## 26<sup>th</sup> Annual General Meeting

Friday, July 22, 2016 1100 Hours (IST)

Venue: Persistent Systems Limited Dewang Mehta Auditorium, Bhageerath, 402 Senapati Bapat Road, Pune 411 016, India

Remote e-Voting Period: From 0001 Hours (IST) on Tuesday, July 19, 2016 till 1700 Hours (IST) on Thursday, July 21, 2016

Over the last few years, we have seen an exponential growth in the proliferation of devices and sensors which are generating large volume of data, our ability to exploit cloud computing for storage and compute at scale at affordable prices, and the speed and wide reach of high-bandwidth communication channels.

The wide availability of mobile devices has ensured that each one of us has our own personal window to contribute, interact and respond to all that is happening around us on the internet. We live in a culture where we want access to information and want to respond instantaneously.

Advances in technology to manage large volume of data, coupled with advances in automation and machine-learning, has made it possible for us to monitor, observe and respond to changes in the world around us.

Running a business in this fast-changing and demanding world is both a stimulating and formidable challenge. This overwhelming and relentless pace of change is causing continuous disruption.

The process is continuous and we must respond - by design!

#### Continuous Transformation by Design

## Digital Transformation thrives on Continuous Innovation

We live in a world where digital technology is being used to deliver transformational experiences that have made our daily lives more enriching. Services such as Airbnb, Uber, Flipkart and Amazon have become mainstream and we see new innovative applications on an everyday basis.

Innovations in business models, user experience and the ability to deliver these innovations to customers rapidly and at scale, are the hallmark of successful digital disruptors.

The evolution of the programmable web has made it possible for systems to integrate data across the internet to provide experiences that are immediate in real-time, integrated and intelligent.

The growth of connected devices and the phenomenal rise of cell phones has made every aspect of our existence connected to the internet. Homes, cars, factories, wearables, and consumer electronics are being managed and monitored remotely.

This journey of continuous disruption will thrive on a constant endeavor to reinvent and innovate services.

## Bringing Digital Transformation to the Enterprise

In this new connected world, disruptive forces are coming from all directions and enterprises must be prepared for competition, not just from known peers but also from next-generation born-digital companies. These fresh start-ups are not encumbered by physical legacy constraints or a mindset that limits how they see the world. They do things differently. They listen to customer requirements, experiment and are set-up for continuous delivery, seamless integration and are able to respond rapidly with actionable intelligence.

Innovative transformational solutions, commonly available on the internet, are hard to replicate within the enterprise. It may appear seemingly trivial to integrate systems and data that are primarily in enterprise control. However, the complexity and inflexibility of deeply-entrenched legacy systems make this task hard. Responding with alacrity, on a continuous basis, requires a culture that is agile and encourages innovation and experimentation at speed.

Users today have an insatiable appetite for compelling experiences. They expect and get them in their personal lives on the Internet, and they expect the same from their enterprise applications.

Users expect experiences which make their job easier. Experiences that are task-centric, actionable and personalized for individual use. User demands will continue to evolve and the business must test, experiment and respond continuously and by design.

## Yes, enterprises want Digital Transformation. Persistent shows HOW.

Digital Transformation is not a one-time project but is a continuous activity. Users are expecting compelling and pervasive experiences that make their task easier and allow them to take advantage of digital and physical existence. Such experiences are built on interfaces that combine data from internal enterprise systems, external (web) sources and with data collected from sensors in real-time.

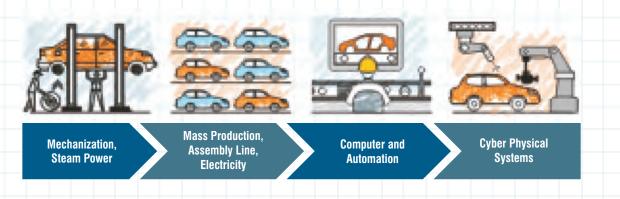

To succeed, enterprises must become software-driven. They must transform their processes and set-up infrastructure and systems which can be deployed at speed and scale. Persistent's Vega digital experience framework helps enterprises transform to become software-driven businesses. To deploy compelling experiences, Persistent's Vega framework helps enterprises establish the following:

- **APIs** Establishing a robust API framework across various layers of the enterprise.
- **Software 4.0** Processes and automation to deliver software rapidly and at scale.
- **Data Integration** Building [connects] from enterprise systems, external data systems and sensors, so that the data is accessible to experiences in a secure and robust manner.
- Intelligence Personalized experience is the key. Modern systems must learn continuously from user behavior and other available signals.
- **Rhythm** Enterprises must establish a rhythm to build and deploy experiences that users need.

## Industry 4.0 and the Internet of Things

A wide range of sensors and interconnected devices have taken the internet to the next generation. It is estimated that there will be more than 50 billion devices or things connected to the internet by 2020.

The impact of this is nothing short of the magnitude of the Industrial Revolution of the 1800s. That revolution improved the process of manufacturing which led to mass-production of goods at affordable costs. Looking ahead, "things" will reconfigure themselves in the field, and will monitor, measure and share their parameters to the global cloud in real-time. With sophisticated machine-learning algorithms being built in the platform, manufacturers and users will be able to optimize the performance of these things, in the context of millions of other objects (things) in the field.

The Industry 4.0 revolution will improve the way we manufacture, distribute and operate every system that is known to mankind.

Persistent's Vega digital experience frameworks integrate best-of-class IoT solutions and help manage and make sense of the data that is being generated by devices connected in the internet.

## **Application Programming Interfaces (APIs)**

Today's internet is not just accessed by humans but is increasingly being accessed by systems, robots and devices. Over the last 10 years, the internet has evolved to allow systems to communicate and respond securely and programmatically. APIs or application programming interfaces are designed so that systems with validated credentials can query and access systems widely available on the internet. Systems are designed to respond to queries from programs with data that is machine-readable.

With the scale and reach of the internet, it is essential that these protocols must be built and managed efficiently in a distributed fashion, rather than being managed centrally.

The programmable web has made the internet not just a repository to view information but also made the internet responsive and actionable.

## **Machine Learning**

Artificial Intelligence has always fascinated computer scientists ever since the mid-60s when computers started becoming commercially available. But achieving meaningful success has always been the Holy Grail.

The quest and the eventual success of computer programs in competing with humans in specific activities such as:

- Deep Blue beating Gary Kasparov at chess in 1996
- Watson winning the Jeopardy competition in 2011, and
- AlphaCo beating Lee Sadol at the ancient Chinese game, 'Go' in 2016 have brought machine learning into the limelight.

The increased availability of computing power, the ability to access and manipulate data across data sources on the internet and next-generation algorithms have made it possible to leverage artificial intelligence and machine-learning for commercial applications at reasonable cost.

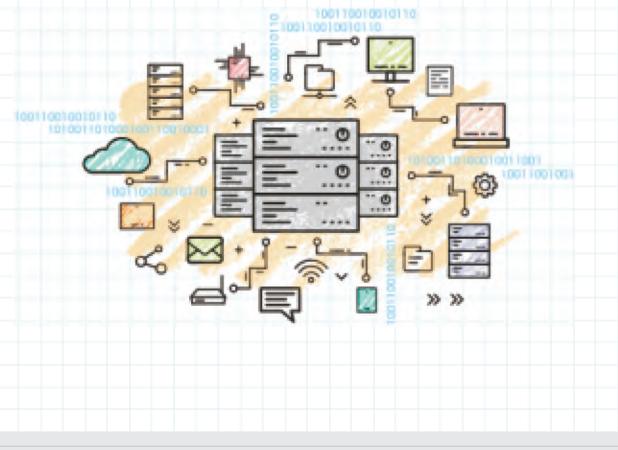

## **Data Integration**

Enterprises manage their business with a set of systems of records where all transactions of relevance are stored and managed. In addition to base transaction data, enterprises have warehoused this data in different ways to allow users to query and report on aggregates and summaries that combine data from different systems of records.

In today's world, decisions are being made not just on the basis of internal data, within the control of enterprise, but also on the basis of external data that is available and accessible on the internet. With the advent of the Internet of Things (IoT), the number of sources of data have significantly increased. Each device has multiple sensors which can be monitored, to provide users with actionable insights.

Integrating data across various sources so that the API call made by the user application gets the desired results is a tedious task. Persistent has evolved a methodology to build this integration for enterprises incrementally and iteratively.

#### Continuous Transformation by Design

Building software for 4.0 requires different techniques and discipline. The "How" of building a software-driven business and managing software-driven things at speed is Software 4.0. It is a collective term that brings together different techniques that are necessary to build and deploy software in the new world of continuous integration, devops and agile development.

Traditionally, software development was a sequential process-design, followed by implementation, testing, deployment and operation. Each process had a separate team that operated in silos. The entire cycle would take months. In a changing world, there is always a risk that an innovative feature which was considered path-breaking when the project started, is no longer relevant or has already been provided by a competitor, at the time of deployment.

We are operating in a fast-moving world, and successful disruptors are following processes that allow them to deploy features in production, very rapidly, several times in a day. This is possible by breaking silos, following disciplined processes that are automated, leveraging tools and integrating teams to work across all aspects of software development. This also demands that the process of innovation is a collective team effort and there is a framework for collaborative ideation. In order to accomplish this at speed, institutionalized design thinking must be part of the work culture.

Persistent's Software 4.0 methodology helps enterprises adopt these disruptive techniques and transform themselves continuously.

## **Smart Cities**

The "How" of transformation is equally applicable in the Indian context. The ambitious vision of "100 smart cities by 2030" requires a well-thought-out strategy for creating self-sustaining cities. Such cities, powered by digital technology, will generate economic opportunities and provide quality of life to its citizens.

Indian cities are growing at an exponential rate. It is estimated that approximately 600 million Indians will be living in cities by 2030. This growth requires the orchestration of complex administrative machinery wherein city administrators can efficiently manage cities using actionable insights. This is possible via deployment of connected devices in a city's infrastructure and enormous amount of data exchange in real-time. e.g. various city indicators like water purification system's quality levels, open parking spaces and waste containers' filling level can be managed remotely. On the other hand, smart citizens would expect efficient experiences to interact with the city officials and citizen services. Thus, digital transformation plays a pivotal role in building a Smart City.

A smart transformative solution will be based on a paradigm of software-driven cities enabled via data, APIs and experiences for its administrators and citizens. However, cities are struggling with the "how" of continuous transformation. While smart solutions are available aplenty, factors like Indian society, diversity, history, political influences, regional alignments and resource availability pose different challenges in the adoption of such solutions. As a result, cities, too need a framework of quick experimentation, prototype deployment and feedback loop from citizens. In order to transform themselves truly, India's Smart Cities, too will need a Software 4.0 based approach.

## Continuous Transformation of Persistent by Design

Over the last twenty-five years, we have lived through different technology shifts and business changes. We have continuously transformed ourselves to thrive in changing business conditions. Staying focused and being seen as a market leader has been our hallmark and that has helped us differentiate ourselves from our competition.

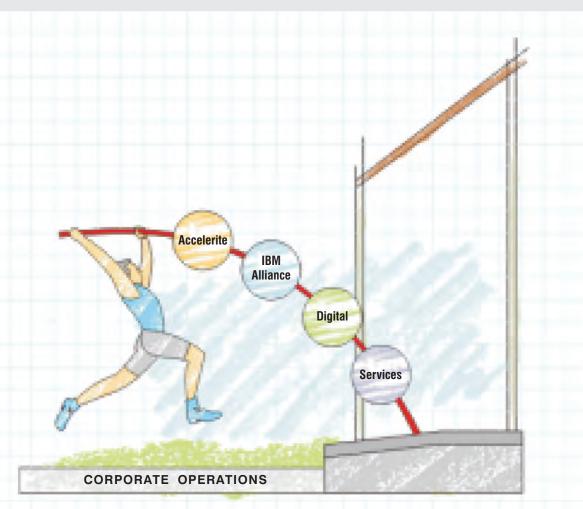

When we first started in 1990, outsourcing was a new concept and we were trend-setters as we worked on innovative and core projects for new database companies of that time.

In 2001, as the market started to climb up after the dot-com burst, we extended our offering from boutique projects to full-lifecycle product development and defined the category around Outsourced Product Development (OPD) establishing leadership in that area.

In 2008, when the market rebounded after the financial crisis, we transformed to extend our offering for product companies by not just working for them but working with them as joint go-to-market partners. We also took on the responsibility of taking over their non-strategic products.

#### **Persistent Systems Limited**

As we prepare to respond to changes in market forces, we have reorganized ourselves into four profit centers and a cost center. The new organization is designed to enhance focus, speed and efficiency of execution.

- Services Unit is designed with the customer at the center. With a focus on long-term relationships, the services business will deliver to the requirements of our customers.
- **Digital Unit** is designed to work with partners and deliver solutions to our customers to help them become software-driven businesses.
- IBM Alliance Unit is focused on working closely with IBM, our largest customer.
- Accelerite Unit is the products business of Persistent. Accelerite is focused on delivering compelling products to our customers.

In addition to the four profit centers, we have created a Corporate Operations Unit whose focus is to support the four profit centers.

## From the Chairman's Desk

## Continuous Transformation by Design

#### Dear Shareholders,

Continuous transformation has been the hallmark of our journey over the last 25 years. Starting out with a small team focused on working on database internals, we have transformed into a global Company focused on helping our customers become software-driven businesses. And the journey continues.

This was our twenty-fifth year of business and we ended the year with revenues of ₹ 23,123.31 Million and profit of ₹ 2,973.61 Million. The quarter ending March 2016 was our  $100^{th}$  Quarter and we achieved the important milestone of crossing \$ 100M revenues in one quarter.

As we look forward to the next phase of the growth of the Company, we find ourselves extremely well-placed in the midst of exciting shifts in the market. For the last two years, we are focused on Enterprise Digital Transformation where we are helping our customers transform themselves to become software-driven businesses and helping them respond to the changing environment and demands. As connected devices and the Internet of Things (IoT) have started to become important, we have significantly enhanced our offering in enterprise digital transformation this year when we announced an alliance with the IBM Watson IoT business in February 2016.

This alliance strengthens our relationship with IBM, our largest customer, as we take over the engineering responsibility for the continuous lifecycle management product suite. The vision for these products is compelling as leveraging the Watson IoT platform, the "things" will reconfigure themselves in the field, and will monitor, measure and share their parameters with the global cloud in real-time. With sophisticated algorithms that are part of the Watson analytics platform, customers will be able to optimize the performance of these devices in the context of millions of other objects (things) in the field. This revolution will improve the way we manufacture, distribute and operate every system that is known to mankind. We are very excited to be a part of shaping this revolution. During the year, Accelerite, our products brand made two strategically important acquisitions – Aepona from Intel and CloudPlatform from Citrix. These two products, along with the Radia End-Point client management product which we acquired from HP a couple of years back, were the mainstay of the Accelerite business and our IP portfolio.

As we combine forces with IBM to deliver continuous life cycle management for things, and with additions from Aepona and CloudPlatform, we have established new development centers in several locations across the world, setting us up to be a truly global Company.

Product development, however, continues to be our focus. Our experience and DNA in product development has become extremely relevant in the market. With a focus on transformation, not only traditional product companies but also innovative enterprises are keen to become software-driven businesses. This has enhanced our addressable market significantly. The speed of execution and the ability to deliver incremental updates to a large number of things on the internet will define how next generation software will be built and deployed.

With our alliance with IBM, we have added an engineering team that is building products and tools for continuous lifecycle management and has helped large enterprises enhance their processes to deliver speed and efficiency necessary for next generation software development.

To set ourselves up for future growth and to ensure that we are able to meet the requirements of our customers, we have reorganized ourselves into four business units effective from April 1, 2016. The Services business will focus on our traditional business model of outsourced product development and will deliver services to the requirements of our customers, the Digital business will build solutions for enterprise digital transformation, the IBM alliance will focus on all our IBM business and the Accelerite business will be our products business. These four business units will be supported by the Corporate Operations business unit. Each of these business units will be led by a President who will have complete responsibility for sales and delivery and will operate their own P&L statements.

Geographic expansion was the hallmark of this year. We added Belfast and Colombo in October 2015 and from April 1, 2016, we added Raleigh, NC, Costa Mesa, CA, Littleton, MA, Hillsboro, OR, Ottawa in Canada and Guadalajara in Mexico. From June 1, 2016, we added Edinburgh, Scotland and Rehovot, Israel. We also upgraded our facilities in Santa Clara, Hyderabad and Bengaluru.

I am proud to report that Persistent Foundation continued their stellar work of making a difference to society. Fulfilling our promise of building toilets for more than a hundred municipal schools, installing solar panels for Pune Railway Station and significant contribution towards watershed projects were the hallmark projects of this year.

As we complete our first twenty-five years, we are excited at the prospects and the opportunities that are ahead of us. Our investments in technologies for Enterprise Digital Transformation and the Internet of Things, our alliances and partnerships with market leaders, and our global team of nearly 10,000 Persistent people has set us up well to work with enterprises that are in the midst of transformation. As we extend our offering beyond our traditional customers – from those in the business of software to those who are becoming software-driven businesses – we are excited about how we will transform and are ready to meet the challenges that lie ahead.

Finally, I thank all our shareholders, customers and employees for their continued support and assure them of our sustained best efforts to ensure the success of Persistent.

Sincerely,

Anand Deshpande, Ph.D. Founder, Chairman and Managing Director

## Message from the Executive Director and President – Services

66

Persistent Systems has been consistently recognized as a pioneer and leader for software product development. Our customers including Silicon Valley start-ups and born-digital companies are at the forefront of innovation.

MRITUNJAY SINGH Executive Director and President – Services

We are starting to see significant shifts in how customers are sourcing and looking for service delivery models that combine proximity, innovation, agility and cross-skilled talent. This is a challenge for delivery models based on traditional approaches to systems integration or IT outsourcing. These models, optimized for size and specialization, are now being challenged by the unpredictable speed of digital disruption and in customers' transformation journeys.

Digital transformation is changing the rules of the game of service delivery and consumption. Today, it is possible to do more with fewer people and in lesser time. New business models are being built by smaller teams using entire technology stacks, with active customer involvement. Speed with customer-specific or micro-industry focused innovation are now key differentiators. These are characteristic of software development and product engineering than IT services.

Persistent Systems has been consistently recognized as a pioneer and leader for software product development. Our customers including Silicon Valley start-ups and born-digital companies are at the forefront of innovation. Partnering with them in their innovation journey sharpens our focus on speed. Our software product DNA is a reason why our agile delivery capabilities rate among the best in the industry. This uniquely positions us to serve customers in the business of software (ISV) as well as enterprises across industries who are becoming software-driven in their business.

Our strengths are now relevant to a larger market, as enterprises across industries look for speed and the ability to continuously co-innovate. Our focus on the industry shifts or convergence in the worlds of finance, life sciences and healthcare as well as media and communications combined with our software product DNA create significant growth opportunities for us.

A little over three years ago, I was attracted to Persistent by the challenge of scaling a company focused on speed and innovation. Building scale in teams, practices and organizations have always excited me. Now, I look forward to combining my passion for scale with the market need for continuous speed to grow the Services business of Persistent Systems.

## Message from the President - Digital

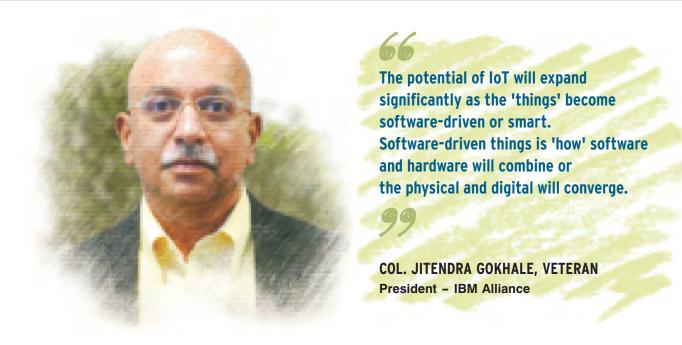

Over 40% of S&P 500 companies in 2005 find no place in 2015 list, a trillion dollars of market value impacted in 10 years. The size as much as the speed of this change is noteworthy. The only way for a company to create and sustain value in this environment is to continuously transform in the context of technology advancements. Technology advancements are raising the benchmark for product and service experiences, with consumer experiences defined by companies like Apple, Amazon and Google.

The "why" of digital is obvious and the frequency of change in the "what" makes a mastery of the "how" of digital most significant. Digital transformation must be a "continuous transformation by design" and not a one-time modernization. It is about continuously crafting new lights, not just keeping the lights on.

This is a transformation about how to sell to customers, engage with employees, and cultivate their loyalties. At the same time, the company has to modernize some legacies while discarding others, to increase the speed of its decisions or actions. All this points to how a business is experienced by its stakeholders, by consumers, partners, channels and employees. Our focus on the "how" of Digital is based on continuously and rapidly building new experiences, using a platform-centric approach. Integrating internal and external data and moving to a software-driven business model form the foundation of this platform-centric approach. Software-driven is not just about software, but also a mindset to continuously discover, design and manage digital experiences in an agile fashion. This focus on the "how" has led to our recognition as a leader in digital transformation.

As a citizen of Silicon Valley since the advent of the Internet, my thinking had been continually shaped by technology advancement and entrepreneurship. During my stints as an entrepreneur and almost a decade at Persistent, I have always been on the front-line in sales and close to customers. I now look forward to bringing an entrepreneurial approach to grow the Digital business of Persistent Systems.

## Message from the President – IBM Alliance

Internet of Things (IoT) will accelerate digital transformation in our lives and across industries. Experiences are becoming pervasive and moving beyond computers or smart phones to wearables and smart devices.

