NOTES FOR MEMBERS:

1. Pursuant to the General Circular Nos. 14/2020 dated April 8, 2020 and 17/2020 dated April 13, 2020, in relation to "Clarification on passing of ordinary and special resolutions by companies under the Companies Act, 2013", General Circular Nos. 20/2020 dated May 5, 2020, 10/2022 dated December 28, 2022, 09/2023 dated September 25, 2023 and subsequent circulars issued in this regard, the latest being 09/2024 dated September 19, 2024 in relation to "Clarification on holding of Annual General Meeting ('AGM') through Video Conferencing (VC) or Other Audio Visual Means (OAVM)", (collectively referred to as "MCA Circulars") the Company is convening the 12th AGM through Video Conferencing ('VC')/Other Audio Visual Means ('OAVM'), without the physical presence of the Members at a common venue. Further, the Securities and Exchange Board of India ('SEBI'), vide its Circulars dated May 12, 2020, January 15, 2021, May 13, 2022, January 5, 2023, October 7, 2023 and October 3, 2024 ('SEBI Circulars') and other applicable circulars issued in this regard, has provided relaxations from compliance with certain provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'). In compliance with the provisions of the Companies Act, 2013 ('the Act'), the Listing Regulations and MCA Circulars, the 12th AGM of the Company is being held through VC/OAVM on Thursday, September 25, 2025 at 01:00 P.M. (IST) The deemed venue for the AGM will be the Registered Office of the Company.
2. Pursuant to the provisions of the Act, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a member of the Company. Since this AGM is being proposed to be held pursuant to the said MCA Circulars through VC / OAVM, physical attendance of members has been dispensed with. Accordingly, the facility for appointment of proxies by the members will not be available for the AGM and hence the Proxy Form and the Attendance Slip are not attached to this Notice.
3. As per the provisions of clause 3.A. II. of the General Circular No. 20/2020 dated May 5, 2020, issued by the MCA, the matters of Special Business as appearing at Item Nos. 3 & 4 of the accompanying Notice, are considered to be unavoidable by the Board and hence, form part of this Notice.
4. The Explanatory Statement pursuant to Section 102 of the Act in respect of the business under Item Nos. 3 & 4 set out above and the relevant details in respect of the Directors seeking appointment/ re-appointment at this AGM as required under Regulation 36(3) of the Listing Regulations and Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India ('Secretarial Standard') are annexed hereto. Requisite declarations have been received from the Directors seeking appointment/re-appointment.
5. Pursuant to the provisions of Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of the Listing Regulations (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020, the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.
6. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 members on first come first served basis. This will not include large shareholders (shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc., who are allowed to attend the AGM without restriction on account of first come first served basis.

INSTRUCTIONS FOR SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

- (i) The voting period (remote e-voting) begins on Monday, September 22, 2025 at 09:00 A.M. and ends on Wednesday, September 24, 2025 at 05.00 P.M. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date i.e., Thursday, September 18, 2025 may cast their vote electronically. The Remote e-voting module shall be disabled by CDSL for voting thereafter. However, the e-voting module shall be enabled for voting by the members during the AGM which shall continue till 15 minutes upon conclusion of the Meeting.
- (ii) The Board of Directors has appointed Smt. N. Vanitha, Practising Company Secretary, to act as Scrutinizer to conduct and scrutinize the electronic voting process in connection with the ensuing Annual General

Meeting in a fair and transparent manner. The members desiring to vote through electronic mode may refer to the detailed procedure on e-voting given hereunder.

- (iii) Shareholders who have already voted prior to the meeting date would not be entitled to vote during the AGM.
- (iv) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of the Listing Regulations, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (v) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in demat mode CDSL/NSDL** is given below:

Type of shareholders	Login Method
Individual Shareholders holding securities in Demat mode with CDSL Depository	1) Users who have opted for CDSL Easi / Easiest facility, can login through their existing user id and password. EXPLANATORY STATEMENT

(Pursuant to Section 102 of the Companies Act, 2013)

Item No. 3

As the members are aware, Sri Suryanarayana Simhadri (DIN 01951750) was appointed as an Independent Director of the Company by the members in their 8th Annual General Meeting held on November 20, 2021 for a period of 5 consecutive years, i.e., for a period of five years with effect from February 04, 2021 till February 03, 2026. Pursuant to the provisions of Section 149 read with Schedule IV to the Companies Act, 2013, an Independent Director may be reappointed for another term of 5 years, if approved by members by way of Special Resolution.

Sri Simhadri Suryanarayana is a qualified Chartered Accountant and has 3 decades of rich experience in finance, taxation, banking and management. He served as the Director on Board of State Bank of Hyderabad for more than 3 years. He served as the Director on Board of Rashtriya Chemicals and Fertilizers Limited for three years. Currently he is serving as a Director on the Board of Ekalavya Grameena Vikas Foundation & other listed and private companies. He has completed the Management Program in Public Policy in Indian School of Business.

He is paid remuneration by way of fee for attending meetings of the Board and Committees thereof or for any other purpose as may be decided by the Board, reimbursement of expenses for participating in the Board / other meetings within the limits as laid under Section 197 of the Act.

Sri Simhadri Suryanarayana is registered as an Independent Director in the Data Bank maintained by The Indian Institute of Corporate Affairs. Keeping in view his vast expertise and knowledge, it will be in the interest of the Company that Sri Simhadri Suryanarayana be reappointed to the office of Independent Director of the Company. In the opinion of the Board, Sri Simhadri Suryanarayana has the integrity, expertise, and proficiency required to get appointed to the office of Independent Director of the Company.

Sri Simhadri Suryanarayana's 1st term as Independent Director will expire on the close hours of February 03, 2026. The Board, at its meeting held on August 09, 2025, based on the performance evaluation and as per the recommendation of the Nomination and Remuneration Committee, considered and unanimously agreed that, given his professional background and experience and contributions made by him during his tenure, the continued association of Sri Simhadri Suryanarayana would be beneficial to the Company and it is desirable to continue to avail his services as an Independent Director. Accordingly, it is proposed to reappoint Sri Simhadri Suryanarayana as an Independent Director of the Company, not liable to retire by rotation and to hold office for a second term of 5 (five) consecutive years on the Board of the Company with effect from February 04, 2026, till February 03, 2031.

The Board is of the opinion that Sri Simhadri Suryanarayana fulfils the conditions for his reappointment as an Independent Director as specified in the Companies Act, 2013 and the Listing Regulations. Sri Simhadri Suryanarayana is independent of the management and possesses appropriate skills, experience and knowledge. Section 149(10) of the Act provides that an Independent Director shall hold office for a term of up to five consecutive years on the Board and shall be eligible for re-appointment on passing a Special Resolution by the Company and disclosure of such appointment in its Board's Report. Section 149(11) provides that an Independent Director may hold office for upto two consecutive terms. Pursuant to the provisions of Section 160 of the Companies Act, 2013 read with Rules thereunder, any proposal to appoint a Director needs to be approved by the members in their General Meeting. Pursuant to Regulation 17(1C) of the Listing Regulations, approval of shareholders for appointment of a person on the Board of Directors is required to be taken at the next general meeting or within a time period of three months from the date of appointment, whichever is earlier. Further, in terms of Regulation 25(2A) of the Listing Regulations, the appointment, reappointment or removal of an independent director shall be subject to the approval of shareholders by way of a special resolution. Accordingly, the appointment of Sri Simhadri Suryanarayana requires the approval of the members by way of a special resolution.

