A NEW REALM OF INNOVATION

TRUST THE LEADER IN SURFACE FINISHING

CHAIRMAN'S MESSAGE

“Bringing communities together with innovation and technology is the way to creating a sustainable future”

Mr. Umeshkumar More
Chairman

Mr. Niraj More - Managing Director

Dear Shareholders,
We are pleased to present the 62nd Annual Report of the Company for the year ended March 31, 2020. FY 2019 - 20 was another successful year for our Company as all business segments in which our Company operates have grown significantly due to the hard work, dedication and engagement of our employees and thanks to the continued support and commitment from our business partners and customers.

Six decades ago, we embarked on a journey with a dream: 'A Dream' of giving mankind a better life and creating a better world. Today we can proudly say that we have come a long way. As a performance driven and purpose led Company, we continue to retain our market leadership position in the field of Surface Treatment Technology involving chemicals and equipment besides pivotal interest in Industrial Lubricants, Industrial Paints and Real Estate Development.

Since 1957, Growel has been shaping the future with its innovative and environment friendly ideas. With our top priority, we aim to create a sustainable environment where we are completely dedicated in serving our customers with only the best. Safety and sustainability continue to be our focus areas in the year 2019-20. Our people feel more inspired, engaged and committed than ever to improve the overall safety performance of the Company. Sustainability is not only our core value and a key responsibility; it is also increasingly an important business driver that is fully engrained in our strategy, business and operations. With the right infrastructure and team in place, our Company is well placed to move forward and further deliver improvements in profitability, returns and sustainability. It's our belief that our values will create a distinct footprint on the maps of history and shape a tomorrow that is an iconic example for generations to come.

A NEW REALM OF INNOVATION:

Creating a better and sustainable future is a vision that we at Growel have always believed in. With each passing year we have surpassed expectations, inching closer and closer towards making this vision a reality. Although the pandemic has been a tough period for everyone, our business segments have continued to attain consistent growth. With such feats achieved year after year we can proudly say that the best is yet to come and Growel's new realm of innovation will dawn upon a brighter future.

GROWEL'S JOURNEY

Growel has been a trendsetter in the General Metal Finishing Industry and a formidable player in the field of Surface Finishing and Engineering Equipment. After the start-up of Chemical production in 1957, the Company ventured into manufacturing of Engineering Equipment in 1964 to provide the complete electroplating solutions to its customers.

The Company's foray into Paints production started with the acquisition of Bombay Paints in 1994 which was later merged with Grauer & Weil (India) Limited in 2008. Growel ventured into real estate development in 2005 and built a sprawling 4,75,000 square feet Shopping Centre in the Western Suburbs of Mumbai.

2. OPERATIONS

During the year under review, Company recorded a 3.0% growth in Net revenues. Profit before tax registered a growth of 1.5% and due to lower rate of tax, the Net profit after tax of the Company improved by 19.0%.

Detailed information on the business operations and state of affairs of the Company including full analysis and discussion on the business outlook is included the heading 'Management Discussion and Analysis'.

3. COVID-19 AND ITS IMPACT

The Management has been closely reviewing the impact of COVID-19 on the business and financial status of the Company. As per the directives of the Government and to protect the employees and workers, your Company had temporarily suspended its operations at its plants, corporate office, mall, branch offices and technical service centers. The operations at plants and all offices have since commenced after obtaining permissions from the authorities concerned and after following all safety measures including social distancing. The corporate office is allowed to work only with limited employee strength. Growel's 101 Mall is not yet opened except for the grocery and food section of Big Bazar and 'take-away counters' of a few food outlets. The dispatches of Company's products to customers' have also recommenced though at a much lower scale. The Management is in constant touch with its customers on the evolving situation and is making all efforts to service their requirements.

The Company's management currently believes that this financial year is likely to be adversely impacted due to COVID-19. The duration of the impact being uncertain at this stage. The management is unable to quantify the short or long term risk, but however, it is expected, that the same is not likely to adversely effect the Company's ability to continue as a going concern and meeting its liabilities as and when they fall due.