IoT represents a data challenge as well as an opportunity. Every device, sensor reading, motion detected, or touch is contributing to a data explosion. By 2020, there will be about 7.7 billion people on planet Earth and current estimates are over 30 billion connected devices or things. That could mean 44 ZetaBytes of data. Such large volume of data in real-time can lead to new consumer experiences and transformation of enterprise operations. Actionable insights based on this data can lead to new forms of monetization, revenue streams, and even business model shifts.

The potential of IoT will expand significantly as the "things" become software-driven or smart. Softwaredriven things is "how" software and hardware will combine or the physical and digital will converge. On the lines of Industry 4.0 which is a vision for the next generation of factories and industrial manufacturing, we are betting on software-driven things to become pervasive beyond the industrial world. It will also change how software is designed, deployed and managed. Companies which aspire to continuously transform themselves using IoT will seek the ability to discover, deploy, and manage new experiences and derive actionable insights with speed. Software 4.0 is our metaphor for the "how" of software-driven things and Industry 4.0 including the rising significance of continuous engineering, integration and life cycle management across software and hardware.

Persistent has bet on our IBM alliance for IoT. This spans many IBM products and technologies including the cognitive technologies in IBM Watson, Watson IoT and BlueMix as well as IBM products for Continuous Engineering and Lifecycle Management; and a number of business management and functional applications in the IBM portfolio. This is my 14<sup>th</sup> year at Persistent Systems. For the last 4 years, I have focused on service delivery related to IBM products and technologies. Taking charge of the recently formed IBM Alliance and building on the 360-degree relationship with IBM excites me, to together pursue the IoT opportunity.

## Message from the President – Accelerite

Accelerite compliments the leadership of Persistent in product development services... Like it is for Accelerite, Silicon Valley is my home turf, with deep roots in software products, engineering and entrepreneurship.

NARA RAJAGOPALAN President – Accelerite

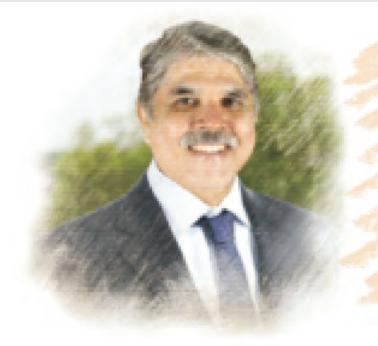

The life of software products is defined by market conditions as well as the strategy and health of the company that owns them. Persistent Systems provides services for many products that over time become non-strategic to customers. Accelerite compliments the leadership of Persistent in product development services, with a business model to take-over such non-strategic products.

Large software companies have many under-invested products in their complex portfolios that are being challenged by "born-in-the-cloud" products and SaaS models. This is an opportunity for value-creation, akin to finding diamonds in the rough. Accelerite is positioned as a Silicon Valley based product company for such products to find new shine. This is unique and different from outsourcing by a services firm, or a private equity take-over, motivated by financial engineering and not product engineering.

Accelerite builds on the software product DNA of Persistent. It is based on a proven framework for value creation to rejuvenate legacy products, using agile release cycles, user interface enhancements, multi-tenancy, improved analytics, extending point products to platforms, new connectors and integrations, shift to SaaS and supporting communities. Such rejuvenation focuses on delighting the existing customer base. For products in growth markets, enhancements drive value creation. The CloudSense appliance, based on CloudPlatform (acquired from Citrix) or enhancing Aepona (acquired from Intel) into a cloud-neutral IoT platform are examples of this rejuvenation. Pivoting the acquired product into fast-growing adjacencies is another approach to value creation, such as our focus on Cyber Security by pivoting Radia, an end-point management product (acquired from HP).

Like it is for Accelerite, Silicon Valley is my home turf, with deep roots in software products, engineering and entrepreneurship. My relationship with Persistent Systems started as a customer, before I joined the Company to build its products business. This led to formation of Accelerite in 2014 which I have since run as CEO. The technology spaces (IoT, Cloud Lifecycle Management and Cyber Security) and the growth prospects of the products portfolio in Accelerite excite me today, as much as the continued success of the product take-over strategy that it represents for Persistent Systems.

## Message from the President – Corporate Operations

66

The journey of continuous transformation which we have committed ourselves to, will change our culture, processes and systems. Such a transformation should strengthen and accelerate the growth of our business.

ATUL KHADILKAR President – Corporate Operations

The ability to continuously transform itself by design applies to Persistent in the same way as it applies to customers in their digital transformation journey. The career experience of our employees and the service experience for our customers will guide our continuous transformation.

People are the biggest asset for any company, and especially so in our business. Jack Welsh has famously said that no company, small or big, can win in the long run, without energized employees who believe in the mission and understand how to achieve it. An expanding global footprint reshapes our culture, as does the changing mix of generations in our workforce. We strive to provide personalized experience to this workforce from hire-to-retire, at every touch point of their career progression. We aspire that our employee's Life at Persistent should be and will be the most rewarding experience of his or her lifetime. Our efforts in the transformation of our employee experience has been recognized and won awards at various industry events. No surprise that this transformation is based on the same "how" of digital and the vision of being software-driven in business that drives our customer value proposition.

The journey of continuous transformation which we have committed ourselves to, will change our culture,

processes and systems. Such a transformation should strengthen and accelerate the growth of our business.

Persistent is recognized for its leadership in software product development. We are defined by our agility and a software product DNA. We nurture it with hackathons that have engaged employees in what they do best for many years now, and more recently with partners and customers. I have had an unique privilege to be a part of Persistent in its earliest years when this software product DNA got defined, before coming back in 2011 to lead service delivery for product engineering services. The opportunity to empower and enable teams and the Company to achieve success excites me the most about my role to lead the newly-formed Corporate Operations Unit. It will be a continuous journey of transforming our experiences, exploring new ideas, implementing initiatives and embracing the challenges of the future.

## Message from the Chief Financial Officer

The Company continued to maintain its growth momentum during FY 2015-16 by registering revenue of ₹ 23,123.31M (USD 351.65M) against ₹ 18,912.52M (USD 308.54M) for FY 2014-15. The revenues contribution was as follows: OPD - 52.4% (58.6% in FY 2014-15), Enterprise - 26.5% (22.3% in FY 2014-15) and IP led - 21.1% (19.1% in FY 2014-15).

The change in business-mix is partly attributed to change in market dynamics, with many software product companies realigning their business models, and also due to our increased focus on EDT and platform-led sales growth.

On the margin front, Earnings before interest, depreciation and taxes in absolute terms grew by 6.0% during FY 2015-16 and stood at ₹ 4,137.86M (17.9%) as compared to ₹ 3,903.47M (20.6% in FY 2014-15) mainly because of higher revenue from global delivery centers i.e. 28% of total revenue (24.8% in FY 2014-15). Credit goes to our global footprint, higher platforms-led revenues which are more onsite-centric and our investment in sales and marketing.

Overall, the PAT for FY 2015-16 was ₹ 2,973.61M (12.9% of revenue) against ₹ 2,906.31M (15.4% of revenue) for FY 2014-15 with a growth of 2.3%. The foreign exchange gain reduced to ₹ 147M in FY 2015-16 (₹ 469M

in FY 2014-15) mainly because of USD appreciating sharply and the spot rate coming close to the hedged rate. The outstanding hedges at the end of FY 2015-16 stood at USD 104M at an average rate of ₹ 69.74 per USD. Our dividend payout was ₹ 8 per share for FY 2015-16 at 25.9% ratio as compared to ₹ 7.50 per share for FY 2014-15 at 24.8% ratio (excluding Special Silver Jubilee Dividend of ₹ 2.50 per share).

The Annual Investor Day was held on 4<sup>th</sup> December 2015 at Hinjewadi<sup>\*</sup> where we showcased some of our offerings and solutions. We thank our investors for taking time out for this event.

#### Priorities for 2016-17

The changing market dynamics present interesting and challenging opportunities. We will continue our focus on growth, through disciplined investments and resource allocation. As a part of the recent alliance with IBM, we are a preferred partner with IBM, to take our solutions and services to Industry 4.0 customers, where the idea of software-driven things is a major driver for digital transformation.

I am grateful to our investors for their continued support. I take this opportunity to thank our outstanding finance and secretarial teams. We will strive to do our best every day.

### Message from the Chairperson – Persistent Foundation

A unique feather in our cap has been our collaboration with the Ministry of Railways and its Pune Division in setting up a Solar PV system at the Pune Railway Station. This will help the railway station generate about 60% of the daily power requirement.

SONALI DESHPANDE Chairperson – Persistent Foundation

As the year draws to a close, it is time for us to look back and reflect on our efforts and achievements. I feel a big sense of satisfaction and contentment at the targets we had set for ourselves and the

results we have accomplished.

One major success has been the construction of toilet blocks at more than 100 municipal schools. We feel fortunate to have been able to provide clean and sanitary toilets to underprivileged children and help to inculcate habits of hygiene and cleanliness in them.

A unique feather in our cap has been our collaboration with the Ministry of Railways and its Pune Division in setting up a Solar PV system at the Pune Railway Station. This will help the railway station generate about 60% of the daily power requirement through the use of solar energy, thus making a contribution to the cause of promoting Green Energy.

The various water related initiatives undertaken by us were our small contribution to help conserve water in wells, streams, dams and reservoirs by de-silting, constructing bunds, digging wells, linking streams and so on. These and similar efforts are in preparation of the anticipated monsoon. We hope our efforts bear fruit and that the work done actually benefits the surrounding villages and farm lands.

As another year begins, we are fully charged and excited at the new challenges and demands we will have to deal with. We have equally ambitious aspirations for this year and look forward to committing our time and money towards other noble causes in order to help society deal with the basic needs that we take so much for granted. We have always espoused a sincere commitment to the cause of society we live in and attempted to make a positive impact in the lives of people around us while working on our focus areas.

Before I close, I would like to express my heartfelt gratitude to all our NGO partners for helping us in our endeavors. We would not have achieved such success without their valuable contribution and expertise. As always, our Trustees are our pillars of strength, support and encouragement. They continuously motivate us to set our goals higher every year.

Last but not least, the real contributors, the employees of Persistent Systems, deserve a special mention. They have spent their time and donated their money, thus enabling us to fulfil our goals. I cannot thank them enough and only hope for their continued cooperation in the future.

## Persistent Foundation's Key Projects during FY 2015-16

Persistent Foundation takes up projects that help the community solve problems and improve their lives. The year 2015-16 was remarkable, as three flagship projects were undertaken and completed during this year.

#### 'Jalyukt Shivar Yojana': Watershed Projects in Maharashtra Villages

In view of the drought situation in Maharashtra, Persistent Foundation collaborated with the Government of Maharashtra in executing watershed projects in the state under the 'Jalyukt Shivar Yojana'. The project aims to make 5,000 villages free from the scourge of water scarcity every year.

## 'Swachh Vidyalay Abhiyaan': 100 Toilets for PMC Schools

In response to 'Swachh Bharat Abhiyaan', an appeal by Mr. Narendra Modi, the Hon'ble Prime Minister of India, Persistent Foundation worked with the Pune Municipal Corporation to construct / refurbish toilet blocks for 100 schools.

## Go Green: Solar Power at Pune Railway Station

In a first of its kind in India, Persistent Foundation joined hands with the Pune Division of Central Railways to install a rooftop solar PV system at the Pune Railway Station. It is an endeavor to provide 'Eco-friendly Power Generation', and an important step towards eventually creating a 'Green Station'.

## **DIRECTORS' PROFILE**

Dr. Anand Deshpande Founder, Chairman and Managing Director

Dr. Anand Deshpande is the Founder, Chairman and Managing Director of Persistent Systems since its inception and is responsible for the overall leadership, strategy and management of the Company.

Anand holds a B. Tech. (Hons.) in Computer Science and Engineering from the Indian Institute of Technology (IIT), Kharagpur, and a M.S. and Ph.D. in Computer Science from Indiana University, Bloomington, Indiana, USA.

As a true technology visionary, Anand's strengths lie in identifying and investing in next-generation technologies and encouraging internal entrepreneurship to ensure that Persistent Systems stays at the forefront of technology innovation.

Anand has been the driving force in growing Persistent Systems from its inception in 1990, to the publicly-traded global Company of today. He has been recognized by his alma mater, IIT Kharagpur, as a Distinguished Alumnus in 2012 and by the School of Informatics of Indiana University with the Career Achievement Award in 2007.

Prior to founding Persistent Systems, Anand began his professional career at Hewlett-Packard Laboratories in Palo Alto, California, where he worked as Member of Technical Staff from May 1989 to October 1990.

## **Investing in Start-ups**

It has been our constant endeavor to encourage innovation and to support cutting-edge work on disruptive technologies. We strongly believe that innovation is happening everywhere and to stay current, Persistent must engage with start-up companies which are the hotbed of innovation and new ideas. Since July 2013, we have been investing in start-ups.

We strive to be the strategic investor rather than just the financial one. For strategic alignment, we invest in companies whose technology landscape is similar to our interest. Secondly, their customers must align with our customer eco-system. The typical investment would occur after a seed funding round either as an angel investment or as part of the first round of institutional capital. We invest amounts between USD 100K to USD 250K in any one company.

Till date, the fund has made a total investment of USD 1.78M in nine start-up companies. Summary of the operations of these companies is given below:

- Ustyme Inc.: It has developed a platform that enables two people to read a book, or play a game while seeing and talking to each other.
- DxNow Inc.: It is developing rapid point-of-care diagnostic tools for use in renal dialysis.
- Altizon Systems Pvt. Ltd.: Works on Internet of Things (IoT) and has developed a platform called Datonis which communicates from machine to machine.

- Hygenix Inc.: Works on healthcare technology which helps hospitals monitor staff adherence to hand-hygiene protocol. The technology aims to reduce hospital-borne diseases.
- Jocata Corporation: It has built its enterprise product in the banking space in the niche area of KYC (Know Your Customer), AML (Anti-Money Laundering) and CFT (Combating the Financing of Terrorism) regulatory compliance.
- OpsDataStore Inc.: It has an innovative solution which enables an organization to manage all its IT operations data in one easily accessible real-time data store.
- Ampool Inc.: It is developing a software to speed up data exchange among disparate distribution systems through a technology called "memory pooling".

### VLDB 2016 and 'Digital India'

New Delhi, September 5-9, 2016

We are hosting the 42<sup>nd</sup> International Conference on Very Large Data Bases (VLDB) in New Delhi from September 5-9, 2016. VLDB is a premier annual international database research conference and is being held in India

for only the second time. The last time VLDB was held in India was in Mumbai in 1996.

The conference consists of peer-reviewed contributed papers, tutorials and workshops and is well attended by a mix of academics, practitioners and students. We expect an attendance of about 650 participants, half of whom are expected to be international participants. The Prime Minister has made Digital India a priority. With a population in excess of 1.3 billion, nearly a billion Aadhar cards and 200+ million Jan-Dhan Yojana accounts, anything India-scale implies large data. In conjunction with the VLDB 2016 conference, we are also hosting a one-day Digital India Symposium. It aims to highlight India-scale challenges and showcase innovative solutions. To create excitement about data management issues and to get wider participation, we are hosting a data hackathon with a finale during the VLDB conference.

For more information on the VLDB 2016 conference and the Digital India event, please visit 'http://vldb.org/2016'.

### **COMAD-CoDS : Sponsoring a stimulating technology feast**

Persistent Systems hosted two major conferences - COMAD (Conference on Management of Data) and CoDS (Conference on Data Sciences) between March 11 and 16, 2016 in

Dr. Anand Deshpande addressing participants of COMAD / CoDS 2016

our office premises in Hinjawadi. COMAD, one of the oldest conferences in the database area, has been organized for the past 20 years by Computer Society

of India (CSI) SIGDATA Group. Persistent had hosted one of the earlier events in 2012.

This was the third edition of CoDS, a conference held by ACM SIG IKDD. This year proved to be a grand week-long 'techfeast' as both conferences were located at the same venue. The conferences were attended by over 225 participants from India and abroad, and included persons from industry and academia. The sessions, consisting of keynote talks, tutorials, contributed papers and posters and industry tracks, focused on cutting-edge technology.

Our former Director - Prof. Krithivasan Ramamritham from IIT Bombay, Prof. Minos Garofalakis of the Technical University of Crete, Ravi Kumar of Google, Deepak Agarwal of LinkedIn and Prof. Eduard Hovy of CMU were some of the invited speakers. Our own, Dr. Mukund Deshpande, gave an insightful presentation on the industry track.

# LIFE AT PERSISTENT

### **Prerana : Inspiring Women**

Prerana means inspiration. Since its inception in March 2009, Persistent's women's forum, Prerana, has lived up to its name and its slogan "Emerge, Enlighten and Empower." This special

initiative for women at Persistent strives to establish an environment that is committed to the personal and professional growth of woman at Persistent. Prerana emphasizes a supportive networking environment for women employees; one that creates leaders who can deliver exceptional results through their business acumen as well as technical and leadership skills.

Prerana aims to:

- Create a gender-sensitive and inclusive work
   environment
- Help women in their career growth, through support groups and by influencing company policies
- Enhance retention of women in the workforce
- Empower women; identify and nurture the leadership abilities of women employees

Prerana seeks to promote leadership among women, through the following programs:

- Development as a professional: This program focuses on providing leadership training in people management skills, problem solving and project management to selected women employees.
- Knowledge or experience sharing: This program enables Persistent women to come together and share their knowledge in different areas through lectures, seminars, group discussions and presentations.
- Work-life balance: Focuses on guiding, supporting and facilitating women employees to maintain an effective balance between their professional and personal lives. This includes initiatives related to anti-harassment, flexible work timings, home drop facility, policy for late working female employees and maternity leave policy.
- Building togetherness: Focuses on promoting togetherness among women employees through engaging and fun-filled initiatives.

Towards these objectives, Prerana organizes several innovative women-centric programs at frequent intervals:

- Expert talks: Prerana invites eminent women leaders who share their stories, advice and insights, while encouraging dialogue and discussion. We have been fortunate to have inspirational women like top cop Kiran Bedi, MD of Everstone Capital and ex-MD of Walt Disney, Roshini Bakshi and renowned gynecologist, Dr. Asmita Gupte, address us and share their insights.
- Leadership training: These programs concentrate on developing people and project management skills and problem solving skills among Persistent women.
- Women's fitness: These include special fitness programs for women. We conduct Zumba workshops, have a dedicated dietician for women and organize talks by experts on women's health issues.

Morning exercise sessions at Persistent

- Women's week: We encourage the participation of Persistent's women employees across all our locations in this week-long series of innovative activities, preceding Women's Day on 8<sup>th</sup> March.
- Policies for work-life balance: These include initiatives related to anti-harassment, flexible work timings, home-drop facility, policy for late working female employees, maternity leave policy and so on.

With a goal of increasing the number of women in Persistent's matrix, Prerana organizes several innovative women-centric activities. Through these, Prerana has successfully connected and communicated with about 20% of Persistent's total workforce which is over 1,500 women employees across the globe. The actual numbers may be even higher, as our talented workforce helps in spreading these messages through social media as well.

Team games on Women's Day

#### Prerana Committee:

Prerana's objectives are designed by an internal committee headed by Shubhada Sidhaye in India. Roshini Bakshi, a member on the Board of Persistent, is also an advisor to this Committee. The Prerana Committee goes through an annual revamping. Currently, the Committee has about 20 senior women leaders from across the globe.

#### Highlights of 2015-16:

- As part of the ongoing endeavor to enable women to excel and grow, one of the initiatives organized by Prerana was the monthly interlock session called "Coffee with Prerana" for all women at Persistent. A variety of topics like grooming, personality development, self-esteem and Follow-the-Leader were covered through this initiative.
- Prerana assisted Persistent Foundation with a focus on activities for women's welfare.
- With a view to make our 25<sup>th</sup> year special, Persistent's annual gathering 'Pulse' was inaugurated with an all-girl event. It was an excellent example of team work wherein the whole was greater than the sum of its parts.
- Prerana arranged a very insightful session with Pune's eminent cardiologist, Dr. Jagdish Hiremath on the occasion of Women's Day.

Flea market fun

 As part of Women's Day celebrations, a flea market by women entrepreneurs was organized at Persistent premises.

Prerana will continue its efforts to "Emerge, Enlighten and Empower" Persistent women across the globe. We look forward to a future filled with new challenges and new trails to be blazed by women everywhere.

## **Diversity at Persistent**

### Inclusiveness and diversity are springboards for multi-faceted strength

At Persistent, we believe that diversity sparks innovation, improves productivity and fuels employee engagement. That's why we are committed to nurturing a rich and diverse work environment, one that both assimilates and celebrates our differences. Managing diversity means minimizing the barriers to creating a productive and varied workforce. We recognize that each person has unique strengths and weaknesses. Embracing these individual strengths and weaknesses is the key to fostering a collaborative and supportive workforce. Our commitment to diversity and inclusion is unwavering, and while we are proud of the work we have done, we know there is a lot more we can still do.

Today, we have a number of initiatives across the company viz.:

- Employee policies that mandate equal opportunities for all
- Anti-harassment committee to ensure non-discrimination
- Mentoring and leadership programs for women employees
- Fair performance appraisal and promotion system
- Targeting recruitment in diverse locations
- Learning programs that offer equal growth opportunities

## **Persistent Computing Institute**

Nurturing talent via innovative ways

Persistent Computing Institute, established in 2014, continued its efforts to improve computer science education in colleges. We conducted two elective courses at College of Engineering, Pune (COEP) and Cummins College, Pune, one on Concurrent Programming and the other on Programming Paradigms.

For final year students who are likely to join the world of Information Technology, we conducted a one-week course titled "Introduction to the Business of IT". This course, attended by 30 students, covered the software engineering process used by the industry. In a separate initiative, we conducted a Winter School session for third year Engineering students on "Essentials of Programming". This two-week training program was attended by 30 students from different colleges around Pune. Apart from PCI in-house faculty, several visiting faculty helped in conducting the sessions.

