Forward looking statement

In this Annual Report, we have disclosed forward-looking information to enable shareholders to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected, of which the readers should take note of. We undertake no obligation to publicly update any forward-looking statements, whether because of new information, future events or otherwise.

Our goal is to deliver superior returns to our stakeholders through a well-thought and disciplined growth strategy.

Over the years, Sarda Energy & Mineral Limited (SEML) has demonstrated a clear articulation of business expansions and potential market opportunities leading to superior returns. Being the first-movers in pelletisation in Chhattisgarh, having a vertically integrated steel facility with raw material sourcing and adopting efficient means of operations with best-in-class technologies, the Company has delivered superior performance with a sustainable foresight.

A landmark performance by the Group!

Message from the CMD

Dear Shareholders,

It gives me a great pleasure to report that our performance in 2017-18 has been the best ever, both operationally as well as financially. The results achieved during the year clearly reflect our philosophy of disciplined planning and execution of the growth-accretive strategies. We are neither over-aggressive nor dormant. We have always taken step-by-step approach towards maintaining a strong financial health of the Company, allowing us to sail through even in the toughest of times. As the business environment improved, the positive impact was visible in our performance. We have focussed on backward integration and have gradually ramped up Iron Ore production capacity. Today, our different business divisions complement each other, thereby increasing overall efficiency and profitability. The results are clearly visible.

On consolidated level, we achieved record production of pellet, steel billets, wire rods, ferro alloys and hydropower. We have achieved record turnover of ₹ 2,200 Crore, EBITDA of ₹ 470 Crore and

profit of ₹ 200 Crore, each growing 41%, 66% and 62%, respectively as compared to previous year. Our earnings per share has increased from ₹ 36 to ₹ 56 recording a 56% increase in the EPS. The Company also declared highest ever dividend of ₹5 per share, rewarding all our shareholders for the faith and confidence showed by them in the Company and its management

The Indian Government continued to drive reforms across sectors to improve transparency and boost investments in the country. One such revolutionary reform was the implementation of Goods and Services Tax (GST). The new tax mechanism resulted in some transitory pain for a few months. Despite this temporary lull, India emerged as a fast growing major economy with 6.7% growth in GDP. There was a strong revival in the country's investment and consumption. Besides, there has also been encouraging development in the steel industry. This has been a great positive up-cycle with India overtaking Japan to become the world's second largest steel

producer. Thanks to Government's increasing impetus on improving country's infrastructure and promoting initiatives like 'Housing for all' and smart cities development. This will enhance the demand for steel products and benefit us.

On the backdrop of a favourable positive steel cycle for next five to seven years, as anticipated by us, we have initiated expansion programs of our steel-production capacity at Raipur and ferro alloys production capacity at Visakhapatnam. Besides, we are also enhancing our pellet production capacity by 2 lakh metric tonne without incurring any additional capex, environment clearances for which are awaited.

On the hydropower front, we commissioned our 24-megawatt hydropower plant at Gullu, in Chhattisgarh. Our strategic foray into hydropower is a conscious attempt to generate green energy and add perennial stream of cash flow to sustain the down turn and de-risk ourselves from the cyclical effect of the steel industry. There has been very low capacity addition in the hydropower generation as against a sequential rise in demand over the past few years. This would allow us to fetch higher realisations per unit going ahead. As a result, we are quite bullish about our upcoming hydro project in Sikkim. It will significantly add to our revenues and strengthen our bottom line, once it comes in stream in the financial year 2019-20.

At SEML, we have consistently focussed towards driving efficiencies. Over the past five to six years, we have continuously demonstrated several cost-

reducing initiatives across our operations. Besides, an equal attention has been given to the safety and environment, waste recycling and improving recoveries, leading to improved margins.

As a responsible corporate, we have always given an equal attention to the communities residing at our plant's vicinity. We have adopted 90 single-teacher schools in the tribal areas of Chhattisgarh for providing basic education. We have actively sponsored medical facilities and provided assistance in the primary healthcare across villages. We also operate a well-equipped ambulance with doctors and have set up basic first-aid facilities in the villages surrounding our iron ore mine. We have extended financial assistance for educational purposes including infrastructure facilities, salaries to teachers, bus facilities for children, etc.

As a closing note, I would simply like to state that we have been strategically expanding our ongoing operations and scouting for future growth through the underlying industrial opportunities. I would like to acknowledge the efforts of our employees and the leadership team for successfully implementing company's execution strategies. I also thank the respected Board Members for their able guidance. And, lastly, I would like to thank our stakeholders for believing our story and being a part of our growth journey.

Yours sincerely,
Kamal Kishore Sarda

Review of performance

The year 2017 was marked by a number of key structural initiatives to build strength across macro-economic parameters for sustainable growth in the future. The growth in the first half of the year suffered despite global tailwinds. However, the weakness seen at the beginning of 2017, seems to have bottomed out as 2018 set in. Currently, the economy seems to be on the path to recovery, with indicators of industrial production, stock market index, auto sales and exports having shown some uptick. We believe that India's economic outlook remains promising and is expected to strengthen further in FY 18-19. However, the signs of green shoots should not be taken for granted as downside risks remain.

The year gone by has been historic in terms of achievements. During the year your Company achieved highest ever iron ore, Pellet, Billet, wire rod, ferro alloys and hydro power production, highest ever export and also highest ever revenue and profit. The production of other products were also in line with previous year. During the year, the Company had undertaken replacement of second turbine with a new energy efficient turbine which got completed in March 2018. The Company also operated its iron ore mine for the full year. Your Company fulfilled all its financial obligations on time. The Debt-Equity ratio of your Company as on 31st March, 2018 stood at 0.10:1 as against 0.16:1 in the previous year.

During the year, your Company at standalone levels, exported 8,578 MTs of ferro alloys as against 3,532 MTs in previous year. Your Company also exported 2,705 Mts of Wire Rod for the first time. During the year, your Company for the first time, exported 15,195 MTs of iron ore pellets through merchant exporter.

Stakeholders are requested to refer the detailed analysis of the performance given in the Management Discussion and Analysis Report appended hereto.

No material changes and commitments have occurred after the close of the year till the date of this Report, which affect the financial position of the Company. Further, there was no change in the nature of the business of the Company during the year.

Dividend

Your Directors are pleased to recommend dividend of ₹ 5/- (i.e. 50%) per equity share for the financial year 2017-18 which is also highest ever dividend declared by the Company (last year ₹ 4/- per equity share). The dividend if approved by the shareholders in the ensuing Annual General Meeting will be paid as per the applicable provisions.

During the year, your Company has transferred the unpaid dividend amount in respect of the F.Y. 2009-10 to the Investor Education and Protection Fund.

During the year, a sum of ₹ 1,043 lakh has been transferred to General Reserves from Debenture Redemption Reserve on account of full redemption of the Non-convertible Debentures issued by the Company.

