CHAIRMAN'S MESSAGE

Dear Shareholders,

Amid difficult global conditions, the Indian economy displayed a remarkable resilience, growing at a steady pace of 7.1% in FY17 as estimated by the Central Statistics Office, Government of India. Worldwide, it has been a challenging year with events like the Brexit, elections in the US and Europe and ongoing crisis in the Middle East weighing down on sentiment. Things, however, began to look brighter in the second half of FY17 as economic activity gained momentum, leading to a steady recovery in most of the world's large economies. According to International Monetary Fund, global GDP is expected to grow by 3.5% in 2017 which is a scale up from 3.1% in 2016.

On the domestic turf, the economy had its share of ups and downs, especially in the wake of demonetization. While the immediate effect of the surprise withdrawal of higher currency notes created a dent in the overall growth, the economy was quick to bounce back, posting a modest recovery. This was further aided by a buoyant rebound in agricultural activity on the back of a normal monsoon and record production of food grains. There was also significant uncertainty and apprehensions about the GST, but its smooth rollout on 1st July, 2017 has been a positive step, which will not only simplify the tax structure for trade and industries, but will also boost the revenue mop-up for the Government.

From the Company's point of view, the year marked a significant development. In consequence of a restructuring exercise, demerging all the manufacturing businesses to another entity with a mirror image of the shareholders, your Company will henceforth be a non-banking financial company classified as a Core Investment Company and carry the investments in the financial services business. This is a key strategic move to give the desired focus and to derive the full potential for the financial services business.

Cholamandalam Investment and Finance Company Limited (CIFCL)

Ranked among the country's leading non-banking financial companies, CIFCL continues to reinstate its leading position in rural and semi-urban areas, with 90% access in Tier III, IV, V and VI towns. CIFCL provides a host of financial services including vehicle finance, business finance, home equity loans, stock broking and distribution of financial products through its nation-wide network of 709 branches spread across 25 states.

CIFCL had total assets under management (AUM) of ₹ 36,984 Cr. as of March 31, 2017, with net non-performing assets (NPA) of 3.2% and a healthy return on total assets (PBT-ROTA) of 3.9%. The total disbursements for FY17 stood at ₹ 18,591 Cr., clocking a growth of 13% over the previous year. Profit after tax was 26% higher at ₹ 719 Cr.

During the year, CIFCL introduced a new product called trip loans to meet the financial needs of transport owners/drivers on their trip journeys for fueling, toll fee payments, servicing, etc. CIFCL also adopted Gross NPA recognition at 90 days, one year ahead of the RBI's stipulated period.

Cholamandalam MS General Insurance Company Limited (CMSGICL)

CMSGICL is in its 15th year of operations. Coinciding with the same, the Company declared a maiden dividend of 6% on the Equity shares. CMSGICL registered a strong Gross Written Premium (GWP) growth of 28% in FY17 over the previous year and continues to maintain its market share at 2.76%. GWP was ₹ 3,133 Cr. while profit before tax stood at ₹ 297 Cr. in FY17, largely driven by new partnerships secured during the year and strong growth achieved by proprietary channels and partners.

In line with the Government's Digital-India move, CMSGICL has taken proactive steps to make operations more technology driven. These projects include system integration with partners, mobility solutions including break-in inspection app, claims survey app with integrated video streaming, lead management app for managing renewals and UPI & wallet payments for customers and agents. Some other projects in the areas of telematics, data integration and analytics are near completion and would be ready for application in the coming quarters.

Cholamandalam MS Risk Services Limited (CMSRSL)

CMSRSL continues to be a leader in the field of providing comprehensive safety and environment engineering solutions to corporates in managing their risks profitably. The Company has successfully executed more than 5,000 consulting projects both in India and abroad. The Company has also invested in building a rich repository of best in class software and state-of-the-art instruments to quantify risks faced by its clients.

