MANAGEMENT DISCUSSION AND ANALYSIS

Industry structure and developments

FY 2017-18 was a good year for Capital Markets with Equity Turnover at the Exchanges growing more than 70% to Rs.1733 trillion against Rs.1004 trillion recorded in FY 16-17 with the ADTO also witnessing an increase to Rs.7 trillion from Rs.4 trillion in the previous year.

India will continue to benefit from the sharp decline in global commodity prices, including that of crude oil. This along with a stable Indian Rupee, will keep inflation under check. While the pace of economic reforms forms may have been slower than expected by market participants, but the steps taken by the government are in the right direction.

Opportunities and Threats

Your Company being a Stock Broker seeks opportunities in the capital market. The volatility in the stock indices in the financial year under report represents both an opportunity and challenge for the Company.

The business of the company is affected by the sentiments prevailing in the stock markets.

LKP Securities Ltd. is one of the reputed broking houses of the country, having a network of 2500 plus outlets across India. The company has put in place a new team to drive the retail business.

The Company is empanelled with most of the reputed domestic financial institutions including life and non insurance companies, mutual funds, foreign financial institutions and corporates, apart from having large number of HNI and retail clients. The likely increase in capital mobilisation from the primary market, increase in resource mobilisation by mutual funds and phenomenal growth in secondary market volumes provide significant business opportunities for the Company.

Outlook

While the IIP or Factory Output grew at 4.3% in FY 17-18 we believe that there is potential in the economy to achieve a higher IIP during the current fiscal. Oil Prices and Monsoon would be the two key monitorables in the current year which promises to be a volatile year due to elections in several states. Also a lot depends on the easing of the NPA situation in the banking sector.

Risks and Concerns

The stock broking industry has recently witnessed intense competition, falling brokerage rates and the entry of several big players. The Company's Subsidiary Company continues to achieve cost efficiencies through the application of technology. However with the availability of financial resources, we are hopeful that the said Company will be able to take the opportunities of the expanding business opportunities.

The Capital market industry in which your Company is operating is subject to extensive regulation. The Company evaluates the technological obsolescence and the associated risk and makes investment accordingly

Internal Control Systems and their adequacy

The Company has satisfactory internal control system.

The Company including subsidiary has an adequate system of internal controls to ensure accuracy of accounting records, compliance with all laws & regulations and compliance with all rules, procedures & guidelines prescribed by the management. An extensive internal audit is carried out by independent firm of Chartered Accountants. An internal team of inspection also regularly visits branches for ensuring regulatory compliance. Post audit reviews are also carried out to ensure follow up on the observations made.

Financial Performance with respect to Operational Performance

Share Capital

The paid up equity share capital of the Company as on March 31, 2018 stands at Rs. 14,64,42,592/- divided into 7,32,21,296 equity shares of Rs. 2/- each fully paid up.

Net Worth

The Net Worth of the Company 3620.12 Lacs.

Secured Loans

The secured loans 6312.74 Lacs.

Total Income

During the year under consideration 8198.71 Lacs.

Other Income

During the year under consideration 454.28 Lacs.

Human Resources

There has been **no material development** on the Human Resource/Industrial Relations front during the year. As on 31st March 2018 the Company had 481 employees.

LKP Securities Ltd. places significant importance to its human capital. As on 31st March 2017 there are 480 employees employed by the Company. The company has also provided medical insurance for its employees and family members as a welfare measure. The company has been paying special attention to improve the skill set of the employees through various training programs. All employees are encouraged and motivated to get themselves certified in relevant industry standard certifications such as CFP, NCFM, BSEC & AMFI.

Disclosure under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

The Company has in place an Anti Sexual Harassment Policy in line with the requirements of the Sexual Harassment of Women at the Workplace (Prevention, Prohibition & Redressal) Act, 2013. Internal Complaints Committee (ICC) has been set up to redress complaints received regarding sexual harassment. All employees (permanent, contractual, temporary, trainees) are covered under this policy.

Independent Auditor's Report

To The Members of

LKP Securities Limited

1. Report on the Standalone Ind AS financial statements

We have audited the accompanying standalone Ind AS financial statements of **LKP Securities Limited** ('the Company'), which comprise the balance sheet as at 31 March 2018, the statement of profit and loss (including other comprehensive income), statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").

2. Management's Responsibility for the Standalone Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

5. Other Matters

The comparative financial information of the Company for the year ended 31 March, 2017 and the transition date opening balance sheet as at 1 April, 2016 included in these standalone Ind AS financial statements, are based on the statutory financial statements prepared in accordance with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standards) Amendment Rules, 2016 audited by previous auditor whose report for the year ended 31 March, 2017 and 31 March, 2016 dated 26 April, 2017 and 2 May, 2016 respectively expressed an unmodified opinion on those standalone financial statements as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Our opinion on the standalone Ind AS financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of these matters.

6. Report on Other Legal and Regulatory Requirements

Annexure - B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 6(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date to the members of the Company on the standalone Ind AS financial statements for the year ended 31 March, 2018.

We have audited the internal financial controls over financial reporting of **LKP Securities Limited** ("the Company") as of 31 March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Intangible assets acquired or developed are measured on initial recognition at cost and stated at cost less accumulated amortisation and impairment loss, if any.

