4.0 SEGMENT-WISE PERFORMANCE

4.1 Pellets

MOU target was 3 million tonnes of Pellet production under 'Good' category. Against this actual production during 2011-12 was 1.710 million tonnes which is 57% of the target.

Hon'ble Supreme Court of India on the advice of Central Empowered Committee:

- a. Banned the mining activities of Iron Ore in Karnataka with few exception in mining done by Companies like NMDC.
- b. Suspended the operation of long term agreement for sale of Iron Fines and directed that the Ore should be sold only through e-auction.
- c. Banned trading of Iron Ore Fines.

This resulted in NMDC and other private supplier invoking "Force Majeure" clause, to suspend Ore supply thereby adversely affecting its availability. This led to low capacity utilization at the Pellet plant.

4.2 Pig Iron and Auxiliary

Owing to generation of 'Negative Contribution', operation of Blast Furnace Unit (BFU) is suspended since 05-08-2009. The situation remains the same in 2011-12. Accordingly no target was set for Pig Iron production.

To make the unit viable, KIOCL Board has approved:-

- Setting up of 3 lakh ton capacity Coke Oven Battery along with 25 Mw capacity Captive Power Plant as backward integration and
- Identification of joint venture partner for setting up of Ductile Spun Pipe Plant as forward integration.

The Company has initiated action for the same.

- 4.3 The following table summarises the production performance during the last three years:-

5.3 Despatches in terms of quantity (in thousand dry metric tonnes) during the last three years are represented in graphic form below:

5.4 During the year, 38 shipments of Pellets were sold through New Mangalore Port as compared to 44 during 2010-11.

5.5 Market Scenario:

During the year 2011, World Iron Ore market witnessed high degree of volatility. Iron Ore prices experienced volatility. In spite of this, the World crude Steel production reached a level of 1,490.06 million tonnes which is about 5.4% higher year on year. China contributed for about 49% of the total World Steel production and India's share in World production is about 4.9% and occupied 4th position.

World Steel consumption is expected to grow by 4% - 6% during 2012 mainly due to expected increase in demand for creating infrastructural facilities in the emerging markets. Even though the growth projections are low, it is expected to increase demand stimulating additional production of Iron Ore.

Uncertainties associated with raw material supply in the World market are likely to continue in 2012. Existing supply sources face export restrictions in major exporting Countries. Abnormal weather conditions in countries like Australia are also likely to hamper Iron Ore supplies. New project realisation could be seriously limited due to difficulties in acquiring environmental clearances. In spite of uncertainties, Iron Ore prices are likely to remain stable during 2012.

The domestic Steel consumption is expected to grow by about 8%. However, the prices are likely to fluctuate due to delay in obtaining mining lease renewals & ban on Iron Ore mining in Karnataka. Pellet market is expected to witness over-supplies due to additional capacities that are being created both inside and outside the Country.

Distance based charges: The Company is a Port based manufacturing unit having its Pelletisation Complex at Mangalore. It enjoys 100% Export Oriented Unit status thereby clearly indicating that the Company's operations are export oriented for its product- Pellets. With the suspension of mining operations at Kudremukh mine site, the Company is procuring Iron Ore fines from NMDC Mines & transporting

the same to its plants at Mangalore by Rail or Rail cum Sea route. Railways have raised an issue regarding applicability of Distance based charges over and above normal freight on Iron Ore transported through Railway network for manufacture of Pellets meant for export. This has turned Pellets uneconomical for sourcing by overseas market. However, the Iron Ore so moved and utilised in the Steel plants for manufacture of steel and subsequent export does not attract Distance based charges. This benefit is not available for Pellets though it is a manufactured and a value added product, technically & commercially, like Steel but distinct from Iron Ore fines and Lumps. It is a clear violation of Article XIV of Constitution of India.

Accordingly, the issue of Distance Based Charge raised by Railways is challenged before the Hon'ble High Court of Karnataka through a writ petition. The Writ Petition is duly admitted and is pending before the Hon'ble Court.

6.0 PROFIT AND DIVIDEND

During the year under review, your Company has earned profit before tax of ₹ 115.39 crores on a turnover of ₹ 1521.08 crores in comparison to previous year's achievement of ₹ 99.95 crores and ₹ 1803.46 crores respectively. MANAGEMENT DISCUSSION AND ANALYSIS

i) INDUSTRY STRUCTURE AND DEVELOPMENT

The Company operates in the international Iron Ore market which is highly competitive and volatile. The demand for Iron Ore is a derived demand linked to the fortunes of the steel industry, which in turn, depends on the steel consumption pattern. Continued emphasis given by Govt. towards development of various infrastructure projects is boosting the demand for Iron and Steel consumption.

