1. Preamble

1.1 The remuneration policy provides a framework for remuneration paid to the members of the Board of Directors ("Board"), Key Managerial Personnel ("KMP") and the Senior Management Personnel ("SMP") of the Company (collectively referred to as "Executives"). The expression "senior management" means personnel of the company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, including the functional heads.

2. Aims & Objectives

- 2.1 The Company has formulated the remuneration policy for its directors, key managerial personnel and other employees keeping in view the following objectives:
- 2.1.1 Ensuring that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate, to run the Company successfully.
 - 2.1.2 Ensuring that relationship of remuneration to performance is clear and meets the performance benchmarks.
 - 2.1.3 Ensuring that remuneration involves a balance between fixed and incentive pay (if required) reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

3. Nomination and Remuneration Committee

- 3.1 Members of the Committee shall be appointed by the Board and shall comprise of three or more non-executive directors out of which not less than one-half shall be independent directors.
- 3.2 The Committee shall be responsible for
 - 3.2.1 Formulation of the criteria for determining qualifications, positive attributes and independence of a director and recommend to the board of directors a policy relating to, the remuneration of the directors, key managerial personnel and other employees;
 - 3.2.2 Formulation of criteria for evaluation of performance of independent directors and the board of directors;
 - 3.2.3 Devising a policy on diversity of board of directors;
 - 3.2.4 Identifying persons who are qualified to become directors and who may be appointed in senior management in accordance with the criteria laid down, and recommend to the board of directors their appointment and removal.
 - 3.2.5 Whether to extend or continue the term of

appointment of the independent director, on the basis of the report of performance evaluation of independent directors.

- 3.2.6 To carry out any other function as is mandated by the Board from time to time and / or enforced by any statutory notification or modification as may be applicable

4. Policy for Remuneration

4.1 Remuneration to Executive Directors & KMP:

- 4.1.1 The Company has a credible and transparent framework in determining the remuneration of the Managing Director / Whole Time Directors (MD/ WTDs), Key Managerial Personnel(s) (KMPs) and Senior Management Personnel(s) (SMPs). Their remuneration shall be governed by the external competitive environment, track record, potential, individual performance and performance of the company as well as industry standards.
- 4.1.2 The Board, on the recommendation of the Nomination & Remuneration (NR) Committee, shall review and approve the remuneration payable to the Executive Directors of the Company within the overall limits approved by the shareholders.
- 4.1.3 The remuneration of non-board KMPs and SMPs will be decided by the MD/WTD, as the case may be and will be placed before the Committee in its meeting held next after such revision.

4.2 Remuneration to Non-Executive Directors:

- 4.2.1 The Non-Executive Directors shall be entitled to sitting fees for attending the meetings of the Board and the Committees thereof. Beside the sitting fees they are also entitled to reimbursement of expenses for attending meetings. The Non-executive Directors of the Company are not paid any other remuneration or commission. The sitting fees of the Non-executive Directors for attending meetings of Board of Directors and the Committees of Board of Directors may be modified from time to time only with the approval of the Board in due compliance of the provisions of Companies Act, 2013.
- 4.2.2 As a policy, the Executive Directors are neither paid sitting fee nor any commission.

4.3 Remuneration to other employees

- 4.3.1 Employees shall be assigned grades according to their qualifications and work experience, competencies as well as their roles and responsibilities in the organization. Individual remuneration shall be determined within the appropriate grade and shall be based on various

factors such as job profile, skill sets, seniority, experience and prevailing remuneration levels for equivalent jobs.

5 Policy for Selection of Directors and determining Directors' Independence

Qualifications and criteria

- 5.1 The NR Committee, and the Board, shall review on an annual basis, appropriate skills, characteristics and experience required of the Board as a whole and its individual members. The objective is to have a Board with diverse background and experience in areas that are relevant to the Company's operations.
- 5.2 In evaluating the suitability of individual Board members, the Committee takes into account many factors, such as:

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Indian real estate sector overview

The real estate sector is one of the most globally-recognised sectors. In India, real estate is the second largest employer after agriculture and is slated to grow at a rate of 30% over the next decade. The real estate sector comprises four sub-sectors - housing, retail, hospitality, and commercial. The growth of this sector is complemented by the growth of the corporate environment and the demand for office space as well as urban and suburban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

India's fragmented property sector is undergoing a radical change, as far-reaching reforms drive consolidation. These variations, combined with the most affordable housing prices in decades, will trigger the real estate sales manifold as mentioned herein below. Market share of the Organised Developers could double within a span of 7-8 years from 8-10% to 20%, resulting in a sales CAGR of 30%. High-class developers are expected to benefit disproportionately from this cyclical upturn, provided they target the residential market.