(d) Depreciation on property, plant & equipment/ intangible assets

- i) Depreciable amount for property, plant and equipment / intangible fixed assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment is provided on straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013

- ii) Intangible assets are amortised on straight line basis over their respective individual useful lives estimated by the management.

(e) Derecognition of property, plant and equipment / intangible assets

The carrying amount of an item of property, plant and equipment / intangibles is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment / intangibles is measured as the difference between the net disposal in proceeds and the carrying amount of the item and is recognised in the statement of profit and loss when the item is derecognised.

(f) Goodwill

Goodwill are measured on initial recognition at deemed cost and no amortisation is charged on the goodwill. The intangible asset recoverable amount is greater than the carrying value hence impairment is not required as per Ind AS 36 "Impairment of Asset".

(g) Leases

(i) Finance lease

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(ii) Operating lease

Lease of assets under which all the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Operating Lease payments

/ revenue are recognised on straight line basis over the lease period in the statement of profit and loss account unless increase is on account of inflation.

(h) Cash and cash equivalents

- (i) Cash and cash equivalents in the balance sheet comprise cash at bank and on hand and short-term deposit with original maturity upto three months, which are subject to insignificant risk of changes in value.
- (ii) For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined as they are considered as integral part of company's cash management.

(i) Fair value measurement

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- **Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- **Level 2** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or
- **Level 3** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(l) Financial instruments

Financial instruments is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

i Initial recognition

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

ii Subsequent measurement

Financial assets are classified into the following specified categories: amortised cost, financial assets 'at fair value through profit and loss' (FVTPL), 'Fair value through other comprehensive income' (FVTOCI). The classification depends on the Company's business model for managing

the financial assets and the contractual terms of cash flows.

Debt Instrument

Amortised Cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This category generally applies to trade and other receivables.

Fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets.
- b. The asset's contractual cash flows represent solely payments of principal and interest.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Fair value through Profit and Loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is considered only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments

The Company measures its equity investments other than in subsidiary at fair value through profit and loss. However where the Company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income, there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to statement of profit and loss.

Investment in subsidiary

Investment in subsidiary are carried at cost less impairment loss in accordance with IND AS 27 on "Separate Financial Statements". Refer note 5 for list of investments.

Derivative financial instruments

Derivative financial instruments are classified and measured at fair value through profit and loss.

iii Derecognition of financial assets

A financial asset is derecognised only when

- i) The Company has transferred the rights to receive cash flows from the asset or the rights have expired or
- ii) The Company retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Financial liabilities and equity instruments

Debt or equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

i Classification

The Company classifies all financial liabilities at amortised cost or fair value through profit or loss.

ii Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

iii De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(j) Borrowings and Borrowing costs

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the EIR.

Preference shares, which are mandatorily redeemable on a specific date are classified as liabilities.

Borrowing costs attributable to the acquisition or construction of qualifying assets till the time such assets are ready for intended use are capitalised as part of cost of the assets. All other borrowing costs are expensed in the period they occur.

(k) Provisions, contingent liabilities and contingent assets

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements, however they are disclosed where the inflow of economic benefits is probable. When the realisation of income is virtually certain, then the related asset is no longer a contingent asset and is recognised as an asset.

(l) Revenue recognition

Revenue is recognised to the extent it is probable that economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable. All revenues are accounted on accrual basis except to the extent stated otherwise.

- a) Company recognizes Brokerage income as per contracted rates on the execution of transactions on behalf of the clients on the trade date on the basis of the date of settlement of respective exchanges.
- b) Account maintenance charges are recognised on time basis over the period of the contract.
- c) Interest income for all debt instruments, measured at amortised cost or fair value through other comprehensive income, is recognised using the effective interest rate method.
- d) Dividend income is recognised when the company's right to receive dividend is established.

(m) Retirement and other employee benefits

- (i) The Company operates both defined benefit and defined contribution schemes for its employees.

For defined contribution schemes the amount charged as expense is equal to the contributions paid or payable when employees have rendered services entitling them to the contributions.

For defined benefit plans, actuarial valuations are carried out at each balance sheet date using the Projected Unit Credit Method. All such plans are unfunded.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability/ (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses (excluding interest on the net defined benefit liability/ (asset)) are recognised in Other Comprehensive Income (OCI). Such remeasurements are not reclassified to the statement of profit and loss, in the subsequent periods.

- (ii) Short term employee benefits: All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability.

(n) Transactions in foreign currencies

- (i) The functional currency of the Company is Indian Rupees ("Rs."). Foreign currency transactions are accounted at the exchange rate prevailing on the date of such transactions.
- (ii) Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Exchange differences arising on settlement of monetary items or on reporting such monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements are recognised as income or as expenses in the period in which they arise.
- (iii) Non-monetary foreign currency items are carried at historical cost and translated at the exchange rate prevalent at the date of the transaction.

(o) Accounting for taxes on income

Tax expense comprises of current and deferred tax.

Current tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax is recognized in the statement of profit and loss except to the extent that the tax relates to items recognized directly in other comprehensive income or directly in equity.

