Ref: Scrip Code: 503162

Dear Sir,

It has come to our Notice from the BSE Website that the Annual Report submitted with BSE in hard copy as well as in soft copy do not reflect the corrections made by the Company after its printing. After Printing of Annual Report but before its dispatch to the shareholders few typo errors were observed by us. The Company has made required corrections in the Annual Report by pasting the stickers before dispatching the same to the Shareholders. However, inadvertently we had submitted copy of Annual Report for the year ended 31.03.2014 with BSE which do not reflect such corrections. Therefore we are filing revised Corrected copy of Annual Report for the year ended 31.03.2014. Details of correction made in the Annual Report are enclosed with this letter. You are requested to take the same on your record.

The mistake is highly regretted.

Yours faithfully

For Reliance Chemotex Industries Limited

MANAGEMENT DISCUSSION AND ANALYSIS

The Management of Reliance Chemotex Industries Limited is pleased to present its report on Management Discussions and Analysis. The company's core business is the manufacture of spun synthetic, blended yarn. This report encapsulates the management's expectations on the company's business, based on the prevailing and anticipated market conditions.

a) Industry Outlook, Structure and Developments:

The textile industry plays an integral role in the economic growth of the country. In a nutshell, the textile industry is responsible for 14% of the country's industrial production, 4% of the nation's GDP and 17% of the country's export earnings. Furthermore, the textile industry provides direct employment to over 35 million people, making it the country's second largest provider of employment, after agriculture. Consequently, India's economic growth is inextricably linked to the growth and all-round development of the textile industry.

b) Opportunities and Threats:

The outlook of the textile industry remains positive despite the prevailing inflationary conditions in the country. This is largely due to the support that the industry continues to receive from both the Union and State governments.

- 4 The Union government has extended the TUF scheme to 2017 with an allocation of 2400 crore for the current year. A Revised and Restructured TUF scheme was also announced. This provides a 2% interest subsidy for stand-alone spinning.
- 4 The Rajasthan State government has announced a new textile policy called the "Special Customized Package 2013" for the development of the textile industry in the state. This scheme will remain in force until March 31st 2020 and hopes to attract investment of Rs. 10,000 crore and provide, direct and indirect, employment to 100,000 people.

In keeping with its philosophy of continuous modernization, strict quality control and innovation the company has embarked on the expansion and modernization of its existing plant situated in Village: Kanpur, Udaipur (Raj.). The company envisages that this will be completed by March 2015.

Furthermore, in its efforts to remain ahead of the curve, the company has actively taken steps to enhance economies of scale, increase productivity, reduce costs, shrink delivery schedules, invest in the research and development of new products and aggressively pursue opportunities in new markets. The company is driven by the belief that a large product range, with ever-increasing variety and product flexibility is essential to serve its customers and survive in an increasingly transparent and competitive global market.

The following factors may effect the future of the textile industry.

- 4 Shortage of skilled labour.
- 4 Foreign exchange fluctuations.

- 4 Rise in the Interest cost for Working Capital and Term Loans.
- 4 Rise in Interest Rates on Export Packing Credit Limits in Rupees.
- 4 Cheaper imports

c) Performance Review and Analysis:

The company only business is the manufacture of spun, synthetic, blended yarn. The company has no activity outside India, apart from the export of the synthetic yarn that it manufactures in India. The company has performed well in the year under review, despite many economic challenges on both the global and domestic front. The company has increased its yarn production, which has resulted in an increase in its revenue, cash profit and profit before depreciation, interest and taxes.

The highlights of the company's performance are shown below:

- 4 The Yarn Production has increased 22.25% to 12,525 metric tonnes.
- 4 The Revenue from operations has increased by 20.94% to Rs. 25,552.78 Lacs.
- 4 The Cash Profit has increased by 21.51% to Rs. 1,507.33 Lacs.
- 4 The Profit before Depreciation, Interest and Taxes has increased by 16.94% to Rs. 2,021.01 Lacs.
- 4 The Net Profit has decreased by 6.22% to Rs. 565.94 Lacs.

This decrease in net profit is due to the provisioning of substantial amount of deferred tax.

d) Risks and Concerns:

Shortage of Skilled Labour

The textile industry is being adversely effected by the shortage of labour, the absence of skill of the available labour force and a high attrition rate. Industry-wide, in all major clusters there is a 10-15% loss of production due to labour shortage.

Foreign Exchange Risk

The domestic market for synthetic yarn is not as remunerative as the export market. Consequently, the company focuses on exports and exports constitute 53% of the company's total turnover. Although this enhances the performance of the company, it does expose the company to foreign exchange risk. The Company has a well-documented and established foreign exchange risk policy, which is regularly reviewed by the Audit Committee. In light of the volatile nature of the Foreign Exchange market, the company meticulously hedges its currency risks through forward contracts.

e) Additional Risks

The Management has reviewed the risk management policies and accordingly the Assets of the Company have been adequately covered under Insurance.

f) Internal Control System and Adequacy

The company has proper and adequate systems for Internal Control. These control systems:

- 4 Allow the management to effectively monitor the company's operations and ensure there is an optimal utilization of resources.
- 4 Ensure that all transactions are authorised, recorded and reported correctly.
- 4 Ensure that all assets are safeguarded and protected against loss from authorised use.

The management continuously reviews these control systems and ensures that they are improved and modified in order to address changes in business conditions, and, statutory and accounting requirements. Furthermore, the Audit Committee also reviews these internal control systems and suggests improvements.

g) Company's Financial Performance and Analysis:

The Operating performance of the Company has been detailed in the first two paragraphs of the Director's Report under the Operation and Finance head.

h) Developments in Human Resources and Industrial Relations:

Human resource is the driving force behind any organization and there is no doubt that this company has consistently achieved its business targets due to the hard work, dedication and diligence of its employees. This year is no exception. The
