

# Investor Presentation

June 2015

# Disclaimer

This presentation is issued by Bharat Heavy Electricals Limited (the "Company" or "BHEL") for general information purposes only, without regard to specific objectives, suitability, financial situations and needs of any particular person and does not constitute any recommendation or form part of any offer or invitation or inducement to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities of the Company, nor shall it or any part of it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or commitment therefor. This presentation does not solicit any action based on the material contained herein. Nothing in this presentation is intended by the Company to be construed as legal, accounting or tax advice.

The presentation contains various financial data and business related data concerning the Company (including reserves and production capacity). Unless otherwise specified, all such data is on a consolidated basis, i.e., the Company and all its subsidiaries taken together. Further, such data / figures may have been rounded off to the nearest integer.

This presentation is confidential may not be copied or disseminated, in whole or in part, and in any manner or for any purpose. No person is authorized to give any information or to make any representation not contained in or inconsistent with this presentation and if given or made, such information or representation must not be relied upon as having been authorized by any person. Failure to comply with this restriction may constitute a violation of applicable securities laws. Neither this document nor any part or copy of it may be distributed, directly or indirectly, in the United States. The distribution of this document in certain jurisdictions may be restricted by law and persons into whose possession this presentation comes should inform themselves about and observe any such restrictions. By reviewing this presentation, you agree to be bound by the foregoing limitations.

You further represent and agree that (i) (A) you are located outside the United States and you are permitted under the laws of your jurisdiction to receive this presentation or (B) you are located in the United States and are a "qualified institutional buyer" (as defined in Rule 144A under the US Securities Act of 1933, as amended (the "Securities Act")), each (a "Relevant Person"). This presentation is only directed at Relevant Persons and any person who is not a Relevant Person should not act or rely on this presentation or any of its contents.

This presentation is not an offer to sell or a solicitation of any offer to buy the securities of the Company in the United States or in any other jurisdiction where such offer or sale would be unlawful. Securities may not be offered, sold, resold, pledged, delivered, distributed or transferred, directly or indirectly, in to or within the United States absent registration under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction of the United States. The Company's securities have not been and will not be registered under the Securities Act.

This presentation has been prepared by the Company based upon information available in the public domain. This presentation has not been approved and will not or may not be reviewed or approved by any statutory or regulatory authority in India or by any stock exchange in India. This presentation includes statements which may constitute forward-looking statements relating to the business, financial performance, strategy and results of the Company and/or the industry in which it operates. Forward-looking statements are statements concerning future circumstances and results, and any other statements that are not historical facts, sometimes identified by the words "believes", "expects", "predicts", "intends", "projects", "plans", "estimates", "aims", "foresees", "anticipates", "targets", and similar expressions. The forward-looking statements, including those cited from third party sources, contained in this presentation are based on numerous assumptions and are uncertain and subject to risks. The actual results could differ materially from those projected in any such forward-looking statements because of various factors, including, but not limited to, changes in demand, competition and technology. Neither the Company nor its affiliates or advisors or representatives nor any of its or their parent or subsidiary undertakings or any such person's officers or employees guarantees that the assumptions underlying such forward-looking statements are free from errors nor do any of such persons accept any responsibility for the future accuracy of the forward-looking statements contained in this presentation or the actual occurrence of the forecasted or targeted developments nor do they assume any responsibility to publicly amend, modify or revise any forward-looking statements, on the basis of any subsequent developments, information or events, or otherwise. Forward-looking statements speak only as of the date of this presentation. As a result, the Company expressly disclaims any obligation or undertaking to release any update or revisions to any forward-looking statements in this presentation as a result of any change in expectations or any change in events, conditions, assumptions or circumstances on which these forward looking statements are based.

The information contained in these materials has not been independently verified. None of the Company, its directors, promoter or affiliates, nor any of its or their respective employees, advisers or representatives or any other person including merchant bankers or brokers accepts any responsibility or liability whatsoever, whether arising in tort, contract or otherwise, for any errors, omissions or inaccuracies in such information or opinions or for any loss, cost or damage suffered or incurred howsoever arising, directly or indirectly, from any use of this document or its contents or otherwise in connection with this document, and makes no representation or warranty, express or implied, for the contents of this document including its accuracy, fairness, completeness or verification or for any other statement made or purported to be made by any of them, or on behalf of them, and nothing in this document or at this presentation shall be relied upon as a promise or representation in this respect, whether as to the past or the future. Past performance is not a guide for future performance. The information contained in this presentation is current, and if not stated otherwise, made as of the date of this presentation. The Company, merchant bankers or the brokers undertake no obligation to update or revise any information in this presentation as a result of new information, future events or otherwise. Any person/ party intending to provide finance/ invest in the shares/ businesses of the Company shall do so after seeking their own professional advice and after carrying out their own due diligence procedure to ensure that they are making an informed decision. By attending this presentation you acknowledge that you will be solely responsible for your own assessment of the market and the market position of the Company and that you will conduct your own analysis and be solely responsible for forming your own view of the potential future business of the Company.