Deferred tax

Deferred tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred tax arises from the initial recognition of an asset or liability that effects neither accounting nor taxable profit or loss at the time of transition.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax

Current and deferred tax are recognized as income or an expense in the statement of profit and loss, except to the extent they relate to items that are recognized in other comprehensive income, in which case, the current and deferred tax income / expense are recognised in other comprehensive income.

Minimum Alternate Tax (MAT) paid in accordance with tax laws, which give rise to future economic benefits in the form of adjustment of future tax liability, is recognised as an asset only when, based on convincing evidence, it is probable that the future economic benefits associated with it will flow to the Company and the assets can be measured reliably.

(p) Impairment of non-financial assets

The carrying amounts of non financial assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of an asset's or cash generating unit's, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the

statement of profit and loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed by crediting the statement of profit and loss if there has been a change in the estimate of recoverable amount.

(q) Earnings per share

Basic earnings per share is computed and disclosed using the weighted average number of equity shares outstanding during the period. Dilutive earnings per share is computed and disclosed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period, except when the results would be anti-dilutive.

(r) Share based payments

The Company recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share- Based Payment. The estimated fair value of awards is charged to statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in substance, multiple awards with a corresponding increase to share based payment reserves.

(s) Dividend

Provision is made for the amount of any dividend declared on or before the end of the reporting period but remaining undistributed at the end of the reporting period, where the same has been appropriately authorised and is no longer at the discretion of the entity.

(t) Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(u) Exceptional items

Certain occasions, the size, type, or incidences of the item of income or expenses pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expenses are classified as an exceptional item and accordingly, disclosed in the financial statements.

Critical accounting judgment and estimates

The preparation of financial statements requires management to exercise judgment in applying the Company's accounting policies. It also requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures including disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis, with revisions recognised in the period in which the estimates are revised and in any future periods affected.

a Contingencies

In the normal course of business, contingent liabilities may

arise from litigation and other claims against the Company. Potential liabilities that have a low probability of crystallising or are very difficult to quantify reliably, are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. There can be no assurance regarding the final outcome of these legal proceedings.

b Useful lives and residual values

The Company reviews the useful lives and residual values of property, plant and equipment and intangible assets at each financial year end.

c Impairment testing

Judgment is also required in evaluating the likelihood of collection of customer debt after revenue has been recognised. This evaluation requires estimates to be made, including the level of provision to be made for amounts with uncertain recovery profiles. Provisions are based on historical trends in the percentage of debts which are not recovered, or on more detailed reviews of individually significant balances.

Determining whether the carrying amount of these assets has any indication of impairment also requires judgment. If an indication of impairment is identified, further judgment is required to assess whether the carrying amount can be supported by the net present value of future cash flows forecast to be derived from the asset. This forecast involves cash flow projections and selecting the appropriate discount rate.

d Tax

The Company's tax charge is the sum of the total current and deferred tax charges. The calculation of the Company's total tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process.

Accruals for tax contingencies require management to make judgments and estimates in relation to tax related issues and exposures.

The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. Where the temporary differences are related to losses, the availability of the losses to offset against forecast taxable profits is also considered. Recognition therefore involves judgment regarding the future financial performance of the particular legal entity or tax Company in which the deferred tax asset has been recognized.

e Fair value measurement

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non- financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).

- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of a fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of reporting year during which the change has occurred.

f Defined benefit obligation

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. The same is disclosed in Note 43, 'Employee benefits'.

Recent accounting pronouncements

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Indian Accounting Standard (Ind AS) 115 "Revenue from Contracts with Customers"; notifying amendments to Ind AS 12 "Income Taxes" and Ind AS 21 "The Effects of Changes in Foreign Exchange Rates". Ind AS 115, amendments to the Ind AS 12 and Ind AS 21 are applicable to the Company w.e.f. 1 April 2018.

(i) Ind AS 115 "Revenue from Contracts with Customers"

The core principle of Ind AS 115 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further this standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

ii) Amendments to Ind AS

a) Ind AS 12 "Income Taxes"

The amendment considers that tax law determines which deductions are offset against taxable income and that no deferred tax asset is recognised if the reversal of the deductible temporary difference will not lead to tax deductions. Accordingly, segregating deductible temporary differences in accordance with tax law and assessing them on entity basis or on the basis of type of income is necessary to determine whether taxable profits are sufficient to utilise deductible temporary differences.

b) Ind AS 21 "The Effects of Changes in Foreign Exchange Rates"

The amendment to this Ind AS requires foreign currency consideration paid or received in advance of an item of asset, expense or income, resulting in recognition of a non-monetary prepayment asset or deferred income liability, to be recorded in the Company's functional currency by applying the spot exchange rate on the date of transaction.

The date of transaction which is required to determine the spot exchange rate for translation of such items would be earlier of:

- the date of initial recognition of the non-monetary prepayment asset or deferred income liability, and
- the date on which the related item of asset, expense or income is recognised in the financial statements.

If the transaction is recognised in stages, then a spot exchange rate for each transaction date would be applied to translate each part of the transaction.

