Mumbai, 2nd August, 2019: Parag Milk Foods Ltd., a leading manufacturer and marketer of dairy-based branded products in India announced its Unaudited Financial Results for the quarter ended 30th June 2019.

Performance Highlights for Q1FY20

Consolidated Revenue from Operations for Q1 FY20 reported a growth of 14.6% YoY to Rs. 6,297 million as compared to Rs. 5,494 million in Q1 FY19. Growth was driven by an increase in revenue from Milk Products by 16% YoY to Rs. 4,211 million.

The share of Milk Products for Q1FY20 is 67% of total revenue, while that of liquid milk was 18% and the same for Skimmed Milk Powder was 13%.

Gross Profit for Q1 FY20 registered a growth of 1% YoY to Rs. 1,684 million as compared to Rs. 1,668 million in Q1 FY19.

The compression in **Gross Margin** was mainly due to increase in milk procurement prices. Due to drought effect of last year and delayed monsoons, feed availability was severely constrained leading to stress at farmer level. Therefore, Raw Milk prices paid to farmers increased sequentially during the quarter. We have already passed on the raw milk price increase by combination of increased consumer prices and reduced trade discounts. The full effect of this correction will come from Q2 FY20.

EBITDA for Q1 FY20 de-grew by 4.6% YoY to Rs. 569 million as compared to Rs. 596 million in Q1 FY19. EBITDA Margin for Q1 FY20 stood at 9.0% which was impacted mainly due to decline in Gross margins

PAT for Q1 FY20 stood at Rs. 275 million as compared to Rs. 283 million in Q1 FY19. PAT Margin were healthy at 4.4% in Q1 FY20

Commenting on the performance, Mr. Devendra Shah, Chairman said "This quarter has witnessed a subsequent increase in milk prices owing to a drought scenario and a delayed monsoon which have posed challenges to the farmer community in the form of increased feed costs. Parag being focussed on consumer products, we have been able to successfully pass on the increased raw milk prices by reducing trade schemes and discounts as well as increasing the consumer prices of our products. Our brand strength and consumer pull has helped us in passing on these price increases with ease. Despite this pressure on gross margins, our EBITDA and PAT margins continue to remain on track as per our Vision 2020 due to our continued focus on manufacturing efficiencies, cost control and launching innovative value-added products. We will continue to invest behind expanding our distribution and strengthening our brands to continue our growth momentum going forward."
