Management Discussion and Analysis

Economic and Industry Overview

Over the past decade, the Indian economy has passed through phases of growth and slowdown. The macroeconomic situation in India has improved significantly during last couple of financial years. The markets have begun to respond to this favorable change, with the national indices hitting all time high. The new government has already indicated its desire to revive the investment cycle and to empower the bureaucracy to ensure successful execution of the government's plans. To achieve the same, Government has taken various measures and initiatives to revive the economy by reforming policy environment, improving the ease of doing business, accelerating the project related approvals, easing FDI policies, pushing hard for infrastructure, creating smart cities. RBI's monetary policy has also reflected accommodative stance, having lowered the interest rates through the last year and also taken various steps to improve liquidity in the economy. Last year turned out to be favorable, with positive factors such as moderating inflation, strengthening fiscal situation and improving external current balance. Annexure A to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of **Indiabulls Wholesale Services Limited** ('the Holding Company') and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure A to the Auditor's Report (contd.)

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss as incurred.

f) Investments

Investments are classified as non-current or current investments, based on management's intention. Investments that are readily realizable and intended to be held not more than a year are classified as current investments. All other investments are classified as non-current investments.

Current investments are stated at lower of cost and fair value determined on an individual investment basis. Non-current investments are stated at cost less provision for diminution in their value, other than temporary, if made in the financial statements.

g) Impairment of assets

At each reporting date, the Group assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the Group estimates the recoverable amount of the asset or the cash generating unit. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

h) Employee benefits

The Group's contribution to provident fund and employee state insurance schemes is charged to the statement of profit and loss or inventorized as a part of real estate project under development, as the case may be. The Group's contributions towards Provident Fund are deposited with the Regional Provident Fund Commissioner under a defined contribution plan.

The Group has unfunded gratuity (defined benefit plan) and compensated absences for its employees, the liability for which is determined on the basis of actuarial valuation, conducted annually, by an independent actuary using projected unit credit method, in accordance with notified Accounting Standard 15 (Revised 2005) – 'Employee

Benefits'. Actuarial gains and losses are either recognized in the statement of profit and loss or inventorized as a part of real estate project under development, as the case may be.

In some companies, where actuarial valuation is not applicable, the liability is determined on accrual basis.

Expense in respect of other short-term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

i) Stock based compensation

Stock based compensation expense are recognized in accordance with the guidance note on 'Accounting for employee share based payments' issued by the Institute of Chartered Accountants of India ('ICAI'), which establishes financial accounting and reporting principles for employee share based payment plans. Employee stock compensation costs are measured based on intrinsic value of the stock options on the grant date. The compensation expense is amortized over the vesting period of the options.

j) Leases

Lease payments under operating leases are recognised as expense in the statement of profit and loss over the lease term.

k) Foreign currency transactions

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the exchange rate between the reporting currency and the foreign currency at the date of the transaction to the foreign currency amount.

Conversion

Foreign currency monetary items are converted to reporting currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange Differences

Exchange differences arising on settlement, or restatement as at reporting date, of long term foreign currency monetary items, at rates different from those at which they were initially recorded, in so far as it relates to acquisition of depreciable capital asset are added to or deducted from cost of such capital asset and depreciated or amortized over remaining useful life of the asset.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise except those arising from investments in non-integral operations.

Exchange differences arising on monetary items that in substance forms part of the Group's net investment in a non-integral foreign operation are accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognized in the statement of profit and loss.

l) Taxes on income

Current tax

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations.

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The Group reviews the same at each

balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that the Group will pay normal income tax during the specified period.

Deferred tax

Deferred tax resulting from timing differences between taxable income and accounting income is accounted for at the current rate of tax or substantively enacted tax rates as at reporting date, to the extent that the timing differences are expected to crystallize.

Deferred tax assets are recognized where realization is reasonably certain whereas in case of carried forward losses or unabsorbed depreciation, deferred tax assets are recognized only if there is a virtual certainty supported by convincing evidence that such deferred tax assets will be realized. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date.

m) Provisions and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made. Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or,
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

n) Earnings per equity share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

o) Share issue/buyback expenses

Share issue/buyback expenses are adjusted against securities premium account to the extent of balance available and thereafter, the balance portion is charged off to statement of profit and loss, as incurred.

p) Preliminary expenses

Preliminary expenses are adjusted against securities premium account (net of tax) to the extent of balance available and thereafter, the balance portion is charged off to the statement of profit and loss, as incurred.

q) Segment reporting

The group identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/ loss amounts are evaluated regularly by the executive management in performance assessment and decision making with regards to resource allocation.

r) Unbilled receivables

Unbilled receivables represents revenue recognised based on percentage of completion method as per policy on revenue, over and above the amount due as per the payment plans agreed with the customers.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure B to the Auditor's Report (contd.)

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Companies Act, 2013.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, if any, on the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's knowledge of current events and actions, actual results could differ from those estimates and revisions, if any, are recognized in the current and future periods.

3. Significant accounting policies

a) Revenue recognition

i) Revenue from real estate development projects is recognized on the percentage of completion method. Revenue is recognised in the financial year in which the agreement to sell or application forms (containing salient terms of agreement to sell) is executed, on the percentage of completion method which is applied on a cumulative basis in each accounting year to the current estimate of contract revenue and related project costs, when the stage of completion of each project reaches a significant level which is estimated to be at least 25% of the total estimated construction cost of the respective projects. Revenue from constructed properties for all projects commenced on or after April 1, 2012 or project where the revenue is recognized for the first time on or after the above date, is recognized in accordance with the Revised Guidance Note issued by the Institute of Chartered Accountants of India ("ICAI") on "Accounting for Real Estate Transactions (Revised 2012)."

The estimates of the saleable area and costs are reviewed periodically and effect of any changes in such estimates is recognized in the period such changes are determined. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that the Company will pay normal income tax during the specified period.

Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date.

k) Provisions, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made. Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or,
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