I take this opportunity to express my gratitude to all our customers, employees, business partners, intermediaries, vendors for their continued support and contribution in the Company's growth as we continue to work towards building greater value for all our stakeholders. BOARD'S REPORT & MANAGEMENT DISCUSSION AND ANALYSIS

Dear Shareholders,

The Directors take pleasure in presenting the 68th Annual Report together with the audited financial statements of the Company for the year ended 31st March 2017.

1. Scheme of Arrangement, Share Capital and reduction in face value of Share

The Board of Directors of the Company, at the meeting held on 3rd November, 2016, approved a Scheme of Arrangement ('Scheme') for the demerger of the Manufacturing Business Undertaking of the Company, on a going concern basis, in favour of Tube Investments of India Limited (Resulting Company, formerly 'TI Financial Holdings Limited'). The Manufacturing Business Undertaking means manufacturing of tubes, strips, tubular components, bicycles and fitness products, chains for automobile sector and industrial applications, roll-formed sections, other metal formed products, industrial gears, designing and manufacturing of dies and includes investments in Shanthy Gears Limited, Financiere C10 SAS, Sedis SAS, Sedis Co. Limited, Sedis GmbH, TI Tsubamex Private Limited and TI Absolute Concepts Private Limited. The Scheme received the approval of the shareholders of the Company at the Equity Shareholders meeting convened and held on 24th April, 2017 as per the directions of the National Company Law Tribunal, Chennai ('NCLT'). The Scheme was sanctioned by the NCLT vide its Order dated 17th July, 2017. The Scheme has become effective on 1st August, 2017, being the date of filing of the aforementioned Order of Sanction with the Registrar of Companies, Tamil Nadu, Chennai. The Appointed Date for transfer and vesting of the Manufacturing Business Undertaking of the Company into the Resulting Company was 1st April, 2016.

Consequent to the said demerger of the manufacturing activities, the business of the Company is financial services in the nature of investment company. The Company has substantial investments in the following companies:

- Cholamandalam Investment and Finance Company Limited engaged in non-banking financial business;
- Cholamandalam MS General Insurance Company Limited engaged in general insurance business; and
- Cholamandalam MS Risk Services Limited engaged in risk management and engineering solutions business.

In order to reflect the present nature of business, the name of the Company is being changed to 'TI Financial Holdings Limited'.

Pursuant to the Scheme, in respect of the issued, subscribed and paid up share capital of the Company, the face value of each share was also correspondingly reduced to ₹1/-. Necessary formalities are being complied with in the said regard including crediting of the new Equity Shares of the face value of ₹1/- and dispatch of the share certificates to the shareholders holding the shares in physical form.

The shareholders are entitled for issue and allotment of corresponding number of equity shares of ₹1/- each in the Resulting Company. The shares so issued will be listed on the same Stock Exchanges where the equity shares of the Company are listed viz., the BSE Limited and the National Stock Exchange of India Limited.

During the year under review, the Company has not issued shares with differential voting rights and sweat equity shares.

2. Share Capital

The paid up Equity Share Capital as on 31st March, 2017 was ₹18.75 Cr. During the year under review, the Company allotted 1,01,334 Equity shares to eligible employees under the Employees Stock Option Scheme.

Consequent upon demerger of the Manufacturing Business Undertaking as stated above on a going concern basis in favour of the Resulting Company, the share capital will stand reduced in accordance with the Scheme of Arrangement.

3. Business Environment

The Indian financial sector is a highly diversified one comprising banks, insurance companies, non-banking financial companies, pension funds, mutual funds, co-operatives and smaller financial entities, with payment banks being the latest entrants to the sector. The sector is currently in an expansion mode with the existing financial services players registering strong growth besides new entities entering the market. In recent years, the Government of India and the Reserve Bank of India have ushered in

a slew of reforms to liberalise, regulate and boost the sector. With such a collective thrust by the Government as well as the private sector, needless to state, the Indian financial services market is fast becoming one of the most dynamic and vibrant of the capital markets across the globe.

The Company has a sizeable shareholding stake in businesses engaged in non-banking financial services (NBFCs, as generally referred), general insurance and risk management services as per details furnished in this Report.

