Ref: Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Dear Sirs

The Board of Directors of the Company had, at its meeting held on 11th August 2025 considered and approved the Investor Presentation, copy whereof is attached herewith. This presentation shall be considered for the Earnings Call scheduled by the Company on 12th August 2025 at 11:00am (IST), intimation whereof was given on 29th July 2025.

The presentation will be uploaded on the website of the company viz-www.ddevgroup.in.

Kindly take the aforesaid information on record and oblige.

Thanking You,

Yours faithfully,

For **Ddev Plastiks Industries Limited**

Ddev Plastiks Industries Ltd.

Leading Manufacturer of Compounds

Earning Presentation Q1FY26

Disclaimer

This presentation contains statements that contain "forward looking statements" including, but without limitation, statements relating to the implementation of strategic initiatives, and other statements relating to **Ddev Plastiks Industries Ltd.'s ("Ddev Plastiks" or "the Company")** future business developments and economic performance.

While these forward - looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations.

These factors include, but are not limited to, general market, macro - economic, governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance.

Ddev Plastiks Industries Ltd undertakes no obligation to publicly revise any forward-looking statements to reflect future / likely events or circumstances.

Note- Numbers are rounded off to the nearest digit. Financials discussed in the presentation are consolidated.

About Us 4-10

Ddev Value Proposition

A+ Stable S&P Global Ratings

DDEV PLASTIKS

01 An experienced Management Team

02 India's Largest Listed Polymer Compound Supplier

03 Value Creation through Innovation

04 A Proud Legacy Spanning Three Generations

05 Well diversified client base and product mix

08 Strong Financial Headroom

09 Conservative Financial Strategy

10 Stable and supportive ownership

Ddev Plastiks : *India's Largest Manufacturer of Polymer Compounds*

- 4 Decade of Operations – current capacity **2,38,400 MTPA (as of June, 2025).**
- **5 manufacturing units** with state-of-the art machinery, infrastructure, equipment, and R&D facilities.
- Diverse product portfolio with more than 200+ compounds.
- **Proven track record: FY20 - FY25 CAGR**
  Revenue – 9%, EBITDA – 28%, PAT- 46% (Consolidated)
- India's **largest and leading manufacturer** of XLPE compounds, product portfolio further extended to High Voltage PE based Cable Compounds and HFFR Compounds.
- **FY25 financial performance**
  ROE - 22%, ROCE - 32%, Net debt to equity - 0.0x

Q1FY26 Financial Performance

Rs.769 cr Revenue	**16%** Gross Margin
Rs.79 cr EBITDA	**10%** EBITDA Margin
Rs.52 cr PAT	**7%** PAT Margin

CRISIL A+/ Stable & CRISIL A1+	**200+**	**400+**	**50+ countries**
Long term & Short-term Credit Rating	Products	Employees	Geographical Presence

Note: EBITDA includes Other Income. ROCE is calculated as Earning before Interest and Tax divided by Capital Employed (i.e. Total Assets less Current Liabilities). ROE is calculated as Profit after tax divided by Total Equity (i.e. Equity Share Capital+ Reserve and Surplus+ Money Received against Share Warrants). Net Debt to Equity is calculated as Long and Short-term borrowing less Cash and Cash Equivalents divided by Total Equity.

Q1FY26 Management Commentary

Narrindra Suranna

Chairman and Managing Director

I am pleased to share that **Ddev Plastiks** has delivered a better performance in **Q1FY26.** Our **revenue** stood at **Rs 769 crore,** an EBITDA of **Rs 79 crore,** with a **10% EBITDA margin.** PAT grew **23% yoy to Rs52crore** Building on this positive momentum, we have commenced FY26 on an exceptionally strong note, setting a solid foundation for the remainder of the fiscal year.

We are intensifying our strategic focus on the Cable segment through significant capacity expansion in PVC, HFFR, and XLPE compounds. This initiative is aligned with the robust and rising global demand for cables and allied products. **The foray of new players** in the industry further underscores the necessity of enhancing our production capabilities to effectively serve growing market requirements.

In addition to ramping up capacity, we remain committed to strengthening our technical credentials. Efforts are underway to secure certification for our 132 KV cables, with a target to have them commercially available by the end of FY26. We also anticipate increased industry momentum for HFFR compounds, positioning us well for further growth in this dynamic sector.

Looking ahead, we remain committed to:

- **Leveraging our operational strengths**
- **Fostering innovation**
- **Expanding our market presence**

We remain firmly committed to our long-term goal of achieving ₹5,000 crore in revenue by FY2030, while consistently maintaining double-digit EBITDA margins and driving optimal capacity utilization. Our capacity expansion initiatives are advancing as planned, with a projected capex of ₹110 crore, ensuring we remain on track with our ambitious growth trajectory.

We are excited about the journey ahead and remain dedicated to delivering exceptional value to all our stakeholders.

Our Business Value Chain

Ability to scale quickly on back of manufacturing capability and capacity to deliver high quality products

Input

Sourcing Raw Material

PVC Resin Polymer

Research & Development

Strong history of product innovation.

Manufacturing Prowess

5 strategically located production facilities.

Process

PVC Resin Polymer

Sourcing of raw materials

Heating

Mixing

Grafting in case of XLPE

Pelletizing

Compounding Process

Output

Serving Customers across sectors

- **Wire and Cable Compounds**
- **White Good Engineering Plastics**
- **Engineering Compounds**
- **Packaging Compounds**
- **Footwear Compounds**