The Company is evaluating the disclosure requirements of these amendments and its effect on the financial statements.

44 Financial Instruments
i) Financial risk management objective and policies

The Company's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, loans, trade receivables, other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks.

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, other financial instruments.

1) Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair value of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that future cash flows of floating interest bearing investments will vary because of fluctuations in interest rates.

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term loan from banks. Redeemable preference shares carries fixed coupon rate and hence is not considered for calculation of interest rate sensitivity of the company.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS
Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact of change in interest rate of borrowings, as follows:

	(Rs. Lakhs)	
	Increase / decrease in basis points	Effect on Profit before tax
As on 31 March 2018	+ 50 / - 50	31.49
As on 31 March 2017	+ 50 / - 50	32.78

2) Foreign Currency risk

The Company does not any foreign currency risk. Hence no sensitivity analysis is required.

3) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, deposits and loans given, investments and balances at bank.

The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Expected Credit Loss is based on actual credit loss experienced and past trends based on the historical data.

Balance as at	(415.35)	(563.29)
Net Trade receivable	9,935.45	5,872.30

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. Investments primarily include investment in equity shares and bonds.

b) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The Company's principal source of liquidity are cash and cash equivalents and the cash flow i.e. generated from operations. The Company consistently generated strong cash flows from operations which together with the available cash and cash equivalents and current investment provides adequate liquidity in short terms as well in the long term.

45 First time adoption of Ind AS

These financial statements, for the year ended 31 March 2018, are the first, the Company has prepared in accordance with Ind AS. For the period up to and including the year ended 31 March 2017, the Company prepared its financial statements in accordance with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP).

Accordingly, the Company has prepared its financial statements to comply with Ind AS for the year ended 31 March 2018, together with comparative data as at and for the year ended 31 March, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2016, the Company's date of transition. These notes explain the principal adjustments made by the Company in restating its Previous GAAP financial statements, including the balance sheet as at 1 April, 2016 and the financial statements as at and for the year ended 31 March 2017.

A. Exemptions:

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

a) Deemed cost option

The Company has opted to continue with the carrying value for all of its Property, plant and equipment as recognised in its previous GAAP financial statements as deemed cost at the transition date.

b) Business Combination

The Company has elected to apply Ind AS 103 Business Combinations prospectively from 1 April, 2016.

c) Investments in equity instruments:

An entity may make an irrevocable election at initial recognition of a financial asset to present subsequent changes in the fair value of an investment in an equity instrument in profit and loss or other comprehensive income. Ind AS 101 allows such designation of previously recognized financial assets, as 'Fair value through profit and loss or other comprehensive income'.

The Company has accordingly designated certain equity instruments as at 1 April 2016 as fair value through profit and loss or other comprehensive income.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Explanations for reconciliation of Balance Sheet and Statement of Profit and loss and other Comprehensive income as previously reported under IGAAP to Ind AS

NOTES FORMING PART OF THE FINANCIAL STATEMENTS**I Investments**

Investments are recorded at amortised cost compared to being at cost under Previous GAAP.

As per Ind AS such investments are recorded at fair value through profit and loss (FVTPL) or fair value through other comprehensive income (FVTOCI).

II Deposits

Under Previous GAAP, the Company accounted for deposits received / given at transaction value.

As Per Ind AS, the company has discounted the lease deposit to consider wherever the fair value is different from the the market.

III 9% Redeemable Preference Shares

Under previous GAAP, 9% Redeemable Preference Shares were classified as a part of total equity. These have been reclassified as debt.

IV Remeasurements of defined benefit plans

Under the Previous GAAP, remeasurements i.e. actuarial gains and losses on the net defined benefit liability were recognised in the statement of profit and loss. Under Ind AS-19 Employee Benefits, actuarial gains and losses are recognised in other comprehensive income and not reclassified to statement of profit and loss.

V Expected credit loss / Doubtful Debt

As per Ind AS 109, the Company is required to apply expected credit loss model for recognising the allowance for doubtful debts. As a result, the Company has recognised, difference between receivables balance (net of ECL loss) and present value of recoverable amount of receivable, into retained earnings as at April 2016.

VI Amortisation of Goodwill

Under the Previous GAAP, the goodwill is amortised at straight lining. Under Ind AS, Goodwill is taken at deemed cost and no amortisation is charged on the goodwill. The intangible asset recoverable amount is greater than the carrying value hence impairment is not required as per Ind AS 36 "Impairment of Asset".

VII Tax Adjustments

Tax adjustments include deferred tax impact on account of differences between Previous GAAP and Ind AS.

46 Prior Year Comparatives

Previous year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classifications / disclosures.

Independent Auditor's Report

To The Members of

LKP Securities Limited

1. Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of **LKP Securities Limited** ("the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") which comprise the consolidated balance sheet as at 31 March 2018, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of cash flows and the consolidated statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

2. Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) prescribed under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 5 below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group at 31 March 2018 and their consolidated profit, consolidated total comprehensive profit, their consolidated cash flows and consolidated changes in equity for the year ended on that date.

