However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iv. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. ## CHAIRMAN'S LETTER

Dear Shareholders,

It gives me immense pleasure to address you all at the beginning of the new financial year. It is our privilege to share with you our maiden annual report following the successful initial public offering (IPO) and subsequent listing of Saraswati Saree Depot on the stock exchanges. We are grateful to our investors and shareholders for placing their invaluable faith in our vision and capabilities.

Our journey began in 1966, when Late Laxmandas Danomal Dulhani, along with his mother Late Dharmibai Danomal Dulhani and three partners, laid the foundation of Saraswati Sadi Depot as a small partnership firm in women's apparel. From its humble beginnings, the business steadily evolved under the stewardship of the second and third generations of the Dulhani family. Over the decades, our focus on quality, trust, and deep customer relationships helped transform the business. The journey culminated in 2021 with the incorporation of Saraswati Saree Depot Private Limited, marking our transition into a corporate structure while retaining the core values and leadership that built the brand. The Company was converted into a Public Company in March 2023 before it got listed in August 2024. Today, we serve over 13,000 customers annually, source from more than 900 weavers and suppliers across India, and offer a catalogue of over 300,000 SKUs—testament to our rich legacy and evolving vision.

As we continue our journey of growth, I am pleased to report that the year was marked by sustained operations, strengthened financial fundamentals, and a deepened commitment to long-term value creation. One of the standout drivers of this year's performance was Mini Utsav—a scaled version of our flagship promotional event. It delivered excellent traction, enhancing both revenue and profitability. This initiative, built on deep consumer insight and efficient execution, reaffirms our ability to innovate within the traditional B2B saree landscape.

In May 2025, we took a strategic step forward by entering the retail segment through the launch of our first exclusive outlet in Kolhapur as a pilot project. This initiative allows us to directly engage with consumers, expand our brand visibility, and explore better margin opportunities.

During the year, our Revenue from Operations stood at ₹613.61 crore in FY25, with EBITDA rising to ₹42.15 crore. PAT improved significantly to ₹30.57 crore, marking a 3.52% growth over the same period last year. We are especially pleased to report that the Company is now net debt-free, and we continue to maintain a healthy cash surplus, positioning us well for the next phase of our strategic growth. I am pleased to announce that we have declared an interim dividend of ₹2.27 per share in FY 2024-25, reflecting our confidence in the business and our intention to share success with our valued shareholders. After the end of financial year, the Company also declared an Interim dividend of Rs 1.515 for FY 2025-26.

India saree market is looking at dynamic trends motivated to develop consumer preferences and fashion innovations. Traditional handloom sarees, such as Banarasi, Kanjeevaram and Chanderi, dominate the demand due to their cultural significance and craftsmanship. Additionally, fusion wear, digital print and contemporary design with durable fabrics are gaining popularity among young demographics. The rise of e-commerce platforms has increased the access to moving forward, allowing consumers to detect various types of sarees from different fields. The market has also seen development opportunities in Tier-II and Tier-III cities, where the growing purchase of fashion consciousness. Innovation in clothes technology, such as wrinkles-resistant and stained sarees, meet the needs of modern consumers. The increasing influence of global fashion trends on ethnic wear further enhances the expansion of the market. With an ideal mix of tradition and innovation, Indian saree market is ready for continuous development, catering for diverse consumer preferences across the country.

Looking ahead, we have made targeted investments in line with our growth strategy:

- We have invested up to **₹3.5 crore in advanced machinery**, expected to yield a **30% ROCE**, to enhance production efficiency and reduce dependency on third-party suppliers like Saraswati Fabrics.
- We have also increased our investment in our **Ahmednagar joint venture**, which continues to show great promise. This will further diversify revenue streams and strengthen our presence in emerging markets.

Through these initiatives, we are laying the groundwork for **sustainable and scalable growth**, supported by sound governance, prudent financial management, and an unwavering focus on execution.

We close FY25 with **renewed confidence** in our direction and deep appreciation for the support of our shareholders, customers, and employees. With over five decades of industry experience, a robust business model, and a strategic vision for the future, **SSDL is well-positioned to lead and thrive in the evolving landscape of traditional Indian apparel**. ## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### Global Economic Outlook

Global economic growth is projected to remain steady at 3.3% in both 2025 and 2026—below the pre-pandemic average of 3.7% observed between 2000 and 2019. An upward revision in the United States offsets modest downgrades in several other major economies.

Inflation continues to ease, with global headline inflation expected to decline to 4.2% in 2025 and further to 3.5% in 2026. This disinflationary trend is supported by falling energy prices and a gradual cooling in labor markets. However, inflation in the U.S. is likely to stay slightly above the Federal Reserve's 2% target in 2025, while remaining more subdued in the euro area and low in China.

