Chairman's LETTER

Dear Shareholders,

It gives me great pleasure to place before you, the financial statements for the year ended 31st March 2018. Your Company could generate an EBITDA profit of ₹ 6090 lakhs for the year 2017-18 as against an EBITDA profit of ₹ 4958 lakhs in the previous year. The incremental profits was made possible due to better realisation in this year and also due to contribution made by diamond and other value added products.

The year started with better gold price and the trend continued to be stable with a mild positive bias on price movement throughout the year. A small set back was caused by introduction of GST in the July 2017 sales but later on the tempo in sales was maintained for the rest of the year. The monsoon in the areas we operate though better it could not generate above average sales as the rural income could not improve as expected. The turnover was at ₹ 1379 Crores as against ₹ 1299 Crores in the previous year resulting in a moderate growth of 6% only.

Going forward, the current year 18-19 looks promising for the following reasons. The monsoon prediction is normal for the southern districts of Tamilnadu. Gold price tends to behave within a range thereby facilitating a normal off take of jewellery. The Company started to improve its Diamond sales that would marginally contribute to the bottom line.

Due to strict regulatory rules implementation by various Government Authorities including lenders the shift of business from unorganized to organized set up would significantly improve in the years to come. Due to our initiatives to broad base the size of the outlets and also by increased inventory stocking we are confident that the turnover would improve in the normal course.

Apart from the above structural issues having a bearing on performance your Company has taken the following new initiatives to improve the turnover and profits in the current on-going year.

- a) Relaunching of all the remaining branches one by one. The entire exercise began in later part of 17-18 and will be completed by end of March 2019;
- b) Strive to increase the market share by exploring “Brand Equity” built over a time;
- c) Continued thrust on increasing sizably our own manufacturing of major items;
- d) A paradigm shift had been taken place in promotional activities;
- e) “Existing staff incentive system” will result in incremental turnover;

In continuation of our objective of improving the gross profit margin for the year ended the company obtained margin of 9.29 % as against 8.38% in the last year. Your company has already embarked strategies to review cost aspects in every area of conduct of business that would ensure an improvement with the overall performance.

As indicated in my last year letter, we could not continue with “TMJL plus” concept as the expected benefits could not be realised in our Tiruppuvanam outlet. However, we are striving to make it economically viable units by incorporating certain modifications in the business plan and may soon launch one or two modified version in the areas already selected.

As things stand today, in spite of adverse factors shadowing the integrity of the trade as such your Company is confident of achieving atleast 12% top line growth in the year 18-19. The current blend of bank borrowing, customer advances & our own resources is working out well and it’s our endeavour to continue with the same strategy in future as well.

Taking into consideration our financial performance for the year 17-18 and with a view to conserve resources for the furtherance of the business interests your Board has recommended for a dividend payment of 35% (₹3.50 per share (face value ₹ 10) for your approval as against 20% (₹2.00 per share) of last year.

Before I conclude, I would like to place on record my heartfelt gratitude to all our employees. Thanks are also due to our bankers under multiple banking system and to all our beloved shareholders who have extended their support, informed feedback and advice.

Looking forward for a rewarding 18-19.

With warm regards,
For Thangamayil Jewellery Limited,

BALARAMA GOVINDA DAS

Chairman Cum Managing Director

**TO THE MEMBERS OF THANGAMAYIL JEWELLERY LIMITED**

The Directors are pleased to present the 18th Annual Report and the Audited Statement of Accounts for the year ended 31st March 2018.

1. FINANCIAL RESULTS:

Pursuant to the notification dated February 16, 2015 issued by the Ministry of corporate affairs, the company has adopted the Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from April 1, 2017. Financial statements for the year ended and as at March 31, 2017, have been restated to conform to Ind AS.

₹. (In lakhs)

Particulars	2017-2018	2016-2017
Sales	1,37,929	1,29,946
Gross Profit	12,818	10,894
Earnings before Interest, Depreciation and Taxation (EBITDA)	6,090	4,958
Finance Cost	1,879	2,084
Depreciation	817	943
Profit Before Tax (PBT)	3,394	1,930
Tax	1,106	533
Profit After Tax (PAT)	2,287	1,397
Other comprehensive income	(13)	(2)
Total comprehensive income for the year, net of tax	2,274	1,395

On a turnover of ₹137,929 lakhs for the year, the Company made an operating profit of ₹ 12,818 lakhs against ₹ 10,894 lakhs made in last year. It represents 18% increase over the last year.

The better results are due to stable gold price realisation and also due to better marketing initiatives under taken by the management. The company could perform better due to margin expansion resulted on account of better product mix sales. It is also marginally attributable to better volume of diamond ornaments on a comparable basis with last year.

You may notice that our top line growth over a period of four years remains in a narrow band. However, due to various initiatives taken by the management the value addition to the products sold continuously improved from 3.75% in 2015 to 9.30% in 2018 resulting in the gross profit growth of 150% in the four years period.

Your management is continuously focusing on bottom line growth more than proportionately that of turnover growth and believes on the importance of areas of value creation by optimally exploring all the resources at its disposal. While, we plan to push the top line by enlarging market share of the business moderately, your management also strives to maintain the pricing power in a crowded place of competitive environment. The company consciously decided not to expand branches in haste and strategically played on the brand visibility created over two decades of operations by enlarging the size and inventory of the existing branches one by one for getting improved results.

You may find from the financials that our size of Balance sheet significantly increased in 17-18 and the fruits of the enlarged Balance sheet would be positively felt in the year to come. To achieve results, going forward a business plan will be implemented with a better product mix, diamond sales promotion, capital productivity improvement and retention of scale of economy to attain improved operating margin.

The major reasons for better bottom line performance are summarized hereunder;

- ✦ Stable gold price realisation throughout the year.
- ✦ Paradigm shift taken place in marketing & promotional initiatives.
- ✦ Improved production from own manufacturing units.
- ✦ Higher level of metal loan resultant in interest savings.
- ✦ Relaunching of old branches with a view to get facelift and better visibility of brand.
- ✦ Better contribution from diamond sales.
- ✦ Change in product mix to get optimum result on inventory management.

**2. KEY STRATEGIES ADOPTED BY THE MANAGEMENT**

- ✦ Savings in making cost of jewellery due to change in procurement plan.
- ✦ Cost of finance and promotional expenses were relatively reduced.
- ✦ The commitments of carrying “Right product for Right Market” that resulted in sales growth.
- ✦ Improvement in “same store” growth in turnover
- ✦ Planned improvement in gross profit margin by optimizing all resources of the Company.