Subsidiaries / Controlled Entities / Joint Ventures

During the year, your Company exited from one of the Joint Ventures – Godawari Natural Resources Limited, which was

Directors' Report

formed for acquisition of mines. No mines were acquired in the company. During the year, due to allotment to another promoter company towards its commitment in the project cost, there is a slight reduction of 2.92% in the stake of the Company in Madhya Bharat Power Corporation Limited.

A brief on the performance/business operations of subsidiaries/controlled entities/joint ventures consolidated with your Company is given hereunder:

Subsidiaries

- **Sarda Energy & Minerals Hongkong Limited, Hongkong (SEMHKL)**, is a wholly owned subsidiary, functioning as global investment arm of your Company. During the year under review, the subsidiary reported a net profit of ₹ 14.27 crore as against net profit of ₹ 25.64 crore in the previous year. The company has paid a dividend of USD 2.25 Mn during the year (Pr. Year NIL).
- **Sarda Global Venture Pte. Limited Singapore (SGV)**, a wholly owned subsidiary, has acquired economic interest in coal mines in Indonesia. The company has entered into a JV with Indorama group for the coal mine in Indonesia. The mining activities have started. During the year under review the venture extracted 1,23,656 MTs of coal. The subsidiary reported a net loss of ₹ 1.63 crore as against net profit of ₹ 0.90 crore in the previous year.
- **Sarda Global Trading DMCC, Dubai (SGT)**, a wholly owned subsidiary, has been incorporated in March, 2018 with the object of trading in metals ores and firewood. The Company is yet to start its activities. Your Company has paid the initial capital in SGT during the current financial year (2018-19).
- **Sarda Metals & Alloys Limited (SMAL)**, a wholly owned subsidiary is operating 2 x 33 MVA Ferro Alloys plant backed by 80 MW captive thermal power plant. During the year, power generation was 499.37 MU as compared to 488.89 MU in the previous year. The ferro alloys production stood at 83,760 MTs as against 61,578 MTs in the previous year. The company is not able to utilise its power generation capacity at full level due to poor demand and uneconomical price of power in open market. The annual power supply contract with Telangana Discom expired in May, 2017. The company is planning to increase the capacity of Ferro alloys plant to utilise the surplus power capacity. This will further improve operating and financial performance of the company.

However the Company achieved growth of 126% in the exports achieving export of 75,650 MTs against 33,468 MTs in the previous year. The Company is a recognized Two Star Export House.

As reported earlier, the company has abandoned the project. The funds lying idle with the Company have been invested in Madhya Bharat Power Corporation Limited as part of promoters' contribution. During the year under review, the subsidiary reported a net profit of ₹ 0.20 crore as against net profit of ₹ 0.92 crore in the previous year.
- **Parvatiya Power Limited (PPL)** is operating 4.8 MW Loharkhet Hydro Power project in Bageshwar district of Uttarakhand. The Plant is set up on River Sarju. The Company has supplied 182.67 lakh KWh (Previous Year 190.98 lakh KWh) to the state grid. The variation in generation was mainly because of delayed monsoon. The plant enjoys debt free operations since financial year 2017-18 post repayment of entire term loan availed for construction of the project. It is proposed to enhance the capacity of the Plant by setting up an additional unit of 2.5 MW. This will improve the generation of power during the rainy season.

During the year, the Company has earned profit after tax of ₹ 5.22 crore (Previous Year ₹ 3.22 crore). During the year, the Company has made investment in M/s Sarda Dairy & Food Products Limited resulting into increase its holding from 18.06% to 19.90%. Your Company continues to hold 51% stake in PPL.

The company is pursuing with the Railways for getting refund of ₹ 5 crore deposited as security for siding at Odisha. Your Company holds one third share in the Joint Venture.
- **Madanpur South Coal Company Limited (MSCCL)**, a SPV was allotted Madanpur South Coal Block in consortium. The Supreme Court had cancelled all coal block allotments. During the FY 2017-18, MSCCL has received compensation of ₹ 3.38 Crore towards cost for Geological Reports from the Coal Controller. Since no further business activity is planned, MSCCL has utilized part of these funds to buyback part of the equity shares. All the JV partners, except M/s

Directors' Report

Akashya Ispat Udyog Private Limited. (AIUPL), have tendered the shares against the above buyback in proportion to their respective shareholding in MSCCL. Due to non-tendering of shares by AIUPL, the stake of your Company has reduced from 20.63% as on 31.03.2017 to 20.13% as on 31.03.2018. MSCCL still holds certain assets, including land, acquired for the project. MSCCL would be wound-up after disposal of these assets.

A report on the performance and financial position of each of the subsidiaries, associates and joint ventures as per the Companies Act, 2013 and their contribution to the overall performance of the Company during the period under report is provided as part of the Consolidated Financial Statements and hence not repeated here for the sake of brevity. Secretarial Auditor

The Board has appointed S.G. Kankani & Associates, Practicing Company Secretaries, to conduct Secretarial Audit for the financial year 2017-18. The Secretarial Audit Report for the financial year ended 31st March, 2018 is annexed herewith marked as **Annexure E** to this Report.

With reference to the comment of the secretarial auditors regarding non-submission of information to Calcutta Stock Exchange, your Directors wish to inform that the Company had complied with all requirements for delisting of its shares from Calcutta Stock Exchange (CSE) in February, 2004. The delisting application is still pending on the part of CSE. In view of the pendency of delisting application, the Company has stopped sending any information to the Calcutta Stock Exchange and has also reported the matter to SEBI.

With reference to the comment of the Secretarial Auditor regarding delay in submission of Financial Results for the Financial Year ended 31st March, 2017 with BSE Limited & National Stock Exchange of India Limited, your Directors wish to inform that the Board Meeting of the Company was convened on 30th May, 2017 for approval of the Financial Results. However, for want of quorum, the meeting was adjourned and the adjourned meeting was held after seven days i.e. on 6th June, 2017, as per the provisions of the Companies Act, 2013. As a result, the above delay occurred.

Corporate Social Responsibility (CSR)

With the objective of sustainable development and continual improvement, your Company adopts a voluntary and proactive approach to CSR to connect with the society by creating a sense of belonging. Your Company strives for sustainable development programs in partnership with the community.

Members are requested to refer the Corporate Governance Report forming part of this annual report for the composition of the CSR Committee. The CSR policy of the Company is available on the website of the Company – www.seml.co.in under the head corporate governance/policies under the Investors' section. The annual report on the CSR activities is annexed as **Annexure F** to this report.

The Company's CSR initiatives usually involve setting the foundation of various programs at a small scale to learn from on-ground realities, getting feedback from community and then putting an enhanced sustainable model to ensure maximum benefit to the community. During the year, the Company's spend on the CSR activities has been marginally less than the required amount. The amount spent on CSR fell slightly short of the required spending due to ongoing CSR activities where some activities were under completion as at the end of the year for which the funds were to be released after completion. Accordingly, the amount short spent shall be spent during the year 2018-19.

