b) Operational Highlights:

Hi-Speed Fixed Line Broadband

DEN Broadband Private Limited, a 100% subsidiary of DEN Networks Limited and India's fastest growing fixed broadband Internet service provider (ISP) announces expansion of its hi-speed internet services to 100 cities across India by 2019. After an encouraging response to the pilot project in five cities, DEN has already started its first phase of expansion in 15 cities. DEN's expansion plan is in sync with the massive growth in the internet consumption in the country. Data usage in India has already jumped 144 per cent (y-o-y) with average consumption per user in 4G Broadband reaching 11GB per month. Moreover, the rise in data consumption has not been matched by a corresponding increase in the speed of connection. While India globally ranks 67th in fixed broadband speeds with an average download speed of 20.72 Mbps, mobile broadband speeds still lags at 109th rank with an average download speed of 9.01 Mbps, as per Ookla's speedtest Global Index, Feb 2018 report. With speeds up to 1Gbps at affordable prices, DEN Broadband will cater to the future needs of Internet while penetrating further into the untapped markets. Den Broadband intends to tap into high potential market by capitalizing existing Cable TV infrastructure of Den and providing Hi-Speed fixed broadband internet.

Join hands with BARC India for RPD

TV viewership measurement in India is set to get a boost. In a major development, DEN has partnered with BARC India for measuring TV viewership using Return Path Data (RPD) via its digital set top boxes (STBs). As part of this partnership, BARC India will fetch data from STBs of DEN Networks. DEN networks, will use this data for subscriber management, packaging opportunities and to drive advertising revenue on their in-house channels. With this partnership, DEN has taken the first steps towards world class data analytics of subscriber viewing patterns which will help us to serve customers in a far more effective way and enabling us to offer personalized services.

Technology & Services in Cable

DEN has recently launched its premium, 4K, Android Internet TV box, which will provide unified TV entertainment across Cable and Internet. DEN is the first MSO to launch unique offering which has features like voice search for browsing through channels and other content. The Internet TV box also provides hi-graphics games which use smartphones as gamepad, apart from other Wi-Fi enabled joysticks. It also use smart phones as remote controls and enables content sharing between mobile phone and TV. Using Wi-Fi and Bluetooth, this will integrate with IoT devices and act as a home gateway across all devices to create smart homes. With this offering, DEN becomes the first MSO to provide 4K services.

Demerger of Broadband Undertaking:

The Company had filed a Composite Scheme of Arrangement between DEN Networks Limited ("the Company") and the Skynet Cable Network Private Limited ("Skynet") (a wholly

owned subsidiary of the Company), for demerger of Broadband/Internet Service Provider ("ISP") Business Undertaking into Skynet during the financial year 2016-17. The honourable National Company Law tribunal vide its order dated September 19, 2017 has approved Demerger of Broadband division of the Company with DEN Broadband Private Limited (a wholly owned subsidiary Company) (Formerly known as Skynet Cable Network Private Limited). The demerger has enabled a focused attention on the ISP business and achieve structural and operational efficiency, enhanced competitiveness and greater accountability besides accelerating value creation for shareholders.

Merger/Demerger of Subsidiaries

Den Futuristic Cable Networks Private Limited ("Den Futuristic"), a wholly owned subsidiary of the Company had filed a composite scheme of arrangement during the financial year 2016-17 for merger of 23 subsidiaries and demerger of cable business of Amogh Broad Band Services Private Limited ("Amogh Broad band") (another wholly owned subsidiary Company of Den) into DEN Futuristic. The Honorable National Company Law tribunal vide its order dated 16th August, 2017 has approved merger of 23 subsidiary Companies and demerger of cable business of Amogh Broad Band. The Company's expecting that the merger and demerger will facilitate operational synergies, which in turn eliminate inefficiencies and streamline corporate structures and cash flows. It is also expected that a single entity will result in better centralized management and oversight, cost efficiencies and supporting the group's competitive growth.

Den Ambey Cable Networks Private Limited ("Den Ambey") had filed a composite scheme of arrangement during the financial year 2017-18 under section 233 of the Companies Act, 2013 for merger of its eight wholly owned Subsidiary Companies with Den Ambey. Den is holding 61% equity stake in Den Ambey. Den Ambey has received order of the Honorable Regional Director, Northern region dated 06th July, 2018 for merger of its wholly owned subsidiaries into Den Ambey.

Soccer:

During the financial year 2017-18, the Company sold its remaining 19.29% (approx.) to Wall Street Investments Limited. With this the Company has completely exited from the soccer business in order to focus on the core business of Cable and Broadband. The Company had acquired the 'Delhi Dynamos FC' team of the Indian Super League, a soccer league in India in 2014.

MANAGEMENT DISCUSSION & ANALYSIS

Global Economy & Indian Media and Entertainment Industry

World growth strengthened in 2017 to 3.8 percent, with a notable rebound in global trade. It was driven by an investment recovery in advanced economies, continued strong growth in emerging Asia, a notable upswing in emerging Europe, and signs of recovery in several commodity exporters. As per the International Monetary Fund, global growth is expected to tick up to 3.9 percent this year and next, supported by strong momentum, favorable market sentiment and accommodative financial conditions.

Reciprocating the global condition, Indian economy also witnessed robust performance during financial year 17-18. Retail inflation was lowest in almost four decades. Several reforms such as the Goods and Services Tax (GST), and the Insolvency and Bankruptcy Code were also implemented. The World Bank forecasts India to grow by 7.5% in 2019.

India's huge jump of 30 notches in World Bank's Ease of doing business rank indicates that the reform measures of the current Government are finally bearing fruits. India's rank stands at 100 for 2018 compared to 130 last year. This development should help attract more FDI inflows and impact GDP growth positively.

The World Bank has stated that private investments in India is expected to grow by 8.8 percent in FY 2018-19 thereby driving the growth in India's gross domestic product (GDP) in FY 2018-19. Further, India revised its fiscal deficit projection at 3.5 per cent for FY 18 and at 3.3 per cent of the GDP for FY 19.

The Indian M&E sector reached Rs 1.5 trillion (USD 22.7 billion) in 2017, a growth of almost 13 per cent over 2016. It is expected to cross Rs. 2 trillion (USD 31 billion) by 2020, at a CAGR of 11.6 per cent.

The TV Industry

Television Subscriber Base

Of the estimated 286 million households in India, TV penetration reached 64%, taking the total number of TV viewing households to 183 million in 2017, which is a 3.5% growth over 2016. As per BARC, 83% of the total TV households were paid subscribers.

(Subscribers in Million)

Digitisation

Digitisation led to increased collections from end customers, across all DAS markets. Increased collections from end customers have resulted in an increase in revenue received by MSOs and broadcasters.

With digitisation, transparency has increased and it has also brought in increased clarity on number of active consumers with each LCO. MSO collections from digitised LCOs in DAS I DAS II markets now ranges from Rs 80 to Rs 140 per subscriber per month.

Fixed Line Broadband Services

India has internet user base of 493.96 million as on March 2018 (as per TRAI performance indicator report, Jan-Mar 2018), out of which 21.24 million subscribers are Wired Internet Subscribers, which is 4.3% of total users.

(Internet Users in Million)

The pan India reach of MSOs represents an opportunity for the industry to tap into the rapidly growing needs of customers in terms of high speed connectivity and huge data consumption

Regulatory Environment

TV Tariff order

TRAI had released the Telecommunication (Broadcasting and Cable) Services (Eighth) (Addressable Systems) Tariff Order, 2017, which has come into force on July 3, 2018.

TRAI has mandated a new pricing mechanism for TV content whereby an MRP for each channel needs to be determined as well as "fixed fees" for MSOs for providing distribution platform is defined. The consumer would be required to pay slabwise for bundle of channels chosen. This is a significant change compared to the previous regime where broadcasters and distributors were allowed to price their channels differently for different customers. Along with the "must provide" rule which restricts the broadcaster from selling content to distributors, the order aims to enable a level playing field for cable & DTH companies. The order, once implemented, is expected to bring both topline & bottomline growth to the company.

Company Overview

DEN Networks is India's leading media & entertainment Company engaged in providing Cable TV, Broadband & OTT (Over-the-Top) Content. The company has one of the largest subscriber base amongst Cable TV players in India as it reaches households in 500+ cities across 13 key states.

DEN Broadband provides high speed broadband internet services of up to 100 Mbps speed using DOCSIS 3.0 and GPON technology, majorly in DELHI & NCR and across Uttar Pradesh, Haryana, Rajasthan and Kerala.

DEN's OTT App, DEN TV+ is an online video-streaming mobile app which provides 130 Live TV channels, 2500+ movies and recorded video content, including popular TV shows, devotional content, lifestyle content etc.

Highlights of the year:

a) Credit Rating Upgrade

DEN Network has received an upward revision in credit rating from credit agency firm ICRA in the financial year 2017-18 for its long-term and short term line of credit or debt instruments.

As per the ICRA report dated 15th Dec 2017, the upgrade in rating favorably factor in the improvement in DEN's operation and financial performance over the past six quarters backed by healthy collection efficiency and monetization (in terms of average revenue per user i.e. ARPU upswing) of phase-III and IV digital subscriber base that has supported improvement in profitability and exit from loss incurring non-core businesses. It further states that as significant part of the investment is over, the debt levels of the company have also reduced as monetization has started.

