Dear Sir/Ma'am,

Subject: Investors' brief and Investors' presentation for the 1st quarter ended on June 30, 2025

Pursuant to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith Investors' brief and Investors' presentation on the performance of the Company for the 1st quarter ended on June 30, 2025.

The same has also been made available on the website of the Company at www.triveniturbines.com.

You are requested to take this information on record.

Thanking you,

Yours' faithfully For Triveni Turbine Limited

Pulkit Bhasin

Company Secretary M. No. A27686

Encl: A/a

Registered office: A-44, Hosiery Complex, Phase-II, NOIDA 201 305, Uttar Pradesh Corporate office: Express Trade Towers, 8th floor, Plot No.- 15-16, Sector 16A, Noida 201301 Manufacturing Facility: 12A, Peenya Industrial Area, Peenya, Bengaluru 560 058 CIN: L29110UP1995PLC041834

Key Highlights:

- ➤ Revenue at ₹ 3.71 billion, a decline of 20% y-o-y
- > EBITDA at ₹ 958 million, down 17% y-o-y,
- ➤ EBITDA margin of 25.8%, an increase of ~100 bps y-o-y
- ➤ Profit Before Tax (PBT) at ₹ 873 million, down 19% y-o-y
- > PBT margin of 23.5%, an increase of ~20 bps y-o-y
- ➤ Profit After Tax (PAT) at ₹ 644 million, down 20% y-o-y
- > Quarterly order booking of ₹ 5.36 billion during Q1 FY 26, a decline of 16% y-o-y
- ➤ Record outstanding carry forward order book as on Jun 30, 2025 of ₹ 20.74 billion, an increase of 20% y-o-y
- > Investments including Cash at ₹ 10.05 billion

Noida, August 4, 2025: Triveni Turbine Limited (TTL) a focused, growing and market-leading corporation having core competency in the area of industrial heat & power solutions and decentralized steam-based renewable turbines up to 100 MW size; today announced the performance for the first quarter ended June 30, 2025 (Q1 FY 26).

Performance Summary (Consolidated)

(All figures in ₹ million, unless otherwise mentioned)

	Q1 FY 26	Q1 FY 25	% Change
Revenue from Operations	3,713	4,633	-19.9%
EBITDA	958	1,150	-16.7%
EBITDA Margin	25.8%	24.8%	
PBT	873	1,078	-19.0%
PBT Margin	23.5%	23.3%	
Consolidated PAT	644	804	-19.9%
Consolidated PAT Margin	17.3%	17.4%	
EPS (₹/share)	2.03	2.52	

Commenting on the Company's financial performance and recent developments, Mr. Dhruv M. Sawhney, Chairman and Managing Director, Triveni Turbine Limited, said:

"Performance in the quarter gone by was disappointing largely on account of deferment of dispatches and orders to coming quarters. Several international customers were reluctant to travel amid geopolitical uncertainties due to India-Pakistan and Israel-Iran tensions, resulting in postponement of inspections delaying the dispatches and revenue recognition. While we were anticipating performance to be back-ended and had indicated lumpy growth in the financial year, the quarter's performance fell short of our expectations and proved to be more challenging. Despite this, concerted efforts are being made to realign operations and we are confident that on an annualized basis i.e. for the financial year FY 26, the Company can maintain its growth trajectory.

During Q1 FY 26, the Company reported Revenue from Operations of ₹ 3.71 billion, which declined 20% year-on-year (y-o-y) while EBITDA and Profit Before Tax (PBT) stood at ₹ 958 million and ₹ 873 million and declined by 17% and 19% y-o-y respectively.

Order booking for the quarter stood at $\not\in$ 5.36 billion, a decline of 16% y-o-y due to lower export demand across products and aftermarkets. Order booking was also impacted by geopolitical tensions which delayed advance collections. The domestic order booking on the other hand recovered after few quarters of subdued performance and came in at $\not\in$ 2.85 billion, an increase of 32% y-o-y.

We are pleased to report that at end of June 30, 2025 the closing order book increased 20% y-o-y to a record ₹ 20.74 billion. Over the past three years the outstanding order book has nearly doubled, underscoring the Company's strong market position, consistent performance and is a testament to its sustained growth trajectory.

The overall enquiry pipelines in both Product and Aftermarket segments remain robust and globally diversified, providing good visibility for the coming year. In Q1 FY 26, the domestic product enquiry growth was strong at ~130% while the international product enquiry pipeline declined by ~5%.

It gives me great pleasure to formally introduce our newest product launch, India's first CO2-based high-temperature ultra-efficient heat pump, capable of delivering heat up to 122°C and achieving a Coefficient of Performance (COP) of 6. Indigenously developed, the product marks a major step forward in offering clean and future-ready heating solutions to India's industrial sector. As industries continue to face rising pressure to reduce carbon emissions, adopt renewable energy and improve energy intensity, this offering provides a practical and future-ready solution. The launch is also part of our broader strategy to expand our product and solutions portfolio and deliver technologically superior, energy-efficient products. With an extensive portfolio and domain expertise, alongside investments in evolving design, research and engineering capabilities, we stand committed to supporting our customers and delivering lasting value in this changing landscape."

