CHAIRPERSON'S MESSAGE

Dear Shareholders,

India is on a stable growth trajectory, especially, when seen against the backdrop of subdued global growth and financial turbulence in other parts of the world. The economy grew by 7.6% in FY 16, compared to 7.2% in the last fiscal. Moderate inflation and low fiscal & current account deficits, are positive developments for the economy.

The Government's emphasis on core infrastructure such as roads, railways & ports, manufacturing output and rural welfare, are likely to augur well for the economy and businesses, going forward.

Against the above backdrop, Media and Entertainment Industry in India grew by around 12.8% in FY 16. In the context of the favourable industry scenario, our Total Revenue increased

by 11.9% to ₹ 979.3 crore in FY 16, from ₹ 875 crore in the previous year. FY 16 witnessed a 14.7% increase in our Advertising Revenue to ₹ 684 crore, primarily led by volumes. During the year, we also saw a 6.8% escalation in the Circulation Revenue on account of a growth in circulation and higher net realisation per copy. Our Operating Profit (EBITDA) increased by 25%, and Profit after Tax grew by 28.2%, to ₹ 180.6 crore during FY 16.

Our leadership-engagement activities, such as *Hindustan Shikhar Samagam* in UP, *Hindustan Bihar Samagam* and *Hindustan Uttarakhand Samagam* have consolidated and expanded the reader base of Hindustan. HMLV's growth in the Indian hinterland has coincided with the increasing relevance of this region for advertisers. This has helped us increase our advertising revenue.

OUR LEADERSHIP-ENGAGEMENT ACTIVITIES, SUCH AS *HINDUSTAN SHIKHAR SAMAGAM* IN UP, *HINDUSTAN BIHAR SAMAGAM* AND *HINDUSTAN UTTARAKHAND SAMAGAM* HAVE CONSOLIDATED AND EXPANDED THE READER BASE OF HINDUSTAN

COMMUNITY INITIATIVES

As a responsible corporate citizen, we are conscious of our responsibility towards sustained social development. We have contributed to the society through our consistent efforts in areas of healthcare, education and community development. We have selected two villages in Mathura (U.P.) and contributed to the improvement of infrastructure in these villages. This has brought about a qualitative change in the lives of the residents of these villages.

WAY FORWARD

Going forward, we aim to drive volume and yield growth across geographies, on the back of a stable economic environment. Our business in Uttar Pradesh will continue on its growth trajectory, even as we consolidate our leadership position in Bihar, Jharkhand and Uttarakhand. We will strengthen our digital footprint through investments in the website and new products. In this endeavour, our strong balance sheet will facilitate the expansion.

Our consistent progress would not have been possible without the support and guidance of readers, advertisers, employees and other stakeholders. I am grateful to all of you for your contribution in our journey.

Thanking you

Power of Reach

There is a consistent endeavour to expand reach to new geographies. It has not only helped us increase our readership base, but also raised advertising revenue. We aim to increase our footprint in Tier II, III and IV cities to leverage emerging opportunities.

FAVOURABLE ENVIRONMENT FOR EXPANSION

Growing income levels and transforming demographics have spurred the spending power in Tier-II and Tier-III cities. Besides, content in vernacular languages is gaining importance in these regions with increasing population, rising literacy levels and growing demand for region-specific news. These positive factors, along with our strong position, have encouraged us to further expand our footprint in Tier II, III & IV cities. We grew our printing capacities in FY 16 and added a new unit in Haldwani (Uttarakhand). Besides, capacity upgrades were undertaken at Lucknow and Ranchi.

INCREASE IN ADVERTISING REVENUE

Advertisers are now considering vernacular print media, keeping in mind its direct customer reach in prospering Tier-II and Tier-III cities. Advertisers intending to save their marketing and advertising costs, earn a healthier ROI, and reach every nook and corner of the country, have expanded their efforts in the hyperlocal space. Tier III and IV markets are emerging as the go-to markets for brands. Non-metro cities now contribute as much as 35% to the total sales of India's luxury brands. With our No. 1 position in Bihar, Uttarakhand and Jharkhand, and No. 2 position in UP and Delhi, we are well placed to support advertisers promote their brands in these markets. We have emerged as a preferred media platform for FMCG, auto and e-commerce companies. The growing focus of these companies on Tier-II and Tier-III cities is likely to drive advertising spends in the next few years.

Power of Responsibility

We believe in associating with the society through value-added programmes. With these initiatives, we aim to explore ways to make the country stronger – economically, socially and politically.

During the year, we strengthened our competitiveness by conducting differentiated programmes, including:

HINDUSTAN SHIKHAR SAMAGAM

It is the thought leadership platform of Hindustan, on the lines of HT Leadership Summit held in New Delhi each year. In Hindustan Shikhar Samagam, 12 eminent leaders from the field of politics, government, literature, sports and films shared their perspective on India's next phase of growth. The event was organised in Lucknow on September 26, 2015, and was covered live on a leading national news channel and digital platform. It helped increase brand equity of Hindustan on the key dimensions of modernity, buzz and trustworthiness.

HINDUSTAN BIHAR SAMAGAM & HINDUSTAN UTTARAKHAND SAMAGAM

These programmes strengthened Hindustan's leadership credentials. In Bihar Samagam, key political stakeholders presented their election agenda ahead of polls. The Uttarakhand Samagam provided an opportunity to the current and former chief ministers of the State to share their honest assessment of Uttarakhand's journey of 15 years.

HINDUSTAN MASTI MARG

Hindustan Masti Marg is a reader-engagement platform for brand Hindustan, as well as an experimental marketing platform for client brands. This programme has been organised in several cities across UP and Bihar.

SOCIAL ENDEAVOURS

Our commitment towards society is part of an all-embracing sustainability strategy. Our initiatives have helped solve some of the persistent challenges in the areas of education, healthcare and community development.