Gross Profit Margin**Growth in PBT on Incremental Increase in Sales****3. DIVIDEND**

The Board of Directors of the Company are pleased to recommend a dividend of ₹3.50/- (35%) per equity share for 2017-18 (₹2 in 2016-17) on 1,37,19,582 equity shares of ₹10 each. The proposed dividend is subject to the approval of shareholders in the ensuing Annual General Meeting of the company will result in cash outflow of ₹579 lakhs including Dividend Distribution tax there on.

Earning Per Share**4. HEDGING**

The company started availing more loan under metal loan category. It acted as a natural hedge for the fluctuations in the gold price movement. Currently, the hedge ratio is around 65:35 as against 50% of the last year. The increase in “Hedging” proportion for the current year augers well for the company. It is our endeavour to take in to 75:25 in future. Some portion of gold under own purchases is a necessity as sudden escalation in gold price often results in liquidity mismatch due to increase in margin calls. Based on our experience and the current gold price movement trend we are of the opinion that the ratio at the most can go up to 75:25 in the overall business / operational interest of the company.

Gold Metal Hedged in Inventory Holding

**5. CONTINUING CHALLENGES**

- ✦ Frequent failure of gold companies to meet their liabilities in the recent past makes the industry to suffer for credit entitlements from Banks;
- ✦ Exceptional regulatory mechanism placed by the Government on the industry;
- ✦ Current account gap in trade perhaps as in the past, may bring restrictions in the gold import by the Government.
- ✦ Possible restrictions on gold retail industry in taking customer advances for future delivery post passing of regulatory bill by the parliament.
- ✦ Highly fluctuating gold price movement necessitate both on account of incremental gold price and also on account of INR-US\$ currency behaviour;
- ✦ Enlarged risks associated with bank credit exposure to the industry may compel a reduction in credit rating by the credit rating agencies;
- ✦ Monsoon failures, structural changes witnessed in the saving / spending habits of the people, escalation in the minimum wage Act and Income tax regulatory constraints may cumulatively affect the growth and operations of the industry.

6. FUTURE PROSPECTS

- ✦ Due to strict implementation of regulatory matters the trade, would become more responsible & disciplined in future. We are also able to see a clear shift in the polarization impact in the industry.
- ✦ The year went by, clearly demonstrated your Company's potentials to improve "same store sales" with better top line and bottom line impact while striving hard to improve the gross margin in operations.
- ✦ The inherent strength of the business model comprising of substantial sales of silver ornaments and a moderate improvement in Diamond sales to cover a part of the fixed over heads and to improve the margin of safety while bringing down the BEP level consistently is explored for sustenance of growth.
- ✦ In general expanding gross margin, better expected stock turnover times improved "same store sales" and planned reduction in per gram "cost of sales" of gold ornaments, will go a long way in sustaining the growth while improving the profitability of the company.
- ✦ Barring unforeseen circumstances, the current year 2018-19 would see a moderate but sustainable growth in performance on all fronts.

Assets -Rs in lakhs**Total Equity & Liabilities-Rs in lakhs****Return On Equity in %**

**Key performance indicators to look at for future;**

- ✦ Increase in same store sales. Almost all outlets brought in improved sales in 17-18.
- ✦ Diamond sales in value have gone up from ₹ 236 lakhs to ₹ 554 lakhs in 17-18.
- ✦ Operating profit margin improved by 90 bps points due to better product-mix realization.
- ✦ Net profit before tax also improved by 98 bps due to better cost management and savings in interest outgoes;
- ✦ Your Company will focus in further improvement of these factors to improve the overall profitability.

7. POSITIVE IMPACT OF BALANCE SHEET LIABILITY MANAGEMENT

The proactive steps taken in the past to reduce dependence on bank borrowings started to yield better results. The company consistently substituted costlier working capital facilities with metal loan, advance from customers and bill discounting facilities. The effective cost of funds got reduced as seen from below given chart in the past 4 years;

Limit Used vs Interest Payout

₹. (In lakhs)

Year ended 31st March	Limit used	Interest & other charges	As a % of loan availed
2015	18,043	2,525	14.00%
2016	13,355	1,579	11.82%
2017	12,722	1,135	8.92%
2018	16,805	1,064	6.33%

Bank Borrowing vs Interest Costs

₹. (In lakhs)

**Franchisee Model**

For the first time, your company is exploring the avenues for furtherance of business with the help of franchisee model. The company is already working on the modalities of that model by properly evaluating risk/ reward potentials. Your board is of the opinion, atleast on an experimental basis two/ three newly contemplated outlet may be tried with the franchisee model in the current year 2018-19. The progress in this direction as and when put to operation will be informed to the shareholders at appropriate time.

The net internal accruals expected out of operations will be deployed back into business to improve the profits of the company in the years to come.

8. DEFERRED TAX LIABILITIES

As expected in the last year report, Deferred tax assets was fully absorbed by the company. From ₹ 547 lakhs deferred tax assets of last year it got changed to Deferred Tax liabilities of ₹159 lakhs. Under the previous GAAP, deferred tax accounting is done using income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 Income Taxes requires to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on temporary differences which were not required under previous GAAP in addition to the various temporary differences consequent to Ind AS transitional adjustments. Consequently, deferred tax assets (net) is reduced by ₹216 lakhs as at 1st April 2016 and total equity decreased by ₹216 lakhs as at 1st April 2017.

9. CONTRIBUTION TO EXCHEQUER

The Company is a regular payer of taxes and other duties to the Government. The Company has paid Value Added Tax and GST of ₹ 3396 lakhs as compared to ₹ 1,242 lakhs paid in the previous year and Advance income tax of ₹ 738 lakhs for financial year 2017-18.

**10. CAPITAL EXPENDITURE**

During the year, we capitalized ₹1058 Lakhs to our gross block comprising of ₹475 lakhs for Plant & Machinery and Furniture & Fittings and other assets and balance of ₹583 lakhs for Computer Equipment's including Software.

The capital work in progress amount outstanding as on 31st March 2018 is ₹ 87 lakhs. This is comprising of interiors and other assets still to be put in use and yet to be capitalised.

For the previous year, we capitalized ₹ 441 lakhs to our gross block comprising ₹ 349 lakhs for Plant & Machinery and Furniture & Fittings and others and the balance of ₹ 92 lakhs for Computer Equipments including Software.

11. FINANCE

In continuation of last year, this year is the best year wherein the quantum of absolute reduction is commensurate with the quantum of loan exposure. The interest cover ratio has also improved to 3.27 times due to better inventory utilization in this year.

