Digital-led Knowledge-driven Partnering India's Wealth Creation

India has always been a high-savings economy. Household savings, which comprise almost a fifth of our GDP, is expected to rise at a CAGR of almost 13% between FY 2018 and FY 2021, due to robust economic growth and favourable demographics.

With rising income levels and increased awareness of investment avenues, a greater proportion of household savings are moving from physical assets like gold and real estate to financial assets like equity and equity linked products and fixed income investments beyond bank FDs etc. The proportion of financial savings to household savings in India has increased from approximately 31% in fiscal 2012 to 41.5% in fiscal 2016.

Financialisation of household savings is opening unprecedented opportunities for intermediaries.

As the largest equity broker and the second largest non-bank mutual fund distributor in India, ICICI Securities has created a strong leadership position amongst financial intermediaries. We revolutionised the brokerage business in the year 2000 with the launch of ICICIdirect.com – our proprietary online equity trading platform, which has enabled wealth creation for retail investors by democratising equity, facilitating easy access to it and empowering them with the requisite knowledge to make informed investment decisions.

Amongst the retail investors, there is a fast-growing club of High Net Worth Individuals (HNIs) in India, who seek professional wealth management solutions. According to the Asia Pacific 2016 Wealth Report by New World Wealth, India was ranked among the top five Asia Pacific countries in terms of number of HNIs, with 2.36 lakh such entities. Indian HNIs increased by 55% from 1.52 lakh in 2007 to 2.36 lakh in 2015. Further, HNI wealth rose 67%, from USD 0.9 trillion in 2007 to USD 1.5 trillion in 2015. The opportunity to assist this segment of the population in their wealth creation and preservation aspirations is increasing. ICICI Securities services this opportunity through its Wealth Management division.

At the macro level, with India's economy having crossed the USD 2 trillion figure in 2015 and expectations of crossing USD 3 trillion by 2019, much of the growth

story has been driven by the corporate sector, fuelled by funding - both from the equity markets and as well as domestic and foreign institutions. ICICI Securities is a conduit for corporates that seek to raise funds from the capital markets.

Going forward, if India is to achieve USD 5 trillion GDP size by 2025 (World Bank), USD 17 trillion in 2030 and USD 42 trillion by 2050 (PwC report – World in 2050), the funding needs of corporate India will be immense. Accordingly, the opportunities for institutional broking and merchant banking will be enormous.

ICICI Securities caters to the requirement of corporates through its institutional broking and investment banking divisions, enabling them to create wealth for stakeholders and the nation.

Our digital-led seamless customer experience is complemented with knowledge-driven cutting-edge research, enabling prudent investment decisions and consequently, wealth creation for various segments of the economy.

In a business which is very information-oriented, we have always put customers first and invested heavily in technology, people and processes so as to empower them with the right tools and information.

1.2%

Ratio of GDP to financial savings in shares and debentures

Dear Shareholders,

The cyclical upswing that began globally in the middle of 2016, continued and broadened over fiscal 2018. This recovery was driven by strong growth in trade and investments in the developed world as well as pick-up in manufacturing activity in Asia. The developed world witnessed clear policy divergence between the US, Europe and Japan. The US Federal Reserve hiked rates thrice in 2017 supported by robust economic growth and a tight labour market. It also began to unwind its balance sheet. On the other hand, central banks in Europe and Japan were more accommodative. Both kept rates on hold and continued their large asset purchase programmes throughout 2017. Emerging economies, which contributes over half of world growth, continued to perform well.

In India, the Government's increased push towards agriculture, rural development, health, education, employment, MSME and infrastructure sectors is expected to set the country on a long-term sustainable growth path. Reforms such as demonetisation and GST have given an impetus to the transition to an organised economy. This has led to household savings moving from physical (gold, property etc.) to financial (FDs, MFs, Equity etc.) assets, thereby increasing the pace of formalisation of the economy.

FY 2018 was a record year for Indian mutual fund industry, with ₹ 2.85 trillion of inflows into equity, balanced, ELSS and non-gold ETF mutual fund schemes. With financial savings into shares and debentures at a mere 1.2% of GDP, there remains a huge potential for financialisation of savings going ahead. It has proven that over a long period of time, equity and equity-linked investments give superior returns over traditional forms of investments like fixed deposits.

This bodes well for your Company as we offer a wide range of savings and investment options suitable for all income and demographic segments. Your Company straddles the entire financial savings and investment value chain as an intermediary with a strong presence in retail as well as institutional segments.

Your Company is an active partner in an individual's wealth creation journey. Our retail broking franchise, under ICICIdirect, has maintained its leadership position through business cycles. Your Company has constantly innovated to remain ahead of the curve and is a preferred platform of choice for over 4 million customers.

In a business which is very information-oriented, we have always put customers first and invested heavily in technology, people and processes so as to empower them with the right tools and information. Our robust trading platform, domain expertise, reach and depth of relationship, form the backbone of our customer offering.

Being a market leader, your Company has also taken it upon itself to educate people about the investment opportunities so that they are best equipped to take decisions as per their profile and financial goals. Your Company remains committed to empower all Indians by providing them the right information, advisory, and tools.

On behalf of the board, I welcome you to the ICICI Securities family and look forward to your support and encouragement as we undertake our goal of delivering robust financial performance, thereby creating superior stakeholder value.

With best wishes,

Chanda Kochhar

Message from the **Managing Director & Chief Executive Officer**

We stay committed to our mission of 'Creating Informed Access to the Wealth of the Nation' for our diversified set of clients that includes retail investors, High Net Worth Individuals, corporates, government, and institutional investors.

>4 million
No. of customers

Dear Shareholders,

A warm welcome to the ICICI Securities family.

Your Company began its journey in 1995 and is today India's largest equity broker and a leading player in the financial savings, investments and capital markets space.

We take pride in the fact that we were pioneers in the area of electronic broking in the year 2000 and our trading platform, ICICIdirect, enables Indian customers to easily, transparently and efficiently access financial markets. Today, more than 4 million customers can benefit from the ICICIdirect platform to manage their financial savings in a holistic way across a wide spectrum of investment options across asset classes.

Today, our footprint in financial markets ensures that we are able to serve not only retail customers but also institutional customers, both domestic and foreign, in their capital market investments through provision of focussed research, liquidity and corporate access. At ICICI Securities, we also enable entrepreneurs,

corporates and government to access these pools of investible monies and are today a leader in the equity capital markets space.

Let me update you on this year's performance. It was another year of strong well-rounded performance.

Financial Highlights

During the year, your Company continued to demonstrate strong growth in topline as well as bottomline. Consolidated revenue grew by 32% to ₹ 18.59 billion over FY 2017, which was ₹ 14.04 billion. Our Profit after Tax growth outpaced our revenue growth, demonstrating strong operating leverage which we aim to improve further. PAT for the year was up 65% to ₹ 5.58 billion against ₹ 3.39 billion in FY 2017. Being an asset-light Company, our Return on Net Worth stood at 85% for the year and we have declared dividend of ₹ 9.4 per share during the year (including interim dividend declared and paid as well as a proposed final dividend of ₹ 3.9 per share).

Business Highlights

Your Company demonstrated strong revenue growth across all its business segments. Our broking business grew by 32% against last year's base. Similarly, distribution and corporate finance grew by 34% and 19% over the same period.

ICICIdirect continued to remain the platform of choice for investors. We expanded our marketshare, which today stands at 9%. During the year, we acquired 0.46 million new clients, taking the total client base to over 4 million. Average Daily Turnover (ADTO) on ICICIdirect grew 99%, against 72% for the whole market. The robustness of our platform could be gauged from the fact that over 95% broking transactions are performed online with over 25% equity transactions done through mobile devices.

In the financial savings products distribution space, we distribute over 2,500 MF schemes, besides life insurance and other financial products like NPS, corporate fixed deposits etc. through our online platform and offline setup. In MFs, our Assets Under Management (AUM) grew 44% during the year and stood at ₹ 305 billion and the number of Systematic Investment Plans (SIP) on our platform have crossed 1 million, demonstrating increased awareness and acceptance of MFs as an investment asset.

ICICI Securities maintained its leadership position in investment banking business in a year which saw record fund raising by Indian companies. It was ranked third by managing a total of 12 IPO, FPO and InvITs in FY 2018 with the market share of 34% (in terms of issue size). Your Company has taken strong steps to diversify in equity-related business by growing its other businesses

like distribution, advisory etc. Non-brokerage business (including interest income) today accounts for about 45% of your Company's topline, against 38% in FY 2015. Your Company has amongst the largest financial distribution network amongst non-bank firms with over 200 branches in 75+ cities, besides presence through over 2,600 ICICI Bank branches and over 5,400 sub-broker and Independent Financial Associate (IFA) network.

Going Forward

We stay committed to our mission of 'Creating Informed Access to the Wealth of the Nation' for our diversified set of clients that includes retail investors, High Net Worth Individuals, corporates, government, and institutional investors.

The structural changes initiated by the Government and the policy changes by regulators have resulted in a paradigm shift in the financial savings landscape in the country. There is an increasing flow of funds into formal financial savings and within that there is increasing diversification away from bank deposits into various financial investments.

Policy changes that have enabled digital financial transactions have also aided Indian savers in accessing these financial products more easily.

We believe that these are fundamental shifts.

We also believe that with our 18-year-old digital heritage and the understanding we have developed of the Indian financial savings ecosystem, we would be able to stay true to our mission of partnering wealth creation in the country.

We will endeavour to empower our customers with both information and ease of access so that they can make appropriate choices and be in control of their financial future. We will strive to translate our customer engagements into continually innovating and deploying solutions that will further enrich our customers' lives.

For our people, our vision is to be a learning workplace of engaged employees with a strong sense of purpose, pride and values.

As an Organisation, we aspire to become an ideal and responsible corporate citizen, creating a sustained value over the long term for all our stakeholders.

My sincere gratitude to all our customers, partners, employees and investors for their continued support and trust.

Yours sincerely,

Shilpa Kumar

Strengths and Strategies

Our enduring success and consistent growth is the result of our strengths and strategies. Over the years, we have invested in technology and digitisation, our key strengths, with a clear strategy to provide our customers with a seamless, digital-led transaction experience that is backed by knowledge-based research.

It is this combination of strength and strategy, reach and reputation, expertise and experience that will propel us into the next trajectory of growth as we leverage our leadership position in the financial services space in India.

Digital-led

India has approximately 432.0 million Internet users and nearly 1.20 billion mobile users, of whom 30% use smartphones.

According to CRISIL Research, the smartphone penetration rate in India is expected to increase rapidly over the next few years, reaching 66% by the end of fiscal 2022. In addition, the share of mobile data subscribers is projected to increase from 34% in fiscal 2017 to 66% by the end of fiscal 2022. With the increase in smartphone penetration and faster data speeds, consumers are increasingly finding digital platforms more convenient.

The Government is also encouraging digitisation as part of its larger objective to formalise the economy. Initiatives like the Jan Dhan Yojana are creating larger financial inclusion while linking of Aadhaar card to various services is bringing a much larger section of the population under a digital umbrella. Recently, mobile phones are emerging the new payment gateways.

For financial intermediaries like ICICI Securities, digitisation is opening up new vistas for customer acquisition, reach expansion and growth.

There is a huge scope for ICICI Securities to leverage its digital strength to serve hitherto untouched customers anywhere in the country. Given the low participation and penetration of household savings into equities, the online trading platform ICICIdirect.com has immense potential to immediately get more new customers onboard. As pioneers in e-brokerage, ICICI Securities has the right mix of a strong brand name, large registered customer base, a wide range of products across asset classes and complimentary advisory services to take maximum advantage of the growing opportunity in India by being Digital-led.

Adoption of digital solutions at various levels has considerably enhanced the speed of the business from acquisition to access and delivery of products. It has also led to lower operating costs.

Award-winning platform – ICICIdirect

ICICIdirect: 3-in-1 Proprietary electronic brokerage platform

- Over 95% of broking transactions performed online
- Over 25% equity transactions through mobile devices on NSE

I am extremely happy and proud to be part of the ICICIdirect family, a name that stands for long-standing values and integrity. Access to an excellent research team, backed by state-of-the-art technology initiatives from the group, has helped us build on our strengths and build a healthy portfolio for ourselves. Being a part of this continuously innovating organisation has been a truly rewarding experience.

Mr. Prabal Basu Roy

*PE Investor, management advisor,
former corporate director, columnist

Bangalore, HNI Client*

In my 20 years with ICICI Securities, I have closely observed its metamorphosis to what is simply India's best and most innovative platform for securities trading and by far the leader in terms of product introductions, technology and security standards to ensure safety of capital. The organisational ethic revolves around its immense responsiveness to quickly meet customer requirements. The consistency of its daily equity technical research in terms of accurately predicting NIFTY levels is foremost amongst all brokerages I have come across including international ones.

Knowledge-driven

Knowledge-driven research and expertise constitute the key to our business.

Decades of experience, a presence across geographies, an end-to-end spectrum of products and services for customers from every segment along with the socio-economic continuum has equipped ICICI Securities with a deep understanding of the financial needs of the nation. This understanding has been harnessed to garner information that will facilitate better investment and wealth-creating decisions and, with the help of teams of in-house professionals, has been processed for the consumption of various customers from different walks of life. This is the 'knowledge' that ICICI Securities brings to the table.