Various factors like low house prices, decade-low mortgage rates and stable income growth have resulted in the best affordability for 15 years. This in turn should lead to a volume upswing, with policy support being the trigger point. Developers can also address the affordable-housing market, made feasible by tax incentives and less competition.

India is expected to witness an upward rise in the number of real estate deals in 2018, on the back of policy changes that have made the market more transparent. The Indian real estate sector has witnessed high growth in recent times with the rise in demand for office as well as residential spaces. India stood third in the US Green Building Council's ranking of the top-10 countries for LEED-certified buildings, with over 752 LEED-certified projects across 20.28 million gross square metres of space. The construction development sector in India received FDI equity inflows to the tune of US\$24.67 billion in the period between April 2000 and December 2017. (Source: IBEF, DIPP)

Outlook

The Indian real estate market is expected to reach US\$180 billion by 2020 from US\$126 billion in 2015. Emergence of nuclear families, rapid urbanisation and rising household income are likely to remain the key drivers for growth in all spheres of real estate, including residential, commercial and retail. More than 70% of India's GDP will be contributed by the urban areas while the overall housing sector is expected to contribute ~11% to India's GDP by 2020. Private equity investments in real estate are estimated to grow to US\$ 100 billion by 2026 with Tier-I and II cities being the prime beneficiaries. SEBI has approved the REIT platform that will help create an opportunity worth ₹1.25 trillion in the Indian market over the next few years. The growing flow of FDI into Indian real estate is encouraging transparency. Developers, in order to attract funding, are revamping

their accounting and management systems to meet due diligence standards. (Source: IBEF, Business Standard)

Opportunities and Threats

Governmental initiatives

The Government of India along with several State Governments has taken numerous initiatives to encourage the development in the sector. The Smart Cities initiative which plans to build 100 'Smart Cities' has unleashed a plethora of opportunities for real estate companies. Below mentioned are some of the other major initiatives undertaken by governmental bodies:

- The Indian Government approved the launch of 'Housing for All by 2022' mission. Under this, 30 million houses will be built in India by 2022, mostly for the economically-weaker sections and low-income groups, by leveraging PPPs and interest subsidies.
- In February 2018, creation of National Urban Housing Fund was approved with an outlay of US\$ 9.27 billion.
- Under Pradhan Mantri Awas Yojana ('PMAY') - Urban 1,427,486 houses have been sanctioned in 2017-18. In March 2018, construction of additional 3,21,567 affordable houses was sanctioned under the scheme.
- The Central Government has extended the Credit Linked Subsidy Scheme till March 2019 and further relaxed the carpet area norms for MIG category I to 120 square metres from the existing 90 square metres and for category II, from 110 to 150 square metres.
- The Central Government announced a new PPP policy to promote private investments in affordable housing in line with its Housing for All by 2022 scheme. Also, Smart Cities Mission received an allocation of ₹2.04 lakh crores, covering 99 cities. (Source: IBEF, Grant Thornton)
- The Central Government has granted infrastructure status to affordable housing which will enable these projects to avail the associated benefits such as lower borrowing rates, tax concessions and increased flow of foreign and private capital. (Source: PIB)
- Though the Benami Transactions (Prohibition) Act, 1988 has been on the statute book since more than 28 years, the same could not be made operational because of certain inherent defects. With a view to providing effective regime for prohibition of benami transactions, the said Act was amended through the Benami Transactions (Prohibition) Amended Act, 2016. (Source: PIB)
- The PMAY was launched with the aim to provide housing at an affordable price to the weaker sections of the society, lower income group people, urban poor and rural poor. This envisions construction of around 20 million houses at an affordable price by March 31, 2022. The scheme is getting financial assistance of US\$ 31 billion from the Central Government.

RERA and its implications

A major slowdown in residential property markets from 2013 onwards – combined with poor customer experience with disorganised and unscrupulous developers – has led to significant government reforms, the landmark one being the implementation of the Real Estate Regulation Act, 2016 (RERA) in 2017. RERA is customer driven and provides a major boost to transparency, increases working capital requirements, and significantly raises the property sector's overall entry barriers. Its objective – to enhance customer confidence in purchasing under-construction real estate projects – comes at a cost to developers; higher working capital and the risk of significant liabilities. RERA safeguards the customers in two important ways: developers must secure all project approvals before launching any sales process, and 70% of all project cashflow – excluding land costs – must be spent on construction. Both these initiatives make it difficult for the developers to rotate capital into multiple projects. Prior to RERA, developers used to front-load customer cashflow vis-à-vis the actual construction-expenditure outgo.

