Encl: As Above

A blue silhouette of an elephant is positioned inside a large, glowing blue circular opening that resembles a pipe. The elephant is facing right. The background consists of a repeating pattern of similar, slightly offset circular openings, creating a tunnel-like effect.

THE TRUE STRENGTH

MALPANI
PIPES & FITTINGS LIMITED

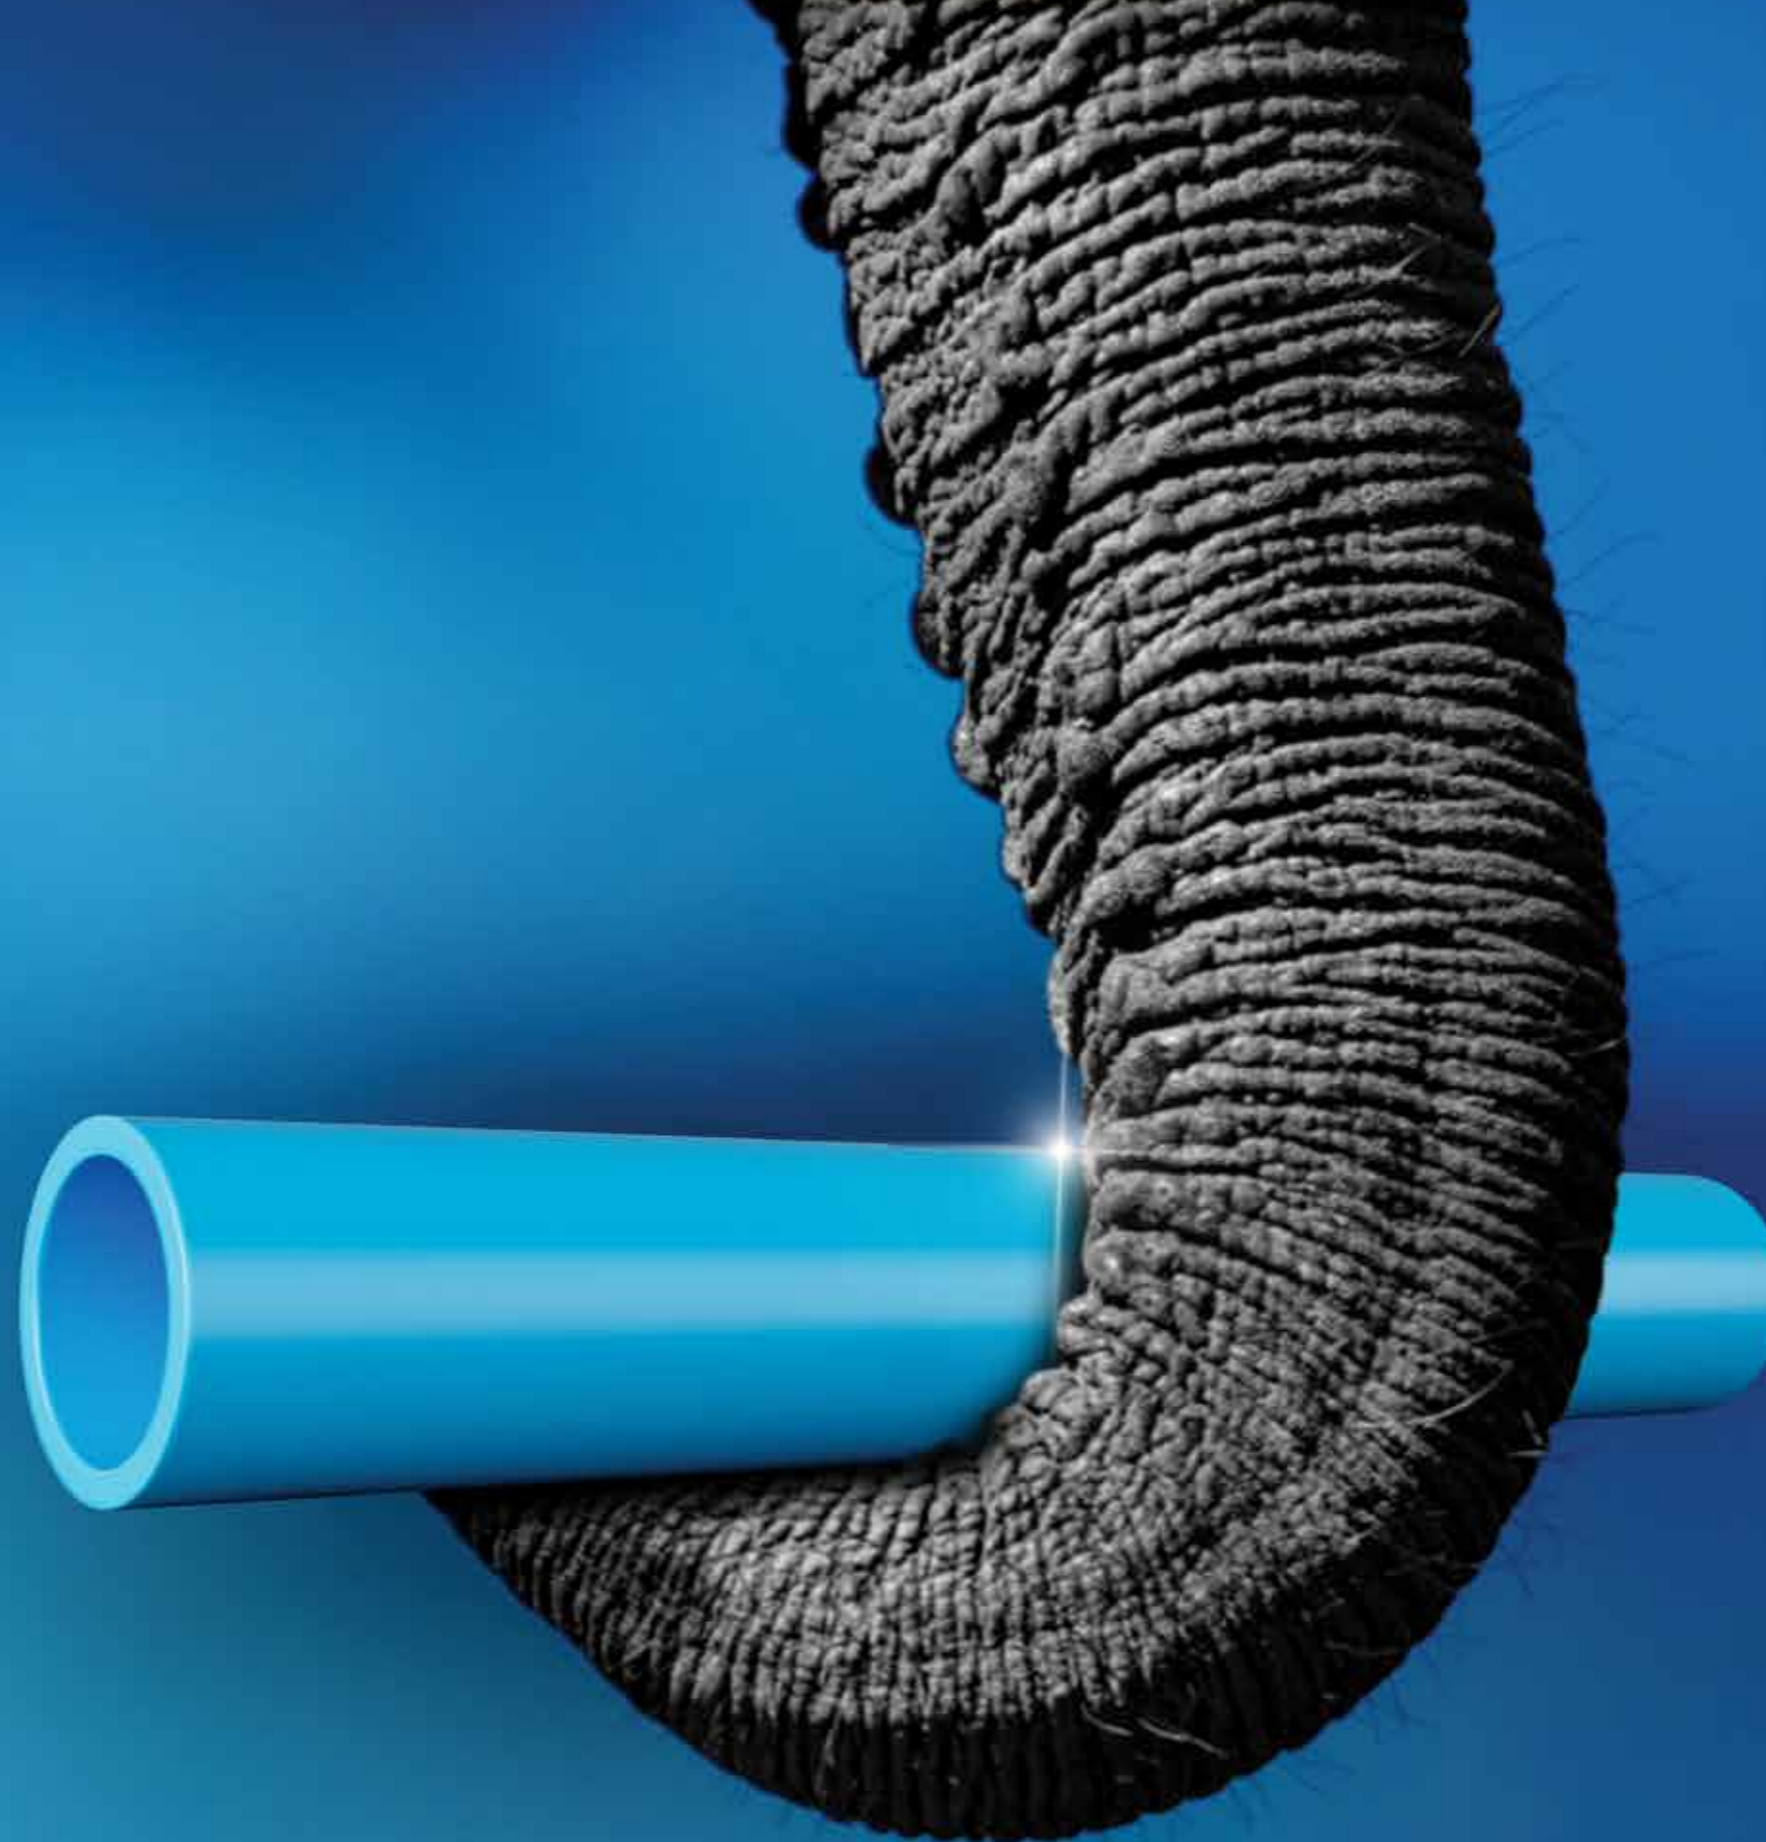

A close-up photograph of an elephant's tusk, which is dark and textured, crushing a black pipe. The pipe is bent and broken under the pressure of the tusk. The background is a solid, vibrant blue. The scene is lit with a bright light source from the right, creating a lens flare effect on the tusk and the pipe.

Born Unbreakable: Tusk-Strong Malpani Pipes

Every great project begins with the right foundation-and the right pipe. Malpani offers a complete range: HDPE for heavy-duty water and sewerage, MDPE for safe drinking water and gas, PVC for reliable plumbing, LLDPE for irrigation, sprinkler and drip systems for agriculture, plus robust gas and sewerage pipes for specialised needs. Each type is crafted to perform in its own role, ensuring we have the perfect solution for every application-rural, urban, industrial, or agricultural.

Trunk Grip of Trust: Your Lifeline Flow

We see every pipe as a promise-to deliver quality, to support growth, and to build sustainably. Our values are rooted in trust, innovation, and responsibility. We invest in advanced technology and eco-friendly practices, ensuring each product serves its purpose for decades while respecting the environment. Communities, governments, and industries choose Malpani because we don't just make pipes-we safeguard the connections that keep life moving, holding them as firmly as our name stands in the market.