Relationship managers and product specialists

MF recommendations based on quantitative and qualitative parameters

The myriad world of Mutual Funds has over 2,500 schemes, making it a challenge to advise and explain the intricacies to customers. We have taken a three-pronged approach:

- 1) Creating a basket for easy "One Click Investment" option. Each basket consists of equities as well as tax saving schemes and each of these baskets have four recommended schemes backed by the internal research of the team considering the performance etc. This makes it much simpler for customers to choose a suitable option.
- 2) Creating a "Fund of the Month" on the website where two or three thoroughly researched schemes are highlighted with funds, enabling customers to make a more informed investment call.
- 3) If customers want more options, the website provides the list of funds/schemes divided into few buckets:
 - Top picks – the best schemes
 - Risk-based investment
 - Investment horizon-based schemes ranging from 1 month-5 years

Quality Research reports

Our research reports offer advice and market opinion through a well-researched and creditable view. These research reports are done without any biases. Our research reports cover over 250 companies across sectors and sizes.

Online and offline guidance

Guiding our customer using both digital and non-digital medium is a continuing activity. We regularly bring our mailers and write-ups in regional and vernacular languages.

We conduct investor calls with market experts at no cost to the participants, including in Hindi to spread awareness and knowledge. Through ICICIdirect Centre for Financial Learning (ICFL), our in-house training institute, we conduct knowledge sessions on various market-related topics for

freshers as well experienced people to arm them with added skills which would help in their investment-making decisions. We also work with specific communities like underprivileged women and armed forces brethren to bring a brighter future by sharing knowledge and skills about investing.

We have a unique combination of a digital and hand-holding model where the final decision to access information is with the customers.

Mr. Naresh Arya

RISK MANAGEMENT FRAMEWORK

Our Board oversees our risk management and has constituted a Risk Management Committee, which frames and reviews risk management processes and controls. We have established a comprehensive system for risk management and internal controls for all our businesses to manage the risks we are exposed to. The objective of our risk management framework is to ensure that various risks are identified, measured and mitigated and also that policies, procedures and standards are established to address these risks and to ensure a systematic response in the case of crystallisation of such risks.

We have classified the key risks associated with our business into market risk, credit risk, liquidity risk, operational risk and information technology risk. We have established various policies with respect to such risks which set forth limits, mitigation strategies and internal controls. These policies include a corporate risk and investment policy, a liquidity risk management policy, an operational risk management policy, an outsourcing policy, a fraud risk management policy, an information technology risk management policy, an information security management policy and a surveillance policy.

We particularly are sensitive to risks emanating from the introduction of new products and services. Before we launch a new product or service, it is reviewed and approved by our corporate risk management, compliance and operations groups and product and process approval committee that we have set up. These groups and committee review the product/service through the lenses of regulatory compliance, risk management, and integration with the existing risk management systems.

WHISTLE BLOWER POLICY

The Company has in place a Whistle Blower Policy ('the Policy') which aims to set up a mechanism that enables employees to report about potentially illegal and/or unacceptable practices. It seeks to enable employees to report such practices without fear of

victimisation and reprisal. The Policy aims to administer good governance practices in the Company and to ensure that serious concerns are properly raised and addressed.

The purpose of the Policy is to enable a person who observes an unethical practice (whether or not a violation of law) to approach Head - Compliance & Legal Group/Chairman-Audit Committee without necessarily informing his/her supervisors and without revealing his/her identity, if he/she so chooses. The Policy governs reporting and investigation of allegations of suspected improper activities.

The employees of the Company are encouraged to use guidance provided in the Policy for reporting all allegations of suspected improper activities. In all instances, the Company retains the prerogative to determine when circumstances warrant an investigation and in conformity with the policy and applicable laws and regulations, the appropriate investigative process is employed. The Policy complies with the requirements of vigil mechanism as stipulated under Section 177 of the Companies Act, 2013 ('the Act'). The details of establishment of the Whistle Blower Policy/vigil mechanism have been disclosed on the website of the Company.

INTERNAL CONTROL AND ITS ADEQUACY

The internal financial controls with reference to financial statements as designed and implemented by the Company are adequate. The internal financial control procedure adopted by the Company is adequate for safeguarding its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information. Further, the statutory auditors have verified the systems and processes and confirmed that the internal financial controls over financial reporting are adequate and such controls are operating effectively.

STATUTORY AUDITORS REPORT

There were no qualifications, reservations, adverse remarks or disclaimers in the report of statutory auditors of the Company.

No frauds were reported by the auditors under Section 143 (12) of the Act.

EXTRACT OF ANNUAL RETURN

In terms of the requirements of Section 134 (3) (a) of the Act, an extract of the annual return as provided under Section 92 (3) of the Act is given in **Annexure C** to this report.

PERFORMANCE EVALUATION OF THE BOARD, COMMITTEES AND DIRECTORS

The Company has in place an evaluation framework for evaluation of the Board, Directors and Chairperson. The Board also carries out an evaluation of the working of the Audit Committee, Nomination & Remuneration Committee, Stakeholders Relationship Committee and Corporate Social Responsibility Committee. The evaluation of the Committees is based on the assessment of the compliance with the terms of reference of the Committees.

The evaluations for the Directors and the Board were done through circulation of questionnaires for evaluation of the performance of the Board, the Committees of the Board and the individual members of the Board, which assessed the performance of the Board on selected parameters related to roles, responsibilities and obligations of the Board and functioning of the Committees including assessing the quality, quantity and timeliness of flow of information between the Company management and the Board that was necessary for the Board to effectively and reasonably perform their duties. The evaluation criteria for the Directors (including independent Directors) was based on their participation, contribution and offering guidance to and understanding of the areas that were relevant to them in their capacity as members of the Board.

With respect to the whole-time Directors, the NRC has oversight over payment of compensation. The NRC defines key performance indicators ('KPIs') for whole-time Directors and the organisational performance norms. The KPIs include both quantitative and qualitative aspects. The NRC assesses organisational performance as well as the individual performance of whole-time Directors.

POLICY/CRITERIA FOR DIRECTORS' APPOINTMENT

The Company with the approval of its NRC has put in place a policy on Directors' appointment and remuneration including the criteria for determining qualifications, positive attributes and independence of a Director. The NRC would evaluate the composition of the Board and vacancies arising in the Board from time to time. The NRC, as and when required while recommending candidature of a Director, would consider the requisite special knowledge or expertise possessed by the candidate. The NRC would assess the fit and proper credentials of the candidate. The NRC would also evaluate the prospective candidate for the position of Director from the perspective of the criteria for independence prescribed under the Act. The NRC based on the above assessment will make suitable recommendations on the appointment of Directors to the Board. The NRC evaluates the performance of the executive Directors of the Company on an annual basis.

Remuneration policy for non-Executive Directors

The remuneration payable to non-executive/independent Directors ('NEDs') of ICICI Bank Limited is governed by the provisions of Banking Regulation Act, 1949, RBI guidelines issued from time to time and the provisions of the Act and its applicable rules to the extent it is not inconsistent with the provisions of the Banking Regulation Act, 1949/RBI guidelines. The Company, being a subsidiary of ICICI Bank Limited, has adopted practices on these lines with respect to remuneration payable to non-executive/independent Directors of the Company.

Considering the above, the permitted modes of remuneration for the NEDs, would be sitting fee for attending each meeting of the Committee/Board as approved by the Board from time to time and profit related commission, within the limits as provided under the Act and related rules thereunder.

All the non-executive Directors/independent Directors would be entitled to reimbursement of expenses for attending Board/Committee meetings, official visits and participation in various forums on behalf of the Company.

Profit Related Commission

The NEDs would be entitled for profit related commission, in compliance with the provisions of the Act (as amended from time to time) and other applicable law.

Disclosure

The Company would make the requisite disclosure on remuneration paid to NEDs in the Annual Financial Statements.

Review

The Policy would be reviewed annually by the NRC.

COMPENSATION POLICY FOR THE WHOLE-TIME DIRECTORS AND KEY MANAGERIAL PERSONNEL AS WELL AS OTHER EMPLOYEES

Section 178 of the Act lays down requirement for the NRC to recommend to the Board a policy, relating to the remuneration for the Directors, key managerial personnel and other employees.

The Act prescribes that the NRC shall, while formulating the policy ensure that:

- the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate directors of the quality required to run the company successfully;
- relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- Remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

In the above context, the Company's Compensation Policy, was approved by the NRC and subsequently by the Board, at its meeting held at April 17, 2015 and amended from time to time.

The Company has historically followed prudent compensation practices under the guidance of the NRC.

The Company's approach to compensation is intended to drive meritocracy within the framework of prudent fiscal management.

The Compensation Policy is available on the website of the Company under the link www.icicisecurities.com/CMT/UPLOAD/ArticleAttachments/Compensation_Policy.pdf.

Key features and objectives of Compensation Policy

The compensation policy of the Company is applicable for the whole-time Directors and Key Managerial Personnel as well as other employees and covers all employees of the Company. The Nomination and Remuneration Committee (NRC or the Committee) has oversight over compensation. The Committee defines Key Performance Indicators (KPIs) for the Organisation and the Organisational performance norms for bonus based on the financial and strategic plan approved by the Board. The KPIs include both quantitative and qualitative aspects. The NRC assesses organizational performance as well as the individual performance of whole-time Directors. Based on its assessment, it makes recommendations to the Board regarding fixed pay and variable pay for whole-time Directors and bonus and long term incentive plan (LTIP) for employees, including senior management and key management personnel. Eligible employees will be covered under the ICICI Bank's Employees Stock Option Scheme (ESOS).

The Company follows a philosophy of meritocracy, which is the relative differentiation of employees based on performance delivered. The design of the variable pay is linked to individual employee's performance rating which is arrived at basis of assessment of performance delivered against a set of pre-defined performance objectives. These objectives are a balanced mix of financial, customer, process and compliance related objectives. To ensure effective alignment of compensation with prudent risk parameters, the Company will take into account various risk parameters along with other pre-defined performance objectives of the Company. Acts of gross negligence and integrity breach and reasonable evidence of deterioration in financial performance shall be covered under the purview of the compensation policy. The deferred part of the performance bonus (variable pay) will be subject to malus, under which the Company will prevent vesting of all or part of the variable pay in the event of an enquiry determining gross negligence or integrity breach.

Changes in the Compensation policy in fiscal 2018:

- a) The Committee reviewed the firm's compensation policy for the whole-time Directors and Key Managerial Personnel as well as other employees at its meeting held on April 20, 2017 and the following additions were made:

Long Term Incentive (LTI) in case of employee separation on account of retirement (including pursuant to any early/voluntary retirement scheme), death or permanent disablement of employees continues to vest in the normal schedule as specified in the LTI grant to the employee in all other cases except death in which case it will vest fully immediately following such event. In case of death, the unvested LTI will be cashed out to the nominee declared by the employee towards the same.

LTI in case of employee transfer to a group company to continue to vest in the normal schedule as specified in the LTI grant to the employee. Further, if such employee transferred to a group company exits the group other than the situations mentioned above, such unvested LTI will lapse.

- b) The Committee reviewed the firm's remuneration policy for the non-Executive Directors of the Company at its meeting held on November 24, 2017 and the following additions were made:

Profit Related Commission:

The NEDs would be entitled for profit related commission, in compliance with the provisions of Companies Act, 2013 (as amended from time to time) and other applicable law.

Disclosure

The Company would make the requisite disclosure on remuneration paid to NEDs in the Annual Financial Statements.

Review

The Policy would be reviewed annually by the Nomination and Remuneration Committee.

PECUNIARY RELATIONSHIP OF THE NEDs WITH THE COMPANY

Apart from receiving sitting fees for attending Board and Committee meetings and profit related commissions payable to non-executive Directors of the Company, there is no pecuniary relationship of the non-executive Directors with the Company.

ANNEXURE A

Dividend Distribution Policy

1. Introduction

ICICI Securities Limited (the "Company") has been paying dividends in accordance with the Companies Act, 1956 and Companies Act, 2013. This policy documents the guidelines on payment of dividends, and sets out the key considerations for arriving at the dividend payment decision. The Board will have the flexibility to determine the level of dividend based on the considerations laid out in the policy and other relevant aspects.

2. Statutory and regulatory requirements

The Company while proposing equity share dividend will ensure compliance with the provisions of Companies Act, 2013 and the rules made thereunder to the extent applicable, the Securities and Exchange Board of India ('SEBI') (Listing Obligations and Disclosure Requirements) Regulations, 2015 and guidelines provided under the section titled "Dividend Policy" in the Articles of Association ('AoA') of the Company. Following are some of the brief provisions governing the declaration of dividend by the Company:

a) The Companies Act, 2013

As per the provisions of the Companies Act, 2013, the Company may declare interim/final dividend and has the option to transfer such percentage of its profits for that financial year as it may consider appropriate to the reserves of the Company. In case of inadequacy or absence of profits in any financial year, the Company may declare dividend out of the accumulated profits earned by it in previous years and transferred by the Company to the reserves, such declaration of dividend shall not be made except in accordance with such rules as may be prescribed in this behalf.

In case the Company has incurred loss during the current financial year up to the end of the quarter immediately preceding the date of declaration of interim dividend, such interim dividend shall not be declared at a rate higher than the average dividends declared by the Company during the immediately preceding three financial years.

b) Requirements under Articles of Association:

In addition to the regulatory requirements, the payment of dividends would be as per the

guidelines provided under the section titled "Dividends" in the Articles of Association ('AoA') of the Company.