4. MANAGEMENT DISCUSSION AND ANALYSIS

Pursuant to Regulation 34(2) read with Paragraph B of Schedule V of the SEBI Listing Regulations, detailed review of the business operations and performance of all the segments of the Company including future outlook, opportunities, threats, exports etc. is covered under the Management Discussion and Analysis Report attached as **Annexure 'A'** and forms an integral part of this Report.

They deal with treatment and finishing of surfaces of different substrates in several ways. The Surface Finishing Segment is the largest segment of the Company’s business. Its product portfolio includes speciality chemicals, paints & coatings and lubricant oils. The segment witnessed a growth of 2.4% from Rs. 52,420.87 Lacs to Rs. 53,665.92 Lacs in Net revenue. Your Company’s leadership position in the plating chemical products continues unchanged despite growing intensity of competition from international Companies. The Company was able to maintain the high growth momentum of its Paint products which grew by 41.4%. The lubricant products achieved marginal growth of 6.1%. The manufacturing operations of the Vapi factory were restored in part of the building which was not destroyed by the fire.

The Surface Finishing division of company, for the current period April' 2020 to June '2020, has reported as negative growth of 45.7%, primarily due to the COVID situation and the effect of lockdown conditions. The performance of all the three divisions of the Company for the said period V/s same of last year as per follows :

Rupees in Lacs

Division	Current Period (April '20 to June '20)	Last Year (April '19 to June '19)
Surface Finishing	6,242.00	11,504.00
Engineering	75.00	763.00
Mall	18.00	874.00
Total	6,335.00	13,141.00

- b) **Engineering Segment:** This division supplies customized turnkey plants and their components for surface finishing, waste water and effluent treatment and other engineering solutions. The Net revenue witnessed a modest growth of 8.7% from Rs. 4,542.57 Lacs to Rs. 4,938.00 Lacs.
- c) **Mall Segment:** Company’s Mall at Kandivali in Mumbai continued to operate at near full occupancy during the year.

2. EXPORTS

The Company’s emphasis on exports continued unchanged. However, due to decline in the business from the Middle East and global slowdown in automobile production, the export sales during the year under review were reduced by 2.17%.

4. OPPORTUNITIES, THREATS, RISKS, CONCERNS AND OUTLOOK

In the main business segment of Surface Finishing, your Company faces stiff competition from domestic as well as international players. However, your Company's fundamental strengths of leadership in the Chemical and Engineering products in domestic market, ability to offer quality products at competitive prices, nimble footed customer response in the areas of Paints and Lubricants, extensive distribution network, strong R & D, technical service and procurement strength, place it in relatively sound position. The Company actively interacts with its customers and delivers innovative new products and processes developed with the help of its technology partners or in its Government recognised state of the art R & D facilities.

The lockdown imposed due to Covid - 19 is hoped to be lifted gradually. However, the drastically curtailed production volumes of customers, challenges of manpower availability and tight liquidity do pose challenges.

The anticipated global recession and the emerging geopolitical trade restrictions will present serious challenges for the export business of the Company. Despite these challenges, the management is optimistic about the future due to your Company's strengths.

In the surface treatment area, business opportunities are rapidly arising from the defense and aviation sectors, which are expected to play a significant role, in the future of company's growth.

In the area of Paints, the infrastructure and rural development thrusts of Government's economic packages offer opportunities, as your Company's paint business is focused on these segments.

Financial year 2020-21 has started on an uncertain note with the economy at a virtual standstill, hence it is difficult to predict the business volumes and profit margins.

5. FUTURE PROSPECTS

We expect the market conditions to remain challenging in the near future. Covid - 19 pandemic and the lockdown are likely to exert adverse impact on industries across the Board for quite some time. However, we remain optimistic and motivated for a healthy growth over the long term.

The Company has drawn up plans to retain or grow market share in all the product lines in its Surface Finishing segment.

While the Company is faced, with major challenges due to the COVID situation, it continues to invest and build on long term assets and strategies. Accordingly, it is proceeding with the rebuilding of the remaining part of Vapi factory which was destroyed by an explosion and fire, the other expansion plans, be it for the mall or the paint division are pending suitable opportunity, in respect of market trends, administrative and statutory clearances. All these segments hold excellent prospects in the coming future.