PERFORMANCE REVIEW

Triveni Turbine Limited (TTL) is a focused, growing and market-leading corporation having core competency in the area of industrial heat & power solutions and decentralized steam-based renewable turbines up to 100 MW size. TTL is among the leading manufacturers of industrial steam turbines globally. Apart from manufacturing, the Company also provides a wide range of aftermarket services to its own fleet of turbines as well as turbines and other rotating equipment such as compressors, rotors, etc. of other makes supported by its team of highly experienced and qualified service engineers. The Company's ability to provide high-tech precision engineered-to-order solutions has made it one of the most trusted names within the sector.

The consolidated result of the Company includes the results of wholly owned foreign subsidiaries namely Triveni Turbines (Europe) Pvt. Limited (TTE), based in UK, with a 100% step down subsidiary Triveni Turbines DMCC (TTD), based in Dubai, with a 100% step down subsidiary Triveni Turbines Africa (Pty) Ltd (TTAPL), based in South Africa and the newly incorporated wholly owned foreign subsidiary namely Triveni Turbines Americas Inc. (TTAI) based in the State of Texas, USA. Further, results also includes the results of TSE Engineering (Pty.) Ltd, (TSE) (70% owned step-down foreign subsidiary) based in South Africa. The consolidated results also include the results of domestic wholly owned subsidiary namely Triveni Energy Solutions Limited (TESL) and the Joint venture Company namely Triveni Sports Private Limited (TSPL).

Q1 FY 26 Performance Review:

- During the quarter under review, revenue from operations declined by 20% as compared to previous year to ₹ 3.71 billion.
- Domestic sales declined by 24% to ₹ 1.88 billion while export sales declined by 15% to ₹ 1.83 billion.
- Export as % of sales increased to 49% in Q1 FY 26 as compared to 47% in Q1 FY 25.
- EBITDA declined by 17% to ₹ 958 million in Q1 FY 26 as against ₹ 1.15 billion in Q1 FY 25.
- EBITDA margins increased by ~100 bps to 25.8% in Q1 FY 26 as against 24.8% in the last corresponding quarter.
- Profit After Tax declined 20% y-o-y to ₹ 644 million during the quarter.
- The Company achieved order booking of ₹ 5.36 billion in Q1 FY 26 which declined by 16% on a y-o-y basis.
- Export order booking declined by 40% y-o-y to ₹ 2.51 billion mainly as Q1 FY 25 included some large export orders leading to a high base.
- Domestic order booking grew by 32% y-o-y to ₹ 2.85 billion and contributed to 53% of overall order booking in the guarter.
- On the Product side, order booking for the segment decreased by 20% y-o-y to ₹ 3.90 billion. The product segment turnover was ₹ 2.55 billion during the quarter, a decline of 17% over previous year.
- Aftermarket segment registered order booking of ₹ 1.46 billion during the quarter, a decline of 3% when

compared with the corresponding period of previous year. The aftermarket turnover was ₹ 1.17 billion during the quarter, a decline of 25% on a y-o-y basis.

- Aftermarket contribution to turnover was 31% in Q1 FY 26, as compared to 34% in Q1 FY 25.
- Total consolidated outstanding order book stood at a record ₹ 20.74 billion as on June 30, 2025 which is higher by 20% when compared to the previous year. The domestic outstanding order book stood at a record ₹ 9.14 billion, which grew 27% as compared to the previous year. The export outstanding order book stood at ₹ 11.60 billion as on June 30, 2025, up 15% y-o-y and contributing to 56% of the closing order book.

OUTLOOK

- As a globally trusted energy innovator, Triveni Turbines, is well-positioned to sustain healthy
 performance in the near-term after delivering a strong performance yet again in FY 25. This outlook is
 supported by a robust order backlog in API and IPG (Industrial Power Generation) turbine segments, as
 well as market expansion in high-potential regions such as USA. A robust domestic supply chain further
 enhances competitiveness and ensures business continuity.
- Additionally, the Aftermarket business presents strong growth potential, driven by an expanded portfolio
 of offerings, including spare parts, services and refurbishments targeting a wider customer base across
 of rotating equipment encompassing steam turbines, gas turbines, utility turbines, and geothermal
 turbines.
- The Company's expanding presence in global markets, along with the increasing demand for renewable energy, energy efficiency, waste-to-energy (WtE), and decentralized power solutions, continues to present substantial growth opportunities for Triveni Turbines. The Company is confident that leveraging these opportunities, both domestically and internationally, will enable it to maintain growth and profitability in the coming years.