The Company has received a Notice from a Member in writing under Section 160(1) of the Act proposing his candidature for the office of Director. The Company has also received from Sri Simhadri Suryanarayana (i) consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of the Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of the Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that he is not disqualified to act as Director under Section

164(2) of the Act and (iii) a declaration to the effect that he meets the criteria of independence as provided under Section 149(6) of the Act and Rules framed thereunder and Regulation 16(1)(b) of the SEBI Listing Regulations (iv) declaration that he is not debarred or restrained from acting as a Director by any SEBI order or any other such authority

The Board is of the opinion that Sri Simhadri Suryanarayana fulfils the conditions for his reappointment as an Independent Director as specified in the Companies Act, 2013 and the Listing Regulations. Sri Simhadri Suryanarayana is independent of the management and possesses appropriate skills, experience and knowledge.

A copy of the letter of appointment, setting out the terms and conditions of appointment of Sri Simhadri Suryanarayana, and all other documents referred to in the accompanying Notice and this Statement are available for inspection by the members, at the Company's registered office during business hours on all working days from the date of dispatch of this Notice till Thursday, September 25, 2025 and also electronically. Members may send a request along with their DP/Client ID or Folio No. from their registered e-mail address to the Company at cs@tierraagrotech.com.

Except Sri Simhadri Suryanarayana, being an appointee, and his relatives, none of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out in the Notice. This Explanatory Statement may also be regarded as a disclosure under Regulations of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015.

Your Board of Directors recommend the Special Resolution for your consideration and approval.

STATE OF AFFAIRS AND BUSINESS OPERATIONS

Array of Products of the Company

Cotton

In 2024–25, we relaunched the products Alankar and 9135, initiating commercial sales in the Central and Southern markets. Both products have performed strongly, indicating potential for sales growth supported by intensified field efforts. As part of a strategic business initiative, we introduced Kodanda through a focused partnership with a selected distributor in Andhra Pradesh. Brahma continues to be a popular brand in certain regions of Maharashtra and has now been introduced in Gujarat. Meanwhile, the legacy product 9121 continues to contribute to volumes in niche markets across Maharashtra and Karnataka. Overall, the balanced mix of legacy and newly launched products is expected to strengthen our market presence in the near future.

Maize

The maize hybrid S2 981, characterized by its good cob size and attractive orange grains, is suitable for both Kharif and Rabi seasons. With a medium to low shelling percentage, it is being strategically positioned in markets with potential for scale-up. The newly launched commercial hybrid 2T55 is currently facing headwinds in Karnataka, Maharashtra, and Rajasthan due to intense competition. Efforts are underway to carefully position it for improved market traction. Upcoming hybrids 2T11, 2T14, 2T88, and 2T99 are under evaluation and have shown promising performance. Notably, 2T11 and 2T14 ranked among the top-performing hybrids in university trials conducted by BAU and have been approved for commercial release in Bihar.

Paddy

In 2024–25, hybrid paddy 3T32 and improved paddy varieties Sujaya, Chandini, and Taapsi delivered strong performance and received positive acceptance from farmers. Due to inconsistent performance, the hybrids 3T31, 3TH4322, and 3TH4422 have been discontinued. A new medium-maturity hybrid is currently being advanced in the pipeline. Overall, we are building a robust portfolio of rice hybrids and improved rice varieties, positioning us well for future commercialization opportunities.

Mustard

In 2024–25, the new mustard hybrid 5T55 was launched commercially. Its performance across key states - Rajasthan, Gujarat, Haryana, Uttar Pradesh, Bihar, and Madhya Pradesh - is still being assessed, given its relatively small grain size and oil content. Efforts are underway to identify optimal positioning to capitalize on its strengths. Our existing commercial hybrid S5-630 continues to perform well, with strong brand recall among farmers. This hybrid is expected to be a key contributor to our mustard portfolio over the next three to four years.

Vegetables

In 2024–25, we streamlined our crop and product portfolio to focus on high-value segments, narrowing it down to 10 crops and 45 products. This strategic move contributed to strong growth in Bihar, Uttar Pradesh, Rajasthan, Andhra Pradesh, and Telangana. Additionally, we initiated business expansion efforts in Chhattisgarh and Madhya Pradesh. Our focus is to spend on research in Tomato, Okra, and Chilli to develop differentiated, high-performing products. In Tomato we have introduced 4102 Vanya. MANAGEMENT DISCUSSION AND ANALYSIS

Overview of the Indian Seed Industry

Market Size and Growth

The global seed industry has grown from USD 52 Bn in 2014 to USD 74.12 Bn in 2024 -25 (USDA) at a CAGR of 4.5%. India ranks fifth after US, China, France and Brazil. The Indian seed market is projected to grow at a CAGR of 5.56% from 2025 to 2030, reaching USD 5.01 billion by 2030, up from USD 3.82 billion in 2025. This growth is driven by factors like the increasing demand for high-yielding varieties and the expansion of commercial seed cultivation, particularly with hybrid seeds.

Crop Segmentation

The seed market in India is segmented into several crop types, with a particular focus on grains & cereals, vegetables, cotton, maize, and crops like pulses, oilseeds etc.

1. **Grains & Cereals:** This segment is the largest due to India's substantial production and consumption of grains has area growth from last year. Rice (paddy) and wheat are particularly dominant, as rice is a staple in South India and wheat in the North. Rice (Paddy) has grown 7% compare to last year and wheat has grown 3% compare to last year (GII Research).
2. **Vegetables:** The vegetable seed market includes various sub-segments such as brassicas (e.g., cabbage, cauliflower), cucurbits (e.g., cucumber, pumpkin), roots & bulbs (e.g., garlic, onion), and solanaceae (e.g., tomato, hot pepper, eggplant) (GII Research).
3. **Cotton and Maize:** These crops are significant in India's seed market, with maize and cotton seeds often being hybrid varieties due to their high productivity and resistance to pests and diseases (Research & Markets). As per the industry cotton has dropped 13% area, where as Maize grown 6%.
4. **Pulses, Oil Seeds, Millets & fodder:** Predominant Seed business crops are Mustard, Groundnut, Sesame, Bajra, Jowar, cumin, Red gram, Black gram, etc., these crops contribute minor scale of business

Regional Distribution

Uttar Pradesh leads the Indian seed market, largely due to its extensive arable land and dense population, which boosts demand for various seeds. Other key regions include Maharashtra, Madhya Pradesh, Rajasthan, Bihar, Telangana, Karnataka, Punjab, Andhra Pradesh, Chhattisgarh. These states have diverse agricultural practices and crop preferences, contributing to the overall growth of the seed industry.

Breeding Technologies

The Indian seed market is witnessing a shift towards hybrid seeds, which offer higher yields and better resistance to environmental stresses compared to open-pollinated varieties (OPVs). Hybrid seeds, especially in crops like cotton, maize, and vegetables, are increasingly adopted by farmers due to their superior performance and adaptability.

Key Players

The competitive landscape features major players such as Advanta, Corteva, Kaveri, Syngenta, Bayer, Rasi, Nuziveedu, Bioseed, US Agri, Mahyco, Hitech and Rallis India Limited.