6. HUMAN RESOURCES

Your Company's emphasis on Human Resources continues unchanged. New systems and measures for training, development and enhancement of quality and skills have been deployed. A new fully-equipped training centre has been setup at the Head Office. The Performance Measurement Systems and Individual Development areas have been strengthened. The Company completed implementation of Success Factor, an important HR module of its SAP ERP.

There were no material developments on human resources and industrial relations fronts. The relationship with employees and workers continued to be cordial.

7. INTERNAL CONTROL SYSTEMS AND RISK MANAGEMENT FRAME WORK

The Company has appropriate Internal Control Systems and Risk Management frame work commensurate with the size and nature of the Company's business. The Company has a system of regular internal audit carried out by an independent firm of Chartered Accountants. The internal control systems / frameworks are reviewed by the Top Management and by the Audit Committee of the Board and proper follow up actions are ensured wherever required.

8. CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing the Company's objectives, expectations, estimates or predictions, may be forward looking within the meaning of applicable Securities Laws and Regulations. Actual results may differ materially from those expressed in the statement. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, on the basis of any subsequent developments, events or information.

20. COMPLIANCE:

A certificate has been obtained from the Statutory Auditors of the Company regarding compliance of conditions of Corporate Governance and is attached to this report.

21. COMMODITY PRICE RISK OR FOREIGN EXCHANGE RISK AND HEDGING ACTIVITIES:

Company mainly consumes various chemicals, varnishes, solvents, pigments and resins which are the major raw materials, where commodity price risk may arise. Company develops on an ongoing basis, alternate supply sources for key products to protect itself from any price risk due to overdependence on single supplier. Most of these materials are sourced from the domestic market and therefore do not have significant foreign exchange fluctuation risks.

Currency risks mainly arise out of imports, exports and overseas operations. The Company has defined Exchange Risk Management framework to manage these risks. The Company hedges its foreign exchange risk exposure by way of forward exchange contracts as per the decision of Management from time to time. As a Company policy, Company does not hedge its exports. The export proceeds are kept in EEFC A/c, to utilize against payments of advances towards import. Surplus in the EEFC A/c are converted into rupees as per RBI guidelines. All our Imports are generally hedged.

22. TRANSFER OF UNCLAIMED DIVIDEND AND SHARES TO IEPF:

During the financial year 2019 - 20, unclaimed dividend amounting to Rs. 6,10,780.40 lying in the unclaimed dividend account relating to the financial year 2011-12 was transferred to Investor Education & Protection Fund (IEPF) in compliance with Section 124 of the Companies Act, 2013. Further during the financial year 2019 - 20, a total of 1,44,704 shares, in respect of which dividend were unclaimed for seven consecutive years, have been transferred to IEPF in accordance with the provisions of Section 124(6) of the Companies Act, 2013 read with Rule 6 of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016.

A. CONSERVATION OF ENERGY:

i) Energy Conservation Measures taken:

- a. Installed the new electrical panel with automatic capacitor bank for maintaining the power factor.
- b. VFD panel installation on Lang mixers 09 nos. for operation of 20hp and 15hp motor.
- c. VFD panel installed on HSD machine 4 nos. for operation of 25hp motor.
- d. Upgradation of non IBR boilers to improve the fuel efficiency.
- e. Energy efficient motors, blowers, pumps & LED lamps.
- f. Office lights like metal halide lamps, CFL, HPSV & T5 replaced by led lights.
- g. Reduction in operation hours by close monitoring and timer base operation.
- h. Replacement of start delta starters with VFDS.
- i. Replacement of wall mounted DX unit by inverter base AC units.
- j. Replacment of old motors with high efficiency IE3 motors.
- k. Replacement of damaged chillers piping insulation.
- l. Adopted the energy monitoring methodology.
- m. Elimination of over capacity motors
- n. Replacement of low efficiency compressors by high efficiency.
- o. Water saving by changing the taps and using the sensors for taps & urinals.