HMVL selected two villages (Lohvan and Gossna) in District Mathura (U.P.) with a view to bring about integrated and transformational change in the lives of its residents. Our contribution was in the form of investments in infrastructure and skilling.

- Installed 100 solar lights in the villages
- In the village schools, we installed ceiling fans, provided benches in classrooms, made the toilets functional by repairs and resumption of water supply, provided play aids for small children and repainted the school building
- Installed an RO water plant to provide clean and potable water to the residents of the villages
- Conducted health check-up camps
- Improved village sanitation by organising and promoting cleanliness drives
- We motivated women to register for skill development programs at SEWA Ahmedabad - 38 women were registered, out of which the first batch of 10 women were imparted training in a 6 day program at SEWA
- Formed citizens committee(s) to own and operate the above initiatives on a sustained basis

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

Global Economy

In 2015, global economic activity remained subdued across geographies. While advanced economies witnessed a modest and largely uneven recovery, emerging markets and developing economies faced significant headwinds. The situation is not likely to improve drastically in CY 2016. The International Monetary Fund (IMF) has revised global growth forecast to 3.2% in 2016 from 3.1% in CY 2015.

The overall activity remained resilient in the US. In the Euro area, robust private consumption, supported by low oil prices and easy financial conditions, counterbalanced the weakened net exports. Japan's growth remained firm on the back of fiscal support, lower oil prices, accommodative financial conditions and rising incomes. Imports and investment growth slowed in China, although consumptions grew steadily. Crude oil price trends, global geo-political tensions, economic upheaval in Europe, low commodity prices and a potential slowdown in China, are major risks for the world economy going forward.

Indian Economy

Amidst the prevailing global uncertainty, India is widely seen as a bright spot of stability. It has been helped by weaker oil prices and moderate inflation, strong domestic demand and a prudent management of the fiscal framework of the country. India's GDP grew to 7.6% in FY 16, compared to 7.2% in FY 15 – making it the world's fastest-growing major economy. The Government's pro-reform policy initiatives are bolstering India's growth.

Encouragingly, India's growth is largely driven by internal factors. During CY 2015, the country's domestic consumption and investment contributed significantly to the GDP. This has helped enhance confidence of foreign investors in India's growth story; and has accelerated the country's emergence as an attractive FDI destination. Pro-reform policy initiatives, low interest rates, decline in fiscal deficit and moderate inflation have enabled the Indian economy to stay on an attractive growth trajectory.

MEDIA AND ENTERTAINMENT INDUSTRY OVERVIEW

India's Media and Entertainment (M&E) Industry grew to ₹ 1,157 billion in CY 2015 from ₹ 1,026 billion in CY 2014, registering 12.8% growth. During the same period, advertising revenues surged by 14.7% to ₹ 475 billion. The industry is expected to grow at a CAGR of 14.3% to ₹ 2,260 billion by 2020 with advertising revenues expected to grow to ₹ 994 billion at a CAGR of 15.9% (Source: FICCI KPMG Report).

*CY - Calendar Year

The print industry continues to grow at 7.8% CAGR, driven by significant traction in regional markets. The growth is expected to be stronger in rural markets owing to various Government initiatives around rural development and increasing literacy, leading to circulation growth.

Among traditional platforms, radio has the strongest potential for expansion at a forecasted CAGR of 18%. The migration of the FM Radio Industry from Phase II to Phase III policy regime is likely to contribute to its growth. Besides, increased advertisement inventory is expected to benefit this industry in the long-term.

With robust growth in advertising revenues, television is likely to grow at a 15.1% CAGR in the near-term. Nevertheless, delays in digitisation may hinder subscription growth.

A rapid increase in the number of mobile users, and improved digital infrastructure has encouraged a shift towards mobile and video advertising. This is expected to support digital advertising to grow at a CAGR of 33.5%. By 2020, digital advertising would potentially be worth ₹ 255 billion and is expected to contribute 25.7% of the total advertising revenues of the M&E sector.

PRINT MEDIA

The print industry's size increased by 7.6% in CY 2015, broadly in line with India's economic growth. Its total market size by the end of the year was estimated at ₹ 283 billion, accounting for nearly 25% of the overall M&E industry.

The industry experienced a dynamic operating environment in CY 2015. Growth for publishers was significant in the first half but remained largely muted in the second half. This change was primarily due to a few sectors reducing advertising spends in line with their economic performance. A slight decline in year-on-year ad growth was witnessed, compared to 8% growth in CY 2014, due to a reduction in spends by a few sectors.

Despite the decline in the print media industry, the traditional newspaper business continues to grow steadily at 8% due to sustained advertiser interest and the existing reader base, even as the industry makes inroads into new technological opportunities to enhance content quality, service delivery and reader engagement. The intrinsic focus is on integrating the traditional medium of news distribution with advances in digital, mobile and the web platforms.

India is continuously focusing on holistic growth. Rising consumption, growing infrastructure, expanding access to better health, and growing employment opportunities will encourage advertisers to increase their spends. Effectively, the print media is well-positioned to benefit from the positive macro trends prevailing in India.

GROWTH DRIVERS OF PRINT MEDIA

1. Rise in registered publications: The credibility of newspapers and printed word is high in India. As a result, the print media continues to witness a steady inflow of new newspapers. Registered publications grew to 5,817 in FY 15 from 5,642 in FY 14, reporting 3.1% increase.

2. Rise in readership: Newspapers continue to command a major portion in the total revenue, generated by India's print industry. Even though circulation expanded steadily, there lies a significant scope for expansion, since a marked gap exists between 'can read' and 'do read' categories. With improving literacy rates, the young and the aspiring population in smaller towns is consistently driving readership.