An elephant's trunk, showing its characteristic wrinkled texture, is shown holding a silver-colored metal pipe. The trunk is positioned on the left side of the frame, with the pipe held between its segments. The background is a solid, vibrant blue. The pipe has a flared end and a smooth, reflective surface. A small, bright light flare is visible where the trunk grips the pipe.

Unwavering Support: Pipes That Tailor Reliability

A pipe is more than a hollow tube-it's the lifeline of a system. That's why Malpani builds in strength and precision at every stage. Leak-proof joints, exceptional flexibility, impact resistance, chemical safety, and temperature tolerance from -40°C to 60°C keep our pipes performing under pressure. With ISO and BIS certifications, every metre is tested for reliability. When conditions are tough, our pipes don't just survive-they deliver, protecting the flow that keeps communities and industries running.

Solid Footprint: Every Step Counts

Our work leaves a lasting mark in every sector we serve. Farmers rely on our irrigation systems to nourish crops. Infrastructure projects depend on our water supply, sewerage, and cable protection lines. Industries count on us for safe fluid and gas transfer. Even flagship missions like Jal Jeevan trust Malpani Pipes to deliver on a national scale. From fields to factories to city streets, we help keep the nation's lifelines flowing strong and uninterrupted.

About Company

Malpani Pipes and Fittings Limited is a premier player in the precision plastics industry, specializing in an extensive range of products including HDPE Pipes, MDPE Pipes, Sprinkler Pipes, Drip Irrigation Pipes, PE Lateral Pipes, PE Sewerage Pipes, and PE Gas Pipes.

Our state-of-the-art manufacturing facilities and robust nationwide distribution network highlight our unwavering commitment to excellence and market leadership.

We adhere to the highest industry standards, ensuring our products deliver unmatched durability and performance across critical sectors such as agriculture, infrastructure, and telecom. Our strategic emphasis on innovation, sustainability, and operational efficiency positions us as a key driver of India's infrastructure growth under the "Make in India" initiative. As we aggressively expand our production capacity, we offer investors a unique opportunity to partner with a company that is at the forefront of essential development in one of the world's fastest-growing economies.

Vision

To establish Malpani Pipes & Fittings Limited as a global leader in the piping industry, renowned for our relentless pursuit of excellence, innovation, and sustainability. We envision a future where our brand is synonymous with superior quality, cutting-edge technology, and unparalleled customer satisfaction.

Mission

At Malpani Pipes and Fittings Limited, our mission is to deliver world-class piping solutions through product excellence, operational efficiency, and customer-centric service. We empower our employees, uphold sustainability, and support the "Make in India" initiative by fostering local manufacturing, innovation, and growth-driving progress for our customers, communities, and the nation.

Pipes That Carry Our Promise

Malpani Pipes began with a simple aim - to create products that people can trust, year after year.

From the first pipe we made to the thousands we produce today, our focus has never changed: strength, reliability, and responsibility.

We are proud that our work reaches farms, homes, and cities, quietly supporting lives every day.

The future we are building is not just about growth - it's about keeping our promise to deliver quality that lasts and care that never fades.

Management Discussion And Analysis

Overview

The purpose of this report is to present Management's insights into the external environment and the industry, alongside discussions on strategy, operational and financial performance, key developments in human resources and industrial relations, as well as an assessment of risks, opportunities, and the adequacy of internal control systems during the Financial Year 2024-25. It should be reviewed in conjunction with the Company's financial statements, including schedules, notes, and other sections of the Integrated Report and Annual Accounts for 2024-25. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS'), adhering to the requirements specified under the Companies Act, 2013, as amended, and regulations prescribed by the Securities and Exchange Board of India ('SEBI').

Our Country's economy is well poised to have high growth in this year in spite of uncertain Global situation.

The current Global trend for crude prices is to remain range bound at \$ 65-70 barrel level. This will help the \$ Rupee exchange rate remaining range bound without steep depreciation of the Rupee. In the current economic situation Polymer prices which is our principal raw material will also remain at close to current price trend. Thus, the products made by our Company will remain at very affordable level.

Plastics Pipe System business growth was affected during previous year principally due to the following three reasons:

2. The principal raw material used by the Company in this system is PVC suspension grade resin. The prices of this raw material reduced 14 times during the previous year after 1st July. This created very unstable situation leading to aggressive de-stocking in the entire Distributor/Dealer chain.

Global Economy

The global economy in FY 2024-25 experienced moderate recovery amid continued geopolitical tensions, inflationary pressures, and evolving supply chain dynamics. While advanced economies faced subdued growth due to tight monetary policies and high borrowing costs, emerging markets showed relative resilience, supported by domestic consumption, infrastructure investments, and easing commodity prices. Key sectors such as manufacturing, construction, and logistics—critical to our business operations—witnessed gradual stabilization, creating a mixed demand environment across geographies. The global push toward sustainability and circular economy principles further influenced industry practices, particularly in packaging and building materials, prompting greater adoption of eco-friendly solutions. Despite lingering uncertainties, improving global trade sentiment and policy support in infrastructure and housing sectors provided a positive outlook for companies operating in industrial packaging and building products, laying a foundation for long-term growth.

Outlook

A series of recent reforms, along with the economy's inherent strength, have created a strong foundation for sustained long-term growth. The Reserve Bank of India (RBI) projects that India's GDP will grow by 7.2% in FY25, with an estimated inflation rate of 4.5% for the same period. The expected growth trajectory and a reduction in overall inflation indicate that India is well-positioned to become the world's third-largest economy by 2030.

The IMF anticipates that advanced economies will adopt a more restrictive fiscal policy stance starting in 2024 and continuing into the future. This adjustment is reflected in projections for the structural fiscal balance as a percentage of GDP, which is expected to notably increase in both the US and the Euro area. Meanwhile, emerging markets and developing economies are likely to maintain a generally neutral policy stance in 2024, with a slight inclination towards tightening in 2025.

The government's commitment to supporting farmers

is evident, given the substantial budget allocation for agriculture. This further underscores the government's farmer-centric approach and its efforts to strengthen the agricultural sector. Furthermore, the emphasis on urban infrastructure will play a pivotal role in boosting the construction industry, with the budget also including adequate funding for rural programmes.

