Global spending on medicines is projected to grow at a compound annual growth rate (CAGR) of 3-6% in the next three years, reaching over US\$ 3.8 Trillion in total market size by 2028. Growth in the global pharmaceutical market will continue to be led by the US and pharmerging markets. The pharmaceutical landscape has undergone a massive transformation with the emergence of new technologies, cost-effective, and more efficient manufacturing approaches

While new product launches, especially speciality products, will be the key growth catalyst in developed markets, pharmerging market expansion will be driven by multiple factors. These factors comprise improving per capita income, increasing healthcare awareness, ageing population and rising incidence of chronic ailments. The product mix in the developed world will continue to shift towards specialty and orphan products. Emerging technologies are enabling healthcare providers to innovate and engage better with key stakeholders.

a. Industry structure and developments

India's pharma exports grew by 9.40 percent to Rs.30466 million USD during year 2024/25, Our Union Minister Piyush Goyal highlighted that India has been serving as the 'pharmacy of the world'. "Indian pharma companies enabled by their price competitiveness and good quality, have made a global mark, with 60 percent of the world's vaccines and 20 percent of generic medicines coming from India," the commerce ministry said. India ranks third worldwide for production in terms of volume and 14th by value. The current market size of the domestic pharmaceutical industry is around \$50 billion and is likely to touched \$130 billion by 2030. The share of pharmaceuticals and drugs in global exports is 30 billion USD in FY 2024-25

The Indian government has taken few initiatives to support the Indian pharmaceutical industry. Initiatives such as the production linked incentive (PLI) schemes, medical device and bulk drug parks are likely to boost domestic production of active pharmaceutical ingredients (APIs), biopharmaceuticals, complex generics, patented drugs, and various medical devices and transform India as the global manufacturing hub. This is a major step towards realizing its vision of "Aatmanirbhar Bharat".

In the 2020-30 period as it is expected that the Indian pharmaceutical industry will grow at a CAGR of 12.3 per cent to reach at USD130 billion. To achieve this ambitious target, a collaborative effort is required from all the industry stakeholders – the healthcare providers, physicians, payers, policymakers, pharma companies, academic institutions and a range of

service providers offering solutions pertaining to logistics and distribution, packaging, and other ancillary services.

- Interest rate fluctuations and high rates on inflation
- Intellectual Property (IP) infringement and leakage

d. Outlook

With rising export share, CARE Ratings has projected India's pharma industry to grow at about 11% in next two years to reach a size of over \$60 billion. The main factors that are expected to drive the growth of industry are (a) ability to leverage the opportunity available for Indian pharma companies due to expiry of the patent drugs across the globe, (b) ebbing of regulatory risks, (c) adoption of various strategies to de-risk from dependency on China for key raw materials, (d) increasing trend in PE investments, and (e) solid fundamentals of the industry.

India's pharmaceuticals market (IPM) is expected to grow between 6 and 8 per cent on a year-on-year (YoY) basis in FY25. In a research note, India Ratings and Research (Ind-Ra) said it has maintained a neutral outlook for the Indian pharmaceutical sector for FY25.

Large players are adequately capitalised to make bigger investments to adjust for the ongoing fundamental shift in market opportunities. Cost-cutting measures remain a priority for Indian companies. However, interim disruptions such as high raw material costs and logistic expenses will put pressure on the level of free cash flow generated. With the significant improvement in the free cash flow generated in the near term, M&A activities will continue to provide inorganic push in FY25.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in the equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

MEDICO REMEDIES LIMITED

Annexure “B” Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

Opinion

We have audited the internal financial controls over financial reporting of Medico Remedies Limited (“the Company”) as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

(d) Use of Estimate and Judgements

The presentation of the Financial Statement is in conformity with Ind-AS which requires the management to make judgements and estimates about the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the judgements and estimates used in preparation of the Financial Statements are prudent and reasonable.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future period.