For the Indian NBFC industry, the year 2016-17 was a stable one, thanks to the favourable stance adopted by both the Regulator and the Government. Riding on the back of very welcome measures, by and large, it is expected that the sector will witness steady growth in the coming years, backed by a continuous expansion of the asset classes and higher market share for the key players in the market, which may come even at the cost of mid-sized banks.

For Cholamandalam Investment and Finance Company Limited, engaged in financial services, with its major funding stake in the auto sector, the outlook remains positive as the sector is expected to grow between six and nine per cent.

The Indian general insurance industry has grown close to twenty per cent year after year over the last several years with the gross direct premium of non-life insurers (except standalone health) at around ₹1.1 billion in 2016-17. This, despite the challenges the industry has been facing due to the overall slowdown in the economy, weak investment stream and changes that tail a de-tariffed regime. The new Crop Insurance Scheme of the Government of India has provided an appreciable impetus in handsomely improving the crop insurance premium for the industry, with the motor, health and fire segments too continuing to grow strongly.

For Cholamandalam MS General Insurance Company Limited, engaged in general insurance business, the business outlook remains very positive as it seeks to geographically grow through phased building of its distribution reach, through a digitally enabled model, across the country.

For Cholamandalam MS Risk Services Limited, engaged in providing risk management and engineering solutions in the field of safety, health and environment, in association with Cholamandalam MS General Insurance Company Limited, the business outlook is bright as it looks at constantly strengthening its consultancy portfolio through the launch of newer services.

The Committee met five times during the year ended 31st March, 2017. The composition of the Audit Committee and the attendance of each member at these meetings are given in **Table 2** of the annexure to this Report.

Remuneration to Directors

The success of the organisation in achieving good performance and governance depends on its ability to attract quality individuals as executive and Independent Directors.

The compensation to the erstwhile Managing Director comprised a fixed component and a performance incentive. The compensation was determined based on the level of responsibility and scales prevailing in the industry. The Managing Director was not paid sitting fees for any Board / Committee meetings attended by him.

The compensation to the non-executive Directors takes the form of commission on profits. Though the shareholders have approved payment of commission up to one per cent of the net profits of the Company for each year calculated as per the provisions of the Companies Act, 2013, the actual commission paid to the Directors is restricted to a fixed sum. The sum is reviewed periodically taking into consideration various factors such as performance of the Company, time devoted by the Directors in attending to the affairs and business of the Company and the extent of responsibilities cast on the Directors under various laws and other relevant factors. Considering the time and efforts put in by the erstwhile Chairman and Mr. Pradeep V Bhide, erstwhile Director towards the affairs of the Company, they were paid a differential remuneration. The non-executive Directors are also paid sitting fees as permitted by government regulations for all Board and Committee meetings attended by them.

Consequent to the Demerger as stated above, the part of the remuneration of the Directors for the financial year ended 31st March, 2017 that is attributable to the manufacturing activities have been charged/accounted in the books of the Resulting Company.

Nomination & Remuneration Committee

The role of the Nomination and Remuneration Committee is in accordance with the requirement of Section 178 of the Companies Act, 2013 and the SEBI Listing Regulations. Under the terms of reference, the Committee's role includes

formulation of criteria for determining qualifications, positive attributes and independence of a Director and recommending to the Board a policy relating to the remuneration for the Directors, key managerial personnel and other employees; formulation of criteria for evaluation of Independent Directors and the Board; devising a policy on Board diversity and identification of persons who are qualified to become Directors and who may be appointed in senior management in accordance with the criteria laid down, and recommend to the Board their appointment and removal. The Committee's scope further covers recommending to the Board the appointment/re-appointment of the executive and non-executive Directors.

The Remuneration Policy of the Company provides a performance driven and market oriented framework to ensure that the Company attracts, retains and motivates high quality executives who can achieve the Company's goals, while aligning the interests of employees, shareholders and all stakeholders in accordance with the group's values and beliefs. The same is disclosed on the Companies website at the following link, <http://www.tifhl.com/articles/values/600>.