Instrument	Existing Credit Rating as of 14 th Dec'17	Revised Credit Rating w.e.f. 15 th Dec '17
Fund Based – Term Loans	ICRA A- (Stable)	ICRA A (Stable) upgraded
Fund Based – Working Capital Facilities	ICRA A- (Stable)	ICRA A (Stable) upgraded
Non Fund Based – Working Capital Facilities	ICRA A2+	ICRA A1 upgraded
Unallocated Limits	ICRA A- (Stable) / ICRA A2+	ICRA A (Stable) / A1 upgraded

b) Awards & Accolades

DEN Networks has topped the list of **“Most Attractive Brands 2017”** in the cable segment. ‘Most Attractive Brands’ is an annual study conducted by Trust Research Advisory (TRA) Research based on a primary research conducted across 16 Indian cities.

DEN Networks Limited has been awarded as the **“Most Outstanding MSO 2017-18”** and **“Outstanding MSO**

providing Technology & Services” in **BCS Ratna Awards 2018** by Aavishkar Media Group.

Strategic Initiatives:

a) Outstanding MSO providing Technology & Services

DEN has always been committed to innovate and provide futuristic products and services to its subscribers. After setting foot into OTT segment last year, DEN continues to provide all New-to-the-market, technology advanced services.

DEN has recently launched its premium, 4K Android Internet TV box, which will provide unified TV entertainment across Cable and Internet. DEN is the first MSO to launch features like voice search for browsing through channels and other content. The Internet TV box also provides hi-graphics games which use smartphones as gamepad, apart from other Wi-Fi enabled joysticks. It also enables the user to use smart phones as remote controls and enables content sharing between mobile phone and TV. Using Wi-Fi and Bluetooth, this will integrate with IoT devices and act as a home gateway across all devices to create smart homes.

With this offering, DEN becomes the first MSO to provide 4K services.

b) Expansion of “Hi-Speed Fixed Line Broadband” Internet services to 100 Cities in the FY 2019: Leverages its existing cable infrastructure across India.

DEN Broadband, with the vision of enabling wired broadband access to its 1.1 Crore digital cable Homes by 2021 by leveraging

existing Cable TV infrastructure, announced the expansion of its hi-speed internet services to 100 cities across India by 2019.

After receiving an encouraging response to the pilot project in five cities, DEN has already started its first phase of expansion in 15 cities.

DEN's expansion plan is in sync with the massive growth in the internet consumption in the country. Data usage in India has already jumped 144 per cent (y-o-y) with average consumption per user in 4G Broadband reaching 11GB per month. While India globally ranks 67th in fixed broadband speeds with an average download speed of 20.72 Mbps, mobile broadband speeds still lags at 109th rank with an average download speed of 9.01 Mbps, as per Ookla's speedtest Global Index, Feb 2018 report.

DEN intends to tap into this high-potential market by capitalising on its existing Cable TV infrastructure and providing hi-speed fixed broadband internet. With speeds up to 1Gbps at affordable prices, DEN Broadband will cater to the future needs of existing Internet users while penetrating further into the untapped markets. Currently, about 6% of Indian households have a fixed broadband connection in a market of 286 million households.

Fixed Line Broadband Penetration in India:

DEN has an edge over others as its fiber cable infrastructure is already present across 13 major Indian states with a reach of over 11 million subscribers' homes. DEN plans to roll out through a franchisee model, which will leverage its strength as a leading national MSO with an established on-ground Cable LMO network to usher in a broadband revolution in the entire country. Its 14,000+ LMO network would use its technology while adhering to the operational standards set by DEN. Being the franchisor, DEN will bill the subscribers and collect tariffs from them directly. The franchisee would get paid based on the terms of their agreement and size of their investment.

c) Join hands with BARC India for RPD: Move to boost TV viewership measurement

TV viewership measurement in India is set to get a boost. In a major development, DEN has partnered with BARC India for measuring TV viewership using Return Path Data (RPD) via its digital set top boxes (STBs).

As part of this partnership, BARC India will fetch data from STBs of DEN Networks. DEN networks will use this data for

subscriber management, packaging opportunities and to drive advertising revenue on their in-house channels.

Data gathering and analytics is becoming increasingly relevant in a vast and heterogeneous society like India. With this partnership, DEN has taken the first steps towards world class data analytics of subscriber viewing patterns which will help us to serve customers in a far more effective way and enable us to offer personalized services.

Cable Business

DEN Networks has been a frontrunner in the digitization of Indian cable television and has over 11.3 million digital subscribers.

DEN's geographic footprint spans 13 key states across India including Delhi, Uttar Pradesh, Karnataka, Maharashtra, Gujarat, Rajasthan, Haryana, Kerala, West Bengal, Jharkhand, Madhya Pradesh, Uttarakhand and Bihar. The company has a significant presence in the strategic & economically important Hindi Speaking Markets (HSM) belt. In Phase-1 and 2, we had flagged off the packaging exercise. We have just completed a two-pack pricing structure that is now fully established in most of our Phase-1 and Phase-2 markets. DAS Phase 3 has also begun in a phased manner.

Total Digital Subscribers (Million)

DEN seeded additional 0.8 million STBs in FY'17-18. This takes the digital subscribers base of the company to 11.3 million at the end of FY'17-18.

Cable – Financial Highlights:

Cable business revenues increased in FY'18 to INR 1,210 Crore from INR 1,076 Crore in last year. Subscription income contributed 55% of total revenues (including activation) in FY'18 compared to 51% in FY'17.

The detailed breakup of revenues is as below:

Details	FY'17	FY'18	% Change
Subscription	544	667	22%
Placement	351	345	-2%
Others*	181	198	7%

EBITDA for the cable business increased to INR 284 crores in FY18 compared to INR 194 crores in FY17.

* Others include TV commerce business which was divested.

Broadband Business

DEN broadband services achieved 913K homes passed as on 31 March 2018. Over the course of the year, the operating cost has reduced substantially as we have taken a number of re-engineering and procurement related initiatives to optimize cost.

The company currently has subscriber base of 1,06,559 broadband subscribers at the end of FY'17-18 and more than half of them come from non-DEN cable homes. On the usage front we have seen a substantial jump in data consumption as well as speed adoption. We will continue to work towards the profitability of the broadband business through a combination of initiatives on the revenue side as well as optimizing the operating costs.

Broadband – Financial Highlights

Broadband business revenues has marginally decreased in FY'18, to INR 75 Crore from INR 82 Crore in last year majorly due to reduction in ARPU.

As a result of the initiatives implemented as detailed above, the company was able to breakeven in terms of operational profit during the FY 2017-18.

EBITDA losses have narrowed down from INR 9 crores in FY 2016-17 to INR 1 crores in FY 2017-18.

SCOT Analysis

Strengths

- ▲ One of the largest Cable MSOs in India
 - Serving more than 6.16% of TV homes in India
 - Dominant Player in Key Phase 1 and 2 Markets
 - Deployed 11.3 mn boxes as on 31 March 2018.
- ▲ Integrated service and product portfolio covering cable and data (broadband)
- ▲ Skilled workforce, the best in the industry and experienced management team

Challenges

- ▲ Poor Infrastructure in Phase 3 and 4 Markets pushing costs of operations
 - Continuously innovating and investing in greater reach
- ▲ Increasing capex network costs
 - Continuously upgrading network infrastructure
- ▲ Large number of subsidiaries to manage
 - Corporate simplification exercise is under progress

Opportunities

- ▲ The company is focused on enhancing the monetization of DAS 3 & 4 boxes significantly.
- ▲ Increasing ARPU by packaging & higher monetization of boxes in DAS 1/ 2 markets.
- ▲ Increasing Cable TV Penetration and deploying HD boxes across Territories to enhance customer experience and ARPU

- ▲ Launch of online / live streaming services (DEN TV+)
- ▲ TRAI Tariff order – this will be a real game changer for the cable industry.
- ▲ Untapped fixed broadband market in India
 - Low Fixed Broadband Penetration in India (~6% of total homes)
 - Rapid expansion planned in Tier II cities during 2018-19

Threats

- ▲ Increasing Competition
 - New players' entry in Cable services
 - Positive for the sector as new players foresee the inherent potential in the sector. The overall penetration should improve increasing the overall market size.
 - In order to gain last mile connectivity by the new entrants, significant investments will be needed in terms of both time and money
- ▲ DTH Players to offer stiff competition in Phase 3 and 4 Markets
- ▲ Competition from Telecom/other Companies for Broadband Services
- ▲ Increase in content costs by Broadcasters
 - TRAI tariff order will have a positive impact

Consolidated Financial Highlights

Consolidated revenues increased by INR 128 Crore in the year to reach INR 1,285 Crore for the year ended 31 March 2018. The Increase in revenues was primarily on account of growth in subscription revenue by 22% in comparison of FY'16-17 and increase in activation revenue by 38% in comparison of previous year.

Consolidated EBITDA grew by 55% to INR 283 Crore in FY'17-18 in comparison of INR 183 Crore in FY'16-17.

Liquidity and Funding

As on 31 March 2018, the Group had cash and cash equivalents of INR 384 Crore. During the year ended 31 March 2018, the Group generated operating cash flow of INR 167 Crore.

HUMAN RESOURCE MANAGEMENT

This year, the Human Resource function witnessed immense change in its role, diversifying into something more than a function working towards employee motivation and efficiency, organizational culture and recruitment. While these roles still held major priority, what held precedence over all else was addressing issues concerning employees and dealing with them through strategic planning without added monetary burden to the organization, striving to focus on cost-optimization with an objective to reduce the attrition rate.

The team took up three major initiatives to gauge areas of concerns of employees, viz., Comfort Check, DNA (Define, Nurture, Apply) and

Exit Interviews.

