Industry Overview

Over the years, India has emerged as the global processing hub for the cashew industry.

The India Cashew Market size is estimated at USD 2.40 billion in 2024, and is expected to reach USD 2.9 billion by 2029, growing at a CAGR of 3.80% during the forecast period (2024-2029).

In recent years, the cashew market has seen a rapid shift in the consumption pattern across India, primarily owing to flavored assorted cashew products occupying an increased share in the retail market space.

With increasing health consciousness, consumers are choosing to snack healthy, owing to which the demand for flavored cashews is rising in India.

However, the cashew market in the country is likely to be hampered as the local population prefers other lighter snacks, available at lower prices, for on-the-go snacking.

Increasing Demand for Healthy Cashew Snacks

The India Cashew Market is expected to grow due to increasing consumption of cashew-based snacks and ready-to-eat foods.

Cashews are a staple in Indian snacking, sweets, and cooking, particularly in Asian cuisine.

A study suggests consuming nuts can reduce coronary heart disease risk by 37%.

Government Initiatives

In 2018, the Basic Customs Duty on raw cashew nut was reduced to 2.5% from the previous 5%, and the Goods and Services Tax (GST) on the same was reduced to 5% from 12%.

As the cashew industry's domestic demand and exports are heavily dependent on imported raw cashew nuts, the Government of India has taken several steps to support efficient sourcing.

These include:

- Changes in import policy for cashew kernel (both broken and whole)
- Revision of the standard inputs output norms (SION) for cashew exports
- Approval of Medium-Term Framework scheme for process mechanization and automation of cashew processing units with a financial outlay of Rs. 60 crore (US\$ 8 million)
- Allowing duty-free import of raw cashew nuts under Duty-Free Tariff Preference (DFTP) Scheme from least developed countries (LDCs)
- The government has also extended financial assistance to the Cashew Export Promotion Council of India (CEPCI) for organizing buyer-seller meet (BSM) and participation in international fairs under Market Access Initiative (MAI) scheme, which supports tapping new markets.
