- EPS higher by 5.9% at INR 12.27 as compared to INR 11.59 per share

Performance Review

- Rating income in Q2FY14 grew by 4.4%. This was aided by an increase in the number of new bank facilities rated from 1,494 in Q2 FY13 to 1,863 in Q2 FY14 and number of new long term debt instruments from 71 in Q2 FY13 to 85 in Q2 FY14 along with ongoing surveillances of ratings. The total number of new assignments grew by 16.6% to 2,188 in Q2 FY14 as against 1,876 in Q2 FY13.
- Other Income which also includes income from investments increased from Rs 4.2 crore in Q2 FY13 to Rs 5.5 crore in Q2 FY14.
- PAT margins maintained at 49.6% in Q2FY14.

Commenting on the performance of Q2 & H1 FY2014, D.R. Dogra, Managing Director & CEO Credit Analysis and Research Limited said,

"Given the rather subdued performance of the Indian economy, volatility in forex markets necessitating affirmative action from the policy makers and resulting subdued credit and debt markets, our performance has been fairly stable with steady growth in income and maintenance of growth in profit and profit margins. We do expect conditions to improve in the economy in the coming months, based on a revival in consumer and investment demand, which should hopefully help us scale up our business lines. Meanwhile we continue to focus on all the three targets segments: debt, bank loans and SMEs, to remain ahead of the curve.

As a Company, we are always looking to introduce new services to our portfolio that add value to the marketplace we operate in. During the quarter, we launched ratings for Infrastructure Debt Funds, which are becoming progressively more vibrant in the market and grading of renewable energy companies/projects. We remain focused on the SME segment which is part of our strategy of growing business.

In Q2 FY2014, we continued to create value for our shareholders. I am pleased to share that the Board has declared an interim dividend of Rs. 6 per share. This amounts to a total dividend of Rs. 12 per share for H1 FY2014, translating to a strong payout ratio of 68.1%.

Our superior business model, growing brand equity, human capital efficiencies, expansive distribution network and strong financial position has placed us on a firm footing to capture emerging sector prospects. We will continue to work through the economic challenges. We do hope that the economic environment improves with credit offtake picking and debt markets improving. "

Financial Review

CARE's performance was satisfactory despite the challenging economic environment which was typified by subdued GDP growth in Q1 of just 4.4%. Also there was virtually no growth in industry during the first 5 months of the year. The overall debt raised in the capital market in Q2-FY14 was lower than that in the same period of last year. These developments were contemporaneous with high inflation and resulting hawkish RBI policy stance and considerable volatility in the forex market. Notwithstanding these difficult economic conditions, the company has fared well during the first half of the year.

ABOUT US

Credit Analysis and Research Limited (CARE Ratings) is the second largest full service rating Company in India*.