GST impact

Real estate sector will invite GST at the rate of 12% with full input tax credit. According to the schedule of GST rates for services as approved by the council, real estate sector will comprise construction of a complex, building, civil structure or a part thereof, intended for sale to a buyer, wholly or partly. The value of land is included in the amount charged from the service recipient. These will be charged @ 12% with full input tax credit. In other words, it means all under-construction properties will invite a GST of 12%. However, GST will not be applicable for ready-to-move-in properties. However, there are still some variations for under-construction properties and confusion regarding the same. There are various stages for under-construction properties and GST will be dependent on it.

Given the weak property-pricing cycle, end- result has been a proliferation of "GST-Free" with developers reducing their own net realizations. The major positive impact has been that forcing developers to take responsibility for input taxes will make their entire supply chain far more organized, as the prevalence of cash transactions will fall.

Segment-wise or product-wise performance

The Company has only one reportable segment, namely development of Real Estate property and one geographical segment, namely within India.

During the year under review, your Company reported a total revenue of ₹12,029.91 Lakhs against ₹11,887.81 Lakhs reported in 2016-17, an EBIDTA of ₹21,691.49 Lakhs against ₹17,983.88 Lakhs reported in the previous year. The Company reported a profit after tax of ₹378.85 Lakhs in 2017-18 against profit after tax of ₹1,462.02 Lakhs reported in the previous year.

The consolidated revenue of your Company during the year under review is ₹11,824.88 Lakhs compared to ₹11,051.72 Lakhs in the previous year, an EBIDTA of ₹21,908.14 Lakhs against ₹17,729.89

Risk and Concerns

Economic risk: Economic volatility could affect profitability.

Mitigation: A robust Balance Sheet ensures that the Company possesses considerable cover against fluctuations. The Company is positioned in high growth markets, strategically selecting projects based on market and location demand.

Industry risk: Disruptions (material, labour and regulations) could impact operations.

Mitigation: The Company's core strength lies in robust project planning and execution, enhanced by strong procurement and people management.

Funding risk: One of the major challenges in this industry is to procure low cost funds, the unavailability of which hinders the progress of the projects.

Mitigation: Being part of a respected conglomerate, mobilizing debt at a cheaper rate places us in an advantageous position to mitigate the risk.

Land availability risk: Delay in availability of land may result in project delays resulting in loss of revenues and profits.

Mitigation: The Company's strategic business model of entering into joint agreements with land owners and developing projects not only incentivises land owners to provide their land (as they earn higher returns) but also reduces the capital deployed by the Company.

Project completion risk: One of the biggest problems in this sector is delay in the completion of projects and handover to the customers.

Mitigation: The strict policies followed by the Company along with partnerships with specialised partners (Larsen and Toubro) helps deliver projects on time.

Quality risk: Quality of raw materials used can affect the Company's end product.

Mitigation: The Company strives to achieve excellence and is driven to provide its customers with quality products. The Company uses ISI certified, best-in-class raw material from producers of established reputations.

Cash flow risk: Being a capital-intensive industry, any unavailability of cash may disrupt operations.

Mitigation: Most of the upcoming projects of the Company are expected to generate steady cash flows.

Independent Auditor's Report

To the Members of
Emami Infrastructure Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **EMAMI INFRASTRUCTURE LIMITED** ("the Company") which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant Rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and read with the Rules issued thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence

about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, its Profit including other comprehensive income, Cash Flows and the changes in equity for the year ended on that date.

Other Matters

The standalone Ind AS financial statements include ₹8.22 Lakhs being its share of loss in one of the LLPs for the year 31st March, 2018 whose Ind AS financial statements have been audited by other auditor whose reports have been furnished to us by the Management.

Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.
- As required by section 143(3) of the Act, we report that:
 - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this report are in agreement with the books of account;

Annexure A to the Independent Auditor's Report

The Annexure referred to in our Independent Auditor's Report to the members of **EMAMI INFRASTRUCTURE LIMITED** ("the Company") on the standalone Ind AS financial statements for the year ended on 31st March, 2018. We report that:

- I. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant & Equipment, Investment property and intangible assets;
- (b) The Company has a regular programme of physical verification of its Property, Plant & Equipment by which Property, Plant & Equipment are verified in a phased manner. In accordance with this programme, certain Property, Plant & Equipment were verified during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets; and
- (c) According to information and explanation given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- II. The inventories have been physically verified during the year by the management at regular intervals. In our opinion and according to the information and explanations given to us, no material discrepancies were noticed on physical verification;

