We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

1.0 Significant Accounting Policies:**Basis of Accounting:**

The financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India.

Use of Estimates:

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Fixed Assets:

Tangible Assets are stated at cost less depreciation, All the costs incurred till the date of the assets ready for use, including installation and substantial modification to the fixed assets are capitalized and included in the cost of the respective assets.

Depreciation is provided on Straight Line Method at the rates and in the manner specified in the Schedule II in accordance with the provisions of section 123(2) of the Companies Act, 2013.

Inventories:

Inventories are valued at cost or net realizable value, whichever is lower. Cost is determined on the following basis:

Raw materials, traded goods and stores and spares – on weighted average basis;

Finished and semi-finished goods – at material cost plus direct expenses and appropriate value of overheads; cost of finished goods includes excise duty.

Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably be measured.

Revenue from sale of goods are recognized when significant risks and rewards of ownership are passed the buyer, which generally coincides with dispatch of goods. Sales taxes and value added taxes, wherever applicable, are collected on behalf of the Government and therefore, excluded from the revenue.

Excise and Custom Duty:

Excise Duty in respect of goods manufactured by the company is, according to the method consistently followed by the company, accounted for at the time of removal of goods from the factory for sale.

However, excise duty payable on the closing stock of finished goods is provided for in the accounts. Purchases of goods and fixed assets are accounted for net of excise cenvat credit availed. Custom duty paid on import of materials is dealt with in respective materials accounts.

Employee Benefits:

Post-employment benefit plans:

Defined Contribution Plan: Contribution for provident fund is accrued in accordance with applicable statutes and deposited with the Regional Provident Fund Commissioner. Contribution for Superannuation in respect of certain employees of the company is made in accordance with the scheme with Life Insurance Corporation of India.

Defined Benefit Plan: The liabilities in respect of gratuity and leave encashment are determined using Projected Unit Credit Method with actuarial valuation carried out as at balance sheet date. Actuarial gains are recognised in full in the profit and loss account for the period in which they occur.

Contribution in respect of gratuity are made to the Group Gratuity Scheme with Life Insurance Corporation of India. Employee benefits recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost and as reduced by the fair value of respective fund.

Short-term employee benefits: The undiscounted amount of short-term benefits expected to be paid in exchange for services rendered by employee is recognised during the period when the employee renders the service.

Research and Development:

Revenue expenditure on Research and Development is charged against the profit for the year in which it is incurred. Capital expenditure on Research and Development is shown as an addition to the fixed assets and is depreciated on the same basis as other fixed assets.

Borrowing Costs:

Net cost of borrowed funds for the projects till completion are capitalised and included in the cost of fixed assets. Other borrowing costs are recognised as expenses in the period in which they are incurred.

Foreign Currencies Transactions:

Foreign currency transactions are accounted for at the rates prevailing on the date of transaction. Differences arising out of foreign exchange rates are dealt with in the profit & loss account. Current assets and current liabilities relating to foreign currency transactions remaining unsettled at the end of the year are translated at the closing rates and profit or loss arising there from is dealt with in the profit & loss account.

Taxation:

Provisions are made for current tax based on tax liability computed in accordance with relevant tax rates and tax laws.

Deferred tax is recognised, subject to the consideration of prudence, on timing difference, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Earning per Share:

Diluted earning per share is computed by using the weighted average number of equity and dilutive equity equivalent shares outstanding at the year end.

Provision and Contingencies:

The Company creates a provision when there is present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Holding Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. 1.0 Significant Accounting Policies:**Basis of Accounting:**

The financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India.

Use of Estimates:

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Fixed Assets:

Tangible Assets are stated at cost less depreciation, all the costs incurred till the date of the assets ready for use, including installation and substantial modification to the fixed assets are capitalized and included in the cost of the respective assets.

Depreciation is provided on Straight Line Method at the rates and in the manner specified in the Schedule II in accordance with the provisions of section 123(2) of the Companies Act, 2013.

Inventories:

Inventories are valued at cost or net realizable value, whichever is lower. Cost is determined on the following basis:

Raw materials, traded goods and stores and spares – on weighted average basis;

Finished and semi-finished goods –at material cost plus direct expenses and appropriate value of overheads; cost of finished goods includes excise duty.

Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably be measured.

Revenue from sale of goods are recognized when significant risks and rewards of ownership are passed the buyer, which generally coincides with dispatch of goods. Sales taxes and value added taxes, wherever applicable, are collected on behalf of the Government and therefore, excluded from the revenue.

Excise and Custom Duty:

Excise Duty in respect of goods manufactured by the company is, according to the method consistently followed by the company, accounted for at the time of removal of goods from the factory for sale.

However, excise duty payable on the closing stock of finished goods is provided for in the accounts. Purchases of goods and fixed assets are accounted for net of excise credit availed. Custom duty paid on import of materials is dealt with in respective materials accounts.

Employee Benefits:**Post-employment benefit plans:**

Defined Contribution Plan: Contribution for provident fund is accrued in accordance with applicable statutes and deposited with the Regional Provident Fund Commissioner. Contribution for Superannuation in respect of certain employees of the company is made in accordance with the scheme with Life Insurance Corporation of India.

Defined Benefit Plan: The liabilities in respect of gratuity and leave encashment are determined using Projected Unit Credit Method with actuarial valuation carried out as at balance sheet date. Actuarial gains are recognised in full in the profit and loss account for the period in which they occur.

Contributions in respect of gratuity are made to the Group Gratuity Scheme with Life Insurance Corporation of India. Employee benefits recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost and as reduced by the fair value of respective fund.

Short-term employee benefits: The undiscounted amount of short-term benefits expected to be paid in exchange for services rendered by employee is recognised during the period when the employee renders the service.

Research and Development:

Revenue expenditure on Research and Development is charged against the profit for the year in which it is incurred. Capital expenditure on Research and Development is shown as an addition to the fixed assets and is depreciated on the same basis as other fixed assets.

Borrowing Costs:

Net cost of borrowed funds for the projects till completion are capitalised and included in the cost of fixed assets. Other borrowing costs are recognised as expenses in the period in which they are incurred.

Foreign Currencies Transactions:

Foreign currency transactions are accounted for at the rates prevailing on the date of transaction. Differences arising out of foreign exchange rates are dealt with in the profit & loss account. Current assets and current liabilities relating to foreign currency transactions remaining unsettled at the end of the year are translated at the closing rates and profit or loss arising there from is dealt with in the profit & loss account.

Taxation:

Provisions are made for current tax based on tax liability computed in accordance with relevant tax rates and tax laws.

Deferred tax is recognised, subject to the consideration of prudence, on timing difference, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Earning per Share:

Basic earning per Share is computed by dividing the net profit attributable to equity shareholders for the year by weighted average number of equity shares outstanding during the year. Diluted earning per share is computed by using the weighted average number of equity and dilutive equity equivalent shares outstanding at the year end.

Provision and Contingencies:

The Company creates a provision when there is present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that probably will not require an outflow or where a realisable estimate of the obligation can not be made.

The Company has disclosed only such policies and notes from the individual financial statements, which fairly present the needed disclosures. Lack of homogeneity and other similar considerations made it desirable to exclude some of them, which in the opinion the management, could be better viewed, when referred from the individual financial statements.
