Q1 FY26 Highlights

Commenting on the Results, Mr. Ravindra Kumar Toshniwal, Vice - Chairman said

"The first quarter of FY26 began on a steady note for the textile industry. While policy moves like the India-UK Free Trade Agreement offer long-term promise, demand trends remained uneven in the near term. In this environment, our total income grew by 12.7% year-on-year to Rs.309.6 crore. EBITDA stood at Rs. 21.9 crore, with a margin of 7.1%. The quarter ended with a net loss of Rs.1.4 crore, largely due to unforeseen operational challenges.

In Yarn, revenue grew by 10% year-on-year, with a 13% increase in sales volume. However, capacity utilisation remained below optimal, reflecting the temporary impact of labour shortages. The situation is now improving, and we expect gradual normalisation in the coming quarters.

Fabric revenue saw a modest growth, with flat volumes and capacity utilisation holding steady at 70%. We are placing greater focus on enhancing utilisation levels, especially for value-added products, to support both growth and margins going forward.

Garments stood out as a strong performer this quarter, delivering 42% growth in revenue and 29% growth in volumes year-on-year. Notably, capacity utilisation improved significantly. This reflects the positive momentum we're seeing in the export markets and the team's efforts to scale operations effectively.

Looking ahead, we remain committed to improving operational efficiency through better utilization levels and increased focus on value-added products. We believe that ongoing progress on the UK Free Trade Agreement could enhance our ability to tap into export markets more competitively."