For FY25, the government plans to raise capital expenditure to ₹ 11.1 lakh crore, up from the ₹ 10 lakh crore allocated for FY24. The substantial rise reflects the government's commitment to promoting economic development and establishing a stronger infrastructure framework across the country.

Indian Economy

INDIAN PLASTICS INDUSTRY AND EXPORTS

The Indian plastic industry is one of the leading sectors in the country's economy. The history of the plastic industry in India dates to 1957 with the production of polystyrene. Since then, the industry has made substantial progress and has grown rapidly. The industry is present across the country and has more than 2,500 exporters. It employs more than 4 million people in the country and constitutes 30,000 processing units; among these, 85-90% belong to small and medium enterprises. India manufactures various products such as plastics and linoleum, houseware products, cordage, fishnets, floor coverings, medical items, packaging items, plastic films, pipes, raw materials, etc. The country majorly exports plastic raw materials, films, sheets, woven sacks, fabrics, and tarpaulin. The Government of India intends to take the plastic industry from a current level of Rs. 3,00,000 crore (US\$ 37.8 billion) of economic activity to Rs. 10,00,000 crore (US\$ 126 billion) in four-five years.

10 Plastic Parks have been approved in the country by The Department of Chemicals and Petrochemicals. Among these, six plastic parks have received final approval from the following states – Madhya Pradesh (two parks), Assam (one park), Tamil Nadu (one park), Odisha (one park), and Jharkhand (one park). These parks are intended to boost employment and attain environmentally sustainable growth.

India's economic growth has demonstrated resilience despite global challenges over the past three fiscal years. This resilience can be attributed to proactive policy and regulatory support, as well as prudent economic management. Furthermore, the gradual revitalization of the private sector has contributed significantly to this stability.

The country continues to maintain its appeal as a compelling investment destination, underscored by its vast scale of operations, abundant skilled workforce, and advancements in technology and innovation. These

factors collectively enhance India's attractiveness for global companies seeking growth opportunities.

India maintained its position as the world's fastest-growing major economy in FY 2023-24, with the Ministry of Statistics and Programme Implementation (MoSPI) reporting a real GDP growth of 8.2% in FY 2023-24 compared to 7.0% in FY2022-23. This growth exceeded the second advance estimates of 7.6% released in February 2024, marking the third consecutive quarter of 8%+ growth. The robust expansion was supported by government expenditures on infrastructure and housing, strong private consumption, and buoyant manufacturing and services sectors.

EXPORT TREND

In FY25 (until January 2025), India's plastic exports stood at Rs. 89,296 (US\$ 10.34 billion). During this period, the exports of plastic films & sheets, FIBC woven sacks woven fabrics & tarpaulin and Packaging items – flexible rigid grew by 19.6%, 17.2%, and 10.1%, respectively, over the same period last year.

The cumulative exports of plastics and related materials during FY23 were valued at US\$ 11.96 billion. This was a 10.4% decrease from FY22 exports valued at US\$ 13.35 billion. Plastic raw materials were the largest exported category and constituted 27.76% of the total exports in FY23; it recorded a growth of 21.5% over the previous year. Plastic films and sheets were the second largest category, comprising 15.13% of the total exports, but declined by 10.6% over the previous year.

In June 2024, the exports of plastics and linoleum from India were valued at US\$ 980.8 million. During the same period, medical items of plastics; FRP & composites; packaging items; cordage fishnets & monofilaments and floorcoverings, leathercloth, & laminates recorded strong growth. The cumulative exports for FY25 (April-January) increased by 9.6% YoY to US\$ 10.34 billion.

EXPORT DESTINATIONS

India exports plastic to more than 200 countries in the world. The top five consumer and houseware product importing countries are the USA, Germany Japan, the UK, and France. India largely exports plastic and related products to the USA, China, the UAE, the UK, Germany, Nepal, Italy, Bangladesh, etc. The total value of exports to the USA, the largest consumer of the Indian plastic industry, stood at US\$ 2.31 billion in FY23, a decrease of 4.71% YoY. China was the second largest consumer of

plastic export products from India and the total value of exports stood at US\$ 690.95 million. The USA and China constituted 19.37%, and 5.78%, of the total plastic exports in FY23.

The total plastic exports from India to France during FY24 was around Rs. 1,692 crore (US\$ 195.93 million). To boost exports to France and Europe, PLEXCONCIL collaborated with the Indo-French Chamber in the first quarter of FY22. The Minister for Commerce and Industry, Mr. Piyush Goyal, recently urged industry to adopt international standards to help it expand its global footprint. India has recently signed a free-trade agreement with UAE and Australia, which will give the plastics industry new opportunities.

Industry Overview

Overview of the Indian pipes & fittings industry

PVC pipes & fittings are essential for water supply systems in both agricultural and non-agricultural sectors, extensively used for farm irrigation, water mains, distribution pipes, and household connections. In 2022, the global PVC pipes market reached \$25.84 billion and is projected to grow at a CAGR of 5.9%, reaching \$ 42.69 billion by 2031.

In India, the PVC pipes & fittings market was valued at \$ 5.42 billion in 2023 and is expected to grow at a CAGR of 5.81%, reaching \$ 8.05 billion by 2030. This reflects substantial growth in demand across various industries and applications.

Currently PVC resin prices have settled at quite a low level. De-stocking has to reverse to normal stocking by the entire chain. The overall demand forecast for Agriculture and Housing is encouraging. The Central Government has announced threefold increase in capital provision in the budget for the year 2025-26 compared to monies spent in the year 2024-25 year for augmenting drinking water supply.

Several government initiatives both in agricultural sector and in infrastructure have driven up demand in PVC pipes & fittings. Similarly, rapid urbanization is likely to boost the demand for PVC pipes & fittings in urban construction projects, thereby benefiting the industry.