Due to continued thrust and efforts made by the company, interest outgo for every gram of gold ornaments sold to be lower than 17-18 in the years to come.

The secured working capital borrowings of the company as at 31st March 2018 stood up ₹ 20,896 lakhs as against ₹ 13,586 lacs in the previous year. The existing sanctioned limits along with bill discounting limit of ₹ 1,000 lakhs aggregating to ₹ 25,000 lakhs is sufficient to take care of current year requirement of the company. Out of ₹ 3,000 lacs term loan obtained from Karur Vysya Bank only a sum of ₹ 208 lakhs remains to be paid. It is pertinent to note that your company repaid term loan ahead of the schedule of repayment and currently has ₹ 208 lakhs as against ₹ 3,000 lakhs borrowed as long term loan from bank.

The eligible fixed deposits from public & shareholders is ₹ 5302 lakhs. However, the company took only ₹ 4686 lakhs as deposits as at 31st March 2018. Besides, the promoters brought in a sum of ₹ 1240 lakhs at lower interest rate of 6% per annum to support the Company as long term funds. In all, the liquidity position is quite sound and comfortable.

Interest outgoes have decreased marginally. We may have to relate it to the increase in current assets. The per gram interest payment works out to ₹45 only.

12. DETAILS IN RESPECT OF FRAUDS REPORTED BY AUDITORS UNDER SUB-SECTION (12) OF SECTION 143 OTHER THAN THOSE WHICH ARE REPORTABLE TO THE CENTRAL GOVERNMENT

The Statutory Auditors of the Company have not reported any fraud as specified under the second proviso of Section 143(12) of the Companies Act, 2013 (including any statutory modification(s) or re-enactment(s) for the time being in force).

13. DIRECTORS' RESPONSIBILITY STATEMENT

Potential Risks, Concerns and Mitigation Plan

Risk of loss of Positioning in the market place

Due to competition in the retail trade, there is a possibility that our market share from a particular place of operation or region may decline. A lot of new entrants to the retail trade suffer from lack of knowledge of customer's preference and on quality parameters and price war. Therefore, your company with its fuller penetration to rural market is well placed to participate in the rural success story of the country. In order to maintain/improve market share in the areas we operate in the light of sagging regressive demand trends, we have cautiously brought down the mark up value for our products moderately and also improved customer service through online and offline mode.

Monsoon

Monsoon failure for successive years in southern parts of Tamilnadu adversely affected the company's business. The purchasing power with rural people who depend on Agriculture substantially got marginalized. This has resulted in demand compression and led to a period of continuous recession unparalleled in the recent history of jewellery trade. Dwindling customer demands and purchase of other electronic goods by the customers have resulted in purchase of ornaments generally coming down in jewellery business. This has resulted in customer opting for light weight items. The company has decided to stock more of such items in order to get better share from sagging market as in the last year.

Change in lifestyle

The disposable income of both middle class and upper middle class and change in life styles of people leads to shifting of consumer base to branded jewellery. Even though this will be a major risk factor for long term growth of the company, the change in people's taste and preferences are ascertained through various sources and accordingly change in our product mix were done by well-equipped team.

**Economic risk**

Economic slowdown can affect the demand and the sales for the company.

Mitigation: The Company has a diversified product portfolio that generates robust sales from either of the category to balance any uncertain circumstances. The present Indian economy is quite strong as commodity prices and bank lending rates have declined. Since jewellery industry is always associated with wedding and other traditional occasions and demand for jewellery remain constant.

Competition risk

Increasing competition from new entrants as well as existing ones.

Mitigation: The Company manufactures quality products and better services and offers that at a reasonable price to reach people through communications via different media. It undertakes extensive promotion and advertising to create value, positioning and recall for the power brands.

Margin risk

Due to lack of control over the cost, may lead to lower profitability and can impact future growth prospects.

The centralised procurement policy, by which our team anticipates stock requirement and make bulk purchases at the time when gold price is low. The economies of scale and correct procurement timing enable the company to significantly reduce the cost of the raw material. The company procures a certain quantum of gold on lease from banks, buying the gold on daily basis on the actual sale made by it. This strategy safeguards the company from gold price fluctuation.

Gold price fluctuation risks

Gold price fluctuation risk could arise on account of frequent changes in gold prices either up or downside momentum. It could have adverse impact on earnings. We are maintaining our inventory price hedging around 65:35 basis. This will help the company with any gold price fluctuation of gold price. Your Board will take appropriate action in managing the fluctuation impact in gold price movement from time to time to increase to 75:25 basis.

Change in Government Policies

New government regulations pertaining to taxation and banking stringent norms will affect the demand and supply

chain. Your company with help of well-experienced IT and managerial personnel, the implications of all these regulations are clearly analysed, interpreted and necessary compliance measures are undertaken

Human Resources

Employee attrition may affect the operation of the Company.

Mitigation: The Company encourages new talent and provides specialised training to the sales force to ensure the roots are grounded well, improving the performance standards and positively contribute towards growth of the company.

Seasonal Risk:

Sluggish sales of products due to seasonal changes may affect profitability of the Company.

Mitigation: The wide ranged designed product profile and customer needs product will help against the season ups and down.

Compliance risk

Non-compliance of regulations may raise the operation risk for the Company.

Mitigation: The Company has a structured internal control system in place to ensure all statutory rules and regulations are met including changes in taxation and other regulatory framework.

Cost management:

The Company is improving meticulously its focus on cost through a resourceful operating system, increase in the production Capacity and strengthening of manufacturing units and various sourcing points are being pursued to reduce manufacturing costs and also delivering quality of product at lower price. Logistics facilities are strengthened. Synergy optimization in various cost components is achieved.

24. INTERNAL CONTROL SYSTEMS

The Board of Directors is responsible for ensuring that internal financial controls have been laid down in the Company and that such controls are adequate and is functioning effectively. TMJL has policies, procedures, control frameworks and management systems in place that

MANAGEMENT DISCUSSION AND ANALYSIS

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 7 per cent of the country's GDP and 15.71 per cent to India's total merchandise exports. It also employs over 4.64 million workers. One of the fastest growing sectors, it is extremely export oriented and labour intensive.

Based on its potential for growth and value addition, the Government of India has declared the Gems and Jewellery sector as a focus area for export promotion. The Government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote 'Brand India' in the international market.