Estimates and assumptions are required in particular for:

(i) Useful life and residual value of property, plant and equipment and intangible assets;

Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Assumptions also need to be made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

(ii) Impairment of Non – Financial Assets

Determining whether the asset is impaired requires to assess the recoverable amount of the asset or Cash Generating Unit (CGU) which is compared to the carrying amount of the asset or CGU, as applicable. Recoverable amount is the higher of fair value less costs of disposal and value in use. Where the carrying amount of an asset or CGU exceeds the recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Key source of estimate uncertainty

(i) Impairment of trade receivables:

The impairment provisions for trade receivables are based on assumptions about risk of defaults and expected loss rates. The company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

(ii) Legal and other disputes:

The Company provides for anticipated settlement cost where an outflow of resources is considered probable and a reliable estimate may be made of the likely outcome of the dispute and legal and other expenses arising from claims against the company. These estimates take into account the specific circumstances of each dispute and relevant external advice which are inherently judgmental and could change substantially over times as new facts emerge and each dispute progress.

(iii) Post-employment benefits:

The costs of providing gratuity and other post-employment benefits are charged to the statement of profit and loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefits derived from the employee's services. The costs are assessed on the basis of assumptions selected by management. These assumptions include future earnings and salary increases, discount rate, expected long-term rates of return on assets and mortality rates.

- (iv) Assumptions are also made by the management with respect to valuation of inventories, evaluation of recoverability of deferred tax, contingencies, determination of useful lives of Property, Plant and Equipments and measurement of recoverable amounts of cash generating units. All assumptions are reviewed at each reporting date.

2. SIGNIFICANT ACCOUNTING POLICIES:

(a) Property, Plant and Equipment & Depreciation

(i) Recognition and Measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- borrowing cost and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which the Company incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in the Statement of Profit and Loss. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in Statement of Profit and Loss. Cost of Items of Property, plant and equipment not ready for intended use as on the balance sheet date, is disclosed as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as Capital Advance under Other non-current assets

(ii) Subsequent Expenditure

Subsequent expenditure relating to PPE is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

(b) Intangible Assets

i. Recognition and Measurement

Intangible assets comprising of Computer Software are stated at acquisition cost, including any cost attributable for bringing the asset to its working condition, less accumulated amortization and impairment losses, if any. Technology support cost and annual maintenance cost for such software is charged annually to the Statement of Profit and Loss.

ii. Subsequent Expenditure

Other Intangible assets are recognized where it is probable that future economic benefit attributable to the assets will flow to the company and its cost can be reliably measured.

(c) Depreciation / Amortisation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life.

Depreciation on property, plant and equipment is provided, using the Written down Value method (WDV), pro-rata to the year of use of assets, at the rates specified in Schedule II of the Companies Act, 2013 with exception the following:

- In case of assets, falling under the block of Building, constructed on rental premises, depreciation is provided either on the basis of useful life of the assets as estimated by the management or rental period whichever is lower.
- Assets costing Rs. 10,000 or less are fully depreciated in the year of purchase.

MEDICO REMEDIES LIMITED
(CIN - L24230MH1994PLC077187)

Intangible assets are amortised over the economic useful life estimated by the management. Intangible assets being the computer software is amortised over a period of three years.

The management's estimated useful life/ useful life as per schedule II whichever is lower for the various tangible assets are as follows;

Assets	Estimated useful life (Years)
Buildings	30 Years
Plant & Equipments	10 - 15 Years
Furniture and Fixtures	10 Years
Vehicles	8 – 10 Years
Office equipment	5 Years
Computers	3 Years
Electrical Installation	10 Years
Leasehold land	Period of Lease
Leasehold improvements	Lower of ; useful life of assets or period of lease

(d) Impairment

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

The following intangible assets are tested for impairment each financial year even if there is no indication that the asset is impaired:

- (a) an intangible asset that is not yet available for use; and
- (b) an intangible asset that is amortised over a period exceeding ten years from the date when the asset is available for use.