The employee's total compensation package includes fixed compensation, variable compensation in the form of annual incentive, perquisites and benefits including health and life insurance and retirement benefits. In addition, select categories of employees are eligible for long-term incentive plan in the form of stock options (ESOPs) under the Company's Employee Stock Option Scheme 2007 and Employee Stock Option Scheme 2016 ("Schemes"). During 2016-17, there were no material changes in the Schemes. Both the Schemes are in compliance with the applicable SEBI Regulations in this regard. Details of the said Schemes are provided in the Company's website.

Fixed compensation is determined on the basis of size and scope of the job typically as reflected by the level or grade of the job, trends in the market value of the job and the skills, experience and performance of the employee. The annual incentive (variable pay) of senior executives is linked directly to the performance of the Business Unit and the Company through a balanced score card. A formal annual performance management process is applied to all employees, including senior executives. Annual increases in fixed and variable compensation of individual executives are directly linked to the performance ratings. Overall compensation is subject to periodic reviews which take into account data from compensation surveys conducted by specialist firms, as well as factors such as affordability based on the Company's performance and the economic environment.

Accordingly, the Committee determines the periodic increments in salary and annual incentive of the Executive

Directors. The increments and incentive of the Managing Director are determined on the basis of the balanced score card with its three components viz., Company financials, Company score card and strategic business unit scores being given appropriate weightage.

In addition to the above, the Committee is also vested with the powers and authority for implementation, administration and superintendence of the Employees' Stock Option Plan (ESOP)/Scheme(s) and also to formulate the detailed terms and conditions of the ESOP Schemes.

The Committee has further laid down the qualifications, positive attributes and independence criteria in terms of Section 178(3) of the Companies Act, 2013 to be considered for nominating candidates for Board positions/re-appointment of Directors.

The Board Diversity Policy devised by the Committee sets out the approach to diversity on the Board of the Company in order to ensure a process which is transparent with diversity of thought, experience, knowledge, perspective and gender in the Board.

The Committee met five times during the financial year ended 31st March, 2017. The composition of the Committee and the attendance of each member at these meetings are given in **Table 3** of the annexure to this Report.

The details of remuneration paid/payable to the erstwhile Managing Director and to the non-executive Directors, for the financial year ended 31st March, 2017, are given in **Table 4** and **Table 5** respectively of the annexure to this Report.

The Directors evaluated themselves, the Chairman, the Managing Director, other Board members, the Board as well as the functioning of the Board Committees viz., Audit, Nomination & Remuneration, Risk Management, Corporate Social Responsibility and Stakeholders Relationship Committees on the basis of well-defined evaluation parameters as set out in the questionnaire. ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF TI FINANCIAL HOLDINGS LIMITED (FORMERLY KNOWN AS TUBE INVESTMENTS OF INDIA LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of TI Financial Holdings Limited (formerly known as Tube Investments of India Limited)

We have audited the internal financial controls over financial reporting of TI Financial Holdings Limited (formerly known as Tube Investments of India Limited) ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls,

material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential

components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Based on the nature of activities, the Company has determined its operating cycle as twelve months for the above purpose of classification as current and non-current.

3.2. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, like provision for employee benefits, provision for doubtful trade receivables / advances / contingencies, provision for warranties, allowance for slow / non-moving inventories, useful life of Property, Plant and Equipment, provision for retrospective price revisions, provision for taxation, etc., during and at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

3.3. Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of change in value.

3.4. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

3.5. Property, Plant and Equipment (PPE)

Property, Plant and Equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Cost includes related taxes, duties, freight, insurance, etc. attributable to the acquisition, installation of the Property, Plant and Equipment and borrowing cost if capitalisation criteria are met but excludes duties and taxes that are recoverable from

tax authorities. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful life.