Maharatna Company

## 1. BHEL: Overview

# India's Flagship Engineering & Manufacturing Company

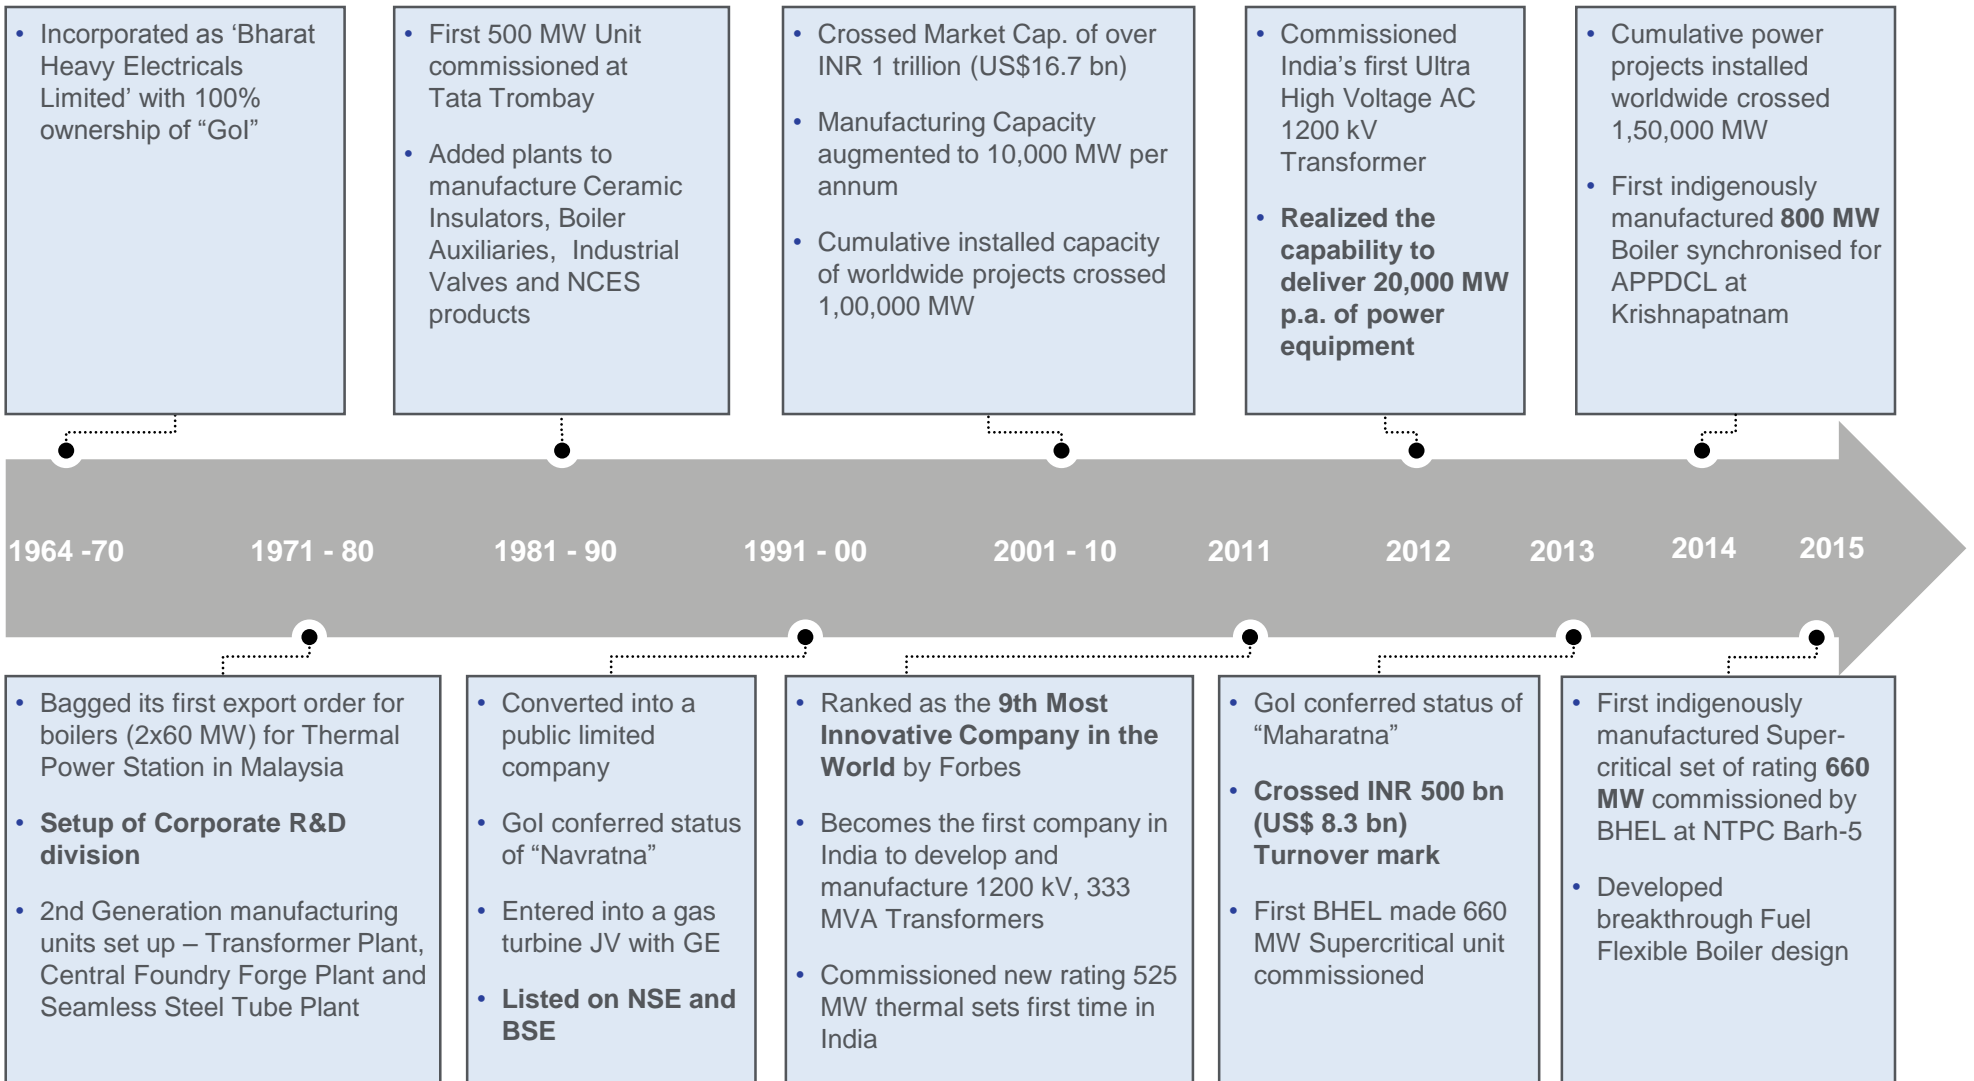

<b>Rich Heritage</b>	<ul style="list-style-type: none"> <li>• A 'Maharatna' company</li> <li>• Over 50 years of experience</li> <li>• Government of India (GoI) shareholding of 63.06% <sup>(1)</sup></li> </ul>
<b>Indian Engineering &amp; Manufacturing Giant</b>	<ul style="list-style-type: none"> <li>• Integrated power plant equipment manufacturer with capability to deliver 20,000 MW of power equipment per annum</li> <li>• Catering to all fuel types viz. Coal, Hydro, Nuclear, Gas &amp; Solar with entire range</li> <li>• Serving core sectors of industry viz. Power, Transmission, Industrials Systems and Products, Transportation (Railway), Renewable Energy, Oil &amp; Gas, and Defence</li> </ul>
<b>Pan India Presence</b>	<ul style="list-style-type: none"> <li>• 17 manufacturing units + 2 repair units + 8 service centres</li> <li>• Infrastructure to deal with 150+ project sites (across India and abroad)</li> <li>• 1 Subsidiary + 6 Joint Ventures</li> </ul>
<b>Global Footprint</b>	<ul style="list-style-type: none"> <li>• References in 77 countries</li> <li>• Executing 24 projects spread over 16 countries for around 7,000 MW</li> <li>• Contracted power plant equipment around 17,000 MW</li> </ul>
<b>Rich Experience</b>	<ul style="list-style-type: none"> <li>• 157 GW capacity installed globally</li> <li>• 30,000+ AC machines supplied</li> <li>• 360+ Locos &amp; 377 Diesel Shunters supplied to Indian Railways &amp; Other Industries</li> <li>• 85MW+ cumulative shipments of PV cells, modules and systems</li> </ul>
<b>Innovation</b>	<ul style="list-style-type: none"> <li>• One of the highest R&amp;D Expenditure In Indian Engineering Field (&gt;2.5% of Turnover)</li> <li>• Filing patent / copyright applications regularly</li> <li>• 44,905 employees<sup>(2)</sup> including 73% Executives with Engineering background</li> </ul>
<b>Strong Financials</b>	<ul style="list-style-type: none"> <li>• Profit making company since 1971–72</li> <li>• Consistent dividend paying company for over thirty years<sup>(3)</sup></li> <li>• FY15 Revenue<sup>(4)</sup>: US\$ 5.13 bn; FY15 PAT: US\$ 242 mn</li> <li>• Debt to Equity ratio: 0.01 (FY15)</li> </ul>