Management Discussion and Analysis

The operating and financial review is intended to convey the Management's perspective on the financial and operating performance of the Company for the Financial Year 2017-18. This Report should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the Annual Report. This report is an integral part of the Directors' Report.

INDUSTRY STRUCTURE AND DEVELOPMENT

Global Economy

The Global economy, in 2017, experienced a cyclical recovery, reflecting a rebound in investment, manufacturing activity and trade, encompassing more than half of the world's economies. This improvement comes against the backdrop of rising profits, firming commodity prices and improved business sentiment across economies. The global economy is steadily moving ahead with a growth forecast of 3.1% in 2018 projected by the World Bank.

However, disorderly financial market movements, such as an abrupt tightening of global financing conditions or a sudden rise in financial market volatility, could trigger financial turbulence and potentially derail the expansion. In addition, increasing interest rates, escalating trade protectionism or rising geopolitical risk could also negatively affect confidence, trade, and overall economic activity.

Indian Economy

The year 2017 was marked by a number of key structural initiatives to build strength across macro-economic parameters for sustainable growth in the future. The thrust of the government has been to tackle long term issues such as tax reforms, creating enabling infrastructure, etc. Initiatives like the GST, accelerated infrastructure investments by the government, bank recapitalization and the bad loan resolution framework are all helping the industry and stakeholders look forward to a better tomorrow. Additionally, some improvements on the industry sector emanated from a steady rise in utilities and a revival in manufacturing activity. This turnaround in production levels is possibly a reflection of growing consumption demand.

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF) and it is expected to be one of the top three economic powers of the world over the next 10-15 years. India's GDP is estimated to have increased 6.7% in 2017-18 and is expected to grow 7.3% in 2018-19.

Currently, the economy seems to be on the path to recovery. We believe that India's economic outlook remains promising and is expected to strengthen further. However, the signs of green shoots should not be taken for granted as downside risks remain. Even as broad economic indicators point toward sustained recovery and improving optimism, the Indian economy is still at cross-roads with growth and opportunity being challenged by policy issues, global economic protectionist measures, oil prices and subsequent challenges on the monetary front. Managing these issues by the government and the central bank will determine the pace and direction of growth for all sectors in India.

Iron and Steel

During 2017, global crude steel production reached 1,691 mt, up 5.3% y-o-y. Steel production increased in all the major regions with China producing 832 mt of steel, up 5.6% y-o-y. Steel production in the EU and North America increased 4.8% and 4.1% to 116 mt and 169 mt respectively. During 2017, global steel consumption registered a growth of 2.8%, driven by strong demand from China.

India's steel production grew 6.2% y-o-y to 101 mt in 2017. India has surpassed Japan to become the second largest producer of steel in 2018. During 2017, steel consumption grew by around 5.2%. Lag in consumption growth was mainly due to implementation of economic policies like demonetization and GST, which impacted demand for short period of time. Rapid urban population growth, substantial government investment in infrastructure, expansion of housing and manufacturing sector will aid steel consumption growth in India.

However, issues related to land acquisition for green field projects, obtaining mining leases, approvals, transfer of title, etc. continue to hinder the growth of industry. Infrastructure and logistics— availability and costs— also hinder competitiveness of the iron and steel industry. There are significant deficiencies in infrastructure to support the material movement in huge volumes.

Government of India's focus on infrastructure and restarting road projects is aiding the boost in demand for steel. The National Steel Policy (NSP) 2017, envisages, by 2030, the per capita steel consumption at 160 kg & the total steel capacity at 300 Million tones. Overall, the macro-economic situation looks better than previous year. While Global steel industry continue to grapple with over capacity, weak demand growth, dumping of steel at predatory prices by some countries & volatile input prices; improving growth momentum in advanced & key emerging markets & broad-basing of trade remedial measures will provide stability to steel industry.

Management Discussion and Analysis

Sponge Iron

On the back of supportive policy environment and improved performance, Indian sponge iron industry has got a big boost. India is world's largest sponge iron producer with an annual installed capacity of 46-47 MT. India is followed by Iran which is second in the production of DRI.

During 2017-18, Indian, sponge iron production was 23.92 MT as against 21.08 mt in the previous year, registering an increase of 13.47%. Production of Gas based plants increased by 8.20% to 7.61 mt, whereas the production of coal based plants increased by 16.13% to 16.31 mt. During FY2018-19, domestic sponge iron production is expected to increase by 10%, mainly due to increased availability of iron ore and iron ore pellets. Globally too, due to positive sentiments in the steel market, sponge iron production has increased. With the new DRI plants coming up that uses the PERED (joint Iranian – German) technology, Iran is set to become the top producer of DRI in the world soon. India needs to come up with DRI production that must be competitive by global standard and is environmental friendly.

Ferro Alloys

Ferro Alloys finds extensive application in the manufacturing of different grades of steel. Growing demand of higher strength steel, due to lack of viable substitutes, in end-user industries will be an important driver for the global ferro alloy market.

Over last decade, average Manganese content per ton of carbon steel has increased by 10% and would continue to rise due to following factors:

- Increase in structural steels consumption for infrastructure and buildings, which requires strength, so tend to have high manganese content
- Chinese building / earthquake resistance standards will continue to tighten, leading to higher Mn content in steel (especially rebar)
- Strong demand potential from India and other early-stage developing nations
- Increasing use of high-strength steels in automotive sector

With the increase in crude steel production, there will be 4.5 MnT additional requirement of Mn alloys by 2025. Helped by continued strength in global steel production, prices for both, Mn ore & alloys is expected to remain buoyant in most regions of the world.

Ferro Alloys is a power intensive industry with power contributing to a substantial component in total production cost. Presently, most of the Ferro Alloys manufacturers are also engaged in generation of power for captive use. With increase in energy prices coupled with depreciation in the value of rupee against the US dollar, coal imports for fulfillment of fuel needs of the country, has become expensive resulting in to increase in power costs. The industry is quite dependent on imports of manganese ore, coke and coal due to insufficient availability in the country.

Owing to the lack of a viable alternative that can meet the diverse applications, the future of the global ferroalloys market is healthy, expanding at an estimated CAGR of 5.9% during the forecast period of 2017 to 2025. The prosperity of the building and construction industry in a number of emerging economies is another key driver of the global ferro alloys market, wherein the development of lightweight and high strength steel grades is expected to open new opportunities. The market for ferroalloys, worldwide, is projected to reach a valuation of US\$188.7 bn by the end of 2025, significantly up from its evaluated worth of US\$112.8 bn in 2016. On the other hand, stringent governmental regulations pertaining to the environment and high operational costs in terms of mineral resources, raw materials, energy, machinery, transportation costs, and labor costs are two glaring restraints over the global ferro alloys market.