3. Approval process

The Board of Directors of the Company would take into account the following aspects, including the financial parameters, while deciding on the proposal for dividend:

1. Profitability and key financial metrics;
2. The interim dividend paid, if any;
3. The auditors' qualifications pertaining to the statement of accounts, if any;
4. Whether dividend/coupon payments for non-equity capital instruments have been made;
5. The applicable regulatory requirements.

The decision for declaration of dividend would also be subject to consideration of other relevant internal and external factors, including, for example:

- External factors including state of the domestic and global economy, capital market conditions and dividend policy of competitors and tax implications including applicability and rate of dividend distribution tax;
- Internal factors like shareholder expectations.

The decision regarding dividend shall be taken only by the Board at its meeting and not by a Committee of the Board or by way of a Resolution passed by circulation. Final dividend shall be paid only after approval at an Annual General Meeting (AGM) of the Company. Shareholder approval is not required for payment of interim dividend.

4. Utilisation of retained earnings

The Company would utilise the retained earnings for general corporate purposes, including organic and inorganic growth, investments in subsidiary and/or appropriations/ draw downs as per the regulatory framework. The Board may decide to employ the retained earnings in meeting the Company's future growth plans, other strategic purposes and/or distribution to shareholders, subject to applicable laws.

5. Parameters for various class of shares

Currently, the Company has only one class of equity shareholders. In the absence of any other class of equity shares and/or equity shares with differential voting rights, the entire distributable profit for the purpose of declaration of dividend is considered for the equity shareholders.

6. Circumstances under which the shareholders may or may not expect dividend

The Board of the Company may vary the level of dividend or not recommend any dividend based on the regulatory eligibility criteria for recommendation of dividend, including any regulatory restriction placed on the Company on declaration of dividend. There may also be obligations that the Company could have undertaken under the terms of perpetual

non-cumulative preference shares or debt capital instruments pursuant to applicable laws which might prohibit the Company from declaring dividend in certain circumstances. The Board of the Company may vary the level of dividend or not recommend any dividend based on the capital position of the Company. The Board may recommend lower or no dividends if it is of the view that there is a need to conserve capital. The Board may recommend higher dividends in any form, including special dividend, subject to applicable laws, if the capital and reserves position supports a higher distribution to the shareholders.

7. Review

The dividend policy of the Company would be reviewed annually, or earlier if material changes take place in the applicable laws.

ANNEXURE F

Annual Report on Corporate Social Responsibility (CSR) Activities

1. A brief outline of the Company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs:

Corporate Social Responsibility ('CSR') has been a long-standing commitment at ICICI Group long before it was statutorily mandated under the Companies Act, 2013. Our CSR activities comprise initiatives undertaken by the Company in the areas of education, health care, skill development and rural development as well as those undertaken by ICICI Foundation for Inclusive Growth ('ICICI Foundation') in specific areas, particularly skill development.

ICICI Foundation, founded in 2008, has developed projects in specific areas and has built capabilities for direct project implementation as opposed to extending financial support to other organisations. For the year, ICICI Foundation has undertaken initiatives aimed at promoting sustainable livelihood through vocational skill building and promoting education.

Further, the Company has articulated its CSR philosophy as supporting the cause of education, health care, skill development and rural development and towards this end, we conduct our CSR activities largely by focus on progressive support for our key CSR initiatives.

In the current year, we worked on two key programmes in the areas of education and skill development; Mission Samruddhi and Siddhika. Mission Samruddhi aims at providing financial literacy and basic financial planning to junior personnel in defense and also categories of Government employees serving the nation viz., police personnel, Central Industrial Security Force ('CISF'), Central Reserve Police Force ('CRPF'), etc. Siddhika, on the other hand, aims at providing means to a sustainable livelihood to women through skill development.

The CSR Policy of the Company sets out the framework guiding its CSR activities. It outlines the governance structure, operating framework, monitoring mechanism and nature of CSR activities that would be undertaken by the Company. The CSR Committee of the Board is the governing body that articulates the scope of CSR activities and ensures compliance with the CSR policy.

The revised CSR policy was approved by the Committee on November 24, 2017 and subsequently

hosted on the Company's website. Web-link to the CSR policy:

http://www.icicisecurities.com/CMT/UPLOAD/ARTICLEIMAGES/CSR_Policy.pdf

2. Composition of the CSR Committee:

The CSR Committee of the Company comprises of three Directors including one independent Director who chairs the Committee. The composition of the Committee is set out below:

- Vinod Kumar Dhall (DIN: 02591373), Chairman
- Shilpa Kumar (DIN: 02494667), Managing Director & CEO
- Ajay Saraf (DIN: 00074885), Executive Director

The functions of the Committee include: review of CSR initiatives undertaken by the Company, formulation and recommendation to the Board of CSR Policy indicating the activities to be undertaken by the Company and the amendments thereto and recommendation of the amount of the expenditure to be incurred on such activities, reviewing and recommending the annual CSR plan to the Board, monitoring the CSR activities and implementation of and compliance with the CSR Policy.

3. Particulars of CSR spending by the Company during the year ended March 31, 2018:

Average net profit of the Company for last three financial years

The average net profit of the Company for the last three financial years calculated as specified by the Companies Act, 2013 was ₹ 4,577.2 million.

Prescribed CSR Expenditure: 2% of average net profit of last 3 years, i.e. 2% of ₹ 4,577.2 million = ₹ 91.5 million

4. Details of CSR spending during the financial year 2017-18:

Management Discussion and Analysis

ECONOMIC REVIEW

Global Economic Overview

Advanced economies witnessed a recovery in investment in CY 2017. This coupled with continued strong growth in emerging Asia, the upswing in emerging Europe, and signs of recovery in several commodity exporters led to strong rebound in global trade in CY 2017. Global output in CY 2017 grew by 3.8%, the strongest since CY 2011. Advanced economies clocked 2.3% growth in CY 2017 as compared to 1.7% in CY 2016 attributable to strong pick-up in investment spending. Emerging Market and Developing Economies (EMDE) clocked 4.8% growth in CY 2017 as compared to 4.3% in CY 2016, led by acceleration in private consumption. Argentina, Brazil, Nigeria and the Russian Federation saw cyclical improvements. Growth in net exports and strong private consumption resulted in robust growth rates in China and India respectively.

(Source: IMF World Economic Outlook, April 2018)

According to IMF, strong growth momentum in most economies, favourable market sentiment, accommodative financial conditions and expansionary fiscal policy in the US are expected to result in 3.9% global output growth both in CY 2018 and CY 2019. The expansionary fiscal policy is expected to drive the US economy above full employment. Growth in Emerging Market and Developing Economies (EMDEs) is expected to remain strong led by emerging Asia and Europe and a modest upswing in commodity exporters. India and China are the only two major economies projected to surpass the world's growth rate and clock 7.4% and 6.6% growth respectively in CY 2018.

(Source: IMF World Economic Outlook, April 2018)

Indian Economic Overview

As per the second advanced estimates by the Central Statistics Organisation (CSO), India's GDP for FY 2018

grew by 6.7% as compared to 7.1% in FY 2017. The GDP growth in the first two quarters of FY 2018 was muted as a result of the major developmental reforms and a relatively weak investment cycle. In the first quarter of FY 2018, GDP growth dipped to a 13-quarter low of 5.6%, sharply down from 8.1% in the first quarter of FY 2017 and a sequential dip from 6.1% in the fourth quarter of FY 2017. Introduction of Goods and Services Tax (GST) disrupted business activity briefly but by the third quarter of FY 2018, the environment normalised and GDP growth rate bounced back to 7.1%.

The Union Budget 2019 witnessed the expansion of the fiscal deficit target for FY 2018 and FY 2019 to 3.5% and 3.3% of GDP respectively. The focus of the budget was primarily towards strengthening areas such as agriculture, rural development, health, education, employment, micro, small and medium enterprises (MSME) and infrastructure sectors.

Push towards a more organised economy:

Significant reforms such as demonetisation and GST resulted in a structural push to transitioning of the economy from being unorganised to organised. A significant surge in cashless transactions was witnessed through digital payment modes such as UPI, IMPS, credit card, digital wallets etc. along with ramp-up in Point of Sale (POS) machines.

Continued traction in financial savings: Post demonetisation, there has been a continued shift from savings in physical to financial assets, which was reflected in the strong domestic inflows in markets. The robust domestic investment helped in containing volatility in the Indian markets resulting from foreign institutional selling. Data from AMFI shows that FY 2018 was a record year with respect to domestic investments with ₹ 2.85 trillion worth inflows into equity, balanced, ELSS and non-gold ETF mutual fund schemes. SIP schemes have gained meaningful significance with monthly inflow run rate of close to ₹ 65 billion. Financial savings into shares and debentures form only about 1.2% of GDP (in FY 2017), which connotes that there is huge potential for the formalisation of physical savings. This coupled with increasing prevalence of digitisation, the financial savings space is expected to witness secular growth in the foreseeable future.

Equity Markets: FY 2018 was a year of robust returns for equities especially for mid and small capitalisation stocks. The major stock indices touched an all-time high during the year but were trimmed owing to volatility towards the end of the year. The sentiments were supported by certain key events such as a normal monsoon, victory of the ruling central government alliance in Uttar Pradesh, Gujarat and Himachal Pradesh assembly elections, implementation of GST, Credit rating upgrade for India to Baa2 by Moody and an improvement in India's 'Ease of Doing Business' ranking. The primary market mobilisation was robust with FY 2018 aggregate issuances of ₹ 1.90 trillion which includes Initial Public Offerings (IPO), Infrastructure Investment Trust (InvITs), Qualified Institutional Placements (QIP), Institutional Placement Programme (IPP), Rights issue and Offer for Sale (OFS).

(Source: Prime Database)

Foreign portfolio flows although positive for the year witnessed bouts of volatility while domestic institutional flows were positive throughout the year. Some of the gains in equities were capped due to the risks emerging from the escalation of a possible trade war between US and China towards the end of the year, the rise in bond yields in developed markets and increasing crude oil prices.

INDUSTRY OVERVIEW

Retail Broking

Robust performance of the benchmark indices in the recent years has led to increased popularity among retail investors. Internet and mobile trading are furthering retail participation as these media provide flexibility, convenience, real-time updates and low brokerage fees. Post-2015, there has been a significant revival in retail participation. As of March 31, 2018, there were a total of approximately 14.8 million and 17.1 million demat

accounts at the Central Depository Services (India) Ltd (CDSL) and the National Securities Depository Limited (NSDL), respectively. The number of demat accounts with CDSL and NSDL has increased at a CAGR of 12.2% and 6.2% respectively, from March 31, 2013 to March 31, 2018, reflecting the growing popularity of direct equity investments.

The equity average daily turnover (ADTO) has increased from ₹ 1,684 billion in FY 2013 to ₹ 7,045 billion in FY 2018, representing a CAGR of 33.1%. Equity derivatives account for a major portion of the gross volumes, representing 95.2% of the total equity turnover in FY 2018. Further, the equity ADTO from the equity derivatives segment has grown at a CAGR of 34.0% for the same period, as compared to a CAGR of 21.0% in the cash equities segment, primarily on account of higher index levels, reduced STT on equity futures from 0.02% to 0.01% and an increasing share of high frequency and algorithmic trading, especially dealing in the derivatives market.

Based on average gross traded value, retail participation accounted for 43.8% of the National Stock Exchange (NSE) equity derivatives market in FY 2017 as compared to 36.7% in FY 2013.

Further, despite the high competition, the brokerage industry over the years has consolidated in favour of larger brokers. As a result, the market share of the top five brokers increased from 14% of the trading turnover in the NSE cash equities market in FY 2013 to 20% in FY 2018. The top 25 brokers accounted for 52% of the trading turnover in the NSE cash equities market in FY 2018.

The following table show the market share, by turnover, of brokers in the NSE and BSE cash equities markets for the periods mentioned therein:

	BSE					NSE				
	Top 5	Top 6-10	Top 11-25	Top 26-50	Remaining	Top 5	Top 6-10	Top 11-25	Top 26-50	Remaining

Institutional Broking

The Indian capital markets over the past few years have witnessed net buying by Foreign Institutional Investors (FII) and Domestic Institutional Investors (DII) on a combined basis, accounting for the bulk of investments. These institutional investors facilitate adequate liquidity to both the cash equities and the equity derivatives markets. DIIs investments have seen a major boost led by high investments in mutual funds. The mutual fund industry has witnessed net inflows of approximately ₹ 2.85 trillion in FY 2018. Increased participation by DIIs, provides stability to the capital markets from fluctuations arising from the FII investments.

Distribution of Retail Financial Products

Recent technological advancements and increasing financial awareness have led to growth across financial asset classes, including Mutual Fund AUMs and insurance premiums. Financial product distributors continue to play a pivotal role in increasing the penetration of financial products, especially in the smaller cities and towns, given a low level of financial literacy.

Mutual Funds (Equity) witnessed 56.0% growth in Average Assets under Management (AAUM) in FY 2018 mainly on account of steady increase inflows through Balanced Funds, Systematic Investment Plans (SIP) and Direct Plans. AAUM in Balanced Funds witnessed 136.0% growth in FY 2018 driven by unprecedented inflows. The contribution of Balanced Funds to equity assets (AUM) increased to 17.0% in FY 2018 as compared to 11.3% in FY 2017. AAUM of Direct Plans witnessed 75.0% growth in FY 2018 and its contribution to total equity assets increased to 16.4% in FY 2018 as compared to 14.7% in FY 2017. AAUM in SIP witnessed 58.0% growth in FY 2018. Increase in asset size was further contributed by mark-to-market gains as Nifty50 average levels grew to 10,086 in FY 2018 as compared to average levels of 8,499 during FY 2017 up 19.0%.