India is deemed to be the hub of the global jewellery market because of its low costs and availability of high-skilled labour. India is the world's largest cutting and polishing centre for diamonds, with the cutting and polishing industry being well supported by government policies. Moreover, India exports 75 per cent of the world's polished diamonds, as per statistics from the Gems and Jewellery Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's Foreign Exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

Market size

Gold demand in India rose to 454.4 tonnes between January-September 2017. India's gems and jewellery exports stood at US\$ 24.89 billion in April-December 2017. During the same period, exports of cut and polished diamonds stood at US\$ 17.2 billion, thereby contributing about 69 per cent of the total gems and jewellery exports in value terms. Exports of gold coins and medallions stood at US\$ 1,736.02 million and silver jewellery export stood at US\$ 3,114.85 million during April-December 2017.

The gems and jewellery market in India is home to more than 300,000 players, with the majority being small players. Its market size is about US\$ 60 billion as of 2017 and is expected to reach US\$ 100-110 billion by 2021-2022. It contributes 29 per cent to the global jewellery consumption.

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. UAE, US, Russia, Singapore, Hong Kong, Latin America and China are the biggest importers of Indian jewellery. The Goods and Services Tax (GST) and monsoon will steer India's gold demand going forward.

Investments/Developments

The Gems and Jewellery sector is witnessing changes in consumer preferences due to adoption of western lifestyle. Consumers are demanding new designs and varieties in jewellery, and branded jewellers are able to fulfill their changing demands better than the local unorganized players. Moreover, increase in per capita income has led to an increase in sales of jewellery, as jewellery is a status symbol in India.

The cumulative Foreign Direct Investment (FDI) inflows in diamond and gold ornaments in the period April 2000 - September 2017 were US\$ 1,045.58 million, according to Department of Industrial Policy and Promotion (DIPP).

Some of the key investments in this industry are listed below.

