MANAGEMENT'S DISCUSSION AND ANALYSIS

This report covers the operations and financial performance of the Company for the year ended 31st March, 2017 and forms part of the Directors' Report.

1 Overall Review:

The Textile Industry occupies a vital place in the Indian economy and contributes substantially to its exports earnings. Textiles exports represent a substantial share of the country's total exports. It has a high weightage of over 20 per cent in the National production and direct employment to over 15 million persons in the mill, powerloom and handloom sectors. India is the world's second largest producer of textiles after China. It is the world's third largest producer of cotton-after China and the USA-and the second largest cotton consumer after China. The textile industry in India is one of the oldest manufacturing sectors in the country and has kept itself updated with technology, besides having manpower skills and the industry is currently the largest.

The Textile industry occupies an important place in the Economy of the country because of its contribution to the industrial output, employment generation and foreign exchange earnings. The textile industry encompasses a range of industrial units, which use a wide variety of natural and synthetic fibres to produce fabrics. The textile industry can be broadly classified into two categories, the organized mill sector and the unorganized mill sector. Considering the significance and contribution of textile sector in national economy, initiative and efforts are being made to take urgent and adequate steps to attract investment and encourage wide spread development and growth in this sector.

The Company's incomes derives from is in the business of manufacturing of textiles and the real estate segments. The Company had achieved an overall turnover of Rs. 21,797 lacs.

2. Segment Review

2.1 Business Segment – Cotton, Synthetics Yarn and Fabrics.

a) Industry Structure and Development:

The fundamental strength of the textile industry in India is its strong production base of wide range of fibre/yarns from natural fibres like cotton, jute, silk and wool to synthetic /man-made fibres like polyester, viscose, nylon and acrylic. Indian textile industry accounts for about 24 per cent of the world's spindle capacity and 8 per cent of global rotor capacity. India has the highest loom capacity (including hand looms) with 63 per cent of the world's market share. India accounts for about 14 per cent of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton; and third largest in cellulosic fibre). With over 45 million people, the industry is one of the largest source of employment generation in the country. Huge investments are being made by Government under Scheme for Integrated Textile Parks (SITP) and Technology Upgradation Fund Scheme (TUFS) to encourage more private equity and to train workforce.

b) Opportunities and Threats:

The slow down in the Chinese economy has rendered the cost of textile production in China high. So Chinese textile manufacturers have lost competitive advantage of lower cost of production. This has offered an opportunity for Indian textile sector to grab the market share of Chinese in the developed world, especially the European Union and the United States which cumulatively comprise around 60 percent of the global export market. The industry faces unfair competition from unorganized sector.

c) Review and Analysis:

The financial performance of the company's textile has been as estimated except for slackness in sales due to demonetization and uncertainty/clarity in the proposed Goods and Service Tax Act.

Our Company's Research & Development which is recognized by Department of Scientific and Industrial Research, Ministry of Science & Technology, Government of India is working continuously for product development catering to the changing consumer demand, constant endeavour of cost control and cost reduction. Additionally, several new fabric blends are being developed with unique finishing processes to cater to the ever changing consumer demand.

d) Outlook:

Textiles expected to see stable outlook in financial year 2018.

The stable textile outlook is in view of stable input prices, healthy capacity utilisation and steady domestic demand scenario in FY18 and support emanating through fiscal incentives and implementation of Goods and Services Tax (GST) that is expected to improve the textile industry's export competitiveness.

Moreover, the US' exit from the Trans-Pacific Partnership is likely to realign textile trade and investments towards the Indian subcontinent that were diverted to Vietnam over FY 2016-17.

The stable cotton outlook is in view of an increase in acreage, a rise in supply in first quarter of FY 2018 (due to demonetisation) and a decline in global inventory assisting with a balanced supply.

e) Risks and Concerns:

The industry is highly labour intensive, high dependence on basic raw material Cotton on favourable weather conditions, high power rates, withdrawal of interest subsidy under the Textile Upgradation Fund Scheme. The industry also dependent on very few suppliers from its fibres which is another major raw material.

2.2 Business Segment – Real Estate.

a) Industry Structure and Development:

The commercial, IT and ITES office space sector will get a strong shot in the arm with REITs. Real Estate Investment Trusts will have an important and long-term impact on developers and present them with the choice of either 'corporatising' or risking take-over by their bigger and better-organised counterparts. The pressure from funding agencies will simply be too strong to ignore. REITs will attract institutional and smaller investors alike because of their inherent nature to provide regular dividends at relatively low risk. Indian REITs will prefer to invest in commercial space developments - specifically the highest quality or Grade-A properties - because of the higher rental yields in this asset class. With transparency and discovery of fair pricing REIT would serve the purpose for commercial real estate assets in the country. While, on one hand, it would help developers unlock value from their leased out assets and generate much needed capital; it would also provide a much needed entry and exit vehicle for the global institutional investors looking to invest in non-residential real estate assets in India.

b) Threats and Opportunities:

Some of the biggest game-changing policies like GST and RERA cleared hurdles, and are on their way to full implementation. The demonetisation move caused considerable turmoil; however, along with the Benami Transactions Act and the new Development Plan 2034 it promises to bring greater transparency in the real estate sector.