3. Print remains preferred category for advertisers: Print advertising witnessed 7.3% growth in CY 2015, driven by increase in ad spends by FMCG and e-commerce advertisers. FMCG continued to maintain the leadership position in the print advertising pie.

Although e-commerce ad spends grew strongly in English print media, its penetration into regional print media remains low. However, as new publications and editions continue to focus on regional markets, e-commerce firms are likely to start exploring this as an opportunity.

The lending rates for corporates fell with the reduction of repo rate by the Reserve Bank of India. It has subsequently,

spurred credit growth. As a result, auto and durables sectors witnessed some growth and their contributions to ad volumes are expected to go up in CY 2016.

During the year, there was a slight dip in the contribution of Banking, Financial Services and Insurance (BFSI Sector). However, the positive development of many new banks being set up, and the growth of NBFCs, is likely to propel ad spends in the future.

Telecom players contributed 4% to the total ad spends. Higher spending by telecom companies to promote their 4G services is expected to boost the advertising industry by 10-15% in CY 2016.

The Government of India and state governments are focusing on media, including newspapers to communicate their initiatives, priorities and on-going work. In FY 16, their ad spends revolved around 'Make in India', *Swachh Bharat Abhiyan* and 'Digital India' campaigns. The recent elections in West Bengal, Tamil Nadu, Kerala and Assam largely increased the ad spends by the state governments and political parties.

The growing focus on Tier-II and Tier-III cities is likely to drive advertising spends in the next few years. This expectation rests on the fact that non-metro cities now contribute as much as 35% to the total sales of India's luxury brands. The consumption of FMCG products in Tier-II, Tier-III and Tier-IV cities is expected to account for nearly 45% of the total consumption in 2025.

Advertising Scenario Review

Advertising remains the backbone of print industry, accounting for more than 66% of the total revenue, whereas circulation revenue made up for the rest. However, a slight decline in year-on-year ad growth was witnessed due to a reduction in spends by a few sectors.

With readership largely limited to India’s metro and Tier-I cities, the trend of English newspapers dominating the advertising budgets of companies is slowly declining. Advertisers have started factoring in vernacular print media in their plans, as they directly reach customers in the rapidly growing and prospering Tier-II and Tier-III cities.

The print industry is relatively less dependent on circulation revenue, with the trend more visible among the leading companies in this sector.

4. Softness in newsprint prices: Newsprint prices fell considerably in FY 16, from FY 15. A correction of about 7% in newsprint prices resulted in a number of companies witnessing positive EBITDA margins in FY 16 due to savings in input costs.

Russian newsprint prices were substantially lower as compared to last year due to weakening of Rouble vs. Dollar. This impacted the newsprint prices by the suppliers

from US, Canada and other parts of the world. Cost of newsprint also reduced due to innovative strategies of using 40 GSM paper by the Company.

CONSUMPTION OF NEWSPRINT IN INDIA (MILLION MT)

Source: KPMG - FICCI Indian Media and Entertainment Industry Report 2016.

5. Growing significance of language newspapers: Growth in newspaper readership in India is led by the expansion of Hindi and other vernacular publications. This is evident in rural and small towns with existing publications launching new editions, and new publications entering the market.

Undoubtedly, Hindi and vernacular publications dominate newspaper readership. The emerging middle-class population in smaller towns speaking different languages, is increasing the focus on local messaging in regional languages.

6. Hyperlocalisation: Given the strong growth prospects, there is a renewed focus by advertisers on Tier II, Tier III and towns. Conventional business models that were relevant for metros are getting disrupted. Today, it is important to have localized strategies aligned to the expectations and aspirations of each individual market. To this end, print companies are going hyperlocal too, particularly in markets with lower internet penetration, launching their leading properties that cater to audiences in a restricted format.

Advertisers who intend to save their marketing and advertising costs, earn a healthier ROI, and simultaneously, reach every nook and corner of the country, have naturally expanded their efforts in the hyperlocal space.

Market Growth

Hindi and vernacular segments together contributed nearly 64% of the total print revenue. Readership growth of English

print is lower as compared to Hindi and vernacular media. The Hindi print media market increased to ` 91 billion in CY 2015, from ` 83 billion in CY 2014. Vernacular print media grew 9% over the same period, reaching ` 91 billion in CY 2015.

With the focus on regional markets, various brands have integrated the regional component to their advertising spending. Several companies launched campaigns in local languages that gave them more resonance, compared to those launched in English.

The spending power of Tier-II and Tier-III cities has increased due to the growing income levels and transforming demographics. Print media is focusing on delivering content in the readers' native language to serve the needs of this audience.

Besides, the high GDP growth rate of Hindi-speaking states, contributed to growth of Hindi and vernacular print publications. States like Bihar, Madhya Pradesh, Rajasthan and Uttar Pradesh have consistently outpaced the national average and are growing rapidly.

PRINT MEDIA'S RELEVANCE VIS-À-VIS DIGITAL MEDIA

Although the pattern of news consumption is changing, the potential for the print industry growth is significant. Newspapers have continued to find acceptance among most of Indian households. Industry trends indicate that newspapers are still the primary source of information for millions in the country. There is a definite shift in favour of digital media, especially among young audiences. Yet the print medium has its own charm and loyal reader base. In many cases the digital

editions serve as an extension of (and not a replacement of) the printed newspaper. This means that the newspaper circulation is still growing, reinforcing the strong foothold of the print industry.