Several key factors are shaping the outlook. Policy uncertainty—especially around trade and fiscal strategies—is on the rise. Geopolitical tensions, particularly in the Middle East, and ongoing trade frictions continue to weigh on sentiment and investment. Diverging monetary policy paths among major central banks reflect varying domestic conditions, with the U.S. likely to maintain higher interest rates relative to others. Additionally, fiscal tightening is expected to persist through 2025–26, especially across advanced economies such as the United States.

### Indian Economic Outlook

India's economy is expected to grow at 6.5% in FY26, maintaining momentum from FY25, underpinned by a balanced blend of domestic growth drivers. Over the medium term (FY26–FY31), GDP growth is projected to average 6.7% annually, led by strong capital formation and productivity gains—mirroring the robust growth seen during the pre-pandemic decade. India is poised to remain one of the fastest-growing major economies globally throughout this period.

Growth will be supported by several key enablers: easing food inflation on the back of a normal monsoon, lower borrowing costs following anticipated rate cuts by the RBI, and higher disposable incomes among the middle class due to tax relief measures. Broad-based domestic consumption—particularly across FMCG, consumer durables, two-wheelers, tourism, and rural markets—will further fuel demand.

Structural vulnerabilities such as competitive pressure from low-cost Chinese imports, exchange rate volatility, capital flow fluctuations, and lingering weaknesses in parts of the manufacturing sector remain areas of concern.

Nonetheless, India's macroeconomic resilience stands firm, backed by strong fundamentals—low external debt, ample foreign exchange reserves, a thriving services sector, and disciplined fiscal policy. Corporate deleveraging over recent years has strengthened balance sheets, enhancing the capacity for future investment.

### **India Saree Market Size:**

The India saree market size reached USD 5.76 Billion in 2024. Looking forward, IMARC Group expects the market to reach USD 10.33 Billion by 2033, exhibiting a growth rate (CAGR) of 6.70% during 2025-2033. The rapid adoption of e-commerce, fueled by AI-driven customization, virtual try-ons, and social commerce, is broadening accessibility and convenience for buyers. Additionally, celebrity endorsements and eco-conscious branding are attracting younger demographics, further augmenting the India saree market share.

The market is witnessing a significant shift toward wearing sarees, driven by increasing consumer interest about traditional fashion. Traditional weaves, including Banarasi, Chanderi, and Kanjeevaram are gaining popularity as buyers prioritize ethical production and artisanal craftsmanship. Government initiatives such as the "Handloom Mark" and "Geographical Indication (GI) tags" have further enhanced consumer confidence in authentic handloom products.

Additionally, younger generations are embracing sarees as a way to support local weavers and reduce fast fashion's environmental impact. Brands and designers are responding by promoting organic dyes, biodegradable packaging, and fair-trade practices. Social media influencers and celebrities endorsing handloom sarees are also significantly supporting the India saree market growth. As a result, the market for sarees is expanding, with both domestic and international buyers showing keen interest in ethically made, heritage textiles.

### **Growth of Online Saree Retail and Customization:**

The market is experiencing rapid digital transformation, with online platforms becoming a preferred shopping destination for consumers. India's fast-developing e-commerce industry, poised to reach a value of USD 345 Billion by 2030 and USD 550 Billion by 2035, is opening new international opportunities for traditional saree sellers through digital platforms. With 944.7 million internet users and over 150 million online buyers many people are selling sarees on YouTube channels. Government policies, such as 100% FDI, the growth of ONDC, and B2B e-commerce reform, are driving the digitalization in India's vibrant saree industry.

Saraswati Saree Depot Limited (SSDL) is a prominent organized player in India's saree industry, with a legacy spanning over five decades. Established in 1966 and formally launched as a partnership firm in 1993, SSDL operates in the B2B and wholesale segment of traditional women's apparel. The Company generates over 90% of its revenue from sarees, while also dealing in a wide range of women's apparel such as kurtis, dress materials, blouse pieces, lehengas, and accessories, offering a robust catalogue of over 300,000 SKUs. Its operational presence includes two large-format stores in Maharashtra—its flagship store in Kolhapur and another in Ulhasnagar—collectively spanning more than 185,000 sq. ft., with the Kolhapur outlet contributing nearly 88% of overall sales. In October 2024, SSDL enhanced its sourcing efficiency by acquiring a 25,000 sq. ft. purchase office in Surat, strategically located near key suppliers. The company sources sarees from over 900 weavers and vendors across major textile hubs like Surat, Varanasi, Madurai, and Kolkata, and primarily caters to over 13,000 unique customers across southern and western India, including Maharashtra, Goa, Karnataka, and Tamil Nadu.