All machinery spare parts, stand-by and servicing equipment qualify as Property, Plant and Equipment if they meet the definition of PPE i.e. if the company intends to use these during more than a period of 12 months. The spare parts capitalized in this manner are depreciated as per AS 10 (Revised). Subsequent expenditure relating to Property, Plant and Equipment is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance

Property, Plant and Equipment retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately in the Balance Sheet.

The Company identifies and determines cost of each component/part of the asset separately, if the component/part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Capital Work-in-Progress: Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and attributable interest.

3.6. Impairment of Assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

NOTES TO FINANCIAL STATEMENTS

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of three years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the third year.

Impairment including impairment on inventories, are recognized in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

3.7. Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made or on the Balance Sheet date, are classified as current investments. All other investments are classified as Non-current / Long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Long-term investments are stated at cost and provision for diminution in value is made, where such diminution is other than that of temporary in nature. Current Investments are stated at lower of cost and fair value determined on the basis of each category of investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

3.8. Inventories

Raw materials, stores & spare parts and stock-in-trade are valued at lower of weighted average cost and estimated net realisable value.

Work-in-progress and finished goods are valued at lower of weighted average cost and estimated net realisable value. Cost includes all direct costs and appropriate proportion of overheads to bring the goods to the present location and condition. Cost of finished goods includes Excise Duty.

Due allowance is made for slow/non-moving items. Materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be used are expected to be sold at or above cost.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

3.9. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of goods are recognised on transfer of significant risk and rewards of ownership to the buyer which generally coincides with shipment and comprise amounts invoiced for the goods, including excise duty, but excluding Sales Tax/Value Added Tax, Quantity Discounts and Sale Returns.

Service revenues are recognised on completion of services.

Dividend income is accounted when right to receive such dividend is established. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Profit / loss on sale of investments is recognised at the time of sale.

3.10. Government Grants

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants/subsidy will be received.

NOTES TO FINANCIAL STATEMENTS

When the grant or subsidy from the Government relates to revenue, it is recognised as income on a systematic basis in the statement of profit or loss over the period necessary to match them with the related costs, which they are intended to compensate.

Where the Company receives non-monetary grants, the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value.

When the grant or subsidy from the Government is in the nature of promoters' contribution, and where no repayment is ordinarily expected, it is credited to Capital Reserve and treated as a part of the Shareholders' funds.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Actuarial gains / losses are immediately recognised in the Statement of Profit and Loss. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The defined benefit obligation recognised in the balance sheet represents the present value of the Defined Benefit Obligation less the Fair Value of Plan Assets out of which the obligations are expected to be settled and adjusted for unrecognised past service cost, if any. Any asset arising out of this calculation is limited to the past service cost plus the present value of available refunds and reduction in future contributions.

b. Provident Fund

In respect of the employees not covered in Point I b above, contributions to the Company's Employees Provident Fund Trust are made in accordance with the fund rules. The interest rate payable to the beneficiaries every year is being notified by the Government.

III. Long Term Compensated Absences

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a

3.12. Operating Leases

Exchange differences on such a contract are recognised in the Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation of such a contract is recognised as income or expense for the year.

3.14. Derivative Instruments and Hedge Accounting

The Company uses Cash Flow Hedges (forward contracts and currency swaps) to hedge its risks associated with foreign currency fluctuations relating to firm commitment or highly probable forecast transactions. Till 31st March 2016, the Company designated these in a hedging relationship by applying the hedge accounting principles set out in Accounting Standard 30 – “Financial Instruments – Recognition and Measurement”. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company. The carrying amount of MAT is reviewed at each reporting date and the asset is written down to the extent the Company does not have convincing evidence that it will pay normal income tax during the specified period.