Growth Drivers

Several factors are driving the growth of the Indian seed industry:

1. **Commercialization of Agriculture:** Increased commercialization has led to higher demand for quality seeds that ensure better yields and resistance to pests and diseases.
2. **Public-Private Collaborations:** Collaborative efforts between government bodies and private companies have spurred advancements in seed technology and availability.

3. **Investment by Multinational & National Seed Companies:** Huge investment in R&D in tailoring to fit in the various agro-climate and specific needs of customers.
4. **Rising Consumer Income Levels:** Higher disposable incomes allow farmers to invest in better-quality seeds, thereby increasing productivity.
5. **Introduction of Hybrid and Transgenic Seeds:** These seeds offer improved traits such as pest resistance, herbicide resistance, stress tolerance and higher yields, making them attractive to farmers. Value added quality traits like high oil content, ethanol recovery, milling percentage, low glycemic index, high shelf life, etc. are also encouraging farmers to change their product preferences.
6. **Government Support:** Initiatives such as the Rastriya Krishi Vikas Yojana and ISOPOM (Integrated Scheme of Oilseeds, Pulses, Oil Palm, and Maize) provide essential support to farmers and the seed industry, fostering growth and innovation (IMARC) (Research & Markets). Subsidies and Bonus on Minimum Support Price (MSP) announced in certain states to diversify crop cultivation and stabilize the cropping patterns to balance the dietary requirements.

Trends and Future Outlook

- **Adoption of Advanced Technologies:** The use of AI, data analytics, Seed treatments with new generation chemicals, and biotechnology in seed development is expected to enhance seed quality and adaptability. GMO crops introduction is going to become a game changer in near future.
- **Sustainability:** There is a growing focus on sustainable agricultural practices, which includes the development of seeds that require fewer inputs and are environmentally friendly such as dry seeds Rice etc.
- **Customization:** Seeds tailored to specific regional and crop requirements will see increased demand as farmers seek to optimize their yields and adapt to changing climatic conditions (GII Research).
- **Seed Production Trends:** Hybrid Paddy, Corn & Cotton Seed production affected at the time of harvest, that created a good demand for available seeds and sold out well due to short supply. Limited expertise growers for various crops with limited production locations triggering huge demand and increasing the production cost, its need of the hour to balance the profitabilities with efficiency throughout value chain of seeds business.
- **Commodity prices & Crop Shifts:** For Mustard, the area has come down and farmers preferred to grow their own seed rather than packed seed, similarly, because of low market prices, the hot pepper area has come down drastically, In North India, Cotton acreage is replaced with paddy preferably Basmati, In Central India farmers switched from Cotton to Corn & Soybean, In South India, farmers switched from Cotton to Corn because of better market prices for Corn, Overall, the Corn acreages increased both in Kharif, Rabi & Spring because of attractive commodity prices. Pulses – Red gram, Black gram & Green gram acreages are also increased marginally because of better market prices
- **Rising Concern:** Penetration of Herbicide Tolerant (HT) Cotton Seeds which is not approved and increasing beyond expectation year on year, posing threat to Cotton players.

In summary, the Indian seed industry is poised for continued growth driven by technological advancements, government support, increasing demand for high-quality seeds with efficient execution of seeds business. The industry's future looks promising, with significant opportunities for innovation and expansion.

Impact of Monsoon in 2024

In 2024, India experienced a generally normal monsoon season, with the country as a whole receiving 108% of its Long Period Average (LPA) rainfall, according to the India Meteorological Department (IMD). While June saw below-normal rainfall (89% of LPA), July, August, and September saw above-normal rainfall (109%, 115%, and 112% of LPA, respectively). Several regions experienced above-normal rainfall, including Central India (119% of LPA) and the South Peninsula (114% of LPA). However, East and Northeast India received below-normal rainfall (86% of LPA) (IMD)

The 2024 monsoon delivered vital recovery from 2023 drought but highlighted escalating climate vulnerabilities. While it boosted reservoir levels and winter crop prospects in general, but spatial imbalances, temporal

imbalances and extreme events year by year underscore the need for regional adaptation crop frameworks and sowing patterns to safeguard agriculture and livelihoods in a warming world. The seeds business hugely impacting due to imbalances monsoon occurrences in both spatial and temporal spreads.

OUTLOOK

Our Business

“Tierra” has made a humble beginning in the Year 2013 as a technology centric agriculture company. The objective is set to develop superior quality hybrid seeds stacked with crop specific important traits that provides significant yield benefit and overall cost advantages to farmers and other stake holders.

“Tierra” is engaged in research, development, production, processing and commercialization of superior products in major crops like Cotton, Rice, Corn, Mustard, Tomato and Okra. During year 2017-18, Tierra has attracted global attention after their acquisition of Monsanto’s India cotton seed business and DuPont - Pioneer’s Cotton company ‘Xylem Seeds Private Limited’.

“Tierra” has established a state-of-the-art R&D unit in Hyderabad with 10,000 sq. ft. laboratory space with several green houses and breeding farms supported with drip irrigation and other essential facilities. Besides its Breeding and Biotechnology R&D centers in Hyderabad, Tierra has also R&D units in various parts of India.

In 2018, Tierra expanded its Cotton portfolio in the market by acquiring Indian Cotton seed business of Monsanto Holdings Private Limited and Xylem Seeds Private Limited (a DuPont Pioneer company). The rich and diverse germplasm collected and developed by the experienced breeders of Tierra and the two acquired programs has given the organization a very strong platform in Cotton breeding. Tierra’s efforts are aimed at developing upmarket products with big boll size, easy picking, earliness, good fiber qualities with strong tolerance to pests and diseases. Our special efforts are to breed cotton for suitability to high density planting system (HDPS), sympodial type, easy pick ability, short stature with synchronous maturity to help harvest the crop in one or two pickings. Special emphasis is also on utilizing male sterility trait for efficient seed production and very high genetic purity. Our focus is to introduce value added - differentiated products and technologies in the market, while protecting them under suitable Intellectual Property (IP) and Plant Variety Protection (PVP) laws. Our business model follows strict compliance with all regulatory guidelines including Freedom to Operate (FTOs).

“Tierra” ventured into vegetable seeds sale from the financial year 2020-21, thereby spreading its portfolio from cotton, paddy, mustard, maize and vegetable seeds. The Company has an extensive marketing network with loyal and committed distributors and dealers in Andhra Pradesh, Telangana, Orissa, Karnataka, Tamil Nadu, Maharashtra, Bihar, Madhya Pradesh, Jharkhand, Chhattisgarh, Gujarat, Uttar Pradesh, Punjab, Haryana, West Bengal and Rajasthan. The Company’s focus is to be a leading provider of crop solutions to the farmers by supplying high yielding hybrid seeds. For achieving this, the Company is engaging in R&D efforts in the areas of superior breeding program and biotechnology tools that will enable it to develop highly effective and differentiated hybrid seeds.

Research & Development

Tierra has strong Research and development infrastructure. Our research program is well recognized by DSIR, GOI which is supported by highly qualified and experienced professionals in industry. Tierra has technological collaboration with key institute like NBRI for unique product development. We also carry out our research through collaborations with academic institutions and other strategic partners. We have teams of plant breeders that have the ability to develop new lines and hybrids. We believe our continuing efforts in research and development provides us with a strong platform to build our market share in the seed industry.

The company has the following R&D Activities:

1. About 100 Breeding & Testing Locations across the country.
2. About 200 Product Evaluation Locations across the country.
3. About 100 Acres of Leased land for Research & Development.