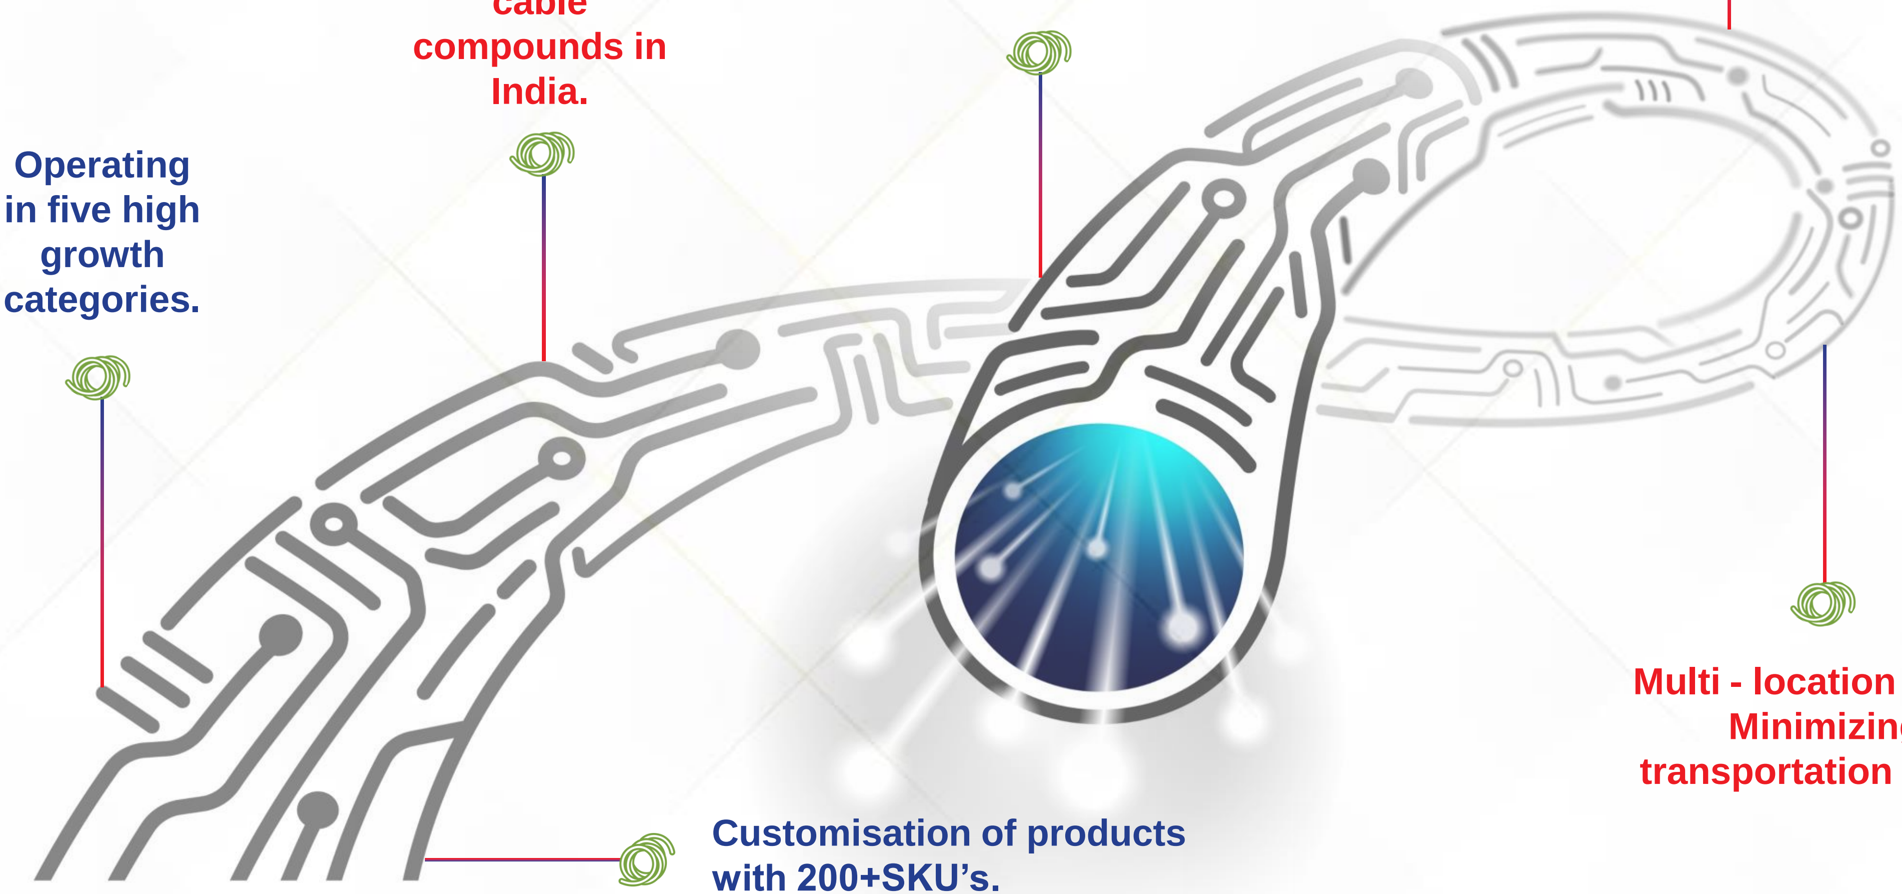
Key USP's

Diversified Revenue Structure; Leading supplier of cable compounds in India.

Highly competitive globally.

Strong R&D Infrastructure.

Operating in five high growth categories.



Multi - location setup; Minimizing transportation costs.

Customisation of products with 200+SKU's.

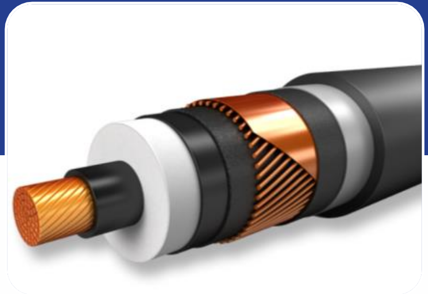
Operating in 5 High Growth Categories with 200+SKU's

Antifab / Filled Compounds / Master Batches

- Extensively used in packaging industry like woven bag and cement bag.
- **We stand as the leading organized player** in the highly fragmented unorganized market.
- **EBITDA Margins – ~3-5%**

PVC Compounds

- Niche Product with high margin
- Widely used in **Wire & Cable Industry, Construction Industry & Footwear**
- **Global polymer compounding market** is expected to reach **USD 115bn by FY30**
- **EBITDA Margins – ~4-6%**

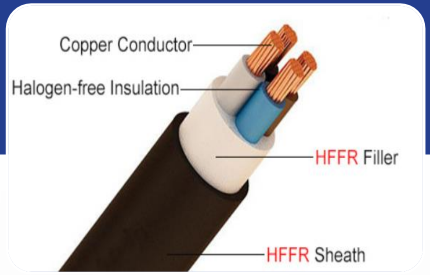


Sioplas / XLPE Compounds / Semicons

- **Global leader** in XLPE and MV compounds since 1980
- **Only player** in country to offer products from the range of 66kv to 132kv
- Major revenue contributor~**50% market share in Sioplas** and ~33% in XLPE compounds
- **EBITDA Margins – ~8-12%**

Engineering Plastic Compounds

- Mostly used in **White Goods & FMEG Industry**
- High growth potential with very less **EBITDA Margins- ~10-15%**



Halogen Free Flame Retardant (HFFR)

- Amongst the **two producers of HFFR in India**
- HFFR is expected to replace PVC house wiring cables and the govt mandate has come to use/replace in mall, metro stations, hospitals, schools.
- HFFR compounds are vital for making solar cables safe, eco-friendly and durable meeting global standards
- **EBITDA Margins- ~10-12%**