- III. The Company has granted unsecured loans to companies covered in the Register maintained under section 189 of the Companies Act, 2013 ('the Act'). In respect of such loans:
 - a) In our opinion, the rate of interest and other terms and conditions on which loans have been granted to the Companies listed in the register maintained under section 189 of the Act are not, prima facie, prejudicial to the interest of the Company;
 - b) In case of the loans granted to the Companies listed in the register maintained under section 189 of the Act, the borrowers have been regular in the payment of the principal and interest as stipulated; and
 - c) There is no overdue amount in respect of the loans granted to these Companies;
- IV. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 of the Act with respect to the loans, investments, guarantees and securities made. Further, the provisions of section 186 of the Act in respect of loans, guarantees and securities are not applicable to the Company, being an infrastructure Company as defined under Schedule VI to the Act;
- V. The Company has not accepted any deposits within the meaning of Section 73 to 76 of the Act and the Companies (Acceptance of Deposit) Rules, 2014 as amended;

- VI. As explained to us, the Company is not required to maintain cost records prescribed by the Central Government under sub-section (1) of section 148 of the Act;
- VII. According to information and explanations given to us and on the basis of our examination of the books of account, and records, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees State Insurance, Income-Tax, Sales tax, Service Tax, Value added Tax, Goods & Services Tax, Cess and any other statutory dues with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of the above were in arrears as at 31st March, 2018 for a period of more than six months from the date on which they became payable. During the year, the company did not have any dues towards duty of excise and duty of custom;
- VIII. In our opinion and according to the information and explanations given to us by the management, the Company has not defaulted in the repayment of dues to banks, financial institutions and debenture holders;
- IX. To the best of our knowledge and belief and according to the information and explanations given to us, term loans availed by the Company were applied by the Company for the purposes for which the loans were obtained. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year;
- X. According to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year;
- XI. According to the information and explanations given to us, the Company has paid or provided for managerial remunerations in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act;
- XII. In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of clause 3 (xii) of the Order is not applicable to the Company;
- XIII. In our opinion, all transactions with the related parties are in compliance with section 177 and 188 of the Act and the details have been disclosed in the standalone Ind AS Financial Statements as required by the applicable Indian Accounting Standards;
- XIV. According to the information and explanations given to us and based on our examination of records, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year;
- XV. According to the information and explanations given to us and based on our examination of records of the Company, the Company has not entered into any non-cash transactions with Directors or persons connected with them. Accordingly, the provisions of clause 3 (xv) of the Order are not applicable; and
- XVI. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **EMAMI INFRASTRUCTURE LIMITED** ("the Company") to the extent records available with us in conjunction with our audit of the standalone Ind AS financial statements of the Company as of and for the year ended 31st March, 2018.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note on Audit of internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the

design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to

the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with

generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the ICAI.

These financial statements are prepared under the historical cost conversion on the accrual basis except for certain financial instruments which are measured at fair values.

The Company has adopted all the Ind AS and the adoption was carried out in accordance with Ind AS 101 – First time adoption of Indian Accounting Standards. The transition to Ind AS was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Companies Act, 2013 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP) and other relevant provisions of the Act, as applicable.

1.3 Significant Accounting Policies

1.3.1 Operating Cycle

The Operating Cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has evaluated and considered its operating cycle as 3 to 5 years and accordingly has reclassified its assets and liabilities into current and non-current.

An asset is treated as current when it is:

- Expected to be realised or to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

1.3.2 Foreign Currency Transactions & Translations

The functional currency of the Company is Indian rupees. The Financial Statements are prepared & presented in Indian rupees and has been rounded off to the nearest Lakhs, unless otherwise stated.

Transactions in foreign currencies entered into by the Company are translated to the Company's functional currency at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date.

Foreign exchange gains and losses resulting from the settlement of transactions in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit & Loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rates at the dates of transactions. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date of the fair valuation. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Notes to Financial Statements

1.3.3 Fair Value Measurement

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All methods of assessing fair value result in general approximation of value and such value may never actually be realised.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- c) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.3.4 Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) at the end of the reporting period and the reported income and expenses during the year. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

1.3.5 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.3.6 Property, Plant and Equipment

Property, plant and equipment are carried at cost of acquisition, on current cost basis less accumulated depreciation and accumulated impairment, if any. Cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the income statement when the asset is derecognised.

Depreciation is provided on written down value method over the estimated useful lives of property, plant and equipment and are in line with the requirement of Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.3.7 Intangible Assets

Intangible Assets are recognized only when future economic benefits arising out of the assets flow to the enterprise and are amortised on Straight Line method over their estimated useful life of five years. Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

1.3.8 Capital work-in-progress and intangible assets under development

Capital work-in-progress and intangible assets under development are carried at cost. Cost includes land, related acquisition expenses, development / construction costs, borrowing costs and other direct expenditure.

1.3.9 Investment property

Investment properties are properties held to earn rentals or for capital appreciation or both. Investment properties are held initially at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent costs are included in the asset's carrying amount or recognised as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company. All other repairs and maintenance are charged to Statement of Profit and Loss as incurred.