About Triveni Turbine Limited

Triveni Turbine Limited (TTL) is a focused, growing and market-leading corporation having core competency in the area of industrial heat & power solutions and decentralized steam-based renewable turbines up to 100 MW size. The Company is amongst the leading manufacturers of industrial steam turbines both in India and globally. The Company delivers robust, reliable and efficient end-to-end solutions. The Company's ability to provide high-tech precision engineered-to-order solutions has made it one of the most trusted names within the sector.

Triveni Turbines manufactures steam turbines at its world-class manufacturing facilities in Bengaluru, India and assists its customers with their aftermarket requirement through its global servicing offices. With installations of 6000+ steam turbines across over 20 industries, Triveni Turbines is present in over 80 countries around the world. It was demerged from its parent Company, Triveni Engineering and Industries Limited (TEIL) in 2010. TEIL held 21.85% equity capital of TTL since the demerger until 2022. On September 21, 2022 TEIL fully divested its stake in TTL.

Triveni Turbine Limited offers steam turbine solutions for Industrial Captive and Renewable Power. The Company provides renewable power solutions specifically for Biomass, Independent Power Producers, Process Co-generation, Waste-to-Energy, Waste Heat Recovery and District Heating. Its steam turbines are used in diverse industries, ranging from Sugar, Distilleries, Steel, Cement, Textiles, Chemicals, Oil & Gas, Pulp & Paper, Petrochemicals, Fertilisers, Solvent Extraction, Metals, Palm Oil to Food Processing and more. Apart from manufacturing, the Company also provides a wide range of aftermarket services to its own fleet of turbines as well as turbines and other rotating equipment such as compressors, rotors, etc. of other makes supported by its team of highly experienced and qualified service engineers.

Triveni Turbines' market leadership has been built on a foundation of strong and continuously evolving research, development and engineering capabilities. The customer centric approach to R&D, along with a keen focus on delivered product and life-cycle cost has allowed Triveni Turbines to set benchmarks for efficiency, robustness and up-time of the turbine. A strong internal team, strengthened by collaborative associations with globally leading design and research institutions, has placed Triveni at the forefront of a technically challenging field dominated by large multi-nationals.

Triveni Turbines at a Glance

Top 2 globally in industrial steam turbines

One of the leading manufacturers of decentralised steam-based renewable turbines globally

50+ years of designing, manufacturing & supplying industrial steam turbines

Comprehensive solutions' provider for steam turbines and other rotating equipments

Industrial and Renewable Heat and Power Solutions <100 MW 1000+ Employee Strength, >20% Employee Addition in last two years

Innovation-led, reliable, customercentric products and solutions

Caters to a diverse base of customers across 20+ industries

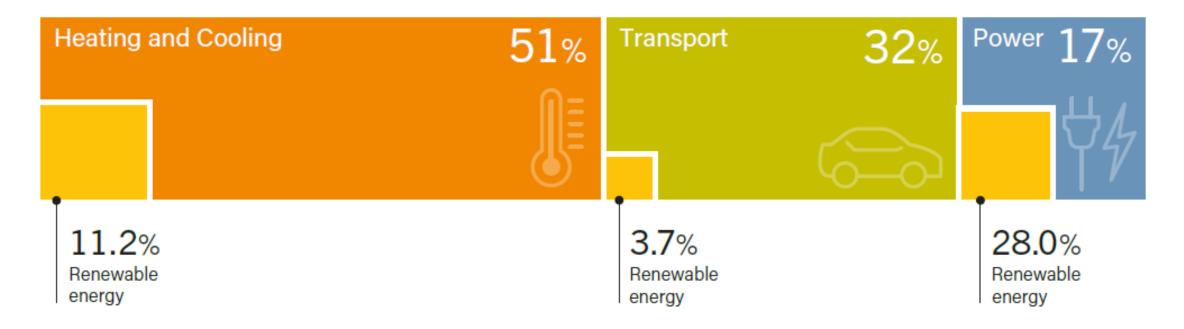

6000+ global installations in 80+ countries with power generation capacity of 16+GW

Global Final Energy Consumption is led by Heating and Cooling Applications

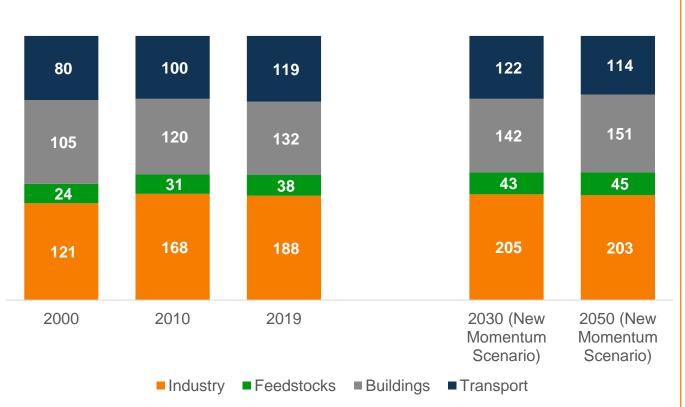

Thermal energy uses, which include space and water heating, space cooling, and industrial process heat, represent more than half (51%) of Global Total Final Energy Consumption