Life Insurance space witnessed 17.0% growth in new business premium in FY 2018 at an overall level, led by

an increase in individual premium. The private sector witnessed 22.1% growth in premium whereas LIC (that contributes to 43.7% of the premium) witnessed a 16.4% growth in FY 2018.

Private Wealth Management

The wealth management industry in India (including service offered by only banks and brokers) was approximately 6.0% of GDP in FY 2017 as compared to 60.0-75.0% in established markets. This under-penetration of organised wealth management coupled with improving wealth levels, young affluent investor base and strengthening regulatory environment are expected to drive growth in wealth management. Government initiatives like demonetisation, GST and policies against black money are expected to channel investments into financial assets, further expanding the market opportunity for private wealth management.

India has one of the world's fastest growing High Net-worth Individual (HNI) population, both in terms of the number of individuals and wealth levels. In recent years, there has been significant growth in wealth creation and rise in HNI families with Forbes list adding 19 new billionaires from India. In addition, India continues to outpace global HNI wealth growth, mirroring the economic growth in the country. With the incremental allocation of wealth being higher in financial assets as compared to physical assets, the wealth management industry is emerging as a big beneficiary. FY 2018 witnessed substantially higher interest in most financial asset classes, which is evident in higher flows into equities, IPOs, fixed income and alternative investment opportunities. The clients are becoming increasingly more cognisant of the need for diversification and aligning investments with their goals.

Corporate Finance

The funding requirements of corporates have increased meaningfully, driven by improvement in economic growth and revival in private sector investments. This has led to a marked step up in fundraising especially by mid-sized firms through the equity capital markets. During FY 2018, the capital markets saw robust activity with an increase in the number of IPOs for primary fundraising, QIPs, open offers and buy-back by corporates and divestment of PSU shares through OFS. Riding the positive market sentiment, significant fundraising was witnessed in FY 2018 through IPOs and QIPs:

- 47 IPOs (including InvITs) raised an aggregate of ₹ 888.36 billion as compared to 25 IPOs aggregating to ₹ 282.25 billion in the previous year, representing a growth of 214.7%
- 53 QIPs/PPs raised an aggregate of ₹ 621.92 billion as compared to 22 QIPs/PPs aggregating to ₹ 136.71 billion the previous year, representing a growth of 354.9% (Source: Prime Database)

During FY 2018, USD 20.1 billion was raised in private equity deals as compared to USD 15.3 billion raised in FY 2017. Information Technology (IT) & Information Technology-enabled services (ITes), Consumer and Retail, Banking, Financial Services, Logistics, Healthcare, Infrastructure and Manufacturing were the dominant sectors by deal value in FY 2018. (Source: Venture Intelligence)

India's M&A activity in CY 2017 reached the second highest annual deal value since CY 2001, with 379 deals announced worth USD 54.7 billion. This is slightly lesser than the record high in CY 2016, which saw 421 deals valued at USD 59.7 billion, and was the second year on the record with an annual deal value over USD 50 billion (Source: Merger Market).

BUSINESS PERFORMANCE

Company Overview

ICICI Securities Limited (the Company/ICICI Securities) is a leading technology-based securities firm in India operating across capital market segments including retail and institutional broking, financial product distribution, private wealth management and investment banking. The Company has consistently been the largest equity broker in the country since FY 2014 in terms of brokerage revenue and active customers in equities on the NSE. The Company is driven by the philosophy of 'Creating Informed Access to the Wealth of the Nation' for corporates, financial institutions, High Net Worth Individuals and retail

investors. The Company assists its customers in meeting their financial goals by providing them with research, advisory and execution services. Headquartered in Mumbai, the Company operates out of 75 cities in India and wholly-owned subsidiary in US and its branch in Singapore.

Business Performance

The Company continued to expand its client base across various business segments. On the retail front, the Broking business has continued to strengthen its customer franchise, innovate its offering for deeper customer engagement and increase transactions. Counter-cyclical businesses like Wealth Management and Distribution have helped in maintaining the business performance despite the volatility in the equity markets. The Corporate Finance business continued to build a deal pipeline of diverse products. The Institutional Broking segment saw a robust jump in revenues driven by improvement in rankings across DII & FII. Increased corporate access through various conference and events, helped the Company improve performance across primary and secondary markets.

Retail Broking

The Company's brokerage and distribution business is anchored by its retail customers, to whom it offers products and services through the electronic brokerage platform and various distribution channels. To use the platform for brokerage services, the Company requires its customers to use a "3-in-1 account". Through a single login step, the 3-in-1 account links the customers' savings bank and demat accounts held with ICICI Bank to the electronic brokerage platform, which allows them to seamlessly trade without having to deposit money in the brokerage account. In addition, this allows the Company to efficiently and swiftly transfer funds into the customer's account as soon as it is made available in the case of sell orders. This seamless and interoperable feature of its electronic brokerage platform provides clients with greater flexibility in the use of their money.

The brokerage business primarily consists of retail brokerage services that it offers to retail customers for trading equities, equity derivatives, currency derivatives, ETFs and overseas securities. The Company earns brokerage fees based on the volume and size of transactions its customers enter into. The primary brokerage products offered to customers for trading are:

- Equities: Stocks listed on the NSE and the BSE. The Company also offers margin financing to customers who desire higher leverage and Systematic Equity Plan (SEPs), which allow customers to purchase a fixed value or a fixed quantity of equities at regular intervals.

- Equity Derivatives: Futures and options related to stocks/index.
- Currency Derivatives: Futures contracts in USD/INR, EUR/INR, GBP/INR and JPY/INR.
- Exchange Traded Funds: Over 90 ETFs from various asset management companies.
- Overseas Securities: Stocks from over 40 stocks exchanges in over 25 countries outside India pursuant to a partnership with a leading global online broker.

The Company outperformed the overall market in FY 2018 witnessing robust growth in its overall volumes, market share and client activation. In FY 2018, the Company's overall ADTO increased by 99.0% as compared to FY 2017. The volume for the entire market during the same period grew approximately 72%. The Company thus gained market share, which went from 7.8% in FY 2017 to 9.0% in FY 2018. Client activation witnessed 29% increase in FY 2018 as compared to FY 2017. The Company continued to expand its client base across various customer segments and geographies, both domestic and international, touching a milestone of 4.0 million operational accounts in FY 2018 - the highest amongst retail brokers. Healthy participation was also witnessed in IPO procurement from retail investors.

In FY 2018, the Company launched some new and innovative client-centric products and services such as Multi Price order, Price Improvement order in Derivatives, Bullet in Margin Plus, Margin Trading Facility, real-time display of Long-term capital gains, ICICIdirect Investor Sentiment.

The Company's retail research team with over 250 companies coverage is spread across various sectors. A strong mutual fund, technical and derivatives desk delivers quality research to over 4 million customers of ICICIdirect.com. In addition to the quarterly earnings reports and regular event updates, the team publishes various sector reports, thematic reports, model portfolios, IPO recommendations, mutual fund advice and technical and derivative picks.

The revenue from our retail brokerage business increased by 31% from ₹ 7,016.0 million in FY 2017 to ₹ 9,174.1 million in FY 2018.

Institutional Broking

The year saw an increase in traction with clients across geographies. Dedicated sales teams across India, Asia Pacific and the US resulted in higher broking income. In FY 2018, the institutional sales team also successfully marketed and placed IPOs and other equity offerings (QIPs & Rights).

The institutional research team increased its coverage to over 250 companies, spread across diversified sectors and large and mid-cap stocks. The research team is dedicated to servicing clients around the world through its differentiated approach. The team publishes a variety of sector thematic reports as well.

During FY 2018, the Company hosted several conferences and delegations to provide its clients with an opportunity to interact with policymakers and corporate leaders. The 16th India Unlimited conference held during FY 2018 attracted over 23 corporates as well as speakers/sector experts with the participation of several funds resulting in numerous investor meetings. The revenue from our institutional brokerage business increased by 44% from ₹ 739.8 million in FY 2017 to ₹ 1,068.8 million in FY 2018.

Distribution of Retail Financial Products

The Company's distribution business primarily consists of the distribution of financial products and services offered by third parties to its customers. These products include mutual funds, insurance products, portfolio management schemes, alternative investment funds, fixed deposits, loans, tax services and pension products. The Company earns commissions from third parties for the distribution of their products, which may be in the form of recurring commissions for longer-term products.

ICICI Securities has one of the largest pan-India distribution network of around 200 ICICIdirect offices, across 75 cities, ~5400+ sub-brokers, authorised persons, Independent Financial Associates (IFAs), and Independent Associates (IAs). In FY 2018, the Company continued its growth with a focus on increasing the number of clients and their AUM. It further consolidated its position among

the leading mutual fund distributors. Apart from mutual funds, the Company also continued to be among the leading players in other distribution products. It was amongst the top mobilisers for Sovereign Gold bonds and Bharat 22 ETF. Being one of the largest players in the National Pension System (NPS), it also serves a large number of corporate clients who contribute into NPS for their employees. It was amongst the largest mobilisers of corporate fixed deposits and bonds. In the life insurance space, it continued its focus on improving persistency.

The distribution revenue witnessed 33.7% growth in FY 2018 over the previous year with 43.8% growth in MF average AUM, 71.8% increase in mutual fund revenue, 70.2% increase in the number of SIPs and 7.7% growth in life insurance premium.

Private Wealth Management

In FY 2018, ICICI Securities continued to strengthen its Private Wealth Management business. The Company maintained its focus on core competence in financial assets distribution and strived to ensure business diversification through multiple products and diverse revenue streams. It capitalised on its unique proposition of innovative products along with a robust execution and advisory platform which offers best-in-class financial solutions to its clients. Besides leveraging its brokerage platform, the Company also offers other products and services like AIFs (Alternative Investment Fund), Portfolio Management Services, investment banking etc. to its private wealth clients.

Corporate Finance

ICICI Securities' investment banking business consists of equity capital markets services and financial advisory services that cater to corporate clients, the government and financial sponsors. The Company is familiar with its clients' business models and the financial solutions are tailored to meet their needs at different stages of development.

The Company assisted several companies in their fundraising exercises through IPOs during the year. The Company was ranked third in the number of IPOs launched in FY 2018, with 12 IPOs/InvIT and achieved a market share of 33.6% (in terms of issue size). (Source: Prime Database)

ICICI Securities was ranked third by the number of QIPs in FY 2018 (no. of deals: 8) as compared to fifth rank in FY 2017 (no. of deals: 2). (Source: Prime Database)

The cumulative amount raised through equity public issuances managed by the Company during FY 2018 was to the tune of ₹ 298.56 billion, which included the IPOs by Housing and Urban Development Corporation Limited, AU Small Finance Bank Limited, Security & Intelligence Service (India) Limited, Matrimony.com Limited, ICICI Lombard General Insurance, SBI Life Insurance Co. Limited, Newgen Software Technologies Limited, Galaxy Surfactants Limited, Aster DM Healthcare Limited, Sandhar Technologies Limited, and IRB InvIT Fund.

OPPORTUNITIES AND BUSINESS OUTLOOK

Our businesses are expected to benefit from the structural shift in the financial savings environment as well as improving technology infrastructure of India. Some of the broad macro trends which underline the opportunities facing our businesses are:

- India is expected to be a high growth economy in the medium to longer term which coupled with an expectation of recovery in economic growth at global level augurs well for the capital markets in India.

- India has been and is expected to continue to be a high savings economy. The young working population is expected to increasingly channelise a higher share of a growing pie of their savings into financial assets. Increasingly the preference of retail investors to participate in equity as an asset class coupled with the relative under penetration in terms of both market capitalisation to GDP ratio or ratio of investments in shares and debentures to GDP signify a positive outlook for equity-based businesses in India.
- Increase in overall economic activity, scaling up of domestic corporate institutions and professionalisation of promoter driven set-up would continue to fuel demand for capital raising and advisory services.
- Advances in technology, increasing smartphone penetration and increasing digitisation at systemic level are expected to propel more retail consumers to adopt and consume financial services through electronic media.

Our businesses being primarily driven by need for financial products and services of our retail and institutional clients expect to benefit from the emerging macro trends.

- Our retail broking, distribution and wealth management businesses are expected to benefit from rising income levels of our target customer segment, being young working class and self-employed professionals and entrepreneurs and increasing financialisation and equitisation of savings. Increasingly cities beyond the top 15 cities are also witnessing strong demand for financial products like mutual fund as awareness and access improves leading to expansion of distribution footprint. Our strong digital platform, knowledge-based services and brand would continue to attract customers. Our strategy of acquisition, activation and retention of customers will help us leverage our large customer franchise as well as customer acquisition machinery.
- Our institutional broking business would benefit from expected inflows from foreign institutional investors as well as increasing flows into domestic institutional investors pre-dominantly mutual fund, insurance etc. Our research, corporate access and deep-rooted relationships with institutional investors particularly DIs will help us expand our institutional broking businesses.
- Our Corporate Finance business is expected to benefit from enhanced interest by corporates to raise capital through the capital markets route. There has been an active interest of BFSI and Consumer Goods in various sectors to list the securities through a public issue in next few years in order to meet the capital requirements. Our sector expertise, corporate relationships, strong distribution franchise and ability to navigate across varied stakeholders will help us benefit from increase in capital market transactions. and in growing our advisory business.