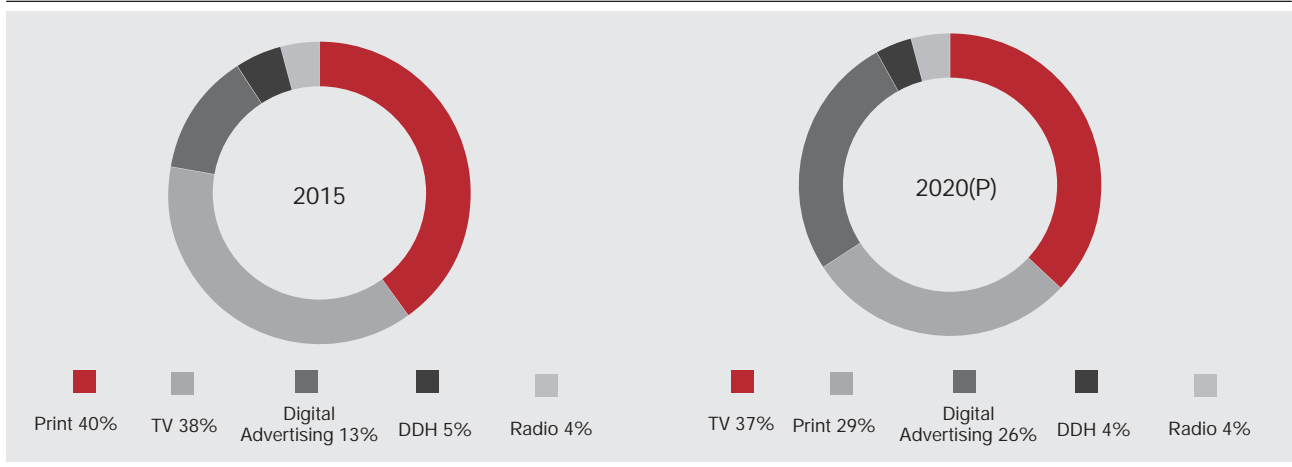

Easy accessibility, door-to-door delivery, affordability, comfort and habit of reading a physical copy make print media companies relevant even today.

The Indian newspaper industry continues to grow and simultaneously, embrace the digital medium gradually, but consistently.

Interestingly, the reach of regional TV news channels is beneficial to newspaper circulation. People who watch television news, turn to newspapers to validate facts, and the potential impact of developments. This acts as a booster for newspaper circulation.

In an age when India adds three new users to the internet every second (Source: The Economist), print media continues to generate strong interest from traditional advertisers (FMCG, automotive, financial services and durables). Print media facilitates deeper reader engagement and provides wider access to the advertiser’s target group.

OPPORTUNITIES AND THREATS

The Indian M&E industry is going through a rapid structural transformation. The industry’s growth is progressively driven by increased consumer spending. Tier-II and Tier-III cities are becoming attractive markets for media companies. Greater use of smartphones and high-speed internet connectivity across the country is expected to support the evolving e-commerce and social media trends. With the recent auction of FM Radio Phase III licenses, the FM radio market is expected to grow at a CAGR of 18% by 2020.

The print industry faces the risk of decreasing readership with the ongoing digital revolution and online consumption of news and entertainment. However, in India online news has not yet made any significant impact on newspaper circulation, with a vast number of people still outside the readership ambit in any media. This trend is also due to low internet penetration, easy accessibility of newspapers and existing print consumption patterns of Indian readers. However, it could pose a risk to the media companies that are not proactive on the digital front.

COMPANY OVERVIEW

HMVL is present in Delhi-NCR, Uttarakhand, Uttar Pradesh, Bihar and Jharkhand. With a combined readership of 14.75 million, Hindustan, HMVL’s flagship newspaper, is the second-largest newspaper in India. It is the No. 1 newspaper in the Hindi heartland. It also holds the No. 1 position in Bihar, Jharkhand, Uttarakhand and No. 2 position in UP.

Hindustan is HMVL’s primary growth driver, delivering consistent double-digit growth. The newspaper has created a substantial franchise, contributing significantly to the Company’s profitability.

From a pricing point of view, there was a clear upward movement in the UP market. The brand’s strong performance in this strategically-important region contributed significantly to Hindustan’s growth in FY 16.

HMVL’s reader-engagement activities such as *Hindustan Shikhar Samagam* in UP, *Hindustan Bihar Samagam* and *Hindustan Uttarakhand Samagam* continue to play a crucial role in consolidating and expanding reader base.

FINANCIAL PERFORMANCE, FY 16

Revenue

The Company's total revenue increased from ₹ 875 crore in FY 15 to ₹ 979 crore in FY 16, registering 11.9% growth over the previous year. This growth was primarily driven by 14.7% increase in advertising revenue owing to a surge in advertising volumes. A 6.8% increase in circulation revenue also contributed to the growth in the Company's overall topline.

EBITDA

EBITDA grew from ₹ 223 crore in FY 15 to ₹ 278 crore in FY 16, registering 25% growth over the previous year. This was primarily driven by a growth in advertising and circulation, partly off-set by 16% increase in employee costs. Besides, there was 33% increase in sales and promotion costs to support Haldwani, Lucknow, Dehradun and Kanpur re-launch.

PAT

PAT increased by 28% to ₹ 180.6 crore from ₹ 141 crore due to an improvement in EBITDA being partially off-set by increase in tax expense.

EPS

Annual EPS stood at ₹ 24.60 as compared to ₹ 19.19 in the last year.

Dividend

A dividend of ₹ 1.20 per share was recommended by the Board.

MARKETING INITIATIVES

Marketing solutions for brands

During FY 16, HMVL's primary focus was on widening geographical footprint and higher reader-engagement initiatives. This would further consolidate HMVL's leadership position in the markets where it is present. In addition, the hyperlocal strategy was fine-tuned to ensure that there was alignment with local issues. A concerted effort was made to augment the advertiser base across markets - metros, Tier-III & IV towns and international advertisers. HMVL is conscious of the need to move from the position of a service provider, to that of a solutions provider. This is because rising competition, multiple media platforms and fragmented consumer reach, are making media planning and buying an intensely complex exercise for advertisers. They prefer partners who offer holistic solutions which are designed to achieve the desired ROI on media spends. During FY 16, HMVL focused on building solutions that helped customers achieve their brand objectives, and targets in an efficient and effective manner.