Notes to Financial Statements

1.3.10 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

1.3.11 Inventories

Inventories are valued at lower of cost or Net Realisable Value, except for construction-work-in progress which is valued at cost.

Construction-work-in progress includes cost of land, premium for development rights, construction costs, allocated interest and expenses incidental to the projects undertaken by the Company.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

1.3.12 Revenue recognition

Revenue is recognized when it is probable that the economic benefits will flow to the Company and it can be reliably measured. Revenue is measured at the fair value of the consideration received/receivable net of rebate and taxes. The Company applies the revenue recognition criteria to each nature of revenue transaction as below:

Principles of Ind AS 18 in respect of sale of goods for recognising revenue, costs and profits from transactions of real estate which are in substance similar to delivery of goods when the revenue recognition process is completed; and

In case of real estate sales where agreement for sale is executed for under construction properties, revenue in respect of individual contracts is recognised when performance on the contract is considered to be completed.

Interest Income is recognised using the effective interest method and is included under the head 'Other Income' in the Statement of Profit and Loss.

Dividend Income including share of profit in LLP is recognised when the Company's right to receive dividend is established.

All other incomes are recognised on accrual basis.

1.3.13 Employee Benefits

a. Defined Contribution Plan - Provident Fund

The Company makes contributions towards provident fund to the regulatory authorities to a defined contribution retirement benefit plan for qualifying employees, where the Company has no further obligations. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

b. Defined Benefit Plan – Gratuity

The Company's liability is actuarially determined using the Projected Unit Credit method at the end of the year in accordance with the provision of Ind AS 19 - Employee Benefits. The Company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in the Statement of Profit & Loss.

c. Long Term Compensated Absences

The Company's liability is actuarially determined using the Projected Unit Credit method at the end of the year in accordance with the provision of Ind AS 19 - Employee Benefits. The Company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in Statement of Profit & Loss.

1.3.14 Income Taxes

Tax expense comprises current and deferred tax.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act,

Notes to Financial Statements

1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is provided using the balance sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

1.3.15 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. For arrangements entered into prior to 1 April, 2016, the group has determined whether the arrangement contain lease on the basis of facts and circumstances existing on the date of transition.

As a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly.

Attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs (See note 1.3.17). Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments (net of any incentives received from the lessor) are charged to Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

1.3.16 Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the Statement of Profit and Loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or

Notes to Financial Statements

non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

1.3.17 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

1.3.18 Earnings per Share

Basic Earnings per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

1.3.19 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

i. Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

ii. Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Debt instruments at amortised cost
- Equity instruments measured at fair value through other comprehensive income FVTOCI

Debt instruments at amortised cost other than derivative contracts

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value other than equity investments measured at deemed cost on first time adoption of Ind AS as set out in Note. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Notes to Financial Statements

iii. De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- the Company has transferred substantially all the risks and rewards of the asset

iv. Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive, discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the group does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

b. Financial liabilities

i. Initial recognition and measurement

All financial liabilities are recognised initially at fair value and in the case of loans and borrowings and payables, investment in subsidiaries and joint ventures, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

ii. Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include derivatives, financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Notes to Financial Statements

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for doubtful debts.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year. The amounts are generally unsecured. Trade and other payables are presented as current liabilities unless payment is not due within the Company's operating cycle. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the lender for a loss it incurs because the specified borrower fails to make a payment when due in accordance with the terms of a loan agreement. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.3.20 Segment Reporting

Based on the "management approach" as defined in Ind AS 108 – Operating Segments, the Board of Directors / Chief Operating Decision Maker evaluates the Company's performance based on an analysis of various performance indicators by business segment. Segment revenue and expenses include amounts which can be directly attributable to the segment and allocable on reasonable basis. Segment assets and liabilities are assets / liabilities which are directly attributable to the segment or can be allocated on a reasonable basis. Income / expenses / assets / liabilities relating to the enterprise as a whole and not allocable on a reasonable basis to business segments are reflected as unallocated income / expenses / assets / liabilities.

Sensitivity Analysis :-

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumption occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

Attrition Rate (-/+50%) (% change compared to base due to sensitivity)	85.43	86.12	53.21	54.28

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

There is no change in the method of valuation for the prior period.

Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The Company has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets as a result of such valuation is funded by the Company.

For Leave, the Scheme is partly managed on fund basis.