Product Overview:

Crop	Commercial Products	Pipeline	Lead Commercial Products
Cotton	8	2	Brahma, 9121, 9135, Alankar, Sudarshan
Maize	6	5	S2-981, 2T55
Paddy	10	16	3T32, 3TH4322, Sujaya, Chandini, Taapsi, Sonika, Rajasi & Madhul
Mustard	2	5	5T55, S5-630
Tomato	5	-	Mudit, Yuvaan, Amaya
Okra	4	-	Tarla, Super Kranti

Opportunities

Tierra, has an opportunity to grow its market share in the existing market as well as be part of growing seed market. The existing opportunities size in the key crops for Tierra is about 905.09 Lakh Hectares. (Source: <https://upag.gov.in/>) offers opportunity to expand our crop & product portfolio further.

- Increasing seed replacement ratio — There has been consistent increase in purchased seeds in Paddy, Mustard, Maize and other crops
- Favorable Govt. Policies for farmers — Better MSP and subsidized inputs and mechanization is helping the adoption of high-quality seeds in each crop.
- More Food for growing population — With stable/ decrease in the total arable land, the need for feeding the growing population can be met with better traits and high yielding seeds in each crop.
- The scenario post-adoption of hybrids and improved OPVs has resulted in many advantages, such as yield improvement, ensuring higher prices, and availability of seeds at an affordable price. These factors will drive the growth of the Indian seed market in the forecast period.
- By 2050, the world 's population is projected to reach 9.8 billion, with India accounting for 1.7 billion (Source: United Nations). To meet the growing food demands of India's population, there is a pressing need to significantly increase the yield per hectare, especially considering the diminishing arable land in the country. Furthermore, India's agricultural yield lags behind global averages due to various factors, including extreme weather conditions, limited adoption of high-yielding hybrid seeds, a lack of awareness about modern agricultural technologies, and inefficient use of agrochemicals.

- These challenges present a substantial opportunity for the Company's Seeds business, as well as opportunities for expanding crop advisory and digital offerings. Innovations in seed technology and digital farming solutions can play a pivotal role in addressing the productivity issues that plague Indian agriculture. These advancements can also empower farmers to secure better commodity prices, enabling them to invest in high-quality inputs to achieve higher yields.

Tierra, with its comprehensive product portfolio, extensive distribution network, and a robust team of qualified professionals is well-positioned to support Indian farmers in this endeavor.

Risks, Concerns, and Threats

Fast-Changing Customer Preferences

Customers today are more likely to experiment with and test new items in the market due to increasing disposable incomes, easy access to information, and rapid acceptance of technological products. Tierra must constantly monitor changes not only in the crops business but also in the consumer/non-cyclical sector.

Competitive Market

Despite Tierra's efforts toward innovation in the crops area, it faces severe competition from other big players in the seed industry.

Climate Change

Fast-emerging climate change and sustainability challenges are expected to make agriculture more vulnerable and may cause severe hardship to the fragmented farmer base of India and the rural economy. Product development can be a complicated issue given the diverse climate conditions for agriculture in India.

Government Policies

The imposition of taxes on agriculture can be a potential threat. Government policies regarding price control of cotton and other crops can hamper the company's profitability.

Illegal Cotton Seed

The unorganized illegal cotton seed market in India, which contributes almost one-fourth of the total cotton business in the country, is an emerging threat for the cotton business.

Production Constraints

Year by year increased demand for limited expertise grower base coupled with the labor shortage and triggering increased cost of production necessitated to have innovative in efficient business execution

Details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios, along with detailed explanation.

During the year on a standalone basis, the significant changes in the financial ratios of the Company, which are more than 25% as compared to the previous year are summarized below:

[Pursuant to Section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014] & Regulation 24A of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

To,
The Members,
Tierra Agrotech Limited,

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Tierra Agrotech Limited (hereinafter referred to as “the Company”) having CIN: L01119TG2013PLC090004. The secretarial audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company’s books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of the secretarial audit, I hereby report that, in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2025 (“Audit Period”) complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minutes, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2025 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made thereunder;
- ii. The Securities Contracts (Regulation) Act, 1956 (‘SCRA’) and the rules made thereunder;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- iv. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 (‘SEBI Act’)
 - (a) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

REPORT ON CORPORATE GOVERNANCE

[Pursuant to Schedule V Para C of the Securities and Exchange Board of India
(Listing Obligations and Disclosure Requirements) Regulations 2015 ("Listing Regulations")]

1. Company's philosophy on Code of Governance

"Tierra" is a technology centric agriculture company. The objective is set to develop superior quality hybrid seeds stacked with crop specific important traits that provides significant yield benefit and overall cost advantages to farmers and other stake holders.

Tierra is engaged in research, development, production, processing and commercialization of superior products in major crops like Cotton, Rice, Corn, Mustard, Tomato and Okra.

At Tierra, we have always sought to be a value driven organisation, where our growth and success is directed by our values.

The Company has adopted the Code of Conduct for the Directors and Senior Management, which encompasses an appropriate mechanism to report any concern pertaining to non-adherence to the said Code, which includes a Code of Conduct for Independent Directors as specified under Schedule IV to the Companies Act, 2013 and Regulation 26(3) of the Listing Regulations. Pursuant to Regulation 26(5) of the Listing Regulations, all members of the Senior Management have confirmed that there are no material, financial and commercial transactions wherein they have a personal interest that may have a potential conflict with the interest of the Company at large. Pursuant to Regulation 26(3) of the Listing Regulations, all the Directors and Senior Management of the Company as on March 31, 2025, have affirmed compliance with their respective Codes of Conduct. A Declaration to this effect, duly signed by the Chief Executive Officer is enclosed at the end of this Report.

The Company has complied with the norms of governance as provided in Chapter IV and Schedule II of the Listing Regulations during the year under review.

2. Board of Directors

INDEPENDENT AUDITOR'S REPORT

To
The Members of Tierra Agrotech Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **Tierra Agrotech Limited** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025 and the Standalone Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of cash flows for the year then ended, and notes to the Standalone financial statements, including material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its loss, total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

S. No	Key Audit matter	How the matter was addressed in Audit
1	Revenue: Management's estimate for provisions regarding sales returns and discounts and incentives is critical for the standalone financial statements for the year ended 31 March 2025. This is due to: As disclosed in Note 1.5 and 29 to the standalone financial statements, revenue is measured based on transaction price, which is the consideration, after deduction of estimated sales returns, discounts and incentives. The recognition and measurement of sales returns involves significant estimates. The estimation is dependent on various internal and external factors. These factors include, for example, climatic conditions, the length of time when a sale is made and when the sales return takes place, some of which are beyond the control of the Company. The recognition and measurement of discounts and incentives involves significant estimates, particularly the expected level of claims of each of the customers. Assumption of level of customer wise claims for discounts and incentives relates to estimating which of the Company's customers will ultimately be subject to a related discount and/ or incentive. Evaluating the assumption of expected returns based on experience and level of customer wise claims for discounts and incentives underlying the estimate of accrual involves challenging the assumptions. We identified the evaluation of accrual for sales returns, discounts and incentives as a key audit matter.	Principal Audit procedures: We have performed the following principal audit procedures in relation to revenue recognised: - Understanding and testing of design and operating effectiveness of Internal controls in place relating to recognition and measurement of sales returns and discount amounts. - Assessing the appropriateness of the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers"). - Testing of relevant information technology general controls, automated controls, and the related information used in recording and disclosing revenue. - We obtained written representations from management regarding the basis of their estimates and their assessment of the impact of current market conditions. - Performed analytical procedures on current year revenue based on seasonal trends and where appropriate, conducting further enquiries and testing. - Reviewed reasonableness of estimates made by management in respect of sales return of previous year by comparing them with actual returns. - Substantive testing of Sales, sales returns and discounts with the underlying documents on a sample basis. Testing of supporting documentation for sales return transactions recorded during the period closer to the year end and subsequent to year end, including examination of credit notes issued after the year end to determine whether the returns were recognised in respective accounting period.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