Brokerage Income

Our brokerage income increased from ₹ 7,755.9 million for the year ended March 31, 2017 to ₹ 10,243.0 million for the year ended March 31, 2018, an increase of 32.1%. This increase was primarily due to an increase in our average daily turnover. Our average daily turnover increased by 98.7% primarily driven by a disproportionate increase in derivative volumes, which typically have lower yields. This increase was partially offset by a decrease in yields, primarily in derivatives.

Income from services

Income from services increased from ₹ 4,981.9 million for the year ended March 31, 2017 to ₹ 6,548.3 million for the year ended March 31, 2018, an increase of 31.4%. This increase was primarily due to an increase in commissions from the distribution of third-party mutual funds from ₹ 1,657.4 million to ₹ 2,847.1 million, an increase of 71.8%, in the same period, and an increase in fee income from advisory services in the same period. The increase in fee income from advisory services was primarily due to an increase in high value transactions managed during the same period.

Interest and other operating income

Interest and other operating income increased from ₹ 1,090.6 million for the year ended March 31, 2017 to ₹ 1,582.9 million in the year ended March 31, 2018, an increase of 45.1%. This increase was primarily due to an increase in interest earned on bank fixed deposits held with exchanges as margin for our brokerage business, interest earned on margin funding and interest earned on trade receivables in the same period. The increase in the margin needed by exchanges was primarily due to an increase in our average daily turnover in the same period.

Profit/(loss) on sale of securities (net)

Profit/(loss) on sale of securities (net) increased from ₹ 213.9 million for the year ended March 31, 2017 to ₹ 219.1 million for the year ended March 31, 2018, a marginal increase of 2.4%.

Employee benefits expenses

Employee benefits expenses increased from ₹ 4,846.6 million for the year ended March 31, 2017 to ₹ 5,453.2 million for the year ended March 31, 2018, an increase of 12.5%. This was primarily due to annual increment and a 9.4% growth in number of employees which led to increase in salaries, wages and bonuses and contribution to provident and other funds.

Operating expenses

Operating expenses increased from ₹ 1,287.5 million for the year ended March 31, 2017 to ₹ 1,683.3 million for the

year ended March 31, 2018, an increase of 30.7%. This increase was primarily due to an increase in brokerage and commissions paid to sub-brokers, authorised persons, IFAs and IAs, and custodian and depository charges in the same period, reflecting the increased business volumes.

Finance costs

Finance costs increased from ₹ 289.4 million for the year ended March 31, 2017 to ₹ 494.9 million for the year ended March 31, 2018, an increase of 71.0%. This increase was primarily due to an increase in short-term borrowings and hence, the interest expense thereon. This increase in short-term borrowings was primarily to fund the increase in trade receivables and short-term loans and advances outstanding during the same period and to fund the increase in the margin needed by exchanges, which was primarily due to an increase in our average daily turnover in the same period.

Depreciation and amortisation expense

Depreciation and amortisation expense decreased from ₹ 154.8 million for the year ended March 31, 2017 to ₹ 153.0 million for the year ended March 31, 2018, a decrease of 1.2%.

Other expenses

Other expenses increased from ₹ 2,243.6 million for the year ended March 31, 2017 to ₹ 2,260.2 million for the year ended March 31, 2018, an increase of 0.7%. This increase was primarily due to an increase in corporate social responsibility expenses, royalty for use of the "ICICI" brand, recruitment expenses, travelling and conveyance expenses partly offset by a decrease in rent and amenities and rates and taxes in the same period.

Profit

As a result of the above, profit before tax increased from ₹ 5,220.4 million for the year ended March 31, 2017 to ₹ 8,548.7 million for the year ended March 31, 2018, an increase of 63.8%.

Our total tax expense increased from ₹ 1,834.5 million for the year ended March 31, 2017 to ₹ 2,971.4 million for the year ended March 31, 2018, an increase of 62.0%. This was primarily due an increase in profit before tax.

Profit after tax increased from ₹ 3,385.9 million for the year ended March 31, 2017 to ₹ 5,577.3 million for the year ended March 31, 2018, an increase of 64.7%.

b. Segment-wise performance

(₹ in million)

Segments	For the year ended March 31,			
	2018		2017	
	Segment Revenue	Segment Results	Segment Revenue	Segment Results
Broking and commission	16,874.8	7,754.8	12,570.3	4,723.6
Advisory services	1,429.8	673.5	1,194.8	361.4
Investment and trading	288.7	120.4	277.2	135.4
Total	18,593.3	8,548.7	14,042.3	5,220.4

Revenue from our broking and commission segment increased from ₹ 12,570.3 million for the year ended March 31, 2017 to ₹ 16,874.8 million for the year ended March 31, 2018, an increase of 34.2%. This increase was primarily due to an increase in brokerage revenue as described above and an increase in commissions from the distribution of third-party mutual funds in the same period. During the same time period, our revenues across broking and commission segments increased by 64.2%, primarily due to the increase in revenue, a decrease in other expenses in this segment and partially offset by a slight increase in operating expenses in this segment.

Revenue from our advisory services segment increased from ₹ 1,194.8 million for the year ended March 31, 2017 to ₹ 1,429.8 million for the year ended March 31, 2018, an increase of 19.7%. The increase was primarily due to an increase in high value transactions managed during the same period. During the same time period, our results from the advisory services segment increased by 86.35%, primarily due to the increase in revenue and expenses in this segment remaining relatively stable.

Revenue from our investment and trading segment increased from ₹ 277.2 million for the year ended March 31, 2017 to ₹ 288.7 million for the year ended March 31, 2018, an increase of 4.2%. This increase was primarily due to an increase in profit from the sale of securities on our own account in the same period. During the same time period, our results from the investment and trading segment decreased by 11.1% due to an increase in interest expense and staff cost in this segment.

c. Financial Position

The following table sets forth, at the dates indicated, our summary balance sheet.

Other current assets	1,389.1	733.7
Current assets	26,155.5	17,328.1
Total assets	28,801.7	20,474.4

Total assets increased from ₹ 20,474.4 million as at March 31, 2017 to ₹ 28,801.7 million as at March 31, 2018, an increase of 40.7%. This increase was primarily due to an increase in short-term loans, other current assets and advances and cash and bank balances, partially offset by a decrease in trade receivables. Furthermore, the increase in short-term loans and advances was due to the launch of our margin trade facility in August 2017, which

resulted in a corresponding reduction in trade receivables as customers who were previously on extended credit migrated to the new margin trade facility.

Total liabilities increased from ₹ 15,578.6 million as at March 31, 2017 to ₹ 20,459.9 million as at March 31, 2018 an increase of 31.3%. This increase was primarily due to an increase in short-term borrowings and trade payables. This increase in short-term borrowings was primarily due to an increase in commercial paper borrowings to fund customers for margin trades and to fund bank fixed deposits held with exchanges as margin. The increase in trade payables was due to open trade positions of customers at the period end.

d. Cash Flows

Particulars	For the year ended March 31	
	2018	2017
Net cash generated from/ (used in) operating activities	711.5	1,653.2
Net cash generated from/(used in) investing activities	(210.6)	(169.6)
Net cash generated from/ (used in) financing activities	63.5	(541.4)

Cash generated from operating activities

Net cash generated from/(used in) operating activities changed from ₹ 1,653.2 million for the year ended March 31, 2017 to ₹ 711.5 million for the year ended March 31, 2018. This change was primarily due to increase in current assets, mainly in short-term loans and advances, during the year ended March 31, 2018 as compared to the year ended March 31, 2017. This was partially offset by a higher increase in trade payables as well as higher operating profits after tax for the year ended March 31, 2018 as compared to year ended March 31, 2017. The higher increase in short-term loan and advances during the year ended March 31, 2018 was due to the launch of margin trade facility in August 2017 to provide funding to our customers.

Cash generated from investing activities

Net cash generated from/(used in) investing activities changed from ₹ (169.6) million for the year ended March 31, 2017 to ₹ (210.6) million for the year ended March 31, 2018. This change was primarily due to an increase in purchase of fixed assets in the same period.

Cash generated from financing activities

Net cash generated from/(used in) financing activities increased from ₹ (541.4) million during the year ended March 31, 2017 to ₹ 63.5 million during the year ended

March 31, 2018, an increase of 111.7%. This increase was primarily due to an increase in borrowings partially offset by a higher dividend pay-out in the year ended March 31, 2018, as compared to the prior year.

Contingent Liabilities

As at March 31, 2018, we have ₹ 1,202.4 million in statutory tax demands in dispute which are not provided for.

Borrowings

As at March 31, 2018, we have short-term borrowings of ₹ 6,725.1 million and total equity of ₹ 8,341.8 million.

Our short-term borrowings primarily consist of commercial papers and have received a domestic rating of A1+ by CRISIL and ICRA.

We have received a domestic rating of AAA for long-term debt from CRISIL and ICRA which primarily consist of non-convertible debentures.

Subsidiary Performance

Overview

The Company has a 100% owned subsidiary ICICI Securities Holdings, Inc. and a step down subsidiary ICICI Securities, Inc. ICICI Securities Holding, Inc. is the holding company of our indirect subsidiary ICICI Securities, Inc., which through its offices in US and Singapore, is engaged in referring foreign institutional clients to us for transactions on the Indian stock exchanges.

Financial performance

The revenues of ICICI Securities, Inc. on standalone basis grew by 54% increasing from ₹ 161.0 million in FY 2017 to ₹ 253.0 million in FY 2018 and the standalone PAT increased from ₹ 10.2 million in FY 2017 to ₹ 43.6 million in FY 2018. This increase in PAT was primarily due to an increase in the brokerage and commission income and other income from client introduction, servicing and advisory; offset, in part, by an increase in operating expenses and staff cost. The total assets increased from ₹ 208.1 million at March 31, 2017 to ₹ 300.7 million at March 31, 2018 primarily due to increase in current assets which in turn was due to an increase in trade receivables.

Transition from Indian GAAP to Ind AS

The Financial Statements and other financial information for FY 2018 are based on our standalone and consolidated financial statements prepared in accordance with the Indian GAAP. The Institute of Chartered Accountants of India has issued Ind AS (a revised set of accounting standards) which largely converges Indian accounting standards with International Financial Reporting Standards. The Ministry of Corporate Affairs, which is the law making authority for adoption of accounting standards in India, has notified these Ind AS for adoption. Further, the Ministry has also issued a roadmap for transition to Ind AS by Indian companies in a phased manner

starting from April 1, 2016. For banking companies and non-banking finance companies, the implementation date for Ind AS was April 1, 2018. Subsequently, RBI, vide its Press Release dated April 5, 2018, deferred the implementation of Ind AS by banking companies by one year i.e. to start on April 1, 2019. However, our Company, though being a subsidiary of ICICI Bank, will be required to prepare its financial statements under Ind AS from April 1, 2018 onwards.

Certain principal differences between Indian GAAP and Ind AS that may have a material effect on our financial statements are summarised below. This summary should not be taken as an exhaustive list of all the differences between Indian GAAP and Ind AS. Our management has not quantified all of the effects of the differences discussed below.

Principal differences between Indian GAAP and Ind AS that may have a material effect on our financial statements

Under Indian GAAP, investments that are acquired with the intention of holding them for not more than one year from the date on which such investments are made, are classified as current investments and are reported as stock-in-trade. Investments acquired with the intention of holding for more than one year from the date on which such investments are made are classified as long-term investments. The securities held as stock-in-trade is carried at cost or market value, determined on an individual investment basis, whichever is lower. Accordingly, only mark-to-market losses on securities held as stock-in-trade is recognised in the profit and loss account while gains are ignored. Long-term investments are carried at acquisition cost after providing for diminution in value, if such diminution is other than of a temporary nature. As per Ind AS, all financial assets will have to be classified at 'amortised cost', 'fair value through other comprehensive income' or 'fair value through profit and loss'. These classifications would be based on the business model test and the contractual cash flow test. All unrealised gains or losses for financial assets classified at fair value through other comprehensive income would be accounted for in the other comprehensive income and on assets at fair value through the profit and loss in the profit and loss account. Financial assets classified as at amortised cost will be carried at amortised cost.

Under Indian GAAP, provisions are made for specific receivables based on circumstances such as credit default of customer or disputes with customers. Ind AS requires entities to recognise and measure a credit loss allowance or provision based on an expected credit loss model. The expected credit loss model would apply to loans and debt securities measured at amortised cost or at fair value through other comprehensive income.

Under Indian GAAP, lease payments under an operating lease are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term unless another systematic basis is more representative of the time pattern of the users benefit. Under Ind AS, lease payments under an operating lease are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term unless (a) another systematic basis is more representative of the time pattern of the user's benefit; or (b) the payments to the lessor are structured to increase in line with expected general inflation for cost increases. Further, Ind AS prescribes the accounting treatment for incentives received under the operating leases such as a rent-free lease term. Accordingly, the benefit of such a rent-free lease term will be amortised over the lease term in accordance with the guidance given in Ind AS.

Under Indian GAAP, transaction fees and costs associated with the origination of financial instruments are accounted for upfront. Under Ind AS, qualifying transaction fees and costs associated with origination of financial instrument will be amortised over the period of the financial instrument as an adjustment to the yield.

Under Indian GAAP, all actuarial gains/losses related to employee retirement benefit are recognised in the year in which they arise through suitable credit/debit in the profit and loss account of the year. Under Ind AS, actuarial gains/losses are accounted for in Other Comprehensive Income as a part of other equity.

