REPORT OF THE DIRECTORS TO THE MEMBERS

The Directors are pleased to present their 68th Annual Report on the business and operations of the Company together with the Audited Accounts for the financial year ended March 31, 2015.

GENERAL OUTLOOK OF INDUSTRY AND ECONOMY:

The economic recovery in our business segments has not materialized as anticipated. This has adversely affected the demand for our products and continues to put immense pressure on our margins. Given the pace of economic revival that we have seen during the past year, we expect a subdued business environment at least during the course of the financial year 2015-16. We would continue to take appropriate internal measures to mitigate the impact of the continued adverse macro factors.

During the year under review, there has been consistent focus to maintain our market shares although this has, in some cases, resulted in lower margins. As we await the impending capex cycle and the associated recovery of the business cycle, we will take efforts to balance our market presence while maintaining margins. To ensure that we do not lose sight of growth potential in the future, we have maintained our focus on building capabilities that will help us build better products. We continue to diligently focus on working capital optimization and collection recovery efforts. The Drives & Automation as well as the Elevator Systems business continue to do well.

DIVIDEND:

In view of the loss during the financial year 2014-2015, the Directors have not recommended payment of dividend for the year ended March 31, 2015.

OPERATIONS:

For the third successive year, the economy and market conditions were dominated by demand gap, low price realisation, negative growth in the capital goods industry, low levels of investment by government/industry and delays in project execution. The Company had to maintain its operations against this background.

Income from Sales and Services for the Company increased from ₹ 53748.76 lakhs in the previous year to ₹ 66788.90 lakhs, a rise of 24%. However, the position of over-supply and intense competition took a toll on margins. Consequently in spite of increase in revenue, Company incurred a loss before exceptional items and tax of ₹ 3443.14 lakhs as against a loss before exceptional items and tax of ₹ 1342.12 lakhs in the previous year.

FINANCE:

Tight money market conditions, elongated working capital cycle and substantial erosion in profitability resulted in negative cash flows from operations and caused an increase of ₹ 685.50 lakhs in finance cost for the year. The Company ensured that there was no default in meeting its obligation and maintained a smooth flow of operations.

The Free Reserves of the Company as on March 31, 2015 decreased by ₹ 3543.33 lakhs to ₹ 25969.94 lakhs.

During the year ₹ 9.24 lakhs was transferred to the Investor Education and Protection Fund.

HUMAN RESOURCES AND EMPLOYEE RELATIONS:

There is an ongoing emphasis on building a progressive Human Resources culture within the organisation. Structured initiatives to nurture talent and create a working environment that fosters motivation, team-work and result-orientation continue to be addressed.

The long term wage agreement with the Union expired on December 31, 2014. Union submitted a new charter of demand for next wage agreement in November 2014. Negotiations for the same are in progress. Productivity levels continued to be subject to continuous monitoring.

Employee strength as on March 31, 2015 was 1378 as compared to 1436 in the previous year.

DEPOSITS:

As on March 31, 2015 the company had no outstanding Fixed Deposits. The Company has neither accepted nor renewed any deposits during the financial year 2014-2015 and in accordance with the provisions of Section 74(1)(b) of the Companies Act, 2013, repaid all its outstanding deposits as on March 31, 2014 aggregating to ₹ 2160.90 lakhs.

DISCLOSURE UNDER SECTION 134(3)(I) OF THE COMPANIES ACT, 2013:

Except as disclosed elsewhere in this Report, no material changes and commitments which could affect the Company's financial position have occurred between the end of the financial year and the date of this Report.

DISCLOSURE OF INTERNAL FINANCIAL CONTROLS:

The Internal Financial Controls with reference to financial statements as designed and implemented by the Company are adequate. During the financial year under review, no material or serious observation has been received from the Internal Auditors of the Company for inefficiency or inadequacy of such controls.

SIGNIFICANT AND MATERIAL ORDERS BY THE REGULATORS OR COURTS OR TRIBUNAL:

There are no significant and / or material orders passed by the Regulator(s) or Court(s) or Tribunal(s) impacting the going concern status of the Company and its business operations in future.

PARTICULARS OF CONTRACT OR ARRANGEMENT WITH RELATED PARTIES:

All contracts/arrangements/transactions entered by the Company during the financial year 2014-2015, with related parties, as defined under Section 188 of the Companies Act, 2013 and the rules made there under and Clause 49 of

the Listing Agreement entered into by the Company with the Stock Exchanges, were in the ordinary course of business and on arm's length basis. Consequently no particulars in Form AOC-2 have been furnished.

MANAGEMENT DISCUSSION AND ANALYSIS

The expected revival of the Indian economy continues to elude us and it now appears to be delayed at least by a year or two. That implies that the next two years would be challenging for the Company's businesses. What is especially concerning is the lack of revival in the demand and pricing situation in the Power Systems business of your Company.

We began last year with the hope of an uptick in the investment environment in the country supported by a declining interest rate cycle. Unfortunately, neither has happened to a degree that improves business confidence. This has resulted in continued demand pressures for the core products of your Company viz. Transformers and Industrial Motors. The decline in the pace of interest rate reduction has resulted in additional pressure on the working capital requirements and profit margins.

Even in these difficult times, there are certain bright spots in your Company. The Elevator Systems and Drives & Automation businesses continue to grow well. We have successfully achieved the ISO 14001:2004 certification for Environmental Management System and OHSAS 18001:2007 certification for Occupational Health and Safety Management for our manufacturing facilities. The Transformer testing lab has also received the prestigious NABL accreditation.

While we believe that further downside seems limited, it would be prudent to tone down the timeline expectations of an impending economic recovery and prepare for a more long drawn revival cycle. To that extent, we will continue to build capabilities, aggressively maintain our market positions and look for all possible means to keep costs under control.