(iii) Interest Coverage Ratio	39.44	16.65
(iv) Current Ratio	2.63	1.41
(v) Debt Equity Ratio	0.02	0.67

**Explanation:**

Interest Coverage Ratio is improved due to lower finance cost on account of debt repayment.  
Current ratio is improved on account of lower borrowings and increased inventories and receivables.  
Short term Debt has been repaid hence Debt to equity ratio is 0.02.

**Risks and Concerns:**

The traditional apparel and saree wholesale industry faces several inherent risks. Heavy reliance on sarees makes businesses vulnerable to shifts in consumer preferences and fashion trends. The market is highly seasonal, with sales peaking during festivals and weddings, causing revenue fluctuations. Intense competition from unorganized players puts pressure on pricing and margins. Many operators have geographically concentrated operations, making them susceptible to local disruptions. The industry also depends heavily on third-party suppliers without long-term contracts, leading to supply chain uncertainties. High working capital needs, inventory management challenges and regulatory compliance requirements further add to the operational risks. Broader economic factors such as inflation and policy changes can also impact demand and cost structures.

**Internal Control Systems:**

The Company recognizes the critical importance of robust internal control systems for managing its business operations, ensuring financial integrity, and mitigating risks. SSDL leverages an ERP software system for sales, purchase, inventory, financial reporting, and invoicing, which helps track procurement and sales while enhancing operational efficiency. Its data security framework includes firewalls, web content filtering, encryption, and authentication technologies, along with backup systems. To safeguard physical assets, the Company has implemented security cameras, guards, and periodic stock verification at its stores, and maintain proper records for cash payments, reconciling them with bank statements to prevent misappropriation. The Audit Committee, formed as per the Companies Act and SEBI Listing Regulations, oversees financial reporting, disclosures, internal control effectiveness, and audit reviews. SSDL also has a vigil mechanism in place, with the Chairman of the Audit Committee addressing grievances related to victimization, ensuring a transparent platform for reporting concerns.

**Human Resources:**

The employees play a vital role in the smooth functioning of the Company's operations and in maintaining its competitive edge in the market. As of March 31, 2025, SSDL had a total workforce of 247 employees. Attracting and retaining skilled talent remains a priority, and the Company has implemented bonus/profit-sharing plans for KMP and SMP, though it does not currently offer employee stock options. The Company has maintained cordial labor relations with no history of strikes or unrest, and remain committed to complying with all applicable labor laws and regulations in India.

**Outlook:**

The Indian saree industry is projected to grow at a CAGR of 6.7% from 2025 to 2033, reaching USD 10.33 billion. As an organized player, the Company is well-positioned to benefit from the faster growth of the organized segment. The Company will continue investing in IT infrastructure, strengthening its ERP systems and data analytics capabilities to enhance operational efficiency, supply chain effectiveness, and customer

satisfaction. It remains focused on product diversification and quality through innovative designs and strong supplier relationships, which offer advantages such as favorable pricing and exclusive designs.

In line with its long-term vision to become more consumer-centric and explore higher-margin opportunities, the Company is entering the retail segment, beginning with the launch of its first exclusive retail outlet in Kolhapur as a pilot initiative. Further expansion will be based on insights gathered from this initial rollout, reflecting a cautious yet confident approach. The Company is also actively evaluating the performance of its Ulhasnagar branch and intends to take a decisive strategic decision in the coming months to protect overall business health. The Company also plans to explore entry into the men's ethnic wear segment to capitalize on emerging trends.

Overall, its strategy for sustained growth includes efficient management of operational complexities, expanding its customer base, introducing new product lines, and maintaining disciplined capital allocation to ensure long-term value creation and sustainable growth.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a

matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING**  
**UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT,**  
**2013 (“THE ACT”)**

We have audited the internal financial controls over financial reporting of **Saraswati Saree Depot Limited** (“the Company”) as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and payments of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

## INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us, the following material weaknesses have been identified as at March 31, 2025:

- a. The Company did not have an appropriate internal control system for obtaining confirmation from parties included under the head trade receivables, trade payables, loans and advances and other current liabilities and its reconciliation/consequential adjustments, if any.
- b. The Company did not have appropriate internal controls for reconciliation of physically inventory with the financial records.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the effects/possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2025.

We have considered the material weaknesses identified and reported above in determining the nature,

timing, and extent of audit tests applied in our audit of the March 31, 2025 financial statements of the Company, and these material weaknesses do not affect our opinion on the financial statements of the Company except for inventory.

## ANNEXURE 27

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

#### A. SIGNIFICANT ACCOUNTING POLICIES

##### 1.1 Basis for preparation of accounts

The accounts have been prepared in accordance with IND AS and Disclosures thereon comply with requirements of IND AS, stipulations contained in Schedule- III-Division II (revised) as applicable under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules 2014, Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time, other pronouncements of ICAI, provisions of the Companies Act. Assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in revised Schedule - III to the Companies Act, 2013.