The Global recession which has a severe impact on the performance of the Company during the year 2009-10 has improved during 2010-11. The price of Pellets has shown signs of improvement from January 2010 onwards and has prompted the Company to increase production during 2010-11. The issue raised by Railways regarding applicability of Levy of Distance based charges over and above normal freight on Iron Ore transported through Railway net work for manufacture of Pellets and subsequent export has made the sale of Pellets in International market unviable. Export of Pellets has been stopped from September 2011. This has affected Production of Pellets during 2011-12. The plant has to be intermittently closed due to shed full condition. Production and sale of Pellets during the financial year 2011-12 was 1.710 Million Tonnes and 1.716 Million Tonnes respectively.

ii) SWOT Analysis

In the changing environment, the Company has identified the following strengths, weakness, opportunities and threats:

Strength

- Strong brand image for KIOCL Pellets.
- EOU status / Zero debt Company.

- Production of Pellets from locally available Hematite ore / or Magnetite ore.
- In-house R&D initiatives with production at rated capacity.
- Logistics -
 - Shore based Pellet plant with dedicated berth and automatic ship loading facility.
 - Private Railway Siding / Proximity to NH 66.
 - Proven adaptability to establish newer Ore supply routes in short span of time.
- Captive Power plant
- Skilled Manpower.

Weakness

- No Captive mine w.e.f 01-01-2006.
- Production units are generally located at mine head or consumption head. The loss of Kudremukh mines has denied this.
- Dependence on Iron Ore Fines procured from open market.
- Even under LTA, Iron Ore Fines prices are revised every quarter thereby LTA acquiring the characteristics of Spot Contract.
- Reduced margins due to fall in Pellet prices.
- BFU with no forward & backward integration.
- Holding mining and beneficiation assets at closed Kudremukh unit.

Opportunities

- Assets and skilled manpower readily available.
- Chikkanayakanahalli mines already allotted, Boundary dispute is being settled.
- Govt. of Karnataka has made informal assurance for allotment of Ramanadurga mines.
- Exploration of Long term arrangement for procurement of Iron Ore Fines and sale of Pellets.
- Exploring new avenues in acquisition of mineral assets.

Threats

- Water availability to our plants from Lakhya Dam, Kudremukh is in danger as written permission is not coming from Forest Dept. Govt. Of Karnataka.
- Low priority for availability of Rakes for Ore movement.
- Disputes/Delays in getting new mining leases.
- Migration of trained manpower.
- Installation of New / Expansion of Pellet production capacity in Private & Public Sector.
- Inflow of Pellet from Overseas at cheaper rates.
- Ban on export of Pellets produced from Ore procured from Karnataka which may get extended to other parts of India,
- Safety / Security & cost of holding idle assets at Kudremukh.

**iii) PRODUCT-WISE PERFORMANCE**

The following table summarises the production performance during the past three years:-

PP: Pellet Plant PI: Pig Iron Plant (Qty. in million tonnes)

Year	MOU target		Actual production		Capacity utilisation of installed capacity in %	
	PP	PI	PP	PI	PP	PI
2011-12	3.000	-	1.710	-	49	-
2010-11	2.780	0.100	2.124	-	61	-
2009-10	2.650	0.170	1.273	0.062	36	29

(Installed capacity of Pellet Plant is 3.500 million tonnes and Pig Iron is 0.216 million tonnes).

3 The Company is a 100% Export Oriented Unit. With the suspension of mining operations at Kudremukh mine site, the Company is procuring the Iron Ore fines from NMDC mines and transporting it to its plant at Mangalore by rail or rail cum sea route. The Railways are raising the RRs for transporting the Iron Ore through rakes which are promptly settled by the Company. As on date none of the RR is pending for payment or under dispute.

Railways vide letter No. H/C.474 Classification/11 dtd. 21.10.2011 raised an issue regarding the applicability of distance based charge over and above normal freight on Iron Ore transported through railway network for manufacture of Pellets and their subsequent export.

Iron ore fines and lumps attract distance based charge if the same are exported. However, the Iron Ore so moved and utilized in the steel plants

	Figures as at the end of current reporting period	Figures as at the end of previous reporting period
--	---	--

for manufacture of finished product and exported thereafter do not attract distance based charge. This benefit is not available to Pellets though it is a manufactured, and value added, technically and commercially distinct product. This is a clear violation of Article No.14 of Constitution of India which guarantees equality before law. Accordingly, the issue raised by Railways is challenged before the Hon'ble High Court of Karnataka through a Writ Petition. The Writ Petition is duly admitted and is pending before the Hon'ble Court. Railways have not raised any quantified claim in this regard.