GOVERNMENT INITIATIVES

The Plastic Export Promotion Council (PLEXCONCIL) has set a target to increase the plastic exports of the country to US\$ 25 billion by 2027. There are multiple plastic parks that are being set up in the country in a phased manner that will help improve the plastic manufacturing outputs of the country. Under the plastic park schemes, the Government of India provides funds of up to 50% of the project costs or a ceiling cost of Rs. 40 crore (US\$ 5 million) per project.

Government initiatives like “Digital India”, “Make in India”, and “Skill India” will also boost India’s Plastic industry. For instance, under the “Digital India” program, the government aims to reduce the import dependence on products from other countries, which will lift the local plastic part manufacturers.

The government also launched a program for building Centres of Excellence (CoEs) to develop the existing petrochemical technology and promote the research environment pertaining to the sector in the country. This will aid in promoting and developing new applications of polymers and plastics in the country. Additionally, about 23 Central Institute of Plastics Engineering & Technology (CIPET) have been approved to accelerate financial and technological collaboration for promoting skills in the chemicals and petrochemicals sector.

MANUFACTURING SECTOR IN INDIA

Manufacturing is emerging as an integral pillar in the country’s economic growth, thanks to the performance of key sectors like automotive, engineering, chemicals, pharmaceuticals, and consumer durables. The Indian manufacturing industry generated 16-17% of India’s GDP pre-pandemic and is projected to be one of the fastest growing sectors. The HSBC India Manufacturing

PMI edged up to 58.2 in April 2025 from 58.1 in March, slightly below the flash estimate of 58.4, marking the strongest sector improvement in ten months.

Technology has today encouraged creativity, with digital transformation being a critical element in gaining an advantage in this increasingly competitive industry. The Indian manufacturing sector is steadily moving toward more automated and process-driven manufacturing, which is projected to improve efficiency and enhance productivity. India has the potential to become a global manufacturing hub for wind power components. India is well-positioned to cater to 10% of the global wind energy demand by 2030, leveraging its manufacturing capacity, technology, and global reputation.

India is rapidly positioning itself as a global manufacturing hub, especially in electronics, fueled by supportive policies and a skilled workforce. Value addition in electronics has risen from 30% to 70% and is projected to touch 90% by FY27. Manufacturing sector in India is gradually shifting to a more automated and process driven manufacturing which is expected to increase the efficiency and boost production of the manufacturing industry.

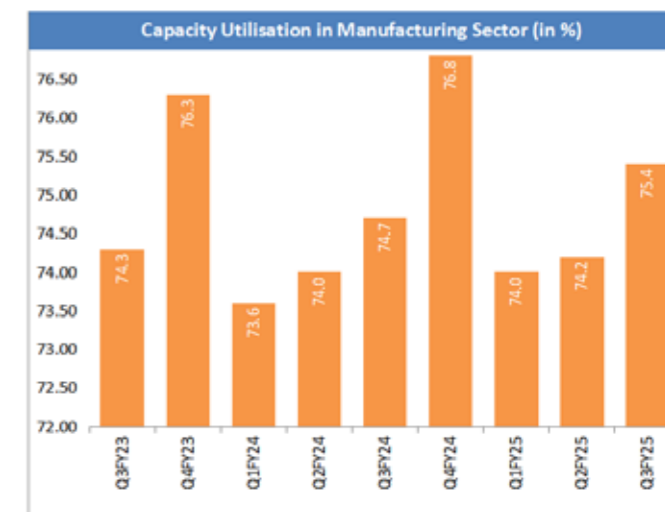

India is gradually progressing on the road to Industry 4.0 through the Government of India’s initiatives like the National Manufacturing Policy which aims to increase the share of manufacturing in GDP to 25 percent by 2025 and the PLI scheme for manufacturing which was launched in 2022 to develop the core manufacturing sector at par with global manufacturing standards.

According to MeitY, India’s digital economy is projected to grow at twice the rate of the overall economy, accounting for 20% of the national income by 2029-30, surpassing both agriculture and manufacturing, driven by digital platforms and widespread digitalization across sectors.

FDI in India’s manufacturing sector has reached Rs. 14,34,224 crore (US\$ 165.1 billion), a 69% increase over the past decade, driven by production-linked incentive (PLI) schemes. In the last five years, total FDI inflows amounted to Rs. 33,31,465 crore (US\$ 383.5 billion).

MARKET SIZE

India’s total exports during FY25 are estimated at Rs. 70,08,279 crore (US\$ 820.934 billion) registering a positive growth of 5.50%. India’s exports grew 6% YoY to Rs. 70,08,279 crore (US\$ 820.93 billion) in FY25, driven by strong growth in non-petroleum goods and services, with key contributions from pharmaceuticals, electronics, engineering goods, chemicals, and the e-commerce sector. In FY25, the export of the top six major commodities (Engineering goods, Petroleum products, Gems and Jewellery, Organic and Inorganic chemicals,

Electronics goods and Drugs and Pharmaceuticals) stood at Rs. 23,87,731 crore (US\$ 279.69 billion).

By 2030, Indian middle class is expected to have the second-largest share in global consumption at 17%. India’s e-commerce exports are projected to grow from Rs. 8,757 crore (US\$ 1 billion) to Rs. 35,02,800 crore (US\$ 400 billion) annually by 2030, aiding in achieving Rs. 1,75,14,000 crore (US\$ 2 trillion) in total exports. India’s smartphone exports surged by 42% in FY24, reaching Rs. 1,35,517.20 crore (US\$ 15.6 billion), with the US as the top destination, reflecting the success of the Production-Linked Incentive (PLI) scheme in boosting the sector.

The manufacturing sector of India has the potential to reach Rs. 87,57,000 crore (US\$ 1 trillion) by FY26.

The Indian startup ecosystem experienced a significant rebound, securing approximately Rs. 5,177.45 crore (US\$ 596 million) in funding this week, marking a 226% increase compared to the previous week. This surge was driven by 23 startups, including notable deals such as Zepto raising Rs. 3,040.45 crore (US\$ 350 million) and Health Kart securing Rs. 1,329.11 crore (US\$ 153 million). The average funding over the past eight weeks has been around Rs. 2,317.43 crore (US\$ 266.77 million) per week, with a total of nearly Rs. 86,870 crore (US\$ 10 billion) raised by Indian startups so far this year, indicating a strong trajectory toward surpassing last year’s total funding of Rs. 91,214 crore (US\$ 10.5 billion).