These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Annexure to the Independent Auditor's Report of even date on the Consolidated Financial Statements of TI Financial Holdings Limited (Formerly known as Tube Investments of India Limited)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of TI Financial Holdings Limited (formerly known as Tube Investments of India Limited)

In conjunction with our audit of the Consolidated Financial Statements of TI Financial Holdings Limited as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of TI Financial Holdings Limited (hereinafter referred to as the "Holding Company") and its subsidiary company, its associate companies and jointly controlled company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary company, its associate companies and jointly controlled company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary company, its associate companies and jointly controlled company which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Group companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding Company, insofar as it relates to subsidiary, associate, and jointly controlled company, incorporated in India, and audited by other auditors, is based on the corresponding reports of the auditors of such subsidiary, associate and jointly controlled company incorporated in India.

The Company is listed on Bombay Stock Exchange and National Stock Exchange. The Registered Office of the Company is located at 234, NSC Bose Road, Chennai, Tamilnadu.

The Company was originally incorporated as “T.I. Cycles of India Limited” on 9th September 1949 under the Companies Act, 1913. On 15th September 1958, the name was changed to “Tube Investments of India Limited” (CIN: L65100TN1949PLC002905).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

On cessation of control, the difference between the proceeds from the disposal of investment in the subsidiary and the carrying amount of its assets less liabilities as of the date of disposal is recognized in the Consolidated Statement of Profit and Loss as the profit or loss on the disposal of the investment in the subsidiary.

a) **Subsidiary**

The Financial Statements of the Company and its Subsidiary Company have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating material intra-group balances, intra-group transactions and the resulting unrealised profits or losses, unless cost cannot be recovered, as per Accounting Standard 21 – Consolidated Financial Statements (AS 21).

5. Summary of Significant Accounting Policies

5.1 Presentation and disclosure of financial statements

An asset has been classified as current when it satisfies any of the following criteria;

- It is expected to be realised in, or is intended for sale or consumption in, the normal operating cycle relevant for each of the entities in the Group;
- It is held primarily for the purpose of being traded;
- It is expected to be realised within twelve months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A liability has been classified as current when it satisfies any of the following criteria:

- a) It is expected to be settled within the normal operating cycle relevant for each of the entities in the Group;
- b) It is held primarily for the purpose of being traded;
- c) It is due to be settled within twelve months after the reporting date; or
- d) The entities in the Group do not have an unconditional right to defer settlements of the liability for at least twelve months after the reporting date.

All other assets and liabilities have been classified as non-current.

5.2 Use of Estimates

The preparation of financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, during and at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

5.3 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of change in value.

5.4 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

5.5 Property, Plant and Equipment

Property, Plant and Equipment (PPE) are stated at historical cost less accumulated depreciation and impairment losses, if any. Cost includes related taxes, duties, freight, insurance, etc. attributable to the acquisition and installation of the Property, Plant and Equipment but excludes duties and taxes that are recoverable from tax authorities. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful life.

All machinery spare parts, stand-by and servicing equipment qualify as Property, Plant and Equipment if they meet the definition of PPE i.e. if the company intends to use these during more than a period of 12 months. The spare parts capitalized in this manner are depreciated as per AS 10 (Revised). Subsequent expenditure relating to Property, Plant and Equipment is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Property, Plant and Equipment retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately in the Balance Sheet.

The Group identifies and determines cost of each component/part of the asset separately, if the component/part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Capital Work-in-Progress: Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and attributable interest.

5.6 Impairment of Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of three years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the third year.

Impairment including impairment on inventories, are recognized in the Consolidated Statement of Profit and Loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Consolidated Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

5.7 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made or on the Balance Sheet date, are classified as current investments. All other investments are classified as Non current investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Non current investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Consolidated Statement of Profit and Loss.

In the case of CMSGICL:

- (i) Investments maturing within twelve months from the date of Balance Sheet and investments held with the specific intention to dispose of within twelve months from the date of Balance Sheet are classified as short-term investments. - (iii) Listed and actively traded equity securities are stated at last quoted closing price on the National Stock Exchange (NSE). Where a security is not listed on NSE, the last quoted closing price on Bombay Stock Exchange (BSE) is adopted.
- (iv) Units of Mutual Funds are valued at the Net Asset Value (NAV). The change in the value is credited/ (debited) to the "Fair Value Change Account".