- The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the standalone financial statements and auditor's report(s) thereon. The annual report is expected to be made available to us after the date of this auditor's report.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the stand-

alone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with Governance, we determine those matters that were of most significance in the audit of the Standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The comparative restated financial information of the Company as at and for the year ended March 31, 2024, included in these standalone financial statements include total assets of Rs. 558.35 Lakhs as at March 31, 2024, total revenues of Rs. 152.29 Lakhs and net cash inflows of Rs. 5.70 Lakhs for the year ended on that date, pertaining to erstwhile wholly owned subsidiary, namely, Tierra Seed Science Private Limited (TSSPL), which got amalgamated during the year into the Company and accounted for with effect from earliest period presented in accordance with Ind AS 103. The aforesaid numbers of TSSPL are based on financial statements and other financial information prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and audited by us whose report for the year ended March 31, 2024 dated 25th May 2024, expressed an unmodified opinion on those financial statements.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Standalone balance Sheet, the Statement of Standalone Profit and Loss including Other Comprehensive Income, the Statement of Standalone cash flows and Statement of Standalone Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**" to this report.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and based upon the audit procedures performed and the information and explanation given by the management, the provisions of section 197 read with Schedule V to the companies Act is compiled by the company.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company did not have any impact of pending litigations on its financial position in its stand-alone financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv.
 - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources of kind of funds) by the company to or in any other person(s), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the company from any person, including foreign entities ("Funding parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate beneficiaries; and
 - c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-cause (a) and (b) contain any material misstatement
 - v. No dividend has been declared or paid during the year by the company.
 - i) Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account for the financial year ended 31 March 2025 which has a feature of recording audit trail (edit log) facility and the same has been enabled and operated throughout the year for all relevant transactions recorded in the respective software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered and the audit trail has been preserved by the company as per the statutory requirements for record retention.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF TIERRA AGROTECH LIMITED

Report on the Internal Financial Controls under Clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of **Tierra Agrotech Limited**

We have audited the internal financial controls with reference to the standalone financial statements of Tierra Agrotech Limited ("the Company") as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31 March 2025, based on the criteria for internal financial controls with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1. **Material Accounting Policies**

1.1 **Basis of preparation of financial statements**

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of Companies Act, 2013, (the ‘Act’) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant schedule III), as applicable and other relevant provisions of the Act. The standalone financial statements have been prepared on a going concern basis. The accounting policies are applied consistently to all the periods presented in the standalone financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires change in accounting policy hitherto in use.

1.2 **Functional and presentation currency**

These standalone financial statements are presented in Indian Rupees (INR), which is also the Company’s functional currency. All financial information presented in Indian rupees have been rounded-off to two decimal places to the nearest lakhs except share data or as otherwise stated.

1.3 **Basis of measurement**

The standalone financial statements have been prepared on the historical cost basis except for the following items:

- Certain financial assets and liabilities: Measured at fair value
- Net defined benefit (asset)/ liability: Fair value of plan assets less present value of defined benefit obligations
- Borrowings: Amortized cost using effective interest rate method

Use of estimates and judgements

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates. Estimates and

underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the standalone financial statements is included in the following notes:

- Note 1.14 - lease classification.
- Note 1.14 - leases: whether an arrangement contains a lease and lease classification

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 1.12 – measurement of defined benefit obligations: key actuarial assumptions;
- Note 1.19 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and
- Note 1.17 – impairment of financial assets;
- Note 1.7 - determining an asset's expected useful life and the expected residual value at the end of its life

Measurement of fair values

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1.4 Current and non-current classification:

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

Assets

An asset is classified as a current when it is:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is expected to be realized within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting dates.

Liabilities

A liability is classified as a current when:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded;
- the Company does not have an unconditional right to defer settlement of liability for at least twelve months from the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and realization in cash or cash equivalents. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

1.5 Revenue recognition
Sale of goods:

Revenue is recognized when the company satisfies a performance obligation by transferring a promised good or service to its customers. The company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset. Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and value added tax. Transaction price is recognized based on the price specified in the contract, net of the estimated sales incentives / discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method. The Company recognizes provision for sales return, based on the Management estimate, measured on net basis of the margin of the sale. Therefore, Trade receivables are disclosed at net off provision for sales for the products expected to be returned. The company classifies the right to consideration in exchange for goods as a receivable and is presented net of impairment in the Balance Sheet.

Interest Income:

Interest Income is recognized on an accrual basis.

Interest income

Interest Income mainly comprises of interest on fixed deposits, Margin money deposit relating to bank

guarantee and Deposits against Bank Overdraft with banks. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee and Over draft are purely current in nature, hence effective interest rate has not been applied. Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

1.6 Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition, construction or production of an asset which necessarily take a substantial period of time to get ready for their intended use or sale are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

1.7 Property, plant and equipment & Capital work-in-progress

Recognition and measurement

The items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment loss, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs (Present Value) of dismantling and removing the item and restoring the site on which it is located. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent costs included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred. If an item of property, plant and equipment is purchased with deferred credit period from supplier, such asset is recorded at its cash price equivalent value.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized in profit or loss. Fully depreciated assets still in use are retained in the financial statements.

Capital work in progress

Capital work-in-progress is recognized at cost, net of accumulated impairment loss, if any. It comprises of property, plant and equipment that are not yet ready for their intended use at the reporting date.

1.8 Depreciation and Goodwill

Depreciation is provided on the written down value methods per the useful life prescribed in Schedule II to the Companies Act, 2013.

The useful lives of assets are periodically reviewed and re-determined and the unamortized depreciable amount is charged over the remaining useful life of such assets. Assets costing Rs. 5,000/-and below are depreciated over a period of one year.

Sl. No	Type/Category of Asset	Useful life of the asset
1	Computer And Data Processing Units	3 years
2	Furniture And Fixtures	10 years
3	Office Equipment's	5 years
4	Plant And Machinery	15 years
5	Vehicles	6 years

1.9 Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment if any. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

The estimated useful lives of intangible asset are as follows:

Type of Asset	Useful life
Germplasm	Indefinite Life
Plant Variety	Over the validity period
Trade Marks	Over the validity period
License Fee	Over the validity period

1.10 Inventories

Inventories comprise of Unprocessed seeds, Processed Seeds, and traded goods. Inventories are valued at the lower of cost and the net realizable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Average basis. Cost includes all charges in bringing the goods to their present location and condition and receiving charges. The inventories are valued at, Cost and NRV whichever is lower.

