Statement pursuant to section 215 (2) of the Companies Act, 1956

العاملات المعادلين

As per section 215(1) of the Companies Act, 1956 every Balance Sheet and every Profit and Loss Account of a Company shall be signed on behalf of the Board of Directors by not less than two Directors of the Company one of whom shall be a Managing Director where there is one.

However the attached Balance Sheet, Profit and Loss a/c and Cash Flow of Reliance Chemotex Industries Limited has not been signed by the Managing Director as he was not present within the territory of India at the time of the Board Meeting in which such accounts were approved.

He had gone out of territory of India to attend some urgent business meetings with customers which were unavoidable and therefore has not signed the attached Balance Sheet, Profit and Loss a/c and Cash Flow of the Company.

In this regard opinion has also been taken from Solicitors of the Company which states that when the Managing Director is not present within territory of India at the time of signing of the Balance Sheet and Profit & Loss a/c, any other Director of the Company automatically gets the right by virtue of subsection 1(ii) and subsection 2 of Section 215 of the Companies Act, 1956 to sign the Balance Sheet and Profit & Loss a/c of the Company, as long as a statement is appended to the Balance Sheet and Profit & Loss a/c explaining the reason for the absence of Managing Director. Hence we are attaching this statement pursuant to section 215(2) of the Companies Act, 1956 and due to this reason and as authorized by the Board of Directors, we have signed the attached Balance Sheet, Profit and Loss a/c and Cash Flow of the Company.

The Core Business of the Company is manufacturing and marketing of Synthetic Blended Yarn. The report contains expectations of the Company's business based on the current market environment.

a) Industry structure and developments:

The textile industry holds significant status in India, Textile Industry provides one of the most fundamental necessities of the people. It is an independent industry, from the basic requirement of raw materials to the final products, with huge valueaddition at every stage of processing. The growth of textile Industry has become more volatile in the wake of growing production centers in Asia resulting in intensified competition among the producers in these Relocation, countries. Consolidation Collaboration are expected to characterize the textile Industry in next few years. The Indian textile Industry is rapidly integrating with the global textile industry with alliances and acquisitions. In the emerging scenario, it is likely that eventually a few large textile conglomerates would emerge in the Industry.

In view of Global dynamics mentioned above, the competencies required in the textile Industry are also changing rapidly with cost, services and innovation as the key drivers. Customers now aggressively seek alternatives, compare offers and hold out for the best option. The product portfolios are having a shorter product life cycle and ever growing levels of variety. The textile producers in order to sustain their existence will have to recognize these factors and build better competencies to face these global challenges.

The Government of India has started the TUF Scheme w. e from 28th April, 2011 which will enable the industry to expand capacity substantially in current years. This scheme is applicable till March, 2012.

This will be completed by March/ April, 2012.

b) Opportunities and threats:

The fundamental growth drives of the Country's economy as well as textile Industry continue to remain strong despite the pressures of slowdown and inflationary conditions prevailing in the nation and also globally. The consumption of textile products is growing in response to growing per capita Income, population and strong retail push. Textile Industry in the country is continuously attracting investments from domestic and foreign investors. Capacity expansion has already taken place across industry coupled with enticement of interest by global investors in the form of Private equity Investment. This is likely to radically change the shape of Industry in next few years.

The Company's philosophy of continuous modernization, strict quality control and continuous innovation will enable it to meet future challenges.

The Company had taken steps for enhanced economies of scale, product integration chain, higher productivity, shrinking delivery schedules and aggressive marketing. However following things may affect the future of the textile industry and also your Company.

- 1. Fluctuations in the Exchange rates i.e USD and EURO against INR.
- Rising Interest cost for Working Capital and Term Loans.
- Withdrawal of Interest Subvention rebates by the Government of India on Exports and also substantial increase in interest cost on Export Packing Credit Limits in Rupees.