While Comfort Check is used to study where new employees of the organization are facing issues, areas of improvement etc. through a survey, the Exit interview brings forward various issues causing attrition in the organization. Post-implementation of this simple practice, we came across multiple issues which weren't just mundane issues. The DNA analysis is, on the other hand, a study done through one-on-one meetings with individual employees who are currently a part of the systems to hear their concerns, which have been grouped into various categories, based on which frequency of each category is analyzed.

Each of these studies is reviewed and a strategic resolution plan is devised for each time-frame and the concern is addressed in the best possible approach.

Besides addressing concerns, development of skills of employees was focused on. Internal talent grooming, in not just technical and field related knowledge, but also training skills were taken care of, through DEN Academy. The objective of this initiative is to prepare employees for future leadership roles through an internal knowledge-sharing platform. Where skill updation is concerned, an MoU was signed with "Schoolguru", an online platform that provides higher education and certified courses' options at high discounts from government recognized universities.

To bring forward the employees with a flair for writing, "Transcend", DEN's in-house magazine was released. This doesn't only include written pieces from employees, it also comprises of relevant articles that everyone can relate to and apply in their day-to day routines.

A major initiative and a huge success amongst the employees was the "Rewards and Recognition" ceremony, organized to highlight stellar performances of the year. Achievers from across the country were felicitated by the honorable CMD and CEO followed by a lunch with the Senior Management team.

Also providing a comprehensive remuneration policy, in consonance with existing industry standards along with recognition and rewards programs, HR strived to provide ample opportunities for each employee's career growth and job enrichment.

As always, each employee's wellness was dealt with prime importance, to ensure which, multiple health camps, incurring no cost to the company or the employees were organized as part of routine engagement activities. We ensured that a different aspect of health was taken up every month, in partnership with reputed medical institutions for an enhanced overall wellbeing of all employees.

Constantly striving to better the efficiency and prominence of the HR function, based on past trends and needs of the organization and the industry, this was the journey of DEN HR this year.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2018, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on 31 March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial

controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "ANNEXURE A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements. Refer Note 29(b) to the standalone Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses. Refer Note 45 to the standalone Ind AS financial

statements.

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company. Refer Note 48 to the standalone Ind AS financial statements.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"/"CARO 2016") issued by the Central Government in terms of Section 143(11) of the Act, we give in "ANNEXURE B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

“ANNEXURE A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **DEN NETWORKS LIMITED** (“the Company”) as of 31 March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient

and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT
(Referred to in paragraph 2 under ‘Report on Other Legal and
Regulatory Requirements’ section of our report of even date)**

- (i) In respect of its property, plant and equipment:
- The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
 - The Company has a program of verification of property, plant and equipment to cover all items in a phased manner over a period of three years other than set top boxes, which are in possession of customers/ third parties and distribution equipment comprising overhead and underground cables. Management is of the view that it is not possible to physically verify these assets due to their nature and location. Pursuant to the program, certain property, plant and equipment were physically verified by the management during the year. According to the information and explanations given to us, the existence of set top boxes is verified on the basis of the ‘active user’ status in the system. No material discrepancies were noticed on such verification.

In our opinion, other than for physical verification of set top boxes and distribution equipment referred to above, the frequency of verification of property, plant and equipment is reasonable having regard to the size of the Company and the nature of its assets.
 - The Company does not have any immovable properties of freehold or leasehold land and building and hence reporting under clause (i)(c) of the CARO 2016 is not applicable.
- (ii) As explained to us, the inventories were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed on physical verification.
- (iii) According to the information and explanations given to us, the Company has granted unsecured loans to companies covered in the Register maintained under Section 189 of the Companies Act, 2013, in respect of which:
- The terms and conditions of the grant of such loans are, in our opinion, prima facie, not prejudicial to the Company’s interest.
 - The schedule of repayment of principal and payment of interest has been stipulated and repayments or receipts of principal amounts and interest have been regular as per stipulations.
 - There is no amount overdue for more than 90 days at the balance sheet date.

The Company has not granted any secured loans to companies and secured or unsecured loans to firms, Limited Liability Partnerships or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with

the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.

- (v) According to the information and explanations given to us, the Company has not accepted any deposits from the public. The Company does not have any unclaimed deposits and accordingly the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 are not applicable to the Company.
- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended and the Cost Records and Audit (Telecommunication Industry) Rules prescribed by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income-tax, Goods and Services Tax, Sales Tax, Service Tax, Customs Duty, Value Added Tax, Cess and other material statutory dues applicable to it to the appropriate authorities. According to the information and explanations given to us, the Company’s operations did not give rise to any Excise Duty.
 - There were no undisputed amounts payable in respect of Provident Fund, Employees’ State Insurance, Income-tax, Goods and Services Tax, Sales Tax, Service Tax, Customs Duty, Value Added Tax, Cess and other material statutory dues in arrears as at 31 March, 2018 for a period of more than six months from the date they became payable other than the dues related to entertainment tax, the details of which are given below:

NOTES TO THE FINANCIAL STATEMENTS

DEN NETWORKS LIMITED

NOTES TO THE FINANCIAL STATEMENTS

1. Corporate information

DEN NETWORKS LIMITED (hereinafter referred to as 'the Company' or 'DEN') was incorporated in India on 10 July, 2007 and is primarily engaged in distribution of television channels through digital cable distribution network. The Company is having its registered office at 236, Okhla Industrial Area, Phase III, New Delhi - 110020.

The Company changed its status from a Private Limited Company to a Public Limited Company on 15 April, 2008 thereby changing its name to DEN Digital Entertainment Networks Limited. Subsequently, the Company changed its name to DEN Networks Limited on 27 June, 2008. The equity shares of the Company are listed on two of the stock exchanges in India i.e. National Stock Exchange and Bombay Stock Exchange.

During the financial year 2013-14, the Company had raised funds of Rs. 9,608.22 million by way of Qualified Institutional Placement (QIP) and Preferential Issue of equity shares. Further, during the previous year, the Company had raised Rs. 1,424.34 million by way of Preferential Issue of equity shares.

2. Significant accounting policies

2.01 Basis of preparation

(i) Statement of Compliance

The standalone Ind AS financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. Effective April 1, 2016, the Company had adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with April 1, 2015 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Basis of preparation and presentation

The standalone Ind AS financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 Share based payments, leasing transactions that are within the scope of Ind AS 17 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the assets or liability.

2.02 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition) and highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.03 Cash flow statement

Cash flows are reported using indirect method, whereby Profit/(loss) after tax reported under Statement of Profit and loss is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on available information.

NOTES TO THE FINANCIAL STATEMENTS

2.04 Property, plant and equipment

All the items of property, plant and equipment are stated at historical cost net of cenvat credit less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful life is taken in accordance with Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Useful lives of tangible assets

Estimated useful life of the tangible assets are:

a.	Headend and distribution equipment	6 -15 years
b.	Set top boxes (STBs)	8 years
c.	Computers	6 years
d.	Office and other equipment	3 years
e.	Furniture and fixtures	3 to 10 years
f.	Vehicles	6 years
g.	Leasehold improvements	Lower of the useful life and the remaining period of the lease.
h.	Property, plant and equipment acquired through business purchase 5 years as estimated by an approved valuer	

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying

amount of the asset and is recognised in profit or loss.

Transition to Ind AS

The Company had elected to continue with the carrying value of all of its property, plant and equipment recognised as of 1 April, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.05 Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Distribution network rights and non compete fees represents amounts paid to local cable operators/distributors to acquire rights over a particular area for a specified period of time. Other intangible assets includes software.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Estimated useful life of the intangible assets are:

a.	Distribution network rights	5 years
b.	Software	5 years
c.	Non compete fees	5 years

Transition to Ind AS

The Company had elected to continue with the carrying value of all of its intangible assets recognised as of 1 April, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.06 Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the

NOTES TO THE FINANCIAL STATEMENTS

recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.07 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

i. Rendering of services

1. Service revenue comprises subscription income from digital subscribers, placement of channels, advertisement revenue, fees for rendering management, technical and consultancy services and other related services. Income from services is recognised upon completion of services as per the terms of contracts with the customers. Period based services are accrued and recognised pro-rata over the contractual period.
2. Activation fees on Set top boxes (STBs) is deferred and recognised over the period of customer relationship on activation of boxes.
3. Amounts billed for services in accordance with contractual terms but where revenue is not recognised, have been classified as advance billing and disclosed under current liabilities.

ii Sale of goods (equipment)

Revenue from the sale of goods is recognised when the goods are delivered and the titles have passed, at which time all the following conditions are satisfied:

- a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- c) the amount of revenue can be measured reliably
- d) it is probable that the economic benefits associated with the transaction will flow to the Company; and
- e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.08 Other income

Dividend income and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial assets is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.09 Share-based payment arrangements

Share-based payment transactions of the Company

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 37.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

NOTES TO THE FINANCIAL STATEMENTS

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

For cash-settled share-based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in profit or loss for the year.

2.10 Foreign Currencies

The functional currency for the Company is determined as the currency of the primary economic environment in which it operates. For the Company, the functional currency is the local currency of the country in which it operates, which is INR.

In preparing the standalone Ind AS financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Treatment of exchange differences

The exchange differences on monetary items are recognised in Profit or Loss in the period in which they arise.

2.11 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Investment in subsidiaries

A subsidiary is an entity controlled by the Company. Control exists when the Company has power over the entity, is exposed, or has rights to variable returns from its

involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Investments in subsidiaries are carried at cost less impairment. Cost comprises price paid to acquire the investment and directly attributable cost.

Investment in joint ventures and associates

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The investment in joint ventures and associates are carried at cost less impairment. The cost comprises price paid to acquire the investment and directly attributable cost.