Value creation for brand partners

Through the 'Partnership for Growth' initiative, advertising partners, predominantly in the real estate, were supported to enhance their communication objectives. This way, HMVL helps value-creation for its brand partners. The Company also adopted integrated Print + Digital offerings for traditional print advertising segments like classifieds and education, to offer greater value.

Higher price realisation from ads

In FY 16, growth in ad revenues was a result of new initiatives and cross-selling. Despite challenges, HMVL increased operating rates across markets and categories, which demonstrated the strength of reach. With the economy on an upswing, the potential for growth in FY 17 is more pronounced.

Investments made in increasing product-reach across markets are yielding positive results. A cover price increase was initiated across markets based on product strength and market reach. However, circulation numbers were not affected by this decision. This emphasises the confidence, the readers have in HMVL's products.

Capacity expansion

The Company continued to expand its footprint and printing capacities in FY 16 with the addition of a new unit in Haldwani, Uttarakhand. Capacity upgrades were also undertaken at Lucknow and Ranchi.

HUMAN CAPITAL

During FY 16, the Company focused on strengthening the behavioural and functional skills of employees through various training initiatives. 100 Digital Champions were chosen in the editorial team through assessments, and they were tasked with imparting digital knowledge to the larger editorial team.

A workshop for 'People Leaders' called LEAD has enabled HMVL to identify and influence key stakeholders to drive the organisation's performance. As part of ensuring greater transparency, a Performance Management System based on the Balanced Scorecard was implemented.

The people agenda focused on retention of key personnel, strengthening of employee engagement and building competencies to ensure high performance. Additionally, workforce analytics are increasingly used to seek timely inputs and insights into people issues.

As on March 31, 2016, HMVL's people strength stood at 2,309.

Women at workplace

HMVL follows a strict policy to ensure the safety of women at workplace. The Company is fully compliant with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. The Company's formulated policy in this regard is available on the employee intranet portal. The Internal Complaints Committee (ICC) is in place. Two complaints were reported during FY 16, which were adequately dealt with by the ICC.

TECHNOLOGY: COMPREHENSIVE TRANSFORMATION

FY 16 was the defining year for a comprehensive 'Wave 1' transformation of information technology in the Company. A new framework 'e2i' (enterprise to internet) has seen the rollout of powerful capabilities at the applications and infrastructure layers, using both enterprise (classic) and internet (contemporary) styles of technologies. Wave 1 transformation has touched several facets of the business, covering news, digital, revenue, radio, education and enterprise. The quantum shift achieved through the first wave in IT, provided a foundation for competitive differentiation, and will be followed by a 'Wave 2'.

New media marketing tool

There is a major transformation of IT for revenue generation – notably for media marketing and circulation. A new strategic pricing tool for media marketing namely, 'iPrice' was launched for enhancing yield, using advanced built-in statistical modelling tools. The legacy CRM system is being replaced with industry leading Salesforce.com SaaS platform to provide comprehensive automated ad-sales capabilities for media marketing. A new platform 'iProbe' was launched to support automated commercial reconciliation for ad-revenue. Circulation launched a brand new CRM capability, based on Microsoft Dynamics SaaS platform to improve acquisition and retention.

Platform upgrade for HR

HR was further strengthened with the launch of a new 'Cornerstone on Demand' SaaS platform for talent management. This platform is being further extended to create 'Edge', a brand new learning and development portal to strengthen the Company's capabilities for training.

OneIndia: Amplifying reach at a reduced cost

OneIndia is an alliance of 3 media houses including HMVL which, offers a single window for national brands to place display ads in 8 newspapers across India at one go.

AWARDS AND ACCOLADES

Hindustan was conferred the National Media Award for initiatives in the area of 'Voter Awareness' during the recent Bihar elections. The award was presented by the President of India, Shri Pranab Mukherjee on National Voters Day on January 25, 2016. In yet another significant achievement, Limca Book of Records recognised Hindustan's successful campaign 'Gorakhpur Mange AIIIMS'. As part of the effort, a record 1,39,139 letters were despatched from one post office in the city to the Prime Minister's Office to press for the demand.

RISK MANAGEMENT

The Company's robust business risk management framework helps identify and evaluate business risks and opportunities. A risk management policy, at the holding company level is in place, to assess and address business risks on a regular basis. A detailed enterprise risk identification exercise is carried out periodically to identify various strategic, operational, financial and compliance related risks, and they are evaluated for their likelihood and potential impact.

Some of the uncertainties and risks that can affect the business are technological changes, changing customer preferences and behaviour, competition, volatility in prices of news print, and macroeconomic factors like economic slowdown. To maintain its competitive edge and minimise exposure, the Company has undertaken various initiatives such as enhancement of existing technological capabilities and digital properties, increasing its geographical presence and continued investment in its print facilities. As far as volatility in newsprint prices is concerned, it is being managed by the use of lower GSM newsprint, page rationalisation, a dynamic hedging policy and effective cost management through total cost productivity.

INTERNAL CONTROL

HMVL has an adequate system of internal control commensurate with its size, nature of business and complexity of operations. These controls ensure accurate, reliable and timely compilation of financial and management information reports and optimum utilisation of resources. The internal control mechanism comprises a well-defined

organisational structure, with clearly defined authority levels and documented policies, guidelines and procedures covering all business areas and functions. These systems have been designed to safeguard the Company's assets and interests, and also ensure compliance with the Company's policies, procedures and applicable regulations.

