Digitide posts healthy Q1FY26 performance, strategic realignment drives profitability and growth visibility

BENGALURU | August 1, 2025: Digitide Solutions Limited (“Digitide”) (BSE: 544413 | NSE: DIGITIDE), an AI-first digital transformation partner for global enterprises, announced its financial results for the first quarter ended June 30, 2025. The company recorded a sequential increase in revenue and EBITDA, along with a notable improvement in PAT.

The quarter reflects the ongoing strategic realignment that the company had initiated last year, following its successful demerger from Qess Corp Limited and its transition into an independently listed entity. With sharpened focus on portfolio optimisation and disciplined execution, Digitide continues to strengthen the foundation for sustainable growth and long-term value creation.

Key Financial Highlights

- **Revenue** at ₹736 crores, growing 6% YoY and 0.4% sequentially despite business reset
- BPM segment grows at 7% while Tech and Digital segment grew 4% YoY
- **EBITDA** stood at ₹83 crore, with an EBITDA margin of 11.2%
- **PAT** rose 150 bps sequentially QoQ to ₹10 crore

Key Business Highlights

- **Strong bookings momentum continues:** Marking second consecutive quarter with bookings surpassing the ₹500 crore milestone, Q1 closed at ₹523 crore, driven by consistent performance across key geographies and sectors, further strengthening revenue visibility for FY26
- **Focused portfolio:** Steadily progressed with our strategy of exiting select legacy and non-core businesses, sharpening our offerings in line with our AI-first digital transformation vision
- **Operational Efficiency:** Strong cost discipline drives robust business margin expansion, reinforcing our commitment to sustainable, profitable growth
- **Strong Sales pipeline:** Healthy sales pipeline across strategic verticals, driving greater visibility and growth potential for the upcoming periods

Speaking on the performance, Gurmeet Chahal, Chief Executive Officer, Digitide Solutions Limited said, “Digitide is entering a pivotal phase in its growth journey, marked by sharper strategic focus and a renewed commitment towards value creation. The pipeline is strong, and we see encouraging traction in new business wins across key markets. The business resets that were undertaken - including realigning our offerings around high-margin, high-potential segments such as BFSI, Healthcare, FGT and AI led offerings, are already enabling us to prioritize commercially and strategically aligned opportunities. Sequential Q1 growth despite the realignment & optimization of the portfolio gives us the confidence in accelerating our performance further in the coming quarters. We continue towards building a future-ready organization, and the steps taken today are designed to deliver sustained growth and enhanced stakeholder value.”

Looking Ahead

Digitide remains focused on scaling its digital and AI-first capabilities across global markets. With a streamlined portfolio, strengthened leadership team, and an agile go-to-market strategy, the company is well-positioned to deepen client engagements and unlock long-term value for stakeholders in FY26 and beyond.

About Digitide Solutions Limited

Digitide Solutions Limited is a global technology-enabled business services provider specializing in digital transformation, AI-driven solutions, and business process management.