5. Other Matter

- a) We did not audit the financial statements of subsidiary whose financial statements reflect total assets of Rs. 194.07 lakhs as at 31 March 2018, total revenues of Rs. 173.01 lakhs, total net profit after tax of Rs. 24.83 lakhs, total comprehensive income of Rs. 24.83 lakhs and net cash outflows of Rs. 41.72 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditor whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary, and our report in terms of Section 143 (3) of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the report of the other auditor.
- b) Our opinion on the consolidated Ind AS financial statements and our Report on Other Legal and Regulatory Requirements below is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor and the financial statements certified by the Management.

- c) The comparative financial information of the Group for the year ended 31 March, 2017 and the transition date opening balance sheet as at 1 April, 2016 included in these consolidated Ind AS financial statements, are based on previously issued consolidated financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by previous auditor whose report for the year ended 31 March, 2017 and 31 March, 2016 dated 26 April, 2017 and 02 May, 2016 respectively expressed an unmodified opinion on those consolidated financial statements and have been restated to comply with Ind AS. Adjustments made to the said consolidated financial information prepared in accordance with the Companies (Accounting Standards) Rules, 2006 to comply with Ind AS have been audited by us.

6. Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of other auditor on separate financial statements of subsidiary incorporated in India, referred in the Other Matters paragraph above we report, to the extent applicable, that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books;
 - (c) The consolidated Ind AS balance sheet, the consolidated Ind AS statement of profit and loss (including other comprehensive income), the consolidated statement of cash flows and consolidated statement of changes in equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
 - (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act;
 - (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditor of subsidiary incorporated in India, none of the Directors of the Group companies incorporated in India is disqualified as on 31 March 2018 from being appointed as a Director in terms of Section 164(2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate report in "Annexure A", which is based on the auditor's reports of the Holding company and its subsidiary incorporated in India; and
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group;
 - ii. The Group did not have any long-term contracts including derivative contracts having any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary incorporated in India;

Annexure - A to the Independent Auditor's Report**Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 6(f) under 'Report on Other Legal and Regulatory Requirements' of our Report of even date to the members of the LKP Securities Limited on the consolidated Ind AS financial statements for the year ended 31 March 2018**

We have audited the internal financial controls over financial reporting of **LKP Securities Limited** ("the Company" or "the Holding Company"), and its subsidiary, incorporated in India as of 31 March, 2018, in conjunction with our audit of the consolidated Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, and its subsidiary incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the subsidiary, incorporated in India, in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, and its subsidiary incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to its subsidiary incorporated in India, is based on corresponding reports of the auditors of such Company incorporated in India. Our opinion is not qualified in respect of this matter.

1 A Corporate Information

LKP Securities Limited ("the Company") is domiciled and incorporated in India and its shares are publicly traded on the Bombay Stock Exchange(BSE) in India. The Company registered office is located at 203, Embassy centre, Nariman point, Mumbai 400021, Maharashtra, India. The company and its subsidiary (collectively referred to as "the Group") is engaged as a stock and securities broker and providing other financial service with nationwide network across assets classes equities, debt, structured products, Portfolio Management services and Third party distribution.

B Basis of preparation of consolidated financial statements

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules,2015 as amended and other relevant provisions of the Act.

These financial statements for the year ended 31 March, 2018 are the first financial with comparatives, prepared under Ind AS.

For all previous periods including the year ended 31 March, 2017, the group had prepared its financial statements in accordance with the accounting standards notified under companies (Accounting Standard) Rule, 2006 (as amended) and other relevant provisions of the Act (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India.

The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1 April, 2016 being the date of transition to Ind AS.

Reconciliations and descriptions of the effect of the transition has been summarized in note 41.

Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III (except per share data), unless otherwise stated.

Current non-current classification

All assets and liabilities have been classified as current or non-current as per the group's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

C Principles of consolidation

The consolidated financial statements incorporate the financial statements of LKP Securities Limited and entity controlled by LKP Securities Limited.

Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiary are consolidated from the date control commences until the date control ceases.

The financial statements of the Group are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group.

The consolidated financial statements incorporate the financial statements of the company, its subsidiary (as listed in the table below).

Name of the Subsidiaries	Proportion of Interest (including beneficial interest) / Voting Power (either directly / indirectly or through Subsidiary)	Principal place of business
Direct Subsidiary		
LKP Wealth Advisory Private Limited	100% (100%)	India

2 A) Significant Accounting Policies
(a) Property, plant and equipment

i) All property, plant and equipment are stated at cost, less accumulated depreciation and impairment loss, if any. The Cost comprises purchase cost, borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

ii) On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(b) Intangible assets

Intangible assets acquired or developed are measured on initial recognition at cost and stated at

cost less accumulated amortisation and impairment loss, if any.

(c) Depreciation on property, plant & equipment/ intangible assets

- i) Depreciable amount for property, plant and equipment / intangible fixed assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment is provided on straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013

- ii) Intangible assets are amortised on straight line basis over their respective individual useful lives estimated by the management.

(d) Derecognition of property, plant and equipment / intangible assets

The carrying amount of an item of property, plant and equipment / intangibles is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment / intangibles is measured as the difference between the net disposal in proceeds and the carrying amount of the item and is recognised in the statement of profit and loss when the item is derecognised.

