Split of Revenue into → Cost & EBITDA (Q1FY26)

(INR Crores)

• EBITDA performance (Q1FY26):

- Robust EBITDA growth of **27%** YoY to ₹86 Cr
- EBITDA Margin → **38%** in Q1FY26 vs 33% in Q1FY25

• Influencers for the performance (Q1FY26):

Positive Influencers:

- ARR continue to grow (Healthy 9% growth YoY)
- Decrease in HLP cost due to increased share of green power and a drop in per-unit rates
- Stable Admin and General expenses due to lower insurance cost and legal & professional fees

Limiting Influencers:

- Impact of geo-political situation in May
- Increase in Employee benefit expenses due to annual increments
- The increase in consumable expenses was driven by higher costs for guest supplies, linen purchases, and revised service contracts.

Industry trends

Industry Experiencing Tailwinds

The Indian hospitality sector is experiencing an upward cycle, driven by favourable demographics, strong domestic demand surpassing supply growth, rising investments, policy support and continuous improvements in infrastructure and connectivity

Tourism on the rise

India's upper-middle-income and high-income (income over USD 8,500/year) population, which was 24% in 2018, is set to reach 56% of total households in 2030E, which bodes well for the tourism sector, as they comprise the bulk of tourism-related spends in India

Domestic Tourist Visit (DTV) is expected to grow to 5.2 billion in 2030 from 2.5 billion in 2024, representing a CAGR of 13.4%. As per the WTTC's Economic Impact Research, 2024 domestic visitor spending is estimated to grow by 7.9% CAGR over the next 11 years from 2023 onwards till 2034, increasing the domestic visitor spend to approximately INR 33.95 trillion, more than double that of 2023

Provisional data for 2024 indicates that foreign tourist arrivals (FTAs) in India reached 9.66 million This represents a 1.4% increase from the 9.52 million FTAs recorded in 2023. HAI estimates FTA to cross 30 mn by CY 2037 and 100 mn by CY 2047

Contribution of Travel & Tourism to Indian GDP

In 2023, the travel and tourism industry in India contributed only 6.5% to the overall GDP, well below the global average of 9.1% – highlighting the significant room for growth in the Indian hospitality segment.

Supply Dynamics Favourable to Luxury and Upper Upscale Players

As of March 2025, India had approximately 2,00,000 branded hotel rooms, with an estimated more than 100,000 keys in the pipeline over the next five years.

Supply in the hospitality sector in India is expected to grow at a CAGR of 8.5% over FY2024 to FY2028 while demand is expected to grow at a CAGR of 10.4% over the same period,

Luxury-upper upscale share in supply to remain largely limited. Luxury hotel segment to outperform the broader market on the back of a widening demand and supply gap in the segment.

All India Room Supply and Demand

Industry Experiencing Tailwinds

Luxury-Demand Supply Remains Favourable

Favourable Industry wide RevPAR Outlook

- Revenue per Available Room (RevPAR) growth hit 14% in FY24, surpassing pre-pandemic levels.
- For FY25, the average RevPAR for the branded hotel inventory is expected to grow by 8-10% in the range of Rs 5,300-5,400 supported by an Average Room Rate (ARR) of Rs 8,000-8,200 and an occupancy of 67-68%.
- As per CareEdge, **a further 7-8% growth is projected for FY26**, in the range of Rs 5,600-5,700, with ARR climbing to Rs 8,400 – 8,600 **driven by sustained demand outpacing new supply**.
- Going forward, **the occupancy levels are projected to stabilize between 66-68% from FY25 to FY27**, while ARR are expected to hover above Rs 8,000. With demand growth continuing to outpace supply, RevPAR is expected to rise by 8-10% Y-o-Y in FY25 and 7-8% in FY26

Government Policy Support

Rs 1,900 crore has been designated for the 'Swadesh Darshan' scheme, signalling a renewed focus on enhancing domestic tourism infrastructure

Decision to grant infrastructure status to hotels is expected to unlock better financing opportunities for greenfield developments. This move is anticipated to facilitate longer-tenure loans at favorable rates, further supporting sector expansion

Greater emphasis on spiritual and medical tourism is expected to increase hotel occupancy and attract diverse tourist segments

Connectivity initiatives under the UDAN scheme are enhancing regional access, particularly to Tier 2 and Tier 3 cities
