period would increase/decrease as a result of gains/losses on equity instruments/mutual funds classified as at fair value through profit or loss.

37. CAPITAL MANAGEMENT

The Company's capital management objective is to maximise the total shareholder return by optimising cost of capital through flexible capital structure that supports growth. Further, the Company ensures optimal credit risk profile to maintain/enhance credit rating.

The Company determines the amount of capital required on the basis of annual operating plan and long-term strategic plans. The funding requirements are met through internal accruals and long-term/short-term borrowings. The Company monitors the capital structure on the basis of gearing ratio and maturity profile of the overall debt portfolio of the Company.

For the purpose of capital management, capital includes issued equity capital, securities premium and all other revenue reserves. Net debt includes all long and short-term borrowings as reduced by cash and cash equivalents and other bank balances.

40. STANDARDS ISSUED BUT NOT YET EFFECTIVE

The amendment to standard issued up to the date of issuance of the Company's financial statements, but not yet effective as of the date of the Company's financial statements is disclosed below. The Company intends to adopt the amendment to standard when it becomes effective.

Amendment to Ind AS 12, Income taxes :

On March 30, 2019, the Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, Income Taxes, in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.

Ind AS 12, Appendix C, Uncertainty over Income Tax Treatments :

On March 30, 2019, the Ministry of Corporate Affairs has notified Ind AS 12, Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition :

- Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight, and
- Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives. The effect on adoption of Ind AS 12 Appendix C would be insignificant in the standalone financial statements.
- Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives.

The effect on adoption of Ind AS 12 Appendix C would be insignificant in the standalone financial statements.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

Amendment to Ind AS 19, plan amendment, curtailment or settlement :

On March 30, 2019, the Ministry of Corporate Affairs issued amendments to Ind AS 19, Employee Benefits, in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity :

- To use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- To recognize in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company does not have any impact on account of this amendment

Ind AS 116-Leases:

Ind AS 116, Leases : On March 30, 2019, the Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS116 will replace the existing leases standard, Ind AS 17,Leases, and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires the lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of Profit and Loss. The standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The effective date for the adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition :

- Full retrospective – Retrospectively to each prior period presented applying Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
- Modified retrospective – Retrospectively, with the cumulative effect of initially applying the standard recognized at the date of initial application Under modified retrospective approach, the lessee records the lease liability as the present value of the remaining lease payments, discounted at the incremental borrowing rate and the right of use asset either as :
- Its carrying amount as if the standard had been applied since the commencement date, but discounted at the lessee’s incremental borrowing rate at the date of initial application, or

An amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments related to that lease recognized under Ind AS 17 immediately before the date of initial application.