India’s display panel market is estimated to grow from Rs. 60,809 crore (US\$ 7 billion) in 2021 to Rs. 1,30,305 crore (US\$ 15 billion) in 2025. The manufacturing GVA at basic prices was estimated at Rs. 11,21,421 crore (US\$ 128.06 billion) in the Q4 FY24.

ROAD AHEAD

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury, and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country. The manufacturing sector of India has the

potential to reach Rs. 87,57,000 crore (US\$ 1 trillion) by FY26. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of Rs. 2,95,35,800 crore (US\$ 3.4 trillion) along with a population of 1.48 billion people, which will be a big draw for investors. The Indian Cellular and Electronics Association (ICEA) predicts that India has the potential to scale up its cumulative laptop and tablet manufacturing capacity to US\$ 100 billion by 2025 through policy interventions.

One of the initiatives by the Government of India's Ministry for Heavy Industries & Public Enterprises is SAMARTH Udyog Bharat 4.0, or SAMARTH Advanced Manufacturing and Rapid Transformation Hubs. This is expected to increase competitiveness of the manufacturing sector in the capital goods market. With impetus on developing industrial corridors and smart cities, the Government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring, and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

Our Business

Malpani Pipes & Fittings Limited, an ISO 9001:2015 certified company based in Ratlam, Madhya Pradesh, manufactures a range of high-grade plastic pipes. Our products include High-Density Polyethylene (HDPE) Pipes, Medium-Density Polyethylene (MDPE) Pipes, and Linear Low-Density Polyethylene (LLDPE) Pipes, all marketed under the brand name "volstar". The company is also engaged in the trading of granules and PVC pipes, as well as the sale of services.

We have manufacturing plant located in central India i.e. Ratlam, Madhya Pradesh. Our plant is well equipped with essential machinery, infrastructure, and an in-house testing facility, which ensures that our product

conforms to the requisite standards.

We have a dedicated in-house testing facility to ensure our products adhere to stringent quality standards. Additionally, in case of supply to any government project or under some welfare policy to farmers, we are required to get our products tested from third part laboratories. These agencies include the Central Institute of Petrochemicals Engineering & Technology (CIPET), SGS, Bureau Veritas, Dr. Amin Controllers Pvt. Ltd., Rail India Technical and Economic Service, and Certification Engineers International Limited (CEIL). This verification process is a mandatory requirement set by the government.

We distribute our products to both wholesalers and retailers. Additionally, we supply pipes for government projects through authorised contractors involved in local, state or federal development scheme. Also, we supply pipes to farmers in terms of farmer welfare policies launched by Central or State Government.

Our pipes are engineered to meet a wide range of applications, including irrigation, potable water supply, sewerage, and drainage systems. They are also well-suited for boreholes and tube wells for underground water extraction. Furthermore, our pipes support infrastructure projects such as the installation of long-distance electrical cables and optical fibers.

We are constantly improving and expanding our processes and technologies. Our top management always emphasises core strength and policies that focus on technology and excellent service delivery. With a passion for setting high standards of service, the management always takes measures to scale up as needed to deliver the best. We work diligently and have a wide range of equipment to meet every need and ensure client satisfaction.

Our Company has marketing presence in the states of Madhya Pradesh, Maharashtra, Uttar Pradesh, Gujarat, Andhra Pradesh and Rajasthan. We distribute our products from our manufacturing unit located at Ratlam, Madhya Pradesh and also from our warehouse located at Bhiwandi and Amravati in Maharashtra.

The Company had Invested in the real estate to diversify our income streams. By investing in the real estate Company can generate a steady income through renting spaces. Company had acquired two commercial properties in April 2023 and January 2023 situated in Surat and Vadodara, Gujarat respectively.

Segment-wise or Product-wise performance

The Company operates in single segment i.e. "Manufacturing of Pipes". Hence, does not have any additional disclosure to be made under AS-17 segment reporting.

Business Strategy

Expansion of manufacturing facility in Ratlam, Madhya Pradesh - We are preparing to expand our manufacturing operations at our Ratlam facility by adding two HDPE machines, which will increase our installed capacity by approximately 3400 Metric Tons Per Annum (M.T.P.A.) and one PVC machine with our installed capacity of about 1700 M.T.P.A. We have made the provision of capital expenditure as one of the objects of the present issue.

This enhancement is a strategic move to bolster our production and meet the demand for high-quality, durable pipes. By increasing our output, we aim to effectively cater to the important sectors like agriculture, construction, and infrastructure. This move will not only improve our market position but also show our commitment to providing reliable and efficient piping solutions on a larger scale.

Strategically Expansion - We are strategically enhancing our production capabilities by adding a total installed capacity of about 1700 M.T.P.A for PVC pipes. By incorporating PVC pipes into our product range, we aim to diversify our portfolio and better address the evolving needs of the market. This initiative not only aligns with our commitment to innovation and growth but also positions us to capture new opportunities in the construction and infrastructure sectors. The new capacity will enable us to deliver high-quality, durable piping solutions to our customers, thereby reinforcing our competitive edge and driving long-term business success.

Expand the Volstar brand to new geographies - We plan to increase sales of our Malpani Pipes products by increasing the number of wholesalers & retailers who stock our products. We plan to expand the sale of our piping products into cities where our products are not currently sold as well as consolidating our position in areas where we already have a strong presence. Our strategy is to focus on increasing the width and depth of our distribution network by increasing the number of wholesalers & retailers.

Our salespersons meet with prospective wholesalers and retailers who do not currently stock our products to encourage them to do so. Our sales persons also meet with wholesalers & retailers in areas where we do not exist to encourage them to stock our products.