Indian GAAP permits the use of either the intrinsic value or fair value method to account for its employees' stock-based compensation plans. Under the intrinsic value method, compensation cost is measured by the excess, if any, of the fair market price of the underlying stock on the date of grant of options over the exercise price on the grant date. The fair value method is based on the fair value of the option at the date of grant. The fair value is estimated using an option-pricing model (for example, the Black-Scholes or Binomial model). Ind AS requires all share-based payments to employees, including grants of employee stock options, to be recognised in the income statement based on their grant date fair values. Further, Ind AS provides the guidelines for the accounting for share-based payment transactions among group entities in each entity's separate or individual financial statements (for example, employees of a subsidiary are granted rights to equity instruments of its parent as consideration for the services provided to the subsidiary). However, there is no specific guideline for the accounting for share-based payment transactions among group entities under Indian GAAP.

Under Indian GAAP, deferred tax assets and liabilities are recognised by considering the impact of timing differences (income approach) between the taxable

income and accounting income for the current year and carry-forward losses as compared to Ind AS, where deferred tax assets and liabilities are recognised in respect of the temporary differences (balance sheet approach) between the carrying amount of assets and liabilities for financial reporting purpose and amount used for taxation purposes.

RISKS AND CONCERNS

As the Company's performance is dependent on capital market, it faces the risk of downturn in the economic growth and/or worsening macro-economic environment. Rising crude oil prices, depreciating currency, worsening current account deficit, and a slowdown in foreign investment inflows pose risks to the Company. Rising inflation, a bad monsoon, slowdown in corporate earnings, rising NPAs also pose significant risks. Other challenges which may drive away the Domestic Institutional Investors (DII) include rising real estate and gold prices, which may provide other attractive investment options.

Global events may also pose challenges to the growth of the Company as it directly impacts foreign inflows and indirectly will have a bearing on the Indian economy. Risks from geo-political tensions, global financial market volatility led by rise in interest rates and the threat of trade protectionism all pose significant risks to the operations of the Company.

The Company faces significant competition from companies seeking to attract its customers'/clients' financial assets. In particular, it competes with other Indian and foreign brokerage houses, discount brokerage companies, investment banks, public and private sector commercial banks and asset managers, among others, operating in the markets in which it is present. The Company competes on the basis of a number of factors, including execution, depth of product and service offerings, innovation, reputation, price and convenience.

The Company also faces threats from the tightening and the ever-evolving regulatory framework and any unfavourable policy changes like introduction of long term capital gains tax. Internal threat to the Company arises from failure of compliance or overlooking of any misrepresentations / fraud in the operations of the Company.

RISK MANAGEMENT

The Company has established a comprehensive system for risk management and internal controls for all its businesses to manage the risks that it is exposed to. The objective of its risk management framework is to ensure that various risks are identified, measured and mitigated and also that policies, procedures and standards are established to address these risks and ensure a systematic response in the case of crystallisation of such risks.

The Company has classified the key risks associated with its business into market risk, credit risk, liquidity

risk, operational risk and information technology risk. It has established various policies with respect to such risks which set forth limits, mitigation strategies and internal controls to be implemented by the three lines of defence approach provided below. These policies include a corporate risk and investment policy, a liquidity risk management policy, an operational risk management policy, an outsourcing policy, a fraud risk management policy, an information technology risk management policy, an information security management policy and a surveillance policy.

ICICI Securities is particularly sensitive to risks emanating from the introduction of new products and services. Before a launch of any new product or service, it is reviewed and approved by the corporate risk management, compliance & operations groups and product & process approval committee that has been set up earlier. These groups and committee review the product/service through the lenses of regulatory compliance, risk management and integration with the existing risk management systems.

The Board oversees the Company's risk management and has constituted a Risk Management Committee ("RMC"), which frames and reviews risk management processes and controls.

The risk management system features a "three lines of defence" approach:

1. The first line of defence comprises its operational departments, which assume primary responsibility for their own risks and operate within the limits stipulated in various policies approved by the Board or by committees constituted by the Board.
2. The second line of defence comprises specialised departments such as risk management and compliance. They employ specialised methods to identify and assess risks faced by the operational departments and provide them with specialised risk management tools and methods, facilitate and monitor the implementation of effective risk management practices, develop monitoring tools for risk management, internal control and compliance, report risk related information and promote the adoption of appropriate risk prevention measures.
3. The third line of defence comprises the internal audit department and external audit functions. They monitor and conduct periodic evaluations of the risk management, internal control and compliance activities to ensure the adequacy of risk controls and appropriate risk governance, and provide the Board with comprehensive feedback.

INTERNAL CONTROL SYSTEMS

The internal control system of the Company is designed to suit the complexity of its business operations. Based on the criteria of essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls, the Company has established and maintained

internal financial controls. This enhances the reliability of financial reporting and robustness of preparation of financial statements. Internal control systems are driven through various policies, procedures and certifications. An internal committee periodically reviews the processes and controls. Any deviations observed in the process of evaluation are highlighted to the Board which initiates prompt corrective measures. Internal control system ensures strict adherence to all applicable statutes and regulations governing the business operations.

The internal financial controls with reference to financial statements as designed and implemented by the Company are adequate. The internal financial control procedure adopted by the Company is adequate for safeguarding its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information. Further, the statutory auditors have verified the systems and processes and confirmed that the internal financial controls over financial reporting are adequate and such controls are operating effectively.

HUMAN RESOURCES

Intellectual capital is one of the key resources of the Company to ensure business sustainability and growth. The Company has an experienced and talented pool of employees who play a key role in enhancing business efficiency, devising strategies, setting-up systems and evolving business as per industry requirements. The Company provides regular skill and personnel development training to enhance employee productivity.

Being a growth-oriented and progressive organisation, it recognises the importance of professionalism. The Company has embarked on several human resource initiatives to enhance the productivity of the organisation and each individual. The Company endeavours to provide a safe, conducive and productive work environment.

The number of permanent employees on the rolls of the Company as on March 31, 2018 was 4,180.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Corporate Social Responsibility ('CSR') has been a long-standing commitment at ICICI Group long before it was statutorily mandated under the Companies Act, 2013. Our CSR activities comprise initiatives undertaken in the areas of education, health care, skill development and rural development as well as those undertaken by ICICI Foundation for Inclusive Growth ('ICICI Foundation') in specific areas, particularly skill development.

ICICI Foundation, founded in 2008, has developed projects in specific areas and has built capabilities for direct project implementation as opposed to extending financial support to other organizations. For the year, ICICI Foundation has undertaken initiatives aimed at promoting sustainable livelihood through vocational skill building and promoting education.

Further, the Company has articulated its CSR philosophy as supporting the cause of education, healthcare, skill development and rural development.

In today's age, one of the most important life skills is attaining financial knowledge. Taking this into cognizance, we worked on two key programmes in the current year in the areas of education and skill development; Mission Samruddhi and Siddhika. Mission Samruddhi aims at providing importance of financial literacy and basic financial planning to junior personnel in defense and other allied uniform services. Siddhika, aims at providing means to a sustainable livelihood to women through skill development and financial entrepreneurship.

Under Mission Samruddhi, ICICI Securities endeavours to inculcate financial savings habit amongst junior level personnel from the uniformed forces, where we conduct sessions to educate them about various aspects of savings and investments. Helping them in understanding basic of personal finance and planning is the first step toward their financial security. In a year's time, ICICI Securities has reached out to close to 10,000 personnel from various uniformed forces at their bases across the country.

As part of the pilot for Siddhika, the Company has trained 114 women in Uttar Pradesh and Andhra Pradesh, of which, 14 have passed the NISM exam. This is the first step to become Independent Financial Associates. This enabled them an opportunity to have a sustainable livelihood through skill development and financial entrepreneurship.

ICICI Securities also supported the cause of eradicating avoidable blindness from the socio economically underprivileged sections of the society. We partnered with Vision Foundation of India, a non-profit non-government charitable organisation registered under Bombay Public Trust, 1950, for their initiative, Rashtriya Netra Yagna. 500 individuals ailing with eye diseases have been surgically benefited.

CAUTIONARY STATEMENTS

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions.

The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

Independent Auditor's Report

To the Members of
ICICI Securities Limited

Report on the audit of the standalone financial statements

We have audited the accompanying standalone financial statements of ICICI Securities Limited (the "Company"), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and summary of the significant accounting policies and other explanatory information.

Management's responsibility for the standalone financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (the "Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which

are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information

required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2018, and its profits and its cash flows for the year ended on that date.

Other matter

The comparative financial information of the Company for the year ended 31 March 2017 prepared in accordance with Accounting Standards as included in these standalone financial statements have been audited by the predecessor auditor who had audited the standalone financial statements for the year ended 31 March 2017. The report of the predecessor auditor on the comparative financial information dated 20 April 2017 expressed an unmodified opinion. Our opinion is not modified in respect of this matter.

Report on other legal and regulatory requirements

As required by the Companies (Auditor's Report) Order, 2016 (the "Order") issued by the Central Government in terms of section 143(11) of the Act, we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

As required by Section 143 (3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards prescribed under Section 133 of the Act;
- e) On the basis of the written representations received from the directors as on 31 March 2018 taken

on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164 (2) of the Act;

- f) With respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"; and
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 33 to the standalone financial statements;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and
 - iv. the disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. However, amounts as appearing in the audited standalone financial statements for the year ended 31 March 2017 have been disclosed.

Annexure - B to the Independent Auditor's Report of even date on the standalone financial statements of ICICI Securities Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of ICICI Securities Limited (the "Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's responsibility for internal financial controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their

operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial

reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as

at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes

to standalone financial statements for the year ended March 31, 2018

1 Corporate Information

ICICI Securities Limited ("the Company"), incorporated in 1995, is a public Company engaged in the business of broking (institutional and retail), merchant banking and advisory services.

During the year ended March 31, 2018, the Company completed the Initial Public Offering (IPO) through an Offer for Sale of 66,925,305 equity shares of ₹ 5/- each at a price of ₹ 520 per equity share by ICICI Bank Limited, the Holding Company, aggregating up to ₹ 34,801.2 million. The equity shares of the Company were listed on the National Stock Exchange of India Limited and BSE Limited on April 4, 2018.

2 Significant Accounting Policies

a) Basis of preparation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India ("Indian GAAP"). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies has been consistently applied by the Company except where otherwise stated are considered with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of the services and the time between the provision of services and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

b) Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in India requires management to make judgements, estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as of the date of the financial statements and the reported income, expenses and results during the reporting

period. The estimates used in the preparation of the financial statements are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

c) Revenue recognition

- i) Brokerage income in relation to stock broking activity is recognised on a trade date basis.
- ii) Revenue from issue management, debt syndication, financial advisory services etc., is recognised based on the stage of completion of assignments and terms of agreement with the client.
- iii) Commission income in relation to public issues/other securities is recognised based on mobilisation and intimation received from clients/intermediaries.
- iv) Gains/losses on dealing in securities are recognised on a trade date basis.
- v) Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.
- vi) Revenue from dividends is recognised when the right to receive the dividend is established.
- vii) Training fee income from financial educational programs is recognised on an accrual basis.

d) Investments

Investments are classified into long term investments and current investments. Investments which are intended to be held for more than one year are classified as long term investments and investments which are intended to be held for less than one year are classified as current investments. Long term investments are accounted at cost and any decline in the carrying value other than temporary in nature is provided for in the statement of profit and loss. Current investments are valued at cost arrived at on first in first out ('FIFO') basis and fair value, determined on an individual investment basis, whichever is lower.

On disposal of an investment, the difference between its carrying amount and net disposal

Notes

to standalone financial statements for the year ended March 31, 2018 (contd.)

proceeds is charged or credited to the statement of profit and loss.

e) Stock-in-trade

Securities acquired with the intention to trade are classified as stock-in-trade. The securities held as stock-in-trade are carried at cost arrived at on first in first out ('FIFO') basis and fair value, determined on an individual investment basis, whichever is lower. The profit or loss on sale of securities is recognised on a trade date basis in the Statement of Profit and Loss.

f) Fixed assets

(i) Property, Plant and Equipment (PPE)/ Depreciation

PPE are carried at cost less accumulated depreciation. Cost comprises purchase price, borrowing cost if capitalisation criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use.

Losses arising from the retirement of, and gains or losses arising from disposal of PPE are recognised in the statement of profit and loss.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by management/limits specified in schedule II of the Companies Act, 2013. The Company has used the following rates to provide depreciation on the PPE.

Asset	Useful life
Tangible Assets	
Office equipments comprising 5 years air conditioners, photo-copying machines, etc.	
Computers	3 years
Servers & Network	6 years
Furniture and fixtures	6.67 years
Motor vehicles	5 years

Leasehold improvements are depreciated over the lease period subject to a maximum of 9 years.

Depreciation is provided on a straight-line basis from the date the asset is ready for its intended use or put to use whichever is

earlier. In respect of assets sold, depreciation is provided up to the date of disposal.

Management has estimated, the useful lives of the following classes of assets, which is lower than that indicated in schedule II of the Companies Act, 2013 on the basis of technical assessment.

- I) The motor vehicles are depreciated over the estimated useful lives of 5 years.
- II) The Furniture and fixture are depreciated over the estimated useful lives of 6.67 years.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the balance sheet date and adjusted prospectively.

(ii) Intangible Assets/Amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the statement of profit and loss.