Power

India is the third largest producer and fourth largest consumer of electricity in the world. India also has the fifth largest power generation capacity in the world. Sustained economic growth continues to drive electricity demand in India. However the rate of growth is slowing down year after year after FY 2014-15. From growth of 8.43% in FY 2014-15 it has come down to 3.95% in FY 2017-18. The thermal power dominates installed capacity constituting 64.8% of installed capacity followed by renewable power (20.1%), hydro (13.2%) and Nuclear (2%). The Govt.'s focus on renewable energy has yielded results and during FY 2017-18 renewable energy generation recorded growth of 23.48%. Hydro power recorded negative growth of 3.07%.

The sector is suffering from over capacity due to huge capacity addition of 1,20,000 MW in 12th 5year plan on the base of 2,00,000 MW resulting into idle capacity and loan repayment default. Banks have stopped financing capacity addition in thermal power sector. The demand-supply gap is compressing with tapering capacity additions and accelerated retirements of old capacities. This also reflects in the improving plant load factor (PLF), or capacity utilisation in FY18, and a rebound in merchant tariffs. Similarly, after seven years of decline, industry PLF improved by 100 basis points

Management Discussion and Analysis

year on-year to 51% (excluding renewables) and by 100 basis points to 58% in case of only thermal (coal and gas) power capacities. The Government of India's focus on attaining 'Power for all' has also accelerated demand growth in the country.

India's power sector, dogged by supply overhang and debt for long, is showing early signs of revival. While coal supplies are improving backed by government's initiatives such as supply of coal under "Shakti", companies continue to face headwinds on various fronts. The power sector continues to remain in darkness as companies barely managed to grow, led by rising input cost, lack of a power purchase agreements (PPA) and subdued merchant rates. Availability of coal continues to remain a big issue. A part of this is due to logistic issues, which is hampering evacuation of coal.

Opportunities and Threats

Opportunities

The Steel and power sector suffered a severe downturn on the back of huge capacity addition and cancellation of captive coal mine allotments. This resulted into many companies defaulting in their financial commitments, under capacity utilization and closure of many of plants. This also built up huge non-performing loans for banks, challenging their survival. The Govt. and RBI has come out with a framework for speedy resolution of such non-performing loans through IBC. This provides a big opportunity to the companies who survived this downturn and have strong financials to avail such opportunities. Your Company is among such companies.

For the next 25 years, India will require huge investment for infrastructure development. Investment will be required across all sectors ranging from road, airports, shipping, power, logistics and telecom. Steel consumption for housing construction is also likely to rise due to the "housing for all" initiative which aims to build around 12 million units in urban areas over next three years and 10 million units in rural areas by 2019.

Over the years, India's low-cost skilled manpower has attracted various industries including petroleum products, machinery and equipment, textiles and leather products. Several companies in these industries have announced expansion plans (including building new manufacturing plants/facilities) to address the growing demand, leading to a higher intake of steel. Additionally, demand from automobile industry and expansion of the pipeline network for transporting petroleum products is also set to increase the demand for steel.

Sponge Iron is no longer considered as an alternative to scrap rather it is considered as a raw material for steel making. It is being used as a principle raw material and is charged at 40-80% of the charge mix in furnaces. As per the National steel policy, the crude steel production target for India is set at 300 MnT by 2030. Share of sponge iron in steel making will be 80MnT, which will create huge opportunity for sponge iron industry and the growing demand for steel will also drag upwards, the demand for ferro alloys.

The increasing environmental awareness and Govt. push provides a lot of opportunity in Renewable energy sector. Your Company is having allocation of multiple small hydro power projects and plans to execute all these projects. Having gained experience in this field your company is well placed to take advantage of emerging opportunity in this field.

The Company foresees a good opportunity and base for growth in its core area of operations owing to strong manufacturing base, developed infrastructure, sufficient land in possession, environmental clearances, strong financials and available mineral resources.

Threats

India may be a destination for imported steel flows diverted from global trade, consequent to trade protection measures adopted by many importing countries. Particularly, steel imports from South Korea and Japan may surge due to the US imposition of a 25% duty. Chinese exports have also slowed down considerably. In the current scenario where steel demand is slowing down in China and exports to the US are restricted, Chinese exports may seek to re-enter a growing Indian market, again directly or indirectly.

Presently there are no visible threats in the short and medium term in the sponge iron industry. However smooth availability of key raw materials and environmental concerns might pose significant challenge in the future.

The manganese alloy industry faces an adverse competition in exports from the product of Malaysian origin owing to low costs of energy in that country. However that is substantially offset by other higher production costs in that country. Weaknesses in the power sector in terms of large underutilized capacities, muted demand, bunched capacity addition, soft merchant power prices, lack of power purchase agreements and weak discoms may pose threat to the competitiveness of the power industry.

Outlook

As per the World Steel Association ('WSA'), global steel demand is expected to grow at 1.8% in 2018 to 1.62 billion tonnes and a further 0.7% in 2019 to reach 1.63 billion tonnes. Broad-based global growth momentum is expected to

Management Discussion and Analysis

aid growth in advanced as well as developing markets. However, possible escalation of trade tensions between US and China and rising inflationary pressure due to oil prices poses a significant risk to the outlook.

The domestic consumption story is positive as is evident in the demand pull visible across various sectors. India's prospects continue to remain bright considering that India's per capita consumption is one-third of the global average and government intends to increase it to approximately 160 kg by 2030. Government is also driving the economy by investing in various infrastructure projects. Favourable domestic demand and remunerative prices in both domestic and international markets are likely to bolster steel production further in the years to come, resulting into more demand for sponge iron. The captive mineral resources provide competitive advantage to your company with scope for sustainable expansion.

However, disagreement in economic policies and performance across regions, continued volatility in currency, commodity and capital markets will continue to affect the industry. Ferro Alloys is purely dependent on the demand for steel in the country. Although, the picture for India in terms of steel demand looks bright, many major steel companies are under stress due to debt burden on the balance sheet. Further, cheaper steel imports from countries like China can cause havoc to the domestic steel companies which can impact the demand for Ferro Alloys. Highly volatile prices of Chrome ore and manganese ore also pose a risk to the realizations of the domestic ferro alloy producers.

With the Government focusing on increasing the non-renewable energy, the Company with its presence into the hydro power segment through its subsidiaries offers a bright future in this segment. The Company, being an integrated steel and ferro alloys producer, expects to improve its profitability margins owing improved efficiency of plants, improved revenue stream from its products. The Company believes that with massive spending on infrastructure being lined up, with the developed infrastructure readily available with Company, the outlook for the sectors in which the Company operates appears to be stable/positive.