##### 1.2 Use of Estimates

IND AS enjoins management to make estimates and assumptions related to financial statements that affect reported amount of assets, liabilities, revenue, expenses and contingent liabilities pertaining to the year. Actual result may differ from such estimates. Any revision in accounting estimates is recognized prospectively in the period of change and material revision, including its impact on financial statements, is reported in the notes to accounts in the year of incorporation of revision.

##### 1.3 Recognition of Income and Expenses

- i. Revenue from sale contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. The Company typically controls the goods or services before transferring them to the customer. Generally, control is transferred upon shipment of goods to the customer or when the goods are made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods transported.
- ii. Interest Income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.
- iii. Other incomes have been recognized on accrual basis in financial statements.

##### 1.4 Property, Plants and Equipment

The tangible assets are held for use in supply of goods or services or for administrative purposes. These are recognized and carried under cost model i.e. cost less accumulated depreciation and impairment loss, if any which is akin to recognition criteria under erstwhile GAAP.

- i. Cost includes freight, duties, taxes and other expenses directly incidental to acquisition, bringing the asset to the location and installation including site restoration up to the time when the asset is ready

- for intended use. Such Costs also include Borrowing Cost if the recognition criteria are met.
- ii. When a major inspection/repair occurs, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. Any remaining carrying amount of the cost of previous inspection/repair is derecognized.
  - iii. Depreciation has been provided on written down value method in terms of expected life span of assets as referred to in Schedule II of the Companies Act, 2013.
  - iv. Components relevant to fixed assets, where significant are separately depreciated on written down value basis in terms of their life span assessed by technical evaluation in specific context.
  - v. On sales of fixed assets any profit earned/loss sustained towards excess/shortfall of sale value Vis-a-vis carrying cost of assets is accounted for in statement of profit and loss.

## **1.5 Impairment of Non-Financial Assets**

- i. The Company assesses at each reporting date as to whether there is any indication that any Property Plant and Equipment and Intangible Assets or group of Assets, called Cash Generating Units (CGU) may be impaired. If any such indication exists, the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.
- ii. An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.
- iii. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

## **1.6 Financial Instruments**

### **i. Financial Assets**

#### **Initial Recognition and Measurement**

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

#### **Subsequent Measurement**

For purpose of subsequent measurement, financial assets are classified in two broad categories:

- Financial Assets at fair value
- Financial Assets at amortized cost

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss, or recognized in other comprehensive income.

A financial asset that meets the following two conditions is measured at amortized cost.

- Business Model Test: The objective of Company's business model is to hold the financial asset to collect the contractual cash flows.
- Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through OCI: -

- Business Model Test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Cash Flow Characteristics Test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit and loss.

All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI.

### **Impairment of Financial Assets**

The Company assesses impairment based on expected credit losses (ECL) model at an amount equal to:

- 12 months expected credit losses, or
- Lifetime expected credit losses

Depending upon whether there has been a significant increase in credit risk since initial recognition.

However, for trade receivables, the Company does not track the changes in credit risk. Rather, it recognizes impairment loss allowances based on lifetime ECLs at each reporting date, right from its initial recognition.

## **ii. Financial Liabilities**

All financial liabilities are initially recognized at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified as measured at amortized cost or Fair Value Through Profit and Loss (FVTPL). A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net gains or losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on de-recognition is also recognized in statement of profit and loss.

## 1.7 Fair Value Measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identified assets or liabilities
- Level 2 - Valuation techniques for which the lowest level of input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosure, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

## 1.8 Inventories

Inventories are valued at the lower of cost or net realizable value. Cost includes purchase price, duties, transport & handling costs and other costs directly attributable to the acquisition and bringing the inventories to their present location and condition.

The cost in respect of trading goods and packing material is determined under the First In First Out method.

## **1.9 Employee Benefits**

### **i. Short term employee benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be incurred when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

### **ii. Long term/Post Separation employee benefit plan**

#### **➤ Defined Contribution Plan:**

The Company's contributions to recognized Provident Fund and Labour Welfare Fund are charged to profit and loss account on accrual basis.

#### **➤ Defined Benefit Plan:**

The Company has made necessary provisions in the accounts in line with the requirement of AS-15.

## **1.10 Income Tax and Deferred Tax**

The liability of Company on account of Income Tax is computed considering the provisions of the Income Tax Act, 1961.

Deferred tax is provided using balance sheet approach on temporary differences at the reporting date as difference between the tax base and the carrying amount of assets and liabilities. Deferred tax is recognized subject to the probability that taxable profit will be available against which the temporary differences can be reversed.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.