We were fortunate to have Prof. Sunil Shende of Rutgers University, USA visit us for a month during his sabbatical. He conducted a one-month training program on "Algorithms for Machine Learning and Big Data", which was attended by 35 final year students.

## **Persistent Alumni**

### It's not 'ex' employees here, mate, it's alumni

It is entirely fitting that we think of former employees of Persistent as alumni. After all, alumni derives from the Latin verb, *alere*, to nourish. We know that we have been nourished by our alumni in innumerable ways and we

hope that we have, in turn, nourished their minds and careers. Over the years, we have learnt that, while attrition

is an inevitable part of the business, relationships can endure. Mutual trust and respect form the cornerstones of our association with our alumni. Former employees can be great sources of ideas and intelligence. They help promote the Persistent brand and extend our network as they move across the world. Many of our alumni bring new business to us. They work with us on independent consulting assignments, allowing us to tap into their expertise. Persistent alumni remain an integral part of our events and celebrations. It is a matter of pride for us that

several of our alumni return "home" after spending a few years away. Over the years, we have seen this happen again and again, across ranks and functions, from junior employees to CxOs and from Sales and Delivery to Administration and HR. The reasons may be varied, but they have a common thread, namely the pull of Persistent's work culture and ethos. An internal survey that we conducted recently showed that former employees choose to return to Persistent for its employee-friendly policies, inclusive culture and challenging work opportunities. A large number of employees come back because they feel valued.

As for us, we are simply delighted. The connection is complete.

# **EVENTS FROM THE YEAR**

### **Code Gladiators**

# Emerging victorious in a battle-tested arena.

As we witness a paradigm shift on how software is being developed and deployed, speed of execution and

agility of approach emerge as indispensable assets. Competitive programming is one way of acquiring the crucial skill-sets aligned to this requirement.

Coding lies at the heart of software development and skills like quick thinking, focused problem-solving

(a result of strict continual training) and debugging are critical to develop an elite coder.

Moreover, it provides an opportunity for developers and coders to experiment with various tools, explore, innovate, get instant feedback and engage themselves to have fun while at work. It also allows people to come together and build something that falls outside the domain of their day jobs.

Coders at Persistent have been participating

### Maharashtra Chess League

# Two legends smile and battle, as wizards look on.

Mind games are not just about politics, they can be fun, too. Chess wizard and former World Champion Vishwanathan Anand (who is the brand ambassador for

fervently in TechGig's 'Code Gladiators' contest for the past three years, earning the prestigious 'Coding Power House' title for last three years in a row, a veritable hat-trick of no mean proportions!

Held in April, May and June 2016, this year's programming contest, hosted by The Times Group, set a national record for being India's largest coding contest with 38,392 unique online code submissions and an entry into the Limca Book of Records. Over 80,000 coders from across 9,000 top IT companies coded in Java, C, C++, C#, VB.net, Java Script, Python, Perl, Ruby and PHP in online rounds. This culminated in the top 125 coders meeting in person to battle it out face-to-face.

Persistent charged ahead of all the competitors to emerge at the top, thereby demonstrating its deep-rooted capability and passion for coding. Participation this year was particularly pronounced, paving the way for new ground-breaking milestones!

MCL) and fellow guest of honour, Bollywood's renowned actor-producer Aamir Khan, inaugurated the 3<sup>rd</sup> Edition of MCL on Friday, May 22, 2015 in Mumbai, by playing a friendly game.

Persistent Foundation was the proud co-sponsor for the event. This was the first time, the event had such a high-profile celebrity inauguration and it received substantive coverage in the print and digital media.

The Maharashtra Chess League (MCL), an annual gala for chess enthusiasts, is organized on the lines of the Indian Premier League (IPL) to offer whiz kids a chance to compete for the top prize.

Auction for the MCL event saw a total of 70 registered players going under the hammer, including 13 GMs, 14 IMs and 5 WGMs.

The friendly game lasted for about ten minutes, before Aamir laid down his arms.

## Persistent at Conferences

Showcasing our strengths at global forums

Our participation in conferences reinforce our focus on the "How" of digital, with emphasis on innovative experiences built with speed and agility, the power of APIs and technology platforms. They also reflect our focus on select industries and platform partners.

At **Appian World 2015**, coming on the heels of establishing our Appian CoE in Dublin, OH (USA), we were on center-stage with a demo that combined sensors and drones for new age IoT-driven experiences in the world of finance. We also organized an Appian hackathon at our CoE in Dublin, OH, involving our teams with key customers.

Our "API-Driven" approach to speed and to becoming software-driven as a business was our focus at Apigee's "I Love APIs 2015" conference. Demos focused on transformative experiences in healthcare, financial services, logistics and smart cities. We demonstrated our REST API framework engineered on top of the Oracle Identity platform at Oracle Open World 2015 through healthcare biometric experiences on mobiles and wearables.

Our focus on healthcare highlighted our participation in **Dreamforce'15**. The launch of our Patient Relationship Management Solution was timed with an announcement of Salesforce Health Cloud. We had a notable mention by Josh Newman, Salesforce CMO during the Healthcare keynote at Dreamforce and were specifically called out in their partner release. Related to healthcare, we also announced our work and partnership with REACHNet at

Persistent awarded best partner by Appian at Appian World 2015

**HIMSS 2016** to demonstrate innovative research-specific informatics infrastructure.

We had significant presence at major IBM conferences including **IBM Insights 2015** and **IBM InterConnect 2016**. At InterConnect, Chris O'Connor, GM, IoT business - IBM, called out the extension of our partnership with IBM to lead the IoT revolution.

Appian World Group Shot

A number of our executives also addressed other sessions at conferences, and participated in executive as well as technology expert panels. Most notably, Dr. Anand Deshpande was part of a panel focused on the IoT revolution with leaders from various industries at IBM InterConnect. Closer home, at the **NASSCOM India Leadership Forum 2016**, Dr. Anand Deshpande was part of an elite panel of leaders at Strategy in the Digital Environment, moderated by Noshir Kaka, MD of McKinsey & Company.

### **Digital Pune Hackathon 2015**

### The best way to envision future smart cities is to design them yourself !

The young students who participated in Digital Pune Hackathon 2015 - a unique, city-centric, 30-hour non-stop competition - can vouch for this! The goal? To identify new, disruptive and sustainable digital innovations for solving some of the Pune's current challenges.

Jointly organized by Persistent Systems, Sakal Media Group and i4c in October 2015, this imaginative competition targeted Computer Science / E&TC under-graduate and post-graduate students from colleges across Pune. These young innovators had to code together to build smart applications to address problems in areas like power, water, sanitation, education, public health, transportation and citizen security.

This first-time ever initiative was supported by important city establishments like Pune Municipal Corporation (PMC), Maharashtra State Electricity Distribution Company Ltd. (MSEDCL), Pune, Pune Metropolitan Region Development Authority (PMRDA), Pune Mahanagar Parivahan Mahamandal Ltd (PMPML), Maharashtra Police (Pune), Persistent Computing Institute (PCI) and National Institute for Research in Tuberculosis (NIRT).

The hackathon received over 300 entries from 60+ colleges within 15 days. After an initial screening, 28 smart solutions were selected for the final round. On the day of the hackathon, students worked on some of the Pune's challenges, with an active participation by the Government officials. In a 30-hour time period, they developed innovative solutions, some of which were selected by the Government agencies for further development and implementation. This truly was a synergistic effort to create collaborative smart solutions

### Semicolons

# No full stops in the race to creativity

'Semicolons' is a fun-filled, team-based, 24-hour programming charity contest. A brainchild of Dr. Anand Deshpande, 'Semicolons' is a hackathon where programming teams compete to solve complex problems by using disruptive technology and collective innovation.

The contest begins with employees pledging money to own teams of programmers. Each team then channelizes its energy towards coming up with a technological solution to a complex and daunting problem. The total sum pledged by all the teams together is matched by Persistent Foundation to further boost the charity kitty which is finally distributed to charity organizations supported by the top 3 winning teams.

The 5<sup>th</sup> edition of Semicolons was held on March 12, 2016. This technology-driven, socially-oriented initiative has been growing bigger every year in terms of the number of Persistent employees involved, including personnel from our global development centers. This season witnessed the participation of 32 teams from 8 cities in India and USA.

Technologies like IoT and Blockchain as well as methodologies like Design Thinking were put into play to solve complex problems in Finance, Agriculture, Healthcare, Climate, Enterprise, Sales, Retail, Travel, Insurance, Waste Management, Hunger Elimination, Traffic Management and other domains.

Judges comprising architects, company vice-presidents and start-up founders from technology companies in India and USA, including some from customer organizations, evaluated the imaginative output generated in 24 hours.

This year's winners were the Goa team, who clinched the top place by building a citizen engagement platform to fight global climate change by empowering and incentivizing every citizen. The second position was grabbed by the US team, who built a solution on the Appian platform, using data from wearables to analyze and predict health incidents and suggest preventive measures.

# A tribute to Mike Kerr

On March 21, 2016, we lost not only a colleague, but a dear friend, Mike Kerr. Mike was an incredibly valuable contributor to life at Persistent, especially in our IBM business. It was due in large part to the value and relationships that Mike helped create and nurture, that we were able to enter into such a powerful relationship with IBM IoT.

Mike's loss will be felt greatly on many levels, particularly in the calm, assured and collaborative way he conducted business. Mike was a wonderful example to all of us about the power of stability, delivering on promises and treating others with respect.

Mike leaves behind a strong organization that will carry on in his footsteps. His legacy is great and we are honored to uphold it.

When we learned of the loss of Mike, we were all in shock. Mike was not just a key leader here at Persistent, he was a mentor to many, and in fact, a dear friend. Mike first joined Persistent about 7 years ago after a 30-year career at IBM. Everyone who met Mike, saw in him those special personal traits that make a leader; he was a hard-working, earnest and personable, and he had that intangible quality that made people recognize that he was a good man.

Mike's impact on the Company has been profound, and it was quite frankly one of the easiest decisions I have made to peg Mike to be the president of our IBM business. For the past 7 years, Mike had been a trusted confidant and a respected leader here. Even now, several months later, it is hard to wrap my head around the tragic irony that, on the very same day he passed away, we had issued a press release and updated our website to showcase his new leadership position.

Death always makes us reflect on life. I'd like to share a personal reflection; one that I had shared earlier this year.

I consider myself very fortunate to have a good life. It starts with a wonderful family. I have loving and supportive parents from whom I have learned a great deal. My wife and two children, one who has just graduated and one who is in university, provide me an inner happiness that is hard to put into words. It is true happiness. I am grateful to them for their support.

I wake up every morning excited and charged up. I come to the office - I do not consider it going to work - every day with possibilities abounding. We have tried very hard to create a culture here at Persistent that values individuals, respect, honor, fun, living life to the fullest, and yes, happiness. I, of course, take great joy in what we accomplish as a company, but I take a joy of life in what I see from all of my colleagues. The pride they have in their endeavors. The joy they get from their families and friends. The excitement of our most junior team members as they realize potential they did not even know they had.

Today, we are connected in ways that were not possible just 10 years ago. We share our life experiences, our dreams, our challenges and our joys with each other on social media. This sort of contact and interaction allows us to see each other as more than just role-players in a company, but as people, as fellow beings...

I believe we are all put on this earth for a purpose. We are not here to bide time and just do enough to get along. We are here to make a difference, may be big, may be small... but we are here to make life, not just our own lives, but life at large and better.

Mike's passing and the impact he had brings to my mind a quote by Buddha : "Thousands of candles can be lit from a single candle, and the life of the candle will not be shortened. Happiness never decreases by being shared."

How true that is. Share happiness. There is always more happiness to go around.

Mike lived his life with a purpose. May the candle of Mike's life continue to burn bright.

### **Report of the Directors**

Your Directors are pleased to present the Twenty Sixth Annual Report of your Company along with the Audited Financial Statements for the financial year ended March 31, 2016.

#### **Business Update**

Financial year 2015-16 was the twenty-fifth year for your Company. We are delighted to share that in the 100<sup>th</sup> Quarter, your Company had the first 100 Million Dollar Quarter.

Your Company is in the business of building software products. Software product development is different from development on IT projects. In IT projects, customers provide well-defined requirements and projects are executed by optimizing time and money (team size). In contrast, when building products, release cycles are fixed first, followed by budget and the requirements evolve to get the most done within the budget and during each cycle time. Over the last 15 years, product development cycles are shrinking and product companies are launching their products for their customers very frequently. Because of cloud and software being delivered as a service, product companies are effectively shipping products as often as several times a day.

With exciting changes that have happened in the technology landscape, many new born digital companies are exploiting new technologies to build compelling products that are setting the standard for user expectations. These products are redefining user experience, experimenting innovative business models and are focusing on extreme personalization. These new companies are challenging incumbent enterprises by disrupting their business models and setting very high user expectations.

Enterprises are becoming software driven businesses as they look at ways to extend the use of technology from just running the business to being an integral part of transforming the business. The product development methodology that your Company has perfected over the last 15 years is very relevant for not just product companies (traditional and new) but also for enterprises who are on the journey of digital transformation to become software driven businesses.

Digital transformation is a continuous process and is a journey and not just the destination. Your Company is very well-placed for growth in these changing market conditions. Your Company has always been a leader in the technology space where your Company has made significant and sustained investments.

Your Company works very closely with market leaders in the technology space and these relationships are helping your Company partner with them and jointly go after newer markets. The product development process and DNA that is deeply ingrained in the Company has become relevant to wide range of customers.

Clearly, the canvas for your Company to operate has extended significantly.

#### **IBM Watson IoT Alliance**

Your Company strengthened the existing relationship with IBM by signing-up to support and extend the IBM Continuous Lifecycle Management and Continuous Engineering product suite. Continuous Engineering products are crucial to deploy, upgrade, monitor the billions of software-driven devices that are expected to be deployed in the fast evolving world of internet of things. Your Company has also signed up to be a partner with IBM's Watson IoT team to widely deploy IoT solutions in the market.

As we combine and extend the engineering teams for enhancing the continuous engineering product roadmap, your Company has set up subsidiaries in Mexico and Israel. In addition to centers in Guadalajara, Mexico and in Rehovot, Israel, your Company set up development centers in Ottawa in Canada, Edinburgh in UK and in the US in Raleigh, NC, Costa Mesa, CM, Littleton, MA and Hillsboro, OR.

#### Acquisitions

In October 2015, your Company, through Accelerite, acquired assets of Aepona IoT platform from Intel and in February 2016, the CloudPlatform assets from Citrix. As part of the Aepona acquisition, your Company acquired development centers in Belfast, UK and in Colombo, Sri Lanka.

#### Product Engineering and Services

The product development DNA is deeply ingrained in your Company. Over the last 25 years, your Company has worked closely with customers to deliver products across all aspects of the product lifecycle. Your Company provides customers product engineering services, joint product development with revenue-share models and sell with and professional

services based partnerships. Over the last few years, your Company has worked on converting some of the tactical customer relationships into strategic 360° relationships.

Your Company has successfully established leadership through flexible engagement models, agile processes and partnerships with leading platform providers in Analytics, Big Data, Cloud, Mobile, Machine Learning, and IoT. Your Company also works with many start-ups, device and instrument manufacturers, large ISVs and enterprises. Many of these customers are embarking on the transformation journey with innovative business models and disruptive customer experiences, creating opportunities for your Company.

#### Platform Strategy

Extending your Company's enduring relationships with most of the leading software product companies, the platform strategy takes the relationship to the next level. Your Company has partnered with some of the leading companies to work with them to build software jointly for their customers. This strategy with platform partners has been very successful and is the source of steady growth for the last 2 years. It is a natural extension for your Company's product engineering business.

Your Company has successfully become a trusted partner of Platforms like Appian and Salesforce. In May 2016, your Company was named the "Appian Regional Partner of the Year" for North American region. Speed and innovation are crucial for digital transformation. To bring speed to innovation, your Company conducted a customer-focused hackathon for its Appian customers and demonstrated an approach of jumpstarting new Appian solution areas by accelerating the first production release.

In partnership with Salesforce, your Company launched new solutions for healthcare providers to transform the experience of their customers and members. This solution will improve health care providers' outreach effectiveness and improve core team productivity, communication and collaboration.

#### Product Strategy

Your Company has established Accelerite as the product brand for your Company.

Accelerite is a provider of cloud solutions, endpoint management and mobility to some of largest enterprises in the world.

Accelerite has built a strong product portfolio by acquiring non-strategic assets from your Company's software product development customers. With changing priorities, software product development companies have portfolio of under-leveraged products. Accelerite has perfected the methodology of taking over such products and reinvigorating them. Accelerite has built a reputation in the market as an expert in taking over products, transitioning people, products and contracts seamlessly, and in being able to keep the customers very happy.

#### Research and Development

Research and Development is important for the future of your Company and your Company encourages all employees to learn, explore and contribute to developments in next generation of technology. Individuals are encouraged to contribute research papers, conduct lecture and participate in research conferences. Teams are encouraged to explore and build new technology prototypes that can be showcased to customers.

Your Company has established expertise in big data analytics, machine learning, block chain, genomics and systems biology and has been working in the areas of high-throughput biological data analysis, retrieval and interpretation in the context of personalized medicine. Your Company has many active collaborations with several research and educational institutions in India and internationally.

Your Company has established Persistent Laboratories, a DSIR recognized R&D center as the hub for cutting-edge research and innovation in biomedical informatics. Your Company has secured two prestigious grants from the Government of India under CSIR-NMITLI and DBT-BIPP schemes.

Your Company collaborated with researchers from IGIB, JNU, IISER-Pune and NCL to develop:

- SanGeniX: DNA sequencing using Next Generation Sequencing (NGS) technology has a tremendous application in the personalized healthcare system, plant breeding in agriculture, and study of microbial diversity for vaccine and antibiotics development.
- eSkIN: Discovery of new pharmaceutical and cosmetic products traditionally require testing in animals to ascertain the efficacy and adverse effects of these products. A large number of animals are sacrificed in this process, and is also very costly and time consuming. Acknowledging this, the European Union has recently banned animal testing for cosmetic products and encouraging the development of alternate methods. We have developed a first of its kind

computational platform in the world, eSkIN, which will empower pharmaceutical and cosmetic companies to predict the effects of their products on human skin in a cost and time-efficient manner with reduced animal testing.

#### **Business Reorganization**

To help your Company improve decision making process, focus on growth and to improve operational efficiency, your Company decided to reorganize the business into four profit centers and a corporate operations unit with effect from April 1, 2016. The four profit centers are:

- 1. Services Unit: The services unit will consist of the traditional product engineering business. The goal of the unit would be to focus on building relationship with customers and deliver compelling software that will help the customers achieve their goals.
- 2. Digital Unit: The digital unit will focus on the growing demands for digital transformation in the market. Over the last two years, your Company has built an architecture, tools and framework that integrates partner platforms and open source products to deliver enterprises with digital transformation.
- 3. IBM Alliance: This unit is focused on business that it gets directly and indirectly from IBM and affiliates. IBM is your Company's largest customer.
- 4. Accelerite: Accelerite is your Company's product business. The Accelerite business is currently focused on end-point client management, Aepona IoT service orchestration and cloud platform products that your Company acquired from Citrix during the year.

In addition to these four profit centers, your Company has also set up the Corporate Operations unit. All the five units are autonomous with complete control over sales and operations and will be led by unit Presidents reporting to the Managing Director / CEO.

#### Directors and Key Managerial Personnel

Mr. Thomas (Tom) Kendra was appointed as an Additional Director (Independent Member) on the Board of your Company effective from January 22, 2016. Pursuant to the provisions of Section 161 of the Companies Act, 2013, Mr. Kendra will hold office up to the date of the ensuing AGM. He has confirmed his eligibility and willingness to accept the office of Directorship of your Company, if appointed. Your Company has received a notice under Section 160 of the Companies Act, 2013, proposing appointment of Mr. Kendra as an Independent Director of your Company. A separate proposal seeking approval of the Members for the appointment of Mr. Kendra as an Independent Director of your Company has been incorporated in the Notice of the ensuing Twenty-sixth Annual General Meeting.

In the opinion of your Directors, Mr. Kendra has the requisite qualifications and experience which would be useful to your Company and would enable him to contribute effectively in his capacity as an Independent Director of your Company.

It is, therefore, considered prudent that your Company should continue to avail the services of Mr. Kendra and the Board recommends that the proposed resolution relating to the appointment of Mr. Kendra as the Director of your Company be approved.

The appointment of other 6 (Six) Independent Directors was made at the 24<sup>th</sup> Annual General Meeting (AGM) held on July 24, 2014 for a period of 5 (Five) consecutive years for a term up to conclusion of the 29<sup>th</sup> AGM to be held in the calendar year 2019. Pursuant to the provisions of the Companies Act, 2013, they are not liable to retire by rotation.

Pursuant to the recent reorganization in your Company, the designation of Mr. Mritunjay Singh is changed from 'Executive Director and Chief Operating Officer' to 'Executive Director and President – Services'.

In terms of Section 152(6) of the Companies Act, 2013 and Article 137 of the Articles of Association of your Company, Mr. Mritunjay Singh, Executive Director and President – Services is liable to retire by rotation at the Twenty Sixth Annual General Meeting as he is the Executive Director who is holding office for the longest period among both the executive directors liable to retire by rotation.

Mr. Singh has confirmed his eligibility and willingness to accept the office of the Director of your Company, if confirmed by the Members at the ensuing Annual General Meeting. In the opinion of your Directors, Mr. Singh has requisite qualifications and experience and therefore, your Directors recommend that the proposed resolution relating to the re-appointment of Mr. Singh be passed.