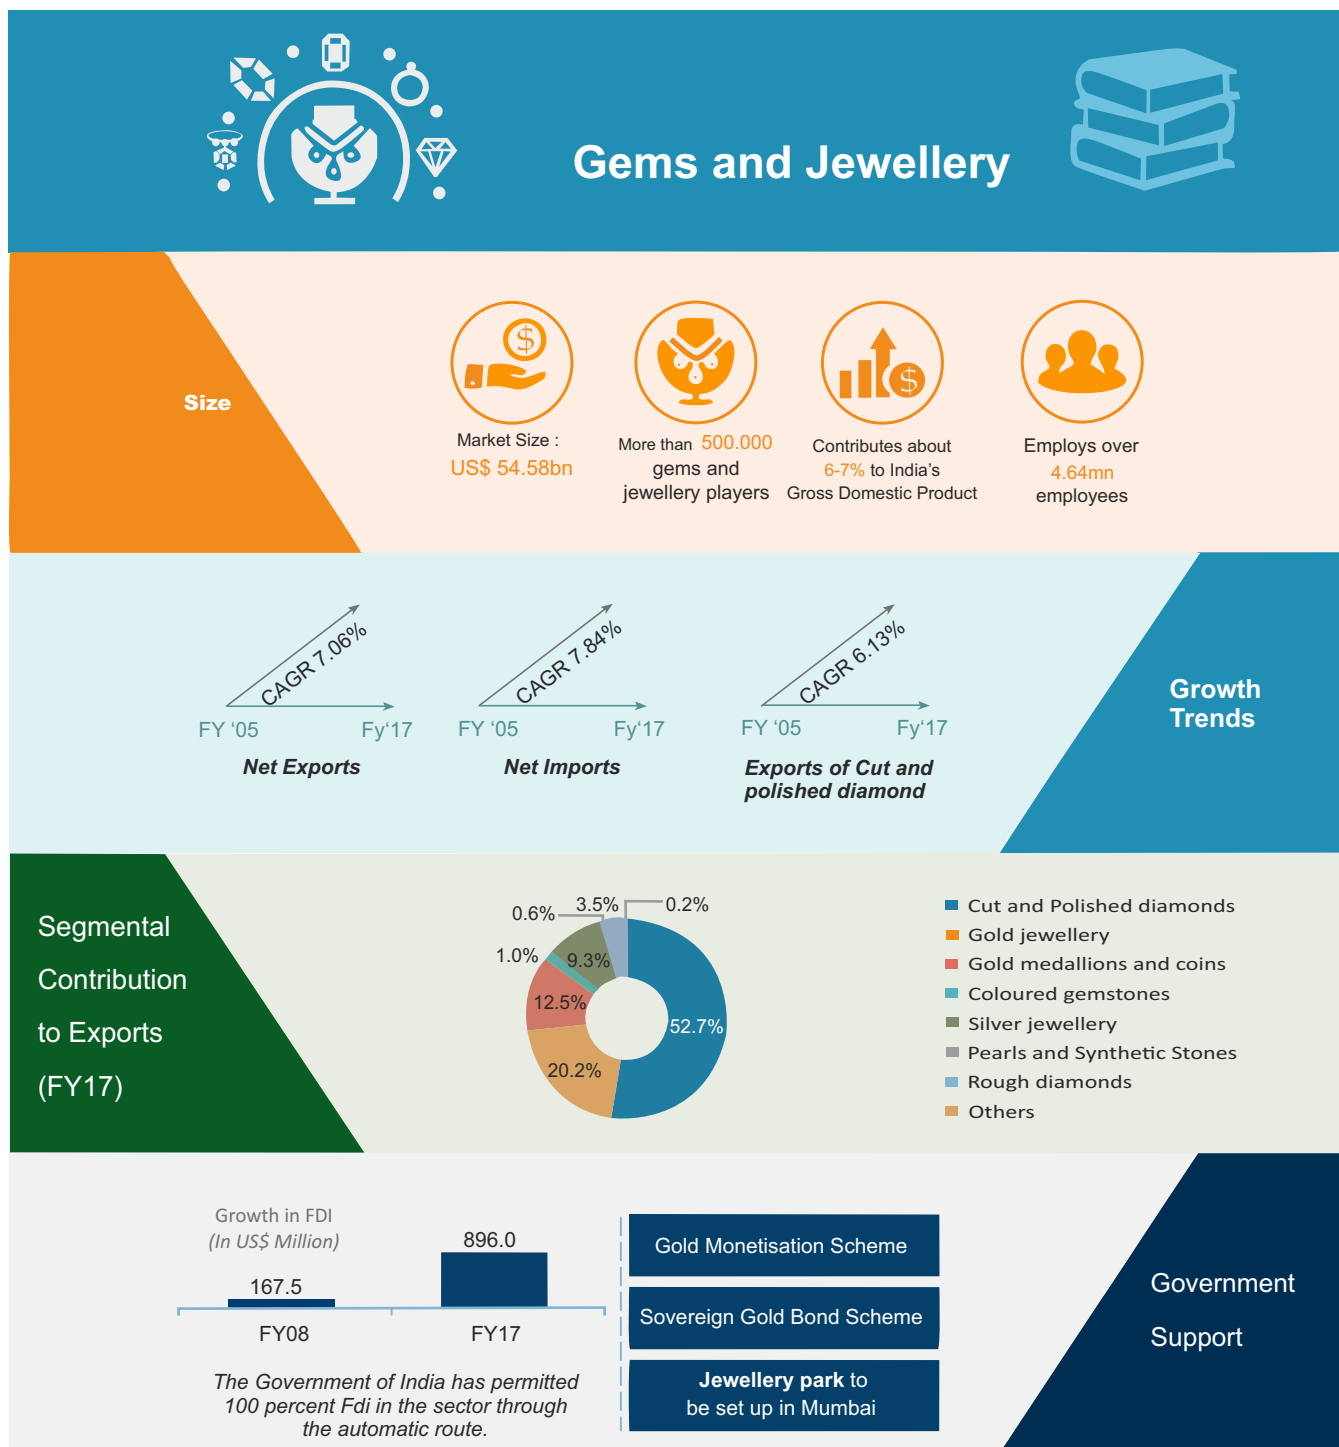

- ✦ An international diamond exchange will be set up in Surat by October 2020 at a cost of Rs 2,400 crore (US\$ 372million).
- ✦ Companies such as PC Jewellers, PNG Jewellers, Popley and Sons, are planning to introduce a virtual-reality (VR) experience for their customers. The customer will have to wear a VR headset, through which they can select any jewellery, see the jewellery from different angles and zoom on it to view intricate designs.

Government Initiatives

- ✦ The Government of India would notify a new limit for reporting about transactions in gold and other precious metals and stones to authorities, to avoid the parking of black money in bullion.
- ✦ The Bureau of Indian Standards (BIS) has revised the standard on gold hallmarking in India from January 2018. The gold jewellery hallmark will now carry a BIS mark, purity in carat and fitness as well as the unit's identification and the jeweller's identification mark. The move is aimed at ensuring a quality check on gold jewellery.
- ✦ The Government of India has planned to set up a Common Facility Center (CFC) at Thrissur, Kerala.

**Road Ahead**

In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Online sales are expected to account for 1-2 per cent of the fine jewellery segment by 2021-22. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

RISKS AND CONCERNS

It is essential to correctly assess the risk in each segment so that the risk is mitigated before it becomes a possible threat. General risk segments are statutory complines, economy, financials, Government policies, market related, operational, products and technology etc.,

The management has a rapid review of likely risk areas with the objective to define a framework for identification, evaluation and mitigating the risk in the decision making process and to encourage proactive management and not reactive management. From the perspective of the company the risks are of the following nature:

- (a) Strategic risk: Those risks associated with operating in a particular industry and includes risks arising from demand changes, changes in customers choice and industry changes. These risks pose threats or opportunities which materially affect the ability of the organization to survive.
- (b) Compliance risk: Those risks associated with the need to comply with laws and regulations. They also apply to the need to act in a manner which stakeholders and customers expect.
- (c) Operational risk: Those associated with the company's operational and administrative procedures which inter alia include accounting controls, regulations, recruitment, IT systems, board composition, contractual risks and exposures, organizational risks and exposures.
- (d) Financial risk: Those associated with financial structure of the company, its transactions and the financial system in place.
- (e) Environmental risk: Those associated with release of polluting materials, environmental performance/ compliance limits, business opportunities and breach of regulations.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has in place adequate system of internal control. It has documented procedures covering all financial and operating functions. These controls have been designed to provide a reasonable assurance with regard to maintaining of proper accounting controls, monitoring of operations, protecting assets from unauthorized use or losses, compliance with regulations and for ensuring reliability of financial reporting. The Company has continued its efforts to align all its processes and controls with global best practices in these areas as well.

Some significant features of the internal control systems are:

- ★ Having introduced and continually upgraded, improved and fine tuned state of the art Enterprise Resource Planning (ERP) since August 2008, supplier Relations Management and Customer.
- ★ Relations Management, to connect its different locations, dealers and vendors.

ANTI-FRAUD PROGRAMME

The Board takes responsibility for the total process of risk management in the organization. The Audit Committee reviews reports covering operational, financial and other business risk areas. Taking into Consideration the high risk associated with this business, the organization and management have taken necessary measures towards achieving an environment free of fraud. This is also facilitated by internal audit. The business risks are managed through cross functional involvement and intense communication across businesses. Results of the risk assessment and residual risks are presented to the senior management.

INFORMATION TECHNOLOGY

Thangamayil Jewellery Limited has a jewellery retail based information technology savvy department deploying the best retail solutions in the market to enhance, develop, support and maintain our retail business activity across all our showrooms. Thangamayil has developed an information technology team to test and maintain our own solutions across the showrooms. As a base platform for our ERP we used SAP Business One solution across the showrooms. Nomination in respect of shares - Section 72 (1) of the Companies Act, 2013 provides facility for making nominations by shareholders in respect of their holding of shares. Such nomination greatly facilitates transmission of shares from the deceased shareholder to his / her nominee without having to go through the process of obtaining succession certificate / probate of the Will etc.

It would, therefore, be in the best interests of the shareholders holding shares in physical form registered as a sole holder to make such nominations. Shareholders, who have not availed nomination facility, are requested to avail the same by submitting the nomination in form 2B. This form will be made available on request. Shareholders holding shares in demat form are advised to contact their DP's for making nominations.

Updating of address:

Shareholders are requested to update their address registered with the Company, directly through the STA located at the address mentioned above, to receive all Communications promptly.

Shareholders, holding shares in electronic form, are requested to deal only with their depository participant (DP) in respect of change of address and furnishing bank account number, etc.

SMS Alerts:

Investors are requested to note that National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) have announced the launch of SMS alert facility for demat account holders whereby Shareholders will receive alerts for debits / credits (transfers) to their demat accounts a day after the transaction. These alerts will be sent to those account holders who have provided their mobile numbers to their Depository Participants (DPs). No charge will be levied by NSDL / CDSL on DPs providing this facility to investors. This facility will be available to investors who request for the same and provide their mobile numbers to the DPs. Further information is available on the website of NSDL and CDSL namely www.nsdl.co.in and www.cdslindia.com, respectively.