On the demand side, the office space requirements of sectors such as manufacturing, logistics, FMCG, etc., showed positive signs in 2016, and we expect this to continue in 2017-2018. Office space required by e-Commerce/ start-ups and consulting firms rose, as these sectors are expected to continue with headcount addition to accommodate their business growth in the years to come. International banks and financial institutions are under increased cost and compliance pressures and are therefore expected to outsource more jobs to India

In the long term, implementation of Real Estate Regulation Act and single window clearance system and the new Development Plan 2034 will be positive for the sector leading to higher transparency and greater investor's confidence.

c) Risks and Concerns:

Delays in getting necessary permissions from statutory authorities, inconsistency and lack of clarity in Development Control Rules contributes to a great extent on the growth and prospects of the commercial projects.

The company has adequate and appropriate systems in place to ensure that the impact of these risks are minimized and interests of the Company are protected.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 1 (f) under the heading of "Report on Other Legal and Regulatory Requirements" of our Independent Auditors' Report of even date to the members of the Company on the financial statements for the year ended March 31, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **THE RUBY MILLS LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to Express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditure of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

In other situations, deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future taxable income will be available to realise such deferred tax assets.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

1.14 Impairment of Assets :

Subsequently, if there is a change in the indication, since the last impairment was recognised, so that recoverable amount of an asset exceeds its carrying amount, an impairment recognised for an asset in prior accounting period is reversed. - 14.1** Balance with Central Excise Authorities represents the amount of unutilised credit of additional duty of Central Excise claimed as refund by the Company. The Central Excise Department rejected the refund of this amount against which the Company filed an appeal before the High Court of Bombay on March 29, 2007 which was subsequently admitted by the Honorable High Court on March 25, 2008.
- 14.2a.** In an earlier year, the Company entered into a Development Agreement ("the DA") with a Developer whereby the Company granted the development rights to develop approximately 36,000 square metres of constructed area ("the Development Rights") on 12,204 square metres out of its Freehold Land at Dadar ("the said property").
- b. In terms of the DA and further agreements / understandings between the Company and the Developer, any cost of construction incurred by the Company and such further costs (including interest on borrowings for the said construction) that may be incurred by the Company for the development of the above referred to area is to be reimbursed by the Developer. Accordingly, the cost incurred by the Company upto March 31, 2017 for the construction (net of amounts received from the developer in terms of the DA) amounting to ₹ 531,60,26,859 (Previous Year ₹ 397,58,41,949) is shown as "Due from developer" under Note 14 and ₹ 100,00,00,000 (Previous Year ₹ 225,00,00,000) is shown as "Advances recoverable in cash or in kind or for value to be received" under Note 19.
- c. Subsequently, the Company has received from the Government of Maharashtra, the approval for the development of additional constructed area of approximately 5,000 square metres over and above the area covered under the DA; the Developer and the Company have agreed that such additional area is to be owned by the Company. The related cost of such area to be owned by the Company is mutually agreed upon with the Developer on an appropriate basis. As on March 31, 2017, the Company has capitalised the cost (which includes the cost of common area facilities) of ₹ NIL (Previous Year ₹ NIL), under the head "Buildings" based on receipt of the Occupation Certificate for such additional area and has entered into a Leave and License Agreement with a party in respect of the said constructed area. The Company has also carried forward the amount of ₹ 27,50,55,255 (Previous Year ₹26,50,53,050) in Capital Work-in-progress. The said cost may be adjusted / increased when the Developer completes the construction of the total area including the construction of the common areas.
- d. The proportionate carrying cost of 12,204 square meters of land of ₹ 92,912 (Previous Year ₹ 92,912), in respect of which the Development Rights are granted, is shown as "Freehold Land (under development)" under "Property, Plant and Equipment and Others" in Note 12.
- e. Further, the consideration for the Grant of the Development Rights is based on the specified percentage of the revenue received by the Developer (in terms of the DA in force), irrespective of the completion of construction / handing over the possession of the said constructed area to the Purchasers / Licensees and reflected as "Grant of Development Rights" in the Statement of Profit and Loss. The DA does not contemplate a transfer or an intention to transfer the ownership or possession of the said property at present and the same continues to remain with the Company.
- 14.3** Other Loans and Advances in respect of Advances recoverable in cash or in kind or for the value to be received which include Sales tax set off receivable and Prepaid expenses.
