PAT Margin (%)	20.28%	-	- bps

DroneAacharya continues to build momentum as one of India's fastest-growing full-stack drone technology enterprises, with strong order visibility for the coming quarters, especially from government and defence-linked projects.

Commenting on the performance, **Prateek Srivastava, Chairman and Managing Director of DroneAacharya**, said: 'H1 FY2025–26 has been a period of strengthening overall operational efficiency, resulting in improved margins and a more focused approach. The company has expanded its defense solutions by developing an indigenized product range. With the recent defense order and a strong pipeline, we are confident of maintaining a positive PAT. We remain firmly committed to innovation-led growth and aim to position DroneAacharya among the world's leading integrated drone solution providers.'

Key Business Highlights – H1 FY2025–26

Defense & Security

- Executed multiple demonstration and deployment trials for tactical and surveillance drones with key defense establishments.
- Advanced indigenous development of long-range FPV drones and kamikaze drone systems.
- Expanded collaborations with Indian defense units and global OEM partners.

Training & Skilling

- Received approval of Remote Pilot Instructor Training **Train The Trainer** course from **DGCA**
- Launched new DGCA RPTO at Coimbatore, Tamil Nadu
- Collaborated with premier institute to set-up center of excellence to upskill youth in drone technologies.

Product Innovation

- Progressed R&D for advanced indigenous surveillance and FPV drones.
- Scheduled commercial rollout of SLAM-based inspection solution and Tethered Drone in FY2025–26.

With a robust order book from Defense, expanding export opportunities, and a strong domestic training ecosystem, DroneAacharya remains well-positioned for steady growth in H2 FY2025–26. The Company continues to focus on high-value drone applications in defense, logistics, and industrial inspection, supported by its vision of enabling a skilled and self-reliant drone ecosystem in India.
