Orient Green Power Reports Robust 446% YoY Jump in Q1 FY26 Net Profit

Chennai, August 18, 2025 – Orient Green Power Company Limited (NSE - GREENPOWER | BSE - 533263 | INE999K01014), One of India's leading independent renewable power producers, operating wind farms, has announced its Unaudited Financial Results for Q1 FY26.

Key Financial Highlights

Particulars (₹ Cr)	Consolidated		
	Q1 FY26	Q1 FY25	YoY
Total Income	93.17	67.24	↑ 38.56%
EBITDA	65.92	45.03	↑ 46.39%
EBITDA Margin (%)	70.75%	66.97%	↑ 378 Bps
Net Profit Before Discontinued Operation (PAT)	28.85	5.28	↑ 446.40%
Net Profit Margin (%)	30.96%	7.85%	↑ 2,311 Bps

Business Highlights:

- PAT improved by over 400%.
- Y-o-Y growth in turnover and EBITDA by 40% and 46% respectively.
- Entered into an EPC contract for implementation of 7MW solar power project in Tamil Nadu.

Commenting on the performance, Mr. T Shivaraman, Managing Director & CEO, said: “The current quarter has been exceptionally strong in terms of generation. An early onset of the wind season, coupled with consistent wind availability and the resumption of certain windmills following component upgradation, has resulted in an ~40% increase in operating revenues. EBITDA recorded a y-o-y growth of around 46%. Finance costs declined by over 15% due to prompt repayments and improved credit ratings. The proposed 25 MW AC solar project will be developed across multiple locations and executed through multiple EPC contractors to expedite completion.

We expect favourable wind conditions to continue in the second quarter. Together with the commissioning of our upcoming solar project, these factors are expected to deliver stronger returns and improved cash flows.”

About Orient Power Company Limited

Orient Green Power Company Limited (OGPL), headquartered in Chennai and promoted by SVL Limited, is among the largest independent renewable power producers in India. The Company currently operates 382.3 MW of wind power capacity across high-potential states such as Tamil Nadu, Andhra Pradesh, Gujarat, and Karnataka, alongside a 10.5 MW wind farm in Croatia, Europe.

As a top independent operator and developer of wind farms in India by aggregate installed capacity, OGPL has built its expertise in identifying optimal locations, deploying advanced wind turbine designs, and maximizing generation efficiency. Its projects are strategically located in states with strong wind energy potential and supportive renewable energy policies, reinforcing its competitive positioning in the sector.

With a proven portfolio of over 380 MW, OGPL is now focused on expanding its capacity to over 1,000 MW in the near term. By combining years of operational experience, strong technical capabilities, and a

commitment to sustainable growth, the Company continues to play a key role in advancing India's renewable energy transition.