The Company uses a robust ERP system (SAP) for accounting across its locations. The Shared Service Center (SSC) enhances the reliability of financial and operational information, provides automated controls and covers the segregation of duties. The purchase committees across locations too, strengthen the approval mechanism. The Company has set-up an online statutory compliance tool and reporting on the compliance tool is subject to concurrent audit.

The internal control system is supplemented by extensive programme of internal audits, and post audit reviews by the management. The in-house internal audit function, supported by professional external audit firms, conduct comprehensive risk-focused audits across locations & functions, to ensure a proper system of control.

OUTLOOK

Print media will continue to hold relevance in the Indian M&E industry. With a growing focus on Tier-II, Tier-III & rural areas, FMCG, auto, retail and e-commerce advertisers are likely to increase their ad spends in these markets. Against this backdrop, print ad spends are expected to grow at 7.8% in FY 17, in line with GDP growth. Within this, stronger players with a strong foothold in key consumer markets are expected to do better than industry.

HMVL is optimistic about the future, keeping in view the strong growth outlook and Hindi dailies riding high on growing literacy rates in the relevant geographies. The HMVL brand continues to grow faster than the industry in terms of revenue and profit. This robust performance, coupled with expected improvement in the macro-economic environment, results in confidence that HMVL will continue outperforming the market in FY 17.

Although the Company's advertising revenue grew at a slower pace (nearly 14.7%) in FY 16, it is expected to stay on the growth trajectory over the next five years. Hindustan is poised to be in a commanding position in FY 17 with improved margins from increase in volume and yield, and savings in newsprint cost. HMVL strongly believes in its corporate credo of '*Tarakki To Tay Hai*' (growth is assured), both for the Company and for its stakeholders.

ANNEXURE – A TO BOARD'S REPORT
SECRETARIAL AUDIT REPORT

For the Financial Year ended 31st March, 2016

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule no.9 of the Companies (Appointment and Remuneration and Managerial Personnel) Rules, 2014]

To,
 The Members,
 HINDUSTAN MEDIA VENTURES LIMITED
 (CIN: L21090BR1918PLC000013)
 Budh Marg, P.S.-Kotwali
 Patna - 800001

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by HINDUSTAN MEDIA VENTURES LIMITED (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31.03.2016 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

DISCLOSURES

During the financial year ended on March 31, 2016, the Company had no materially significant related party transactions that may have a potential conflict with the interest of the Company at large. Further, during the year, the Company acquired Hindi publication related trademarks from HT Media Limited (holding company) at a consideration of ` 62 Crore (excluding taxes and other statutory levies). The above, being a material related party transaction, was approved by the shareholders of the Company at the Annual General Meeting held on August 28, 2015.

The required disclosures on related parties and transactions with them, is appearing in Note no. 31 of the Financial Statements. The Company has formulated the 'Policy on Materiality of and dealing with Related Party Transactions', which is posted on Company's website viz. www.hmvl.in.

No penalty or stricture was imposed on the Company by any stock exchange, SEBI or other statutory authority during last three years on any matter related to capital markets, for non-compliance by the Company.

The Company has prepared the financial statements to comply in all material respects with the Accounting Standards notified under Section 133 of the Companies Act, 2013, read with Companies (Accounts) Rules 2014.

The CEO/CFO certificate in terms of Regulation 17 (8) of SEBI Regulations has been placed before the Board. The Company is complying with all mandatory requirements of Corporate Governance stated under Chapter IV of SEBI Regulations.

The Independent Directors have the requisite qualifications and experience which is of use to the Company and, in the opinion of the Company, enables them to contribute effectively. Terms and conditions of appointment of Independent Directors are posted on Company's website viz. www.hmvl.in.

The Company has complied with some of the non-mandatory requirements of SEBI Regulations on Corporate Governance. In the spirit of good corporate governance practice, the Company sends its quarterly financial results on email to the members whose email addresses are registered with the DP/Company, after they are approved by the Board and disseminated to the stock exchanges. The financial statements for the financial year ended on March 31, 2016 do not contain any audit qualification. The Chairperson's office is separate from that of the Chief Executive Officer.

The Company has framed a Whistle Blower Policy (Vigil Mechanism) to provide opportunity to the directors/employees/stakeholders of the Company to report concerns about unethical behavior, actual or suspected fraud by any director and/or employee of the Company or

any violation of the Code of Conduct. The policy provides for adequate safeguards against victimization of Whistle Blower. The Policy is posted on the Company's website viz. www.hmvl.in. During the year, no person was denied access to the Audit Committee.

Newsprint constitutes a major part of the raw material required by the Company for its product portfolio. The Company closely monitors and plans the newsprint requirement and follows a dynamic strategy for newsprint procurement from both, overseas and domestic markets. This is done to ensure that the Company is adequately prepared for newsprint price variance, if any and its availability. The trend of declining demand of newsprint in developed countries, and increasing production in India, make newsprint price less volatile than what it was few years back.

The Company uses foreign exchange forward and options contracts to hedge its exposure against imports and long term loans, whenever required. The Company does not have any major exposure on exports or receivables. The details of foreign exchange exposures as on March 31, 2016 are disclosed in Note no. 35 to the financial statements.

The Company has complied with all the mandatory requirements specified in Regulation 17 to 27 and clauses (b) to (i) of Regulation 46 (2) of the SEBI Regulations.