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(v) In accordance with the Regulations, unrealized gain / loss arising due to changes in fair value of listed equity shares and mutual fund investments are taken to the "Fair Value Change Account". The credit balance, if any, in the fair value change account is not available for distribution, pending realisation.

(vi) Impairment Policy:

a. Equity Shares: The unrealized losses / gains arising due to change in fair value of equity shares will be captured at portfolio level. At the end of the financial year, any diminution in value of a scrip shall be tested for permanent impairment by applying the following tests:

- ii. CMSGICL's net worth has been fully eroded (or)
- iii. CMSGICL's audited annual accounts are not available for the last two preceding years.

Investments in such circumstances may be construed as impaired and would be written down as under:

- i. Equity shares which are actively traded to their market value.
 - ii. Equity shares other than which are actively traded or unlisted, to the book value and where the book value is negative, to ₹1.
- b. Real Estate: CMSGICL shall provide for permanent impairment loss in investment property carried at cost. The permanent impairment is said to have occurred when there is evidence of drop of more than 50% in the carrying cost for a continuous period of 5 years based on the fair value assessed every year on the balance sheet date by independent valuer.

The impairment loss in such cases shall be recognized as an expense in the Consolidated Statement of Profit and Loss. Any reversal

of impairment loss earlier recognized in Consolidated Statement of Profit and Loss, shall be recognized in the Consolidated Statement of Profit and Loss.

(vii) Segregation of invested assets is done by notionally allocating the closing Technical Reserves (Aggregate of Net Claims Outstanding and Reserve for Unexpired Risk and other related items) to Policyholders' Funds with the balance being reflected as Shareholders' Funds.

(viii) Investment income where directly identifiable with a specific business segment is credited to the business segment and in all other cases is allocated to the respective Consolidated Statement of Profit and Loss based on the ratio of "Technical Funds" and "Shareholders Funds", respectively.

In the case of CIFCL:

Investments which are long-term in nature are stated at cost. Provision is made for diminution in value if it is of nature other than temporary.

Current investments are individually valued at the lower of cost and fair value.

Costs of investments include acquisition charges such as brokerage, fees and duties.

Long-Term Investments are stated at cost other than the investment in the shares of Bombay Stock Exchange Limited, which is accounted at fair value based on the Expert Advisory Committee opinion on 'Accounting for conversion of membership rights of erstwhile BSE (AOP) into trading rights of BSEL and shares'. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

5.8 Inventories

Raw materials, stores & spare parts and stock-in-trade are valued at lower of weighted average cost and estimated net realisable value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Due allowance is made for slow/non-moving items. Materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be used are expected to be sold at or above cost.

The defined benefit obligation recognised in the balance sheet represents the present value of the Defined Benefit Obligation less the Fair Value of Plan Assets out of which the obligations

Exchange differences on such a contract are recognised in the Consolidated Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation of such a contract is recognised as income or expense for the year.

On the disposal of a non-integral subsidiary, the cumulative amount of the exchange differences which have been included under Foreign Currency Translation Reserve and which relate to that subsidiary are recognised as income or as expense in the period in which the gain or loss on disposal is recognised. When there is a change in the classification of a subsidiary, the translation procedures applicable to the revised classification are applied from the date of change in the classification.

5.20 Derivative Instruments and Hedge Accounting

Company

The Company uses Cash Flow Hedges (forward contracts and currency swaps) to hedge its risks associated with foreign currency fluctuations relating to firm commitment or highly probable forecast transactions. Till 31st March 2016, the Company designated these in a hedging relationship by applying the hedge accounting principles set out in Accounting Standard 30 – “Financial Instruments – Recognition and Measurement”. From 1st April 2016, the Company accounts for Derivative Instruments based on Guidance note issued by ICAI on accounting for Derivative contracts.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The use of Derivative Contracts is governed by the Company's policies on the use of such financial derivatives consistent with the Company's risk management strategy. The Company does not use derivative financial instruments for speculative purposes.