At present, your Company has 7 (Seven) Non-Executive Directors who are Independent Directors. Pursuant to the Regulation 17(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the Listing Regulations) every listed company shall have at least half of its total strength of the Board of Directors as Independent Directors. Based on the present composition of the Board of Directors, your Company complies with this requirement.

In terms of the Listing Regulations, your Company conducts the Familiarization Programme for Independent Directors about their roles, rights, responsibilities in your Company, nature of the industry in which your Company operates, business model of your Company, etc., through various initiatives.   - c. Such perquisites and benefits as authorised by the resolution passed by Members of your Company from time to time.
- ii. The Independent Directors are entitled to payment of commission of a sum not exceeding 1% per annum of net profits and eligible Independent Directors are entitled for Employee Stock Options under ESOA X Scheme of your Company which were granted to them before April 1, 2014.
- iii. The total managerial remuneration not to exceed 11% of the net profits of your Company and the total remuneration to the managerial persons not to exceed 10% of the net profits of your Company in accordance with section 197 of the Companies Act, 2013.

#### Nomination and Governance Committee

The Board of Directors at its meeting held in April 2014 named this Committee as the Nomination and Remuneration Committee for the purpose of provisions under the Companies Act, 2013. As regards the terms of the Nomination

and Governance Committee of your Company, the same are in line with the statutory terms of the Nomination and Remuneration Committee.

The details including the composition and terms of reference of the Nomination and Governance Committee of the Board of Directors of your Company and the meetings thereof held during the financial year are given in the Report on Corporate Governance section forming part of this Annual Report.

#### The policy for appointment of a new director on the Board is as follows:

The Board of Directors decides the criterion for the appointment of a new director on the Board from time to time. The criterion may include candidate's expertise area, age, industry experience, professional background, association with other companies and such other things.

Once the criteria are determined, the Board directs the Nomination and Governance Committee to compile profiles of suitable candidates through networking, industry associations and business connects. The Nomination and Governance Committee considers each and every profile on the decided parameters and shortlists the candidates. Shortlisted candidates are then interviewed personally or through tele-conference by the Members of the Committee.

Once the Committee is convinced about a candidate's competency, his/her business acumen, commitment towards his/ her association with your Company and his/her availability for your Company on various matters as and when they arise, it recommends the candidate to the Board of Directors for further consideration for appointment.

#### Employees' remuneration

In terms of the provisions of Section 197(12) of the Act read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, a statement showing the names and other particulars of the employees drawing remuneration in excess of the limits set out in the said rules are provided in the Annexure B of the Directors' Report.

#### Employee stock option plans

Your Company has various stock option plans for its employees. Details of the stock options granted under various employee stock option schemes are annexed to this Report as Annexure C.

During the year under report, no employee has been granted stock options, equal to or exceeding 1% of the issued capital (excluding outstanding warrants and conversions) of your Company at the time of grant.

In line with the guidance note on "Accounting for employee share based payments" issued by the Institute of Chartered Accountants of India and the SEBI (Share Based Employee Benefits) Regulations, 2014, your Company has calculated the employee compensation cost using the intrinsic value of stock options. Best practices to preserve the environment are undertaken by your Company even during constructing its various premises by using crush sand, fly ash bricks and double glass unit, use of gypsum and recycled wood to protect the environment.

### Persistent Systems Limited

(In ₹ Million)

Your Company undertakes various initiatives to save energy. A 250 KW rooftop solar power plant was commissioned on the terrace of Aryabhata – Pingala facility on April 30, 2015 and it generated 174,522 units in the financial year 2015-16. Efforts are going on to increase the plant efficiency. The chiller replacement work has been completed at Bhageerath facility in Pune to ensure higher efficiency and it saves around 37% of the air-conditioning consumption. The Old UPS system was replaced by modular higher efficiency UPS system at all the facilities and it resulted in 18% power saving in UPS power. Cold aisle containment work was completed in Hinjawadi Data Centre to reduce the power consumption by 19%. Your Company has used LED lights in new facilities at Hinjawadi (Yajurveda) and Blue Ridge in Pune, Goa and Hyderabad to reduce electricity consumption.

It is your Company's constant endeavor to conserve and save the Environment and hence your Company has launched the Green Persistent Movement to support the same.

As power cost constitutes an insignificant part of the total expenses, the financial impact of these measures is not material.

#### Secretarial Audit Report

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

#### for the Financial Year ended on March 31, 2016

The Members, Persistent Systems Limited Bhageerath, 402, Senapati Bapat Road, Pune – 411 016 (CIN: L72300PN1990PLC056696)

We have conducted the secretarial audit of the compliance of statutory provisions under the Companies Act, 2013, regulations laid down by the Securities and Exchange Board of India, Foreign Exchange Regulations, EXIM Laws, STPI / SEZ Scheme, Customs and Labour Laws listed hereinbelow and the adherence to good corporate practices by Persistent Systems Limited (hereinafter called the "Company") for the financial year ended on March 31, 2016. Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

#### Management's Responsibility

Management is responsible for the preparation and filing of all the forms, returns, documents for the compliances under the Companies Act, 2013, regulations laid down by Securities and Exchange Board of India, Foreign Exchange Regulations, EXIM Laws, STPI/SEZ Scheme, Customs and Labour Laws listed hereinafter, and to ensure that they are free from material non-compliance, whether due to fraud or error.

#### Secretarial Auditor's Responsibility:

Secretarial Audit is a process of verification of records and documents on sample basis to check compliance with the provisions of laws and rules/procedures under the Companies Act, 2013, regulations laid down by Securities and Exchange Board of India, Foreign Exchange Regulations, EXIM Laws, STPI / SEZ Scheme, Customs and Labour Laws listed hereinafter. The procedure for secretarial audit is selected on the secretarial auditor's judgment, including the assessment of the risks of material non-compliance of the documents filed. In making those risks assessments, the secretarial auditor considers internal control relevant to the Company's preparation and fair presentation of the documents in order to design secretarial audit procedures that are appropriate in the circumstances.

Our responsibility is to express an opinion on the secretarial compliances of the aforesaid laws done by the Company on the basis of our audit. We have conducted our audit solely on the basis of the compliances and filing done by the Company under the aforesaid laws.

Based on our verification of books, minutes books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we report that in our opinion, the Company has, during the financial year ended on March 31, 2016, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by the Institute of Company Secretaries of India, to the extent it is applicable
- (ii) The Listing Agreements entered into by the Company with Stock Exchange(s), to the extent it is applicable;

Our report is, therefore, based on the personal visits and verification of records made available at the Pune location. We have not visited the premises of the Company located at Bengaluru, Hyderabad, Goa, and Nagpur to check the compliance status and our compliance report is based on the records which were made available for audit of the aforesaid locations.

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards mentioned above subject to the following observations:

#### 1. The Companies Act, 2013:

- (a) Pursuant to Section 89 of the Act, the Company has not filed forms with the Registrar of Companies, intimating change in beneficial interest on transfer of shares to the employees pursuant to the exercise of vested stock options during the period under report. As informed by the Company, non-filing of forms was due to technical issues being faced with the MCA website.
- (b) Pursuant to Section 118 of the Act, minutes of the meeting of Board of Directors are required to be signed by the Chairman of the meeting or the Chairman of next succeeding Board Meeting. However, at one instance, minutes of the preceding meeting of Board of Directors were not considered in the next succeeding Board Meeting and hence accordingly not signed by the Chairman of the next succeeding Board Meeting.
- (c) Pursuant to Section 175 of the Act, resolution passed by way of circulation is required to be noted in the subsequent meeting of the director or committee thereof. On one instance, resolutions passed by circulation by committees of Board of Directors were placed before the subsequent meeting of the Committee of Board of Directors. However, resolutions were not noted in the subsequent meeting of Board of Directors.

#### 2. The Secretarial Standards issued by the Institute of Company Secretaries of India:

As per provisions of Standard 7.6.4 of Secretarial Standard 1 issued by the Institute of Company Secretaries of India, signed minutes of the meeting of Board of Directors and committees thereof are required to be circulated within 15 days of signing thereof to all the Board of Directors. In a few instances, the Company has circulated signed minutes to its Board of Directors and Committees beyond the prescribed time.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Companies Act, 2013.

Adequate notice is given to all directors to schedule the Board Meetings at least seven days in advance. However, on two occasions, agenda and detailed notes on agenda for the meeting of Board of Directors, which were held before the effective date of implementation of Secretarial Standards, were not sent seven days in advance.

The Company was regular in filing forms within time limit prescribed under the Act. However, at three instances, forms were filed beyond prescribed time limit and Company paid additional fees for the delayed filing.

Based on the information provided by the Company, a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Based on inspection of the minutes of the Board of Directors and its Committees, there were no dissenting views mentioned by the members of the Board of Directors and its Committees.

#### 3. Foreign Exchange Management Act, 1999

- (a) The Company was regular in filing advance reporting forms for money received towards allotment of shares to the Reserve Bank of India through Authorized Dealer. However, on some instances, there were delays in filing of advance reporting forms with Authorized Dealer within prescribed time limits.
- (b) In one of the instances, excess funds received by the Company from its employee towards exercise of ESOP were not refunded within 180 days from date of receipt of funds. As per information provided, the Company is in process for refunding of excess funds received.
- 4. The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959 and The Employment Exchanges (Compulsory Notification of Vacancies) Rules, 1960:

Hyderabad unit has filed the quarterly compliance return (ER-I) for the quarter October – December 2015 belatedly.

### Continuous Transformation by Design

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. A quarterly compliance certificate is submitted by the respective department heads of the Company which are placed before the Board in their meeting along with the action taken report.

#### Annexure E to the Report of the Directors

#### Annual Report on Corporate Social Responsibility (CSR) activities of the Company for the Financial Year 2015-16

1. A brief outline of the Company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs.

Sustainability, consciousness, actions on environment and climate change awareness and contributions to reducing social imbalance are the corner stones of your Company's Corporate Social Responsibility.

Your Company conducts business in a sustainable and socially responsible manner. This principle has been an integral part of your Company's corporate values for more than two decades. Your Company is committed to the safety and health of employees, protecting the environment and the quality of life in all regions in which your Company operates.

To institutionalize the CSR initiative of your Company and to develop a systematic approach to administer the process of grant of donations, your Company formed a Public Charitable Trust by the name 'Persistent Foundation' in the financial year 2008-09.

A little help goes a long way. The story of Persistent Foundation stands as proof of this. Since 2009, the helping hand of the Foundation has been trying to make communities and individuals stand on their feet. The Foundation started with a humble purse of a few lakhs which gradually increased to ₹ 6 crores as your Company grew in size and revenue.

Projects and programmes proposed to be undertaken:

Persistent Foundation is committed to contribute towards improving the quality of life that every individual enjoys and thus, benefiting the community at large. The work of the Foundation focuses on three areas – Health, Education and Community Development, in both Urban and Rural areas.

In each of these focus areas, the key areas of work chosen by the Foundation for executing its own projects are as follows:

- 1. Education:
  - Girls Scholarship Program for supporting girls who are undergoing their graduation in computers. The key highlight of this program is the engagement of your Company's employees in student selection process.
  - Student Sponsorship Program through which more than 200 students are supported every year. This program is supported by the donations from your Company's employees.
  - > School uplifting program for providing infrastructural support to schools and conducting programs for Improvement of quality of education.

#### 2. Health:

- > Curative Health program by conducting Cataract surgeries, facial cleft surgeries, Jaipur Foot donation drive.
- > Preventive Health Program through health check-ups at schools, breast cancer screening, and blood donation camps.

#### 3. Community Development:

- > Village upliftment, through watershed projects under 'Jalyukt Shivar Yojana' of Government of Maharashtra
- > Urban upliftment through Zero Garbage Projects, skill development programs, working for elderly and differently abled sections of the society.

#### 4. Assistance in Natural Calamites

More details on the CSR Policy and projects are available on the Company's website as per the link given below:

#### http://www.persistentfoundation.org/

#### 2. The Composition of the CSR Committee:

The Board of Directors of your Company has constituted the CSR Committee to help the Company to frame, monitor and execute the CSR activities of the Company under its CSR scope. The Committee defines the parameters and observes them for effective discharge of the social responsibility of your Company.

The Composition of the CSR Committee as on March 31, 2016:

## **Report on Corporate Governance**

#### Company's philosophy on Corporate Governance

"Corporate governance is concerned with holding the balance between economic and social goals and between individual and communal goals. The governance framework is there to encourage the efficient use of resources and equally to require accountability for the stewardship of those resources. The aim is to align as nearly as possible the interests of individuals, corporations and society."

(Sir Adrian Cadbury, UK, Commission Report: Corporate Governance 1992)

The Company believes in maintaining the highest standards of corporate governance. This document provides a set of guidelines to help individuals fulfill their responsibilities and commitments to all their stakeholders i.e. investors, customers, vendors, Government, employees, associates and society. It is a documented code of self-discipline to ensure transparency, accountability and integrity. The Company believes that highest standards of corporate governance are essential to enhance the long-term value of the Company for the stakeholders.

Corporate governance is practiced at all levels of the Company and it is not restricted only to the Board of Directors. Good governance is an essential ingredient of good business. The following report on the implementation of the Corporate Governance Code is a sincere effort of the Company to follow the Corporate Governance Principles in its letter and spirit.

The Company was awarded with the 'Certificate of Recognition' at the ICSI National Award as one of the top five companies for Excellence in Corporate Governance for all the five consecutive years since the Initial Public Offering in 2010 recognised by the Institute of Company Secretaries of India. The Company was awarded with 'The Asset Corporate Awards 2015' in the 'Gold Category' for appreciating the practices followed by the Company towards Excellence in Management and Corporate Governance. This is an International Award (APAC region) which the Company has bagged for the sixth consecutive year. The Annual report of financial year 2015-16 of the Company was also awarded by the League of American Communications Professionals (LACP), Florida, USA as the winner of:

- Ranked 25<sup>th</sup> among Top 100 Communications Materials of 2015
- Gold Award for excellence within its Competition Class on the development of its Annual Report
- Most Improved Award in Silver Category for the communications materials across all categories of competition of the past year with the production of its Annual Report

The Company has also won Bronze Award by LACP for excellence within its Competition Class on the development of Media Guide.

#### 1. Board of Directors

#### A. Size and composition of the Board

The Board of Directors of the Company has a combination of Executive and Independent Directors with varied professional background. Independent Directors help to maintain the independence of the Board and separate the Board functions of governance from business management. As on March 31, 2016, the Company's Board consisted of Nine Directors – Two Executive Directors and Seven Independent Directors. The Board is chaired by a full time Executive Director. Table 1 gives the composition of the Board and the number of outside directorships held by each of the Directors as on March 31, 2016:

\* Excluding directorship in Persistent Systems Limited

Disclosure includes Chairmanship / Membership of Committees as required for computation of maximum number of Committees of which Director can be Chairman or Member in terms of Regulation 26 of the SEBI (Listing Obligations and Disclosure Requirements Regulations, 2015 (i.e. Chairmanship / Membership of Audit Committee and Stakeholders Relationship Committee in all Indian public companies including Persistent Systems Limited).

None of the Directors of the Company were members of more than 10 Committees or acted as the Chairman of more than 5 Committees across all companies in India, in which he is a Director, in terms of Regulation 26 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations).

Further, the Directors have made the declaration that they are 'Independent' and their directorships in the above companies and their committees and they confirm that those do not conflict with the interest of Persistent Systems Limited.

In addition to disclosure of Chairmanship / Membership of Committees of Directors disclosed in Table 1 above, the Chairmanship / Membership of Directors of the Company in other Committees as on March 31, 2016 is given below:

#### C. Board meetings and deliberations:

The Company Secretary in consultation with the Chairman of the Company and Chairman of the respective Board Committees prepares the agenda and supporting papers for discussion at each Board meeting and Committee meetings, respectively. Members of the Board or Committees are free to suggest any item to be included in the agenda, in addition to their right to bring up matters for discussion at the meeting with the permission of the Chairman.

Information and data that is important to the Board to understand the business of the Company in general and related matters are tabled for discussion at the meeting. Agenda is circulated in writing to the members of the Board seven days in advance before the meeting.

The Board and the Audit Committee meet in executive session, at least four times during a financial year, mostly at the quarterly intervals *inter alia* to review quarterly financial statements and other items on the agenda. Additional meetings are held, if deemed necessary, to conduct the business. Those members of the Board, who are not able to participate in the Board meetings in-person, generally, participate in the meeting through tele–conferencing. The Unit Presidents, Head of Operations, Chief Financial Officer and Chief Planning Officer of the Company attend the Board and Committee meetings upon invitation. The other executives and delivery heads are generally invited at the meetings on need basis. In terms of Regulation 17 of Listing Regulations, the gap between two Board meetings has not exceeded one hundred and twenty days. The maximum gap between two Board meetings held during the financial year 2015-16 was Ninety days i.e. from July 25, 2015 to October 24, 2015.

During the financial year 2015-16, the Board of Directors met six times as follows: April 20 and 21, 2015, June 13, 2015, July 24 and 25, 2015, October 24 and 25, 2015, January 22 and 23, 2016 and March 16, 2016. Further, certain decisions were taken by passing the resolutions by way of circulation and were subsequently noted and taken on record by the Board at its next meeting. Table 2 below gives the attendance record of the Directors at the Board meetings and the last Annual General Meeting held on July 24, 2015. During the year under report, a few Board calls were organized to discuss matters requiring immediate attention.

In this report, the signs below, wherever they appear, denote the following:

#### C. Nomination and Governance Committee

#### Brief description

The Nomination and Governance Committee of the Board was constituted on August 21, 2008.

The Committee was formed mainly to ensure overall diversity of representatives and provide guidance to the Board for appointment of top management and to address issues such as required expertise, background, leadership skills, time availability, conflict of interest, willingness to participate actively and inter-organizational relationships of the proposed appointee as a Director or member of the senior management. The Committee constitution was unchanged during financial year 2015-16.

The Board of Directors at its meeting held in April 2014 named this Committee as the Nomination and Remuneration Committee for the purpose of provisions under the Companies Act, 2013 on a limited basis.

Table 10 gives the present composition of the Nomination and Governance Committee of the Board of Directors as on March 31, 2016.

Table 10: Composition of the Nomination and Governance Committee

| Name of the Director     | Category   |
|--------------------------|--|
| Mr. Pradeep Bhargava     | Chairman of the Committee and Independent Director |
| Ms. Roshini Bakshi       | Independent Director                               |
| Mr. Sanjay Bhattacharyya | Independent Director                               |
| Dr. Anant Jhingran       | Independent Director                               |
| Mr. Prakash Telang       | Independent Director                               |
| Mr. Kiran Umrootkar      | Independent Director                               |

The Committee is constituted with powers and responsibilities including but not limited to -

- i. To develop a pool of potential director candidates for consideration in the event of a vacancy on the Board of Directors;
- ii. To determine the future requirements for the Board as well as its Committees and make recommendations to the Board for its approval;
- iii. To identify, screen and review individuals qualified to serve as executive directors, non-executive directors and independent directors;
- iv. To provide its recommendation to the Board for appointment of CEO;
- v. To evaluate the current composition and governance of the Board of Directors and its Committees and make appropriate recommendations to the Board, whenever necessary;
- vi. To review the suitability for continued service as a director of each Board member when his or her term expires and when he or she has a significant change in status such as employment change etc., and shall recommend whether or not the director should be reappointed;
- vii. To evaluate and recommend termination of membership of an individual director for cause or for other appropriate reasons;
- viii. To evaluate and make recommendations to the Board of Directors concerning the appointment of Directors to Board Committees and the Chairman for each of the Board Committees;
- ix. To recommend to the Board, candidates for
  - a) nomination for re-election of Directors by the Shareholders; and
  - b) any Board vacancies which are to be filled by the Board;
- x. To play a consultative role for any appointment at top management level namely, COO, CMO, CFO, President of Persistent Systems Inc., or appointment requiring Board approval such as Company Secretary; and
- xi. To carry out annual / periodic performance review of the Board of Directors individually and collectively as well as for its various committees on behalf of / as desired by the Board of Directors.

The Nomination and Governance Committee is further empowered to

- i. To conduct or authorise studies of matters within the Committee's scope of responsibility with full access to all books, records, facilities and personnel of the Company;
- ii. To hire legal, accounting, financial or other advisors in their best judgement;
- iii. To have sole authority to retain or terminate any search firm to be used to identify Director candidates;
- iv. To have sole authority to approve the search firm's fees and other retention terms;
- v. The Committee may act on its own in identifying potential candidates, inside or outside the Company or may act upon proposals submitted by the Chairman of the Board;
- vi. The Committee may consider advice and recommendations from the management, shareholders or others, as it deems appropriate; and
- vii. The Company conducts a performance evaluation of the Independent Directors and Board as a whole by an External Management Consultant and the findings of the evaluation are presented at the meeting. Recommendations / Results on the performance of the Directors are then considered by the Committee before the re-appointment of a Director and measures to increase the effectiveness of the Board are considered.

#### Meetings and attendance

The Nomination and Governance Committee generally meets in the first quarter of the financial year to recommend to the Board, the Directors retiring by rotation to be reappointed at the Annual General Meeting. Apart from this, the Nomination and Governance Committee meets as and when there is any business to be transacted which has been assigned to it.

Two meetings of the Committee were held during the financial year 2015-16. Table 11 gives attendance record of members of the Committee at its meetings held during the financial year 2015-16.

#### E. Corporate Social Responsibility (CSR) Committee

#### Brief description

In terms of Section 135 of the Companies Act, 2013, the Board of Directors at its meeting concluded on April 19, 2014, constituted the Corporate Social Responsibility Committee. The Committee was reconstituted by the Board of Directors at its meeting held on April 21, 2015.