ii) Steps taken by the company for utilising alternate sources of energy:

- a. Installation of Roof top solar panel system.
- b. Conventional fuel like FO/HSD replaced with PNG.

iii) Capital investment on energy conservation equipments:

Capital investment of Rs. 15 million has made on energy conservation equipments.

iv) Future plan of investments etc. for energy conservation measures:

- a. Utilisation of Wind power energy
- b. Common building management system (BMS) in mall for efficient usages of mall equipments & lighting systems in the premises. System should not be operated in manual mode to meet energy optimisation objectives.
- c. Planned to use star labelled appliances / equipments as per BEE.
- d. VFDS for AHU Common area.
- e. New BMS installation for mall services.
- f. Automatic chiller condensor cleaning systems.
- g. Chilled water treatment management systems.
- h. Uses of storm & STP treated water for flushing.
- i. Existing street light replaced with LED street light.
- j. Soft starter installed for operation of ball mill machine 30hp motor.
- k. Elimination of over capacity motor.
- l. Auto on off temperature base operation of cooling towers, chillers & pumps.
- m. Roof top solar power systems

Grauer & Weil (India) Limited

- n. Installation of VFD to cooling tower.
- o. Upgradation of non IBR boilers
- p. Replacement of old AC units by VRF or inverter base technology.
- q. Sourcing of power from wind & solar enegy.

v) Total energy consumption and energy consumption per unit of production:

As per **Form 'A'**

B. TECHNOLOGY ABSORPTION: Efforts made in technology absorption as per **Form 'B'**

C. FOREIGN EXCHANGE EARNINGS AND OUTGO:

(1) Activities relating to exports, initiatives taken to develop export markets:

B. CONSUMPTION PER UNIT OF PRODUCTION:

As the Company manufactures different types of custom - built plants and chemicals for various applications, it is impracticable to work out the cost of usage of energy on a per unit basis.

FORM - 'B'**FORM FOR DISCLOSURE OF PARTICULARS WITH RESPECT TO TECHNOLOGY ABSORPTION 2019-20****A. RESEARCH & DEVELOPMENT:****1. Specific areas in which R&D is carried out by the Company :**

- o Non cyanide zinc plating with better brightness.
- o Trivalent chrome based black passivation process for zinc & zinc alloys to get jet black finish along with higher corrosion resistance.
- o ROHS compliant lead & cadmium free Electroless Nickel plating process.
- o ROHS free Electroless Nickel Composite coating incorporating some strategic materials e.g. PTFE, Boron Nitride etc.
- o Hard Chrome coating using Trivalent chrome based electrolyte.
- o Non-cyanide silver plating.
- o Neutral Nickel strike coating to replace usage of cyanide for plating on aluminium.
- o Acid copper plating with very good gloss & levelling.

2. Benefits derived as a result of the above R&D :

- o Environment friendly ROHS Compliant processes to reduce both occupational & environment hazards.
- o Cyanide free processes – Zinc, Silver etc.
- o Electroless nickel plating processes.
- o Trivalent chromates.

- o Tin Zinc plating improves crimpability & hence, it finds usage to make fuel pipes in automotive application.
- o Electroless nickel PTFE composite coating reduces frictional property.
- o Trivalent chrome based passivation process – full fills the requirements of bath fitting industry.
- o Auto industry has stopped replaced traditional hexavalent chrome based chromating processes with corrosion resistant trivalent chrome containing processes. Our commercialized processes in this space have found acceptance of the client & thereby, we could get sizable sales in this space.

3. Future plan of action :

- o Dye free acid copper plating.
- o Development of electroplated composite coating.
- o Low / room temperature operated cleaning processes.
- o Zincate free pre-treatment to plate copper, nickel chrome on aluminium.
- o Cyanide free brass & white bronze plating.
- o Commercialization of Hard chrome coating from trivalent chrome based electrolytes
- o Pre-treatment of magnesium and its alloys for electroplating.

