Gaurav Seth, Managing Director & CEO, 5paisa Capital Ltd., *commented on the financial results:*

"During Q2FY26, markets remained volatile with persistent FII selling, offset by strong DII inflows. While ADTO declined across Cash and F&O segments, the industry's MTF book witnessed strong traction, crossing ₹1 lakh crore. With a focus on quality acquisition, we added over 95,000 customers, improved CAC and FYR, and surpassed the 5 million customer milestone. Our MTF initiatives — including the new "Pay-Later" option, competitive interest rates, broader security coverage, and flexible funding — helped expand our client funding book to ₹364 crore. We enhanced our platforms with features upgrades in digital onboarding, a revamped MF section, an in-app dedicated ETF Dashboard, the web-based Scalper Platform, and advanced trader tools like Strategy Analyzer and Alpha Scan. We remain committed to continuous innovation and leveraging AI to enhance customer experience.

*We are also delighted to welcome **Zor Gorelov** as an Additional Independent Non-Executive Director on our Board. Zor is a global AI veteran with more than three decades of international experience in artificial intelligence and technology. He was the Co-Founder and CEO of **Kasisto**, a leading provider of AI-powered digital assistants for the financial services industry. We are confident that **5paisa** will benefit immensely from Zor's deep expertise in driving AI-led transformation."*