The Chairman of the Committee is an Independent Director. Table 14 gives the composition of the CSR Committee of the Board of Directors as on March 31, 2016.

#### Table 14: Composition of the CSR Committee

| Name of the Director | Category   |
|----------------------|--|
| Mr. Pradeep Bhargava | Chairman of the Committee and Independent Director |
| Dr. Anand Deshpande  | Chairman and Managing Director                     |
| Mr. Prakash Telang   | Independent Director                               |

The Committee is constituted with powers and responsibilities including but not limited to -

- i. To formulate and recommend to the Board a CSR Policy which will define the focus areas and indicate the activities to be undertaken by the Company under CSR domain;
- ii. To recommend to the Board necessary amendments, if any, in the CSR Policy from time to time;
- iii. To monitor the budget under the CSR activities of the Company;
- iv. To accomplish the various CSR projects of the Company independently or through 'Persistent Foundation' and / or any other eligible NGO / Social Institute, as the case may be;

#### Further, the CSR Committee is empowered to do the following:

- i. To seek information from any employee as considered necessary;
- ii. To obtain outside legal professional advice as considered necessary;
- iii. To secure attendance of outsiders with relevant expertise; and
- iv. To investigate any activity within terms of reference.

#### Meetings

The meeting of the Committee was held on April 20, 2015 to review the CSR activities of the Company conducted during the financial year 2014-15. As per the provisions of the Companies Act, 2013, the Company was required to spend towards CSR activities at least 2% (two per cent) of the average net profits of the Company during the three immediate preceding financial years which amounted to ₹ 61.92 Million. The Company has actually spent ₹ 62.02 Million by way of donations to various eligible institutions and has complied with the provisions of the Companies Act, 2013. Thus the Company is among few corporates which have overspent on CSR during financial year 2015-16.

Based on the profits of three financial years ending on March 31, 2016, the Committee recommended to the Board of Directors, the amount of ₹ 69.87 Million which is to be spent towards CSR activities as per Section 135 of the Companies Act, 2013 for the financial year 2016-17. Table 15 gives details of attendance at the CSR Committee Meeting held during the year 2015-16.

#### 19. Other Matters

Shareholders holding shares in physical form are requested to notify to Link Intime India Private Limited about any change in their address and bank account details under the signature of sole / first joint holder. Beneficial owners of shares in demat form are requested to send their instructions such as change of name, change of address, bank details, nomination, power of attorney, if any, directly to their Depository Participants (DP) as the same are maintained by the respective DPs.

Non-resident shareholders are requested to notify to Link Intime India Private Limited at the earliest on the following:

- A. Change in their residential status on return to India for permanent establishment;
- B. Particulars of their NRE Bank Account with a bank in India, if not furnished earlier; and
- C. E-mail address, if any.

#### 20. Nomination in respect of shares

Section 72 of the Companies Act, 2013, provides facility for making nominations by Members in respect of their holding of shares. Such nomination greatly facilitates transmission of shares from the deceased Member to his/her nominee without being required to go through the process of obtaining Succession Certificates / Probate of the Will. It would therefore, be in the best interest of the Members holding shares as a sole holder to make such nomination. Members holding shares in physical mode are advised to write to the Registrar and Share Transfer Agent of the Company for making nomination. Members holding shares in demat form are advised to contact their DP for making nominations. Members are further requested to quote their E-mail IDs, telephone / mobile numbers for prompt reply to their communication.

During the financial year 2015-16, the Company received a following complaint from its shareholder:

The Company did not receive any complaint from other stakeholders of the Company during the Financial year 2015-16.

Code of Conduct

Company's Code of Conduct (also referred to as the 'Code') outlines its commitment to ethical standards and compliance with applicable laws. The Company's Code is based on its values and clarifies the ethics and compliance expectations for everyone who works for the Company. The Code includes sections on operating safely, responsibly & reliably; its people; its business partners; the governments and communities the Company works with and its assets and financial integrity. The Code takes into account key points from the Company's internal standards related to anti-bribery and corruption, anti-money laundering, competition and anti-trust law and trade sanctions. The Company conducts due diligence on all its vendors and customers in accordance with these policies.

#### Who the Code of Conduct applies to

The Code applies to every employee of the Company and its subsidiaries and the endeavor is to extend this Code to all its contractors and business partners. Where feasible, the Company seeks a contractual commitment from its contractors and business partners to comply and work in line with the Code. Where the Company has the right to do so, it may consider terminating contracts where a contractor has not complied with the obligations or not renewing a contract where a contractor has acted in a manner that is not consistent with Company's values or the Code. The Company rigorously follows ethical business decisions, ensuring the actions of all its employees, vendors, business partners and customers are consistent with the law.

The Company collaborates closely with all stakeholders in order to initiate and foster fair business practices in all spheres of business to create and sustain an ethical and transparent environment.

#### Certifying the Code

Each year, the Company engages its employees in Code of Conduct certification. It is embedded in the annual performance contract of all employees to comply with the Code and to create an environment where people can confidently raise concerns without fear of reprisal. The compliance with this Code by each employee is being monitored by the Company on a regular basis.

#### Fostering a 'speak up' culture

The Company is committed to providing an open environment where its employees, contractors and other stakeholders are comfortable speaking up whenever they have a question about our Code of Conduct or think that law, regulations or the Code, may have been breached. All stakeholders are encouraged to raise concerns with the Company's management team or BP's global helpline.

The Company has adopted a Policy for Prevention of Harassment at the workplace and the Internal Complaints Committee is constituted. No complaints received during the year.

#### Principle 2 – Not applicable

- d. Employees with Disabilities 100%

The Company's approach for managing its core asset i.e. its people is founded on the following beliefs:

- a. People's safety is our first priority
- b. Company grows best by growing its own people
- c. Our people have potential we need to develop it
- d. Diversity matters so does inclusion
- e. We need the best talent and need to meet the expectations of the best talent.

In our endeavor to be a contemporary organisation, we constantly review our policies and benchmark them against the best in class to ensure that the Company's agenda on employee well-being and engagement is serviced effectively.

There is a special focus to involve employees in the policy making process. A group called 'Policy Council' was constituted which has been meeting regularly to examine the various policies and processes in the organisation especially policies impacting employees and their day-to-day functions. The council has proposed several simplification and modification to policies which has also ensured improved engagement levels and ownership among employees.

The Company has been regularly providing annual preventive health checks for all employees at its own cost. Further, to enable employees manage work-life balance and related stress, if any, the Company has taken several initiatives, including:

- Agile Working: A core component of the Company's Diversity and Inclusion ambition, agile working encompasses a wide range of working options that enables employees to work flexibly at full potential. Part time working, job-share, home working and flexible hours are some options granted under this initiative.
- Career Break and Maternity / Paternity Leave: These benefits are available to employees of the Company irrespective of the level that they operate at.
- Workplace facilities: At all offices and facilities of the Company, attention is paid to ergonomics to ensure a comfortable work environment.
- Leadership Development: Building both, people and functional capability is one of the key elements of our investment in people. Few employees were selected for yearlong 'ChangeMakers' program, who were given exposure to different and key activities across the organisation. This group has also worked on various ideas and activities towards proposing various improvements and changes to the operational issues in the organisation.
- Diversity and Inclusion: As a part of a large multinational group, the Company wants the workforce to represent the societies in which it operates. The Company's commitment to Diversity and Inclusion enables it to be creative, competitive and thrive in our environment.

Prerana, is the forum, for the women and run by women in your Company had special focus on women in leadership during this year. A special mentoring program is launched for aspiring women to be nurtured to be future leaders. Various lectures by women leaders were also arranged from time to time to motivate women in your Company.

### Market Opportunity

Persistent Systems is in the business of software product development. Software product development services are essential for software product companies - those that are in the business of software and now increasingly important for enterprises that are aspiring to become software driven businesses.

Technology is a great disruptor. Continuous evolution of the technology roadmap led by advances in connected devices and sensors, the ability to collect, monitor and respond to large volumes of data, mobile internet, advances in artificial intelligence and machine learning, etc. has ensured that the appetite and need for next generation software systems will continue for a number of years.

The Company has a diversified set of customers across multiple segments – large software product companies, startups and early stage product companies, large enterprises and government. The Company has significant concentration of business from the US which is the world's largest market. In addition, over the last few years the Company has created lines of business with revenue streams outside the US.

Over the last few years the Company has transitioned the business from being purely based on charging for hours worked to having a healthy proportion of the revenue coming from license and services revenue.

Diversity of customers, geography, client concentration and business offering provide your Company some resilience from drastic changes in market conditions.

Digital Transformation is starting to become main stream and at the forefront and on the agenda of CIOs and CMOs. In order to stay relevant in the digital-first world, enterprises realize that they need to invest in digital technologies more than ever. IT spend is shifting towards changing and growing the business from current spend of running the business. In fact, many enterprises are setting up separate digital organization structure with focused Chief Digital Officer and dedicated digital teams. Enterprises are directing tight cost optimization exercises in other parts of IT spend in order to

make funds available for digital spend. In the quest of becoming a software-driven business, the emphasis is on customer experience and engagement. The front end of business that is systems of engagement are getting disrupted first with an emphasis on pervasive and omni-channel experiences that seamlessly blend digital and physical existence. In order to compete with nimble born-digital new age companies, they are increasingly becoming software-driven business. Company expects demand from enterprises becoming the bellwether of our growth trajectory going forward.

# IoT – Next Big Step for Digital Transformation

Devices and sensors connected to the internet are starting to get deployed in large numbers. More than 30 Billion sensors are expected to be deployed by 2020. Connected devices will have the ability to track location, provide context-specific services, and build the context using sensors that are embedded in the surroundings i.e. environment, light, temperature, sound, or such stimuli – is an imperative part of such experiences. The sensors that read and act on such stimuli are becoming software-driven things. These smart "things" are leading innovations in smart factories, smart homes, wearables, augmented reality, and robotics. Thus, the future of software-driven-everything is already here! The real Digital Transformation is about becoming software-driven businesses leveraging software-driven things.

This confluence of digital and physical systems enabled via IoT or "internet of things" is being referred to as "Industry 4.0" or fourth industrial revolution. In this highly connected world of Industry 4.0, disruptive forces are coming from all directions and incumbents must expect competition not just from known peers but also from next generation smart companies that are not encumbered by legacy constraints. They will apply disruptive ways at lightning speed and become dominant in no time. Such companies exhibit differentiating characteristics like innovation at speed, continuous delivery, ability to integrate and leverage data and rapid response on actionable insights and disruptive business models.

### Securities Premium Account

There was no change in the Securities Premium Account during the year as compared to the previous year.

# Stock Options Outstanding

The amount of stock options outstanding relates to differences between fair value and grant price of shares arising out of employee stock options. These differences are amortized over the vesting period of options following the graded vesting method prescribed by the Guidance Note No. 18 issued by the Institute of Chartered Accountants of India on Accounting of Employee share based payments. The amount of stock options outstanding as at March 31, 2016 was ₹ 71.34 Million for 3.64 Million options outstanding as on that date. The increase in the liability represents the increase in number of options vested in the employees. The corresponding amount in stock options outstanding account as on March 31, 2015 was ₹ 55.65 Million for 4.59 Million options outstanding on that date. Please refer Note 6 of the consolidated financials for details.

### General Reserve

The Company transferred ₹ 1,061.84 Million out of the profits of the year to General Reserve in accordance with the Company's Policy of Transfer of Profits to General Reserve. The balance in General Reserve stood at ₹ 6,626.57 Million as at March 31, 2016 as against ₹ 5,562.61 Million as at March 31, 2015. Please refer Note 6 of the consolidated financials for details.

### Foreign Currency Translation Reserve

While consolidating the financial statements of subsidiaries (including step down subsidiaries) with the financial statements of the holding company, the assets and liabilities are stated at the closing currency exchange rate and income and expenditure are stated at the average currency exchange rate. This creates exchange gain / loss on consolidation which is accumulated under foreign currency translation reserve.

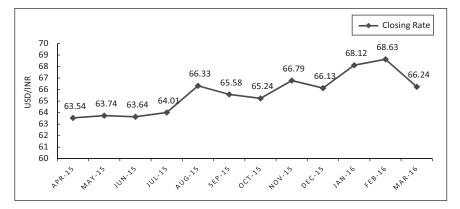

The balance in the foreign currency translation reserve was ₹ 184.11 Million as at March 31, 2016 as against ₹ 125.93 Million as at March 31, 2015, due to a translation gain of ₹ 58.18 Million on account of volatility in exchange rates of currencies in the financial year 2015-16. Please refer Note 6 of the consolidated financials for details.

### Hedge Reserve

The Company derives a substantial part of its revenues in foreign currency while a major part of its expenses are incurred in Indian Rupees. This exposes the company to the risk of fluctuations in foreign currency rates.

The following chart shows movement of monthly closing rates of the Rupee against the USD in Financial year 2015-16, indicating the volatility that the currency faced throughout the year:

The Company follows a Foreign Exchange Risk Management Policy as approved by its Board of Directors to mitigate the currency fluctuation risk. The Company hedges a defined range of its net projected export earnings on 12 months rolling basis through Plain vanilla forward contracts with banks. With effect from April 1, 2009, for hedge accounting, the Company adopted the principles of Accounting Standard 30 (AS 30) -- Financial Instruments Recognition and Measurement. The Company designates its hedging instruments as cash flow hedges upon completion of formal designation and documentation of hedging relationship. The effectiveness of the hedge is tested periodically. All such hedging instruments are measured at fair value, at the reporting date. If the designated hedge pertaining to future cash flows is effective then the changes in the fair value of the hedging instrument between the reporting date and the date of inception is recognized in hedge reserve (i.e. reflected in the Balance Sheet under the head Reserves & Surplus) and if the hedge is ineffective, then the ineffective portion is recognized in the Statement of Profit and Loss as foreign exchange gains or losses.

On sale or termination of effective/ineffective hedge instruments on or before maturity, the resultant gains or losses are taken to foreign exchange gain/loss.

Accordingly, such derivative instruments which qualify for hedge accounting and where the Company has met all the conditions of hedge accounting, are fair-valued at the Balance Sheet date and the resultant gain (or loss) is credited (or debited) to the Hedge Reserve. Accordingly, the Hedge Reserve as at March 31, 2016 stood at a credit balance of ₹ 139.91 Million as against a credit balance of ₹ 81.54 Million as at March 31, 2015. Refer Note 6 of the consolidated financials for details.

# Surplus in the Statement of Profit and Loss

The balance retained in the Statement of Profit and Loss as at March 31, 2016 is ₹ 1,141.47 Million, after appropriation towards interim dividend of ₹ 640.00 Million, dividend distribution tax of ₹ 130.30 Million on total dividend paid during the year and transfer to General Reserve ₹ 1,061.84 Million.

Total profit appropriated to dividend in the year was ₹ 770.30 Million as against ₹ 961.41 Million in the previous year. Balance in Profit and Loss account stood at ₹ 7,234.33 Million as at March 31, 2016 against ₹ 6,092.86 Million as at March 31, 2015. Please refer Note 6 of the consolidated financials for details.

# Long Term Borrowings

Under the scheme of Biotechnology Industry Partnership Program of Department of Biotechnology (DBT), Ministry of Science and Technology, Government of India, financial aid is given to all the partners involved in the research project undertaken by the Ministry of Science and Technology in the field of biotechnology. The Company being an industrial partner, the aid is in the form of a long term loan at a nominal rate of interest of 2% p.a. Based on the project costs, an amount of ₹ 21.80 Million has been sanctioned as a long term loan. Loan amount outstanding under this scheme amounted to ₹ 13.64 Million as on March 31, 2016 as against ₹ 15.06 Million as on March 31, 2015. The loan amount is repayable in ten equal half-yearly instalments over a period of five years starting from March 2016.

Under the scheme of NMITLI (New Millennium India Technology Leadership Initiative), the Company has undertaken a project on the 'System based Computational Model of Skin'. As a part of this scheme, Council for Scientific and Industrial Research (CSIR) has granted a financial help in the form of a loan at a nominal rate of interest of 3% p.a. Based on

the project costs, an amount of ₹ 40.71 Million has been sanctioned as a long term loan. The loan is repayable in ten equal annual instalments commencing from September 2015. Loan amount outstanding under this scheme amounted to ₹ 16.64 Million as on March 31, 2016 as against ₹ 29.83 Million as on March 31, 2015. Please refer Note 7 of the consolidated financials for details.

### Other Long Term Liabilities

The long term liabilities comprise liabilities which are not payable within twelve months from the date of the Balance Sheet. The total long term liability of ₹ 1.21 Million as at March 31, 2016 is towards non-current maturity of interest accrued but not due on the loans from DBT and NMITLI mentioned above as against ₹ 1.47 Million outstanding as at March 31, 2015.

### Long Term Provisions

The long term provisions are those provisions which are not expected to be settled within twelve months from the date of the Balance Sheet. The Company provides for long term awards to be given to employees on the completion of specified number of years of service with the Company, on actuarial basis. This provision stood at ₹ 117.82 Million as at March 31, 2016 as against ₹ 115.98 Million as at March 31, 2015. The increase in the liability is on account of increase in headcount and tenure of service compared to the previous year. Long term portion of Gratuity liability stood at ₹ 6.59 Million as at March 31, 2016.

# Trade Payables and other Current Liabilities

Total trade payables and other current liabilities increased from ₹ 1,793.44 Million as at March 31, 2015 to ₹ 3,293.18 Million as at March 31, 2016 mainly due to increase in trade payables, unearned revenue and accrued employee liabilities. Trade payables have increased mainly due to increase in creditors related to acquisitions made by the Company. These creditors are due for payment in the subsequent year. The increase in unearned revenue represents invoicing in respect of annual maintenance contracts, the revenue recognition for which is deferred as per the period of the contracts. Accrued employee liabilities have gone up because of increase in headcount and salary increment during the year. There is reduction in the capital creditors at as March 31, 2016 as compared to March 31, 2015 since liabilities with respect to one of the product acquired by the Company were fully paid during the year as per the terms of acquisition agreement. The changes in the major components of current liabilities are shown below:

|  | (In ₹ Million)                |
|--|-------------------------------|
| Particulars  | As at As at                   |

| Total  | 3,293.18 1,793.44             |

Current maturity of long term borrowings and interest thereon mentioned in the above table pertains to the current portion of the long term borrowings which are due to be repaid within 12 months from the date of Balance Sheet.

### Short Term Provisions

The short term provisions denote the employee liabilities and other provisions due for payment within a period of twelve months from the date of the Balance Sheet. The short term provisions were ₹ 1,223.63 Million as at March 31, 2016 as against ₹ 1,755.23 Million as at March 31, 2015. The details of the major components of short term provisions are given below:

|                                 |                         | (In ₹ Million)          |

| Others                          |                         |                         |
| Proposed final dividend         | -                       | 400.00                  |
| Tax on proposed dividend        | -                       | 81.43                   |
| Total                           | 1,223.63                | 1,755.23                |

The gratuity provision in the previous year was much higher due to significant reduction in discount rate used in actuarial valuation. The provision for this year is lower partly on account of change in the actuarial assumptions with respect to salary escalation in line with long term inflation in the economy. The increase in provision for employee benefits other than gratuity was mainly attributable to increase in employee headcount and salary escalation during the year.

The Board has recommended Nil final dividend for the financial year 2015-16. The two interim dividends paid during the year aggregate to  $\gtrless$  8 per share as compared to normal dividend of  $\gtrless$  7.50 per share and special Silver Jubilee dividend of  $\end{Bmatrix}$  2.50 per share paid in the previous year.

### Goodwill on consolidation

The excess of the cost of investment in a subsidiary over the Company's portion of equity of the subsidiary on the date at which investment in the subsidiary was made, is recognized as goodwill on consolidation. Goodwill on consolidation was ₹ 174.88 Million as at March 31, 2016 as against ₹ 23.91 Million as at March 31, 2015. The increase is due to acquisition of Akshat Corporation (d.b.a. RGen Solutions) and Aepona Group made through Persistent Systems, Inc., a wholly owned subsidiary of Persistent Systems Limited.

### **Fixed Assets**

The gross block of tangible fixed assets amounted to ₹ 6,857.11 Million as at March 31, 2016 as against ₹ 6,166.40 Million as at March 31, 2015. The increase of ₹ 690.71 Million is mainly on account of additional computers / hardware procured for the growing business needs, furniture for new offices and capitalization of equipments including Solar Power System. Further, the acquisition of Aepona Group as mentioned above has also resulted in increase in the asset base of the Company as the assets of Aepona Group were taken over by the Company as a part the acquisition. Please refer Note 12.1 of the consolidated financials for details.

The gross block of intangible fixed assets amounted to ₹ 3,919.34 Million as at March 31, 2016 as against ₹ 3,217.28 Million as at March 31, 2015. The increase of ₹ 702.06 Million is mainly on account of acquisition of a software platform, software licenses and certain contractual rights in respect of one of the product purchased during the year. Please refer Note 12.2 of the consolidated financials for details.

Capital work-in-progress (Capital WIP) stood at ₹ 23.64 Million as against ₹ 40.04 Million as at March 31, 2015. The reduction is on account of capitalization of buildings at Goa and Nagpur during the financial year 2015-16.

The Company has deployed a team of software developers for development of Intellectual Property Rights during the current year. The developments were in progress on the Balance Sheet date and accordingly, the expenses of ₹ 241.63 Million related to such team of software developers has been considered as "Intangible assets under development."

During the year, the Company disposed off and retired assets having an original cost of ₹ 199.34 Million and written down value of ₹ 2.65 Million.