38. Fair Value Hierarchy

The table shown below analyses financial instruments carried at fair value. The different levels have been defined below:-

Level 1: Quoted Prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

b) Financial instruments at amortized cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled

c) During the year there has been no transfer from one level to another

Notes to Financial Statements

39. Financial risk management objectives and policies

The Company's principal financial liabilities, comprise of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets includes loans, trade and other receivables and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's Management oversees the management of these risks and ensures that the Company's financial risks activities are governed by appropriate policies and procedures and that finance risk are identified, measured and managed in accordance with the Company's policies and risk objectives.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:-

A. Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counter party default on its obligations. The Company's exposure to credit risk arises majorly from trade receivables/unbilled revenue and other financial assets.

Other financial assets like bank deposits, advances and security deposits are with banks, government bodies, utility providers, contractors and others, and hence, the Company does not expect any credit risk with respect to trade receivables/ unbilled revenue and other financial assets.

With respect to trade receivables/unbilled revenue, the Company has constituted teams to review the receivables on periodic basis and take necessary mitigations whenever required. The Company creates allowance for all unsecured receivables based on lifetime Expected Credit Loss.

The following table summarizes the change in the loss allowance measured using ECL:

(₹ in Lakhs)		
Reconciliation of Loss Allowance	Trade Receivables	Security Deposits

Allowance for Expected Credit Loss	-	-
As on March 31, 2017	-	-
Allowance for Expected Credit Loss	-	-
As on March 31, 2018	-	-

B. Liquidity Risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

The backup of cash and cash equivalents, deposits and investments is as below:

39. Financial risk management objectives and policies (Contd.)

C. Market Risk

a. Interest Rate Risk

The Company has taken debt to finance its working capital, which exposes it to interest rate risk. Borrowings issued at variable rates expose the Company to interest rate risk.

(₹ in Lakhs)

Particulars	March 31, 2018	March 31, 2017	April 1, 2016
Variable rate borrowing	1,17,715.20	86,803.63	66,599.83

Total borrowings	1,87,221.79	1,49,384.50	1,16,610.32

Market risk is the risk that fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises two type of risk: interest rate risk and other price risk, such as equity price risk and commodity/real estate risk.

The sensitivity analysis in the following sections related to the position as at March 31, 2018 and March 31, 2017. The sensitivity analysis has been prepared on the basis that the amount of net debt and ratio of fixed to floating interest rates of debts.

Interest rate risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in interest rate. The entity's exposure to the risk of changes in interest rates relates primarily to the entity's operating activities (when receivables or payables are subject to different interest rates) and the entity's receivables or payables.

The Company is affected by the price volatility of certain commodities/real estates. Its operating activities require the ongoing development of real estate. The Company's Management has developed and enacted a risk management strategy regarding commodity/real estate price risk and its mitigation. The Company is subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rate, with all other variables held constant. The impact on entity's profit before tax is due to change in the fair value of financial assets and liabilities.

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated cash flows and consolidated changes in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Companies Act, 2013 (hereinafter referred to as "the Act") read with relevant Rules issued thereunder.

The respective Board of Directors of the Companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and read with relevant Rules issued thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their report referred to Other Matter paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates, as at 31st March 2018, and their consolidated profit (including other comprehensive income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

Annexure A to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Group as of and for the year ended 31st March 2018, we have audited the internal financial controls over financial reporting of **EMAMI INFRASTRUCTURE LIMITED** ("the Holding Company"), its subsidiary companies and its associate companies as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company, its subsidiary companies and its associate companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal

control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI

and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by other auditors of the associate company in terms of their report referred to in Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the consolidated Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the consolidated Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the

Company are being made only in accordance with authorizations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control Over Financial Reporting issued by ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one associate company is based on the corresponding report of auditors of such Company.

Annexure B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **EMAMI INFRASTRUCTURE LIMITED** ("the Company") to the extent records available with us in conjunction with our audit of the standalone Ind AS financial statements of the Company as of and for the year ended 31st March, 2018.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note on Audit of internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the

Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the ICAI.

Notes to Consolidated Financial Statements

1. GROUP OVERVIEW

The consolidated Ind AS financial statements comprise financial statements of Emami Infrastructure Limited (the "Company" or the "Parent") and its subsidiaries and associates (collectively, the "Group") for the year ended 31st March, 2018. The Parent is a public limited company domiciled in India and is listed on the BSE Limited (BSE), The National Stock Exchange of India Limited (NSE) and The Calcutta Stock Exchange Limited (CSE). The registered office of the Parent is located at Acropolis, 13th Floor, 1858/1, Rajdanga Main Road, Kasba, Kolkata – 700 107.

The Group is carrying on the business of real estate development.

The consolidated Ind AS financial statements were authorised for issue in accordance with a resolution of the Board of Directors on 30th May, 2018.