Listed on BSE on 12<sup>th</sup> July 1998  
Listed on NSE on 12<sup>th</sup> September 1998

Share Price (52Wk High / Low):  
INR 300/ INR 194.2

No. of Shares:  
2,447 mn

FY14 Dividend / Share:  
INR 2.83

Market Cap:  
US\$ 10.4 bn

## Upgraded from “Navratna<sup>(2)</sup>” Status to “Maharatna<sup>(2)</sup>” Status in February 2013

1997

✓ One of the first nine “Navratna” companies in India

✓ Empowered to take investment decisions, including the power to make equity investments in joint ventures, wholly owned subsidiaries and to undertake mergers and acquisitions on its own, subject to a ceiling of the lower of 15% of the Issuer’s net worth and US\$167mn for any one project, and subject to an overall ceiling of 30%

2013

✓ Consistent performance in a highly competitive environment enabled BHEL to attain the coveted “Maharatna” status in 2013

✓ Empowered to take investment decisions, including the power to make equity investments in joint ventures, wholly owned subsidiaries and to undertake mergers and acquisitions on its own, subject to a ceiling of the lower of 15% of the Issuer’s net worth and US\$832mn for any one project, and subject to an overall ceiling of 30%

(2) As of March 31, 2015.

# Market Leader with Sustained Growth

## Turnover

Turnover (US\$ mn)

## Share of India's Installed Generation Capacity<sup>(1)</sup>

(As on March 31, 2015)

## Share of Generation (Thermal)<sup>(1)</sup>

(During FY 2014 – 15)

## Retained Leadership in Shrinking & Competitive Market<sup>(2)</sup>

(Power Sector) (US\$ bn)

Source: Company data and Stock exchange filings. FX: INR/US\$: 60.

Notes: (1) From Thermal Utility Sets.

(2) Represents Power Sector orders.

(3) Due to the bulk tender from NTPC & DVC, maximum market share of BHEL was pre-decided in FY12.

# BHEL Makes Electric Utilities Installations Across India Covering Entire Range & Type

## Coal, Gas, Nuclear, Diesel and Hydro Projects

Legends ● Hydro ● Gas and CCP ● Diesel ● Coal ● Nuclear

Source: Company data and Stock exchange filings.  
Note: Map not marked to scale.