1.11 Foreign Currency Transactions

The company translates all foreign currency transactions at Exchange Rates prevailing on the date of transactions. Exchange rate differences resulting from foreign exchange transactions settled during the year are recognized as income or expenses in the period in which they arise. Monetary current assets and monetary current liabilities that are denominated in foreign currency are translated at the exchange rate prevalent at the date of the balance sheet. The resulting difference is also recorded in the profit and loss account.

1.12 Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured on an undiscounted basis at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme and other funds. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statement of profit and loss in the periods during which the related services are rendered by employees.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The liability or asset recognized in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by a qualified actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future

cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income.

They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Other long-term employee benefits

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

1.13 Taxes on Income

Taxes comprises Current Tax, Deferred tax and MAT credit. It is recognized in profit or loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (And tax laws) enacted or substantively enacted by the reporting date.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future;

Deferred tax assets are recognized for deductible temporary differences, the carry forwards of unused tax credits and unused tax losses. Deferred tax assets are recognized to the extent that it is probable

that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available.

Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternate Tax (MAT) Credit

Minimum alternate tax (MAT) credit is recognized in accordance with tax laws in India as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the MAT credit at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.14 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessor:

Leases for which the Company is a lessor are classified as a finance or operating lease. Whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Rental income from operating leases is recognized on straight line basis over the term of relevant lease.

Company as a Lessee:

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option.

In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

Right of use asset: The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The

right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

Lease Liability: The Company measures the lease liability at present value of the future lease payments at the commencement date of the lease. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of buildings, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

1.15 Earning Per Share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year excluding the treasury shares as per Ind AS 33 Earnings per share. Diluted earnings per share is calculated by dividing the profit/(loss) attributable to equity holders (after adjusting for interest on the Compulsory convertible debentures) by the weighted average number of equity shares outstanding during the period/year the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

1.16 Impairment of financial instruments

The Company recognizes loss allowances for expected credit losses on financial assets measured at amortized cost and trade receivables. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). Presentation of allowance for expected credit losses in the balance sheet. Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

1.17 Impairment of non-financial assets

The Company assess at each reporting date whether there is any indication that the carrying amount from non-financial assets may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognized if the carrying amount of an asset or Cash generating unit (CGU) exceeds its estimated recoverable amount in the statement of profit and loss. Goodwill is tested annually for impairment. For the purpose of impairment testing, goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

1.18 Provisions and Contingent Liabilities

A Provision is recognized if, as a result of past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the present obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.19 Financial Instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity of another entity.

Initial Recognition

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Subsequent Measurement

Financial assets at fair value through other comprehensive income (FVOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved both by collection contractual cash flows on specified dates to cash flows that are solely payments of principal and interest on the amount outstanding and selling financial assets.

Financial assets at fair value through Profit and Loss (FVTPL)

Financial assets are measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs that are directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognized in statement of profit and loss.

Financial liabilities

Financial liabilities are classified as measured at amortized cost or Fair Value Through Profit and Loss Account (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on derecognition is also recognized in statement of profit and loss.

1.20 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts and Cash Credit that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

1.21 Research and Development Costs (Product Development):

Research expenditure is recognized as an expense when it is incurred. Development expenditure on an individual project is recognized as an intangible asset when the Company can demonstrate:

- a) The technical feasibility of completing the intangible asset so that the asset will be available for use or sale.
- b) Its intention to complete and its ability and intention to use or sell the product.
- c) How the asset will generate future economic benefits.
- d) The availability of resources to complete the asset.
- e) The ability to measure reliably the expenditure during development.

Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred. Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

1.22 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

1.23 Recent pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Note 45. Financial risk management objectives and policies

The Company's financial liabilities comprise mainly of borrowings, trade payables and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Board of Directors of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit risk and Liquidity risk.

1. Market Risk: Market risk is the risk of loss of future earnings, fair values or future cash flows that may results from change in the price of a financial instrument. The value of a financial instrument may change as result of change in the interest rates, foreign currency exchange rates, equity prices and other market changes may affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive

financial instruments and deposits, foreign currency receivables, payables and loans and borrowings. Market risk comprises mainly three types of risk:

Interest rate risk, currency risk and other price risk such as equity price risk and commodity risk.

The Company has an elaborate risk management system to inform Board Members about risk management and minimization procedures

a) Interest Rate Risk :-

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Any changes in the interest rates environment may impact future rates of borrowing. The Company mitigates this risk by maintaining a proper blend of Fixed & Floating Rate Borrowings.

The Company regularly scans the Market & Interest Rate Scenario to find appropriate Financial Instruments & negotiates with the Lenders in order to reduce the effect Cost of Funding.

Interest Rate Sensitivity: The following table demonstrates the sensitivity to a reasonably possible change in interest rates on financial assets affected. With all other before tax is affected through the impact on finance cost with respect to our borrowing, as follows: variables held constant, the Company's Profit / (Loss)

b) Commodity Price Risk and Sensitivity:

Commodity price fluctuations can have an impact on the demand of seeds for particular crop. Therefore, we track the commodity price movements very closely and take advance production decisions accordingly. In addition to the above, Company also maintains a strategic buffer inventory to ensure that such disruptions do not impact the business significantly.

c) Foreign currency risk

"Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. Any movement in the functional currency of the various operations of the company against major foreign currencies may impact the company's revenue in international business. The company values the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks."

2. Credit Risk:

Credit risk is the risk that counterparty might not honour its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables).

a). Trade Receivables: Customer credit risk is managed based on company's established policy, procedures and controls. The company assesses the credit quality of the counterparties, taking into account past experience and other factors. Credit risk is reduced by receiving pre-payments and export letter of credit to the extent possible. The Company has a well defined sales policy to minimize its risk of credit defaults. Outstanding customer receivables are regularly monitored and assessed. Impairment analysis is performed based on historical data at each reporting date on an individual basis. However a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

3. Liquidity Risk:

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due. The Company relies on a mix of borrowings and operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowings facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its loss, total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters.

S. No	Key Audit matter	How the matter was addressed in Audit
1	Revenue: Management's estimate for provisions regarding sales returns and discounts and schemes is critical for the consolidated Financial Statements for the year ended 31 March 2025. This is due to: • The complexity and judgment involved in forecasting returns and discount rates. • The significance of these estimates on the reported revenue, which is a key performance measure. • The potential for management bias in estimating provisions. Management bases its estimates on historical data and current market trends. Given the inherent uncertainties and the significant judgment involved, this matter was identified as a key audit matter. Refer Note 1.6, 28 to the Consolidated Financial Statements.	Principal Audit procedures: We have performed the following principal audit procedures in relation to revenue recognised: • Assessing the appropriateness of the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers"). • Understanding and Testing of design and operating effectiveness of Internal controls in place relating to recognition and measurement of sales returns and discount amounts. • Testing of relevant information technology general controls, automated controls, and the related information used in recording and disclosing revenue. • We obtained written representations from management regarding the basis of their estimates and their assessment of the impact of current market conditions. • Performed analytical procedures on current year revenue based on seasonal trends and where appropriate, conducting further enquiries and testing. • Reviewed reasonableness of estimates made by management in respect of sales return of previous year by comparing them with actual returns. • Substantive testing of Sales, sales returns and discounts with the underlying documents on a sample basis. Testing of supporting documentation for sales return transactions recorded during the period closer to the year end and subsequent to year end, including examination of credit notes issued after the year end to determine whether the returns were recognised in respective accounting period.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and auditor's report(s) thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Management's Responsibilities for the Consolidated Financial Statements

The Company Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of the Company included in the consolidated financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements/ information of Tidas Agrotech Private Limited included in the consolidated financial statements of the company whose financial statements/financial information reflect total assets of Rs. 17.35 Lakhs as at 31 March 2025 and the total revenue – 0.02 Lakhs for the year ended on that date, as considered in the consolidated financial statements/ information of Tidas Agrotech Private Limited have been audited by the other auditors whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in Tidas Agrotech Private Limited is based solely on the report of such auditors.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

A. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in “Annexure A” which is based on the auditors’ reports of the Company. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and based upon the audit procedures performed and the information and explanation given by the management, the provisions of section 197 read with Schedule V to the companies Act is complied by the company.

