### **Management Comment:**

Commenting on the Company's performance, **Mr. Prashant Garg, Chairman & Managing Director, Diffusion Engineers Ltd** said:

*"During the Second quarter ended 30th September 2025, we recorded revenue of ₹835.66 million, EBITDA (excluding other income) of ₹123.67 million, and PAT of ₹101.65 million representing an*

*increase of 19.48% over Q2 2024. For the first half of FY26, we achieved Revenue Of ₹1642.31 million representing a growth of ~7% over H1 2024 and PAT of ₹224.30 million Representing a growth of ~42% increase on a year-on-year basis.*

*We are pleased to share that Diffusion Engineers Limited has received significant orders in the last two quarters, further strengthening our order book and enhancing revenue visibility. Our healthy order book of over Rs. 170 crore driven by strong demand for Roll Press Rolls for the cement sector and heavy engineering applications reflects the confidence that customers place in our engineering capabilities, product reliability, and long-standing industry relationships. These developments position us well for sustained growth in the coming quarters.*

*With new capacities scheduled to come online in FY26E and the completion of our ongoing capex, we are targeting to double our topline in the medium to long term. We also expect EBITDA margin expansion, supported by economies of scale, improved operating leverage, and an enhanced product mix driven by higher-value manufacturing.*

*Looking ahead, with a robust order book, healthy demand across core sectors, and our ongoing operational initiatives, we are confident of delivering sustainable growth and improved profitability in the coming quarters. I extend my sincere gratitude to every member of the Diffusion family, our valued clients, creditors, bankers, financial institutions, and all other stakeholders. Your trust and support continue to inspire us to strive harder and achieve greater milestones.*

*Thank you for your continued faith in Diffusion Engineers”*

**About Diffusion Engineers Limited**

Our Company incorporated in 1982, pioneer in advanced manufacturing of welding consumables, wear plates, wear parts and heavy engineering machinery to diverse industries, including cement, steel, power, and mining. Our Company is dedicated to providing specialized repairs and reconditioning services for heavy machinery and equipment. Additionally, we are also involved in trading of anti-wear powders and welding and cutting machinery. We provide super conditioning process at our manufacturing facilities, a surface treatment solution for machine components that enhances wear resistance, eliminates stress and improves their repairability ultimately extending their lifespan and reducing production costs. We have developed a synergistic system of forward integration whereby we manufacture special purpose electrodes and flux cored wires which are utilized for manufacturing wear resistance plates (commonly known as wear plates). These wear plates then become an integral part of majority of large industrial equipment which are made in

our heavy engineering division and are significant contributor in manufacturing of industrial equipment. With strategically located manufacturing units in Nagpur, Maharashtra, we benefit from central connectivity, which facilitates efficient logistics, reduced transit times, and cost optimization.