4. Expenditure on R&D:

B. TECHNOLOGY ABSORPTION, ADAPTATION AND INNOVATION:

- 1) **Efforts, in brief made towards technology absorption, adaptation and innovation:** The indigenous developments specifically in the areas of environment friendly processes have been adapted and applied for surface treatment.
- 2) **Benefits derived as a result of the above efforts:**
 - New processes have been introduced with emphasis on environment (Go green process) and recycling.
 - Specialized processes developed with high resistance to abrasion and corrosion, more specifically for the fast growing automotive industry.
- 3) **Particulars of technologies imported:**
 - a) Technology imported: Technic, Italy – specifically non-cyanide silver plating.
 - b) Year imported: 2018-19.
 - c) Has technology been fully absorbed? : Partly absorbed.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GRAUER & WEIL (INDIA) LIMITED

Report on the Audit of the Standalone Ind AS Financial Statements

1. Opinion

We have audited the accompanying standalone Ind AS financial statements of **Grauer & Weil (India) Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at March 31, 2020, and its profit (financial performance including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

3. Emphasis of Matter

We draw attention to Note 34 R in the Notes to the standalone Ind AS financial statements which describes the impact of the outbreak of Corona virus (COVID-19) on the business operations of the Company. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve. Our opinion is not modified in respect of this matter.

4. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No.	Key Audit Matter	Our Response
1	<p>Evaluation of Provisions and Contingent Liabilities w.r.t. litigations and claims</p> <p>The Company has uncertain positions including matters under dispute which involves significant judgement to determine the possible outcome of the disputes</p>	<p>We performed the following substantive procedures:</p> <p>Testing the design, implementation and operating effectiveness of key internal controls around the recognition and measurement of provisions and re-assessment of development of contingent liabilities.</p> <p>We have assessed the value of significant provisions and contingent liabilities in light of the nature of the exposures, applicable regulations and related correspondence with the authorities.</p> <p>Evaluating judgements made by the Company by comparing the estimates of prior year to the actual outcome.</p> <p>Assessing the Company's disclosures in the financial statements in respect of provisions and contingent liabilities.</p>

Sr. No.	Key Audit Matter	Our Response
2	<p>Defined benefit obligation</p> <p>The valuation of the retirement benefit schemes in the Company is determined with reference to various actuarial assumptions including discount rate, future salary increases, rate of inflation, mortality rates and attrition rates. Due to the size of these schemes, small changes in these assumptions can have a material impact on the estimated defined benefit obligation</p>	<p>We have examined the key controls over the process involving member data, formulation of assumptions and the financial reporting process in arriving at the provision for retirement benefits. We tested the controls for determining the actuarial assumptions and the approval of those assumptions by senior management. We found these key controls were designed, implemented and operated effectively, and therefore determined that we could place reliance on these key controls for the purposes of our audit.</p> <p>We tested the employee data used in calculating the obligation and where material, we also considered the treatment of curtailments, settlements, past service costs, re-measurements, benefits paid, and any other amendments made to obligations during the year. From the evidence obtained, we found the data and assumptions used by management in the actuarial valuations for retirement benefit obligations to be appropriate.</p>

5. Information Other than the Standalone Ind AS Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report, Report on Corporate Governance and Business Responsibility Report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

6. Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

7. Auditor's Responsibility for the audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. Refer Note 34 R to the standalone Ind AS financial statements which describes the impact of the outbreak of Corona virus (COVID-19) on the business operations of the Company. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. Other Matters

Due to the COVID-19 related lock-down we were not able to participate in the physical verification of inventory that was carried out by the management subsequent to the year end. Consequently we have performed alternate procedures to audit the existence of inventory as per the guidance provided in SA 501 "Audit Evidence – Specific Considerations for Selected Items" and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on these standalone Ind AS financial statements. Our opinion is not modified in respect of this matter.

9. Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

As required by Section 143(3) of the Act, based on our audit, we report that:

- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

Grauer & Weil (India) Limited

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Ind AS prescribed under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended.

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 34 A to the Standalone Ind AS financial statements;
 - ii. The Company has long-term contracts including derivative contracts for which there were no material foreseeable losses; and
 - iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Company.