The amortisation rates used are:

Intangible asset	Useful life/ Amortisation period
Computer software	4 years
CMA Membership rights*	5 years

*CMA - Capital Market Authority of Oman

g) Foreign exchange transactions

Foreign currency income and expenditure items of domestic operations are translated at the

Notes

to standalone financial statements for the year ended March 31, 2018 (contd.)

exchange rates prevailing on the date of the transaction. Monetary foreign currency assets and liabilities of domestic foreign operations are translated at closing exchange rates at the balance sheet date and the resulting gains/losses are included in the statement of profit and loss in the year in which they arise.

Income and expenditure of non-integral foreign operations are translated at monthly average rates. The assets and liabilities of non-integral foreign operations other than share capital and fixed assets are translated at closing exchange rates at the balance sheet date and the resultant profits/losses from exchange differences are accumulated in the foreign currency translation reserve until the disposal of the net investment in the non-integral foreign operations.

h) Employee Benefits

Provident Fund

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund as a part of retirement benefits to its employees. The contributions during the year are charged to the statement of profit and loss. The Company recognises contribution payable to the provident fund scheme as an expenditure when an employee renders the related service.

With respect to Oman Branch, for Omani national employees, the Company makes contributions to the Omani Public Authority for Social Insurance Scheme calculated as a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when incurred.

Gratuity

The Company pays gratuity, a defined benefit plan to its employees who retire or resign after completion of minimum period of five years of continuous service and in the case of employees at overseas locations as per rules in force in the respective countries. The Company makes contributions to the ICICI Securities Employees Group Gratuity Fund which is managed by ICICI Prudential Life Insurance Company Limited for the settlement of gratuity liability.

The Company accounts for the gratuity liability as per an actuarial valuation by an actuary appointed by the Company. In accordance with the gratuity fund's rules, actuarial valuation of gratuity liability is calculated based on certain assumptions regarding rate of interest, staff mortality and staff attrition as per the projected unit credit method made at the end of each reporting period. Actuarial gains and losses for defined benefit plans are recognised in full in the period which they occur in the statement of profit and loss.

With respect to Oman Branch, the Company provides end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Compensated absence

The employees can carry forward a portion of the unutilised accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of such period, the benefit is classified as long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase the entitlement. The obligation expected to fall beyond 12 months is measured on the basis of independent actuarial valuation using the projected unit credit method. Actuarial losses/gains are recognised in the statement of profit and loss as and when they are incurred.

Long Term Incentive

The Company has a long term incentive plan which is paid in three annual tranches. The Company accounts for the liability as per an actuarial valuation. The actuarial valuation of the long term incentives liability is calculated based on certain assumptions regarding rate of interest

Notes

to standalone financial statements for the year ended March 31, 2018 (contd.)

and staff attrition as per the projected unit credit method made at the end of each reporting period. The actuarial losses/gains are recognised in the statement of profit and loss in the period in which they arise.

i) Income taxes

Income tax expense is the aggregate amount of current tax and deferred tax borne by the Company. Current tax expense and deferred tax expense is determined in accordance with the provisions of the Income Tax Act, 1961 and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax assets and liabilities are recognised on a prudent basis for the future tax consequences of timing differences arising between the carrying values of assets and liabilities and their respective tax basis. The impact of changes in the deferred tax assets and liabilities is recognised in the statement of profit and loss.

Deferred tax assets are recognised and reassessed at each reporting date, based upon management's judgment as to whether their realisation is considered as reasonably certain. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available. Deferred tax assets are recognised, in case there are, on carry forward of unabsorbed depreciation, tax losses and carry forward capital losses, only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In accordance with the recommendations contained in the Guidance note on accounting for credit available in respect of Minimum Alternative Tax ("MAT") issued by the Institute of Chartered Accountants of India, MAT credit

is recognised as an asset to the extent there is convincing evidence that the Company will pay normal income tax during the specified period in future. MAT credit is recognised as an asset by way of a credit to the statement of profit and loss and shown as MAT credit entitlement in the year in which MAT credit becomes eligible to be recognised as an asset. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

j) Impairment of assets

The Company assesses at the reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimate the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

k) Provisions

Provision is recognised when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at the

Notes

to standalone financial statements for the year ended March 31, 2018 (contd.)

balance sheet date and adjusted to reflect the current management estimates.

l) Contingent liabilities and assets

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. The existence of a contingent liability is disclosed in the notes to the financial statements.

Contingent assets are neither recognised nor disclosed.

m) Earnings per share ("EPS")

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

n) Lease

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the lease term are classified as operating leases. Operating lease payments are recognised as an expense in the statement of

profit and loss on a straight-line basis over the lease term.

o) Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement include cash in hand, balances with the banks and short term investments with an original maturity of three months or less.

p) Borrowing cost

Borrowing costs are interest and other costs (including exchange differences from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred by the Company in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of those tangible fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Other borrowing costs are recognised as an expense in the year in which they are incurred.

The difference between the discounted amount mobilised and redemption value of commercial papers is apportioned on time basis over the life of the instrument and charged as interest expense in the statement of profit and loss.

q) Derivative instruments

The Company enters into exchange traded derivative products i.e. equity/index futures and options, for proprietary trading purposes. The derivative contracts are recognised on a trade date basis and stated at the fair value, being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case not traded on NSE, last quoted closing price on BSE Limited is considered) on the balance sheet date. Changes in the fair value of the derivative contracts are recognised in the statement of profit and loss.

Management's responsibility for the consolidated financial statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 (the "Act") that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as

applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibility

Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Consolidated Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the Consolidated Financial Statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the

audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2018, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other matter

The comparative financial information of the Group for the year ended 31 March 2017 prepared in accordance with Accounting Standards as included in these Consolidated Financial Statements have been audited by the predecessor auditor who had audited the Consolidated Financial Statements for the year ended 31 March 2017. The report of the predecessor auditor on the comparative financial information dated 20 April 2017 expressed an unmodified opinion. Our opinion is not modified in respect of this matter.

Report on other legal and regulatory requirements

As required by section 143 (3) of the Act, based on our audit, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements;
- (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards prescribed under Section 133 of the Act;
- (e) On the basis of written representations received from the directors of the Holding Company as on 31 March 2018 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding Company are disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164 (2) of the Act. Since the subsidiaries are not incorporated in India, the provisions of Section 164(2) of the Act are not applicable and hence not commented upon;
- (f) With respect to the adequacy of the internal financial controls with reference to the Consolidated Financial Statements of the Holding Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A"; and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 34 to the Consolidated Financial Statements;
 - ii. the Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2018.; and
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2018. Since the subsidiaries are incorporated outside India, the provisions of the Act relating to Investor Education and Protection Fund are not applicable and hence not commented upon; and
 - iv. The disclosures in the Consolidated Financial Statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. However, amounts as appearing in the audited Consolidated Financial Statements for the year ended 31 March 2017 have been disclosed.

Annexure - A to the Independent Auditor's Report of even date on the consolidated financial statements of ICICI Securities Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

In conjunction with our audit of the Consolidated Financial Statements of ICICI Securities Limited (the "Holding Company") as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of the Holding Company, as of that date.

Management's responsibility for internal financial controls

The Board of Directors of the Holding Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Holding Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involved performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining

an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes

to consolidated financial statements for the year ended March 31, 2018

1 Overview

Basis of preparation

The Company has prepared these consolidated financial statements to comply in all material respects with accounting standard notified under section 133 of the Companies Act 2013.

The Company consolidates entities in which it holds, directly or indirectly, more than 50% of the voting rights or where it exercises control. The Company does not consolidate entities where the control is intended to be temporary. All significant intercompany accounts and transactions are eliminated on consolidation.

The consolidated financial statements include results of ICICI Securities Limited and its subsidiaries ICICI Securities Holdings Inc. and ICICI Securities Inc incorporated in USA. The financial statements of the subsidiaries have been consolidated considering the operations as non integral foreign operations. The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies applied by the Group are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of the services and the time between the provision of services and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2 Significant accounting policies

a) Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in India, requires management to make judgments, estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as of the date of the consolidated financial statements and the reported income, expenses and results during the reporting year. The estimates used in the preparation of the consolidated financial statements are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes

requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

b) Revenue recognition

- i) Brokerage income in relation to stock broking activity is recognised on a trade date basis.
- ii) Revenue from issue management, debt syndication, financial advisory services etc., is recognised based on the stage of completion of assignments and terms of agreement with the client.
- iii) Commission income in relation to public issues/ other securities is recognised based on mobilisation and intimation received from clients/intermediaries.
- iv) Gains/ losses on dealing in securities are recognised on a trade date basis.
- v) Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.
- vi) Revenue from dividend is recognised when the right to receive the dividend is established.
- vii) Training fee income from financial educational programs is recognised on an accrual basis.

c) Investments

Investments are classified into long term investments and current investments. Investments which are intended to be held for more than one year are classified as long term investments and investments which are intended to be held for less than one year are classified as current investments. Long term investments are accounted at cost and any decline in the carrying value other than temporary in nature is provided for in the statement of profit and loss. Current investments are valued at cost arrived at on first in first out ('FIFO') basis and fair value, determined on an individual investment basis, whichever is lower.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

d) Stock-in-trade

Securities acquired with the intention to trade are classified as stock-in-trade. The securities

Notes

to consolidated financial statements for the year ended March 31, 2018 (contd.)

held as stock-in-trade are carried at cost arrived at on first in first out ('FIFO') basis and fair value, determined on an individual investment basis, whichever is lower. The profit or loss on sale of securities is recognised on a trade date basis in the Statement of Profit and Loss.

e) Fixed assets

(i) Property, Plant and Equipment (PPE)/ Depreciation

PPE are carried at cost less accumulated depreciation. Cost comprises purchase price, borrowing cost if capitalisation criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use.

Losses arising from the retirement of, and gains or losses arising from disposal of property, plant and equipment are recognised in the statement of profit and loss.

Depreciation on PPE is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by management/ limits specified in schedule II of the Companies Act, 2013. The Group has used the following rates to provide depreciation on the PPE.

Asset	Holding Company Useful life	Subsidiaries Useful life
Tangible Assets		
Office equipment's comprising air conditioners, photo-copying machines, etc.	5 years	3 years
Computers	3 years	3 years
Servers & Network	6 years	-
Furniture and fixtures	6.67 years	7 years
Motor vehicles	5 years	-

Leasehold improvements are depreciated over the lease period subject to a maximum of 9 years.

Depreciation is provided on a straight-line basis from the date the asset is ready for its intended use or put to use whichever is

earlier. In respect of assets sold, depreciation is provided up to the date of disposal.

Management has estimated, the useful lives of the following classes of assets, which is lower than that indicated in Schedule II of the Companies Act, 2013. This is based on the consistent practices followed, past experience and is supported by technical advice.

- I) The motor vehicles are depreciated over the estimated useful lives of 5 years.
- II) The Furniture and fixture are depreciated over the estimated useful lives of 6.67 years.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and adjusted prospectively.

(ii) Intangible Assets /Amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the statement of profit and loss.

The amortisation rates used are:

Intangible asset	Holding Company Useful life	Subsidiaries Useful life
Computer software	4 years	3 years
CMA Membership rights*	5 years	-

*CMA-Capital Market Authority of Oman

Notes

to consolidated financial statements for the year ended March 31, 2018 (contd.)

f) Foreign exchange transactions

Foreign currency income and expenditure items of domestic operations are translated at the exchange rates prevailing on the date of the transaction. Monetary foreign currency assets and liabilities of domestic foreign operations are translated at closing exchange rates at the balance sheet date and the resulting gains/losses are included in the statement of profit and loss in the year in which they arise.

Income and expenditure of non-integral foreign operations are translated at monthly average rates. The assets and liabilities of non-integral foreign operations other than share capital and fixed assets are translated at closing exchange rates at the balance sheet date and the resultant profits/losses from exchange differences are accumulated in the foreign currency translation reserve until the disposal of the net investment in the non-integral foreign operations.

g) Employee Benefits Provident fund

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund as a part of retirement benefits to its employees. The contributions during the period/year are charged to the statement of profit and loss. The Group recognises contribution payable to the provident fund scheme as an expenditure when an employee renders the related service.

With respect to Oman Branch, for Omani national employees, the Group makes contributions to the Omani Public Authority for Social Insurance Scheme calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when incurred.

Gratuity

The Group pays gratuity, a defined benefit plan to its employees who retire or resign after completion of minimum period of five years of continuous service and in the case of employees at overseas locations as per rules in force in the respective countries. The Group makes contributions to the ICICI Securities Employees

Gratuity Fund which is managed by ICICI Prudential Life Insurance Company Limited for the settlement of gratuity liability.

The Group accounts for the gratuity liability as per an actuarial valuation by an actuary appointed by the Group. In accordance with the gratuity fund's rules, actuarial valuation of gratuity liability is calculated based on certain assumptions regarding rate of interest, staff mortality and staff attrition as per the projected unit credit method made at the end of each reporting period. Actuarial gains and losses for defined benefit plans are recognised in full in the period which they occur in the statement of profit and loss.

With respect to Oman Branch, the Group provides end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Compensated absence

The employees can carry forward a portion of the unutilised accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of such period, the benefit is classified as long-term employee benefit. The Group records an obligation for such compensated absences in the period in which the employee renders the services that increase the entitlement. The obligation expected to fall beyond 12 months is measured on the basis of independent actuarial valuation using the projected unit credit method.

