Management Comment on Q2 & H1 FY26 result

Mr. Saurabh Chhabra

Promoter & Director

“Q2 FY26 has been a strong and strategic quarter for us, with continued progress across our FMCG and FMCG Intermediate verticals. While YoY growth remained robust, the FMCG business saw a slight sequential moderation due to temporary demand adjustments and capacity alignment. Despite this, the overall scale-up remains healthy with our expanded manufacturing base supporting long-term visibility. Within FMCG, our Edibles portfolio — comprising savories and spices — has also begun contributing meaningfully since September 2025 and is showing steady traction as capacities ramp up.

Our Textiles division delivered a notably strong quarter with a sharp improvement in profitability on both Y-o-Y and Q-o-Q basis, supported by stable demand and efficient operations.

We also progressed well on the upcoming Guwahati facility, which will add sizeable capacities in soap noodles and cosmetics and strengthen our presence in the high-growth North-East region from January 2026.

With active investments in capacity, diversified product offerings and geographic expansion, we are building a stronger multi-category platform. This gives us confidence in sustaining our growth momentum as we move toward our medium-term aspiration of achieving ~₹1,000 crore in revenues by FY28”

Way Ahead

FMCG Industry – Key Drivers

India FMCG Market Size, 2018-2032 (USD Billion)

Source: [zionmarketresearch](https://www.zionmarketresearch.com/)

India FMCG Industry Prospective

The India FMCG market size was worth around USD 192.20 billion in 2023 and is predicted to grow to around USD

665.63 billion by 2032 with a compound annual growth rate (CAGR) of roughly 14.80% between 2024 and 2032.

FMCG Segment

- **Availability of raw materials**
Includes both natural and man-made fibers.
- **Cost competitiveness**
Essential for maintaining an edge in the global market.
- **High domestic consumption**
Driven by rising disposable income and increasing fashion consciousness.
- **Growing demand for specialized textiles**
Expanding applications in healthcare, automotive, and sports sectors.

Way Ahead

New Customer Acquisition: Diversified beyond textiles into FMCG and intermediates post-SAPPL acquisition, enhancing market reach and reducing client concentration.

Enhanced Manufacturing Capabilities: Expanding production infrastructure through land, building, and plant acquisitions to drive scale and future diversification.

Stronger Wallet Share Through Innovation: Diversified FMCG and intermediates portfolio enables cross-selling to existing customers while unlocking new revenue streams.

Revenue Growth Target: Aiming to achieve ₹1,000 crore revenue by FY 2028, powered by the expanding FMCG and Edibles portfolio with a continued focus on margin enhancement.

Product Enhancement Initiatives: Focused on sustainable, value-added offerings in textiles and FMCG, with manufacturing investments driving differentiated, higher-margin products.

Pan-India Presence & Diversification: Headquartered in Bhilwara with operations across multiple states, the company has strengthened its distribution network through FMCG expansion, driving deeper pan-India market reach.