Industry as a Sector has the Highest Contribution in Global Final Energy Demand

Industry contributed to ~39% of end global energy demand in 2019

Even in future scenarios, the contribution is expected to remain at similar % levels

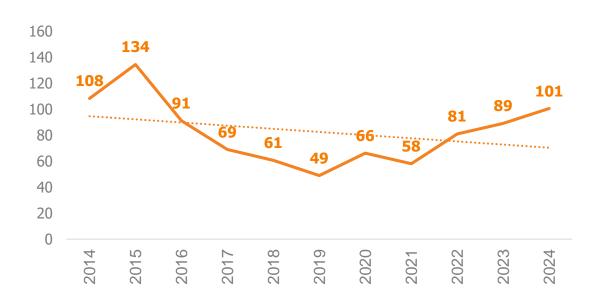

Source: : BP Energy Outlook 2023

Overall Global Steam Turbine Market has been declining over the years...

Overall Global Steam Turbine Market (in GW)

The global steam turbine market declined from

108 GW in 2014 to **101 GW** in 2024

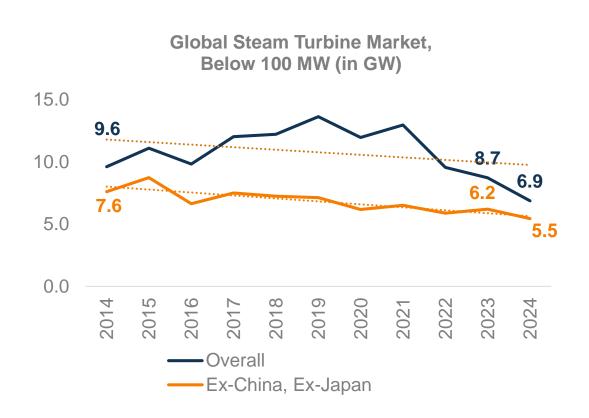

a decline of ~1% p.a. yearly during 2014 - 24

Source: McCoy Report 2024

Global Steam Turbine Market <100 MW also declined during the last decade

Below 100 MW industrial segment where Triveni Turbines operates

has also declined

over a period of 10 years

Below 100 MW market ex-China, ex-Japan that Triveni addresses

also registered a decline

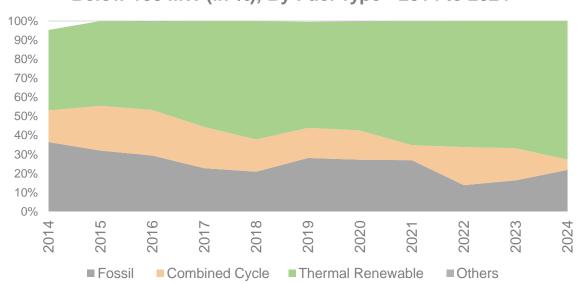

Source: McCov Report 2024

Contribution of Thermal Renewable Fuels in <100MW market has also been rising

In the <100 MW market, where Triveni operates the growth of thermal renewables has been consistent and strong.

The share of thermal renewable fuels
(Biomass, Waste-to-Energy, Waste Heat
Recovery) is significant at 73% in 2024
compared to 42% in 2014. In contrast, the
share of fossil fuels declined to 22% in 2024
from 36% in 2014.

 API steam turbines compliant with international standards (API 611 - General Purpose and API 612 - Special Purpose)

Renewable Power Generation Applications Independent Power Producers (IPP)

- Biomass
- Waste Heat

Recovery (WHR)

- Waste to Energy (WtE)
- Geothermal

Other Power Generation Applications

Combined Cycle Power Plant

Combined Heat & Power Applications Industrial Segments

- Sugar &
- Chemicals
- Distillery
- Petrochemicals
- Food Processing
- Petroleum
- Pulp & Paper
- Refineries
- Textile
- Metals
- Palm OilCement
- Agro-processing

Steel

Drive Applications

- Petroleum Refineries
- Petrochemicals
- Fertilisers

¹ Power generation capacity: Up to 100 MW; Steam Inlet Temperature: Up to 545°C; Steam Inlet Pressure: Up to 140 Bar(a)

Chemicals

Providing Sustainable Turbine Solutions for Renewable Energy Space

Biomass

(bagasse, palm oil, residues, wood pellets, rice husk)

Waste-to-energy

(Industrial and municipal waste) facilities

Waste Heat Recovery

(Metals, Steel, Cement)

Comprehensive Aftermarket Offerings

Customer Centric Approach

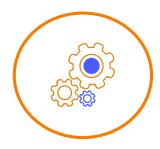

Original Equipment Manufacturer (OEM) Expertise

Shorter Lead Time

24x7 Customer Service

Automation & Efficiency

Quality & Reliability

Preventive Maintenance

LTSA/AMC

Upgradation

High Speed Balancing

Turnkey Solutions

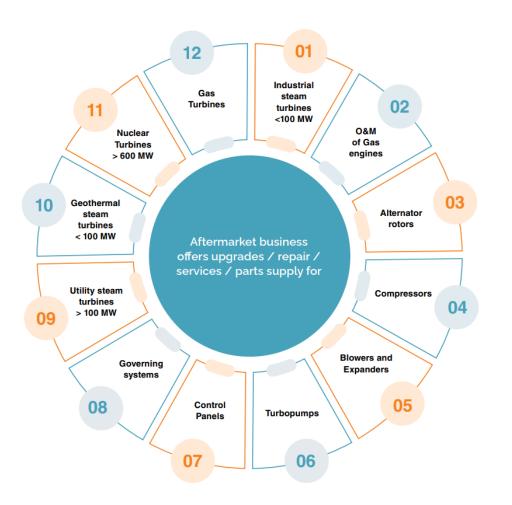

Troubleshooting

LTSA: Long-term Service Agreements AMC: Annual Maintenance Contracts

Driving Growth through Refurbishment Solutions

Key Growth Area: Refurbishment

- OEM expertise with vast knowledge of rotating equipment promoting refurbishment growth
- 2 Large addressable market globally
- Access to newer end-user industries and geographies
- Energy efficiency and return-driven metrics driving growth for refurbishment solutions globally
- Compliments own product and aftermarket solutions of the Company

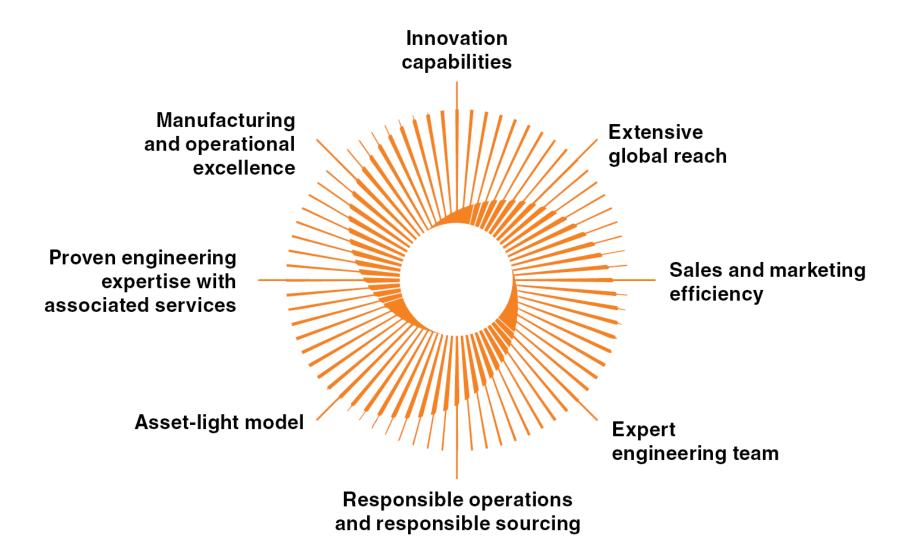

Our Strategic Priorities

Our Unique Strengths

Our Key Growth Drivers

02 Increasing Industrial Energy Demand

Global
Market Significance

O4 Customer-Centric Approach

- Innovation & Technological Advancements
- Engineering Excellence

Focus on Sustainability

- Diverse Customer Base and Market Presence
- Refurbishment Solutions

Expansion into New Markets

Strong Execution Capabilities

Dynamic and Collaborative Workforce

Strong Global Footprint

>80 Countries of Presence

▼ Other Subsidiaries/Representative Office

Countries with Installed Base

Sustainability-led Responsible Growth

Renewable fuel sources driving Product Order Booking

Fuel-agnostic solutions that align with the decarbonization journey

Focused on energy efficiency across products and solutions

Rising contribution of thermal renewable fuels in addressable markets

Green
Manufacturing
Facilities

New product development and innovation efforts towards long-term sustainable solutions

Sustainable sourcing with focus on local suppliers & MSMEs (Micro, Small & Medium Enterprises)

Our Core Principles

Impact

- Aims to make a positive impact to all our stakeholders
- Enhance market share with a compelling value proposition
- Propel sustainable development through our strategic priorities

Product Quality

- Best-in-class manufacturing at two-world class facilities at Peenya and Sompura in Bengaluru
- Both the plants are certified for AS 9100, ISO 9001, ISO 14001 and ISO 45001 standards for Quality Management, Environmental Management and Safety Management respectively

Innovation & Technology

- Consistent R&D of technology to surpass customer needs and keeping up with changing business requirements
- Leveraged in-house R&D expertise along with institutional association reputed technical institutes such as IISc, etc.
- An organization driven by Intellectual Property (IP)

Our Core Principles

Ethics

- Professional and transparent business practices
- Strong focus on Environment, Social and Governance (ESG)

Strong Relationships

- Customer centricity with focus on continuous modernisation, with regular upgrades and efficiency improvements
- Sustainable solutions that create a high degree of value for our stakeholders
- Strong networks in place to enable smooth business operations

Sustainability

- Supports environment sustainability with significant focus on thermal efficiency improvements
- Leadership in all our business lines with sustainability at the core
- Enabling Environmentally responsive operations

Continued ESG Focus

Environmental

- Manufacturing Facilities at both Peenya and Sompura are Green Factories
- Installation of roof top solar power plant of 1300 KW capacity with net metering facility

Social

- Educational initiatives such as sponsorship on education and training programmes for differently-abled students
- Provided financial support to a non-profit organisation, that focusses on value based leadership development and open dialogue on important issues facing the Indian society, to help its transformation

Governance

- Board comprises of 9 members which include 5 Non-Executive Independent Directors (including 2 Women Directors), 2 Non-Executive Non-Independent Directors and 2 Executive Directors
- Committees of the Board:
 - i. Audit Committee
 - ii. Nomination and Remuneration Committee
 - iii. Stakeholders' Relationship Committee
 - iv.Corporate Social Responsibility Committee
 - v. Risk Management Committee

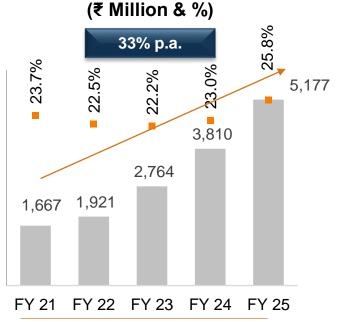

Strong & Consistently Improving Performance Over the Years

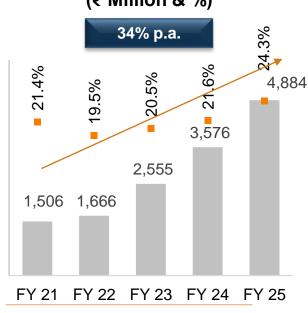

Revenue From Operations (₹ Million)

EBITDA and EBITDA Margins (₹ Million & %)

• Revenue CAGR of 30% p.a. between FY 21 - FY 25

• EBITDA CAGR of 33% p.a. between FY 21 - FY 25

 PBT CAGR of 34% p.a. between FY 21 – FY 25

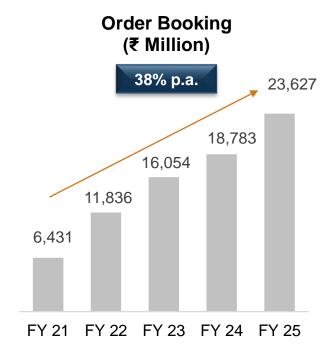

Strong & Consistently Improving Performance Over the Years

 PAT CAGR of 37% p.a. between FY 21 – FY 25 Order Booking CAGR of 38% p.a. between FY 21 – FY 25

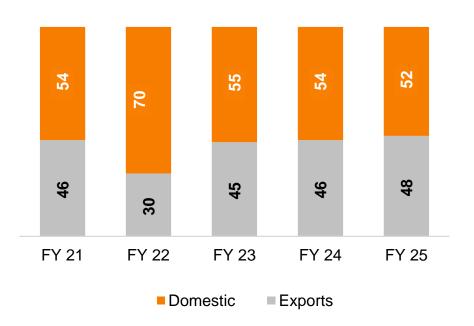

Note: PAT and PAT margins for FY 22 include the impact of one-time exceptional income of ₹ 1,982 million (Net of Expenses)

Focused on Diversification

Share of Domestic and Export Sales (%)

Share of Product and Aftermarket Sales (%)

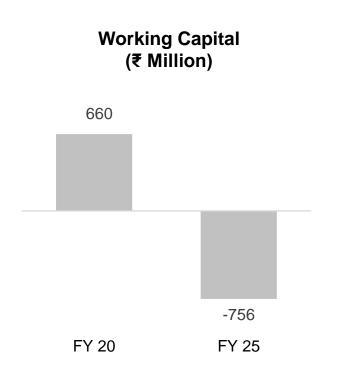

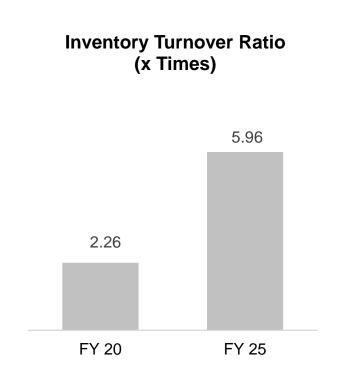

Focused on enhancing our global market position and enhancing contribution of Aftermarket Solutions

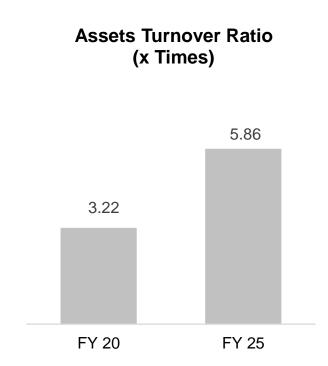

Enhancing Working Capital Management Efficiency

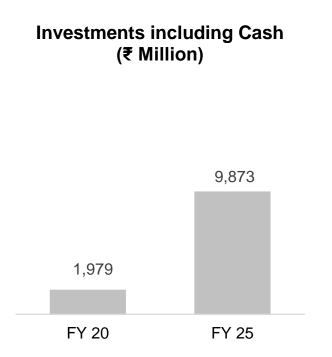

- · Sharp focus on effective management and ongoing monitoring has resulted in sustained improvement in working capital position.
- Focus on high-value engineering alongside remaining asset-light ensures more effective use of assets, contributing to an increase in asset turnover.

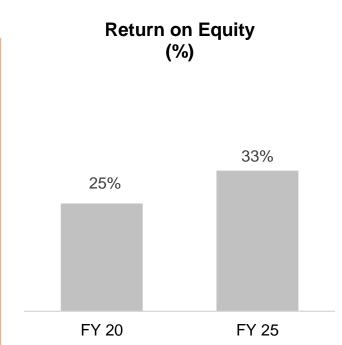

Optimising Cashflows and Returns

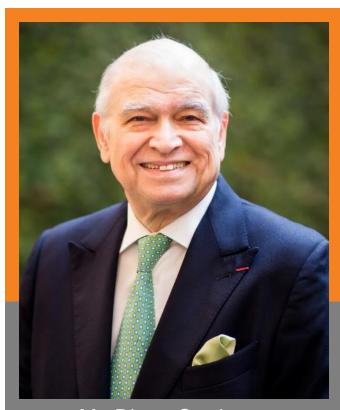

- Our focus on operational efficiency and effectively managing cash aids sustained high cash flow generation and robust return metrics.
- Our cash position including investments as on June 30, 2025, stood at ₹ 10.05 billion giving us enough headroom for investing in growth initiatives.

Q1 FY 26: Management Commentary

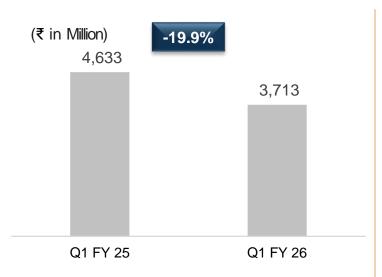

Mr. Dhruv Sawhney, Chairman & Managing Director Triveni Turbine Limited

- Performance in the quarter gone by was disappointing largely on account of deferment of dispatches and orders to coming quarters. Several international customers were reluctant to travel amid geopolitical uncertainties due to India-Pakistan and Israel-Iran tensions, resulting in postponement of inspections delaying the dispatches and revenue recognition. While we were anticipating performance to be back-ended and had indicated lumpy growth in the financial year, the quarter's performance fell short of our expectations and proved to be more challenging. Despite this, concerted efforts are being made to realign operations and we are confident that on an annualized basis i.e. for the financial year FY 26, the Company can maintain its growth trajectory.
- Order booking for the quarter stood at ₹ 5.36 billion, a decline of 16% y-o-y due to lower export demand across products and aftermarkets. We are pleased to report that at end of June 30, 2025 the closing order book increased 20% y-o-y to a record ₹ 20.74 billion. Over the past three years the outstanding order book has nearly doubled, underscoring the Company's strong market position, consistent performance and is a testament to its sustained growth trajectory.

Q1 FY 26: Key Financial Indicators

REVENUE

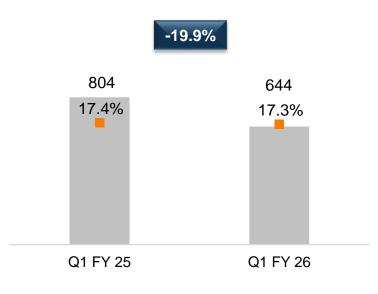

- Performance in the quarter gone by was disappointing largely on account of deferment of dispatches and orders to coming quarters.
- Domestic sales declined by 24% to ₹1.88 billion while export sales declined by 15% to ₹1.83 billion.

EBITDA and EBITDA Margin

 EBITDA margins increased by ~100 bps y-o-y to 25.8% in Q1 FY 26

PAT and PAT Margin

 PAT margins of 17.3% were largely flat on y-o-y basis

Q1 FY 26: Record Closing Order Book

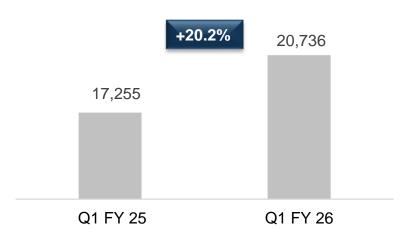

Order Booking

- Domestic order booking grew by 32% y-o-y to ₹ 2.85 billion and contributed to 53% of overall order booking in the quarter.
- Export order booking declined by 40% y-o-y to ₹ 2.51 billion mainly as Q1 FY 25 included some large export orders leading to a high base.

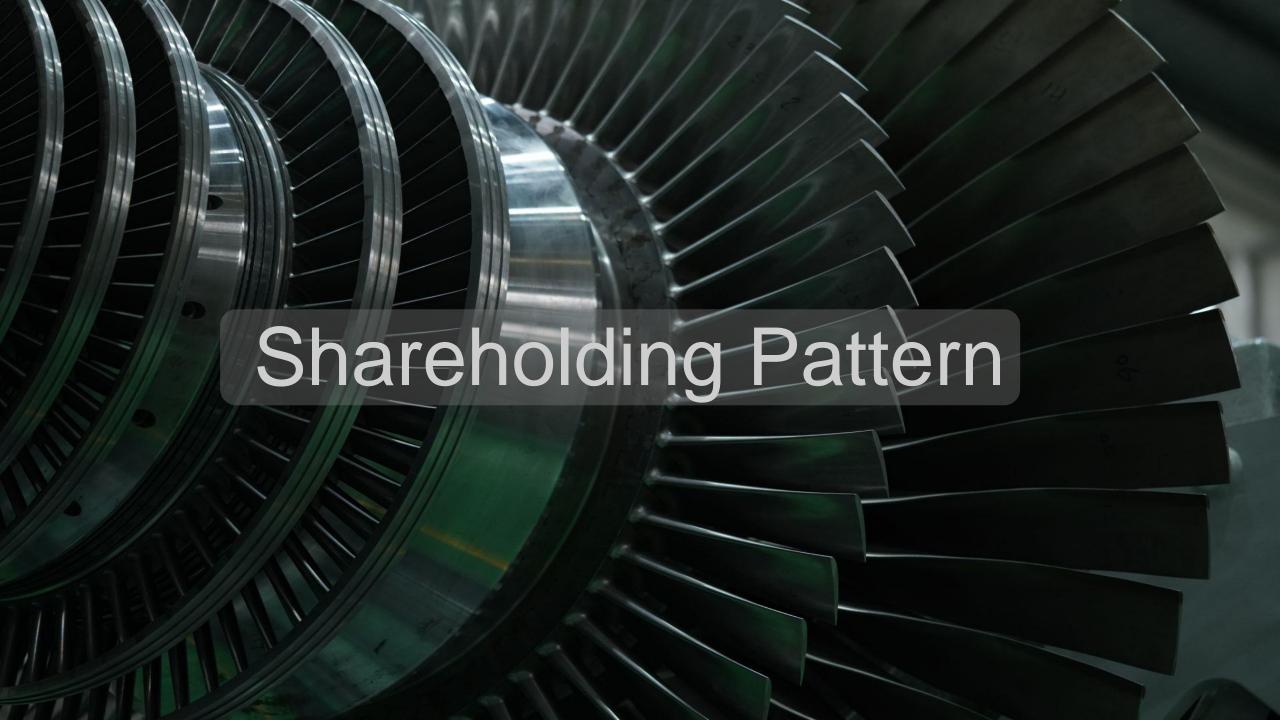

Closing Order Book

- The domestic outstanding order book stood at a record ₹ 9.14 billion, which grew 27% as compared to the previous year.
- The export outstanding order book stood at ₹ 11.60 billion as on June 30, 2025, up 15% y-o-y and contributing to 56% of the closing order book.

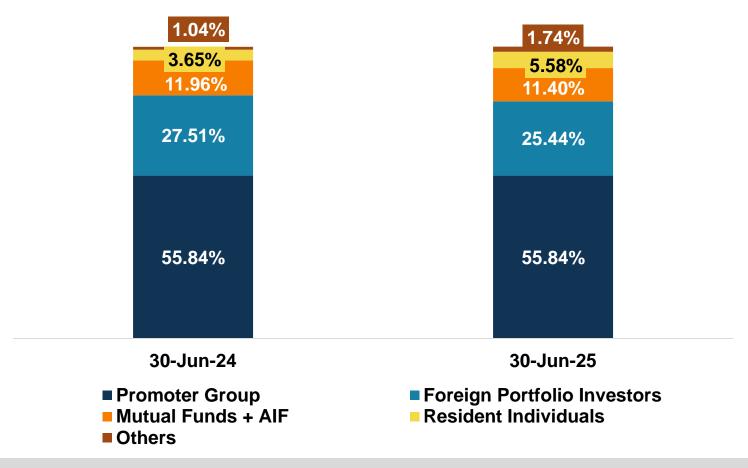

31

Shareholding Pattern

As on June 30, 2025 Resident Individuals increased holding y-o-y along with Others (detailed below)