Long term incentives

The Group has a long term incentive plan which is paid in three annual tranches. The Group accounts for the liability as per an actuarial valuation. The actuarial valuation of the long term incentives liability is calculated based on certain assumptions regarding rate of interest

and staff attrition as per the projected unit credit method made at the end of each reporting period. The actuarial losses/gains are recognised in the statement of profit and loss in the period in which they arise.

h) Income taxes

Income tax expense is the aggregate amount of current tax and deferred tax borne by the Group. Current tax expense and deferred tax expense is determined in accordance with the provisions of the Income Tax Act, 1961 and tax laws prevailing in the respective tax jurisdictions where the Group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax assets and liabilities are recognised on a prudent basis for the future tax consequences of timing differences arising between the carrying values of assets and liabilities and their respective tax basis. The impact of changes in the deferred tax assets and liabilities is recognised in the statement of profit and loss.

Deferred tax assets are recognised and reassessed at each reporting date, based upon management's judgment as to whether their realisation is considered as reasonably certain. The Group writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available. Deferred tax assets are recognised in case there are carry forward of unabsorbed depreciation, tax losses and carry forward capital losses, to extent there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In accordance with the recommendations contained in the Guidance note on accounting for credit available in respect of Minimum Alternative Tax ("MAT") issued by the Institute of Chartered Accountants of India, MAT credit is recognised as an asset to the extent there

is convincing evidence that the Group will pay normal income tax during the specified period in future. MAT credit is recognised as an asset by way of a credit to the statement of profit and loss and shown as MAT credit entitlement in the year in which MAT credit becomes eligible to be recognised as an asset. The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

i) Impairment of assets

Property, plant and equipments are reviewed at the reporting date, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net discounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment is recognised by debiting to the statement of profit and loss and is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

j) Provisions

Provision is recognised when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at the balance sheet date and adjusted to reflect the current management estimates.

Notes

to consolidated financial statements for the year ended March 31, 2018 (contd.)

k) Contingent liabilities and assets

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. The existence of a contingent liability is disclosed in the notes to the financial statements. Contingent assets are neither recognised nor disclosed.

l) Earnings per share ("EPS")

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

m) Lease

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

n) Cash and cash equivalents

Cash and cash equivalents include cash in hand, balances with the banks and short term investments with an original maturity of three months or less.

o) Borrowing Cost

Borrowing costs are interest and other costs incurred by the Group in connection with the

borrowing of funds. Borrowing costs directly attributable to acquisition or construction of those tangible fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Other borrowing costs are recognised as an expense in the year in which they are incurred.

The difference between the discounted amount mobilised and redemption value of commercial papers is apportioned on time basis over the life of the instrument and charged as interest expense in the statement of profit and loss.

p) Segment reporting

Revenue and identifiable operating expenses in relation to segments are categorised based on items that are individually identifiable in that segment. Certain revenue and expenses, which form component of total revenue and expenses, are not identifiable to specific segments as the underlying resources are used interchangeably, same has been allocated on reasonable basis to respective segment. Revenue and expenses, which relate to the Group as a whole and are not allocable to segments on a reasonable basis, have been included under "Unallocated expenses/income". Assets and liabilities in relation to segments are categorised based on items that are individually identifiable in that segment. Certain assets and liabilities, which form component of total assets and liabilities, are not identifiable to specific segments as the underlying resources are used interchangeably. Assets and liabilities, which relate to the Group as a whole and are not allocable to segments on a reasonable basis, have been included under "Unallocated assets/Liabilities".

q) Derivative Instruments

The Group enters into exchange traded derivative products i.e. equity/index futures and options, for proprietary trading purposes. The derivative contracts are recognised on a trade date basis and stated at the fair value, being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case not traded on NSE, last quoted closing price on BSE Limited is considered) on the balance sheet date. Changes in the fair value of the derivative contracts are recognised in the statement of profit and loss.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The Company is committed to acting professionally, fairly and with integrity in all its dealings. The Company, through the Code of Business Conduct & Ethics, has adopted a 'zero-tolerance' approach to bribery and corruption. The Company has put in place an 'Anti-Bribery and Anti-Corruption Policy', which sets forth obligations on part of every employee for prevention, detection and reporting of any act of bribery or corruption. The Code is applicable to directors and employees of the Company as well as the directors and employees of the subsidiary companies.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

No complaints were received from shareholders in fiscal 2018.

The Company has formulated a Whistle blower policy to enable employees to report about potentially illegal and/or unacceptable practices. It seeks to enable employees to report such practices without fear of victimization and reprisal. The policy aims to administer good governance practices in the Company and to ensure that serious concerns are properly raised and addressed. The policy has been periodically communicated to the employees and also posted on the Company's intranet. A report on the concerns received and the manner in which they are dealt with is periodically reported to the Audit Committee.

The Customer Service Council (CSC) of the Company functions as the Standing Committee on Customer Service. The CSC is chaired by a Working Director. Business Heads and the Heads of related departments are members of the CSC. The CSC focuses on building and strengthening customer service orientation in the Company through initiating various measures including simplifying processes for improvement in customer service levels. The Board of the Company has constituted a Customer Service Committee which reviews the customer service initiatives, oversees the functioning of the CSC and evolves innovative measures for enhancing the quality of customer service and improvement in the overall satisfaction level of customers. Of the 77 complaints outstanding at the beginning of the year April 2017 and 18,777 complaints received during the year April 2017 to March 2018, 18,704 complaints have been resolved.

Principle 2

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company provides a range of investment and trading products and services to cater to all segments of the society.

Apart from the products, we have moved towards digitisation and developed an entirely paperless contract notes and periodic statement generation and delivery process for the customers.

Our employee related systems are digitized too. It also extends to the payment to our employees, vendors and agents too.

About 95% of our transactions happen digitally. All our applications are logged digitally.

The above initiatives and digital processes have not only provided speed and convenience to our customers, vendors and agents, but has also had a positive impact on environment.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

Considering the nature of business of the Company and the products/initiatives referred to above, some of the questions below are not applicable to the Company.

(a) Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

NA

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Please refer to the response under Principle 6.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)?

NA

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

NA

5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

Considering that the Company is not a manufacturing unit, the waste generated at its offices is managed as per the waste disposal off process. The Company has procedures in place to dispose off e-waste through authorised e-waste vendors.

Principle 3

1. Please indicate the total number of employees:

The Company had 4,215 employees (including contractual employees) at March 31, 2018.

2. Please indicate the total number of employees hired on temporary/contractual/casual basis:

The Company had 35 employees at March 31, 2018

3. Please indicate the number of permanent women employees:

The Company had 954 women employees at March 31, 2018.

4. Please indicate the number of permanent employees with disabilities:

The Company does not specifically track the number of disabled employees. The Company is an equal opportunity employer and treats all employees at par. Based on the income tax declarations which enable claiming income tax deduction for self-disability, the Company had 1 such employee.

5. Do you have an employee association that is recognised by management:

No.

6. What percentage of your permanent employees are members of this recognised employee association?

NA

7. Please indicate the number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

The Company does not engage in any form of child labour/forced labour/involuntary labour and does not adopt any discriminatory employment practices. The Company has a policy against sexual harassment and a formal process for dealing with complaints of harassment or discrimination. The said policy is in line with relevant Act passed by the parliament in 2013. The Company, through the policy ensures that all such complaints are resolved within defined timelines. During the year, 7 such cases were reported and actioned upon. As on March 31, 2018, nil complaints are pending to be actioned.

8. What percentage of your under mentioned employees were given safety and skill up-gradation training in the last year?

a. Permanent employees

b. Permanent women employees

c. Casual/temporary/contractual employees**d. Employees with disabilities**

Employees' health and safety is of prime importance to the Company. The Company conducts robust and periodic training like basic fire safety training and evacuation drills for floor marshals/ERT (Emergency Response Team) for employees across offices. Periodic fire evacuation drills and electrical and fire safety audits were conducted at the office locations as well as large branches, to sensitize employees about fire safety norms and regulations. The Company has tie-ups with vendors to educate and demonstrate use of fire-fighting equipment to ERT members. The Company conducted comprehensive safety training for women employees where they are trained on situation reaction and self-defense and updated on legal provisions relevant to their safety. Also educative content on Health, Safety & Environment (HSE), natural calamities, epidemics, ergonomics, women safety and road safety are circulated on regular intervals on the intranet platform on employee interface.

In the area of Learning & Skill up-gradation, an integrated framework has been institutionalized to nurture and build our employees capabilities to improve performance in their current roles and prepare them for future challenges. These initiatives includes customized campus assimilation programmes, on-boarding and orientation workshops for new hires, regulatory and compliance based knowledge & skill up gradation programs and role specific functional, managerial and leadership interventions for junior, middle and senior level employees. Employees are also provided access to a suite of e-learning programmes which covered about 1764 employees in fiscal 2018. In fiscal 2018, the Company conducted 19 programmes and covered 2101 employees through these learning interventions.

Principle 4**1. Has the company mapped its internal and external stakeholders? Yes/No**

Yes

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalised stakeholders?

We serve all sections of society irrespective of their wallet size.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalised stakeholders. If so, provide details thereof, in about 50 words or so.

The company offers low-cost no-frills trading accounts under the Rajiv Gandhi Equity Savings Scheme for the first time equity investors where we don't levy any DP charges for equity holdings upto ₹ 50,000. Similarly, to encourage equity culture for the first time investors employed with select corporate houses, we waive off their annual fees. The Company also undertakes investor education programmes for various sections of societies like students, women from weaker sections of societies, armed forces etc.

Principle 5**1. Does the policy of the company on human rights cover only the company or extend to the Group/ Joint Ventures/ Suppliers/ Contractors/NGOs/Others?**

The Company's philosophy of non-discrimination among employees, meritocracy and mechanisms for redressal of employee issues applies across the Company.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

Please refer response to question number 2 under Principle 1.

Principle 6**1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/others.**

The aspects outlined under this Principle are not substantially relevant to the Company given the nature of its business. The Company complies with applicable environmental regulations in respect of its premises and operations. Further, the Company participates in initiatives towards addressing environmental issues.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Yes. As an environmentally responsible corporate, the Company has been striving towards imbining green sustainable processes, policies and practices. As an organization with strong technology focus with last mile service delivery capability through digital means, much of our operations are now paperless. This capability also means routine activities like contact notes, holding statements, new product brochures etc. are now delivered to customers in electronic form rather than physical.

3. Does the company identify and assess potential environmental risks? Y/N

NA.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

The above question is not applicable to the Company as it is not a manufacturing company.

5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

The above question is not applicable to the Company as it is not a manufacturing company.

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

The above question is not applicable to the Company as it is not a manufacturing company.

7. Number of show cause/ legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

There were no outstanding notices at March 31, 2018.

Principle 7

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

- (a) Association of National Exchange Members Of India
- (b) International Market Assessment India Private Limited-CFO
- (c) BSE Broker's Forum
- (d) The Association Of Investment Bankers Of India
- (e) Financial Planning Standards Boards, India

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

No

Principle 8

1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

The Company has articulated its CSR philosophy as supporting the cause of education, health care, skill development and rural development and towards this end, we conduct our CSR activities largely by focus on progressive support for our key CSR initiatives. ICICI Foundation has undertaken initiatives aimed at promoting sustainable livelihood through vocational skill building and promoting education.

We worked on two key programmes, in the current year, in the areas of education and skill development; Mission Samruddhi and Siddhika. Mission Samruddhi aims at providing importance of financial literacy and basic financial planning to junior personnel in defense and other allied uniform services. Siddhika, on the other hand, aims at providing means to a sustainable livelihood to women through skill development.

The Company partnered with Vision Foundation of India to perform eye surgeries in seven states for 500 individuals during the year.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/ government structures/any other organization?

The Company partners with different organizations in implementing its various CSR initiatives. Besides ICICI Foundation, the company has partnered with the National Institute of Securities Markets, an educational institute set up by SEBI for imparting financial knowledge in the two programmes, Mission Samruddhi and Siddhika. Furthermore, the company has set up an in-house team for facilitating ground level execution of these programmes.

3. Have you done any impact assessment of your initiative?

Yes. Under Mission Samruddhi, the Company reached out to 9972 junior level personnel from various uniformed forces, at their bases across the country. As part of the pilot for Siddhika, the Company has trained 114 women from locations in Uttar Pradesh and Andhra Pradesh, of which, 14 have passed the NISM exam, thereby, clearing the first step to become Independent Financial Associates. We have assessed that, by partnering with Vision Foundation of India, a non-profit, non-government charitable organization registered under Bombay Public Trust, 1950, for their initiative, Rashtriya Netra Yagna, 500 individuals ailing with eye diseases have been surgically benefitted.

4. What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken.

During the year, the company spent ₹ 91.6 million in its CSR activities. The project details are highlighted in point number 1.

NA

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

In the ordinary course of broking business, several customers have disputes with the Company which could result in their filing a civil suit, criminal complaint or a consumer complaint alleging deficiency of services. The Company always strives to have a cordial relationship with its customers and attempts to have an amicable settlement of the dispute but in some cases needs to pursue legal resolution of the same.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

The Company on a continuous basis measures the satisfaction levels of customers transacting across various touch points. As part of this exercise, the customer's feedback and satisfaction levels with the transaction experience are measured. We collect feedback from over 5,000 customers every month. This feedback is then analyzed and the insights from the same are implemented to improve products and processes and enhance our service quality.

The Company also conducts a detailed Customer Satisfaction Study (C-SAT). Existing customers are interviewed telephonically and a detailed interview is done where their feedback regarding the product, service and site experiences are captured.