Risks and Concerns

Risk, which is the manifestation of business uncertainty affecting corporate performance and prospects, is an integral part of business. The Company follows a well-defined and exhaustive risk management process, which is integrated with its operations. This enables the company to identify, categorize and prioritize operational, financial and strategic business risks. The Company has formed a Risk Management Committee which has the mandate of identifying the risks and suggesting the ways to mitigate them. The Company spends significant time, effort and human resources to manage and mitigate identified risks. The Company has identified its risk parameters and planned out mitigation measures to sustain its operations. Some of these include:

Risk	Risk-mitigating factors
Economic/Industrial risk -Cyclical nature of business -Unforeseen demand upsurge	-Captive mineral resource -Fully integrated process -Proximity to market -Diversification in hydro power providing consistent cash flows
Environmental risk -Discharge of pollutants -Compliances	-Adequately equipped with pollution-control devices to observe norms -Regular upgradation and maintenance of the equipment to avoid discharge of pollutants in the environment
Financial risk -Availability of funds for capex and business operations	-Low debt and gearing ratio and efficient financial management
Currency fluctuation -unfavourable rupee/foreign currency movement	-Substantial amount of import and export providing natural hedge -Regular review of exposure at highest level -Forward contracts and bookings
Input risk -procurement of raw materials at the right cost and in the right time.	-Captive mineral resource -integrated business model makes it possible for the end product of one business to be positioned as the raw material of another -creation of a self-feeding ecosystem within minimal inventory, costing and logistic issues
Regulatory risk -Compliance with the ever changing applicable statutes and guidelines, rules and regulations	-complies with all applicable statutory requirements and has systems in place to ensure compliance with the regulatory changes, if any

Management Discussion and Analysis

Risk	Risk-mitigating factors
Safety risk -Healthy and safe working of workmen	-Regular health check-ups -Regular safety audit by independent team and compliance review, preventive maintenance of Machines and equipment to avoid any unforeseen accidents -Adequate arrangements of fire station and dispensaries to address emergency situations
Human resources -retaining talent at various levels is a challenge	-ample opportunity of growth and development of individual -safety and security, motivation, performance linked remuneration in line with market -Sharing growth through ESOP

Internal control System and Their Adequacy

Your Company has in place an adequate system of internal control commensurate with its size and nature of business. The system provides a reasonable assurance in respect of providing financial and operational information, complying with applicable statutes, safeguarding of assets of the Company and ensuring compliance with corporate policies.

Independent Auditor's Report

To the Members of

Sarda Energy & Minerals Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Sarda Energy & Minerals Limited ('the Company'), which comprise the balance sheet as at 31st March, 2018, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st March, 2018, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the order.

Independent Auditor's Report

2. As required by Section 143(3) of the Act, we report that:
- (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) the balance sheet, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity dealt with by this Report are in agreement with the books of account;
 - (d) in our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act read with relevant rule issued thereunder;
 - (e) on the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
 - (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 39 to the standalone Ind AS financial statements;

Annexure A

to the Independent Auditor's Report

The Annexure referred to in Independent Auditor's Report to the members of the Company on the standalone Ind AS financial statements for the year ended 31st March, 2018, we report that:

- (i) (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
- (b) As explained to us, all major assets except certain low value items viz furniture & fixtures and office equipment have been physically verified by the management at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed.
- (c) The title deeds of immovable properties, as disclosed in Note 2 on Property, Plant and Equipments to the financial statements, are held in the name of the Company except the immovable properties of merged companies which has still carried on the name of erstwhile companies and are yet to be updated in revenue records.
- (ii) As explained to us, the physical verification of inventories have been conducted at reasonable intervals by the management during the year. In our opinion, the frequency of the verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material and have been properly dealt with in the books of account.
- (iii) The Company has granted unsecured loan to four companies and one Limited Liability Partnership covered in the register maintained under section 189 of the companies Act, 2013 during the year. According to the information and explanations given to us and based on the audit procedures conducted by us, we are of the opinion that:
 - (a) The terms & conditions of the grant of such loan are not prejudicial to the interest of the Company.
 - (b) As explained to us the principal amounts are repayable on demand, whereas the interest is payable annually at the discretion of the Company and the repayments or receipts are regular.
 - (c) Since the amount outstanding is not overdue, therefore, the provisions of clause 3 (iii)(c) of the Companies (Auditor's Report) Order, 2016 are not applicable to the Company.
- (iv) In our opinion and according to the information & explanations given to us, the Company has complied with the provisions of Section 186 of the Companies Act, 2013 in respect of the loans and investment made, and guarantees and security provided by it. The Company has not granted any loans and made any investments, or provided any guarantees or security to the parties covered under Section 185 of the Companies Act, 2013.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from public, in terms of the directives issued by the Reserve Bank of India and the provisions of Section 73 to 76 or any other relevant provisions of the Companies Act and rules framed thereunder; therefore the provisions of clause 3(v) of the Companies (Auditor's Report) Order, 2016 are not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, in respect of Company's products to which the said rules are made applicable and are of the opinion that, prima facie, the prescribed accounts and records, have been made and maintained. We have, however, not made a detailed examination of the records.

Annexure B

to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Sarda Energy & Minerals Limited ("the Company") as of 31st March, 2018, in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure B

to the Independent Auditor's Report

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

(₹ in lakh, except share and per share data, unless otherwise stated)

1. Company Overview

The Company has integrated steel manufacturing facility starting from iron ore mining to the finished steel in the form of wire rod and H.B. wire. The Company is also a leading manufacturer and exporter of Ferro Alloys enjoying Two Star Export House Status. The manufacturing facilities are backed by captive thermal power plant. The company has also promoted hydropower projects through SPVs.

1.1 Significant Accounting Policies

Basis of preparation of financial statements

1.2 Statement of compliance

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), the provisions of the Companies Act, 2013 ('Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

1.3 Basis of Measurement

The financial statements have been prepared on the historical cost convention and on accrual basis except for the following:

- certain financial assets and liabilities including derivative instruments measured at fair value
- defined benefit plans - plan assets measured at fair value
- Share based payments

The financial statements are presented in Indian rupees rounded off to nearest lakh.

1.4 Use of estimate

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

1.5 Summary of significant accounting policies

1.5.1 Revenue recognition

Revenue from sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of return, trade discounts and volume rebates. Revenue is recognized when the significant risk and rewards of ownerships have been transferred to the buyer, recovery of the consideration is probable, the associated cost and possible return can be estimated reliably and there is no continuing effective control or managerial involvement with, the goods, and the amount can be measured reliably.

1.5.2 Other income

Interest income

For all debt instruments measured either at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability.

Dividend income

Dividend income is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

Incentives

Revenue is recognized when the right to receive the credits is established and there is no significant uncertainty regarding the ultimate collection.

1.5.3 Property, Plant and Equipment

i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation/ amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment. These are included in profit or loss within other gains/ losses.

The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

ii) Depreciation

Depreciation has been provided based on life assigned to each asset in accordance with Schedule II of the Companies Act, 2013. Leased assets are amortized on a straight-line basis over the useful life of the asset or the remaining period of lease, whichever is earlier. Spares parts procured along with the Plant & Machinery or subsequently which are capitalized and added in the carrying amount of such item are depreciated over the residual useful life of the related plant and machinery or their useful life whichever is lower.

Mining rights and expenditure incurred on development of mines are amortized over useful life of mines or lease period, whichever is earlier.

iii) Subsequent costs

Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of any component recognized as a separated component is derecognized when replaced. All other repairs and maintenance are recognized in profit or loss as incurred.

iv) Spare parts

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized and depreciated on straight line method on prorata basis at the rates specified therein. Other spare parts are carried as inventory and recognized in the income statement on consumption.