## BHEL's Electric Utility Installed Base in India

(As on March 31, 2014)

	Sets	MW
Coal	398	102,000
Gas and CCP	100	7,525
Diesel	23	199
Nuclear	12	3,340
Hydro	395	19,229
<b>Total</b>	<b>928</b>	<b>132,293</b>

## Power Sector Orders Received (MW)

(April 2010 – March 2015)

Maharatna Company

## 2. Investment Highlights

- 1 India has Strong Fundamental Drivers for Power Capex Recovery
- 2 'Make in India' Initiative to Provide Significant Stimulus to BHEL
- 3 BHEL Well-Positioned to Capture Opportunities in its Core and Emerging Business Segments
- 4 Gradually Improving Order Book
- 5 Continuous Focus on R&D and Upgradation of Technology Through Collaboration
- 6 Quality Performance Standards of BHEL Sets
- 7 Long Standing Relationship with Sector Leaders (both Government and Privately owned)
- 8 Strong Management and Government of India Support

# 1 India has Strong Fundamental Drivers for Power Capex Recovery

## India to Become one of the Fastest Growing Economies

(Real GDP)

## India has a Low Per Capita Consumption<sup>(1)</sup>

(kWh / Year)

## State of Indian Power Sector

Installed Capacity (GW)  
(including Renewable 35.7GW) 271.7<sup>(2)</sup>

Demand – Supply Deficit 4.2%<sup>(3)</sup>

Peak Demand – Supply Deficit 4.5%<sup>(3)</sup>

## India requires 500+ GW<sup>(4)</sup> of incremental generation capacity by 2032 to sustain 8% GDP growth

Notes: (1) World Bank indicator EG.USE.ELEC.KH.PC (web site) except India data for 2010 and India's data as on 31.03.2014. (2) CEA (3) Data for FY14 and as mentioned in CEA LGBR Report 2014-15. However, large state-wise variances exist with some states experiencing deficit of >30%. (4) Incremental generation capacity calculated from January 31, 2015.

## Priority Sectors...

- 25 sectors identified to develop manufacturing capabilities
- Thermal Power, Electrical Machinery, Railways, Defence Manufacturing and Renewable Energy amongst the key selected sectors

## Strong Focus on Manufacturing...

- Vision of increase in manufacturing sector growth to 12-14% per annum over the medium term
- Aim to increase manufacturing share in the country's GDP from 16% in FY14 to 25% in FY22

## Efforts to Reduce Imports...

- Reduce reliance on imports for key sectors like defence and manufacturing equipments
  - Aim to reduced imports in defence sector by 30% in next 5 years
- Emphasis on providing scarce raw materials, high-end technology and skilled manpower to help domestic companies

## FDI Policy Measures...

- Hike in FDI limits to increase investments
  - **Defence:** FDI increased from 26% to 49% under government approval route
  - **Railways:** Construction, operation and maintenance of specified activities opened to 100% FDI under automatic route

## Increasing Exports...

- Focus on standards, services sector and enhancing product competitiveness in the global market
- Incremental exports of ~US\$100 - US\$200 bn from electrical machinery, auto components, autos, leather products, textiles etc.

## Technology Upgradation...

- Increase in domestic value addition and technological depth in manufacturing
- Technological investments
- Information Technology to make governance more efficient and effective

## Power

- **Thermal:** Accounts for 70% of total power capacity and continues to largest contributor to new capacity addition
    - 5 new UMPPs under “Plug and Play” scheme through tariff-based competitive bidding
  - **Hydro:** 148 GW of potential in Hydro sector of only 41 GW has been realized till FY15<sup>(2)</sup>
  - **Nuclear:** From current nuclear capacity of 4,780 MW, Govt targets to increase it to 20,000 MW by 2020 and 63,000 MW by 2032<sup>(3)</sup>
- **Implications for BHEL:** Being the market leader, stands to benefit from new capacity additions

### Generation Capacity Addition<sup>(1)</sup> (GW)

## Transmission

- Thrust on Smart Grid – 100 Smart Cities Planned and Green Energy Corridor
  - HVDC Equipment Demand Envisaged in XIII plan-15000 MW<sup>(4)</sup>
  - 9 new projects UHCTC proposed up to 2030 to cater to 199 GW RE power generation<sup>(5)</sup>
- **Implications for BHEL:** Positive & first mover advantage in UHV & HVDC Systems

### T&D Equipment Industry<sup>(6)</sup> (US\$ bn)

## Transportation

- US\$142 bn to be invested in next five years across network decongestion/expansion (45%), signaling (15%), locomotive, station redevelopment & high speed railways<sup>(7)</sup>
  - 9 high – speed rail corridors to be developed and 6,000 km route to be electrified<sup>(7)</sup>
  - High HP Diesel / Electric Locos etc. for Dedicated Freight Corridor (DFC)
- **Implications for BHEL:** Established relationship with Railways and strong manufacturing base

### Plan Outlay for Railways<sup>(7)</sup> (US\$ bn)

Sources: (1) WG report on Power Sector. (2) CEA. (3) Nuclear Power Corporation of India Limited. (4) CEA. (5) PGCIL. (6) Indian Electrical Equipment Industry Mission Plan 2012 – 2022. (7) Railway Budget, Ministry of Railways.  
Note: FX: INR/US\$: 60.

## Non Conventional Energy Source

- Gov plans to scale up solar power to a cumulative 100 GW by 2022, increase from JN National Solar Mission target of 20,000 MW by 2022<sup>(1)</sup>
  - Government emphasis on Water and Waste Water Segments
- **Implications for BHEL:** Well poised to capture the unique and growing opportunity

### Current gap between installed capacity and estimated potential<sup>(1)</sup> (Solar Power) (GW)

## Defence

- US\$40 bn allocated in the budget for defence spending in FY16; 11% increase<sup>(2)</sup>
  - Offset policy: 30% for procurement of defence equipment in excess of US\$50 bn<sup>(3)</sup>
- **Implications for BHEL:** Established manufacturing base and long relationship with defence establishments

### Defence Spending in India<sup>(4)</sup> (US\$ bn)

## Industrial Products & Systems

- **Upstream:**
    - 60% of the prognosticated reserves of 28,000 MMT are yet to be harnessed<sup>(5)</sup>
    - India to add 91 mn barrels to crude oil capacity to protect from supply disruptions by 2017<sup>(6)</sup>
  - **Midstream:** Increase in India's refining capacity to 307.6 MMTPA by 2017<sup>(7)</sup>
  - **Downstream:** Proposed National Gas Grid of 15,000 km<sup>(8)</sup>
- **Implications for BHEL:** Positive with revival of Industrial Capex