Transition to Ind AS

The Company had elected to continue with the carrying value of all of its equity investments in subsidiaries, associates and joint venture as of 1 April, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial

NOTES TO THE FINANCIAL STATEMENTS

recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of

selling it in the near term; or

- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, lease receivables, trade receivables and other contractual rights to receive cash or other financial assets and financial guarantees not designated as at FVTPL.

For trade receivables or any contractual right to receive cash or another financial assets that result from transactions that are within the scope of Ind AS 11 Construction Contracts and Ind AS 18 Revenue, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has

NOTES TO THE FINANCIAL STATEMENTS

used a practical expedient as permitted under Ind AS 109 Financial Instruments. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

2.12 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

a) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 Business Combinations applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 Business Combinations applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition

NOTES TO THE FINANCIAL STATEMENTS

inconsistency that would otherwise arise;

- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 Financial Instruments permits the entire combined contract to be designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

b) Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial

recognition.

c) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income'.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss.

d) Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between liabilities with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.13 Employee benefit costs

Retirement benefits costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions:

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- a. service cost (including current service cost, past service cost, as well as gains and losses on curtailments and

NOTES TO THE FINANCIAL STATEMENTS

settlements);

- b. net interest expense or income; and
- c. remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

- If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).
- If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the Company reduces service cost by attributing the contributions to periods of service using the attribution method required by Para 70 of

Ind AS 19 Employee Benefits for the gross benefits. For the amount of contribution that is independent of the number of years of service, the Company reduces service cost in the period in which the related service is rendered / reduces service cost by attributing contributions to the employees' periods of service in accordance with Para 70 of Ind AS 19 Employee Benefits.

2.14 Segment information

The Company determines reportable segment based on information reported to the Chief Operating Decision Maker (CODM) for the purposes of resource allocation and assessment of segmental performance. The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the standalone Ind AS financial statements are consistently applied to record revenue and expenditure in individual segments.

2.15 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Company as lessor :

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Company's net investment outstanding in respect of the leases.

The Company as lessee :

Assets held under finance leases are initially recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the standalone Ind AS financial statements as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company general policy on borrowing costs.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are

NOTES TO THE FINANCIAL STATEMENTS

incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.16 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.17 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of exceptional items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of exceptional items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for employee share options and bonus shares, if any, as appropriate.

2.18 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported

in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the standalone Ind AS financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other

NOTES TO THE FINANCIAL STATEMENTS

comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.19 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.20.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.20.2 Restructurings

A restructuring provision is recognised when the Company has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the entity.

2.20.3 Contingent liabilities acquired in a business combination

Contingent liabilities (if any) acquired in a business combination are initially measured at fair value at the acquisition date. At the end of subsequent reporting periods, such contingent liabilities are measured at the higher of the amount that would be recognised in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortisation recognised in accordance with Ind AS 18 Revenue.

2.20 Share issue expenses

Share issue expenses are adjusted against the Securities Premium Account as permissible under Section 52 of the Companies Act, 2013, to the extent any balance is available for utilisation in the Securities Premium Account. Share issue expenses in excess of the balance in the Securities Premium Account, if any is expensed in the Statement of Profit and Loss.

2.21 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.22 GST input credit

GST input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing/ utilising the credits

2.23 **Critical accounting judgements and key sources of estimation uncertainty**

Critical accounting judgements

The following are the critical judgements, apart from those involving estimations that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Contingent liabilities

Assessment of whether outflow embodying economic benefits is probable, possible or remote. (See note 29)

Control and significant influence

Whether the Company, through voting rights and potential voting rights attached to shares held, or by way of shareholders agreements or other factors, has the ability to direct the relevant activities of the subsidiaries, or jointly direct the relevant activities of its joint ventures or exercise significant influence over associates. (See note 4)

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Useful lives of property, plant and equipment (see note 2.04)

The Company reviews the estimated useful lives of property, plant and equipment at the end of each reporting period. There is no such change in the useful life of the assets.

Fair value measurements and valuation processes (see note 2.11)

In estimating the fair value of an asset or liability, the Company uses market-observable data to the extent it is available.

NOTES TO THE FINANCIAL STATEMENTS

Where level 1 inputs are not available, the Company engages third party qualified valuers to perform the valuation. The management works closely with qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

Defined benefit obligations

Key assumptions related to life expectancies, salary increases and withdrawal rates (see note 34).

Revenue recognition (see note 2.07)

Impairment testing of investments (see note 2.11)

Key assumptions related to weighted average cost of capital (WACC) and long-term growth rates.

2.24 Operating Cycle

Based on the nature of activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.25 Recent accounting pronouncements

As set out below, amendments to standards are effective for annual periods beginning on or after 1 April, 2018 and have not been applied in preparing these standalone Ind AS financial statements.

Amendment to Ind AS 21, The Effects of Changes in Foreign Exchange Rates

The amendment to Ind AS 21 applies when a company pays or receives consideration denominated or priced in foreign currency and recognises a non-monetary prepayment asset or deferred income liability before recognising the related item at a later date.

The amendment is effective for accounting periods beginning on or after 1 April, 2018. The Company is evaluating the requirements of amendment to Ind AS 21 and its effect on the standalone Ind AS financial statements.

Introduction of Ind AS 115, Revenue from Contracts with Customers

Ministry of Corporate affairs has notified Ind AS 115 'Revenue from Contracts with customers', which is effective from 1 April, 2018. The new standard outlines a single comprehensive control-based model for revenue recognition and supersedes current revenue recognition guidance based on risks and rewards. The Company is evaluating the requirements of Ind AS 115 and its effect on the standalone Ind AS financial statements.

Amendments to Ind AS 28 Investments in Associates and Joint Ventures – Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice

The amendments clarify that:

- An entity that is a venture capital organisation, or

other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss.

- If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

The amendments should be applied retrospectively. The Company is evaluating the requirements of amendments to Ind AS 28 and its effect on the standalone Ind AS financial statements.

Amendment to Ind AS 12 - Recognition of deferred tax assets for unrealised losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount. Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact. These amendments are effective for annual periods beginning on or after 1 April, 2018. The Company is evaluating the requirements of amendment to Ind AS 12 Income Taxes and its effect on the standalone Ind AS financial statements.

Amendments to Ind 112 - Disclosure of interests in other entities: Clarification of the scope of disclosure requirements in Ind AS 112

The amendments clarify that the disclosure requirements in Ind AS 112, other than those in paragraphs B10–B16, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale. The Company is evaluating the requirements of amendment to Ind AS 112 and its effect on the standalone Ind AS financial statements.

Notes:

- The average credit period on sales of services is 0-180 days. No interest is charged on any overdue trade receivables.
- The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing	Expected credit loss (%)
0 - 90 days	0.1%-5%
91 - 180 days	1%-100%
180 days and above	50%-100%

34. Employee benefit plans

(i) Defined contribution plans

The Company operates defined contribution retirement benefit plans for all its qualifying employees. Where employees leave the plans prior to full vesting of the contributions, the contributions payable by the Company are reduced by the amount of forfeited contributions.

The total expense recognised in profit or loss of Rs. 25.61 million (for the year ended 31 March, 2017: Rs. 28.91 million) for provident fund contributions and Rs. 1.08 million (for the year ended 31 March, 2017: Rs. 0.46 million) for Employee State Insurance Scheme contributions represents contributions payable to these plans by the Company at rates specified in the rules of the plans. As at 31 March, 2018, contributions of Rs. 5.08 million (as at 31 March, 2017: Rs. 5.45 million, as at 1 April, 2016: Rs. 6.52 million) due in respect of 2017-2018 (2016-2017) reporting period had not been paid over to the plans. The amounts were paid subsequent to the end of the respective reporting periods.

(ii) Defined benefit plans

Gratuity plan

Gratuity liability arises on retirement, withdrawal, resignation, and death of an employee. The aforesaid liability is calculated on the basis of 15 days salary (i.e. last drawn salary plus dearness allowance) for each completed year of service or part thereof in excess of 6 months, subject to a maximum of Rs. 2 million (previous year Rs. 1 million) Vesting occurs upon completion of 5 years of service.

The present value of the defined benefit obligation and the related current service cost are measured using the Projected Unit Credit method with actuarial valuations being carried out at each balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS

The gratuity plan typically exposes the Company to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest risk	A decrease in the bond interest rate will increase the plan liability.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees

In respect of the plan in India, the most recent actuarial valuation of the present value of the defined benefit obligation was carried out as at 31 March, 2018 by Charan Gupta Consultants Private Limited, Fellow of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

a) The principal assumptions used for the purposes of the actuarial valuations were as follows.

Particulars	Valuations as at		
	31.03.2018	31.03.2017	01.04.2016
Discount rate(s)	7.71%	7.54%	8.00%

Average longevity at retirement age for current employees (future beneficiaries of the plan) (years)	19.64	20.18	21.96
Retirement age (years)	58	58	58
Mortality Table	IALM (2006 08)	IALM (2006 08)	IALM (2006 08)
Withdrawal Rates	In %	In %	In %
Upto 30 years	3.00	3.00	3.00
From 31 years to 44 years	2.00	2.00	2.00
Above 44 years	1.00	1.00	1.00

The following tables set out the unfunded status of the defined benefit scheme and amounts recognised in the Company's standalone Ind AS financial statements as at 31 March, 2018:

b) Amounts recognised in Statement of Profit and Loss in respect of these defined benefit plans are as follows:

Particulars	(Rs. in million)	
	Year ended	
	31.03.2018	31.03.2017

Total	8.93	8.07

The current service cost and the net interest expense for the year are included in the employee benefits expense line item in the Statement of Profit and loss.