1.1 BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended. These financial statements are prepared under the historical cost convention on the accrual basis except for following assets and liabilities which have been measured at fair value or revalued amount : a) Derivative financial instruments b) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments) c) Defined benefit plans – plan assets

1.2 BASIS OF CONSOLIDATION

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- b) Exposure, or rights, to variable returns from its involvement with the investee, and
- c) The ability to use its power over the investee to affect its returns.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent i.e., year ended on 31st March, 2018.

Consolidation procedure:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the Parent's investment in each subsidiary and the Parent's portion of equity of each subsidiary.
- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of Other Comprehensive Income (OCI) are attributed to the equity holders of the Parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

1.3 Significant Accounting Policies

1.3.1 Operating Cycle

The Operating Cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has evaluated and considered its operating cycle as 3 to 5 years and accordingly has reclassified its

Notes to Consolidated Financial Statements

assets and liabilities into current and non-current.

An asset is treated as current when it is:

- Expected to be realised or to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

1.3.2 Foreign Currency Transactions & Translations

The functional currency of the Group is Indian rupees. The Financial Statements of the Group are prepared & presented in Indian rupees and has been rounded off to the nearest Lakhs, unless otherwise stated.

Transactions in foreign currencies entered into by the Parent are translated to the Parent's functional currency at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date.

Foreign exchange gains and losses resulting from the settlement of transactions in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit & Loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rates at the dates of transactions. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date of the fair valuation. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

1.3.3 Fair Value Measurement

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All methods of assessing fair value result in general approximation of value and such value may never actually be realised.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- c) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Notes to Consolidated Financial Statements

1.3.4 Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) at the end of the reporting period and the reported income and expenses during the year. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

1.3.5 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.3.6 Property, Plant and Equipment

Property, plant and equipment are carried at cost of acquisition, on current cost basis less accumulated depreciation and accumulated impairment, if any. Cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the income statement when the asset is derecognised.

Depreciation is provided on written down value method over the estimated useful lives of property, plant and equipment and are in line with the requirement of Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.3.7 Intangible Assets

Intangible Assets are recognized only when future economic benefits arising out of the assets flow to the enterprise and are amortised on Straight Line method over their estimated useful life of five years. Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

1.3.8 Capital work-in-progress and intangible assets under development

Capital work-in-progress and intangible assets under development are carried at cost. Cost includes land, related acquisition expenses, development / construction costs, borrowing costs and other direct expenditure.

1.3.9 Investment property

Investment properties are properties held to earn rentals or for capital appreciation or both. Investment properties are held initially at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent costs are included in the asset's carrying amount or recognised as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repairs and maintenance are charged to Statement of profit and loss as incurred.

1.3.10 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

1.3.11 Inventories

Inventories are valued at lower of cost or Net Realisable value, except for construction work-in-progress which is valued at cost.

Construction work-in-progress includes cost of land, premium for development rights, construction costs, allocated interest and expenses incidental to the projects undertaken by the Group.

Notes to Consolidated Financial Statements

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

1.3.12 Revenue recognition

Revenue is recognized when it is probable that the economic benefits will flow and it can be reliably measured. Revenue is measured at the fair value of the consideration received/receivable net of rebate and taxes. The Group applies the revenue recognition criteria to each nature of revenue transaction as below:

Principles of Ind AS 18 in respect of sale of goods for recognising revenue, costs and profits from transactions of real estate which are in substance similar to delivery of goods when the revenue recognition process is completed; and

In case of real estate sales where agreement for sale is executed for under construction properties, revenue in respect of individual contracts is recognised when performance on the contract is considered to be completed.

Interest Income is recognised using the effective interest method and is included under the head 'Other Income' in the Statement of Profit and Loss.

Dividend Income including share of profit in LLP is recognised when the right to receive dividend is established.

All other incomes are recognised on accrual basis.

1.3.13 Employee Benefits

a. Defined Contribution Plan - Provident Fund

The Parent makes contributions towards provident fund to the regulatory authorities to a defined contribution retirement benefit plan for qualifying employees, where the Parent has no further obligations. Both the employees and the Parent make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

b. Defined Benefit Plan– Gratuity

The Parent's liability is actuarially determined using the Projected Unit Credit method at the end of the year in accordance with the provision of Ind AS 19 - Employee Benefits. The Parent recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in the Statement of Profit & Loss.

c. Long Term Compensated Absences

The Parent's liability is actuarially determined using the Projected Unit Credit method at the end of the year in accordance with the provision of Ind AS 19 - Employee Benefits. The Parent recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in Statement of Profit & Loss.

1.3.14 Income Taxes

Tax expense comprises current and deferred tax.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is provided using the balance sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Notes to Consolidated Financial Statements

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

1.3.15 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

For arrangements entered into prior to 1 April, 2016, the Group has determined whether the arrangement contain lease on the basis of facts and circumstances existing on the date of transition.