### Primary Energy Demand<sup>(9)</sup> (MTOE)

## Order Book

(MW)

(US\$ bn)

## Major Orders Received During FY15

### Power Sector

- India's first ever EPC contract for 1x800 MW rating Supercritical Power Project from Gujarat State Electricity Corporation Ltd for US\$590 mn
- 2x660 MW coal-fired Supercritical Thermal Power Project from TANGEDCO on EPC basis worth US\$1,300 mn
- 800 MW EPC order from Telangana State for Kothagudam TPS
- 4x111 MW HEP Vishnugad Pipalkoti
- ESP package for 2x800MW Darlipali Supercritical TPP
- 370MW EPC order from Karnataka Power Corporation Ltd. for Yelahanka
- 4X270MW EPC order from TSGENCO for Manuguru

### Industry Sector

- 10 MW SPV plant on EPC basis from KPCL and NLC
- 3 MW Grid connected SPV power plant from DNH Power Distribution & OPCL each
- 20 MW Grid connected SPV plant from GEDCOL
- Transformer orders from GETC, CLW, RRVPNL, and UPRVUNL
- 400 kV Substation Extension package including supply of Shunt Reactors from PGCIL
- 765kV/400kV Substation at Agra from PGCIL
- 33kV GIS based substation from NMDC on EPC basis
- 50 MW STG for ISGEC Heavy Engg, 2x36 MW STG for Sarda Energy & Minerals, 30 MW STG for Emami & 18 MW STG for Wonder Cement.
- 1x22.5 MW GTG + 1x100 TPH HRSG Cogen Plant + 1x150 TPH (Gas / Oil) fired Utility Boiler for CPCL
- 7 nos. Diesel Electric Shunting Locomotives - 3 nos. 800 HP for TSGENCO Kothagudam, 2 nos. 700 HP for SAIL RSP, 1 no. 700 HP each for MPPGCL Chachai and JSW Dolvi

### International Operations

- Supply of Fr-9E GT Generator & Exciter Bearing. Iraq M/s Engage Enterprises Pvt Ltd
- Miscellaneous orders for spares & services
- Supply of 50KVA Solar Power Mini Grid and Substation in Nigeria
- 18 MW HFO based Diesel Engine TPP in Comoros

Source: Company data and Stock exchange filings. FX: INR/US\$: 60.

# 5 Continuous Focus on R&D

## High Spend on R&D

(US\$ mn)

## Recent Product Development

- Developing India's first coal fired Advanced Ultra Supercritical (AUSC) power plant technology with NTPC and IGCAR
- Super critical boiler with an ability to switch 100% indigenous / imported coal
- Indigenously developed and commercialised Gas Insulated Switchgear (GIS) up to 400 kV
- 765 & 1200 KV UHVAC Transformer, Reactor developed.
- Transportation- Insulated-Gate Bipolar Transistor (IGBT) propulsion technology developed for Loco & ACEMU
- Sole supplier in world for 420 kN/320 kN porcelain insulators for  $\pm 800$  kV HVDC lines
- Commissioning of 400kV Phase Shifting Transformers at Kothagudam
- STATCOM: Developed for Industrial and Grid Application
- 500 KW PCU for solar power generation

## Turnover from In – House Development

(US\$ mn)

## Filing of Patents and Copy Rights

(Total Filings: 3042)<sup>(1)</sup>

Source: Company data and Stock exchange filings. FX: INR/US\$: 60.

Note: (1) As of March 31, 2015.

## Building Indigenous Technology Capabilities

- Started with technology support from Global OEMs and developed indigenous capabilities
- Capability to design product to customer specs
- Better understanding of Indian coals
- New developments in recent years:
  - Introduction of 100 MW, 150 – 250 MW, 270 MW, 300 MW, 525 MW, 600 MW, 660 MW, 700 MW, and 800 MW sets
  - IGCC development
  - IGBT based technology in Transportation segment
  - Nuclear sets of 240 MWe, 540 MWe, 700 MWe
  - 765 & 1200 kV UHVAC Transformer and Reactors
- Offering Fuel Flexible supercritical boilers (Indian/ Imported Coal)
- Currently developing India's first coal fired Adv. Ultra Supercritical (AUSC) power plant technology with IGCAR & NTPC

## Ongoing Partnerships with Leading Technology Partners

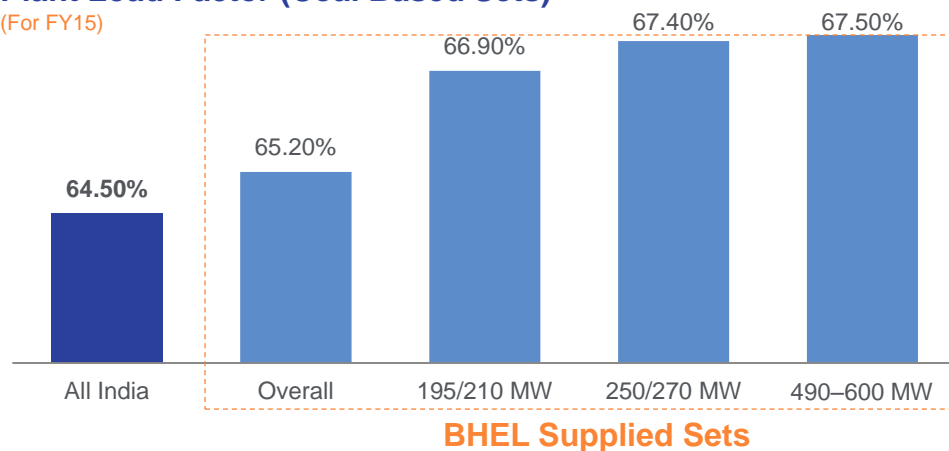

<b>Mitsubishi Heavy Industries, Japan</b>	Pumps, Flue Gas Desulphurization (FGD) system
<b>Alstom, France</b>	Once through Boilers
<b>General Electric, United States of America</b>	Gas turbines
<b>Siemens, Germany</b>	Steam Turbines, TG, Axial/lateral condensers
<b>Oto Melara, Italy</b>	76 mm SRGMs
<b>Sheffield Forge – Masters, United Kingdom</b>	Forgings
<b>Metso, Finland</b>	C&I Automation platform
<b>Nuovo Pignone, Italy</b>	Centrifugal Compressors
<b>Vogt Power International, United States of America</b>	HRSG
<b>General Electric Industrial, India</b>	Water Treatment Equipment
<b>TLT GmbH, Germany</b>	Fans