The remeasurement of the net defined benefit liability is included in other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

- c) The amount included in the Balance Sheet arising from the entity's obligation in respect of its defined benefit plans is as follows.

Particulars	(Rs. in million)		
	31.03.2018	31.03.2017	01.04.2016
Present value of funded defined benefit obligation	56.80	52.03	49.37
Fair value of plan assets	-	-	-
Net liability arising from defined benefit obligation	56.80	52.03	49.37
- Current portion of the above	0.94	0.79	1.10
- Non current portion of the above	55.86	51.24	48.27

- d) Movements in the present value of the defined benefit obligation are as follows:

Particulars	(Rs. in million)	
	31.03.2018	31.03.2017
Opening defined benefit obligation	52.03	49.37
Current service cost	8.21	8.91
Interest cost	3.92	3.95
Remeasurement (gains)/losses:		
- Actuarial gains and losses arising from experience adjustments	(1.11)	2.63
- Actuarial (gains) / losses arising from experience adjustments	(3.55)	(7.42)
Past service cost, including losses/(gains) on curtailments	1.46	-
Benefits paid	(4.16)	(5.41)
Closing defined benefit obligation	56.80	52.03

- e) Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- If the discount rate is 50 basis points higher (lower), the defined benefit obligation would decrease by Rs. 3.11 million (increase by Rs. 3.38 million) [as at 31 March, 2017: decrease by Rs. 2.9 million (increase by Rs. 3.11 million)] [as at 1 April, 2016: decrease by Rs. 3.32 million (increase by Rs. 3.34 million)].
- If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligation would increase by Rs. 3.04 million (decrease by Rs. 2.85 million) [as at 31 March, 2017: increase by Rs. 3.08 million (decrease by Rs. 2.90 million)] [as at 1 April, 2016: increase by Rs. 3.37 million (decrease by Rs. 3.43 million)].

"The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

- The average duration of the benefit obligation represents average duration for active members at 31 March, 2018: 16.01 years (as at 31 March, 2017: 16.40 years; as at 1 April, 2016: 17.34 years).
- The Company expects to make a contribution of Rs. 13.20 million (as at 31 March, 2017: Rs. 13.70 million; as at 1 April, 2016: Rs. 19.28 million) to the defined benefit plans during the next financial year.
- The discount rate is generally based upon the market yields available on Government bonds at the accounting date with a term that matches that of the liabilities.
- The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.
- The gratuity plan is unfunded.
- Experience on actuarial gain/(loss) for benefit obligations :

A. Employee Stock Option Plan 2010 ("ESOP 2010")

a) Details of the employee share option plan of the company

The weighted average fair value of the share options granted under ESOP 2010 during the financial year is Rs. 38.97 (during the year ended 31 March, 2017: Rs. 29.11). Options were priced using Black Scholes model.

The Company had established an Employee Stock Option Plan (ESOP 2010) in accordance with the "Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014" and "the Securities and Exchange Board of India (Share Based Employee Benefits) (Amendment) Regulation, 2015", which has been approved by the Board of Directors and the shareholders. A Nomination and Remuneration / Compensation Committee comprising majority of independent, non-executive members of the Board of Directors administers the ESOPs. All options under the ESOPs are exercisable for equity shares. The Company had taken approval of the Shareholders to grant and allot upto 5,219,599 equity options under the said scheme. The total outstanding options under the scheme are 482,500 equity options.

There shall be a minimum period of one year between the grant of options and vesting of options. The vesting shall happen in one or more tranches as may be decided by the Nomination and Remuneration / Compensation Committee. The exercise period of the options is a period of one year after the vesting of the options. Each option is exercisable for one equity share of Rs. 10 each fully paid up on payment of exercise price (as determined by the Nomination and Remuneration / Compensation Committee) of share determined with respect to the date of grant.

As per approval of the shareholder, the Company may issue options to employees of the Company/ subsidiaries/ directors of the subsidiaries.

Each employee share option converts into one equity share of the Company on exercise. No amounts are paid or payable by the receipt of the option. The options carry neither rights to dividend nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

During the year ended 31 March, 2018, the Nomination and Remuneration/Compensation Committee has granted 100,000 options under Employee Stock Option Plan - 2010 to an eligible employee of the Company.

The following share based arrangements were in existence during the current and prior years :

All options vested on their date of grant and expiry within twelve months of their issue, or one month after the resignation of the executive or senior employee, whichever is earlier.

b) Fair value of share options granted in the year

The vesting shall happen in one or more tranches as may be decided by the Nomination and Remuneration / Compensation Committee. The exercise period of the options is a period of one year after the vesting of the options. Each option is exercisable for one equity share of Rs. 10 each fully paid up on payment of exercise price (as determined by the Nomination and Remuneration / Compensation Committee) of share determined with respect to the date of grant. The Company has granted 4,026,195 options upto 31 March, 2018.

The fair value of the options, calculated by an external valuer, was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

	850,000 Options (Vesting Period -4 Years)				100,000 Options (Vesting Period -1 Year)
	1st Year	2nd Year	3rd Year	4th Year	1st Year
Grant date share price	111.50	111.50	111.50	111.50	105.90

38. Financial Instruments

a) Capital Management

The Company's management reviews the capital structure of the Company on periodical basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital. The Company monitors the capital structure using gearing ratio which is determined as the proportion of net debt to total equity.

The capital structure of the Company consists of net debt (borrowings as detailed in notes 18, 16 and 20 and offset by cash and bank balances and current investments in notes 10, 12, 6 and 13) and total equity of the Company.

The Company sets the amount of capital required on the basis of annual business and long-term operating plans

The funding requirements are met through a mixture of equity, internal fund generation, non-current and current borrowings. The Company's policy is to use non-current and current borrowings to meet anticipated funding requirements.

Interest rate sensitivity analysis on borrowings:

If interest rates had been 100 basis points higher/lower and all other variables were held constant, the Company's losses before tax for the year ended March 31, 2018 would increase/decrease by Rs. 4.65 million (year ended 31 March, 2017: Rs. 5.54 million). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Interest rate sensitivity analysis on fixed deposits:

If interest rates had been 100 basis points higher/lower and all other variables were held constant, the Company's losses before tax for the year ended 31 March, 2018 would decrease/increase by Rs. 1.44 million (year ended 31 March, 2017: Rs. 2.39 million). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

(v) Other price risk

The Company is exposed to price risks arising from fair valuation of Company's investment in mutual funds and preference shares. The investments in mutual fund are held for short term purposes. The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting year.

If prices had been 100 basis points higher/lower, loss before tax for the year ended 31 March, 2018 would decrease/increase by Rs. 5.30 million (for the year ended 31 March, 2017: Rs. 2.67 million) as a result of the changes in fair value of these investments which have been designated as at FVTPL.

49. The composite scheme of arrangement ('the Scheme') amongst DEN NETWORKS LIMITED ('Company') and DEN BROADBAND PRIVATE LIMITED (formerly SKYNET CABLE NETWORK PRIVATE LIMITED) ('DEN Broadband'), a wholly owned subsidiary, which entails transfer of the Internet Service Provider business ("Broadband") of the Company into DEN Broadband, became effective upon issuance of the National Company Law Tribunal, Principal Bench New Delhi order dated 15 September, 2017. The Company filed the said order with the Registrar of Companies, Delhi ('ROC') on 22 September, 2017. In terms of the scheme, DEN Broadband shall settle to the Company an aggregate all-inclusive lump sum consideration of Rs. 40 million without values being assigned to individual assets and liabilities. The consideration has been settled by way of issuance of equity shares.

Pursuant to the Scheme, the Company has given effect to the demerger from the appointed date i.e. 1 April, 2016 and accordingly, the figures for the year ended 31 March, 2017 do not include the operations of Broadband business thereby decreasing the loss after tax by Rs. 405.06 million. Also, the same has been considered as discontinued operations from the appointed date.

In addition, the opening balance sheet as at 1 April, 2016 and the balance sheet as at 31 March, 2017 do not include the assets and liabilities of the demerged entity.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF DEN NETWORKSLIMITED

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of **DEN NETWORKS LIMITED** (hereinafter referred to as "the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), which includes Group's share of loss in its associates, comprising the Consolidated Balance Sheet as at 31 March, 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity, for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Parent's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its Associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Parent, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Parent's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Parent's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraphs (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements/ financial information of the subsidiaries and associates referred to below in the Other Matters paragraph, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March, 2018, and their consolidated loss, consolidated total comprehensive loss, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

**“ANNEXURE A” TO THE INDEPENDENT AUDITOR’S REPORT
(Referred to in paragraph (f) under ‘Report on Other Legal and
Regulatory Requirements’ section of our report of even date)**

**Report on the Internal Financial Controls Over Financial
Reporting under Clause (i) of Sub-section 3 of Section 143 of
the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31 March, 2018, we have audited the internal financial controls over financial reporting of **DEN NETWORKS LIMITED** (hereinafter referred to as “the Holding Company”/“Parent”) and its 111 subsidiary companies and 2 associates, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent, its subsidiary companies and its associates, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent, its subsidiary companies and its associates, which are companies incorporated in

India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies and its associates, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent, its subsidiary companies and its associates, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over
Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Parent and its subsidiary companies and associates which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2018, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to 110 subsidiary companies and 2 associates, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

1. Corporate information

DEN NETWORKS LIMITED (hereinafter referred to as 'the Company' or 'DEN') was incorporated in India on 10 July, 2007 and is primarily engaged in distribution of television channels through digital cable distribution network and provision of broadband services. The Company is having its registered office at 236, Okhla Industrial Area, Phase III, New Delhi - 110020.