1.5.4 Investment properties

Property that is held for capital appreciation or for earning rentals or both or whose future use is undetermined is classified as investment property. Items of investment properties are measured at cost less accumulated depreciation / amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Investment properties are depreciated on straight line method on prorata basis at the rates specified therein. Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

1.5.5 Intangible assets

Intangible assets comprising of computer software, mining rights are stated at cost of acquisition/ implementation/ development less accumulated amortization.

Amortization

Intangible Assets are amortized over technically useful life of the asset.

1.5.6 Capital work in progress

Capital work in progress is stated at cost.

Expenditure in relation to survey and investigation of the projects is carried as Capital Work in Progress. Such expenditure is either capitalized as cost of project on completion of the construction of the project or the same is expensed in the year in which it is decided to abandon such project.

1.5.7 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

A lease is classified on the inception date as a finance or an operating lease. Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or if lower the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Leases under which substantially all the risks and rewards of ownership are not transferred to the Company are classified as operating leases. Lease payments under operating leases are recognized as an expense on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

As a lessor

Lease payments under operating leases are recognized as an income on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation. The respective leased assets are included in the balance sheet based on their nature.

1.5.8 Inventory

- i) Stores and Spares are carried at cost (net of CENVAT, VAT & GST credits availed) on moving average basis and net realizable value whichever is lower.
- ii) Raw Materials are carried at cost (net of CENVAT, VAT & GST credits availed) on moving average basis and net realizable value whichever is lower. However, raw materials held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- iii) Finished and semi finished products produced or purchased by the Company are carried at lower of cost and net realizable value. Cost includes direct material and labor cost and a proportion of manufacturing overheads. Cost of finished goods includes excise duty based on prevailing rate.
- iv) By products are valued at net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

1.5.9 A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity of another entity.

Financial asset

i) Initial measurement

All financial assets are recognized initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Regular way purchase and sale of financial assets are recognized on trade date. Financial assets of the Company include investments in equity shares of subsidiaries, associates, joint ventures and other companies, trade and other receivables, loans and advances to employees and other parties, deposits etc.

ii) Classification and subsequent measurement

For the purpose of subsequent measurement, financial assets of the Company are classified in the following categories:

- 1) financial assets measured at amortized cost
- 2) financial assets measured at fair value through other comprehensive income
- 3) financial assets measured at fair value through profit and loss and

The classification of financial assets depends on the objective of the business model. Management determines the classification of its financial assets at initial recognition.

Financial instruments measured at amortized cost

A financial instrument is measured at amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables, bank deposits, security deposits, cash and cash equivalents, employee and other advances.

Financial instruments measured at fair value through other comprehensive income

A financial instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets
- (b) the asset's contractual cash flow represent SPPI

Financial instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognized in other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain loss in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Interest earned is recognized under the expected Interest rate (EIR) model.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

Financial instruments measured at fair value through profit and loss

Fair value through profit and loss is the residual category. Any financial instrument which does not meet the criteria for categorization as at amortized cost or fair value through other comprehensive income is classified at FVTPL.

Financial instruments included within FVTPL category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recorded in statement of profit and loss.

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. Such election is made on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

iii) **Derecognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have been transferred, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liability

i) **Initial measurement**

All financial liabilities are recognized initially at fair value net of directly attributable transaction costs. The Company's financial liabilities include loans and borrowings, trade and other payables etc.

ii) **Classification and subsequent measurement**

For the purpose of subsequent measurement, financial liabilities of the Company are classified in the following categories:

- 1) financial liabilities measured at amortized cost
- 2) financial liabilities measured at fair value through profit and loss

Financial liabilities at amortized cost:

Financial liabilities at amortized cost are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method.

Offsetting of financial instrument

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.5.10 Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Investments in subsidiaries, associates and joint ventures are measured at cost in accordance with Ind AS 27. Investments in mutual funds are measured at fair value through profit and loss (FVTPL). The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. Trading instruments are recognized at FVTPL

1.5.11 Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method, less provision for impairment using expected credit loss method.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

1.5.12 Loans and borrowings

Loans and borrowings are initially recognized at fair value net of transaction costs incurred. Subsequently, these are measured at amortized cost using the effective interest rate ('EIR') method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

1.5.13 Trade and other payables

These amount represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the EIR model.

1.5.14 Derivatives

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

1.5.15 Impairment

a) Financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets:

- a) Financial assets measured at amortized cost e.g. loans, deposits and trade receivables.
- b) Financial assets measured at FVTOCI e.g. investments.

Expected credit losses are measured through a loss allowance at an amount equal to:

- (i) The 12 months expected credit loss (expected credit losses that result from those defaults events on the financial instruments that are possible within 12 months after the reporting date); or
- (ii) Full time expected credit loss (expected credit loss that results from all possible defaults events over the life time of the financial instruments)

Loss allowance for trade receivable are always measured at an amount equal to life time expected credit losses, ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss.

As a practical expedient, the Company uses a provision matrix to determine the impairment loss on its trade receivables. The provision matrix is based on historically observed default rates and is adjusted for forward looking estimates. At every reporting date, the historically observed default rates are updated and changes in forward looking estimates are analyzed.

b) Non-financial assets

The Company assesses at each reporting date whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in profit or loss. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the “cash-generating unit”).

1.5.16 Taxes

Income tax expense comprises current and deferred tax. Current tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in other comprehensive income or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in other comprehensive income or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the carrying amount of the MAT credit entitlement at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.5.17 Employee benefits

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company.

Contribution to Provident fund and Contributory pension fund are accounted for on accrual basis. Provident fund contributions are made to a fund administered through statutory fund.

Actuarial gains or losses on gratuity and leave encashment are recognized in other comprehensive income. Further, the profit or loss does not include an expected return on plan assets. Instead net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income.

1.5.18 Provisions and contingent liabilities

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

1.5.19 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks are considered part of the Company's cash management system.

1.5.20 Foreign currency transactions

The Company's financial statements are presented in INR which is also the functional currency of the Company.

Foreign currency transactions are recorded on initial recognition in the functional currency using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognized as income or expenses in the period in which they arise.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

1.5.21 Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or erection of qualifying assets are capitalized as part of cost of such asset until such time that the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition of the qualifying asset.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. All other borrowing costs are recognized as an expense in the year in which they are incurred.

1.5.22 Share Based Payments

The fair value of options granted to employees is recognized as an employee expense, with a corresponding increase in equity, over period in which the options are vested. The increase in equity recognized in connection with a share based payment transaction is presented as a separate component of equity. The amount recognized as an expense is adjusted to reflect the actual number of share options that vest.

to financial statements for the year ended 31st March, 2018

1.5.23 Advance Stripping Cost

The Company distributes stripping (waste removal) costs incurred during the production phase of its mining operations on equitable basis over estimated minable reserves. This calculation requires the use of judgments and estimates relating to the expected tons of waste to be removed over the life of the mining area and the expected economically recoverable reserves to be extracted as a result. This information is reviewed periodically to calculate the average life of mine strip ratio (expected waste to expected mineral reserves ratio). Changes in a mine's life and design will usually result in changes to the average life of mine strip ratio. These changes are accounted for prospectively.

