The growth has been broadbased across all three segments. While North region was somewhat impacted by unfavourable weather conditions, the other regions returned a strong performance. Impact of softening in commodity prices has started reflecting in gross margins with gradual improvement over last few quarters. We expect further improvement to reflect in coming quarters. Inventory levels have come back to normal and this has helped generate a strong cash flow. We look forward to the upcoming festive season and are hopeful to sustain the growth momentum during the quarters ahead."