The Company changed its status from a Private Limited Company to a Public Limited Company on 15 April, 2008 thereby changing its name to DEN Digital Entertainment Networks Limited. Subsequently, the Company changed its name to DEN Networks Limited on 27 June, 2008. The equity shares of the Company are listed on two of the stock exchanges in India i.e. NSE and BSE.

During the financial year 2013-14, the Company had raised funds of Rs. 9,608.22 million by way of Qualified Institutional Placement (QIP) and Preferential Issue of equity shares. Further, during the previous year, the Company had raised Rs. 1,424.34 million by way of Preferential Issue of equity shares.

These Consolidated Ind AS Financial Statements comprise the consolidation of DEN NETWORKS LIMITED (the Parent), its wholly owned and other subsidiaries (together the 'Group'). These subsidiaries and associates are mainly engaged in the business of distribution of cable television channels, internet and other related business.

2 Significant accounting policies

2.01 Basis of preparation

(i) Statement of Compliance and basis of preparation

The Consolidated Ind AS financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

Effective 1 April, 2016, the Company had adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with 1 April, 2015 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Basis of preparation and presentation

The Consolidated Ind AS Financial Statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each

reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 Share based payments, leasing transactions that are within the scope of Ind AS 17 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the assets or liability.

2.02 Basis of consolidation

The Consolidated Ind AS Financials Statements incorporate the financial statements of the Company and entities controlled by the Company. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control, over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable Ind AS). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition of an investment in an associate or a joint venture.

2.03 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see note 2.04) less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. The recoverable amount of the cash-generating unit is less than its carry amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata

based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate and a joint venture described at note 2.04 below.

2.04 Business Combination

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange of control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and liability assumed are recognised at the fair value, except that:

- 1) deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Taxes and Ind AS 19 Employee Benefits respectively;
- 2) liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date; and
- 3) assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognising a gain in respect thereof, the Group determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional assets or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

If the gain remains after this reassessment and review, the Group recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognises the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another Ind AS.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill or capital reserve, as the case maybe. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at fair value at subsequent reporting dates with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts

for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

2.05 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition) and highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.06 Cash flow statement

Cash flows are reported using indirect method, whereby Profit/(loss) after tax reported under the Consolidated Statement of Profit and Loss is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on available information.

2.07 Property, plant and equipment

All the items of property, plant and equipment are stated at historical cost net of cenvat credit less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful life is taken in accordance with Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Useful lives of tangible assets

Tangible assets are amortised over their estimated useful life

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

on straight line method as follows:

a.	Headend and distribution equipment	6 -15 years
b.	Set top boxes (STBs)	8 years
c.	Modems and routers	5 years
d.	Computers	6 years
e.	Office and other equipment	3 years
f.	Furniture and fixtures	3 to 10 years
g.	Vehicles	6 years
h.	Leasehold improvements	Lower of the useful life and the remaining period of the lease.
i.	Property, plant and equipment acquired through business purchase	5 years as estimated by an approved valuer

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Transition to Ind AS

The Group had elected to continue with the carrying value of all of its property, plant and equipment recognised as of 1 April, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.08 Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Distribution network rights and non compete fees represents amounts paid to local cable operators/distributors to acquire rights over a particular area for a specified period of time. Other intangible assets includes software and license fees for internet services.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Intangible assets are amortised over their estimated useful life on straight line method as follows:

a.	Distribution network rights	5 years
b.	Software	5 years
c.	License fee for internet service	Over the period of license agreement
d.	Non compete fees	5 years

Transition to Ind AS

The Group had elected to continue with the carrying value of all of its intangible assets recognised as of 1 April, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.09 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.10 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

i. Rendering of services

1. Service revenue comprises subscription income from digital and analog subscribers, placement of channels, advertisement revenue, fees for rendering management, technical and consultancy services and other related services. Income from services is recognised upon completion of services as per the terms of contracts with the customers. Period based services are accrued and recognised pro-rata over the contractual period.
2. Activation fees on Set top boxes (STBs) is deferred and recognised over the period of customer relationship on activation of boxes.
3. Amounts billed for services in accordance with contractual terms but where revenue is not recognised, have been classified as advance billing and disclosed under current liabilities.
4. Revenue from prepaid internet service plans, which are active at the end of accounting period, is recognised on time proportion basis.
5. Revenue from tele-marketing of products is recognised on delivery of the marketed products. The revenue is recognised net of estimated amount of return of marketed products based on historical experience.

ii. Sale of goods (equipment)

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- a) the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- b) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- c) the amount of revenue can be measured reliably
- d) it is probable that the economic benefits associated with the transaction will flow to the Group; and
- e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.11 Other income

Dividend income and interest income

Dividend income from investments is recognised when the

shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.12 Share-based payment arrangements

Share-based payment transactions of the Group

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 36.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

For cash-settled share-based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in profit or loss for the year.

2.13 Foreign Currencies

The functional currency for the Group is determined as the currency of the primary economic environment in which it operates. For the Group, the functional currency is the local currency of the country in which it operates, which is INR.

In preparing the financial statements of the Group, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Treatment of exchange differences

The exchange differences on monetary items are recognised in Profit or Loss in the period in which they arise.

2.14 Financial instruments

Financial assets and financial liabilities are recognised when a Group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Investment in joint ventures and associates

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The investment in joint ventures and associates are accounted for using equity method.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular

way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depended on the classification of the financial assets

The results and assets and liabilities of associates or joint ventures are incorporated in these Consolidated Ind AS Financial Statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, an investment in an associate or a joint venture is initially recognised in the Consolidated Balance Sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Distributions received from an associate or a joint venture reduce the carrying amount of the investment. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

After application of the equity method of accounting, the Group determines whether there any is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in an associate or a joint venture and that event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated. If there exists such an objective evidence of impairment, then it is necessary to recognise impairment loss with respect to the Group investment in an associate or a joint venture.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with Ind AS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

in use and fair value less costs of disposal) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with Ind AS 36 Impairment of Assets to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with Ind AS 109 Financial Instruments. The difference between the carrying amount of the associate or joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's Consolidated Ind AS Financial Statements only to the extent of interests in the associate or joint venture that are not related to the Group.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular

way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

Investments in equity instruments at FVTOCI

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end

of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Group applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, lease receivables, trade receivables and other contractual rights to receive cash or other financial asset.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 Construction Contracts and Ind AS 18 Revenue, the Group always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Group has used a practical expedient as permitted under Ind AS 109 Financial Instruments. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

2.15 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Group, and commitments issued by the Group to provide a loan at below-market interest rate are measured in accordance with the specific

accounting policies set out below.

a) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 Business Combinations applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 Business Combinations applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's risk management or investment strategy, and information about the Grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 Financial Instruments permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109 Financial Instruments.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

- b) Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

- c) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income'.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss.

- d) Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between liabilities with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference

between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.16 Employee benefit costs

Retirement benefits costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions:

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Consolidated Balance Sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Group presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the Consolidated Balance Sheet represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

- If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).
- If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the Group reduces service cost by attributing the contributions to periods of service using the attribution method required by Para 70 of Ind AS 19 Employee Benefits for the gross benefits. For the amount of contribution that is independent of the number of years of service, the Group reduces service cost in the period in which the related service is rendered / reduces service cost by attributing contributions to the employees' periods of service in accordance with Para 70 of Ind AS 19 Employee Benefits.

2.17 Segment information

The Group determines reportable segment based on information reported to the Chief Operating Decision Maker (CODM) for the purposes of resource allocation and assessment of segmental performance. The CODM evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the consolidated Ind AS financial statements are consistently applied to record revenue and expenditure in individual segments.

2.18 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor:

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as lessee:

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated Ind AS financial statements as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group general policy on borrowing costs.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.19 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

2.20 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of exceptional items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of exceptional items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for employee share options and bonus shares, if any, as appropriate.

2.21 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Consolidated Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Consolidated Ind AS Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.22 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.23.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.23.2 Restructurings

A restructuring provision is recognised when the Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the entity.

2.23.3 Contingent liabilities acquired in a business combination

Contingent liabilities (if any) acquired in a business combination are initially measured at fair value at the acquisition date. At the end of subsequent reporting periods, such contingent liabilities are measured at the higher of the amount that would be recognised in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortisation recognised in accordance with Ind AS 18 Revenue.

2.23 Share issue expenses

Share issue expenses are adjusted against the Securities Premium Account as permissible under Section 52 of the Companies Act, 2013, to the extent any balance is available for utilisation in the Securities Premium Account. Share issue expenses in excess of the balance in the Securities Premium Account, if any is expensed in the Consolidated Statement of Profit and Loss.

2.24 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.25 GST input credit

GST input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing/ utilising the credits.

2.26 Critical accounting judgements and key sources of estimation uncertainty

Critical accounting judgements

The following are the critical judgements, apart from those involving estimations that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the Consolidated Ind AS Financial Statements.

Contingent liabilities

Assessment of whether outflow embodying economic benefits is probable, possible or remote. (See note 29)

Significant influence over DEN ADN Network Private Limited

DEN ADN Network Private Limited has been designated as associate of the Group even though the Group has 51% of the ownership interest and 51% of the voting rights in these companies. The directors of the Parent assessed whether or not the Group has control over DEN ADN Network Private Limited based on whether the Group has the practical ability to direct the relevant activities of DEN ADN Network Private Limited unilaterally. The directors have, based on the terms of the shareholders' agreement, concluded that the Group exercises significant influence over DEN ADN Network Private Limited.