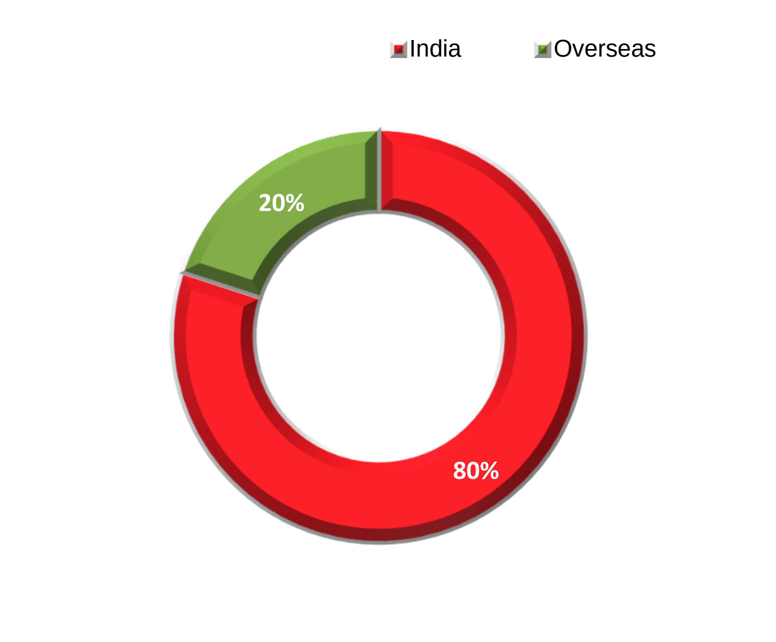
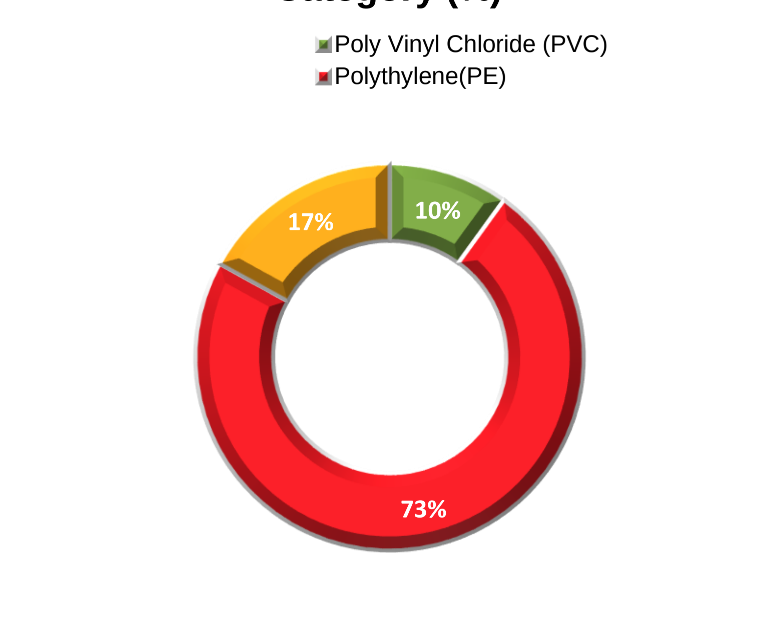
Largest Supplier of Cable Compounds in India

Revenue for Q1FY26 is INR 769 Cr

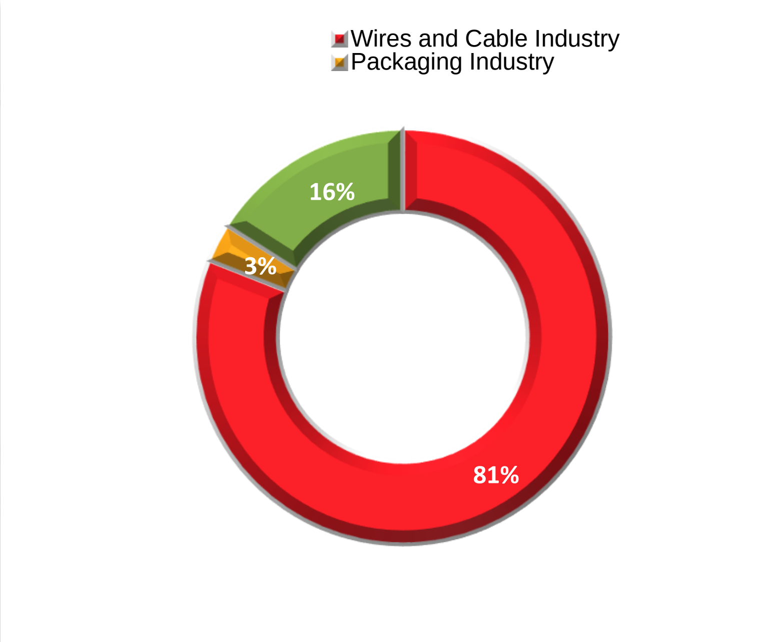
Revenue Contribution by Geography (%)



Revenue Contribution by Product Category (%)



Top 3 Revenue contributing sectors(%)



Polymer compounding is a preferred material to electrical industry due to properties such as electrical insulation, corrosion inhibition, excellent heat resistance, high tensile and durability and low density.

Apar, Havells, KEC, KEI, Paramount and Polycab contribute to ~22% of Total Revenue.

Investment Thesis

12-26

Renewables has emerged as the new unprecedented catalyst

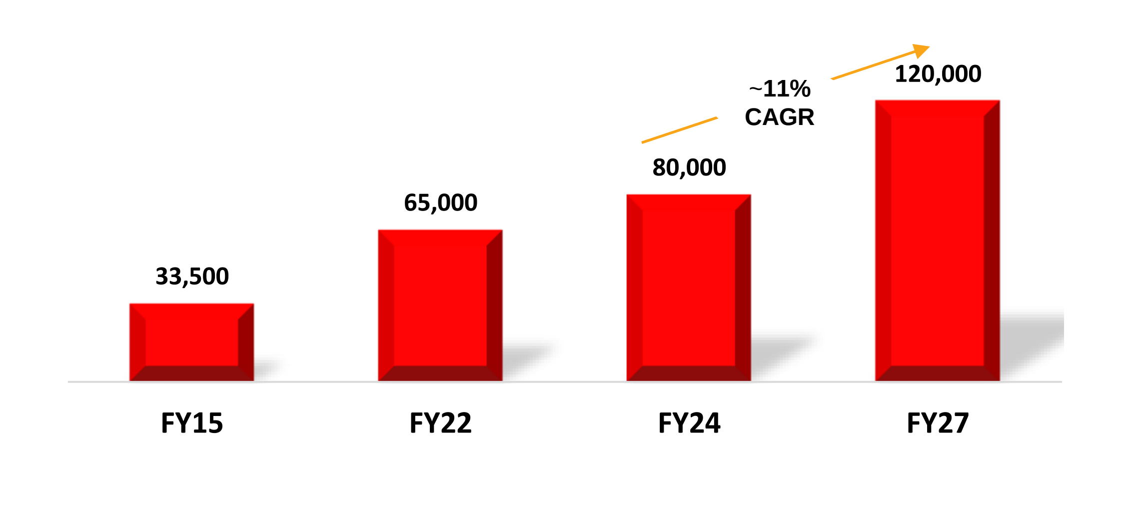
Polymer compounding is a preferred material to electrical industry due to properties such as electrical insulation, corrosion inhibition, excellent heat resistance, high tensile and durability and low density.