Strengthening Brand Volstar - Over the years, we have strong, lasting relationships with our customers, leading to consistent business. Many of our clients have worked with us for several years, which reflects our dedication to delivering high-quality products. Our high customer retention rates show that we consistently meet and exceed client expectations. Moving forward,

we plan to strengthen these existing relationships and attract new, esteemed customers. We are dedicated to understanding our clients' specific business needs and delivering tailored solutions that meet their exacting standards.

Furthermore, our strong client relationships have significantly contributed to establishing "Volstar" as a respected brand within the polymer-based pipes industry. To build on this success, we will invest in enhancing our brand image through targeted marketing and promotional efforts. This commitment to brand development will help us to improve our market presence, increased sales, and enhance profitability.

Opportunities and Threats

Our company offers a diverse product range to meet the growing needs of our customers. Our product lineup includes HDPE pipes, MDPE pipes, LLDPE pipes, HDPE Sprinkler Systems and drip irrigation solutions. These products serve various sectors such as Irrigation, Telecommunications, Industrial Applications, Infrastructure, and Housing. We aim to provide our existing customers with a comprehensive source for their product needs, fostering opportunities for business expansion and attracting new clients. Additionally, our flexible manufacturing infrastructure allows us to adapt our product mix in response to market demand changes.

Risks and Concerns

Within the realm of international trade and foreign investments, geopolitical conflicts pose potential threats to the Company's business operations. These conflicts can lead to trade barriers, tariffs, and other restrictions that may hinder the company's ability to procure raw materials and export finished goods. Moreover, geopolitical tensions could impact supply chain situation, limiting the Company's access to new markets and growth opportunities. The domestic steel sector in India is particularly vulnerable to the influx of lower-cost imports and shifts in demand dynamics. Cheaper imports have the potential to erode market share, revenue, and profit margins for the Company. However, the company can mitigate these challenges by enhancing product quality, optimizing its supply chain, and expanding its customer base. We operate in a dynamic environment which not only provides opportunities but also exposes the business to various risks. To proactively identify and manage key risks for achieving our strategic objectives. Growth of the sector is depended on the enlargement of allied sectors. Forecasted plans and projections are subject to risk. Various kinds of risk associated with the development are Liquidity Risk, Market Risk, Regulatory Risk, Financial Risk, Market Risk and Operational Risk. Other dominant threats faced by the Company are in the form of competition it faces in the industry. We

operate in a competitive industry that experiences rapid technological developments, and changes in customer requirements. we face competition from other players in the plastic pipes segment as well as from manufacturers of alternative products to plastic pipes and fittings. Our competitors include the big, mid-sized, and several smaller local competitors in the geographic markets in which we operate. We may face competition from companies that grow in size or scope as the result of strategic mergers or acquisitions, which may result in larger competitors with significant resources that benefit from economies of scale and scope. Such events could have a variety of negative effects on our competitive position and our financial results, including reducing our revenue, increasing our costs, and lowering our gross margin percentage. If our competitors develop and implement methodologies that yield greater efficiency and productivity, they may be able to produce products similar to ours at lower prices without adversely affecting their profit margins. Even if our offerings address industry and client needs,

our competitors may be more successful at selling their products. If we are unable to provide our clients with superior products at competitive prices or successfully market those products to current and prospective clients, our business, results of operations and financial condition may suffer.

There can be no assurance that the Company will always be successful in its efforts to protect the business from the volatility of the market price of raw materials, and the business can be affected by dramatic movements in prices of raw materials. Risk is the vital factor of every business. The Company has in place a Risk management Committee which outlines the amount of risk involved in the business and various techniques for risk mitigation & Risk minimization. The Company believes that managing risks helps in maximizing returns. The Company's approach for addressing business risks is comprehensive and includes identification of Risks, periodic review of such risks and measures to for mitigating such risks.

Independent Auditor's Report

To the Members of

MALPANI PIPES AND FITTINGS LIMITED

(CIN : U25209MP2017PLC042337)

65-A, Sector B Industrial Area,

Ratlam, Madhya Pradesh - 457001

I. Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the financial statements of **MALPANI PIPES AND FITTINGS LIMITED Company** ("the Company"), which comprise the balance sheet as at 31st March, 2025, the statement of profit and loss and statement of cash flows for the year ended on that date, and notes to the financial statements, including a summary of Material Accounting Policy Information and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2021, as amended ("AS") and the other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit and loss and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We

believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no [other] key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, and

cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the

circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial control system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances,

we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Company was converted from a Private Limited Company to a Public Limited Company with effect from 29th July, 2024. Pursuant to this, the Company has filed its Red Herring Prospectus (RHP) for listing on the BSE SME Platform. The Securities and Exchange Board of India (SEBI) has approved the listing, and the Company has been listed on the BSE SME Platform with effect from 4th February, 2025. Our opinion is not modified in respect of this matter.

II. Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), as amended, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to extent applicable.
- 2) As required by section 143 (3) of the Act, we report that:
 - a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of Written Representations received from the directors as on 31st March, 2025 taken on record by the Board of directors, none of the directors are disqualified as on 31st March, 2025 from being appointed as director in terms of 164(2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the

Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial Position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. The Company did not declare or paid any dividend during the year and has not proposed final dividend for the year
- vi. According to Proviso to Rule 3(1) of the companies (Accounts) Rules, 201, the company is maintaining books of accounts using accounting software which has a feature of recording audit trail (edit log) facility of each and every transaction, creating an edit log of each change made in books of account along with the date when such changes were made and ensuring that the audit trail is properly enabled.

"Annexure A" to the Independent Auditors' Report

Referred to in paragraph 1 under 'Report on Other Legal & Regulatory Requirement' section of our report to the members of **MALPANI PIPES AND FITTINGS LIMITED** of even date:

In terms of the information and explanations sought by us and given by the company and the books and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

I. In respect of the company's Property, Plant & Equipment and Intangible Assets;

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment;

(B) The Company has maintained proper records showing full particulars of Intangible Assets;

(b) The company has program of verification to cover all the items of Property, Plant and equipment in proper manner, which in our opinion is reasonable with regard to size of company and nature of assets of the company. According to Information and explanation given to us, no material discrepancies were noticed during the verification.

(c) According to the information and explanations given to us and the records examined by us, title deeds in respect of immovable properties disclosed as Property, Plant and Equipment (other than properties where the company is the lessee and lease agreement are duly executed in favour of the lessee) in the financial statements are in the name of the company.

(d) As explained to us, the Company has not revalued its Property, Plant and Equipment or intangible assets or both during the year, hence reporting under this clause is not required.

(e) According to the information and explanations given to us, No proceedings has been initiated or are pending against the company under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder, hence reporting under this clause is not required.

II. In respect of Inventories

(a) As explained to us, the inventory has been physically verified at reasonable intervals during the year by the management. In our opinion, the frequency of verification is reasonable and the coverage and procedure for such verification is appropriate. No material discrepancies of 10% or more in aggregate for each class of inventory were noted on physical verification of inventory.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the company, the company has been sanctioned overdraft facility in excess of 5 crores on the basis of security of current assets, Quarterly statements filed by the company are in agreement with the books of accounts of the company

III. In respect of Investment made, guarantee or security provided or grant of loans and advances in the nature of loans, secured or unsecured to companies, firms, Limited Liabilities Partnership or any other parties:

(a) {A} According to information and explanation given to us and based on the audit procedures carried out by us, the company has no subsidiaries, joint ventures and associates.

{B} In our opinion and according to the explanation given to us, the company has not granted any loans or advances in the nature of loans, Secured or unsecured to companies, firms, LLP's or any other parties.

(b) According to the information and explanations given to us and based on the audit procedures carried out by us, in our opinion terms and conditions of the grant of loans provided during the year are prima facie, not prejudicial to the interest of the Company.

(c) According to the information and explanations given to us and on the basis of examination of the records of the company, in the case of loan given, in our opinion, the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular.

(d) According to the information and explanations given to us and on the basis of examination of the records of the company, there is no overdue

amount for more than ninety days in respect of loan given.

(e) According to the information and explanations given to us and on the basis of examination of the records of the company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to same parties.

(f) According to the information and explanations given to us and on the basis of examination of the records of the company, the company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. Hence reporting under clause (iii)(f) of paragraph 3 of the order does not arise.

Hence reporting under this clause is not applicable to us.

IV. According to information and explanation given to us, the company has not granted any loans or

provided and guarantee or securities to the parties covered u/s 185 of the Act. The company has complied with provisions of Section 186 of the act, as applicable, in respect of investments made.

V. In our opinion and according to the information and explanations given to us, the company has not accepted any deposits from the public during the year and accordingly paragraph 3 (v) of the order is not applicable.

VI. According to the information and explanations given to us, we report that the Central Government has prescribed the maintenance of cost records under section 148(1) of the Act for the products manufactured and/or services provided by the company. We have broadly reviewed the books of account maintained pursuant to the prescribed cost records and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, carried out a detailed examination of such accounts and records with a view to determining their accuracy or completeness.

VII. In respect of Statutory Dues

"Annexure B" to the Independent Auditors' Report

(Referred to in paragraph 2 (f) under 'Report on other legal and regulatory requirements' section of our report to the Members of **MALPANI PIPES AND FITTINGS LIMITED** of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MALPANI PIPES AND FITTINGS LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over

financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes Forming Part of Financial Statement

A COMPANY INFORMATION

MALPANI PIPES AND FITTINGS LIMITED ('the Company') is a company domiciled in India having CIN: U25209MP2017PTC042337 and incorporated on 3rd February, 2017. The registered office of the company is located at 65-A, Sector B Industrial Area, Ratlam, Madhya Pradesh 457001. The company is Engaged in the business of manufacturing of HDPE Pipes, MDPE Pipes, Sprinkler Pipes and LLDPE Pipes, Drip Pipe, Micro Irrigation System and Fittings.

B SIGNIFICANT ACCOUNTING POLICIES

a Basis of Preparation

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ('Indian GAAP') to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, as applicable. The financial statements have been prepared under the historical cost convention on accrual basis, except for certain financial instruments which are measured at fair value.

b Use of estimates

The preparation of financial statements requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expense during the year. Examples of such estimates include provisions for doubtful receivables, provision for income taxes, the useful lives of depreciable Property, Plant and Equipment and provision for impairment. Future results could differ due to changes in these estimates and the difference between the actual result and the estimates are recognised in the period in which the results are known / materialise.

c Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation / amortisation. Costs include all expenses incurred to bring the asset to its present location and condition.

d Depreciation / amortisation

In respect of Property, Plant and Equipment (other than freehold land and capital work-in-progress) acquired during the year,

depreciation/amortisation is charged on a straight line basis so as to write-off the cost of the assets over the useful lives.

Type of	Period
Buildings	30 Years
Plant and Equipment	8 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computers	3 Years
Licences and Franchise	5 Years

e Leases

Assets taken on lease by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis.

f Impairment

At each balance sheet date, the management reviews the carrying amounts of its assets included in each cash generating unit to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money

and the risks specific to the asset. Reversal of impairment loss is recognised as income in the statement of profit and loss.

g Investments

Long-term investments and current maturities of long-term investments are stated at cost, less provision for other than temporary diminution in value. Current investments, except for current maturities of long-term investments, comprising investments in mutual funds, government securities and bonds are stated at the lower of cost and fair value.

h Revenue recognition

"Revenue from the sale of goods or services are recognised upon delivery, which is when title passes to the customer. Revenue is reported net of discounts."

Dividend is recorded when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.

Rent on immovable properties is recognised on accrual basis as per the agreement with the party.

i Taxation

Current income tax expense comprises taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961. Tax expense relating to foreign operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the tax holiday period. Accordingly, MAT is recognised as an asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify.

Deferred tax expense or benefit is recognised on timing differences being the difference between taxable income and accounting income that originate in one period and is likely to reverse in one or more subsequent periods. Deferred tax assets and liabilities are measured using the tax

rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

j Foreign currency transactions

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

k Inventories

Raw Materials and Packing Material - Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

l Provisions, Contingent liabilities and Contingent assets

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

m Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of twelve months or less from the date of purchase, to be cash equivalents.