Significant influence over CCN DEN Network Private Limited

CCN DEN Network Private Limited has been designated as associate of the Group even though the Group has 51% of the ownership interest and 51% of the voting rights in these companies. The directors of the Parent assessed whether or not the Group has control over CCN DEN Network Private Limited based on whether the Group has the practical ability to direct the relevant activities of CCN DEN Network Private Limited unilaterally. The directors have, based on the terms of the shareholders' agreement, concluded that the Group exercises significant influence over CCN DEN Network Private Limited.

Significant influence over Den Satellite Network Private Limited

Den Satellite Network Private Limited has been designated as associate of the Group even though the Group has 50% of the ownership interest and 50% of the voting rights in these companies. The directors of the Parent assessed whether or not the Group has control over Den Satellite Network Private Limited based on whether the Group has the practical ability to direct the relevant activities of Den Satellite Network Private Limited unilaterally. The directors have, based on the terms of the shareholders' agreement, concluded that the Group exercises significant influence over Den Satellite Network Private Limited.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Useful lives of property, plant and equipment (see note 2.07)

The Group reviews the estimated useful lives of property, plant and equipment at the end of each reporting period. There is no such change in the useful life of the assets.

Fair value measurements and valuation processes (see note 2.14)

In estimating the fair value of an asset or liability, the Company uses market-observable data to the extent it is available. Where level 1 inputs are not available, the Company engages third party qualified valuers to perform the valuation. The management works closely with qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

Defined benefit obligations

Key assumptions related to life expectancies, salary increases and withdrawal rates (see note 33).

Revenue recognition (see note 2.10)

Impairment testing of investments (see note 2.14)

Key assumptions related to weighted average cost of capital (WACC) and long-term growth rates.

2.27 Operating Cycle

Based on the nature of activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.28 Recent accounting pronouncements

As set out below, amendments to standards are effective for annual periods beginning on or after 1 April, 2018 and have not been applied in preparing these consolidated Ind AS financial statements.

Amendments to Ind AS 21, The Effects of Changes in Foreign Exchange Rates

The amendment to Ind AS 21 applies when a company pays or receives consideration denominated or priced in foreign currency and recognises a non-monetary prepayment asset or deferred income liability before recognising the related item at a later date.

The amendment is effective for accounting periods beginning on or after 1 April, 2018. The Group is evaluating the requirements of amendment to Ind AS 21 and its effect on the consolidated Ind AS financial statements.

Introduction of Ind AS 115, Revenue from Contracts with Customers

Ministry of Corporate affairs has notified Ind AS 115 'Revenue from Contracts with customers', which is effective from 1 April,

2018. The new standard outlines a single comprehensive control-based model for revenue recognition and supersedes current revenue recognition guidance based on risks and rewards. The Group is evaluating the requirements of Ind AS 115 and its effect of the consolidated Ind AS financial statements.

Amendments to Ind AS 28 Investments in Associates and Joint Ventures – Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice

The amendments clarify that:

- An entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss.
- If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

The amendments should be applied retrospectively. The Group is evaluating the requirements of amendments to Ind AS 28 and its effect on the consolidated Ind AS financial statements.

Amendments to Ind AS 12 - Recognition of deferred tax assets for unrealised losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount. Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact. These amendments are effective for annual periods beginning on or after 1 April, 2018. The Group

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

is evaluating the requirements of amendment to Ind AS 12 and its effect on the consolidated Ind AS financial statements.

Amendments to Ind 112 - Disclosure of interests in other entities: Clarification of the scope of disclosure requirements in Ind AS 112

The amendments clarify that the disclosure requirements in Ind AS 112, other than those in paragraphs B10–B16, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale. The Group is evaluating the requirements of amendment to Ind AS 112 and its effect on the consolidated Ind AS financial statements.

Notes:

- a) The average credit period on sales of services is 0-180 days. No interest is charged on any overdue trade receivables.
- b) The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing	Expected credit loss (%)
0 - 90 days	0.1%-5%
91 - 180 days	1%-100%
180 days and above	50%-100%

30. Segment information

Information reported to the chief operating decision maker (CODM) for the purpose of resource allocation and assessment of segment performance focuses on the types of services provided. The CODM has identified Cable and Broadband as its reportable segments.

- Cable segment consists of distribution and promotion of television channels.
- Broadband segment consists of providing internet services.

Revenues and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to each reportable segment have been allocated on the basis of associated revenues of the segment and manpower efforts. All other expenses which are not attributable or allocable to segments have been disclosed as unallocable expenses. Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as unallocable. Property, plant and equipment that is used interchangeably amongst segments is not allocated to segments.

33. Employee benefit plans

(i) Defined contribution plans

The Group operates defined contribution retirement benefit plans for all its qualifying employees. Where employees leaves the plans prior to full vesting of the contributions, the contributions payable by the Group are reduced by the amount of forfeited contributions.

The total expense recognised in Consolidated Statement of Profit and Loss of Rs. 38.67 million (for the year ended 31 March, 2017: Rs. 47.11 million) for provident fund contributions and Rs. 4.06 million (for the year ended 31 March, 2017: Rs. 2.78 million) for Employee State Insurance Scheme contributions represents contributions payable to these plans by the Group at rates specified in the rules of the plans. As at 31 March, 2018, contributions of Rs. 8.67 million (as at 31 March, 2017: Rs. 15.52 million; as at 1 April, 2016: Rs. 14.15 million) due in respect of 2017-2018 (2016-2017) reporting period had not been paid over to the plans. The amounts were paid subsequent to the end of the respective reporting periods.

(ii) Defined benefit plans

Gratuity plan

Gratuity liability arises on retirement, withdrawal, resignation, and death of an employee. The aforesaid liability is calculated on the basis of 15 days salary (i.e. last drawn salary plus dearness allowance) for each completed year of service or part thereof in excess of 6 months, subject to a maximum of Rs. 2 million (Previous year Rs. 1 million). Vesting occurs upon completion of 5 years of service.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

The present value of the defined benefit obligation and the related current service cost are measured using the Projected Unit Credit method with actuarial valuations being carried out at each balance sheet date.

The gratuity plan typically exposes the Group to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest risk A decrease in the bond interest rate will increase the plan liability.

Longevity risk The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees.

In respect of the plan in India, the most recent actuarial valuation of the present value of the defined benefit obligation was carried out as at 31 March, 2018 by Charan Gupta Consultants Private Limited for the Parent and certain subsidiaries, Ashok Kumar Garg and K A Pandit for the other subsidiaries. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

a) The principal assumptions used for the purposes of the actuarial valuations were as follows.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

The current service cost and the net interest expense for the year are included in the employee benefits expense line item in the Consolidated Statement of Profit and Loss.

The remeasurement of the net defined benefit liability is included in other comprehensive income.

- c) **The amount included in the Consolidated Balance Sheet arising from the entity's obligation in respect of its defined benefit plans is as follows:**

(Rs. in million)

Particulars	As at		
	31.03.2018	31.03.2017	01.04.2016
Present value of funded defined benefit obligation	96.01	91.74	86.23

- d) **Movements in the present value of the defined benefit obligation are as follows:**

(Rs. in million)

Particulars	Year ended	
	31.03.2018	31.03.2017
Opening defined benefit obligation	91.74	86.23
Current service cost	6.27	10.77
Interest cost	6.42	4.96
Remeasurement (gains)/losses:		
- Actuarial gains and losses arising from changes in financial assumptions	(1.11)	4.18
- Actuarial gains and losses arising from experience adjustments	(3.29)	(8.51)
Past service cost, including losses/(gains) on curtailments	1.46	-
Benefits paid	(5.48)	(5.89)
Closing defined benefit obligation	96.01	91.74

- e) Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- If the discount rate is 50 basis points higher (lower), the defined benefit obligation would decrease by Rs. 5.92 million (increase by Rs. 5.79 million) [as at 31 March, 2017: decrease by Rs. 5.45 million (increase by Rs. 5.48 million)] [as at 1 April, 2016: decrease by Rs. 5.61 million (increase by Rs. 5.64 million)].
- If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligation would increase by Rs. 5.83 million (decrease by Rs. 5.76 million) [as at 31 March, 2017: increase by Rs. 5.79 million (decrease by Rs. 5.45 million)] [as at 1 April, 2016: increase by Rs. 5.61 million (decrease by Rs. 5.70 million)].

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

- The average duration of the benefit obligation represents average duration for active members at 31 March, 2018: 16.01 years (as at 31 March, 2017: 16.40 years; as at 1 April, 2016: 17.34 years).
- The Group expects to make a contribution of Rs. 13.20 million (as at 31 March, 2017: Rs. 13.70 million; as at 1 April, 2016: Rs. 19.28 million) to the defined benefit plans during the next financial year.
- The discount rate is generally based upon the market yields available on Government bonds at the accounting date with a term that matches that of the liabilities.
- The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant

36. Share Based payments

A. Employee Stock Option Plan 2010 ("ESOP 2010")

a) Details of the employee share option plan of the Parent

The weighted average fair value of the share options granted under ESOP 2010 during the financial year is Rs. 38.97 (during the year ended 31 March, 2017: Rs. 29.11). Options were priced using Black Scholes model.