Accordingly the clauses 3(iii) (a), (b) and (c) of the Order are not applicable to the Company. However in respect of a loan given to an associate company in an earlier year, the receipt of interest is regular. There is no stipulation regarding repayment of principal amount.
- iv) The Company has not granted any loan, neither made any investments, nor given any guarantee or security, during the year, covered by the provisions of Sections 185 and 186 of the Act. However the company has complied with the provisions of sections 185 and 186 of the Act in respect of loans, advance to subsidiaries / associates and investments made therein.
- v) The Company has not accepted any deposits within the meaning of Provisions of Section 73 to 76 of the Act, and the rules framed thereunder from the public.
- vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148 (1) of the Act, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.
- vii) a) The Company is regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income Tax, Service Tax, Goods and Services tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other statutory dues with appropriate authorities, where applicable. According to the information and explanations given to us, there are no undisputed amounts payable in respect of such statutory dues which have remained outstanding as at March 31, 2020 for a period of more than six months from the date they became payable.
- b) According to the records of the Company, the dues outstanding of Income-Tax, Value Added Tax, Service Tax, Duty of Customs, Duty of Excise and Value Added Tax on account of any dispute, are as follows:

Particulars	Period to which the amount related	Forum where the dispute is pending	Amount (Rs. In Lacs)

“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF GRAUER & WEIL (INDIA) LIMITED

Report on the Internal Financial Controls with reference to the aforesaid standalone Ind AS financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to standalone Ind AS financial statements of **Grauer & Weil (India) Limited** (“the Company”) as of March 31, 2020 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone Ind AS financial statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to standalone Ind AS financial statements

Meaning of Internal Financial Controls with reference to standalone Ind AS financial statements

A Company’s internal financial control with reference to standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to standalone Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone Ind AS financial statements

Because of the inherent limitations of internal financial controls with reference to standalone Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control with reference to standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone Ind AS financial statements and such internal financial controls with reference to standalone Ind AS financial statements were operating effectively as at March 31, 2020, based on the internal control with reference to standalone Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

NOTE I: SIGNIFICANT ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

A) General Information:

Grauer & Weil (India) Limited (the "Company") is a Public Limited Company incorporated in India having its registered office at Growel Corporate, Akurli Road, Kandivli (East), Mumbai 400 101. The Company is engaged in the business of manufacturing and selling of Surface Finishings besides Engineering and Shoppertainment business. The Company presently has its manufacturing facilities in Dadra, Vapi (Gujarat), Barotiwala (Himachal Pradesh) and Samba (Jammu & Kashmir) and Engineering division at Khed (Pune District) and a Mall at Kandivli (Mumbai).

B) Basis of preparation of financial statements:

The principal accounting policies applied in the preparation of these financial statements are set out in para C below. These policies have been consistently applied to all the years presented.

i) Statement of compliance:

These Standalone Financial Statements have been prepared in accordance with Ind AS as prescribed under Section 133 of the Companies Act, 2013 read together with the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto.

The financial statements of the Company for the year ended March 31, 2020 are authorised for issue by the Board of Directors of the Company at the meeting held on July 29, 2020.

ii) Basis of preparation and presentation:

The financial statements have been prepared on historical cost basis considering the applicable provisions of Companies Act 2013, except for the following material items that have been measured at fair value as required by the relevant Ind AS. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services at the time of initial recognition.

- a) Certain financial assets/liabilities measured at fair value (*Refer Note 33 - Fair Values and Hierarchy*)
- b) Employees Defined Benefit Plan as per actuarial valuation
- c) Any other item as specifically stated in the accounting policy.

The Company reclassifies comparable amounts unless impracticable and whenever the Company changes the presentation or classification of items in financial statements materially. No such material reclassification has been made during the year.

The financial statements are presented in Indian Rupees which is the functional currency of the Company and the currency of the primary economic environment in which Company operates. Figures have been rounded off to rupees Lacs unless otherwise stated.

iii) Major Sources of Estimation Uncertainty :

In the application of accounting policies which are described in Para C below, the management is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities, income and expenses, contingent liabilities and the accompanying disclosures that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant and are prudent and reasonable. Actual results may differ from those estimates. The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future period.