Timely encashment of dividends:

Member can claim unpaid dividend from the company before transfer to the Investor Education and Protection Fund.

As required by SEBI, Shareholders are requested to furnish details of their bank account number and name and address of the bank for incorporating the same in the warrants. This would avoid wrong credits being obtained by unauthorized persons.

**INDEPENDENT AUDITOR'S REPORT****To the Members of Thangamayil Jewellery Limited****Report on the Financial Statements**

We have audited the accompanying Ind AS financial statements of THANGAMAYIL JEWELLERY LIMITED ("the Company"), which comprise the balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement for changes in equity for the year ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act with the Companies (Indian Accounting Standards) Rules ,2015 , as amended and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and the Order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, (financial performance including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

**Other Matter**

The transition date opening balance sheet as at 1st April 2016 included in these Ind AS financial statements, are based on the statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by the predecessor auditor whose report for the year ended 31st March 2016 dated 25th May, 2016 expressed an unmodified opinion on those financial statements, and have been restated to comply with Ind AS. Adjustments made to the previously issued said financial information prepared in accordance with the Companies (Accounting Standards) Rules, 2006 to comply with Ind AS have been audited by us.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, based on our audit we report that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) the Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- d) in our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
- e) on the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
- f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"; and
- g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements.

**Annexure - B to the Auditors' Report****Report on the Internal Financial Controls over financial under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Thangamayil Jewellery Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date which includes a jointly controlled operation

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately

and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has to the best of our information and according to the information given to us the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

1. SIGNIFICANT ACCOUNTING POLICIES

(i) Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies (Indian Accounting standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 read with section 133 of the Companies Act, 2013.

Upto the year ended March 31, 2017, the company had prepared and presented its financial statements in accordance with the requirements of previous Generally Accepted Accounting Principles (GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Company's first Ind AS financial statements. The date of transition is April 1, 2016. Refer note 1 for the details of first – time adoption exemptions availed by the Company.

(ii) Basis of preparation and presentation

The financial statements have been prepared on accrual basis under the historical cost convention except for the following that are measured at fair value as required by relevant Ind AS:

- a) Defined Employee benefit Plans – Plan assets are measured at fair value.
- b) Certain financial assets and liabilities

(iii) Use of Estimates and judgement

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may diverge from these estimates.

Estimates and assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(iv) Revenue Recognition

Sales are recognized when goods are supplied and are recorded at net realizable value excluding VAT/GST and other statutory levies.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Other income is recognized on certain confirm transactions of cessation of old entries liabilities in the case of advances from customer category

(v) Inventories

Inventories including company's stock held with goldsmiths are valued at lower of cost or net realizable value. The cost of raw material inventories is computed on a FIFO basis. The cost of finished goods and work in progress includes cost of conversion and other cost incurred in bringing the Inventories to their present location and condition.

Cost is generally determined on FIFO basis and wherever required, appropriate direct on cost are taken into account. Net Realizable Value is the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale.

Hedging mechanism of entering into forward contract against appropriate underlying assets is primarily used by the company to hedge the price fluctuation exposure of those underlying assets. The fair value adjustment arising out of such transactions is forming part of cost of assets procured.

Packing materials and Gift items are valued at cost on FIFO basis.

**(vi) Property, Plant and Equipment**

For transition to Ind AS, the Company has elected to continue with the carrying value of its property, plant and equipment recognised as at 1st April 2016(transition date) measured as per previous GAAP and use that carrying value as its deemed cost as of the transition date.

Buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price/ acquisition cost, net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying property, plant and equipment up to the date the asset is ready for its intended use.

Machinery spares which can be used only in connection with an item of Property, plant and equipment and whose use is expected to be irregular are capitalised and depreciated over the useful life of the principal item of the relevant assets.

Subsequent expenditure on property, plant and equipment after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Depreciation on Fixed Assets is provided at rates as prescribed under the Companies Act, 2013 on the following basis:

S.No	Asset Class	Useful life of assets
i.	<u>Straight Line basis</u>	
	+ Building	60 Years
	+ Plant & Machinery	15 Years
	+ Furniture and Fittings	10 Years
	+ Office equipment's	15 Years
ii.	<u>Written Down Value basis</u>	
	Vehicles	
	+ Motor Car	8 Years
	+ Two Wheelers	10 Years
	Computers	
	+ Hardware	3 Years
	+ Software	6 Years

(vii) Capital work in progress

Capital work in progress includes, cost of assets not yet commissioned, and incidental expenses during the construction period. Certain directly attributable pre-operative expenses during construction period are included under Capital Work in Progress. These expenses are allocated to the cost of Fixed Assets when the same are ready for intended use.

(viii) Borrowing cost

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets till such time the assets is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the year in which they are incurred.

**(ix) Foreign Exchange Transactions**

Transactions in foreign currency are recorded at the rate prevailing on the date of transactions. Foreign currency Assets and Liabilities are stated at the rate of exchange prevailing at the balance sheet date and the resultant gains/losses are charged to the profit and loss account.

Premium/Discount in respect of foreign exchange contract is amortized as Income/Expense over the life of the contract. Any profit or loss arising on cancellation or renewal of such forward contracts is recognized as Income/Expense for the period. Exchange difference arising on settlement or restatement of foreign currency denominated liability is recognized in the profit & loss a/c.

(x) Retirement Benefits

i. Defined Contribution Plan Company's contribution paid/payable during the year to Provident Fund etc are recognized in the Profit and Loss Account. These are approved/recognized scheme of the Company.

ii. Defined Benefit Plan Annual Company's liability towards Gratuity is funded on the basis of actuarial valuation furnished by the Life Insurance Corporation of India under Group Gratuity Scheme.

iii. The company does not provide leave encashment and carry forward of accumulated leave to next year to its employees.

(xi) Leases**a) Financial Lease**

Assets acquired under Leases, where the Company has substantially all the risks and rewards of ownership, are classified as finance leases. Such leases are capitalized at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

b) Operating Lease

Assets acquired as leases, where a significant portion of the risk and rewards of ownership are retained by the lessor, are classified as operating leases. Lease rentals are charged to the Profit and Loss Account on accrual basis

(xii) Intangible Fixed Assets

For transition to Ind AS, the Company has elected to continue with the carrying value of its intangible assets recognised as at 1st April 2016(transition date) measured as per previous GAAP and use that carrying value as its deemed cost as of the transition date.

Intangible Assets are stated at cost less accumulated amortization and impairment loss, if any. Cost includes any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortized over their respective estimated useful lives' on a Written down value basis, from the date that they are available for use.