Derivative Contracts are initially measured at fair value, and are re-measured at subsequent reporting dates. Changes in the fair value of these Derivative Contracts that are designated and effective as hedges of future cash flows are recognised directly in "Hedge Reserve Account" under Shareholders' Funds and the ineffective portion is recognized immediately in the Consolidated Statement of Profit and Loss.

Changes in the fair value of Derivative Contracts that do not qualify for hedge accounting are recognized in the Consolidated Statement of Profit and Loss as they arise.

The amounts recognised in the Hedge reserve are transferred to the Consolidated Statement of Profit and Loss when the hedged transactions crystalizes.

If the forecast transaction is no longer expected to occur, the cumulative gain or loss previously recognised in hedge reserve is transferred to Consolidated Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. If any of these events occur or if a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised under Shareholders' Funds is transferred to the Consolidated Statement of Profit and Loss for the year.

CIFCL

The Group enters into derivative contracts in the nature of foreign currency swaps with an intention to hedge its existing assets and liabilities in foreign currency. Derivative contracts which are closely linked to the existing assets and liabilities are accounted as per the policy stated for foreign currency transactions and translations.

Derivative contracts designated as a hedging instrument for highly probable forecast transactions are accounted as per the policy stated for Hedge accounting. All other derivative contracts are marked-to-market and losses

are recognised in the Consolidated Statement of Profit and Loss. Gains arising on the same are not recognised, until realised, on grounds of prudence.

The CIFCL uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The CIFCL designates such forward contracts in a cash flow hedging relationship by applying the hedge accounting principles set out in "Accounting Standard 30 Financial Instruments: Recognition and Measurement" issued by ICAI. These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised directly in "Hedging reserve account" under Reserves and surplus, net of applicable deferred income taxes and the ineffective portion is recognised immediately in the Consolidated Statement of Profit and Loss. Amounts accumulated in the "Hedging reserve account" are reclassified to the Consolidated Statement of Profit and Loss in the same periods during which the forecasted transaction affects profit and loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in "Hedging reserve account" is retained until the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognised in "Hedging reserve account" is immediately transferred to the Consolidated Statement of Profit and Loss.

Revenue expenditure on research and development is expensed when incurred. Capital expenditure on research and development is capitalised under Property, Plant and Equipment and depreciated in accordance with Note 5.21 above.

5.23 Taxes on Income

Current Tax is the amount of tax payable on the taxable income for the year and is determined in accordance with the provisions of the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future tax liability, is considered as an asset if there is convincing evidence that the Group will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Group. The carrying amount of MAT is reviewed at each reporting date and the asset is written down to the extent the Group does not have convincing evidence that it will pay normal income tax during the specified period.

Deferred Tax is recognised on timing differences, being the differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax is measured using the tax rates and tax laws enacted or substantively enacted as at the reporting date.

In the situations where the Group is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Deferred tax assets are recognised if there is reasonable certainty that there will be sufficient future taxable income available to realise such assets. However, if there are unabsorbed depreciation and carry forward of losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence, that there will be sufficient future taxable income available to realise such assets. The carrying amount of deferred tax assets are reviewed at each reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Current Tax and Deferred Tax relating to items directly recognised in Reserves are recognised in Reserves and not in the Consolidated Statement of Profit and Loss.

In respect of overseas subsidiaries, income tax is provided for based on income tax laws prevailing in the country of incorporation of the respective subsidiaries.

5.24 Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

over the exercise price of the options is recognized as deferred employee compensation and is charged to the Consolidated Statement of Profit and Loss on graded vesting basis over the vesting period of the options.

5.29 Provision for Claw Back of Commission Income (CIFCL)

The estimated liability for claw back of commission income is recorded in the period in which the underlying revenue is recognised. These estimates are established using historical information on the nature, frequency and expected average cost of claw back and management estimates regarding possible future incidence. The estimates used for accounting of claw back claims are reviewed periodically and revisions are made as required.