- 4 The Company has applied for a prospective licence of Khandhadhar deposit in Jharsuguda district, Odisha. The area identified is having low grade Iron Ore deposit and as project utility could be established only after detailed study, the Company has carried out exploration work in that area and incurred an amount of ₹ 239.38 Lakhs. Govt of Odisha rejected the PL prospecting licence (PL) application and recommended for grant of PL in favour of POSCO India Private Limited. The Company has filed a writ petition in the Hon'ble High Court of Odisha challenging the same. The Hon'ble High Court of Odisha quashed the recommendation of the State Govt in another case filed by M/s Geomine Orissa. In the said order court did not give any relief to Geomine Orissa. Hence, that Company filed a SLP before the Hon'ble Supreme Court. KIOCL being an interested party got impleaded in the said SLP. The matter is before the Hon'ble Supreme Court. Hence above amount is shown under the head of account "Capital Work in Progress".
- 5 Expenses incurred towards generation of power have been included under the primary heads of account.
- 6 Mangalore Pellet Plant is the outcome of Kudremukh activity for Ore, for beneficiated Concentrate and also water. Consequent upon the judgement of Hon'ble Supreme Court, mining and beneficiation activities were seized w.e.f. 01.01.2006. However,

**Figures as at the end

reporting period****Figures as at the end

Mangalore Pellet Plant and also Blast Furnace Unit draw the required water from Lakya Dam at Kudremukh. Dam maintenance activity from the safety point of view and maintenance of water drawal system which include electrical and pipeline maintenance (67 KMs long of which 14 KM passes through National Park area) are still continuing.

Stoppage of water will result in immediate closure of Pellet Plant. Accordingly, Kudremukh installation is maintained as a part of Mangalore Pellet Plant. Though, mining and beneficiation is not taking place, the Department continues to exist and is looking for alternative mining site for operation both in India and abroad. As such, Kudremukh installation is a working unit as on date, in view of the above brief. As such, the expenditure of Kudremukh installation is allocated to Pellet Plant. Note No 4 of Schedule 16 to the accounts for the year 2010-11 disclosed that Kudremukh area where mining operations were stopped by the Hon'ble Supreme Court as discontinuing operation. As per the amended Schedule VI to the Companies Act, 1956 the results of continuing operation and that of discontinuing operations are to be disclosed separately. In the light of the amended Schedule VI, a fresh review of the situation was made. After the review, it is felt that major portion of the activities like dam maintenance for safety and water supply to Mangalore units are continuing. Only mining operation is discontinued. As such, it is decided that the discontinuing of operations as per Accounting Standard (AS)-24 is not applicable and accounts are presented accordingly. There is no monetary effect due to this withdrawal of disclosure.

- 7 In pursuance of the directive of the Hon'ble Supreme Court, mining activities at Kudremukh were stopped with effect from 1st January 2006. The Company filed a Petition for Direction with prayers, inter-alia, to permit utilisation of 54.01 hectares of land required for the purpose of safety and slope stability of the mine, at the time of closure of the mine.

Indian Bureau of Mines (IBM) has approved final mine closure plan (FMCP) of Kudremukh Iron Ore mine and the same was communicated vide letter no. MS/CMG/Fe-38-52 dated 06.05.2005. The expenditure towards mine closure, as per the approved plan, is ₹ 2,79,04,500.

The Hon'ble Supreme Court, in its judgement (December 2006), directed IIT Delhi to issue global tender for, inter-alia, re-analysing the stability of slopes, drawing up of mine closure plan, implementation of the above plan and drawing up of detailed terms for the work to be done, consistent with basic paradigm of "no or minimal disturbance to unbroken area" The expenditure for this purpose was to be met out of ₹ 19 Crores deposited by the Company and which is presently lying with the Adhoc Compensatory Aforestation Fund Management and Planning Authority (Adhoc CAMPA). The Court has also directed that if any funds are required in excess of the aforesaid amount, the agency or the designated officer shall move the Court for necessary direction.

IIT New Delhi is yet to start the process as directed by the Hon'ble Supreme Court. Under the above circumstances, the Company is unable to take any independent action.