- h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company did not have any impact of pending litigations on its financial position in its consolidated financial statements;
 - ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv) a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Company incorporated in India or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
 - b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company, shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Parties or provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and
 - c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-cause (a) and (b) contain any material misstatement.
- v) No dividend has been declared or paid during the year by the company.
 - i) Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software where audit trail was enabled. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for records retention.

- B) With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor’s Report) Order, 2020 (“the Order”) issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor’s report, according to the information and explanations given to us, and based on the CARO reports issued by the auditors of the joint venture included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, provided to us by

the Management of the Company and based on the identification of matters of qualifications or adverse remarks in their CARO reports by the respective component auditors and provided to us, we report that the auditors of such companies have not reported any qualifications or adverse remarks in their CARO.

Annexure “A” To the Independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Tierra Agrotech Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls over financial reporting of Tierra Agrotech Limited (hereinafter referred to as the “Company”).

Management’s Responsibility for Internal Financial Controls

The Boards of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”) and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal financial control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. CONSOLIDATED FINANCIAL STATEMENTS

Corporate information

The Consolidated financial statements (CFS) comprise financial statements of Tierra Agrotech Limited (the Company) and its joint venture for year ended 31 March 2025. "Tierra Agrotech Limited ('the company') (formerly known as Tierra Agrotech Private Limited) is in the business of Seed Research, Production, Processing and Marketing of Seeds and related products. The Company was incorporated on 13th September 2013 in Hyderabad. The National Company Law Tribunal Bench at Hyderabad vide order dated 12.11.2021 sanctioned the scheme of amalgamation of Grandeur Products Limited (Holding Company - Transferor Company) with Tierra Agrotech Private Limited (Subsidiary Company - Transferee Company) with effect from the appointed date i.e., 01.04.2020 and consequent to the amalgamation and upon scheme becoming effective, the name of the Company has been changed from Tierra Agrotech Private Limited to Tierra Agrotech Limited. The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

The Equity Shares of the Company are listed on Bombay Stock Exchange of India Ltd (BSE) in India on 27th May 2022.

The Consolidated financial statements for the year ended 31 March 2025, are approved by the Board of Directors and authorized for issue on 27 May 2025.

1. Material Accounting Policies

1.1 Basis of preparation of financial statements

The Consolidated financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of Companies Act, 2013, (the 'Act') and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant schedule III), as applicable and other relevant provisions of the Act.

The Consolidated financial statements have been prepared on a going concern basis. The accounting policies are applied consistently to all the periods presented in the Consolidated financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires change in accounting policy hitherto in use. The consolidated financial statements comprise the financial statements of the company and its joint venture for the years ended 31 March 2025, 31 March 2024. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with investee and has ability to affect those returns through its power over investee.

1.2 Consolidation Procedure

Pursuant to the para 38-39 of Ind AS -28 "Investments in Associates and Joint Ventures"

- a) If an entity's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture, the entity discontinues recognizing its share of further losses. The interest in an associate or a joint venture is the carrying amount of the investment in the associate or joint venture determined using the equity method together with any long-term interests that, in substance, form part of the entity's net investment in the associate or joint venture. For example, an item for which settlement is neither planned nor likely to occur in the foreseeable future is, in substance, an extension of the entity's investment in that associate or joint venture. Such items may include preference shares and long-term receivables or loans, but do not include trade receivables, trade payables or any long-term receivables for which adequate collateral exists, such as secured loans. Losses recognized using the equity method in excess of the entity's investment in ordinary shares are applied to the other components of the entity's interest in an associate or a joint venture in the reverse order of their seniority (i.e., priority in liquidation).

- b) After the entity's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the entity has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.
- c) According to the above, the parent company's share of losses in Tidas Agrotech Private Limited, joint venture exceeding the interest i.e., carrying amount of the investment in joint venture, so the Company discontinues recognizing share of further losses in the consolidated financial statements.

1.3 Functional and presentation currency

These Consolidated financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All financial information presented in Indian rupees have been rounded-off to two decimal places to the nearest lakhs except share data or as otherwise stated.

1.4 Basis of measurement

The Consolidated financial statements have been prepared on the historical cost basis except for the following items:

- Certain financial assets and liabilities: Measured at fair value
- Net defined benefit (asset)/ liability: Fair value of plan assets less present value of defined benefit obligations
- Borrowings: Amortized cost using effective interest rate method

Use of estimates and judgements

In preparing these Consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the Consolidated financial statements is included in the following notes:

- Note 1.15 - lease classification.
- Note 1.15 - leases: whether an arrangement contains a lease and lease classification

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 1.13 – measurement of defined benefit obligations: key actuarial assumptions;
- Note 1.19 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and
- Note 1.17 – impairment of financial assets;
- Note 1.8 - determining an asset's expected useful life and the expected residual value at the end of its life

Measurement of fair values

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1.5 **Current and non-current classification:**

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

Assets

An asset is classified as a current when it is:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is expected to be realized within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting dates.

Liabilities

A liability is classified as a current when:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded;
- the Company does not have an unconditional right to defer settlement of liability for At least twelve months from the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and realization in cash or cash equivalents. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

1.6 Revenue recognition

Sale of goods:

Revenue is recognized when the company satisfies a performance obligation by transferring a promised good or service to its customers. The Company considers the terms of the contract and its customary business practices to determine the transaction price. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and Indirect taxes. Transaction price is recognized based on the price specified in the contract, net of the estimated sales incentives / discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method. The Company recognizes provision for sales return, based on the historical results, measured on net basis of the margin of the sale. Therefore, Trade receivables are disclosed at net off refund liability, for the products expected to be returned.

The Company classifies the right to consideration in exchange for goods as a receivable and is presented net of impairment in the Balance Sheet.

Interest Income:

Interest Income is recognized on an accrual basis.

Interest income

Interest Income mainly comprises of interest on Margin money deposit relating to bank guarantee and Deposits against Bank Overdraft with banks. Interest income should be recorded using the effective interest rate (EIR). However, the amount of margin money deposits relating to bank guarantee and Over draft are purely current in nature, hence effective interest rate has not been applied. Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

1.7 Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition, construction or production of an asset which necessarily take a substantial period of time to get ready for their intended use or sale are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

1.8 Property, plant and equipment & Capital work-in-progress
Recognition and measurement

The items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment loss, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs (Present Value) of dismantling and removing the item and restoring the site on which it is located. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred. If an item of property, plant and equipment is purchased with deferred credit period from supplier, such asset is recorded at its cash price equivalent value.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized in profit or loss. Fully depreciated assets still in use are retained in the financial statements.