817 GW India's power requirement by **2030**

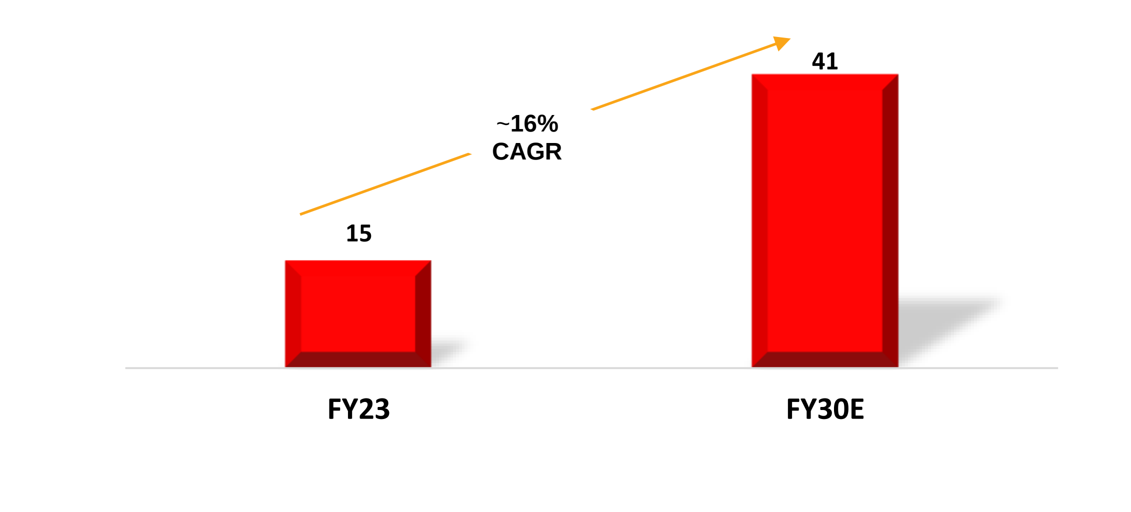
50% Cumulative electric power installed to be green **by 2030**

Transmission Market **~INR60,000cr**

Indian Cable and Wire Industry projected to grow **~2x** of India's GDP



Anticipated Growth in the Indian Wires and Cables Market Value (INR cr)



Anticipated Addition of Transmission Lines in India ('000 km)

Direct co - relationship cable industry growth and demand for Polymer Compounds.

~2.5ltpa size of cable compounding industry in India; ~1/3rd of market share with Ddev Plastiks.

Sectoral Tailwinds to support growth

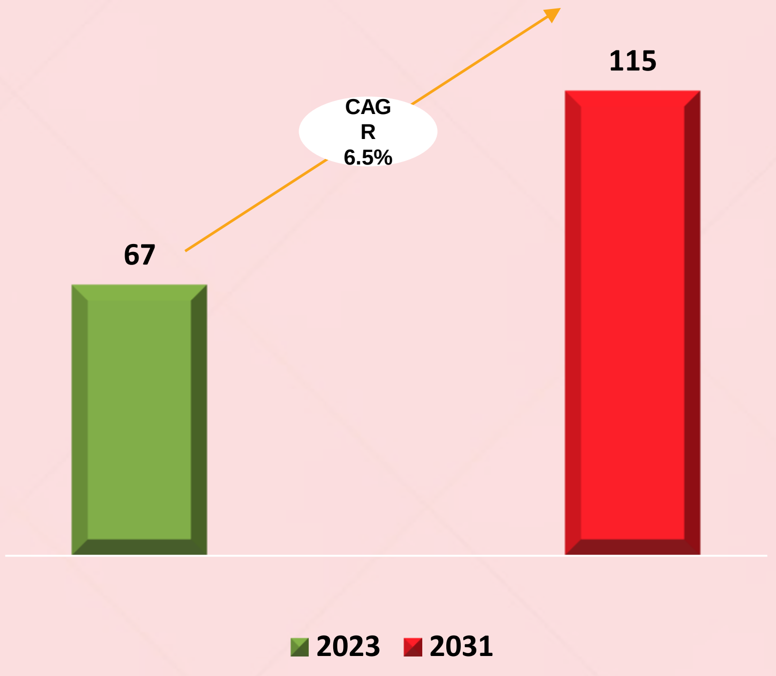
Demand

- Urbanization
- Changing consumer behavior
- Increasing per capita income
- Premiumization
- GDP growth

Sectoral Ripple Effect

- Renewable Energy
- Wires and Cables
- Electric mobility
- Real Estate
- Infra push
- Furniture applications

Global Polymer Compounding Market Growth (in USD bn)



Government Polices

- National Infrastructure Pipeline
- Har Ghar Bijlee
- Capex cycle uptick
- Electrification
- Smart cities
- Plastic Parks

Global Trends

- Substitution effect for natural raw materials.
- Industrial applications
- China +1

The current opportunity landscape presents a fertile ground for businesses to achieve exponential growth in the medium - to - long term

Powering the Future: *Key Drivers of Cable & Wire Growth*

Factors driving growth in the cables segment	Segments
• Investments in power transmission and distribution • Capacity addition in solar and wind energy • Smart cities mission • Increasing investments in Railways for electrification	**Power Cables**
• Affordable housing schemes • Spike in nuclear families • Investments in commercial and residential infrastructure • Increased construction activity supported by growing infrastructure projects	**Building Wires**
• Capex rising across industries such as Auto, Steel, Oil and Gas, and Power • Investment expenditure by Indian Railways and in other mass transit systems • Increased focus on automation in 'manufacturing and processing' to monitor and control quality	**Control & Instrumentation Cables**

Strategically located manufacturing capabilities

Name of the Plant	Products Manufactured	Installed Capacity (MTPA)
Dhulagarh – West Bengal	• Anti fibrillation Compound	6,000
	• Sioplas & Semicon	20,000
	• PVC Compound	6,000
Silvassa – Dadra Plant 1	• PVC Compounds Cables	38,000
	• HFFR	5,000
Silvassa – Dadra Plant 2	• Semicon Compounds	3,500
Daman, Daman & Diu	• EP Compounds	2,400
	• Sioplas	8,000
	• Anti fibrillation Compound	14,500
Surangi, Dadra and Daman, UT	• Semicon	7,400
	• Sioplas	92,600
	• Peroxide	35,000
	Total	**2,38,400**

India's **Largest Polymer Compound Manufacturer** with Installed capacity of 2,38,400 MT as of **June '25**

Five modern state of art manufacturing plants located in West Bengal, Daman & Diu and Dadra & Nagar Haveli.

Strategically positioned in the **East & West coast** of India resulting in lower freight costs.