## Superior Performance from BHEL Sets in Indian Market

### Plant Load Factor (Coal Based Sets) <sup>(1)</sup>

(For FY15)

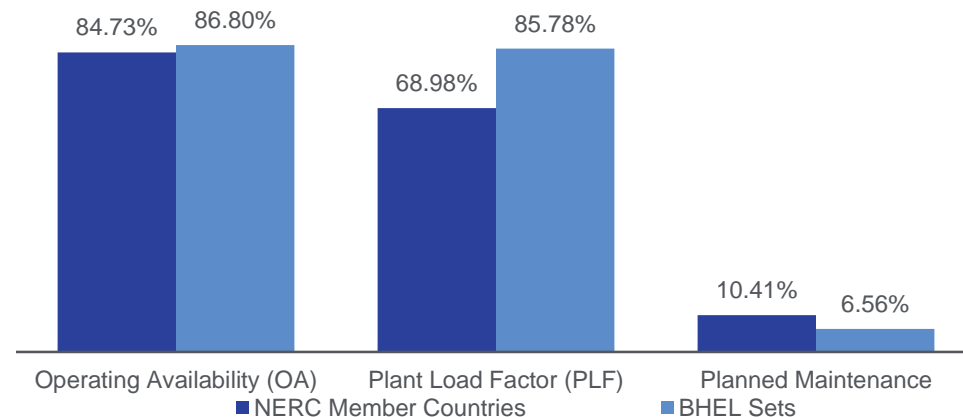

**BHEL Supplied Sets**

## Key Achievements in FY15

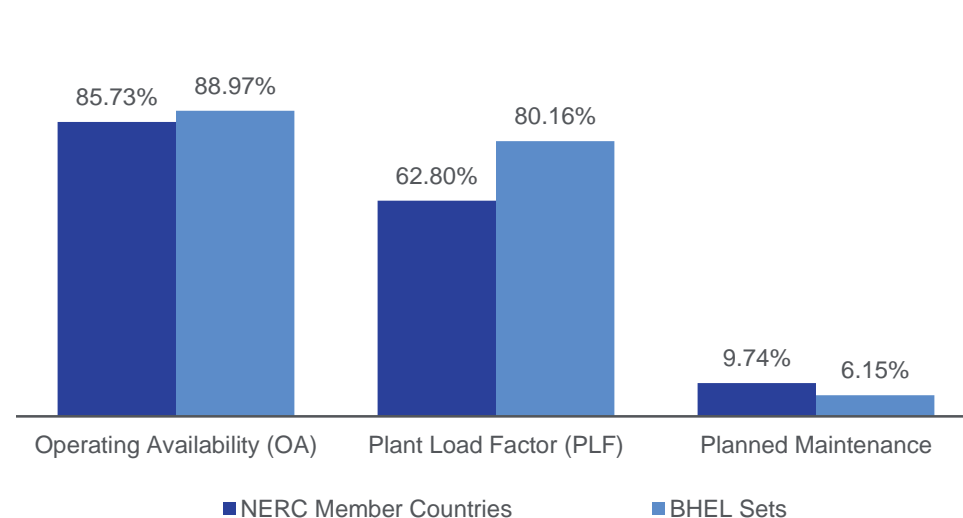

- ✓ 178 BHEL supplied coal based sets achieved PLF of over 70%
  - 27 sets registered PLF of over 90% and 76 sets achieved PLF between 80% - 90%
- ✓ BHEL supplied Nuclear sets registered an OA of 92.3 % and PLF of 83.7 %
  - 12 sets clocked uninterrupted operation for more than 90 days
- ✓ 192 BHEL supplied coal based sets clocked uninterrupted operation of more than 90 days during the year
  - 27 sets continuously operated for more than 200 days and 67 sets operated twice continuously for more than 90 days
- ✓ 181 BHEL coal based sets achieved OA higher than 90%

## BHEL Supplied Power Plant Equipment Exhibit World Class Performance

### Performance of 400–599MW Sets <sup>(2) (3)</sup>

### Performance of 200–299MW Sets <sup>(2) (3)</sup>

## References in 77 countries across all six continents of the world and Offices in 6 countries

- ✓ First large turnkey project export by Indian co. – **Libya** (1977)
- ✓ Consistent Performance – **16,916 MW contracted**
- ✓ Executing 24 Contracts in 16 Countries valued over US\$ 2.5 bn
- ✓ Contracted Power Plant Equipment around 17,000 MW
- ✓ BHEL's major contributions –
  - **Bhutan** (4,356 MW/ 98%)
  - **Iraq** (1,838 MW/ 14%)
  - **Oman** (1,124 MW/ 30%)
  - **Libya** (1,174 MW/ 15%)

## Best in Class Management Team in Place

**B Prasada Rao**  
*Chairman & MD*

- Mr. Rao has 37 years of experience across Production, Erection & Commissioning, Commercial, Corporate Planning & Development
- Qualification: BE (Mechanical), College of Engg. Kakinada; PG Diploma (Industrial Engineering) NITIE

**R Krishnan**  
*Director (HR)*

- Mr. Krishnan has 38 years of experience across major functions including Engg., Production, Central Planning, R&D & Human Resources
- Qualification: BE (Electrical & Electronics) REC Trichy; PG Diploma (Heavy Electrical Equipment)

**W V K Krishna Shankar**  
*Director (Industrial Systems & Products)*

- Mr. Shankar has 38 years of experience across Project Planning, Monitoring, Captive power plant & Defence business, Corporate Planning and Investor Relations
- Qualification: BE (Mechanical), Visveswarayya College of Engineering, Bangalore; Diploma in Management (AIMA)

**Atul Sobti**  
*Director (Power & Finance)*

- Mr. Sobti has 34 years experience across Marketing, Project Management, Operations, Corporate Planning, Capital Investment, and Project Engineering & Systems Development
- Qualification: BE (Mechanical), MNRE Allahabad; Diploma in Project Management; PG Diploma (International Management) IMI

## Strong GoI Support

- Government of India owns 63.06% <sup>(1)</sup> stake in BHEL
- 2 Government nominee directors
- Significant and consistent contribution to exchequer (US\$ mn) <sup>(2)</sup>

**Awarded 'Maharatna' Status in 2013**

## Numerous Awards & Recognition

Maharatna Company

## 4. Key Risks

# Key Risks

- Delayed Resolution of Issues Plaguing Large Infrastructure Projects including Power Sector in India

- Suboptimal Order Book due to Increasing Domestic and International Competition

- Excess Domestic Manufacturing Capacities

- Low Projects Finalization

- Political Disturbances in Target Export Countries

Maharatna Company

# Appendix

Maharatna Company

## A. Business Strategy

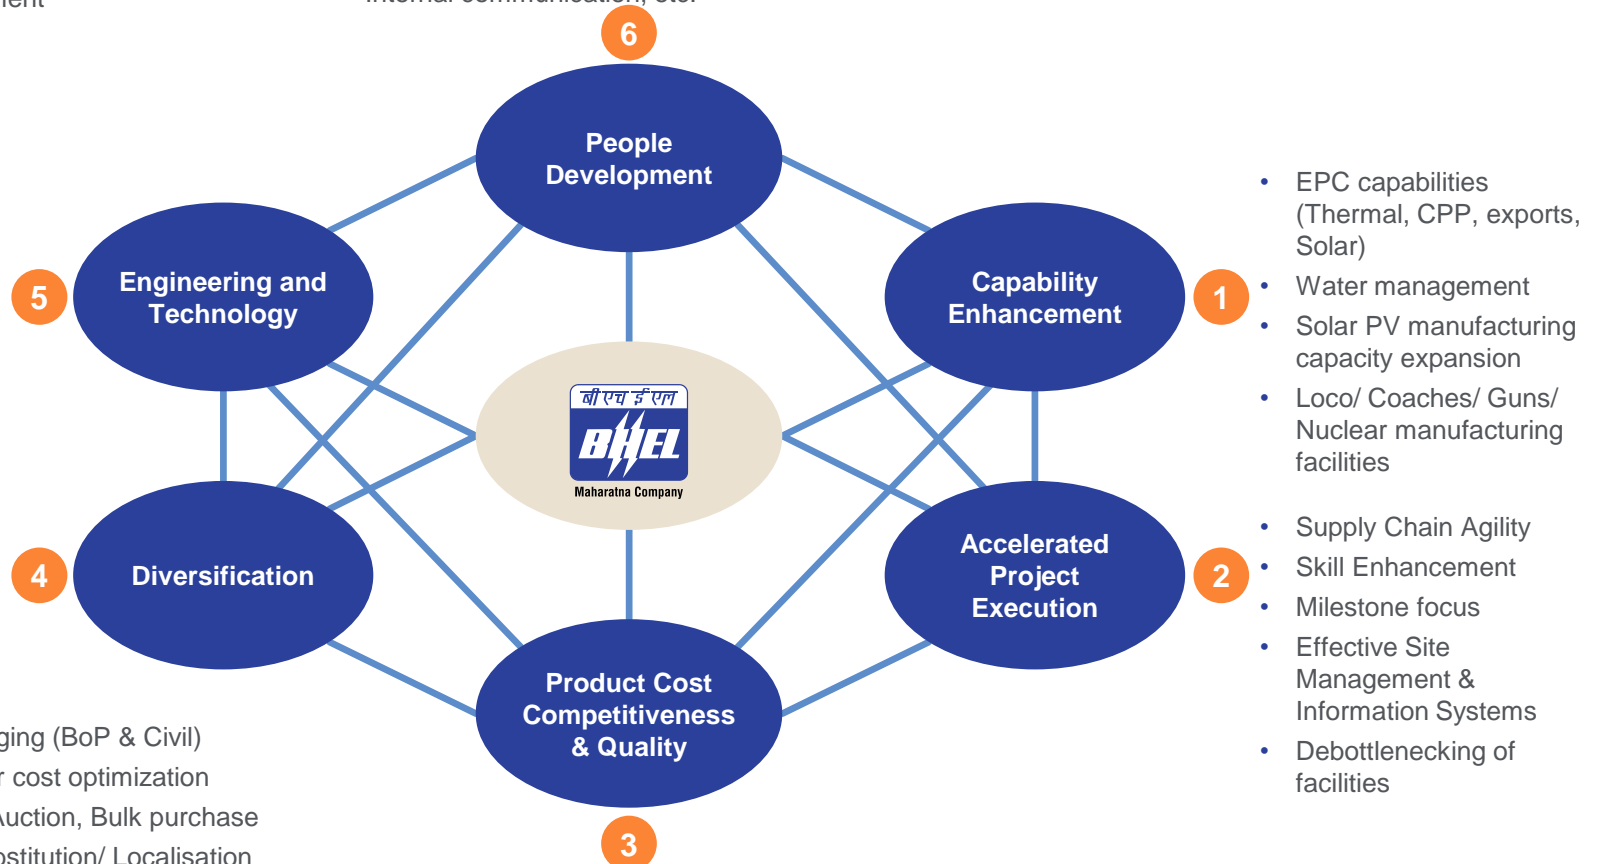

# Business Strategy for Sustaining Growth: Six Point Agenda

- Knowledge Based Engineering
- Product Lifecycle Management
- Assimilation of SC/AUSC
- GIS, 765/1200 kV, FACTS
- High Temperature Superconducting drives
- Establishment of Center of Excellence