Capital work in progress

Capital work-in-progress is recognized at cost, net of accumulated impairment loss, if any. It comprises of property, plant and equipment that are not yet ready for their intended use at the reporting date.

1.9 Depreciation and Goodwill

Depreciation is provided on the Written down Value method as per the useful life prescribed in Schedule II to the Companies Act, 2013. The useful lives of assets are periodically reviewed and re-determined and the unamortized depreciable amount is charged over the remaining useful life of such assets. Assets costing Rs. 5,000/-and below are depreciated over a period of one year.

Sl. No	Type/Category of Asset	Useful life of the asset
1	Computer And Data Processing Units	3 years
2	Furniture And Fixtures	10 years
3	Office Equipment's	5 years
4	Plant And Machinery	15 years
5	Vehicles	6 years

1.10 Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment if any. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

During the year the Company has not provided any amount amortization of intangible assets.

The estimated useful lives of intangible asset are as follows:

Type of Asset	Useful life
Germplasm	Indefinite Life
Plant Variety	Over the validity period
Trade Marks	Over the validity period
License Fee	Over the validity period

1.11 Inventories

Inventories comprise of Unprocessed seeds, Processed Seeds, and traded goods. Inventories are valued at the lower of cost and the net realizable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Average basis. Cost includes all charges in bringing the goods to their present location and condition and receiving charges. The inventories are valued at, Cost and NRV whichever is lower.

1.12 Foreign Currency Transactions

The company translates all foreign currency transactions at Exchange Rates prevailing on the date of transactions. Exchange rate differences resulting from foreign exchange transactions settled during the year are recognized as income or expenses in the period in which they arise. Monetary current assets and monetary current liabilities that are denominated in foreign currency are translated at the exchange rate prevalent at the date of the balance sheet. The resulting difference is also recorded in the profit and loss account.

1.13 Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured on an undiscounted basis at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme and other funds. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statement of profit and loss in the periods during which the related services are rendered by employees.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The liability or asset recognized in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by a qualified actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Other long-term employee benefits

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

1.14 Taxes on Income

Taxes comprises Current Tax, Deferred tax and MAT credit. It is recognized in profit or loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future;

Deferred tax assets are recognized for deductible temporary differences, the carry forwards of unused tax credits and unused tax losses. Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history

of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized.

Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized. Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternate Tax (MAT) Credit

Minimum alternate tax (MAT) credit is recognized in accordance with tax laws in India as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the MAT credit at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.15 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessor:

Leases for which the Company is a lessor are classified as a finance or operating lease. Whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Rental income from operating leases is recognized on straight line basis over the term of relevant lease.

Company as a Lessee:

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

Right of use asset: The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

Lease Liability: The Company measures the lease liability at present value of the future lease payments at the commencement date of the lease. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of buildings, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

1.16 Earnings Per Share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year excluding the treasury shares as per Ind AS 33 Earnings per share. Diluted earnings per share is calculated by dividing the profit/(loss) attributable to equity holders (after adjusting for interest on the Compulsory convertible debentures) by the weighted average number of equity shares outstanding during the period/year the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

1.17 Impairment of financial instruments

The Company recognizes loss allowances for expected credit losses on financial assets measured at amortized cost and trade receivables. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the

portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet. Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

1.18 Impairment of non-financial assets

The Company assess at each reporting date whether there is any indication that the carrying amount from non-financial assets may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognized if the carrying amount of an asset or Cash generating unit (CGU) exceeds its estimated recoverable amount in the statement of profit and loss. Goodwill is tested annually for impairment. For the purpose of impairment testing, goodwill arising from a business combination is allocated to CGUs or Companies of CGUs that are expected to benefit from the synergies of the combination.

1.19 Provisions and Contingent Liabilities

A Provision is recognized if, as a result of past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the present obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.20 Financial Instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity of another entity.

Initial Recognition

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are

added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Subsequent Measurement

Financial assets at fair value through other comprehensive income (FVOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved both by collecting contractual cash flows on specified dates to cash flows that are solely payments of principal and interest on the amount outstanding and selling financial assets.

Financial assets at fair value through Profit and Loss (FVTPL)

Financial assets are measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs that are directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognized in statement of profit and loss.

Financial liabilities

Financial liabilities are classified as measured at amortized cost or Fair Value Through Profit and Loss Account (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on derecognition is also recognized in statement of profit and loss.

1.21 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts and Cash Credit that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

1.22 Research and Development Costs (Product Development):

Research expenditure is recognized as an expense when it is incurred. Development expenditure on an individual project is recognized as an intangible asset when the Company can demonstrate:

- a) The technical feasibility of completing the intangible asset so that the asset will be available for use or sale.
- b) Its intention to complete and its ability and intention to use or sell the product.
- c) How the asset will generate future economic benefits
- d) The availability of resources to complete the asset
- e) The ability to measure reliably the expenditure during development.

Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

1.23 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

1.24 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Claims against the company acknowledged as debts

i) On account of Direct tax matter* - Rs. 94.44 Lakhs (31 march 2024 : 94.44 lakhs)

ii) Other claims#

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Note 44. Financial risk management objectives and policies

The Company's financial liabilities comprise mainly of borrowings, trade payables and other payables. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Board of Directors of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit risk and Liquidity risk.

1. Market Risk: Market risk is the risk of loss of future earnings, fair values or future cash flows that may results from change in the price of a financial instrument. The value of a financial instrument may change as result of change in the interest rates, foreign currency exchange rates, equity prices and other market changes may affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive

financial instruments and deposits, foreign currency receivables, payables and loans and borrowings. Market risk comprises mainly three types of risk:

Interest rate risk, currency risk and other price risk such as equity price risk and commodity risk.

The Company has an elaborate risk management system to inform Board Members about risk management and minimization procedures

a) Interest Rate Risk :-

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Any changes in the interest rates environment may impact future rates of borrowing. The Company mitigates this risk by maintaining a proper blend of Fixed & Floating Rate Borrowings.

The Company regularly scans the Market & Interest Rate Scenario to find appropriate Financial Instruments & negotiates with the Lenders in order to reduce the effect Cost of Funding.

Interest Rate Sensitivity: The following table demonstrates the sensitivity to a reasonably possible change in interest rates on financial assets affected. With all other before tax is affected through the impact on finance cost with respect to our borrowing, as follows: variables held constant, the Company's Profit / (Loss)

b) Commodity Price Risk and Sensitivity:

Commodity price fluctuations can have an impact on the demand of seeds for particular crop. Therefore, we track the commodity price movements very closely and take advance production decisions accordingly. In addition to the above, Company also maintains a strategic buffer inventory to ensure that such disruptions do not impact the business significantly.

c) Foreign currency risk

"Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. Any movement in the functional currency of the various operations of the company against major foreign currencies may impact the company's revenue in international business. The company values the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks."

2. Credit Risk:

Credit risk is the risk that counterparty might not honour its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables).

a). Trade Receivables: Customer credit risk is managed based on company's established policy, procedures and controls. The company assesses the credit quality of the counterparties, taking into account past experience and other factors. Credit risk is reduced by receiving pre-payments and export letter of credit to the extent possible. The Company has a well defined sales policy to minimize its risk of credit defaults. Outstanding customer receivables are regularly monitored and assessed. Impairment analysis is performed based on historical data at each reporting date on an individual basis. However a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

3. Liquidity Risk:

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due. The Company relies on a mix of borrowings and operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowings facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.