Since the amount of ₹ 19 Crores paid by the Company to Central Empowered Committee is already lying with the Adhoc-CAMPA which is much more than the expenditure for mine closure as envisaged in the IBM approved final mine closure plan i.e. ₹ 2,79,04,500, no further provision for expenditure for mine closure at Kudremukh in the Books of Account is felt necessary.

- 8 The 'mines & plant assets' in respect of Kudremukh establishment can be effectively utilised on relocation and/or disposed off. A substantial portion of such assets have been depreciated in full and the realisable value is estimated to be higher than the carrying value. Hence there is no impairment

- 10** The Provident Fund of the employees is managed by the Kudremukh Iron Ore Company's Employees' Provident Fund Trust and is administered by the trustees nominated by the Company. The rate of interest payable on the contribution is determined by the Govt of India and is binding on the Trust. Based on the financial instruments held by the Trust and the yield there upon the Company anticipates a short fall in its earnings during the current and future years. The Present Value of the obligation on account of such Interest guarantee, as estimated on Actuarial basis, works out to ₹ **39.11** Lakhs (Previous year ₹ 776.33 Lakhs) as at the Balance Sheet date. Excess provision of ₹ **737.22** Lakhs has been withdrawn during the year as provision no longer required and included under "Other Income".
- 11** Pending revision of pay scales of non- executive employees with effect from 01.01.2012, a provision of ₹ 84.69 lakhs is made during the year. The same is included in 'Employees Benefit Expenses.
- 12** As per the guidelines of Department of Public Enterprises, Central Public Sector Enterprises are allowed to extend 30% of Basic Pay plus Dearness Pay as Superannuation Benefits including Contributory Provident Fund, Gratuity and other specified superannuation benefits. The Company

--	---	--

has revised the pay scales, with effect from 01.01.2007, in accordance therewith and provision towards superannuation benefits has been made accordingly. The Company is contributing around 16% of Basic Pay and Dearness Pay towards Contributory Provident Fund and Gratuity benefits. The balance 14%, amounting to ₹ 871.33 Lakhs (Previous year ₹ 3,209.35 Lakhs for the period from 01.01.2007 to 31.03.2011) has been provided during the year towards other Superannuation benefits.

- 13** During the year 27 employees of the Company have opted for Voluntary Retirement. Out of them, one has been released during the year and the remaining 26 employees will be released during the year 2012-13 on their specific request. Total VRS compensation paid and payable amounting to ₹ 583.54 Lakhs has been charged off during the year shown under “Employees Benefits expense”.
- 14** During the year 2009-10, the Company had undertaken R&D efforts to determine viability of Doni Ore filtration through the existing system without mixing ore from Bailadila region. The R&D efforts were successful and enabled the Company to have future economic benefit in cost saving. Accordingly, the expenditure on this amounting to ₹ 1,924.98 Lakhs was recognised as “Process Development Expenditure” to be amortised over three years including the year 2009-10 and treated as an Internally Generated Intangible Asset disclosed as “Process Development Expenditure” under Fixed Assets. The policy on Amortisation of such expenditure over a period of three years is being continued. Accordingly, an amount of ₹ 641.66 Lakhs (Previous year ₹ 641.66 Lakhs), has been amortised during the year.
- 15** As per Accounting Standard (AS)-2 - “Valuation of Inventories”, the raw materials for production of Pig Iron (including Auxiliaries) are required to be written down to their “Net Replacement Costs”, since the cost of the finished product,

**Figures as at the end
of current
reporting period**

Pig Iron, exceeds its Net Realisable Value (NRV). Accordingly, a provision was made during the year 2009-10

There has not been any substantial improvement in the "Net Realisable Value" of Pig Iron during the year. Therefore, an amount of ₹ 1,790.65 Lakhs, the provision made in earlier years is retained as at the Balance Sheet date.

- 16** Due to unviable price of Pig Iron, Blast Furnace Unit (BFU) is not operated during the year. The Company is proposing forward and backward integration by setting up of DISP Plant and Coke Oven Plant to make the operation of BFU economically viable. In principle approval for the same has been obtained from the Board.
- 17** During the year, the Company has used the entire stock of slime containing ultra fine Iron Ore of 24,751 MT (Previous year 19,712 MT) of slime in Pellet production by blending the same with virgin Iron Ore. Consequently, ₹ **905.51 Lakhs** (Previous year 721.15 Lakhs) has been withdrawn during the year from the provision made in earlier years.
- 18** The Company is having two reporting business segments i.e., 'Iron Oxide Pellet' and 'Pig Iron'.
