Company Overview

Company at a Glance

Business Overview

Dhampur Bio Organics Limited (DBO) is a leading cane processing company with experience and pedigree extending across 9 decades. Utilising its advanced and integrated manufacturing setups, DBO capitalises on the favourable trends in the sugar and broader agricultural economy. The company is focussed on repositioning itself as a value-added sugar manufacturer on one hand and a bio-energy company on the other. The three manufacturing facilities – in Asmoli, Mansurpur and Meerganj; are strategically located in close proximity to each other enabling better utilisation of resources and increased synergies in production and management.

DBO operates in three business verticals

Sugar

58%

DBO has a rich legacy and extensive experience in the sugar sector, manufacturing Raw Sugar, Refined Sugar (available in packed and branded variants), White Sugar, Retail Sugar and Pharma-grade Sugar (approved by Food Safety and Standards Authority of India).

Biofuels & Spirits

11%

DBO, through its distillery in Asmoli, produces Ethanol, utilizing Syrup, B-Heavy & C-Heavy Molasses as key feedstocks. DBO is also focussing on producing ethanol through dual feed plant – sugarcane and grain

Country Liquor

31%

To meet its levy obligations, DBO has extended a part of its distillery capacity in Asmoli to the production of Country Liquor or "Indian Made Indian Liquor (IMIL)". The company's products are available in Tetra packs and packed bottles.

Key Strengths

Integrated Business Model with diversified Revenue streams

The company's Sugar division is fully forward integrated into cogeneration and distillery operations that de-risk the core sugar business of the company

Increasing contribution from other than sugar segment bodes well for the company's overall profitability as these segments have more stable margins than Sugar

Focussing on Sugar Premiumization

The company intends to enhance production of niche, processed and value-added sugar; and moderate exposure to conventional sugar exposed to commodity price risks

Increasing Sugar Realizations (₹/Ton)

Packaged sugar, which currently accounts for less than 2% of country's sugar consumption is likely to grow faster than the existing 12% CAGR

Commencement of institutional supplies began the transformation journey from conventional loose and bulk sugar sales into niche and value-added segment

Intends to enhance packaged sugar capacity at Asmoli and manage inventories and dispatched on behalf of the customer, thus enhancing value and moving closer to the customer

Manufacturing of Pharma-grade sugar by prominent formulation brands which put in repeat engagement orders due to the company's product quality

Transforming into a comprehensive sugar solution provider – across grain size, processing, packaging, applications and logistics.
