1. *Ownership of an agricultural land intended for industrial purpose will be transferred in the name of the company upon receiving necessary approval for conversion into non agriculture land.*

The land is acquired for future expansion of the Company. Since a Company cannot hold agriculture land, it is initially acquired in the name of Chairman of the Company, and the same would be transferred in the name of the Company after its conversion into non- agriculture land.

2. *During the year under review, the Company redeemed the outstanding debentures in consonance with its settlement agreement through internal accruals without depositing/ maintaining the requisite amount in eligible instruments as specified under Rule 18(7)(c) of The Companies (Share Capital and Debentures) Rules, 2014.*

The Company had executed a settlement agreement with the sole debenture holder for redemption of outstanding principal amount and interest thereon. The company's cash flow were adequate to meet settlement obligations and the entire outstanding principal amount of non-convertible debentures has been repaid out of internal accruals well before due date of payment. As on March 31, 2017 there are no outstanding debentures on books of the Company.

3. *In respect of preferential issue of Equity Warrants during the year under review, the company deposited the funds in its regular current bank account and did not file statement of deviation(s) or variation(s) with the Stock Exchanges as there was no deviation or variation in respect of the proposed utilization of funds and actual utilization of funds.*

As per objects of the issue, warrants proceeds were to be used for repayment of debts and capital expenditure. The proposed allottee was ready to pay the entire warrant amount upfront and the company wanted to urgently repay its settled debts. Therefore the application money was received in regular account and since there is no deviation in utilisation of funds, quotations of submission of statement of deviation did not arise.

## Management Discussion and Analysis Report

### Industry Structure and Development:

#### ***Development in Indian Chemical Industries***

The Indian Chemical Industry is fundamental part of Indian economy which is key linkages with several mainstream economic segments including agriculture, infrastructure, textiles, food processing plastic, paper etc. It is needed to focus and provide support to knowledge based segments of the chemical industry namely Specialty Chemicals. There is a large talent pool in the country, coupled with huge emerging market resulting from massive urbanization, infra building and increasing aspirations of the masses of India.

The development in the Chemical Industries depends upon the five pillars i.e. world class engineering and strong R&D capabilities, enormous growth for the domestic market, Government Policy support and increase in investment initiatives, Great Infrastructural Investment and Increase in GDP and purchasing power. With Asia's growing contribution to the global chemical industry, India is emerging as one of the focus destinations for chemical companies worldwide.

The chemicals exports from India in 2015-16 went up by 7.5% in volume terms. During the period from April 2016 – Jan 2017, the exports have grown by 1.5% in value and 7.59% volume terms. Indian chemical companies now able to compete with world's chemical companies including China. The impact of the steps initiated by the governments will be visible in the current financial year onwards. This industry has shown remarkable spirit in adverse global conditions.

India Chemical Operations continued strong focus on operational efficiencies contributed to improved profitability of the business in a mixed business environment.

#### ***Strengthening the backbone of Indian Chemical Industry***

Since this industry has numerous forward and backward linkages, it is called the backbone of the industrial and agricultural development of the country and provides building blocks for many downstream industries. The GDP of a country depends mainly on its exports. The stability of a country improves when there is more export and less import, and also if the country is self sufficient to meet its needs. Chemical industry not only provides stability to the country but also enhances the confidence.

#### ***Global Economic Environment***

The Global economic environment remained challenging in 2016 and is expected to continue for some more time, since the global economic scenario is growing at snails speed, especially in developed economies. International Monetary Fund (IMF) in its latest outlook has marginally upped the world GDP growth projections from 3.1% in 2016 to 3.5% in 2017 and 3.5% in 2018.

The real GDP growth in the **United States** dropped sharply to 1.6% in 2016 primarily on account of soft exports and declining investments. The growth is expected to rebound to 2.3% in 2017 and expected 2.5% in 2018 backed by expectations of fresh fiscal stimulus from the administration.

The real GDP growth in the **Euro area** declined to 1.7% in 2016 as exports and investments lost momentum. A modest recovery is projected to be supported by a mildly expansionary fiscal stance, and a weaker euro and beneficial spillovers from a likely U.S. fiscal stimulus. However, risks associated with Brexit coupled with uncertainty arising from elections in several countries, will weigh down on the growth. The real GDP growth is expected to continue at 1.7% in 2017 and slow down marginally to 1.6% in 2018.

In the **United Kingdom (UK)**, the magnitude of the impact of Brexit is yet to be determined completely following a stronger than expected performance in the second half of 2016, leading to a GDP growth of 1.8%. Real GDP growth is expected to improve marginally to 2.0% in 2017 but fall to 1.5% in 2018 as the impact of Brexit is projected to materialise more gradually than expected.

Growth in **China** is expected to reduce further from 6.6% in 2017. This continues the gradual slowdown of economic growth for China as the economy is rebalancing from industry to services. Services have now overtaken industry as the leading growth driver.

#### ***Domestic Economic Outlook***

India's GDP is expected to expand at faster rate as compared to other major economies, according to the IMF World Economic Outlook, at 7.2% in FY 2017-18, compared to 7.1% in FY 2016-17. Economists suggest that the state action of demonetization and economic reforms in form of Goods and Services Tax (GST) shall not affect the growth of Indian economy because of the vast population and the economy is a consumption lead economy. Economists suggest policy initiatives by the Government of India, such as Make in India and Start-up concept, structural reforms (the introduction of GST and formalisation of the inflation targeting framework) has improved the overall confidence for India amongst Industry Captains worldwide.

### Annexure "A" to the Independent Auditor's Report

**(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date) Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Kiri Industries Ltd. ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our

audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

## Annexure to the Auditor's Report

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Annexure “A” to the Independent Auditor’s Report

**(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date) Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of Kiri Industries Limited (hereinafter referred to as “the Holding Company”) and its subsidiary companies and joint ventures which are companies incorporated in India (hereinafter referred to as “the Group”), as of that date.

### Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

## Annexure "A" to the Independent Auditor's Report

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### iii) Exchange Differences

Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year

#### v) Foreign operations

The financial statements of an integral foreign operation are translated as if the transactions of the foreign operation have been those of the company itself.

In translating the consolidated financial statements of a non-integral foreign operation for incorporation in consolidated financial statements, the assets and liabilities, both monetary and non-monetary (including goodwill and capital reserve), of the non-integral foreign operation are translated at the closing rate; income and expense items are translated at average exchange rates prevailing during the year.