If the carrying amount of the assets exceeds the estimated recoverable amount, impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets, such reversal is not recognised.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

(e) Foreign Currency Transactions

Foreign currency transactions during the year are recorded at rates of exchange prevailing on the date of the transaction. All assets and liabilities related to foreign currency transactions remaining unsettled at the end of the year are translated at year-end rates.

Realized gain or loss resulting from the settlement/translation of such transactions of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss.

(f) Financial Instruments

i. Recognition initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Financial Assets

Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

b) Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

iii. Financial Liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, shall be subsequently measured at fair value

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Effective interest method

The company uses effective interest rate, determined using the effective interest method, for calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period.

Effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability. For calculating the effective interest rate, an entity shall estimate the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but shall not consider the expected credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

(g) Inventories

Inventories are valued at the lower of cost (on FIFO basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, and other levies, transit insurance and receiving charges.

Net realizable value is the estimated selling price in ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(h) Revenue recognition

Revenue from sales of products are recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods and the amount of revenue can be measured reliably.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognized upon transfer of control of promised products or services to customers/patients in an amount that reflects the consideration we expect to receive in exchange for those products or services. Sales and Service Income exclude Goods and Service Tax (GST) and are net of trade / volume discounts, where applicable.

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and no significant uncertainty exist regarding its ultimate collection.

Interest income is recognised with reference to the Effective Interest Rate method.

(i) Employee benefits

Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurement of the net defined benefit liability, which comprise of actuarial gains and losses are recognised immediately in other comprehensive income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value.

Actuarial gains and losses are recognised in other comprehensive income (OCI) in the period in which they arise.

(j) Leases

The Company has applied Ind AS 116 and at the commencement of the lease contract recognised a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with a term of twelve months or less (short-term leases) and leases for which the underlying asset is of low value (low-value leases). For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, adjusted for any lease payments made at or prior to the commencement date of the lease, any initial direct costs incurred by the Company, any lease incentives received and expected costs for obligations to dismantle and remove right-of-use assets when they are no longer used.

Subsequently, the right-of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease over the shorter of the end of the lease term or useful life of the right-of-use asset.

Right-of-use assets are assessed for impairment whenever there is an indication that the balance sheet carrying amount may not be recoverable using cash flow projections for the useful life.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

For lease liabilities at commencement date, the Company measures the lease liability at the present value of the future lease payments as from the commencement date of the lease to end of the lease term. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, the Company's incremental borrowing rate for the asset subject to the lease in the respective markets.

Subsequently, the Company measures the lease liability by adjusting carrying amount to reflect interest on the lease liability and lease payments made.

The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever there is a change to the lease terms or expected payments under the lease, or a modification that is not accounted for as a separate lease

The portion of the lease payments attributable to the repayment of lease liabilities is recognized in cash flows used in financing activities, and the portion attributable to the payment of interest is included in cash flows from operating activities. Further, Short-term lease payments, payments for leases for which the underlying asset is of low-value and variable lease payments not included in the measurement of the lease liability is also included in cash flows from operating activities.

(k) Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

(l) Income tax

Income tax expense represents current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Current and deferred tax for the year are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(m) Borrowing Costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest costs measured at the Effective Interest Rate.

Borrowing costs, allocated to qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalisation of such asset are added to the cost of the assets.

MEDICO REMEDIES LIMITED

(CIN - L24230MH1994PLC077187)

Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

All other borrowing costs are recognised as an expense in the period which they are incurred.

(n) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for

- (1) possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (2) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the Financial Statements.

(o) Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

(p) Cash and cash equivalents:

The following methods / assumptions were used to estimate the fair values:

Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short-term maturities of these instruments.

Fair valuation of non-current financial assets has been disclosed to be same as carrying value as there is no significant difference between carrying value and fair value.

Fair value of lease liabilities is estimated by discounting future cash flows using current rates (applicable to instruments with similar terms, currency, credit risk and remaining maturities) to discount the future payouts.

The fair value is determined by using the valuation model/technique with observable/ non-observable inputs and assumptions.

There are no financial instruments measured at fair value through Other Comprehensive Income.