INDEPENDENT AUDITOR'S REPORT

To the Members of Hindustan Media Ventures Limited

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Hindustan Media Ventures Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2016, its profit and its cash flows for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure 1 a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- (c) The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
- (e) On the basis of written representations received from the directors as on March 31, 2016, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2016, from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 33 to the financial statements;

ANNEXURE 1 REFERRED TO IN PARAGRAPH 'REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS' OF OUR REPORT OF EVEN DATE

Re: Hindustan Media Ventures Limited ('the Company')

- i. a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- c) According to the information and explanations given by the management, the title deeds of immovable properties included in fixed assets are held in the name of the company.
- ii. The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- iii. a) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- iv. In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees, and securities granted in respect of which provisions of Section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- v. The Company has not accepted any deposits from the public.
- vi. To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.
- vii. a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, value added tax, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. The provisions relating to excise duty are not applicable to the Company.
- b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, service tax, sales-tax, duty of custom, value added tax, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable. The provisions relating to excise duty are not applicable to the Company.

- c) According to the records of the Company, there are no dues outstanding for sales-tax, service tax, duty of custom, value added tax and cess on account of any dispute. The dues outstanding of income- tax on account of dispute are as follows:

Nature of Statute	Nature of dues	Amount (` In Lacs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax Demand	210	AY 2012-13	Commissioner of Income Tax (Appeals)

- viii. In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of dues to a financial institution or bank. The Company did not have any outstanding debentures during the year.
- ix. According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer / further public offer / debt instruments and term loans hence, reporting under clause 3 (ix) is not applicable to the Company and hence not commented upon.
- x. Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no material fraud on the company by the officers and employees of the Company has been noticed or reported during the year.
- xi. According to the information and explanations given by the management, the managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Companies Act, 2013.
- xii. In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- xiii. According to the information and explanations given by the management, transactions with the related parties are in compliance with Section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- xiv. According to the information and explanations given to us and on an overall examination of the balance sheet, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the company and, not commented upon.
- xv. According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in Section 192 of Companies Act, 2013.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF HINDUSTAN MEDIA VENTURES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Hindustan Media Ventures Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was

established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016,

based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

1. CORPORATE INFORMATION

Hindustan Media Ventures Limited (“HMVL” or “the Company”) is a Public Limited Company registered in India & incorporated under the provision of the Companies Act, 1913. Its shares are listed on Bombay Stock Exchange (BSE) & National Stock Exchange (NSE).

HT Media Limited (“Holding Company”) holds 74.30% of Equity Share Capital of the Company. The Company is engaged in the business of publishing ‘Hindustan’, a Hindi Daily, and two monthly Hindi magazines ‘Nandan’ and ‘Kadambani’.

2. BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material aspects with the accounting standards notified under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

2.1 Summary of Significant accounting policies

a) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities, at the end of reporting period. Although these estimates are based upon management’s best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

b) Tangible Fixed Assets

Fixed Assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price, borrowing costs if capitalization criteria are met and any directly attributable cost of bringing the asset

to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Values of fixed assets acquired from the Parent Company in an earlier year are allocated based on valuation carried out by an independent expert at the time of acquisition.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of Profit and Loss for the period during which such expenses are incurred.

Leasehold improvements represent expenses incurred towards civil works, interior furnishings, etc on the leased premises at various locations.

The company adjusts exchange differences arising on translation/ settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the asset and depreciates the same over the remaining life of the asset. In accordance with MCA circular dated August 9, 2012, exchange differences adjusted to the cost of fixed assets are total differences, arising on long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset, for the period. In other words, the company does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the Interest cost and other exchange difference.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of Profit and Loss when the asset is derecognized.

The company identifies and determines cost of asset significant to the total cost of the asset having useful life that is materially different from that of the remaining life.

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

c) Depreciation on tangible fixed assets.

Leasehold Land is amortized on a straight-line basis over the primary period of lease ranging between 68-92 years.

Leasehold Improvements are amortized on a straight-line basis over the useful life of upto 10 years or unexpired period of lease (whichever is lower) on a straight line basis.

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management. The identified components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. The company has used the following rates to provide depreciation on its fixed assets:

Type of asset	Useful lives estimated by the management (years)
Plant and Machinery	2 - 21.06
Buildings (Factory)	10 - 30
Buildings (other than factory buildings)	3 - 60
Furniture and Fittings	2 - 10
IT Equipments	3 - 6
Office Equipment	2 - 5
Vehicles	8

The management has estimated, supported by technical assessment, the useful lives of certain plant and machinery as 16 to 21.06 years. These lives are higher than those indicated in schedule II.

d) Intangible assets and Amortization

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Value for individual software license acquired from the holding company in an earlier year is allocated based on the valuation carried out by an independent expert at the time of acquisition.

Intangible assets are amortized on a straight line basis over the estimated useful economic life. The Company uses a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset

is available for use. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds ten years, the Company amortizes the intangible asset over the best estimate of its useful life. Such intangible assets and intangible assets not yet available for use are tested for impairment annually, either individually or at the cash-generating unit level. All other intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Software licenses acquired from the holding company, which are estimated to have lower residual lives than that envisaged above, are amortised over such estimated lower residual lives.

Intangible assets not yet available for use are tested for impairment annually, either individually or at the cash-generating unit level. All other intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of Profit and Loss when the asset is derecognized.

The summary of amortization policies applied by the Company on its intangible assets is as below:

Intangible Assets	Useful life (in years)
Website Development	6.17
Software Licenses	5 - 11.01
Brand	10

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

e) Leases

Where the Company is the lessee

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance cost in the statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized leased assets are depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the Company is lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are

included in plant, property and equipment. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

f) Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings, other than arising on long term foreign currency monetary items, to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

g) Impairment of tangible and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or the cash-generating unit's (CGU) net selling price and value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of Profit and Loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

h) Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of Profit and Loss.

i) Inventories

Inventories are valued as follows:

Raw materials, components, stores and spares	Lower of cost and net realizable value. However, material and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis.
Work-in-progress and Finished Goods	Lower of cost and net realizable value. Cost includes direct materials and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis.
Scrap and Waste papers	At net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

j) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

Advertisements

Revenue is recognized as and when advertisement is published / displayed and is disclosed net of discounts.