SEGMENT ANALYSIS

The Company operates in two Business Segments, viz. "Power Systems" and "Industrial Systems".

Power Systems:

The Power Systems segment comprises primarily of Power Transformers upto 200 MVA, 220 KV voltage class and EPC projects for electrical substations upto 400 KV.

Our Transformer business is heavily dependent on investments in the Transmission networks in the country. The business environment, therefore, is linked to the capex budgets and infrastructure growth plans of all State Power Utilities and the Power Grid Corporation of India Limited (PGCIL). While we continue to see tenders being floated across these customers, the demand is still far below the supply capacity of the industry. This continues to put tremendous pressure on margins in an increasingly competitive business environment. We have consciously diversified our customer base to reduce dependence on Power Utilities. However, these segments are expected to revive along with the broader economic recovery over the years.

We continue to adopt a conservative approach to building our projects order book to ensure that margins, project readiness for timely completion and collection of dues do not drag the performance and profitability of the business. So far this seems to be working well.

Industrial Systems:

This segment comprises the marketing, engineering, design and manufacture of a full range of industrial motors, synchronous gearless machines for elevators, and AC variable speed drives and drive systems.

The Industrial Motors business continues to experience lower demand resulting in higher competitive intensity. We have, however, maintained our margins and market share in this difficult demand environment. We hope to see a recovery in this segment in the later part of next year. We have substantially improved our supply chain to capitalize on any demand recovery as it materializes. We also continue to concentrate on market reach, and understanding our end customers better. The Medium Voltage motor business has gained traction and continues to grow over time. We have also developed a range of high efficiency motors that will prepare us to compete with the best in the industry.

The Drives business caters to highly engineered application segments. We continue to build on our leadership in niche applications and aspire to repeat that performance in other customer segments as well.

The Elevator Systems business has also maintained a healthy growth trajectory and we are prepared to capitalize on any further improvements in the business prospects.

INTERNAL CONTROLS, AUDITS, RISK MANAGEMENT & IT

The Company has in place internal controls, procedures and policies to ensure that the Company's assets are acquired, accounted and monitored appropriately, that the operational and financial records are reliable, and all prevailing statutes are complied with at all times.

The organisation-wide SAP ERP system ensures that all material business processes and controls are mapped, transactions recorded and continuously reviewed and refined. These provide reasonable assurance with regard to the monitoring of operations, maintaining of proper accounting controls, safeguarding of assets, adherence to access and authority frameworks, compliance with regulations, and ensuring reliability and accuracy of financial reporting. We intend to review these in the coming year for continued high levels of assurance.

Internal controls related to all business operations in the factory and offices are regularly reviewed and tested both by the Company's Internal Audit function and the Statutory Auditors and necessary improvements in processes, IT systems and controls are recommended and followed up for

implementation with process owners. Review of significant audit observations, and monitoring of the implementation of consequential corrective and preventive actions, is periodically undertaken by top management and the Audit Committee.

The Company has a well defined framework for Risk Management which is being integrated within its business planning and review process.

Risks are identified and prioritised annually on the basis of impact and likelihood, and mitigation plans are developed by Risk owners and are subject to evaluation and review by the Audit Committee.

To promote our efforts to manage and protect critical business knowledge, the internal PRO+Active team that maps and

improves internal processes is being complemented through Knowledge Management initiatives.

RISKS AND CONCERNS

The prevailing macro economic situation in the country is the key risk for the business outlook in the coming financial year. We hope that the investment cycle kicks off over the next six to nine months resulting in capex uptick and improved business demand.

FUTURE OUTLOOK

The worst seems to have been factored in and any further downside seems to be limited. We expect tough times to continue for a few more quarters before the first signs of a sustainable revival are visible.

B. Retirement Benefits:

- a) Retirement benefits in the form of Provident Fund/Family Pension Fund and Superannuation Fund, which are Defined Contribution Plans, are accounted on accrual basis and charged to the Statement of Profit and Loss of the year.
- b) Retirement benefits in the form of Gratuity which is a defined benefit plan and the long term employee benefit in the form of Leave Encashment, are determined and accrued on the basis of an independent actuarial valuation applying the Projected Unit Credit Method.
- c) The actuarial gains/losses arising during the year are recognised in the Statement of Profit and Loss of the year.

2.10 Borrowing Costs:

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. All other borrowing costs are recognised as an expense in the Statement of Profit and Loss in the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS

Notes (Contd.)**2.11 Taxation:**

Current Tax is determined at the amount of tax payable at the applicable tax rate in respect of the estimated taxable income for the year.

Deferred Tax is determined using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred Tax Assets are recognised and carried forward only if there is reasonable certainty of its realisation. However, in case of carried forward losses and unabsorbed depreciation under the Income Tax Act, 1961, the Deferred Tax Asset is recognised if and only if there is a virtual certainty backed by convincing evidence of its realisation. Such assets are reviewed at each Balance Sheet date to reassess its realisation.

Current Tax Assets and Current Tax Liabilities are offset when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle the asset and liability on a net basis. Deferred Tax Assets and Deferred Tax Liability are offset when they relate to the same governing taxation laws.

Minimum Alternative Tax (MAT) Credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit/asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal tax during the specified period.

2.12 Leases:**Operating Leases**

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease.

2.13 Impairment of Assets:

Assessment is done at each balance sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

2.14 Provisions and Contingent Liabilities:

Provisions: Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date and are not discounted to its present value.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.15 Cash and cash equivalents:

Cash and cash equivalents include cash, cheques on hand, cash at bank and short term deposits with banks having maturity of three months or less.

2.16 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.