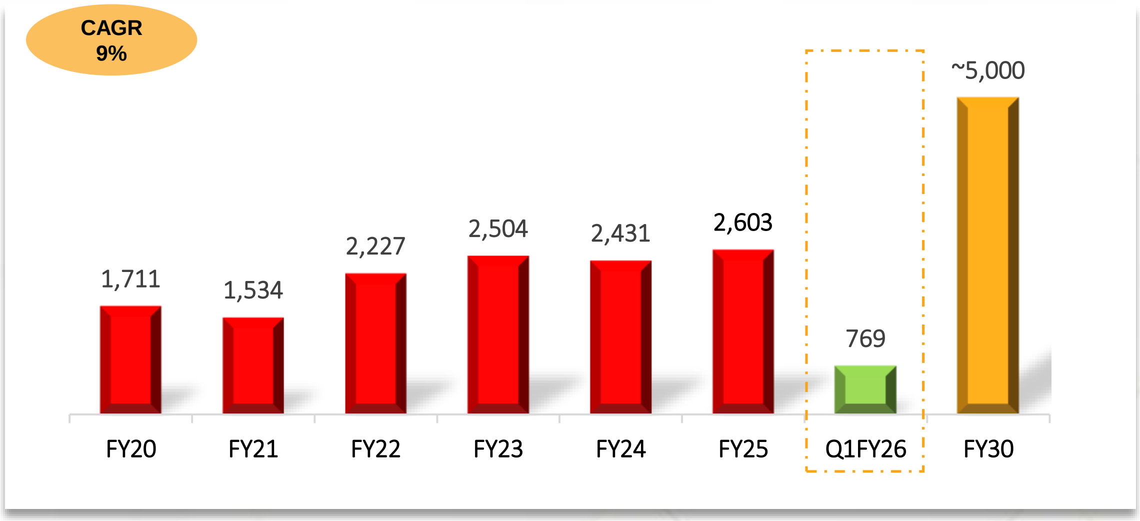
World - class R&D supervised by expert professionals.

Joint research and development initiatives with leading institutes such as IIT Kharagpur and UICT (Mumbai).

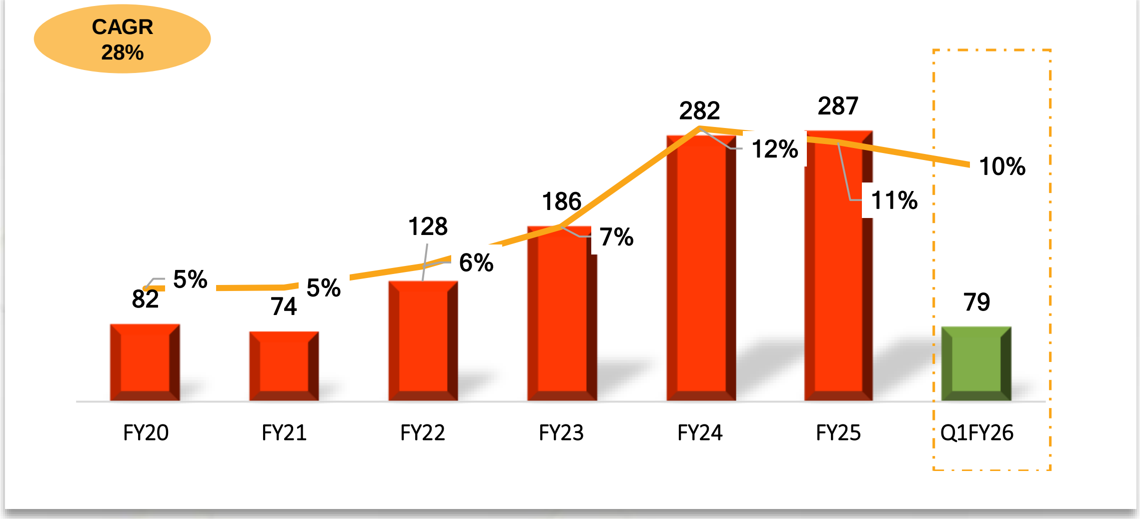
Judicious choice of equipment from Germany, Switzerland, Italy, Taiwan etc.

Profit more than 6x in 5 years: Focus on High Margin Products

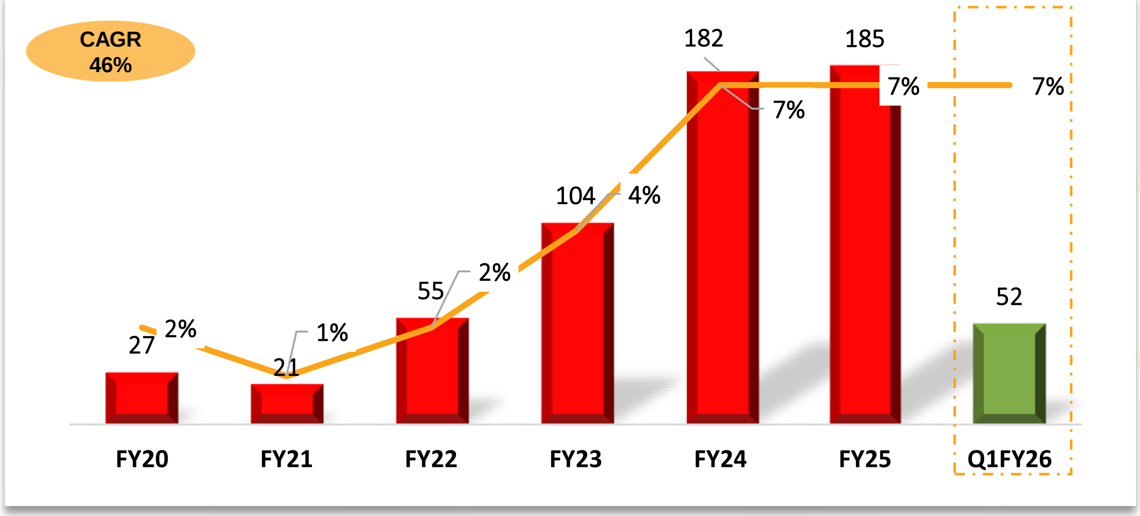
Net Revenue (INR Cr)