Sale of News & Publications, Waste Paper and Scrap

Revenue is recognized when the significant risks and rewards of ownership have passed on to the buyer and is disclosed net of sales return and discounts.

Printing Job Work

Revenue from printing job work is recognized on the completion of job work as per terms of the agreement.

Interest/ Income from investments

Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Income on investments made in the units of mutual funds is recognized based on the yield earned and to the extent of its

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

reasonable certainty. Interest Income is included under the head "Other Income" in the statement of profit and loss.

Commission Income

Commission income from sourcing of advertisement orders on behalf of other entities' publications is recognized on printing of the advertisement in those publications.

Dividend Income

Dividend income is recognized when the Company's right to receive the dividend is established by the reporting date.

k) Foreign currency translation

(i) Initial Recognition

Foreign currency transactions are recorded in the reporting currency by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency prevailing at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

(iii) Exchange Differences

The Company accounts for exchange differences arising on translation/ settlement of foreign currency monetary items as below:

1. Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalized and depreciated over the remaining useful life of the asset.
2. Exchange differences arising on other long-term foreign currency monetary items are accumulated in the "Foreign Currency Monetary Item Translation Difference Account" and amortized

over the remaining life of the concerned monetary item.

3. All other exchange differences are recognized as income or as expenses in the period in which they arise.

For the purpose of 1 and 2 above, the company treats a foreign monetary item as "long-term foreign currency monetary item", if it has a term of 12 months or more at the date of its origination. In accordance with MCA circular dated August 9, 2012, exchange differences for this purpose, are total differences arising on long-term foreign currency monetary items for the period. In other words, the company does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange difference.

(iv) Forward exchange contracts entered into to hedge foreign currency risk of an existing asset/ liability

The premium or discount arising at the inception of forward exchange contract is amortized and recognized as an expense/ income over the life of the contract. Exchange differences on such contracts, except the contracts which are long-term foreign currency monetary items, are recognized in the statement of profit and loss in the period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or as expense for the period. Any gain/ loss arising on forward contracts which are long-term foreign currency monetary items is recognized in accordance with paragraph (iii)(1) and (iii)(2).

l) Retirement and other employee benefits

- (i) Retirement benefits in the form of Provident Fund and Pension Schemes are defined contribution schemes and the contributions are charged to the statement of Profit and Loss for the year when an employee renders the related service. There are no other obligations other than the contribution payable to the respective funds. If the

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

- (ii) Gratuity is a defined benefit plan. The cost of providing benefits under the plan is determined on the basis of actuarial valuation at each year-end using the projected unit credit method and is contributed to Gratuity Fund created by the Company. Actuarial gains and losses are recognized in full in the period in which they occur in the statement of Profit and Loss.
- (iii) Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of Profit and Loss and are not deferred. The Company presents the entire leave as current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

m) Provisions

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions

are not discounted to their present value and are determined based on best estimate required to settle the obligation at the reporting date. These are reviewed at each reporting date and are adjusted to reflect the current best estimates.

n) Income Taxes

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions, where the company operates. The tax rates and the tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Deferred Income-taxes reflects the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain,

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and same taxation authority.

o) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the reporting period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the reporting period. The weighted average numbers of equity shares outstanding during the reporting period are adjusted for events of bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the reporting period attributable to equity shareholders and the weighted average number of shares outstanding

during the reporting period are adjusted for the effects of all dilutive potential equity shares.

p) Employee Stock Compensation Cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Measurement and disclosure of the employee share-based payment plans is done in accordance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India. The Company measures compensation cost relating to employee stock options using the intrinsic value method. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefit scheme. Compensation cost is amortized over the vesting period of the option on a straight line basis.

q) Cash and Cash equivalents

Cash and Cash equivalents for the purposes of cash flow statement comprise cash in hand and at bank, cheques-in-hand and short-term investments with an original maturity of three months or less.

r) Expenses incurred on Initial Public Offer (IPO)

Expenses incurred in Initial Public Offer are adjusted against the securities premium account.

s) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2016

arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

t) Derivatives instruments

The Company uses derivative financial instruments, such as, foreign currency forward contracts to hedge foreign currency risk arising from future transactions in respect of which firm commitments are made or which are highly probable forecast transactions. It also uses interest rate swaps to hedge interest rate risk arising from variable rate loans. As per the ICAI Announcement, derivative contracts, other than those covered under Accounting Standard-11,

are accounted on the basis of hedging principles to the extent that the same does not conflict with the existing mandatory accounting standards, other Authoritative pronouncements and other regulatory requirements.

u) Measurement of EBITDA

The Company has elected to present earnings before interest expense, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit/ (loss) from continuing operations. In its measurement, the Company does not include depreciation and amortization expense, finance costs and tax expense.

29. SEGMENT INFORMATION

The Company is engaged in the business of Printing and Publication of Newspapers and Periodicals. The entire operations are governed by the same set of risk and returns, hence, the same has been considered as representing a single business segment. The said treatment is in accordance with the guiding principles enunciated in Accounting Standard – 17 on 'Segment Reporting'.

The Company sells its products mostly within India with insignificant export income and does not have any operations in economic environments with different risks and returns and hence, it has been considered as to be operating in a single geographical segment.

30. GRATUITY (POST EMPLOYMENT BENEFIT PLAN)

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of services gets a gratuity on departure at 15 days salary (last drawn salary) for each completed years of service. The Company has formed a Gratuity Trust to which contribution is made based on actuarial valuation done by independent valuer.

The following table summarizes the components of net benefit expenses recognized in the statement of Profit and Loss and the funded status and amount recognized in the Balance Sheet for respective plans:
