The Board of Directors of CARE Ratings approved the Q3-FY16 and 9M-FY16 results in the Board Meeting held on Friday the 29th of January 2016.

Highlights: Q3-FY16

- Increase in Operating Revenue by 0.81% from Rs. 62.43 crores to Rs. 62.93 crores.
- Operating profit margin at 62.55% (57.94% in Q3-FY15) and Net Profit margin at 41.94% (40.21% in Q3-FY15).
- Volume of debt rated increases from Rs. 1.98 lakh crores to Rs. 2.30 lakh crores with increase in both the corporate debt and bank loan segments.
- 660 new clients added during the quarter.

Highlights: 9M-FY16

- Operating Revenue increases by 5.71% from Rs. 179.36 crores to Rs. 189.61 crores.
- Operating profit margin at 61.83% (58.50% in 9M-FY15) and Net profit margin at 41.97% (47.90% in 9M-FY15).
- Volume of debt rated increases from Rs. 6.50 lakh crores to Rs. 7.37 lakh crores.
- 2,126 new clients added during the 9M period.
- Total number of active clients at 11,182 as of December 31, 2015.

Other income is lower in Q3-FY16 at Rs. 0.99 crores (Rs. 2.84 crores in Q3-FY15) and in 9M-FY16 at Rs. 6.14 crores (Rs. 40.36 crores in 9M-FY15) due to two reasons. Firstly, the company has invested its surpluses in FMPs (fixed maturity plans) for a tenure of three years and hence income can be booked only on maturity. Secondly, the investible pool of surplus reduced by Rs. 220 crores in FY15 on account of a one-time payout of special dividend in September 2014.

The Board has announced an interim dividend of Rs. 6 per share which when combined with the interim dividend of Rs. 12 per share for the first two quarters cumulates to Rs. 18 per share for the 9M-FY16.

Business progress

Despite the RBI lowering interest rates and industry growing at a marginally higher rate than in FY15, growth in bank credit to the manufacturing and services sector was low during the 9-month period. Against this backdrop, CARE Ratings had increased the client base by 660 in the third quarter, thus adding 2,126 new clients during the 9-months period ending December 2015.

During Q3-FY16, the company rated 1,751 new instruments, thus bringing the total for 9M-FY16 to 5,002. The total volume of debt rated continued to be buoyant in Q3-FY16 growing by 16.2% from Rs. 1.98 lakh crores to Rs. 2.3 lakh crores and by 13.4% in 9M-FY16 from Rs. 6.49 lakh crores to Rs. 7.36 lakh crores.

Commenting on the results D. R. Dogra, MD & CEO, said: 'The company's performance has been driven largely by the macro environment and hence even while our business efforts have helped us increase the volume of debt rated and number of clients rated, there has been limited traction on the revenue side. We may not expect economic conditions to change significantly in Q4 but are sanguine about the economy getting on to a higher trajectory in FY17'.
