Ajay S. Bhutoria, CEO and Managing Director, Zensar Technologies, said, "Q2FY22 has been one of our strongest quarters in the recent past, with revenues seeing a sequential QoQ growth of 12.3% on a constant currency basis. This performance is bolstered by broad-based growth across all geographies, service lines, and verticals. Our regions have posted strong performances, with new clients being added and incremental business being driven from existing clients. Our clients continue to see in us reliable, future-driven partners as we bring in world-class processes and learnings."

Adding further, he stated, "We continue to build competency and scale in focus strategic growth opportunities (SGOs) such as Experience Services, Advanced Engineering and Data Analytics in addition to our core services. We added new leadership across our markets and SGOs, bringing in diverse industry experience and vision. As our business expands, we are transforming demand fulfilment and talent acquisition to stay competitive in a highly competitive talent market."

Navneet Khandelwal, Chief Financial Officer, Zensar Technologies, said, "We have delivered a strong quarter with robust revenue growth and our headcount crossing 10,000 associates. Our PAT has increased by 8.3% on a YoY basis. Our net cash position continues to be strong. We also completed salary increments across the board effective July 1, 2021, which was the second such hike in this calendar year."

Certain statements in this release concerning our future prospects are forward-looking statements which involve a number of underlying identified / non identified risks and uncertainties that could cause actual results to differ materially. This release and other statements – written and oral –that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. However the same are subject to risks and uncertainties, including but not limited to, our ability to manage growth; fluctuations in earnings /exchange rates; intense competition in IT services including factors affecting cost advantage; wage increases; ability to attract and retain highly skilled professionals; time and cost overruns on fixed price, fixed-time frame or other contracts; client concentration; restrictions on immigration; our ability to manage international operations; reduced demand for technology in our service offerings; disruptions in telecommunication networks; our ability to successfully complete and integrate acquisitions; liability for damages on our service contracts; government measures in India and countries where our customer operate, withdrawal of governmental fiscal incentives; economic downturn in India, and/or around the world, political instability, legal restrictions on raising capital or acquiring companies; and unauthorized use of intellectual property and general economic conditions affecting the industry.

In addition to the foregoing, global pandemic like COVID-19 may pose an unforeseen, unprecedented, unascertainable and constantly evolving risk(s), inter-alia, to us, our customers, delivery models, vendors, partners, employees, general global operations and may also impact the success of companies in which we have made strategic investments, demand for Company's offerings and the onshore-offshore-nearshore delivery model.

The results of these assumptions made relying on available internal and external information are the basis for determining the carrying values of certain assets and liabilities. Since the factors underlying these assumptions are subject to change over time, the estimates on which they are based, are also subject to change accordingly. These forward-looking statements represent only the Company's current intentions, beliefs or expectations, and any forward-looking statement speaks only as of the date on which it was made. The Company assumes no obligation to revise or update any forward-looking statements, whether as a result of new information, future events, or otherwise.