- Water Management
- Coaches/ High HP Locos/ High Speed Train/ Electric vehicles
- Defence equipment (submarines, guns, ARVT)
- Collaboration with business partners

- De-packaging (BoP & Civil)
- Manpower cost optimization
- Reverse Auction, Bulk purchase
- Import substitution/ Localisation
- Design optimization; Standardization of equipment modules; Enhancing performance parameters
- 5S, TPIA, Automation, ZeD, QMER

- Employee engagement
- Managerial & Technical training
- Succession Planning
- Internal communication, etc.

# Continually Improving Project Execution

## Strategies and Initiatives

### Cycle Time Reduction

- Increased focus on project specific value chain alignment
- 'Online Project Engineering Documentation Manager' for expeditious drawings / documents processing
- Focus on intermediate milestones of project execution
- Proactive actions for ODC movement / clearances

### Site Capability Enhancement

- Empowerment of site managers for faster decision making
- Heavy duty cranes: 52 nos., Strand Jacks: 2 nos., Induction Heating Machines: 217 nos. deployed additionally during last five years

### Skill Enhancement

- 693 man days training for E&C of supercritical sets
- Leveraging Welding Research Institute Trichy to train high pressure welders
- Extensive training to act Apprentices & customers
- Skill enhancement of site working engineers by introducing system of training at door step

# Glossary

Term	Description
AC	Alternate Current
ACEMU	Alternate Current Electric Multiple Unit
AT&C	Aggregate Technical and Commercial
AUSC	Advanced Ultra Supercritical
BAP	Boiler Auxiliaries Plant
BIDCO	Bajaj Infrastructure Development Company Limited
BoP	Balance of Plant
C&I	Control & Instrumentation
CBU	Ceramic Business Unit
CEA	Central Electricity Authority
CFBC	Circulating Fluidized Bed Combustion
CFFP	Central Foundry & Forge Plant
CFP	Component Fabrication Plant
CLW	Chitranjan Locomotive Works
CPP	Captive Power Plants
CPSE	Central Public Sector Enterprises
CRGO	Cold Rolled Grain Oriented
CSU	Centralized Stamping Unit
DC	Direct Current
DNH	Dadra and Nagar Haveli
DVC	Damodar Valley Corporation
E&C	Erection & Commissioning
EDN	Electronics Division
EHV	Extra High Voltage

Term	Description
EPC	Engineering, Procurement and Construction
EPD	Electro Porcelains Division
ESP	Electrostatic Precipitator
FDI	Foreign Direct Investment
GDP	Gross Domestic Product
GEDCOL	Green Energy Development Corporation of Odisha
GETC	Gujarat Energy Transmission Corporation
GIS	Gas-insulated Switchgear
HEEP	Heavy Electricals Equipment Plant
HEP	Heavy Electrical Plant
HPBP	High Pressure Boiler Plant
HPV	Heavy Plates & Vessels
HVDC	High Voltage Direct Current
IGBT	Insulated Gate Bipolar Transistor
IGCAR	Indira Gandhi Centre for Atomic Research
IP	Insulator Plant
IPMS	Integrated Platform Management Systems
ISO	International Organization for Standardization
IVP	Industrial Valves Plant
KPCL	Karnataka Power Corporation Limited
LGBR	Load Generation Balance Report
MEMU	Mainline Electric Multiple Unit
MPL	Maithon Power Limited
MPPTCL	Madhya Pradesh Power Transmission Corporation Limited

# Glossary (Contd.)

Term	Description
NCES	Non Conventional Energy Sources
NITIE	National Institute of Industrial Engineering
NLC	Neyveli Lignite Corporation
NMDC	National Mineral Development Corporation
NPCIL	Nuclear Power Corporation of India Limited
NTPC	National Thermal Power Corporation
OEM	Original Equipment Manufacturer
OPTCL	Odisha Power Transmission Corporation Limited
PGCIL	Power Grid Corporation of India Limited
PMG	Project Management Group
PPPU	Power Plant Piping Unit
PSU	Public Sector Undertaking
PV	Photo Voltaic
QMER	Quality Management Effectiveness Review
R&D	Research and Development
R&M	Renovation & Modernization
REC	Regional Engineering College
RRVNL	Rajashtan Rajya Vidyut Prasaran Nigam Limited
SPV	Solar Photovoltaic
SSBG	Spares and Services Business Group
SSTP	Seamless Steel Tube Plant
STG	Steam Turbine Generator
TANGEDCO	Tamil Nadu Generation and Distribution Corporation Limited
TANTRANSCO	Tamil Nadu Transmission Corporation

Term	Description
TPIA	Third Party Inspection Agencies
TPP	Thermal Power Plant
TPS	Thermal Power Station
TSGENCO	Telangana State Power Generation Corporation Limited
UHCTC	Ultra High Capacity Transmission Corridor
UHV	Ultra High Voltage
UHVAC	Ultra High Voltage Alternating Current
UHVDC	Ultra High Voltage Direct Current
UMPP	Ultra Mega Power Projects
UPRVUNL	Uttar Pradesh Rajya Vidyut Utpadan Nigam
ZeD	Zero Defect