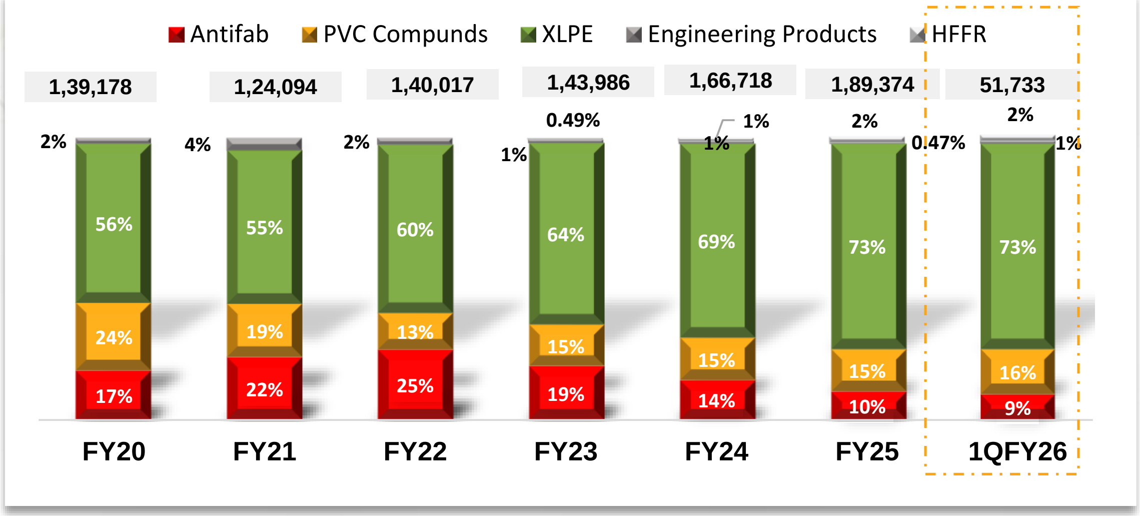
EBITDA (Rs Cr) & EBITDA Margin %



PAT (INR Cr) & PAT Margin %

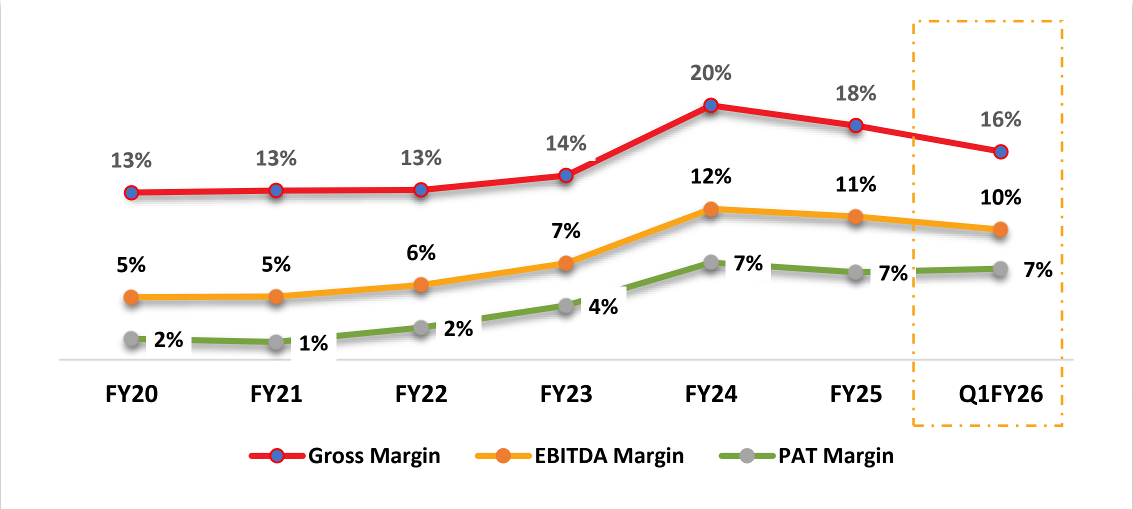


Production Volumes (in MT) & Product Wise Volume Split (%)

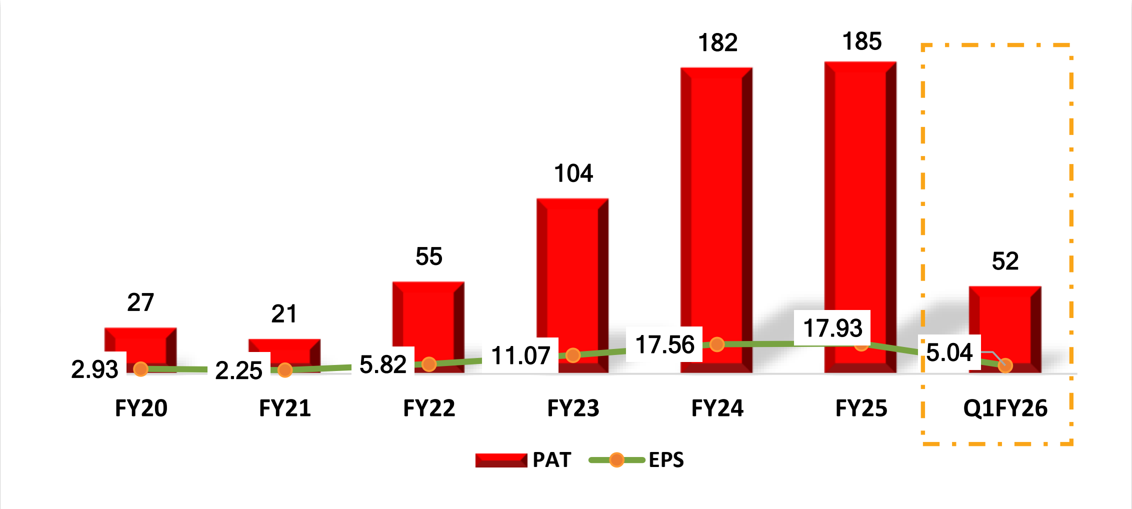


Focus on shareholder value creation

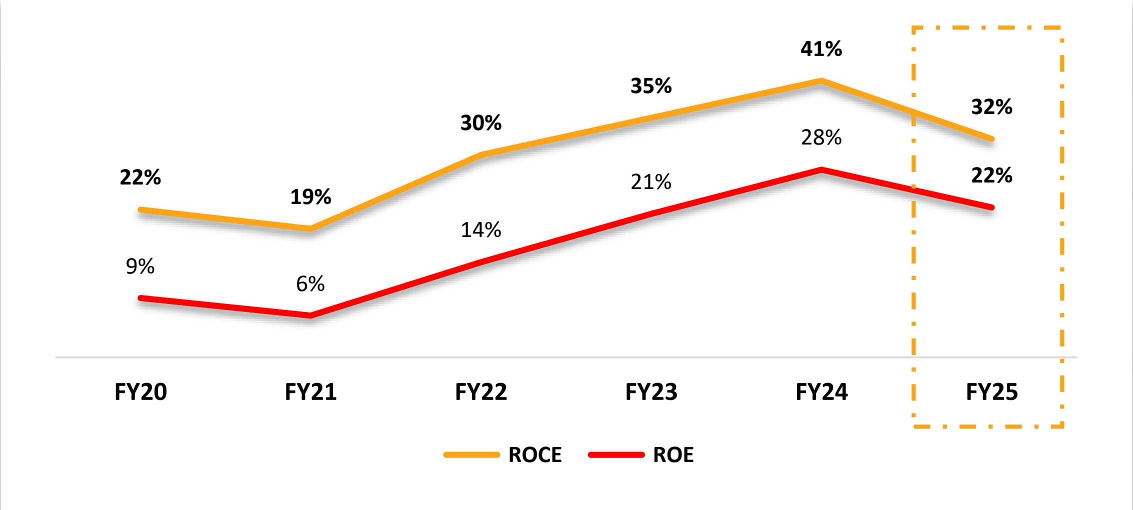
Margins (%)



PAT (INR cr) and EPS (INR per share)



Return Ratios (%)



Our margins have improved as we move towards more value - added high growth products.

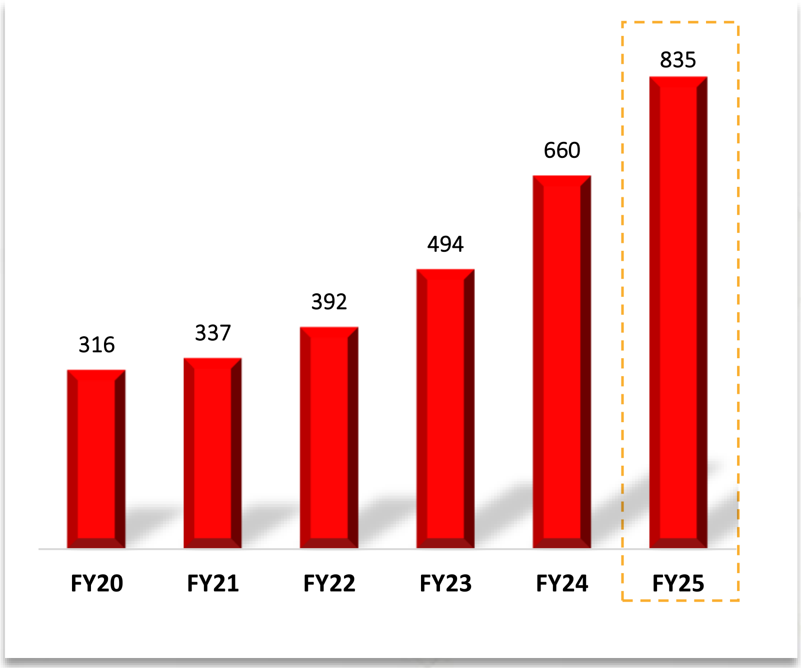
PAT has grown at CAGR of 46% from FY20-25 and EPS has grown 6.11x

Strong return ratios has translated into superior wealth creation.

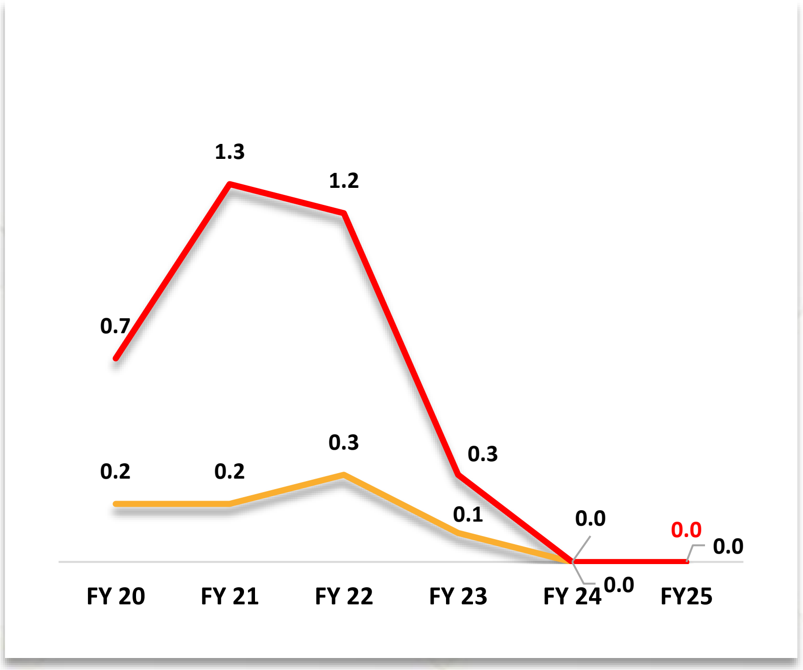
Note: ROCE is calculated as Earning before Interest and Tax divided by Capital Employed (i.e. Total Assets less Current Liabilities). ROE is calculated as Profit after tax divided by Total Equity (i.e. Equity Share Capital+ Reserve and Surplus+ Money Received against Share Warrants). EBIT and EBITDA margin include Other income.

Strong Balance Sheet to support future growth

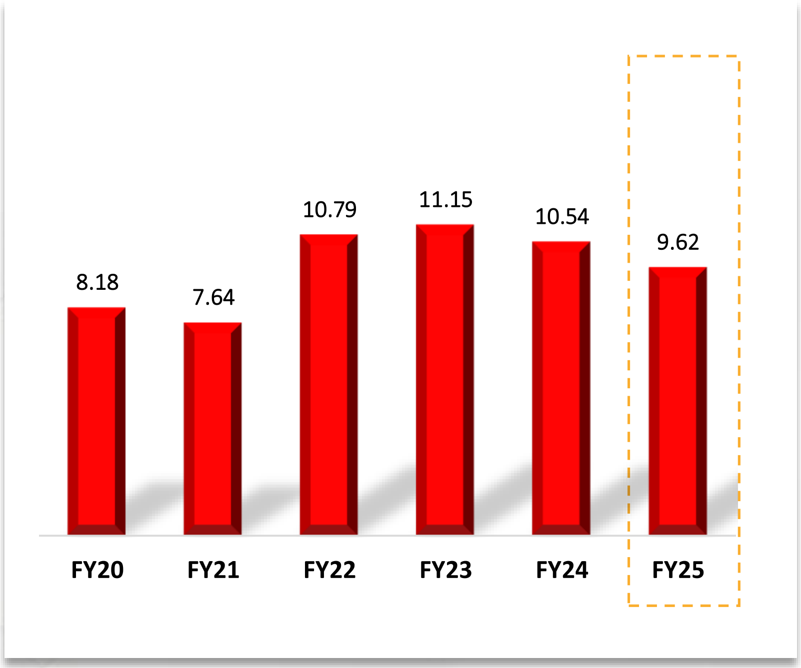
Net-worth (INR cr)



Leverage Ratios



Net Asset Turnover Ratio



- Strong Balance to support capex plans to be done in staggered manner over the next three years via brownfield expansion of existing manufacturing facilities.
- We became net debt-free in 4QFY24 and are committed to maintaining this status through FY26 and beyond.

Credit Ratings

Rating Agency	CRISIL An S&P Global Company	Long Term Rating	A+/Stable	Short Term Rating	A1+

Pioneering Product Launches Powered by Extensive R&D

Started manufacturing PE compounds for **66-72 KV cables.**

Started manufacturing of Anti Track **(Track Resistant)** Compound suitable for 36 KV. It will find big demand in years to come for MVCC **(Medium Voltage for Covered Conductor).**

Received Third Party approval for India's first locally produced Water Tree Retardant **(WTR XLPE Insulation)** Compounds. Introduced XL HFFR compound for Solar Cables.