### Non-Current Investments

The total non-current investments as on March 31, 2016 stood at ₹ 1,347.92 Million as against ₹ 2,115.54 Million in the previous year. The investments in mutual funds that are intended to be held for more than 12 months from the date of investment were classified as long-term investments. The decrease in Non-Current Investments as compared to the previous year is mainly due to redemption of certain long term mutual funds and disposal of certain government securities. Please refer Note 13 of the consolidated financials for details.

### Deferred Tax Assets (Net)

The deferred tax assets (net of deferred tax liabilities) created against items such as depreciation/amortization, provision for doubtful debts, and provision for employee benefits and brought forward losses as on March 31, 2016 amounted to ₹ 232.75 Million as against ₹ 312.93 Million as on March 31, 2015 after netting-off deferred tax liability of ₹ 2.51 Million as at March 31, 2015 in a subsidiary belonging to a separate tax jurisdiction.

Some of the doubtful debts provided in earlier years were written off during the year. This coupled with reduction in brought forward losses resulted in reduction in deferred tax assets.

Note 14 of the consolidated financials gives component-wise details of deferred tax balance where the net value results into an asset.

### Long Term Loans and Advances

The capital advances, inter corporate and other deposits, advances recoverable in cash or kind which are not due within twelve months from the Balance Sheet date and advance income tax (net of provision) are shown as long term loans and advances. These amounted to ₹ 851.05 Million as at March 31, 2016 as against ₹ 123.21 Million as at March 31, 2015. The increase is mainly on account of increase in capital advance related to one of the product acquisition by the Company. Further, there has been an increase in advance income tax (net of provision for income tax) paid by the Company as compared to the previous year. Please refer Note 15 of the consolidated financials for details.

#### Other Non-Current Assets

The fixed deposits with banks and other deposits with maturity of more than twelve months from the date of Balance Sheet and interest accrued but not due on such deposits are termed as non-current assets in the financial statements. The total of such deposits amounted to ₹ 832.22 Million as at March 31, 2016 as against ₹ 12.27 Million as at March 31, 2015. Interest accrued but not due amounted to ₹ 37.88 Million as at March 31, 2016 as against ₹ 1.12 Million as on March 31, 2015. The increase in both non-current fixed deposit with bank/financial institution and interest accrued but not due is mainly because of one of the deposit which was due for maturity in the current year was classified under current portion of fixed deposit as at March 31, 2015; which is now classified under non-current portion as at March 31, 2016 on account of its renewal. Please refer Note 16 of the consolidated financials for details.

#### **Current Investments**

As per the Investment Policy approved by the Board of Directors, the Company invests its surplus funds in liquid and debt schemes and fixed maturity plans of some reputed mutual funds with a focus on capital preservation, liquidity and optimization of returns.

Investment in mutual funds classified under current investments stood at ₹ 4,827.55 Million as at March 31, 2016 as compared to ₹ 4,606.75 Million as at March 31, 2015. The total investment in mutual funds (including long-term investments) reduced by ₹ 455.31 Million during the year. Further, the investment in equity shares of Sprint Telecom India Private Limited amounting to ₹ 13 Million has been disposed-off during the year. Please refer Note 17 of the consolidated financials for details.

#### Trade Receivables

Trade receivables (net of provision for doubtful debts) amounted to ₹ 4,275.49 Million as at March 31, 2016 as against ₹ 3,585.76 Million as at March 31, 2015.

The following table provides the age-wise analysis of Trade Receivables (Net of provision for doubtful debts) as on March 31, 2016.

| Particulars       | As At March 31, 2016 |        | As At March 31, 2015 |        |

| Due < 30 days     | 562.40               | 13.2%  | 575.51               | 16.1%  |
| Due 30 – 60 days  | 259.17               | 6.1%   | 290.44               | 8.1%   |
| Due 61 – 90 days  | 303.36               | 7.1%   | 64.47                | 1.8%   |
| Due 91 – 120 days | 111.62               | 2.6%   | 91.18                | 2.5%   |
| Due over 120 days | 70.41                | 1.6%   | 133.02               | 3.7%   |
| Total             | 4,275.49             | 100%   | 3,585.76             | 100%   |

The Company follows a policy of providing for all customer invoices outstanding for a period of 180 days or more and for those invoices which are otherwise considered doubtful, based on the management's perception of risk of collection.

Provision for doubtful debts decreased to ₹ 270.62 Million as at March 31, 2016 from ₹ 437.76 Million as at March 31, 2015. Please refer Note 18 of the consolidated financials for details.

# Cash and Bank balances

Cash and bank balances including bank deposits with a maturity of below twelve months from the Balance Sheet date amounted to ₹ 1,432.38 Million as at March 31, 2016 as compared to ₹ 1,416.24 Million as at March 31, 2015. There has been an increase in balance on current accounts with banks and decrease in balance on Exchange Earner's Foreign Currency accounts. Further, the increase in deposits with banks due after 12 months from March 31, 2016 which have been classified under Other Non-Current Assets has resulted into reduction in Current Deposits with Banks. Please refer Note 19 of the consolidated financials for details.

### Short Term Loans and Advances

The inter-corporate and other deposits, service tax/VAT receivables and advances recoverable in cash or kind within a period of twelve months from the date of Balance Sheet are included in the Short term Loans and Advances. Short term loans and advances amounted to ₹ 812.44 Million as at March 31, 2016 as against ₹ 407.42 Million as at March 31, 2015. There has been an increase in Short Term Loans and Advances on account of increase in prepaid expenses classified under advances recoverable in cash or kind and service tax receivable as at March 31, 2016 as compared to March 31, 2015. Please refer Note 20 of the consolidated financials for details.

### Other Current assets

Total other current assets as at March 31, 2016 stood at ₹ 1,787.77 Million as against ₹ 1,035.40 Million as at March 31, 2015. The increase is mainly due to increase in unbilled revenue. Unbilled revenue represents revenue recognized in relation to work done on time and material projects and fixed price projects until the Balance Sheet date for which billing has not taken place. The increase in unbilled revenue is mainly on account of newly acquired IP Led business where the invoicing schedule is on a quarterly basis as per the terms of the contract. There is reduction in interest accrued but not due as a substantial portion of accrued interest was received on maturity of Bank Deposits during the year. The details of the major components included under other current assets are given below:

(In ₹ Million)

# Other Income

As explained in Note 23 of the consolidated financials, Other Income consists of income from investment of surplus funds in the form of dividend from mutual funds and profit on sale, interest on deposits and bonds, foreign exchange gain, miscellaneous income which includes profit on sale of fixed assets and investment in subsidiary, excess provision written back. Other income has reduced to ₹ 784.49 Million for the year ended March 31, 2016 from ₹ 938.15 Million for the year ended March 31, 2015. The other income has primarily reduced on account of reduction in foreign exchange gain by ₹ 322.66 Million for the year ended March 31, 2016 as compared to the year ended March 31, 2015. The foreign exchange gain this year was lower due to USD appreciating sharply and the spot rate coming close to the hedged rate. There has been increase in profit on sale of investments (net) by ₹ 139.69 Million for the year ended March 31, 2016 as compared to the year ended March 31, 2015.

The details of other income are given below:

| Particulars  | Financial year<br>2015-16<br>(In ₹ Million) | Financial year<br>2014-15<br>(In ₹ Million) | Growth  |

The main reasons for increase in Personnel Expenses are as below:

- Increase in personnel expenses in India by 10.4%
- Increase in personnel expenses in regions other than India by 44.0%
- Pay-hike for Sales and Marketing workforce effective from April 1, 2015 and for others effective from July 1, 2015
- The gratuity expense in previous year was much higher due to significant reduction in discount rate used in actuarial valuation and the expense for this year is lower partly on account of change in the actuarial assumptions with respect to salary escalation in line with long term inflation in the economy.
- Employee stock compensation expenses pertain to a new performance based stock option scheme framed during the previous year.

# Operating and other Expenses

Operating and other expenses for the year amounted to ₹ 3,570.56 Million against ₹ 2,805.71 Million in the previous year. As a percentage of revenue, the expenses increased to 15.4% from 14.8%.

The main reasons for increase in Operating and other expenses are as below:

- a. Travelling and conveyance expenditure increased by ₹ 200.52 Million during the year mainly due to rise in project related travel and visa expenses to meet the growing business needs.
- b. Cost of purchased software licenses and support expenses have increased by ₹ 226.06 Million primarily on account of increase in sales of traded licenses as compared to the previous year leading to increase in the cost of purchases of such licenses.
- c. Legal and Professional fees increased by ₹ 55.11 Million because of increase in consultancy fees incurred in relation to the new acquisitions made by the Company during the year.
- d. Rent increased by ₹ 109.37 Million due to opening of new offices/ expansion of existing offices In India and abroad.
- e. Advertisement and sponsorship fees have gone up by ₹ 49.31 Million because of increased participation in various marketing events and brand building initiatives.

### Profit Before Interest, Tax, Depreciation and Amortization

During the year, the Company reported Profit before interest, tax, depreciation and amortization of ₹ 4,922.35 Million representing a 1.7% increase over Profit before interest, tax, depreciation and amortization of ₹ 4,841.62 Million during the previous year. The margin of profit before interest, tax, depreciation and amortization decreased to 21.3% during the year from 25.6% in the previous year mainly due to increase in personnel costs and other expenses.

### Depreciation and Amortization

The depreciation and amortization for the year amounted to ₹ 965.16 Million as against ₹ 938.53 Million in the previous year showing an increase of 2.8%. This increase is mainly attributable to increase in depreciation on computers and plant and equipment. However, there has been reduction in amortization of intangible assets due to some of the intangible assets moving out of amortization period during the year.

Depreciation and amortization as a percentage of revenue was 4.2% in the year against 5.0% during the previous year. The Company follows the straight-line-method (SLM) of depreciation. Depreciation rates followed by the Company are based on the useful lives of the assets based on the internal assessment and independent technical evaluation carried out by the external valuer.

### Provision for Taxation

Tax expense consists of current tax and deferred tax.

The Group is exposed to income tax in multiple geographies where it is doing business through its branches and subsidiaries. Persistent Systems Ltd, the parent company is mainly liable to income tax in India.

The provision for tax for the year amounted to ₹ 890.89 Million (net of tax credit in respect of earlier years of ₹ 25.70 Million) against ₹ 1,039.45 Million (net of tax credit in respect of earlier years of ₹ 17.86 Million) in the previous year. The deferred tax expense for the year was ₹ 91.77 Million against deferred tax credit of ₹ 46.04 Million in the previous year.

The total tax expense for the year amounted to ₹ 982.66 Million against ₹ 993.41 Million for the previous year. The Effective Tax Rate (ETR) for the year amounted to 24.8% as compared to 25.5% in the previous year. The decrease in ETR is because of lower taxation in some of the overseas subsidiaries.

# Net Profit after Tax

The Net Profit for the year amounted to ₹ 2,973.61 Million against ₹ 2,906.31 Million for the previous year, recording an increase of 2.3%. The Net Profit margin for the year was 12.9% as compared to 15.4% in the previous year.

# **Report on Risk Management**

### **Purpose and Objective**

The objective of our Risk Management Policy is to help the Company to identify present and potential risks faced by it and optimize its risk management strategies. It also aims at promoting risk awareness amongst employees and to integrate risk management within the corporate culture.

The Enterprise Risk Management Policy of the Company sets forth the objective of risk management within the organization. It also helps to bring about the responsiveness for risks among the risk owners.

### Structure

The primary responsibility for risk management lies at the business level. Part of the role of all the heads of business units is to ensure risks are managed appropriately. The risk management function forms the second line of defense and independently assesses all risks. Its report is reviewed by the Audit Committee on a quarterly basis which in turn reports it to the Board.

The risk management framework at Persistent is given below:

### **Risk Management Process**

Risk Management is a continuous process of identifying the risk triggers based on the changing business environment. These risk triggers are communicated to the stake holders on a continuous basis. Any change in the probability and impact of risks based on these triggers, are identified.

The risk management process includes:

- Identification of key risks and their root causes
- Assessment of risk for its probability and impact
- Prioritization of risks based on its rating
- Formulation of risk response strategy based on the analysis of business exposure
- · Escalation of risk response in a timely manner to facilitate decision making
- Identification of Risk owners within the area of responsibility

 Monitoring and reporting by the Risk Committee of the existence, adequacy and effectiveness of the risks to the Board on quarterly basis.

The Risk Management report is used by the Management as one of the inputs for strategic planning and decision making. The Company's risk appetite reflects broader level of risks that the Company can assume and manage successfully. It is factored into its strategy at the time of drawing up the business plan. The process is focused on minimizing adverse impact of risk on Company's growth, operating margins, people engagement, regulatory compliance and operational efficiency.

Below are the key risk categories:

- Financial Risks
- Business Model related risks
- Operational risks
- Legal risks
- Compliance risks
- Information security risks
- Reputation risks
- Technology related risks

Some of the major risks and measures taken to mitigate these risks are given below:

### **Financial Risks**

### 1.1 Foreign currency fluctuation risk:

A substantial part of the Company's revenue accrues in US Dollars whereas a large part of the expenditure in incurred in Indian Rupees, hence currency fluctuation thus has higher sensitivity towards cost effectiveness.

The volatility in the currency can be very challenging to the profit margins. Following are the mitigation plans to curb the impact of currency variations:

- (a) With few bankers on the Board, we have the benefit of their experience and guidance. The Board reviews our hedging strategy every quarter and revises it based on the changing global scenario.
- (b) The Company has adopted a policy to hedge its projected net export earnings on 12 months rolling basis through plain vanilla forwards.

### 1.2 Acquisition related risks:

In view of several acquisitions in the recent past, the Company is exposed to the risk of failure to successfully integrate the acquired entities due to lack of strategic and cultural alignment. Some of these acquisitions are in new geographies. To mitigate this risk, proper due-diligence is carried out to identify any gaps in strategic and cultural alignment.

#### **Business Model Related Risks**

2.1 Geographic concentration: As most of the software product companies have their origin in the US, it is evident that we will have major business concentration in this geography. The Company had 85.5% share of revenue from North America in the last two years.

In order to grow business in non-US geographies, the Company has set up branch offices in UK, Germany, Canada, Japan, Australia and South Africa besides having its subsidiaries in Singapore, France and Malaysia.

**2.2 Customer Concentration**: Dependency on few large customers can be a risk. About 45.5% of the Company's revenue is derived by top 10 customers. This could expose the Company to various risks associated with it like price pressure and excessive dependency on the business and economic conditions in which the customer operates. To mitigate this risk, the Company has created account led growth approach.

### Information Security Risk

**3.1 Data Privacy**: There is a greater risk of data privacy mainly because many a times the breach is committed inadvertently. To mitigate this risk, the Company has its policy on data privacy and all data access points are monitored by information security department.

**3.2 Cyber Attack**: Hacking attempts, theft of customer or company data is a common challenge in the recent world of increased cyber-crimes. The important and confidential data can get compromised due to any such attempt. The Security Information Department of the Company has implemented SIEM (Security Information and Event Management to abate any risks of cyber-attacks. It monitors threat proactively to avoid any business losses.

**3.3 Social Media Risk:** Incorrect disclosure of corporate information by employees on social media can cause business as well as reputation loss. Mitigation measures include implementation of Social Media Policy and strict action is taken against non-compliance under this Policy. There is general awareness also created among employees by various programs, which will help to reduce this risk.

# **Operational Risks**

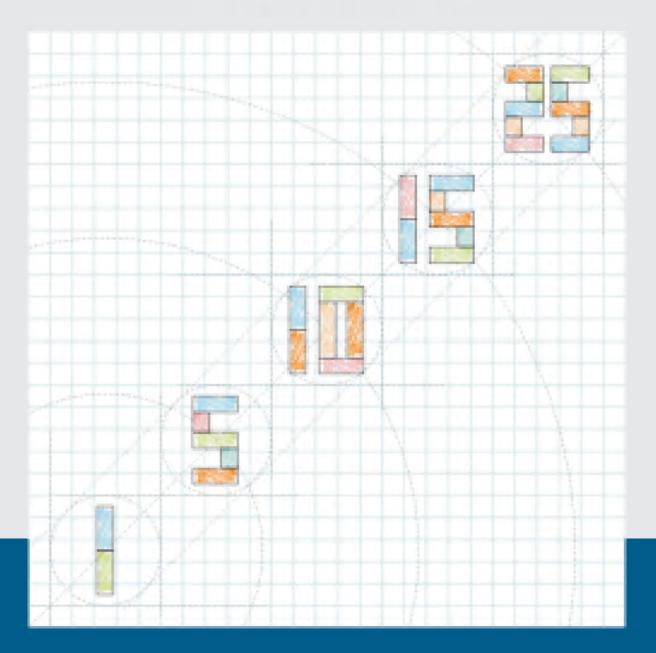

**4.1 Attrition**: Higher attrition is a characteristic associated with an IT industry. The average attrition rate for the Company during 2015-16 was 16.4% as against 15.5% during 2014-15. The Company has taken several measures to retain the talent. It runs several leadership programs at different levels of management. The working culture is friendly and compensation package is performance oriented. All these measures will help reduce the attrition.

**4.2 Risk of Technology obsolescence:** The Company operates in the area of advanced technology domains which are subject to continuous innovations. Technological up-gradation is required to be tracked continuously to reduce loss of business. The Company has set up R&D Lab and Innovation Centre which track new technologies relevant to the Company's business. The Company encourages innovation through various initiatives like hackathon, design thinking workshops, semicolons tec.

### Legal Risks

**5.1 Regulatory compliance**: With the growth of business in several countries, there is a risk of inadvertent non-compliance with regulations in those countries. This can expose the Company to fines and penalties. In order to guard against these risks, the Company has created a compliance framework and made employees operating in different areas responsible for compliances in their respective areas. Further, independent compliance audits are done through local consultants, audit firms and legal advisers.

# 2. Basis of preparation

The financial statements of the Group have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) to comply in all material respects with the Accounting Standards specified under section 133 of the Companies Act, 2013 and the relevant provisions of the Companies Act, 2013. These financial statements are prepared on an accrual basis and under the historical cost convention except financial instruments which have been measured at fair value. The accounting policies are consistently applied by the Group during the year and are consistent with those used in previous year.

# 3. Principles of consolidation

The consolidated financial statements of the Company and its subsidiaries ("the Group") for the year ended March 31, 2016 are prepared in accordance with generally accepted accounting principles applicable in India, and the Accounting Standard 21 (AS-21) on 'Consolidation of Financial Statements', notified by Companies (Accounting Standards) Rules, 2006, (as amended) ("Accounting Standards") by and to the extent possible in the same format as that adopted by the Company for its separate financial statements.

The financial statements of the Company and its subsidiary companies have been combined on line by line basis by adding together the book values of like items of assets and liabilities, income and expenses after eliminating intra group balances and intra group transactions except where cost cannot be recovered. The unrealized profits or losses resulting from the intra group transactions and balances have been eliminated.

The consolidated financial statements include the share of profit / loss of associate companies, which are accounted for under the 'Equity method'. The share of profit / loss of the associate company has been adjusted to the cost of investment in the associate, as per the 'Equity method'. An associate is an enterprise in which the investor has significant influence and which is neither a subsidiary nor a joint venture.

The excess of the cost to the Company of its investment in a subsidiary and the Company's portion of equity of subsidiary on the date at which investment in the subsidiary is made, is described as goodwill and recognized separately as an asset in the consolidated financial statements. The excess of the Company's portion of equity of the subsidiary over the cost of investment in the subsidiary is treated as capital reserve in the consolidated financial statements. Goodwill arising on consolidation is not amortized. It is tested for impairment on a periodic basis and written off if found impaired.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and necessary adjustments required for deviations, if any, are made in the consolidated financial statements. The consolidated financial statements are presented in the same manner as the Company's unconsolidated financial statements.

The financial statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as of the Company.

The subsidiary companies considered in consolidated financial statements are as follows:

| Name of the subsidiary   | Ownership Pe   | rcentage as at | Country of    |

### 4. Summary of significant accounting policies

# (a) Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the end of year. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

### (b) Tangible fixed assets

Tangible fixed assets are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Capital work-in-progress includes cost of fixed assets that are not ready to be put to use.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred.

Gains or losses arising from disposal of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

### (c) Intangible assets

# (i) Acquired intangible assets

Intangible assets including software licenses of enduring nature and contractual rights acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

#### (ii) Research and development cost

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Group can demonstrate:

- technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the asset;
- its ability to use or sell the asset;
- how the asset will generate probable future economic benefits;
- the availability of adequate resources to complete the development and to use or sell the asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during development.

Such development expenditure, until capitalization, is reflected as intangible assets under development.

Following the initial recognition, internally generated intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization of internally generated intangible asset begins when the development is complete and the asset is available for use.

#### (d) Depreciation and amortization

Depreciation on tangible fixed assets is provided using the Straight Line Method ('SLM') over the useful lives of the assets estimated by the management.

The management estimates the useful lives for the fixed assets as follows:

| Assets                                     | Useful lives |
|--|--------------|
| Buildings*                                 | 25 years     |
| Computers                                  | 3 years      |
| Computers - Servers and networks*          | 3 years      |
| Office equipments                          | 5 years      |
| Plant and equipment*                       | 5 years      |
| Plant and equipment (Windmill)*            | 20 years     |
| Plant and equipment (Solar Energy System)* | 10 years     |
| Furniture and fixtures*                    | 5 years      |
| Vehicles*                                  | 5 years      |

\* For these classes of assets, based on internal assessment and independent technical evaluation carried out by external valuers the management believes that the useful lives as given above best represent the period over which the management expects to use these assets. Hence the useful lives of these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Individual assets whose cost does not exceed ₹ 5,000 are fully depreciated in the year of acquisition.

Leasehold land is amortized on straight line basis over the period of the lease. Leasehold improvements are amortized over the period of lease or useful life, whichever is lower.