(xiii) Expenses

a) All expenses including interest and finance charges are accounted for on accrual basis.

b) Prior period items, if material, are disclosed separately.

(xiv) Research and Development

Expenditure incurred during research and development phase is charged to revenue when no intangible asset arises from such research. Assets procured for research and development activities are generally capitalized.

(xv) Redemption of Customer Loyalty Points

The un availed Customer Loyalty Points lying in the Value card has been provided as a liability and the amount redeemed during the year is charged to Profit & Loss A/c in the respective years of redemption. Redemption of customer loyalty points costs are accrued in the year of sales of products based on past experience.

(xvi) **Advance from Customers**

Amounts collected as advances from customers have been recognized as a liability in the year of collection. The accumulated amount along with applicable bonus amount is redeemed in the form of jewellery. The bonus or obligations arising out of these transactions are accounted for in books on accrual basis on a consistent basis.

The Company is collecting money from its customers on advance basis by extending easy payment scheme, and offers in return gold ornaments at the rate prevailing on the date of redemption (which is less than twelve months from the date of original entry date) without any charges towards making and wastage cost. The concession if any will be accounted in the year in which it is redeemed as discount to sales realisation.

The company is accepting old gold from its customers to be exchanged for new gold ornaments within a period of twelve months without any charges for making such ornaments.

The Company is operating a scheme by which customer fixes the gold price to the extent of amount paid on the date of remittance. The liability that would arise to the company due to adverse price fluctuations if any or the benefits that would arise due to favourable price marked to market as on the last date of financial year will be dealt with accordingly in the books on the year in which such transactions were put through.

(xvii) **Gold Metal Loan**

The company has an arrangement with its banker for lifting gold under metal loan terms against a limit under “price unfixed basis” and opts to fix the price for gold taken under loan within 180 days at delivery. However, based on business expediencies the company fixes the price within 180 days, whenever the price is favorable and carried the transaction under the forward cover to be settled for payment of money on the specified date. The price difference arising out of such transactions accounted in the head of cost of sales and adjusted accordingly. The interest if any payable to bankers on such outstanding is treated as expenses on accrual basis.

The outstanding metal loan position if any as on reporting date is marked to market and the resulting difference is any is adjusted to the notional purchase account and the value as on that date is adjusted as cost for inventory valuation consideration.

(xviii) **Taxes on Income**

Tax expense comprises of current income and deferred income tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act 1961.

Minimum alternate tax (MAT) paid in accordance to the tax laws, which gives rise to future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the balance sheet when it is probable that future economic benefit associated with it will flow to the Company and the asset can be measured reliably.

Deferred tax: Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

(xix) Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of impairment loss is recognised immediately in the statement of profit and loss.

(xx) Provisions, Contingent Liabilities

Provisions are recognized in respect of obligations where, based on the evidence available, their existence at the balance sheet date is considered probable. Contingent liabilities are disclosed by way of Notes on accounts in respect of obligation where, based on the evidence available, their existence at the balance sheet date is considered not probable. Contingent assets are not recognized in the accounts.

(xxi) Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially recognised at fair value. Transaction costs that are directly attributable to financial assets and liabilities [other than financial assets and liabilities measured at fair value through profit and loss (FVTPL)] are added to or deducted from the fair value of the financial assets or liabilities, as appropriate on initial recognition. Transaction costs directly attributable to acquisition of financial assets or liabilities measured at FVTPL are recognised immediately in the statement of profit and loss.

1) Non-derivative Financial assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in market place.

2) Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to life time ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in the statement of profit and loss.

3) Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in statement of profit and loss except for those which are designated as hedging instruments in a hedging relationship.

For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in the statement of profit and loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

Financial Liabilities

1) Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL. However, financial liabilities that arise when a transfer of a financial asset does not qualify for de-recognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below

2) Financial liabilities at FVTPL

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurment recognised in statement of profit and loss. The net gain or loss recognised in statement of profit and loss incorporates any interest paid on the financial liability and is included in the 'Other income/other expenses' line item

3) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in the statement of profit and loss.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in the statement of profit and loss.

Mode of Valuation			
Inventories including company's stock held with gold smiths are valued at lower of cost or net realizable value. The cost of raw material inventories is computed on a FIFO basis. The cost of finished goods and work in progress includes cost of conversion and other cost incurred in bringing the Inventories to their present location and condition.			
Cost is generally determined on FIFO basis and wherever required, appropriate direct on cost are taken into account. Net Realizable Value is the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale.			
Hedging mechanism of entering into forward contract against appropriate underlying assets is primarily used by the company to hedge the price fluctuation exposure of those underlying assets. The fair value adjustment arising out of such transactions is forming part of cost of assets procured.			
Packing materials and Gift items are valued at cost on FIFO basis.

(₹ in lakhs)

Description	2017-18	2016-17
Estimated value of Contract remaining to be executed on capital account net of advances not provided for.	30.00	25.00

b) An order for demand of less payment of Customs duty on imported goods pertaining to earlier year for ₹ 154 Lakhs passed by principal Commissioner of Customs, Chennai. The company has moved a Writ petition against the order with Honourable High Court of Madras for quashing the order passed by the Authority. The writ was admitted and status quo is maintained. The company is advised that it has got a more than a reasonable chance for success and therefore no provision is made in the books. Hence, this liability if any is considered as contingent in nature.

c) In respect of – outstanding Letter Credit given to bankers ₹ 4928.94 Lakhs (previous year ₹ 6085.00 Lakhs)

d) The Commercial Tax office, Nethaji Road Circle, Madurai has passed order and raised demand for payment under the TNVAT, 2006 for the year 2006-07 to 2009-10 of ₹ 49.96 Lakhs towards liability of disallowance of input tax and classification of goods. The company has filed an appeal against the aforesaid order with appellate Authorities and the matter is pending for disposal.

e) The Commercial Tax office, Madurai has issued a notice for the Asst year 2006 -07 to 2012-13 on the matter of payment of Sec 12 purchase tax and others made a claim aggregating to ₹ 492 Lakhs . The notice is erroneous as the law permits to adjust the excess input credit available at every point of time with that of purchase tax payable. The company even after adjusting regularly the purchase tax due with the excess input credit available has also paid by remittances for balance if any. Accordingly, at no point of time, the company failed to pay purchase tax u/s 12 . Against this frivolous notice, the company took the matter to Honourable Madras High Court, Madurai bench and obtained stay and also restrained the authorities to pass any orders without the court direction. However, commercial tax officer has not passed any order even earlier to this injunction and no action is taken for converting into orders for such notices sent by them. As the dues were already paid with thee tax input credits available, no real time liability for any further payment would be necessary. Hence, the liability if any is considered as Contingent in nature.

f) Tax demand of ₹ 55.32 lakhs raised by assessing officer, as per order under Section 143 (2) of the Income Tax Act 1961 due to disallowance pertaining to amortisation of Initial Public Offer (IPO) expenses under section 35D for Assessment Years 2010-11 to 2014-15. Company is in appeal before ITAT against said order.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market places. Market risk comprises two types of risk: Interest rate risk, and price risk. Financial instruments affected by market risk include loans and borrowings and deposits.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. This risk exists mainly on account of borrowing of the Company. However, all these borrowings are at flexible interest rate and based on the limit availment and hence the exposure to change in interest rate is insignificant in the current syndrome.