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

The Parent had established an Employee Stock Option Plan (ESOP 2010) in accordance with “Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014” and “the Securities and Exchange Board of India (Share Based Employee Benefits) (Amendment) Regulation, 2015”, which has been approved by the Board of Directors and the shareholders of the Parent. A Nomination and Remuneration / Compensation Committee comprising majority of independent, non-executive members of the Board of Directors administers the ESOPs. All option under the ESOPs are exercisable for equity shares. The Parent had taken approval of the Shareholders to grant and allot upto 5,219,599 equity options under the said scheme. The total outstanding options under the scheme are 482,500 equity options.

There shall be a minimum period of one year between the grant of options and vesting of options. The vesting shall happen in one or more tranches as may be decided by the Nomination and Remuneration / Compensation Committee. The exercise period of the options is a period of one year after the vesting of the options. Each option is exercisable for one equity share of Rs. 10 each fully paid up of the Parent on payment of exercise price (as determined by the Nomination and Remuneration / Compensation Committee) of share determined with respect to the date of grant.

As per approval of the shareholder, the Parent may issue options to employees of the Parent/ subsidiaries/ directors of the subsidiaries.

Each employee share option converts into one equity share of the Parent on exercise. No amounts are paid or payable by the receipt of the option. The options carry neither rights to dividend nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

During the year ended 31 March, 2018, the Nomination and Remuneration/Compensation Committee has granted 100,000 options under Employee Stock Option Plan - 2010 to an eligible employee of the Parent.

The following share based arrangements were in existence during the current and prior years :

All options vested on their date of grant and expiry within twelve months of their issue, or one month after the resignation of the executive or senior employee, whichever is earlier.

b) Fair value of share options granted in the year

The vesting shall happen in one or more tranches as may be decided by the Nomination and Remuneration / Compensation Committee. The exercise period of the options is a period of one year after the vesting of the options. Each option is exercisable for one equity share of Rs. 10 each fully paid up on payment of exercise price (as determined by the Nomination and Remuneration / Compensation Committee) of share determined with respect to the date of grant. The Parent has granted 4,026,195 options upto 31 March, 2018.

The fair value of the options, calculated by an external valuer, was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

Impairment of goodwill

For the purpose of impairment testing, goodwill has been allocated to the cash generating unit (CGU)- cable segment.

The recoverable amount of this cash-generating unit is determined based on a value in use calculation which uses cash flow projections based on financial forecasts covering a five-year period, and a discount rate of 10% per annum (as at 31 March, 2017: 9.60% per annum; as at 1 April, 2016: 8.81%)

Cash flow projections during the forecast period are based on the same expected gross margins and inflation throughout the forecast period. The cash flows beyond that five-year period have been extrapolated using a steady growth rate of 2% per annum (as at March 31, 2017: 2% per annum; as at 1 April, 2016: 2% per annum) which is the projected long-term average growth rate for Cable CGU. The directors believe that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

Based on impairment testing as above, the management has accounted for a provision for impairment loss amounting to Rs. Nil and Rs. 171.69 million for the years ended 31 March, 2018 and 31 March, 2017 respectively.

38. Financial Instruments

a) Capital Management

The Company's management reviews the capital structure of the Company on periodical basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital. The Company monitors the capital structure using gearing ratio which is determined as the proportion of net debt to total equity.

The capital structure of the Company consists of net debt (borrowings as detailed in notes 17, 15 and 19 and offset by cash and bank balances and current investments in notes 9, 11,12 and 5) and total equity of the Company.

The Company sets the amount of capital required on the basis of annual business and long-term operating plans.

The funding requirements are met through a mixture of equity, internal fund generation, non-current and current borrowings. The Company's policy is to use non-current and current borrowings to meet anticipated funding requirements.

Gearing ratio

The gearing ratio at end of the reporting period was as follows

(c) Risk management framework

The Group is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The objective of the Group's risk management framework is to manage the above risks and aims to :

- improve financial risk awareness and risk transparency
- identify, control and monitor key risks
- provide management with reliable information on the Group's risk exposure
- improve financial returns

(i) Market risk

Market risk is the risk that the fair value of financial instrument will fluctuate because of change in market price. Market risk comprises of three types of risks - interest risk - See - 38 c (iv), foreign currency - See - 38 c (iii), and other price risk - See - 38 c (v), such as equity price risk.

The Group's activities expose it primarily to interest rate risk, currency risk and other price risk such as equity price risk. The financial instruments affected by market risk includes : Fixed deposits, current investments, borrowings and other current financial liabilities.

(ii) Liquidity risk

The Group requires funds both for short-term operational needs as well as for long-term investment needs.

The Group remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening the balance sheet. The maturity profile of the Group's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. (iii) Foreign currency risk

Foreign exchange risk comprises of risk that may be expected to the Group because of fluctuations in foreign currency exchange rates. Fluctuations in foreign currency exchange rates may have an impact on the Statements of Profit and Loss. As at the year end, the Group was exposed to foreign exchange risk arising from foreign currency payables and buyer's credit denominated in foreign currency availed by the Group.

The carrying amounts of the Group foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows :

(Rs. in million)

	As at 31.03.2018		As at 31.03.2017	
	Financial assets	Financial liabilities	Financial assets	Financial liabilities
USD	-	8.74	-	23.74
Equivalent INR	-	568.53	-	1,538.70
			As at 31.03.2016	
			Financial assets	Financial liabilities
USD			-	58.34
Equivalent INR			-	3,870.00

The results of Group's operations may be affected by fluctuations in the exchange rates between the Indian Rupee against the US dollar. The foreign exchange rate sensitivity is calculated by the aggregation of the net foreign exchange rate exposure with a simultaneous parallel foreign exchange rates shift in the currencies by 1% against the functional currency of the Group.

For the year ended 31 March, 2018 and 31 March, 2017, every 100 basis points depreciation/ appreciation in the exchange rate between the Indian rupee and U.S. dollar will decrease/increase the Group's losses before tax by Rs. 5.69 million (31 March, 2017 : Rs. 15.39 million).

(iv) Interest rate risk

The Group is exposed to interest rate risk on current and non-current borrowings and fixed deposits outstanding as at the year end. The Group's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Group are principally denominated in Indian Rupees. The US dollar debt representing the buyers credit facility availed by the Group is composite of fixed and floating rates (linked to US dollar LIBOR). These exposures are reviewed by appropriate levels of management on a monthly basis. The Group invests in fixed deposits to achieve the Group's goal of maintaining liquidity, carrying manageable risk and achieving satisfactory returns.

The exposure of the Group's financial liabilities as at 31 March, 2018 to interest rate risk is as follows:

(Rs. in million)

	Floating rate	Fixed rate	Non interest bearing	Total
Non current				
Borrowings	3,141.15	-	-	3,141.15
Current				
Borrowings	1,050.29	-	-	1,050.29

Fixed deposits	-	1,842.18	-	1,842.18
Weighted average interest rate (per annum)				
Buyer's credit (denominated in FC)	3.20% to 3.40%	NA		
Others	10.30% to 12.3%	8.55%		

NOTES TO THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

The exposure of the Group's financial liabilities as at 31 March, 2017 to interest rate risk is as follows:

(Rs. in million)

	Floating rate	Fixed rate	Non interest bearing	Total
Non current				
Borrowings	1,451.54	428.16	-	1,879.70
Current				
Borrowings	1,227.70	-	-	1,227.70
Current maturities of long term debt	813.85	1,116.03	-	1,929.88
	3,493.09	1,544.19	-	5,037.28
Fixed deposits	-	2,546.37	-	2,546.37
Weighted average interest rate (per annum)				
Buyer's credit	1.80% to 2.10%	NA		
Others	10.30% to 12.3%	8.55%		

The exposure of the Group's financial liabilities as at 1 April, 2016 to interest rate risk is as follows:

(Rs. in million)

	Floating rate	Fixed rate	Non interest bearing	Total
Non current				
Borrowings	1,732.86	1,544.20	-	3,277.06
Current				
Borrowings	2,853.29	-	-	2,853.29
Current maturities of long term debt	1,040.86	1,367.06	-	2,407.92
	5,627.01	2,911.26	-	8,538.27
Fixed deposits	-	3,814.30	-	3,814.30
Weighted average interest rate (per annum)				
Buyer's credit	1.4% to 1.6%	NA		
Others	10.3% to 12.5%	8.55%		

Interest rate sensitivity analysis on borrowings:

If interest rates had been 100 basis points higher/lower and all other variables were held constant, the Group's losses before tax for the year ended March 31, 2018 would decrease/increase by Rs. 5.41 million (year ended 31 March, 2017 : Rs. 5.77 million). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

Interest rate sensitivity analysis on fixed deposits:

If interest rates had been 100 basis points higher/lower and all other variables were held constant, the Group's losses before tax for the year ended 31 March, 2018 would decrease/increase by Rs. 1.55 million (year ended 31 March, 2017 : Rs. 2.39 million). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

(v) Other price risk

The Group is exposed to price risks arising from fair valuation of Group's investment in mutual funds. These investments are held for short term purposes. The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting year

If prices had been 100 basis points higher/lower, loss before tax for the year ended 31 March, 2018 would decrease/increase by Rs. 5.30 million (for the year ended 31 March, 2017: Rs. 2.67 million) as a result of the changes in fair value of these investments which have been designated as at FVTPL.

(vi) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's exposure to credit risk primarily arises from trade receivables, balances with banks and security deposits. The credit risk on bank balances is limited because the counterparties are banks with good credit ratings. Trade receivables consist of a large number of customers. Ongoing credit evaluation is performed on the financial condition of accounts receivable. The Group's policies on assessing expected credit losses is detailed in notes to accounting policies (See note 2.14). For details of exposure, default grading and expected credit loss as on the reporting year (See note 10).