Intangible assets are amortized on a straight line basis over their estimated useful lives commencing from the day the asset is made available for use.

### (e) Impairment of tangible and intangible assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors.

Recoverable amount of intangible under development that is not yet available for use is estimated at least at each financial period / year end even if there is no indication that the asset is impaired.

An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

### (f) Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the year they occur.

### (g) Leases

### Where the Group is a lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases.

Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

### (h) Investments

Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value, determined on category of investment basis. Long-term investments presented in the financial statements are carried at cost. However, provision for diminution in value is made to recognize a decline, other than temporary decline, in the value of investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

# (i) Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

### (i) Income from software services

Revenue from time and material engagements is recognized on time proportion basis as and when the services are rendered in accordance with the terms of the contracts with customers.

In case of fixed price contracts, revenue is recognized based on the milestones achieved as specified in the contracts, on proportionate completion basis.

Revenue from royalty is recognized in accordance with the terms of the relevant agreements.

Revenue from maintenance contracts and subscription is recognized on a pro-rata basis over the period of the contract.

Revenue from licensing of software and sale of products is recognized upon delivery.

Unbilled revenue represents revenue recognized in relation to work done on time and material projects and fixed price projects until the balance sheet date for which billing has not taken place.

Unearned revenue represents the billing in respect of contracts for which the revenue is not recognized.

The Group collects service tax and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenue.

### (ii) Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Interest income is included under the head 'Other income' in the statement of profit and loss.

### (iii) Dividend

Dividend income is recognized when the Group's right to receive dividend is established by the reporting date. Dividend income is included under the head 'Other income' in the statement of profit and loss.

### (j) Foreign currency translation

### (i) Foreign currency transactions and balances

### Initial recognition

Foreign currency transactions are recorded in the respective reporting currencies of the entities in the Group, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

#### Conversion

Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Nonmonetary items, which are measured in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates at the date when the values were determined.

### Exchange differences

Exchange differences arising on conversion / settlement of foreign currency monetary items and on foreign currency liabilities relating to fixed assets acquisition are recognized as income or expenses in the year in which they arise.

# Forward exchange contracts not intended for trading or speculation purposes covered by AS-11 "The effects of changes in Foreign Exchange rates"

The premium or discount arising at the inception of forward exchange contracts is amortized and is recognized as an expense / income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or as expense for the year.

# Forward exchange contracts not intended for trading or speculation purposes, classified as derivative financial instruments

The Group has adopted principles of AS-30-"Financial Instruments: Recognition and Measurement" issued by the Institute of Chartered Accountants of India (ICAI), to the extent that the adoption did not conflict with existing notified accounting standards and other authoritative pronouncements of the company law and other regulatory requirements.

As per the accounting principles laid down in AS-30 relating to cash flow hedges, derivative financial instruments which qualify for cash flow hedge accounting are fair valued at balance sheet date and the effective portion of the resultant loss / (gain) is debited / (credited) to the hedge reserve and the ineffective portion is recognized to the statement of profit and loss. Derivative financial instruments are carried as forward contract receivable when the fair value is positive and as forward contract payable when the fair value is negative.

Changes in the fair value of derivative instruments that do not qualify for hedge accounting are recognized in the statement of profit and loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, or terminated, or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss on the hedging instrument recognized in hedge reserve is transferred to the statement of profit and loss when the forecasted transaction occurs or affects profit or loss or when a hedged transaction is no longer expected to occur.

### Translation of integral and non-integral foreign operation

The Group classifies all its foreign operations as either "integral foreign operations" or "non-integral foreign operations."

The financials statements of the integral foreign operations are translated as if the transactions of the foreign operations have been those of the Group itself.

The assets and liabilities of a non-integral foreign operation are translated into the reporting currency at the exchange rate prevailing at the reporting date. Their statement of profit and loss are translated at exchange rates prevailing at the dates of transactions or weighted average rates, where such rates approximate the exchange rate at the date of transaction. The exchange differences arising on translation are accumulated in the foreign currency translation reserve. On disposal of a non-integral foreign operation, the accumulated foreign currency translation reserve relating to that foreign operation is recognized in the statement of profit and loss.

When there is a change in the classification of a foreign operation, the translation procedures applicable to the revised classification are applied from the date of the change in the classification.

### (k) Retirement and other employee benefits

### (i) Provident fund

Provident fund is a defined contribution plan covering eligible employees. The Group and the eligible employees make a monthly contribution to the provident fund maintained by the Regional Provident Fund Commissioner equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contributions to the provident fund are charged to the statement of profit and loss for the year when the contributions are due. The Group has no obligation, other than the contribution payable to the provident fund.

### (ii) Gratuity

Gratuity is a defined benefit obligation plan operated by the Group for its employees covered under Group Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains and losses are recognized in full in the statement of profit and loss in the reporting period in which they occur.

### (iii) Superannuation

Superannuation is a defined contribution plan covering eligible employees. The contribution to the superannuation fund managed by the insurer is equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contribution to this scheme is charged to the statement of profit and loss on an accrual basis. There are no other contributions payable other than contribution payable to the respective fund.

### (iv) Leave encashment

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

The Group presents the entire leave encashment liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

### (v) Long service awards

Long service awards are other long term benefits to all eligible employees, as per Group's policy. The cost of providing benefit under long service awards scheme is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains and losses are recognized in full in the statement of profit and loss in the reporting period in which they occur.

### (I) Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current reporting period and reversal of timing differences of earlier reporting periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the Group is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Group restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the Group re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. MAT credit available is recognized as an asset only to the extent that there is convincing evidence that the Group will pay normal

income tax during the period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

### (m) Segment reporting

### (i) Identification of segment

The Group's operations predominantly relate to providing software products, services and technology innovation covering full life cycle of product to its customers.

The primary reporting segments are identified based on review of market and business dynamics based on risk and returns affected by the type or class of customers for the services provided. The analysis of geographical segment is based on the areas in which the customers of the Company operate.

### (ii) Allocation of income and direct expenses

Income and direct expenses allocable to segments are classified based on items that are individually identifiable to that segment such as salaries and project related travel expenses. The remainder is considered as un-allocable expense and is charged against the total income.

# (iii) Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segregation of assets, liabilities, depreciation and other non-cash expenses into various reportable segments have not been presented except for trade receivables as these items are used interchangeably between segments and the Group is of the view that it is not practical to reasonably allocate these items to individual segments and an ad-hoc allocation will not be meaningful.

### (iv) Inter-segment transfers

There are no inter-segments transactions.

# (v) Segment accounting policies

The Group prepares its segment information in conformity with accounting policies adopted for preparing and presenting the financial statements of the Group as a whole.

### (n) Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the reporting period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period, that have changed the number of equity shares outstanding, without a corresponding change in resources. Further, the weighted average number of equity shares used in computing the basic earnings per share is reduced by the shares held by PSPL ESOP Management Trust at the balance sheet date, which were obtained by subscription to the shares from finance provided by the Group.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

### (o) Provisions

A provision is recognized when the Group has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

### (p) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

### (q) Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

### (r) Employee stock compensation expenses

Employees of the Group receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

In accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method and recognized as employee compensation cost over the vesting period. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

The expense or credit recognized in the statement of profit and loss for a year represents the movement in cumulative expense recognized as at the beginning and end of that year and is recognized in employee benefits expense. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

### b) Terms / rights attached to equity shares

The Company has only one class of equity shares having a par value of ₹10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

During the year ended March 31, 2016, the amount of per share interim dividend recognized as distributions to equity shareholders was ₹ 8 (post-bonus issue) [Previous year: ₹ 10 (pre-bonus issue)].

During the year ended March 31, 2016, the amount of per share final dividend recognized as distributions to equity shareholders was ₹ Nil [Previous year: ₹ 5 (post-bonus issue)].

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

\* Deferred tax assets and deferred tax liabilities have been offset wherever the Group has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority. In all other cases the same have been separately disclosed.

\*\* Persistent Systems, Inc. (PSI) (a wholly owned subsidiary of the parent Company) along with Persistent Telecom Solutions Inc. (PTSI) (wholly owned subsidiary of Persistent Systems, Inc) have decided to opt for filing consolidated income tax return in compliance with the applicable tax regulations in the United States from financial year 2014-15. This enables to set off the business losses in PTSI against the profits of PSI. In view of the virtual certainty of profits in PSI, deferred tax asset on losses has been recognized in the financial statements of PTSI.

### 36. Contingent liabilities

The Group does not have any contingent liability as on March 31, 2016 (previous year ₹ Nil).

- (i) A US based corporation had filed a suit against a step down subsidiary of the Parent Company, claiming damages for direct and contributory infringement of copyrights and breach of contract. The Company is of the opinion that these claims are without merit. The suit is being defended very vigorously and is currently under discovery stage.
- (ii) As on March 31, 2016, the pending litigations in respect of direct taxes amount to ₹ 126.58 million and in respect of indirect taxes amount to ₹ 28.02 million. Based on the advice obtained and judgments in favour of the Company at the first appellate authority in the earlier years, the company's management does not expect any outflow in respect of these litigations.
- 37. (i) On February 10, 2014, the Company, through its wholly owned subsidiary Persistent Systems Inc., acquired the entire equity capital of US based CloudSquads Inc. In addition to the upfront purchase consideration, the stock purchase agreement provides for additional consideration, contingent upon certain conditions being met in future years. The additional contingent consideration payable to the selling shareholders is subject to a maximum amount of USD 2.93 million. The contingent consideration would be recorded, as and when the contingency is resolved and the consideration is payable.
  - (ii) Subsequently, CloudSquads Inc. (CSI), has been dissolved with effect from December 29, 2015. Persistent Systems Inc., the holding Company took over all the assets and liabilities of CSI on the date of dissolution.
- 38. On July 02, 2015, the Company, through its wholly owned subsidiary Persistent Systems Inc., acquired the entire equity capital of US based Akshat Corporation (d.b.a. RGen Solutions in USA). In addition to the upfront purchase consideration, the stock purchase agreement provides for additional consideration, contingent upon certain conditions being met in future years. The additional contingent consideration payable to the selling shareholders is subject to a maximum amount of USD 3.75 million. The contingent consideration would be recorded, as and when the contingency is resolved and the consideration is payable.
- 39. On 2nd October, 2015, Persistent Systems Inc. (a wholly owned subsidiary of Persistent Systems Limited), acquired the entire equity capital of Aepona Holdings Limited, a Republic of Ireland Corporation along with its five subsidiaries.

- 40. Persistent Systems Inc. (a wholly owned subsidiary of Persistent Systems Limited) acquired Digital Content Management Solution product from the US based Akumina Inc. on November 9, 2015. In addition to the upfront purchase consideration, the asset purchase agreement provides for additional consideration, contingent upon certain conditions being met in future years. The additional contingent consideration payable to Akumina Inc., is subject to maximum amount of USD 5.00 million. The contingent consideration would be recorded, as and when the contingency is resolved and the consideration is payable.
- 41. Persistent Telecom Solutions Inc. (a wholly owned subsidiary of Persistent Systems Inc.) acquired a cloud platform open source software from Citrix on February 28, 2016. In addition to the upfront purchase consideration, the asset purchase agreement provides for additional consideration, contingent upon certain conditions being met in future years. The contingent consideration would be recorded, as and when the contingency is resolved and the consideration is payable.

# Independent Auditors' Report

To The Members Of Persistent Systems Limited

### Report on the Standalone Financial Statements

We, Deloitte Haskins & Sells LLP Chartered Accountants ("Deloitte") and Joshi Apte & Co. ("JACO") Chartered Accountants (collectively referred to as "Joint Auditors"), have audited the accompanying standalone financial statements of PERSISTENT SYSTEMS LIMITED (the "Company"), which comprise the Balance Sheetas at March 31, 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134 (5) of the Companies Act, 2013 ("the Act") with respect to preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under section 133 of the Act, as applicable. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order under section 143 (11) of the Act.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2016, and its profit and its cash flows for the year then ended on that date.

### Report on Other Legal and Regulatory Requirements

- 1. As required by section 143(3) of the Act, we report that:
  - (i) We have sought and obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit.

- (ii) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (iii) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

### Annexure "A" to the independent auditors' report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

# Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Persistent Systems Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## 1. Nature of operations

Persistent Systems Limited (the "Company") is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956 (the "Act"). The shares of the Company are listed on Bombay Stock Exchange and National Stock Exchange. The Company is a global company specializing in software products, services and technology innovation. The Company offers complete product life cycle services.

## 2. Basis of preparation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) to comply in all material respects with the Accounting Standards specified under section 133 of the Companies Act, 2013 and the relevant provisions of the Companies Act, 2013. These financial statements are prepared on an accrual basis and under the historical cost convention except financial instruments which have been measured at fair value. The accounting policies are consistently applied by the Company during the year and are consistent with those used in previous year.

## 3. Summary of significant accounting policies

## (a) Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the end of year. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

## (b) Tangible fixed assets

Tangible fixed assets are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Capital work-in-progress includes cost of fixed assets that are not ready to be put to use.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred.

Gains or losses arising from disposal of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

## (c) Intangible assets

## (i) Acquired intangible assets

Intangible assets including software licenses of enduring nature and contractual rights acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

## (ii) Research and development cost

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Company can demonstrate:

- technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the asset;

- its ability to use or sell the asset;
- how the asset will generate probable future economic benefits;
- the availability of adequate resources to complete the development and to use or sell the asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during development.

Such development expenditure, until capitalization, is reflected as intangible assets under development.

Following the initial recognition, internally generated intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization of internally generated intangible asset begins when the development is complete and the asset is available for use.

#### (d) Depreciation and amortization

Depreciation on tangible fixed assets is provided using the Straight Line Method ('SLM') over the useful lives of the assets estimated by the management.

The management estimates the useful lives for the fixed assets as follows:

| Assets                                     | Useful lives |
|--|--------------|
| Buildings*                                 | 25 years     |
| Computers                                  | 3 years      |
| Computers - Servers and networks*          | 3 years      |
| Office equipments                          | 5 years      |
| Plant and equipment*                       | 5 years      |
| Plant and equipment (Windmill)*            | 20 years     |
| Plant and equipment (Solar Energy System)* | 10 years     |
| Furniture and fixtures*                    | 5 years      |
| Vehicles*                                  | 5 years      |

\* For these classes of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the management believes that the useful lives as given above best represent the period over which the management expects to use these assets. Hence the useful lives of these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Individual assets whose cost does not exceed ₹ 5,000 are fully depreciated in the year of acquisition.

Leasehold land is amortized on straight line basis over the period of the lease. Leasehold improvements are amortized over the period of lease or useful life, whichever is lower.

Intangible assets are amortized on a straight line basis over their estimated useful lives commencing from the day the asset is made available for use.

## (e) Impairment of tangible and intangible assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors.

Recoverable amount of intangible under development that is not yet available for use is estimated at least at each financial period / year end even if there is no indication that the asset is impaired.

An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

## (f) Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the year they occur.

## (g) Leases

#### Where the Company is a lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases.

Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

#### (h) Investments

Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value, determined on category of investment basis. Long-term investments presented in the financial statements are carried at cost. However, provision for diminution in value is made to recognize a decline, other than temporary decline, in the value of investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

#### (i) Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

## (i) Income from software services

Revenue from time and material engagements is recognized on time proportion basis as and when the services are rendered in accordance with the terms of the contracts with customers.

In case of fixed price contracts, revenue is recognized based on the milestones achieved as specified in the contracts, on proportionate completion basis.

Revenue from royalty is recognized in accordance with the terms of the relevant agreements.

Revenue from maintenance contracts and subscription is recognized on a pro-rata basis over the period of the contract.

Revenue from licensing of software and sale of products is recognized upon delivery.

Unbilled revenue represents revenue recognized in relation to work done on time and material projects and fixed price projects until the balance sheet date for which billing has not taken place.

Unearned revenue represents the billing in respect of contracts for which the revenue is not recognized.

The Company collects service tax and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

#### (ii) Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Interest income is included under the head 'Other income' in the statement of profit and loss.

## (iii) Dividend

Dividend income is recognized when the Company's right to receive dividend is established by the reporting date. Dividend income is included under the head 'Other income' in the statement of profit and loss.

## (j) Foreign currency translation

## (i) Foreign currency transactions and balances

## Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

#### Conversion

Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Nonmonetary items, which are measured in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates at the date when the values were determined.

#### Exchange differences

Exchange differences arising on conversion / settlement of foreign currency monetary items and on foreign currency liabilities relating to fixed assets acquisition are recognized as income or expenses in the year in which they arise.

# Forward exchange contracts not intended for trading or speculation purposes covered by AS-11 "The effects of changes in Foreign Exchange rates"

The premium or discount arising at the inception of forward exchange contracts is amortized and is recognized as an expense/ income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or as expense for the year.

# Forward exchange contracts not intended for trading or speculation purposes, classified as derivative financial instruments

The Company has adopted principles of AS-30-"Financial Instruments: Recognition and Measurement" issued by the Institute of Chartered Accountants of India (ICAI), to the extent that the adoption did not conflict with existing notified accounting standards and other authoritative pronouncements of the company law and other regulatory requirements.

As per the accounting principles laid down in AS-30 relating to cash flow hedges, derivative financial instruments which qualify for cash flow hedge accounting are fair valued at balance sheet date and the effective portion of the resultant loss / (gain) is debited / (credited) to the hedge reserve and the ineffective portion is recognized to the statement of profit and loss. Derivative financial instruments are carried as forward contract receivable when the fair value is positive and as forward contract payable when the fair value is negative.

Changes in the fair value of derivative instruments that do not qualify for hedge accounting are recognized in the statement of profit and loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, or terminated, or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss on the hedging instrument recognized in hedge reserve is transferred to the statement of profit and loss when the forecasted transaction occurs or affects profit or loss or when a hedged transaction is no longer expected to occur.

## (ii) Translation of integral and non-integral foreign operation

The Company classifies all its foreign operations as either "integral foreign operations" or "non-integral foreign operations."

The financials statements of the integral foreign operations are translated as if the transactions of the foreign operations have been those of the Company itself.

The assets and liabilities of a non-integral foreign operation are translated into the reporting currency at the exchange rate prevailing at the reporting date. Their statement of profit and loss are translated at exchange rates prevailing at the dates of transactions or weighted average rates, where such rates approximate the exchange rate at the date of transaction. The exchange differences arising on translation are accumulated in the foreign currency translation reserve. On disposal of a non-integral foreign operation, the accumulated foreign currency translation reserve relating to that foreign operation is recognized in the statement of profit and loss.

When there is a change in the classification of a foreign operation, the translation procedures applicable to the revised classification are applied from the date of the change in the classification.

## (k) Retirement and other employee benefits

#### (i) Provident fund

Provident fund is a defined contribution plan covering eligible employees. The Company and the eligible employees make a monthly contribution to the provident fund maintained by the Regional Provident Fund Commissioner equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contributions to the provident fund are charged to the statement of profit and loss for the year when the contributions are due. The Company has no obligation, other than the contribution payable to the provident fund.

#### (ii) Gratuity

Gratuity is a defined benefit obligation plan operated by the Company for its employees covered under Company Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains and losses are recognized in full in the statement of profit and loss in the reporting period in which they occur.

#### (iii) Superannuation

Superannuation is a defined contribution plan covering eligible employees. The contribution to the superannuation fund managed by the insurer is equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contribution to this scheme is charged to the statement of profit and loss on an accrual basis. There are no other contributions payable other than contribution payable to the respective fund.

## (iv) Leave encashment

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

The Company presents the entire leave encashment liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

#### (v) Long service awards

Long service awards are other long term benefits to all eligible employees, as per Company's policy. The cost of providing benefit under long service awards scheme is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains and losses are recognized in full in the statement of profit and loss in the reporting period in which they occur.

## (I) Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current reporting period and reversal of timing differences of earlier reporting periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward

tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. MAT credit available is recognized as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

## (m) Segment reporting

In accordance with para 4 of Notified Accounting Standard 17 (AS-17) "Segment Reporting" the Company has disclosed segment information only on the basis of consolidated financial statements which are presented together with the unconsolidated financial statements.

## (n) Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period/ year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period, that have changed the number of equity shares outstanding, without a corresponding change in resources. Further, the weighted average number of equity shares used in computing the basic earnings per share is reduced by the shares held by PSPL ESOP Management Trust at the balance sheet date, which were obtained by subscription to the shares from finance provided by the Company.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

#### (o) Provisions

A provision is recognized when the Company has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

## (p) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

## (q) Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

## (r) Employee stock compensation expenses

Employees of the Company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

In accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method and recognized as employee compensation cost over the vesting period. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

The expense or credit recognized in the statement of profit and loss for a year represents the movement in cumulative expense recognized as at the beginning and end of that year and is recognized in employee benefits expense. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

## 28. Operating leases

The Company has taken equipment and office premises on lease under cancellable operating lease arrangements. Further, the Company has also taken certain office premises under non-cancellable operating lease agreement for a period of 3 - 15 years. The escalations during non-cancellable lease period have been accounted for on a straight line basis. There are no restrictions imposed by the lease agreements. There are no subleases. The Company has an option to renew the lease agreements at the end of the lease period.

Maximum obligation on long-term non-cancellable operating lease payable as per the rentals stated in respective agreement and the lease rentals recognized on cancellable and non-cancellable leases is as follows:

Activities under Corporate Social Responsibility (CSR)

# **Report on Activities of Persistent Foundation**

### About Persistent Foundation

To institutionalize the Corporate Social Responsibility initiative of Persistent Systems Limited (the 'Company') and to develop a systematic approach to administer the process of grant of donations, Persistent Foundation (the 'Foundation') was formed on October 29, 2008. The Foundation was registered with the Office of the Deputy Charity Commissioner, Pune on March 21, 2009.