1.5.24 Mine Restoration Expense

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing production of a mining property and the Company is liable for environmental damage caused by mining activities.

These future costs generally include restoration and remediation of land and disturbed areas, mine closure costs, including the dismantling and demolition of infrastructure and the removal of residual materials, and mining damages costs.

Decommissioning of mine sites and land and disturbed areas restoration costs are a normal consequence of mining. The majority of mine closure and rehabilitation expenditure is incurred at the end of the life of the mine. Although the ultimate cost to be incurred is uncertain, the Company's businesses estimate their respective costs based on feasibility and engineering studies using current restoration standards and techniques.

Restoration costs and clean-up of land used for mining activities are liabilities to restore the land to the condition it was in prior to the mining activities or as stated in the relevant licenses. These costs are incurred during the mining activity and can continue for many years depending on the nature of the disturbance and the remediation techniques. The mine closure costs include estimated costs of mine levels and pits closure, and capping of pits after removal of the surface construction.

Provisions for land restoration and mine closure costs are recognized for estimated outflow of economic resources to settle the obligation. Provisions are structured as land restoration and mine closure costs provision. The total estimate of restoration expenses is apportioned over the life of the mine.

1.5.25 Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

Partly paid equity shares are treated as fraction of a equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

1.5.26 Segment Reporting

i) Identification of Segments

The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

ii) Segment Accounting Policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

iii) Inter-Segment Transfers

The Company generally accounts for intersegment transfers at an agreed transaction value.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

iv) Unallocated Items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Refer note 33 for details on segment information presented.

1.5.27 Onerous Contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating/exiting the contract and the expected net cost of fulfilling the contract.

1.5.28 Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expense associated with investing or financing cash flow. The cash flows from operating, investing and financing activities of the Company are segregated.

f. Proforma accounting for stock option grants

The Company has applied the intrinsic value-based method of accounting for determining compensation cost for its ESOP Plan. Had the compensation cost been determined using fair value approach, the Company's net income and basic/diluted earnings per share as reported would have changed to the proforma amounts as indicated:

(₹ in Lakh)

S.No.	Particulars	Year Ended	Year Ended
		31st March, 2018	31st March, 2017
1	Net Profit as reported	18,785.43	13,091.81
2	Add : Stock based employee compensation expense debited to statement of profit and loss	49.80	-
3	Less : Stock based employee compensation expense based on fair value	-	-
4	Difference between (2) & (3)	-	-
5	Adjusted pro forma profit	18,835.21	13,091.81

7	Basic earnings per share as reported	52.27	36.47
8	Proforma earnings per share	52.27	36.47
9	Diluted earnings per share as reported	52.27	36.24
10	Proforma Diluted earnings per share	52.27	36.24

g. The fair value of the options, calculated by an independent consultant was estimated on the date of grant using the Black-Scholes model with the following significant assumptions:

Particulars	Assumptions
Risk free interest rate (in %)	8%
Expected life (in months)	41
Volatility (in %)	8%
Dividend yield (in %)	30%

The volatility of the options is based on the historical volatility of the share price for the last one year as on the date of grant.

Significant Accounting Policies and Notes

to financial statements for the year ended 31st March, 2018

B. Measurement of fair values

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

C. Valuation techniques

The following methods and assumptions were used to estimate the fair values

- 1) Fair value of the cash and short term deposits, current loans and advances and other current financial liabilities, short term borrowing from banks and other financial institutions and other similar items approximate their carrying value largely due to short term maturities of these instruments.
- 2) Long-term receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual credit worthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- 3) The fair values of the quoted instruments and mutual funds are based on price quotations at the reporting date. The fair value of unquoted instruments, loans from banks and other financial liabilities, obligations under finance leases, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt of similar terms, credit risk and remaining maturities.
- 4) The fair values of the unquoted equity shares designated at FVTOCI have been estimated by using the most recent purchase price of such shares. (level 2)

CONSOLIDATED FINANCIALS

Independent Auditor's Report

To the Members of
Sarda Energy & Minerals Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Sarda Energy & Minerals Limited (“the Holding Company”) and its subsidiaries (collectively referred to as “the Company” or “the Group”), associates and its jointly controlled entities, which comprise the consolidated balance sheet as at 31st March, 2018, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of cash flows and the consolidated statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the consolidated Ind AS financial statements”).

Management’s Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company’s Board of Directors is responsible for the preparation of the consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as “the Act”) that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor’s Responsibility

Our responsibility is to express an opinion on the consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company’s preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company’s Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the consolidated financial position of the Group, as at 31st March, 2018 and its consolidated financial performance including other comprehensive income, its consolidated cash flows and the consolidated changes in equity for the year then ended.

Annexure A

to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2018, we have audited the internal financial controls over financial reporting of Sarda Energy & Minerals Limited ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure A

to the Independent Auditor's Report

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Significant Accounting Policies and Notes

to consolidated financial statements for the year ended 31st March, 2018

1.1 Basis of Preparation of consolidated financial statements:

The consolidated financial statements are prepared in accordance with Indian Accounting Standards (“Ind AS”), the provisions of the Companies Act, 2013 (“the Companies Act”), as applicable and guidelines issued by the Securities and Exchange Board of India (“SEBI”). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

1.2 Basis of Consolidation

The Consolidated Financial Statements comprise individual financial statements of Sarda Energy & Minerals Limited, its subsidiaries and jointly controlled entities as on 31st March, 2018. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity’s returns. Subsidiaries are consolidated from the date control commences until the date control ceases. The Consolidated Financial Statements have been prepared on the following basis:

- i) The consolidation of accounts of the Company with its subsidiaries has been prepared in accordance with (Ind AS) 110 - Consolidated Financial Statements. The financial statements of the parent and its subsidiaries are combined on a line by line basis and intra group balances, intra group transactions and unrealized profits or losses are fully eliminated. Ind AS 12 - Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intra group transactions. The consolidated financial statements are prepared by adopting uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the parent company’s separate financial statements unless stated otherwise.

The assets and liabilities of foreign subsidiaries are translated at year end exchange rates and all other items in Statement of Profit and Loss are translated at average annual rate. The resultant gains and losses are shown separately as Foreign Currency Translation Reserve under the head Other Equity in the consolidated financial statements.

The carrying amount of the parent’s investment in each subsidiary and the parent’s portion of equity of each subsidiary are eliminated.