As a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on the borrowing costs (See note 1.3.17). Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments (net of any incentives received from the lessor) are charged to Statement of Profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

1.3.16 Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

1.3.17 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Notes to Consolidated Financial Statements

1.3.18 Earnings per Share

Basic Earnings per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

1.3.19 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

i. Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

ii. Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Debt instruments at amortised cost
- Equity instruments measured at fair value through other comprehensive income FVTOCI
- Equity instruments measured at fair value through profit and loss.

Debt instruments at amortised cost other than derivative contracts

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value other than equity investments measured at deemed cost on first time adoption of Ind AS as set out in Note. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVTOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

iii. De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- the Group has transferred substantially all the risks and rewards of the asset

Notes to Consolidated Financial Statements

iv. Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance

The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive, discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the group does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

b. Financial liabilities

i. Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, investment in subsidiaries and joint ventures, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

ii. Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include derivatives, financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL,

Notes to Consolidated Financial Statements

fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for doubtful debts.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year. The amounts are generally unsecured. Trade and other payables are presented as current liabilities unless payment is not due within the Group's operating cycle. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the lender for a loss it incurs because the specified borrower fails to make a payment when due in accordance with the terms of a loan agreement. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.3.20 Segment Reporting

Based on the "management approach" as defined in Ind AS 108 – Operating Segments, the Board of Directors / Chief Operating Decision Maker evaluates the Group's performance based on an analysis of various performance indicators by business segment. Segment revenue and expenses include amounts which can be directly attributable to the segment and allocable on reasonable basis. Segment assets and liabilities are assets / liabilities which are directly attributable to the segment or can be allocated on a reasonable basis. Income / expenses / assets / liabilities relating to the enterprise as a whole and not allocable on a reasonable basis to business segments are reflected as unallocated income / expenses / assets / liabilities.

Sensitivity Analysis :-

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumption occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

36. As per actuarial valuations as on 31st March, 2018 and recognized in the financial statement in respect of Employee benefit schemes (Contd.)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

There is no change in the method of valuation for the prior period

Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The Company has purchased an insurance policy to provide for Payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets as a result of such valuation is funded by the Company.

For Leave, the Scheme is partly managed on fund basis.

38. Fair Value Hierarchy

The table shown below analyses financial instruments carried at fair value. The different levels have been defined below:-

Level 1: Quoted Prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

b) Financial instruments at amortized cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled

c) During the year there has been no transfer from one level to another

Notes to Consolidated Financial Statements

39. Financial risk management objectives and policies

The Company's principal financial liabilities, comprise of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets includes loans, trade and other receivables and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's Management oversees the management of these risks and ensures that the Company's financial risks activities are governed by appropriate policies and procedures and that finance risk are identified, measured and managed in accordance with the Company's policies and risk objectives.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:-

A. Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counter party default on its obligations. The Company's exposure to credit risk arises majorly from trade receivables/unbilled revenue and other financial assets.

Other financial assets like bank deposits, advances and security deposits are with banks, government bodies, utility providers, contractors and others, and hence, the Company does not expect any credit risk with respect to trade receivables/ unbilled revenue and other financial assets.

With respect to trade receivables/unbilled revenue, the Company has constituted teams to review the receivables on periodic basis and take necessary mitigations whenever required. The Company creates allowance for all unsecured receivables based on lifetime expected credit loss.

The following table summarizes the change in the loss allowance measured using ECL

Allowance for Expected Credit Loss	-	-
As on March 31, 2017	-	-
Allowance for Expected Credit Loss	-	-
As on March 31, 2018	-	-

B. Liquidity Risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

The backup of cash and cash equivalents, deposits and investments is as below:

Total borrowings	1,90,202.05	1,61,410.16	1,23,440.80

Market risk is the risk that fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises two type of risk: interest rate risk and other price risk, such as equity price risk and commodity/real estate risk.

The sensitivity analysis in the following sections related to the position as at March 31, 2018 and March 31, 2017. The sensitivity analysis has been prepared on the basis that the amount of net debt and ratio of fixed to floating interest rates of debts.

Interest rate risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in interest rate. The entity's exposure to the risk of changes in interest rates relates primarily to the entity's operating activities (when receivables or payables are subject to different interest rates) and the entity's receivables or payables.

The Company is affected by the price volatility of certain commodities/real estates. Its operating activities require the ongoing development of real estate. The Company's Management has developed and enacted a risk management strategy regarding commodity/real estate price risk and its mitigation. The Company is subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

Interest rate sensitivity

The Following table demonstrates the sensitivity to a reasonably possible change in interest rate, with all other variables held constant. The impact on entity's profit before tax is due to change in the fair value of financial assets and liabilities.