(e) Goodwill

Goodwill are measured on initial recognition at deemed cost and no amortisation is charged on the goodwill. The intangible asset recoverable amount is greater than the carrying value hence impairment is not required as per Ind AS 36 "Impairment of Asset".

(f) Leases

(i) Finance lease

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(ii) Operating lease

Lease of assets under which all the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Operating Lease payments / revenue are recognised on straight line basis over the lease period in the statement of profit and loss account unless increase is on account of inflation.

(g) Cash and cash equivalents

- i) Cash and cash equivalents in the balance sheet comprise cash at bank and on hand and short-term deposit with original maturity upto three months, which are subject to insignificant risk of changes in value.
- ii) For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined as they

are considered as integral part of Group's cash management

(h) Fair value measurement

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- **Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- **Level 2** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or
- **Level 3** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(I) Financial instruments

Financial instruments is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

i Initial recognition

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

ii Subsequent measurement

Financial assets are classified into the following specified categories: amortised cost, financial assets 'at fair value through profit and loss' (FVTPL), 'Fair value through other comprehensive income' (FVTOCI). The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

Debt Instrument

Amortised Cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This category generally applies to trade and other receivables.

Fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets.
- b. The asset's contractual cash flows represent solely payments of principal and interest.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Fair value through Profit and Loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is considered only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments

The Group measures its equity investments other than in subsidiary at fair value through profit and loss. However where the Group's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income (Currently no such choice made), there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to statement of profit and loss.

Derivative financial instruments

Derivative financial instruments are classified and measured at fair value through profit and loss.

iii Derecognition of financial assets

A financial asset is derecognised only when

- i) The Group has transferred the rights to receive cash flows from the asset or the rights have expired or
- ii) The Group retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Impairment of financial assets

The Group measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Financial liabilities and equity instruments

Debt or equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Repurchase of the group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised on the purchase, sale, issue or cancellation of the group's own equity instruments.

Financial liabilities

i Classification

The Group classifies all financial liabilities at amortised cost or fair value through profit or loss.

ii Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

iii De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(i) Borrowings and Borrowing costs

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the EIR.

Preference shares, which are mandatorily redeemable on a specific date are classified as liabilities.

Borrowing costs attributable to the acquisition or construction of qualifying assets till the time such assets are ready for intended use are capitalised as part of cost of the assets. All other borrowing costs are expensed in the period they occur.

(j) Provisions, contingent liabilities and contingent assets

The Group recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements, however they are disclosed where the inflow of economic benefits is probable. When the realisation of income is virtually certain, then the related asset is no longer a contingent asset and is recognised as an asset.

(k) Revenue recognition

Revenue is recognised to the extent it is probable that economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable. All revenues are accounted on accrual basis except to the extent stated otherwise.

- a) Group recognizes Brokerage income as per contracted rates on the execution of transactions on behalf of the clients on the trade date on the basis of the date of settlement of respective exchanges.
- b) Account maintenance charges are recognised on time basis over the period of the contract.
- c) Interest income for all debt instruments, measured at amortised cost or fair value through other comprehensive income, is recognised using the effective interest rate method.
- d) Dividend income is recognised when the group's right to receive dividend is established.

(l) Retirement and other employee benefits

- (i) The Group operates both defined benefit and defined contribution schemes for its employees.

For defined contribution schemes the amount charged as expense is equal to the contributions paid or payable when employees have rendered services entitling them to the contributions.

For defined benefit plans, actuarial valuations are carried out at each balance sheet date using the Projected Unit Credit Method. All such plans are unfunded.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability/ (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses (excluding interest on the net defined benefit liability/ (asset)) are recognised in Other Comprehensive Income (OCI). Such remeasurements are not reclassified to the statement of profit and loss, in the subsequent periods.

- (ii) Short term employee benefits: All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Group recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability.

(m) Transactions in foreign currencies

- (i) The functional currency of the Group is Indian Rupees ("Rs."). Foreign currency transactions are accounted at the exchange rate prevailing on the date of such transactions.
- (ii) Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Exchange differences arising on settlement of monetary items or on reporting such monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements are recognised as income or as expenses in the period in which they arise.
- (iii) Non-monetary foreign currency items are carried at historical cost and translated at the exchange rate prevalent at the date of the transaction.

(n) Accounting for taxes on income

Tax expense comprises of current and deferred tax.

Current tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax is recognized in the statement of profit and loss except to the extent that the tax relates to items recognized directly in other comprehensive income or directly in equity.

Deferred tax

Deferred tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred tax arises from the initial recognition of an asset or liability that effects neither accounting nor taxable profit or loss at the time of transition.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax

Current and deferred tax are recognized as income or an expense in the statement of profit and loss, except to the extent they relate to items that are recognized

in other comprehensive income, in which case, the current and deferred tax income / expense are recognised in other comprehensive income.

Minimum Alternate Tax (MAT) paid in accordance with tax laws, which give rise to future economic benefits in the form of adjustment of future tax liability, is recognised as an asset only when, based on convincing evidence, it is probable that the future economic benefits associated with it will flow to the Group and the assets can be measured reliably.