- ii) The excess of cost to the Group of its investment in subsidiaries, on the acquisition dates over and above the Group’s share of equity in the subsidiaries, is recognized as ‘Goodwill’ being an asset in the consolidated financial statements. On the other hand, where the share of equity in subsidiaries as on the date of investment is in excess of cost of investments of the Group, it is recognized as ‘Capital Reserve’ and shown under the head Other Equity in the consolidated financial statements.
- iii) Investment in Associates and Joint Ventures have been accounted under the equity method as per Ind AS 28 - Investments in Joint Ventures.

Under the equity method, an investment in Associates and Joint Ventures are initially recognized at cost on the date of the investment, and inclusive of any goodwill/capital reserve embedded in the cost, in the Balance Sheet. The proportionate share of the Group in the net profits / losses as also in the other comprehensive income is recognized in the Statement of Profit and Loss and the carrying value of the investment is adjusted by a like amount. Goodwill relating to the joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

Unrealized gains and losses resulting from transactions between the Group and the joint ventures are eliminated to the extent of the interest in the joint venture.

- iv) The Audited financial statements of the subsidiaries and the jointly controlled entities used in the consolidation are drawn up to the same reporting date as of the Holding Company i.e. up to 31st March, 2018. The financial statement of associate of a subsidiary has been audited up to 31st December, 2017 and the period from 1st January, 2018 to 31st March, 2018 was unaudited considered in the consolidated financial statement.

Significant Accounting Policies and Notes

to consolidated financial statements for the year ended 31st March, 2018

- v) Non Controlling Interest's share of profit/loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- vi) Non-controlling interests in the net assets of consolidated subsidiaries is identified and is presented in the consolidated Balance Sheet separately within equity. Non-controlling interests in the net assets of consolidated subsidiaries consists of:
 - (a) The amount of equity attributable to non-controlling interests at the date on which investment in a subsidiary is made; and
 - (b) The non-controlling interests share of movements in equity since the date parent subsidiary relationship came into existence.

1.3 Other significant accounting policies

- i) Land-Right to use will be amortized over a period of 35 years from the date of commercial operation of the project in line with CERC Tariff Regulations notified for tariff fixation.
- ii) Service Concession Agreement.
Specific Hydro Power Project of the Group recognizes an intangible asset arising from Service concession agreements to the extent it has a right to charge for use of concession infrastructure as per Appendix A of IND AS 11. Such intangible asset is measured at cost less any accumulated amortization.
- iii) Revenue- Service Concession Arrangements-
Revenue related to construction or upgrade services under a service concession arrangement is recognized based on the stage of completion of the work performed. Operation or service revenue is recognized in the period the services are rendered by the group.
- iv) Free of Cost Materials issued to the Contractor
Materials for the purpose of being used in specific Hydro Power project of the Group are recognized at purchase cost by the Company. Since they are to be used in the project construction, they are immediately issued at cost to Contractor. Therefore no materials stock is separately disclosed in the Financial statements on the reporting date, as their cost forms part of the carrying value of Capital Work in Progress as soon as they are procured and issued. Materials issued to the Contractor and lying with it are reconciled periodically and differences identified, if any, are recovered from the Contractor or recognized appropriately according to the nature of difference and as per contractual obligations.

The rest of the Accounting Policies followed by the Group are set out under "Significant Accounting Policies" as given in the Parent Company's standalone financial statements.

- Currency Risk
- Price Risk

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. This note presents information about the risks associated with its financial instruments, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

CREDIT RISK

The Group is exposed to credit risk as a result of the risk of counterparties' non performance or default on their obligations. The Group's exposure to credit risk primarily relates to investments, accounts receivable and cash and cash equivalents. The Group monitors and limits its exposure to credit risk on a continuous basis. The Group's credit risk associated with accounts receivable is primarily related to party not able to settle their obligation as agreed. To manage this the Group periodically reviews the financial reliability of its customers, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of accounts receivables.

Trade receivables

Trade receivables represent the most significant exposure to credit risk and are stated after an allowance for impairment and expected credit loss.

Significant Accounting Policies and Notes

Loans and Advances

Financial assets in the form of loans and advances are written off when there is no reasonable expectations of recovery. Where recoveries are made, these are recognized as income in the statement of profit and loss. The Group measures the expected credit loss of dues based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on historical data, loss on collection of dues is not material hence no additional provisions considered.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits which are readily convertible to cash. These are subject to insignificant risk of change in value or credit risk.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

PRICE RISK

The entity is exposed to equity price risk, which arises out from FVTPL quoted equity shares & mutual funds and FVTOCI unquoted equity shares. The management monitors the proportion of equity securities in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the management. The primary goal of the entity's investment strategy is to maximize investments returns.

Sensitivity Analysis for Price Risk:

Equity Investments carried at FVTOCI are not listed on the stock exchange. For equity investments and mutual funds classified as at FVTPL, the impact of a 2% increase in the index at the reporting date on profit & loss would have been an increase of ₹ 465.90 Lakh (2016-17: ₹ 411.54 Lakh); an equal change in the opposite direction would have decreased profit and loss. For equity investments classified as at FVTOCI, the impact of a 2% increase in the index at

the reporting date on profit & loss would have been an increase of ₹ 1.75 Lakh (2016-17: ₹1.75 Lakh); an equal change in the opposite direction would have decreased profit and loss.

40 CAPITAL MANAGEMENT

The Group's main objectives when managing capital are to:

- ensure sufficient liquidity is available (either through cash and cash equivalents, investments or committed credit facilities) to meet the needs of the business;
- ensure compliance with covenants related to its credit facilities and secured debentures;
- minimize finance costs while taking into consideration current and future industry, market and economic risks and conditions;
- safeguard its ability to continue as a going concern; and
- to maintain an efficient mix of debt and equity funding thus achieving an optimal capital structure and cost of capital.

The Board has the primary responsibility to maintain a strong capital base and reduce the cost of capital through prudent management of deployed funds and leveraging opportunities in domestic and international financial markets so as to maintain investor, creditor and market confidence and to sustain future development of the business.

For the purpose of Group's capital management, capital includes issued capital and all other equity reserves. The Group manages its capital structure in light of changes in the economic and regulatory environment and the requirements of the financial covenants.

The Group manages its capital on the basis of net debt to equity ratio which is net debt (total borrowings net of cash and cash equivalents) divided by total equity.

Significant Accounting Policies and Notes

to consolidated financial statements for the year ended 31st March, 2018

B. Measurement of fair values

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

C. Valuation techniques

The following methods and assumptions were used to estimate the fair values

- 1) Fair value of the cash and short term deposits, current loans and advances and other current financial liabilities, short term borrowing from banks and other financial institutions and other similar items approximate their carrying value largely due to short term maturities of these instruments.
- 2) Long-term receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual credit worthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- 3) The fair values of the quoted instruments and mutual funds are based on price quotations at the reporting date. The fair value of unquoted instruments, loans from banks and other financial liabilities, obligations under finance leases, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt of similar terms, credit risk and remaining maturities.
- 4) The fair values of the unquoted equity shares designated at FVTOCI have been estimated by using the most recent purchase price of such shares. (level 2)