Price risk

Gold price fluctuation risk could arise on account of frequent changes in gold prices either up or downside momentum. It could have adverse impact on earnings. We are maintaining our inventory price hedging around 65:35 basis. This will help the company with any gold price fluctuation of gold price. The company will take appropriate action in managing the fluctuation impact in gold price movement from time to time to increase to 75:25 basis.

45. Capital Management

For the purpose of the Company capital management, capital includes issued equity capital and other equity reserve attributable to the equity share holders of the Company. The primary objective of the company's capital management is to maximise the shareholder value.

The company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the Company is based on management's judgement of its strategic and day to day need with a focus on total equity so as to maintain investor, creditors and market confidence.

The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt is calculated as borrowing less cash and cash equivalents and other bank balances.

46. FIRST TIME ADOPTION OF IND AS Transition to Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 March 2018, the comparative information presented in these financial statements for the year ended 31 March 2017 and in the preparation of an opening Ind AS balance sheet as at 1 April 2016 (the transition date). In preparing its opening Ind AS balance sheet, the Company has made adjustments to the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provision of the Act (previous GAAP or Indian GAAP). Further, in view of the classification of current and non-current items adopted in accordance with the criteria specified in Ind AS 1 Presentation of Financial Statements the corresponding figures of the previous years have been appropriately reclassified where so ever necessary. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Optional Exemptions

1) Deemed cost - Property, plant and equipment and intangible assets were carried in the balance sheet prepared under previous GAAP as at March 31, 2016. The Company has elected to regard such carrying amount as deemed cost at the date of transition i.e. April 01, 2016. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

2) Leases - Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material. The Company has elected to apply this exemption for such contracts/ arrangements.

Under previous GAAP, actuarial gains and losses were recognised in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of re measurement of the defined benefit liability/asset which is recognised in other comprehensive income. Consequently, the tax effect of the same has also been recognised in the Other Comprehensive Income under Ind AS.

Under previous GAAP, liability for dividend and dividend distribution tax thereof is recognised in the period to which the dividend relates, even though the dividend may be approved by the shareholders subsequent to the reporting date. Under Ind AS, dividend is recognised in the year in which the obligation to pay is established.

Estimates - An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP (after adjustments to reflect any difference in accounting policies) apart from certain new estimates that were not required under previous GAAP.

Reconciliation of Equity as at April 01, 2016 (Date of transition to Ind -AS)

**NOTES TO FIRST TIME ADOPTION:****1. Proposed dividend**

Under the previous GAAP, dividends proposed by the board of directors after the balance sheet date but before approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability.

Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend of nil as at 31 March 2017 (1 April 2016: ₹ 165.13 lakhs) included under provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity is increased by an equivalent amount.

2. Deferred tax

Under the previous GAAP, deferred tax accounting is done using income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 Income Taxes requires to accounting for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on temporary differences which were not required under previous GAAP in addition to the various temporary differences consequent to Ind AS transitional adjustments. Consequently, deferred tax assets (net) is reduced by ₹ 216 lakhs as at 1st April 2016 and total equity decreased by ₹ 216 lakhs as at 1st April 2016.

3. Excise duty

Under the previous GAAP, revenue from sale of products was presented exclusive of excise duty. Under Ind AS, revenue from sale of products is presented inclusive of excise duty. The excise duty paid is as expenses on the statement of profit and loss. This change has resulted in an increase in total revenue and total expenses for the year ended 31 March 2017 ₹ 581.08 lakhs. There is no impact on the total equity and profit.

4. Remeasurment of defined benefit plans

Under Ind AS, re measurements on defined benefit plans i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss under the previous GAAP, these re measurements were forming part of the profit or loss for the year.

As a result of this change, the profit for the year ended 31 March 2017 is increased by ₹ 2.21 lakhs. There is no impact on the total equity as at 31 March 2017.

5. Other comprehensive income

Under the previous GAAP, there was no concept of other comprehensive income. under Ind AS, specified item of income, expense, gains or losses are required to be presented in other comprehensive income.

6. Retained earnings

Retained earnings as at 1 April 2016 has been adjusted consequent to the above Ind AS transition adjustments.

47. All figures have been rounded off to the nearest thousands.

48. Previous year figures have been regrouped / reclassified to make them comparable with that current year.

**EXPLANATORY STATEMENT IN RESPECT OF SPECIAL BUSINESS PURSUANT TO SEC.102 OF THE COMPANIES ACT, 2013****ITEM NO.4**

Mr.Balarama Govinda Das is the Chairman and Managing Director of the Company since inception actively guiding the board members in all aspects of the Company's activities. He has been instrumental in the Company's growth over the years and the efforts taken by him has turned around the Company as a leading jewellery manufacturer and retailer in the south in Tamilnadu.

During his re-appointment at the 17th Annual General Meeting held on 26.07.2017 there was no revision of remuneration as he continued to draw the same salary of Rs.5 lacs per month as was approved at the Annual General Meeting held on 30.07.2014. Hence the Board felt the necessity to revise his remuneration suitably. In order to be commensurate with his responsibilities as the Managing Director of the Company the Board therefore recommended a revision of Rs.6 lacs to be paid as remuneration per month effective from 01.04.2018 as per the resolution placed before you. The Board of Directors recommend the resolution for your approval.

Memorandum of Interest:

None of the Directors and key managerial personnel of the Company and their relatives is concerned or interested financial or otherwise except Mr.Balarama Govinda Das, Mr.Ba.Ramesh, Mr.N.B.Kumar, Smt.Yamuna Vasini Deva Dasi and Mr..B.Rajeshkanna are deemed to be interested in the resolution.