(o) Impairment of non-financial assets

The carrying amounts of non financial assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of an asset's or cash generating unit's, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the statement of profit and loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed by crediting the statement of profit and loss if there has been a change in the estimate of recoverable amount.

(p) Earnings per share

Basic earnings per share is computed and disclosed using the weighted average number of equity shares outstanding during the period. Dilutive earnings per share is computed and disclosed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period, except when the results would be anti-dilutive.

(q) Share based payments

The Group recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-Based Payment. The estimated fair value of awards is charged to statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in substance, multiple awards with a corresponding increase to share based payment reserves.

(r) Dividend

Provision is made for the amount of any dividend declared on or before the end of the reporting period but remaining undistributed at the end of the reporting period, where the same has been appropriately authorised and is no longer at the discretion of the entity.

(s) Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(t) Exceptional items

Certain occasions, the size, type, or incidences of the item of income or expenses pertaining to the ordinary activities of the Group is such that its disclosure improves the understanding of the performance of the Group, such income or expenses are classified as an exceptional item and accordingly, disclosed in the financial statements.

2 B) Critical accounting judgment and estimates

The preparation of financial statements requires management to exercise judgment in applying the Group's accounting policies. It also requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures including disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis, with revisions recognised in the period in which the estimates are revised and in any future periods affected.

a Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that have a low probability of crystallising or are very difficult to quantify reliably, are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. There can be no assurance regarding the final outcome of these legal proceedings.

b Useful lives and residual values

The Group reviews the useful lives and residual values of property, plant and equipment and intangible assets at each financial year end.

c Impairment testing

Judgment is also required in evaluating the likelihood of collection of customer debt after revenue has been recognised. This evaluation requires estimates to be made, including the level of provision to be made for amounts with uncertain recovery profiles. Provisions are based on historical trends in the percentage of debts which are not recovered, or on more detailed reviews of individually significant balances.

Determining whether the carrying amount of these assets has any indication of impairment also requires judgment. If an indication of impairment is identified, further judgment is required to assess whether the carrying amount can be supported by the net present value of future cash flows forecast to be derived from

the asset. This forecast involves cash flow projections and selecting the appropriate discount rate.

d Tax

The Group's tax charge is the sum of the total current and deferred tax charges. The calculation of the Group's total tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process.

Accruals for tax contingencies require management to make judgments and estimates in relation to tax related issues and exposures.

The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. Where the temporary differences are related to losses, the availability of the losses to offset against forecast taxable profits is also considered. Recognition therefore involves judgment regarding the future financial performance of the particular legal entity or tax Group in which the deferred tax asset has been recognized.

e Fair value measurement

A number of Group's accounting policies and disclosures require the measurement of fair values, for both financial and non- financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of a fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of reporting year during which the change has occurred.

f Defined benefit obligation

The costs of providing pensions and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. The same is disclosed in Note 38, 'Employee benefits'.

Recent accounting pronouncements

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Indian Accounting Standard (Ind AS) 115 "Revenue from Contracts with Customers"; notifying amendments to Ind AS 12 "Income Taxes" and Ind AS 21 "The Effects of Changes in Foreign Exchange Rates". Ind AS 115, amendments to the Ind AS 12 and Ind AS 21 are applicable to the Company w.e.f. 1 April 2018.

(i) Ind AS 115 "Revenue from Contracts with Customers"

The core principle of Ind AS 115 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further this standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

ii) Amendments to Ind AS

a) Ind AS 12 "Income Taxes"

The amendment considers that tax law determines which deductions are offset against taxable income and that no deferred tax asset is recognised if the reversal of the deductible temporary difference will not lead to tax deductions. Accordingly, segregating deductible temporary differences in accordance with tax law and assessing them on entity basis or on the basis of type of income is necessary to determine whether taxable profits are sufficient to utilise deductible temporary differences.

b) Ind AS 21 "The Effects of Changes in Foreign Exchange Rates"

The amendment to this Ind AS requires foreign currency consideration paid or received in advance of an item of asset, expense or income, resulting in recognition of a non-monetary prepayment asset or deferred income liability, to be recorded in the Group's functional currency by applying the spot exchange rate on the date of transaction.

The date of transaction which is required to determine the spot exchange rate for translation of such items would be earlier of:

- the date of initial recognition of the non-monetary prepayment asset or deferred income liability, and
- the date on which the related item of asset, expense or income is recognised in the financial statements.

If the transaction is recognised in stages, then a spot exchange rate for each transaction date would be applied to translate each part of the transaction.

The Group is evaluating the disclosure requirements of these amendments and its effect on the financial statements.

40 Financial Instruments
i) Financial risk management objective and policies

The Group's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments, loans, trade receivables, other receivables, and cash and cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks.

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, other financial instruments.

1) Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair value of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that future cash flows of floating interest bearing investments will vary because of fluctuations in interest rates.

The group's exposure to the risk of changes in market interest rates relates primarily to the Group's short-term loan from banks. Redeemable preference shares carries fixed coupon rate and hence is not considered for calculation of interest rate sensitivity of the group.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact of change in interest rate of borrowings, as follows:

	(Rs. Lakhs)	
	Increase / decrease in basis points	Effect on Profit before tax
As on 31 March 2018	+ 50 / - 50	31.49
As on 31 March 2017	+ 50 / - 50	32.78

2) Foreign Currency risk

The Group does not any foreign currency risk. Hence no sensitivity analysis is required.

3) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, deposits and loans given, investments and balances at bank.

The Group measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Expected Credit Loss is based on actual credit loss experienced and past trends based on the historical data.

Ageing of trade receivables

Balance as at	(415.35)	(563.29)
Net Trade receivable	10,049.91	5,883.41

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. Investments primarily include investment in equity shares and bonds.

b) Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The Group's principal source of liquidity are cash and cash equivalents and the cash flow i.e. generated from operations. The Group consistently generated strong cash flows from operations which together with the available cash and cash equivalents and current investment provides adequate liquidity in short terms as well in the long term.

ii) Capital Management

For the purpose of Group's capital management, capital includes issued capital and other equity reserves. The primary objective of the Group's Capital Management is to maximize shareholder value. The group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The group monitors capital using gearing ratio, which is Net debt divided by total capital.

41 First time adoption of Ind AS

These financial statements, for the year ended 31 March 2018, are the first, the group has prepared in accordance with Ind AS. For the period up to and including the year ended 31 March 2017, the group prepared its financial statements in accordance with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP).

Accordingly, the group has prepared its financial statements to comply with Ind AS for the year ended 31 March 2018, together with comparative data as at and for the year ended 31 March, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the group's opening balance sheet was prepared as at 1 April 2016, the group's date of transition. These notes explain the principal adjustments made by the group in restating its Previous GAAP financial statements, including the balance sheet as at 1 April, 2016 and the financial statements as at and for the year ended 31 March 2017.

A. Exemptions:

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The group has applied the following exemptions:

a) Deemed cost option

The group has opted to continue with the carrying value for all of its Property, plant and equipment as recognised in its previous GAAP financial statements as deemed cost at the transition date.

b) Investments in equity instruments:

An entity may make an irrevocable election at initial recognition of a financial asset to present subsequent changes in the fair value of an investment in an equity instrument in profit and loss or other comprehensive income. Ind AS 101 allows such designation of previously recognized financial assets, as 'Fair value through profit and loss or other comprehensive income'.

The group has accordingly designated certain equity instruments as at 1 April 2016 as fair value through profit and loss or other comprehensive income.

B. Exceptions:

The following are the mandatory exceptions have been applied in accordance with Ind AS 101 in preparing financial statements:

a) Estimates

The estimates at 1 April, 2016 and at 31 March, 2017 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustments to reflect any differences, if any, in accounting policies) apart from the following items where application of Previous GAAP did not require estimation:

i. Impairment of financial assets based on expected credit loss model

The estimates used by the group to present amounts in accordance with Ind AS reflects conditions as at the transition date and as on 31 March 2016.

b) Derecognition of financial assets and financial liabilities

The group has elected to apply the derecognition requirements for financial assets and financial liabilities in Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS.

c) Classification and measurement of financial assets

The group has classified financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS.

C. Reconciliations between Previous GAAP and Ind AS

The following reconciliations provides the effect of transition to Ind AS from IGAAP in accordance with Ind AS 101

a Balance Sheet and equity Reconciliation
b Profit and Loss and Other comprehensive income reconciliation
c Adjustment to Statement of Cash Flows
d Total equity reconciliation

Explanations for reconciliation of Balance Sheet and Statement of Profit and loss and other Comprehensive income as previously reported under IGAAP to Ind AS

I Investments

Investments are recorded at amortised cost compared to being at cost under Previous GAAP.

As per Ind AS such investments are recorded at fair value through profit and loss (FVTPL) or fair value through other comprehensive income (FVTOCI).

II Deposits

Under Previous GAAP, the group accounted for deposits received / given at transaction value.

As Per Ind AS, the group has discounted the lease deposit to consider wherever the fair value is different from the the market.

III 9% Redeemable Preference Shares

Under previous GAAP, 9% Redeemable Preference Shares were classified as a part of total equity. These have been reclassified as debt.

IV Remeasurements of defined benefit plans

Under the Previous GAAP, remeasurements i.e. actuarial gains and losses on the net defined benefit liability were recognised in the statement of profit and loss. Under Ind AS-19 Employee Benefits, actuarial gains and losses are recognised in other comprehensive income and not reclassified to statement of profit and loss.

IV Expected credit loss / Doubtful Debt

As per Ind AS 109, the group is required to apply expected credit loss model for recognising the allowance for doubtful debts. As a result, the group has recognised, difference between receivables balance (net of ECL loss) and present value of recoverable amount of receivable, into retained earnings as at April 2016.

VI Amortisation of Goodwill

Under the Previous GAAP, the goodwill is amortised at straight lining. Under Ind AS, Goodwill is taken at deemed cost and no amortisation is charged on the goodwill. The intangible asset recoverable amount is greater than the carrying value hence impairment is not required as per Ind AS 36 "Impairment of Asset".

VII Tax Adjustments

Tax adjustments include deferred tax impact on account of differences between Previous GAAP and Ind AS.