A little help goes a long way. The story of Persistent Foundation stands on the same footing. Since 2009, the Foundation is working with communities and individuals with a principle of 'helping them to help themselves'. The Foundation started with a humble purse of a few lakhs which gradually increased to ₹ 6 Crores as the Company (Persistent Systems Limited) grew in size and revenue. Along with working in the areas of Health and Education, the Foundation works with the communities for the most pressing needs such as water, sanitation, renewable energy, etc.

In this journey of 7 years, the Foundation has worked with many NGOs, Schools, Government authorities for effective implementation of the projects. This report gives us an opportunity to look back on our work over the years and renew our commitment towards the society, in future.

### **Focus Areas**

Persistent Foundation is committed to contribute towards improving the quality of life that every individual enjoys and thus, benefiting the community at large. The work of the Foundation focuses on three areas – Health, Education and Community Development, in Urban and Rural area both.

In each of these focus areas, the key areas of work chosen by the Foundation for executing its own projects are as follows:

- 1. Education:
  - a. Girls Scholarship Program for supporting girls who are undergoing their graduation in computers. The key highlight of this program is the engagement of Company's employees in student selection process.
  - b. Student Sponsorship Program through which more than 200 students are supported every year. This program is supported by the donations from Company's employees.
  - c. School uplifting program for providing infrastructural support to schools and conducting programs for improvement of quality of education.

### 2. Health:

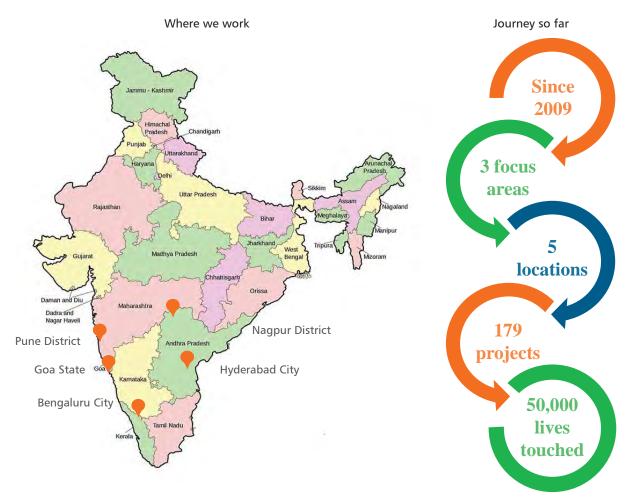

- a. Curative Health program by conducting Cataract surgeries, facial cleft surgeries, Jaipur Foot donation drive, etc,
- b. Preventive Health Program through health check-ups at schools, breast cancer screening, blood donation camps, etc.

### 3. Community Development:

- a. Village upliftment, through watershed projects under 'Jalyukt Shivar Yojana' of Government of Maharashtra
- b. Urban upliftment through Zero Garbage Projects, skill development programs, working for elderly and differently abled sections of the society, etc.
- 4. NGOs: Assisting NGOs working in the above mentioned three focus areas.

## **Persistent Systems Limited**

### How do we operate:

- The developmental issues related to the most pressing needs of the society.
- Promoting critical and constructive engagement with the Government in various projects.
- Close partnership with NGOs to ensure a strong presence within the selected geographical areas of work.
- Creating the knowledge base from the experiences in the field.
- Continuously evolving in terms of developmental understanding, approaches and implementation strategies.

# Highlights of the Year 2015-16

The Foundation decided to undertake projects that would help the community solve their problems and improve their lives. The financial year 2015-16 was singularly remarkable for the Foundation as three flagship projects were undertaken and completed during this year.

In this endeavor, the first Flagship Project 'Swachh Vidyalay Abhiyan' was initiated in the financial year 2014-15. It took one year of constant efforts to construct toilets in more than 100 municipal corporation schools in Pune and Nagpur.

## **Persistent Systems Limited**

### Swachh Vidyalay Abhiyan

### The Process

Mr. Narendra Modi, the Hon'ble Prime Minister of India, launched the 'Swachh Bharat Abhiyaan' on August 15, 2014. It was a national campaign appealing sanitation and hygiene in the country. In his speech, he appealed to the corporate sector to come forward, construct toilets in schools. In response to the appeal, Persistent Foundation decided to take up Swachh Vidyalay Abhiyan. The Foundation pledged to construct/refurbish toilet blocks for 100 schools.

Given the deplorable conditions of toilets in municipal schools, which further led to lower attendance, the Foundation decided to take up this project to supplement the Government's efforts to improve the toilets in these schools. The Foundation worked with the Pune Municipal Corporation right from conceptualizing, planning, executing, monitoring the progress, documenting and media coverage. Rather than outsourcing the work to any implementation partner, the Foundation deployed its own resources to ensure the quality and timely execution of the project.

Along with executing the project, the Foundation also led the CII Pune Chapter companies on the issue of Swachh Vidyalay Abhiyan. The Foundation conducted two sharing meetings with various companies and shared the experiences and know-how. To keep the process transparent and available to be replicated by any one, the Foundation has developed a website dedicated to this cause. Details of all the schools, the student strength, work done, name of the construction render, budget and time taken to complete the work are put on the website <u>http://sva.persistentfoundation.org</u>

The initiative that was flagged off on October 2, 2014 was completed on October 2, 2015. In the defined time span of one year, the 'Government and Corporate Convergence' could achieve sufficient, good and clean toilets for 102 PMC schools benefitting approximately 50,000 students.

The toilets constructed in Corporation schools were handed over to Mr. Kunal Kumar, Commissioner PMC on October 31, 2015.

In financial year 2015-16, apart from toilet construction work in Corporation Schools in Pune, construction / refurbishment work of 8 Corporation schools in Nagpur was also completed. The work of 2 more schools at Nagpur is in progress and is expected to be over by April 2016. This will complete the work of 10 schools in Nagpur.

### Our learnings

The year enriched the Foundation with many experiences such as planning with the schools, coordination with the vendors, monitoring multi-site projects at the same time, developing program indicators with the Govt., responding to unforeseen situations and circumstances during the project implementation.

Roof top solar PV system on the Pune Railway

Every hour the sun beams onto the Earth more than enough energy to satisfy global energy needs for an entire year. Solar energy is the technology used to harness the sun's energy and make it useable. Today, the technology produces less than one tenth of one percent of the global energy demand. There is an ever pressing energy need for alternate energy in India. Conventional sources of energy are limited. Thus, the Foundation decided to put efforts to generate energy through non-conventional sources.

In a first of a kind in India, the Foundation joined hands with the Pune Division of Central Railways for generation of solar power at the Pune Railway Station, in an endeavour to provide 'Eco- friendly Power Generation' which is an important step in eventually making Pune Station a 'Green Station'. The Foundation shall donate, install and commission, the roof top solar PV system in the Railway premises at the Pune Station. The system which consists of approximately 600 PV panels will have a capacity of 162 kWp and generate about 220,000 units of electricity per year. The power generated through this system will help to meet nearly half of the power requirements of Pune railway station.

The MoU with Pune Division of Central Railways was signed in November 2015. The installation of the PV solar systems is in progress and the same will start generating power from May 2016 onwards.

In the present scenario of climate change and emphasis towards adoption of renewable energy resources, such a model will go a long way in contributing towards a cleaner environment and sustainable development. This project will be a model for replication by other corporate houses and help Indian Railways 'Go Green'.

### Water conservation projects

Considering the severity of the drought situation in Maharashtra, the Foundation has decided to respond to the grim situation through engaging in watershed activities. The projects were initiated as ambitious project of Mr. Devendra Fadanvis, Hon'ble Chief Minister of Maharashtra, the 'Jalyukt Shivar Yojana'.

The Government of Maharashtra has launched the project 'Jalyukt Shivar Yojana' in a bid to make Maharashtra a drought-free state by 2019. The project involves deepening and widening of streams, construction of cement and earthen stop dams, work on streams and digging of farm ponds. This Abhiyan aims at initiating permanent measures to make the state drought-free by 2019 and to harvest rainwater within the village boundaries, thereby increasing ground water levels. The project aims to make 5,000 villages free of water scarcity every year.

The Foundation collaborated with the Government of Maharashtra in executing the watershed projects. So far, the Foundation has carried out work in seven locations viz:

### 1. Pune District

- a. Stream linking project at village Kutwalwadi, Tal. Baramati, Dist. Pune
- b. Construction of 4 cement bunds at village Panawadi, Tal. Purandar, Dist. Pune
- c. Widening and deepening of community wells in 6 villages, Tal. Velhe, Dist. Pune
- d. De-silting of river Shivganga at village Nasrapur, Tal. Bhor, Dist. Pune

### 2. Nagpur District

Desilting of stream at village Ambazari, Tal. Hingna, Dist. Nagpur

### 3. Osmanabad District (Marathwada)

- a. Desilting of lake at village Katewadi, Tal. Paranda, Dist. Osmanabad
- b. Construction of cement bund at village Khandeshwarwadi, Tal. Paranda, Dist. Osmanabad

### 1. Pune District

a) Stream linking project at village Kutwalwadi, Tal. Baramati, Dist. Pune

This is the first-of-its-kind project in Maharashtra. The Foundation undertook this project on a special request by Mr. Saurabh Rao, District Collector of Pune.

In village Kutwalwadi, two streams flow parallel to each other at a distance of approx. 1 km from each other. Both these streams have water in the monsoon. However, after the monsoon, one stream gets water from 'Janai Sinchan Yojana' while the other stream remains completely dry. Mr. Saurabh Rao, District Collector of Pune proposed to connect these streams by digging a channel between them which will benefit the villagers near the second stream. With this project, approx. 3,500 acres of land in the catchment area will be irrigated and 5 community wells, 195 private wells and 85 bore wells in the catchment area will get recharged, leading to 8 villages becoming tanker free.

b) Construction of 4 cement bunds at village Panawadi, Tal. Purandar, Dist.

## **Persistent Systems Limited**

Panawadi is situated near the slopes of fort Purandar near Pune. The area receives good rainfall, however due to high slopes, the water flows away quickly. The seasonal river originating in Purandar fort flows through 6 villages to finally meet river Neera. The river has a good force of water due to natural slope and it is locally known as 'Rudraganga'. It flows only in the months from June to December every year. Due to this, after the rains, the villagers have to depend on bore wells and at the onset of summer, on the tankers. In Financial year 2015-16, the work of construction of 4 cement bunds was undertaken. Construction of 3 bunds was completed. The work of the 4th bund is in progress. After the rains, the water stored in these bunds is expected to benefit approx. 800 villagers and 240 Ha of agricultural land.

c) Widening and deepening of community wells in 6 villages (Barshicha Mal, Kondhalkar vasti, Varoti Khurd, Khopadewadi, Nivi and Ghevende), Tal. Velhe, Dist. Pune

In association with Jnana Prabodhini's Gram Vikasan Team, the Foundation initiated 'Drinking Water Solution Project' in six villages in Tal. Velhe of Pune Dist. All villages / hamlets are situated in hilly areas. Some villages are tanker fed; whereas in some areas even the tankers cannot reach the villages. In Financial year 2015-16, the work of spring water harvesting (3 springs), deepening of old community wells (3 wells) and land levelling and terracing was undertaken.

The work of community wells in these villages was handed over to the villagers. Since the wells are used only for drinking water purposes, the work has special importance in this area. After the rains, there will be more water stored in these wells due to widening and deepening. This water is expected to benefit approx. 1,000 villagers.

d) De-silting of river Shivganga at village Nasarapur, Tal. Bhor, Dist. Pune

River Shivganga originates in village Kalyan, flows through 14 villages and finally meets river Gunjawani. The river has a good force due to good rainfall in this area. However, as the village Nasarapur is at the end of the river before meeting Gunjawani river, a lot of silt had accumulated over the years. This was making the river basin shallow and hence water storage had decreased near the village Nasrapur.

In financial year 2015-16, the work of de-silting of 1 k.m. patch in river Shivganga was completed. After the rains, the water stored due to desilting is expected to benefit approx. 2,000 villagers and 60 Ha of agricultural land.

### 2. Nagpur District

a) De-silting of stream at Ambazari village, Tal. Hingna, Dist. Nagpur

Village Ambazari is situated on the slopes of Fringe Zone of Satpuda ranges. A water stream originates in Ambazari village and flows through 5 villages to finally meet river Durga. The length of water stream is 35.6 k.m. It flows only during June to December every year. Thereafter the village is solely dependent on wells and February onwards every year on tankers till the next monsoon.

In financial year 2015-16, de-silting of this entire stream was undertaken. Till March 2016, work of 28 k.m. was completed. The work of the rest of the 8 k.m. is in progress. After the rains, the water stored due to desilting is expected to benefit approx. 4,000 villagers and 1,320 Ha of agricultural land.

### 3. Osmanabad District

As a response to the severe drought in Marathwada, the Foundation decided to work in Marathwada as a special case even if it is outside the decided geographical jurisdiction of the work of the Foundation.

A special donation drive was launched for Marathwada Drought Relief. In this drive, the employees of Persistent Systems Limited collected ₹ 7 Lakhs. A matching grant was made by the Foundation.

a) De-silting of lake at village Katewadi, Tal. Paranda, Dist. Osmanabad

### Vocational training centre for women

In association with Krantijyoti, this project was initiated in the slums of Yerawada, Pune in financial year 2015-16. The centre offers 15 different courses such as stitching, bag making, soft toy making, candle making, file making etc. The centre aims at not only training the women who want to start their own business but also in handholding them after they start their business. In one year, 295 women were trained in these different vocations. Out of these women, 18 women are now working as trainers, more than 50 women are engaged in seasonal business (which are around the festivals) and 60 women are engaged in regular business activities like tailoring, soft toy making etc.

Snehadhaar

In association with Snehalay, the Foundation is running a short stay home for destitute women. The centre is at Ambegaon, Pune and was inaugurated at the hands of Mrs. Sonali Deshpande, Chairperson of Persistent Foundation. 25 destitute women can stay in this residential facility at a given time. The centre will be fully operational from April 2016 onwards. This centre will provide the women with shelter, food, legal aid etc.

In order to make them independent, various vocational training courses will be conducted at the centre. After the course, the women will be self sufficient and may start living on their own, making the centre available for the needy women.

### Portable traffic signals

In metro cities like Pune, the traffic has become an ever growing issue to be tackled. It becomes further difficult especially during the festivals such as Ganesh Utsav, Wari processions, various other religious processions, traffic jam due to various reasons, signal system failures etc. Considering this, Pune Traffic Police Branch requested Persistent Foundation to donate Portable traffic signals. Accordingly, the Foundation donated 3 signals which are powered by solar enegry and hydraulic system enabling it to become movable, self contained, with ease of manuvering and are light weight. The traffic police personnel will be trained in using these signals and they will be used in various traffic situations in Pune.

**Volunteering Drives** 

In financial year 2015-16, 139 volunteering drives, 1,935 volunteers contributed 4,721 volunteering hours.

As compared to FY 2014-15, in FY 2015-16, there was a substantial rise in the number of volunteers and volunteering hours.

Total number of volunteers increased in financial year 2015-16. Location wise number of volunteers increased for all locations.

A few major volunteering drives undertaken in financial year 2015-16 are as follows:

1. Traffic Management

'Ashadhi wari' from Alandi and Dehu passed through Pune in July every year. A huge crowd of around 5 lakh people along with processions, diverted traffic routes and rains put additional stress on City Traffic Police Department. As vigilant citizens, 67 employees from Persistent Systems participated in 'Traffic Management Activity'.

Similarly, 'Ganesh Utsav' is celebrated in Pune for 10 days and the highlight of the celebration is the spectacular procession on the final day of immersion. However, it puts the traffic completely out of order. This year, 38 employees from Persistent Systems participated in 'Traffic Management Activity'.

90 volunteers from Persistent Systems managed the traffic at Nal Stop, Hinjawadi square and University square for 15 days. They managed the crossings along with the traffic police personnel in the peak morning and evening hours.

2. Rallies and cleanliness drives for awareness about segregation of wet and dry waste

As a part of the 'Zero Garbage Project' many rallies and cleanliness drives were organised in Prabhag 11 to spread awareness about segregation of wet and dry waste.

185 volunteers from Persistent Systems participated in these events.

### 3. Tree plantation

At the onset of monsoon, tree plantation activities were organised at Pune and Nagpur. In Pune, 92 volunteers from Persistent Systems planted more than 350 trees were planted on the hill of Warje and also in Aundh Cantonment. In Nagpur, 15 volunteers from Persistent Systems planted 20 trees.

### 4. Tree maintenance activity

Tree maintenance is as important as planting the trees and with the same objective, volunteers undertook the activity of tree maintenance on the ARAI hill in two rounds. 20 volunteers from Persistent Systems participated in this activity.

### 5. Adult computer literacy program

There are many senior citizens in the families of the employees who struggle to operate computers. Many a times, they need help related to typing, word/excel document, managing e-mails and social networking.

To help them in this, the Foundation organized an adult computer literacy program for the senior citizens. 90 senior citizens benefitted from this activity. 40 volunteers from Persistent Systems participated in this activity as trainers.

The Foundation organized an adult computer literacy program at Nagpur centre for the senior citizens. 16 senior citizens benefitted from this activity. 8 volunteers from Persistent Systems participated in this activity as trainers.

### 6. Cyber Champ

98 volunteers from Persistent Systems participated in organising and executing the Cyber Champ Quiz Program at Pune and Goa.

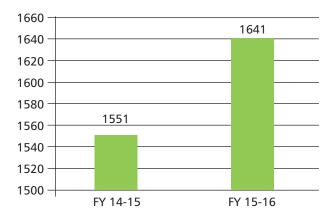

### 7. Blood donation

A blood donation camp was organised in Pune. 310 volunteers from Persistent Systems donated 310 bottles of blood on a single day.

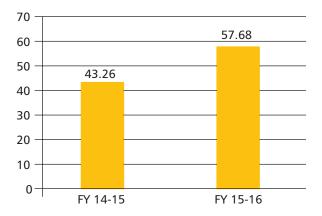

### **Donation Drives**

In financial year 2015-16, in 12 donation drives 1,641 unique donors together donated ₹ 57.68 Lakhs.

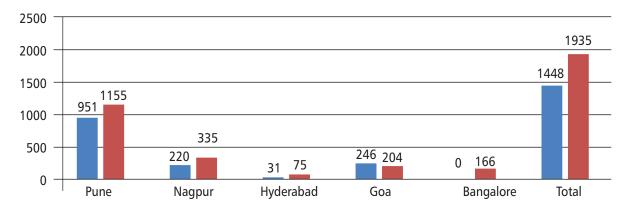

### Unique Donors

### Donation Amount - ₹ Lakhs

## **Continuous Transformation by Design**

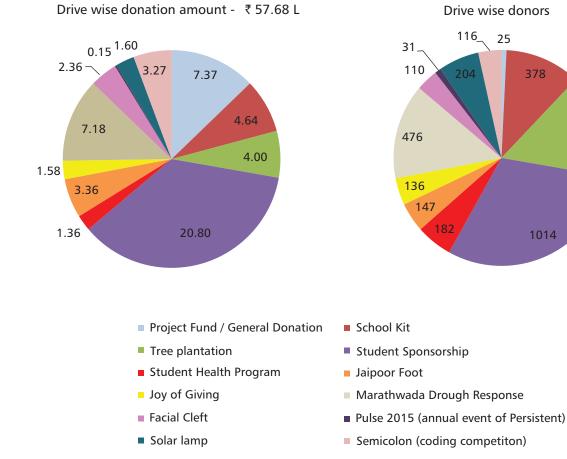

As compared to FY 2014-15, there was a substantial rise in the number of donors and amount of donation.

Total percentage of donors was more or less the same in FY 2014-15 and FY 2015-16. Location wise percentage of donors remained constant for Pune, increased for Nagpur, Hyderabad and decreased for Goa and Bengaluru.

524

The drive wise distribution of the donation amount is as given below.

Code of Conduct

Company's Code of Conduct (also referred to as the 'Code') outlines its commitment to ethical standards and compliance with applicable laws. The Company's Code is based on its values and clarifies the ethics and compliance expectations for everyone who works for the Company. The Code includes sections on operating safely, responsibly & reliably; its people; its business partners; the governments and communities the Company works with and its assets and financial integrity. The Code takes into account key points from the Company's internal standards related to anti-bribery and corruption, anti-money laundering, competition and anti-trust law and trade sanctions. The Company conducts due diligence on all its vendors and customers in accordance with these policies.

#### Who the Code of Conduct applies to

The Code applies to every employee of the Company and its subsidiaries and the endeavor is to extend this Code to all its contractors and business partners. Where feasible, the Company seeks a contractual commitment from its contractors and business partners to comply and work in line with the Code. Where the Company has the right to do so, it may consider terminating contracts where a contractor has not complied with the obligations or not renewing a contract where a contractor has acted in a manner that is not consistent with Company's values or the Code. The Company rigorously follows ethical business decisions, ensuring the actions of all its employees, vendors, business partners and customers are consistent with the law.

The Company collaborates closely with all stakeholders in order to initiate and foster fair business practices in all spheres of business to create and sustain an ethical and transparent environment.

#### Certifying the Code

Each year, the Company engages its employees in Code of Conduct certification. It is embedded in the annual performance contract of all employees to comply with the Code and to create an environment where people can confidently raise concerns without fear of reprisal. The compliance with this Code by each employee is being monitored by the Company on a regular basis.

#### Fostering a 'speak up' culture

The Company is committed to providing an open environment where its employees, contractors and other stakeholders are comfortable speaking up whenever they have a question about our Code of Conduct or think that law, regulations or the Code, may have been breached. All stakeholders are encouraged to raise concerns with the Company's management team or BP's global helpline.