R&D on producing PE compounds of **132 KV cables.**

Next focus going **upto 220KV.**

WTR XLPE (Water Tree Retardant XLPE) for the insulation of cables (72kv application) was primarily imported, however, DPIL has introduced an exceptional version that has successfully passed a long-term test at a third-party laboratory

- A **novel compound** highly effective in reducing the growth of electrical treeing caused by water, making it a superior choice for insulation purposes.
- Successfully passed a two - year test on cable at a prestigious VDE laboratory, Germany.
- Reduced treeing result in better service life of the cable resulting into **better returns for electrical distribution companies.**

Note- Ddev Plastiks Ltd was part of Kkalpana Industries Ltd until 2022.

Enhancing Profitability Through Better Realizations

Expanding XLPE Capacity: *A Strategic Choice*

DDEV PLASTIKS

Enhanced Safety and Accuracy

XLPE cables offer superior electrical insulation, improving power transfer efficiency and reducing electrical faults that could lead to short circuits.

Temperature Resistance

They are highly resistant to temperature fluctuations, making them suitable for both indoor and outdoor applications, even in high-temperature environments.

Mechanical Strength

XLPE cables possess strong mechanical properties, allowing them to function effectively in diverse environments.

Chemical Resistance

They exhibit excellent resistance to chemicals such as oil, solvents, acids, and alkalis, which prolongs their lifespan, especially in industries with frequent chemical exposure.

HFFR Cables

HFFR used in Solar Panels

- **Usage :** used in the insulation and outer sheath of photovoltaic (PV) cables, which connect the solar panels to the inverter and other electrical components.
- **Enhanced Safety:** HFFR cables are crucial for fire safety because they produce significantly less smoke.

Benefits of using HFFR

- HFFR materials are designed to resist flame propagation.
- Halogen-free materials reduce the environmental impact of cable manufacturing and disposal.
- Minimizes the risk of smoke and toxic fumes spreading during a fire.

Applications

- Power Stations and Industrial Plants
- Airports and Transportation Hubs
- Data Centers
- Metro Stations and Tunnels
- Shopping Malls and Commercial Buildings
- Solar photovoltaic systems

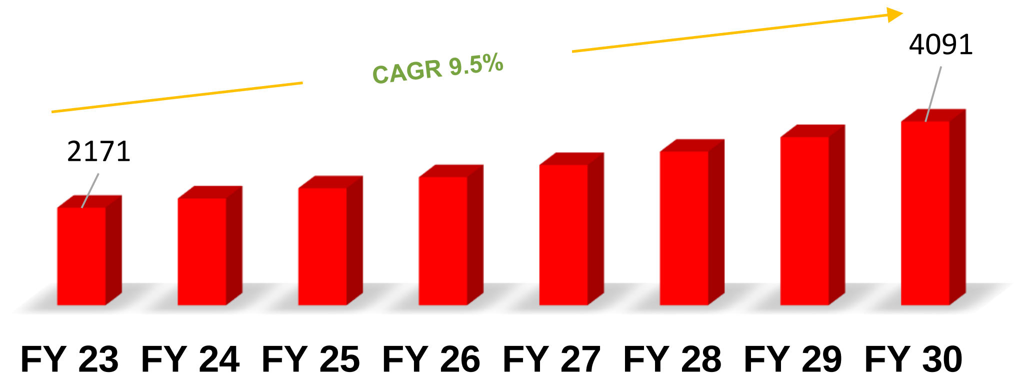
Halogen Free Flame Retardant Cable (HFFR)

In FY24 :
India's HFFR market value stands at **USD 613.25 million, growing at a CAGR of 4.25%**

By 2030:
India's HFFR market expected to increase to **USD 778.87 million. Estimated Global Market ~ USD 4091.3 million.**

*In Mn

Global HFFR Market Size



Key Priorities: *Our Focus Areas*

Moving up the value chain

- Getting certification for 132KV and making it ready for commercial use.
- Going upto 220kv in the future.

Entering new geographies

- Awaiting under writers approval for direct exports to Americas.
- Tapping newer geographies.

Capex

- Increasing the HFFR capacity to 20,000 MTPA by FY27
- Expanding PE compound capacity by 25,000 MTPA by FY27.

Revenue

- INR 5,000cr by FY30.

Volume Growth

Margin Expansion

Better Asset Turnover

Enhanced Profitability

Financials 28-31

Q1FY26 Key Result Highlights

01 In the fiscal, we experienced strong demand from the Cables segment, and our ongoing efforts to shift the product mix towards niche and high - voltage products led to better growth in volumes led by demand from domestic cable players.

02 Our topline increased 23% yoy on the back of higher trade volumes experienced in the quarter and also increase in Average Selling Price by 50 bps

03 Better Product mix, significant reduction in Finance Cost has resulted in better margins and improved bottom - line.

Annexures 33-40

Major Milestones Achieved

Diversification over the Years

1985	Incorporated and Set up Factory at Daman
1993	Listed on BSE
1995	Establishing new factory in Dabhel, Daman to produce LV XLPE with new line from Berstorff Germany.
2004	Started new factory at Silvassa and Kolkata
2005	Setting up of factory at Bhasa, West Bengal.
2006	Installed Buss Kneader to produce MV XLPE Insulation compound with annual capacity of 8000 tons. **This was 1st such installation in India.**
2010	Started new factory at Dhulagarh, Howrah, West Bengal.
2011	• Merger of Alkom Speciality Compounds Private Limited. • New LV XLPE compounder.
2013	• Started new factory at Surangi, Dadra & Nagar Haveli (U.T.) (Sioplas/XLPE/Semicons).
2014	• Setting up of XLPE Compounding facility at Surangi, Dadra & Nagar Haveli. • We set up the XLPE capacity for additional quantity of 12,000 TPA with advanced technology. We moved from injection process to absorption process.
2017	• Set up of Engineering Plastic Compounding unit at Daman. • Started manufacture of PE Compounds for 66-72 KV.
2018	Setting up a new factory at Silvassa for PE/PP Compounds.
2021	Listing at UL site for some of our grades.
2022	• Demerger of the two businesses and listing post Demerger. • Started manufacturing of Anti Track (Track Resistant) Compound suitable for 36 KV. It will find big demand in years to come for MVCC (Medium Voltage for Covered Conductor).
2023	• Received Third Party approval for India's first locally produced Water Tree Retardant (WTR XLPE Insulation) Compounds. • Introduced XL HFFR compound for Solar Cables).
2024	Increase of HFFR capacity by 3,000MTPA.
2025	Listing on NSE
2026	Increase of XLPE capacity by 5,000 MTPA.

We have over the years has carefully mitigated concentration risk by innovating and developing various products to diversify product basket.

Experienced Board of Directors
