Chairman's Message

Commenting on the Quarterly results, Mr. Ajay Kumar Bansal Chairman and Managing Director HI - Tech Pipes Limited said :

“Q2-FY 20 was very challenging quarter due to continuous & steep decrease in the prices of steels. Steel Prices was continuously decreasing due to substantial dip in the demand of Auto sector & Real Estate sector.

In the recent past Government of India has taken various steps to boost new investments and economic sentiments. Particularly reduction in Corporate Taxes is going to benefit the company in the current financial year & in subsequent year also.

Now the good news is steel prices has started stabilizing & demand is coming up from the current month. We are confident that performance of H2 FY 20 is going to much better.