The few critical estimations and judgments made in applying accounting policies are:

- Property, Plant and Equipment(PPE);

The Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment. Factors such as changes in the expected level of usage, technological developments could impact the economic useful lives and residual values of these assets. Consequently the future depreciation charge could be revised and may have an impact on the profit of future years.

- Inventories:

Inventory obsolescence is based on assessment of the future uses. In all cases, inventory is carried at the lower of historical cost and net realisable value.

- Lease:

Lease accounting after evaluating the right to use the underlying assets, substance of the transactions including legally enforceable arrangements and other significant terms and conditions of the arrangement to conclude whether the arrangements meet the criteria under Ind AS 116.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

- Impairment of non-financial assets:

For calculating the recoverable amount of non-financial assets, the Company is required to estimate the value-in-use of the asset or the Cash Generating Unit and the fair value less cost of disposal. For calculating value-in-use the Company is required to estimate the cash flows to be generated from using the asset. The fair value of an asset is estimated using a valuation technique where observable prices are not available. Further the discount rate used in value-in-use calculations includes an estimate of risk assessment specific to the asset

- Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

- Defined benefit plans:

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

- Fair value measurement of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

- Income tax and Deferred tax assets :

Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amounts expected to be paid/reversed for uncertain tax positions.

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and the losses can be utilised. Accordingly the Company exercises judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

- Covid 19 pandemic :

The Company has evaluated impact of the Covid 19 pandemic on its business operations and financial position and based on its review of current indicators of future economic conditions, there is no significant impact on its financial statements as at March 31, 2020. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial statements. The Company will continue to monitor any material changes to future economic conditions.

C) Summary of Significant Accounting Policies:

I) Property, Plant and Equipment (PPE):

Property, Plant and Equipment are stated at cost less accumulated depreciation and accumulated impairment losses if any, except for freehold land which is not depreciated. Cost includes purchase price (after deducting trade discount / rebate) import duties, non-refundable taxes, cost of replacing the component parts, borrowing costs and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management.

Spare parts procured along with the Plant and Equipment or subsequently which meets the definition and recognition criteria of PPE considering the concept of materiality are capitalized and added to the carrying amount of such items. The carrying amount of those spare parts that are replaced is derecognized when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as 'stores and spares' forming part of the inventory. If the cost of the replaced part is not available, the estimated cost of similar new parts is used as an indication of what the cost of the existing part was when the item was acquired.

Management has assessed applicability of Ind AS 40 - Investment Property to the Mall property. In assessing such applicability, management has considered the ownership of assets, terms of license agreements, various services provided to the licensees, etc. Based on such assessment, the management has considered the Mall property as owner occupied property and hence classified as Property, Plant and Equipment.

Expenditure on acquisition of PPE for Research and Development (R&D) is included in PPE and depreciation thereon is provided as applicable.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss when the asset is derecognised.

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognised till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale in accordance with Ind AS 105 and the date that the asset is derecognised. Depreciation on all assets is provided on straight line basis.

Description of the Asset	Estimated useful life
Tangible:	
Land – Leasehold	Primary period of lease
Building	
– Factory	30 Years
– Other than factory buildings	60 Years
Plant and Equipment	10 to 20 Years
Furniture and Fixtures	10 Years
Computer Servers	6 Years
Computers	3 Years
Laboratory Equipment	10 Years
Office Equipment	5 Years
Vehicles Four Wheelers	8 Years
Vehicles Two Wheelers	10 Years
Intangible:	
Software (up to previous year)	5 Years
Software (from current year)	3 Years

Further, the Company has identified and determined separate useful life for each major component of fixed assets, if they are materially different from that of the remaining assets, for providing depreciation in compliance with Schedule II of the Companies Act, 2013.

Depreciation on fixed assets added/disposed off during the year is provided on pro-rata basis with reference to the date of addition/disposal.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

2) Intangible assets:

Intangible assets acquired separately are measured on initial recognition at cost. After initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Software (not being an integral part of the related hardware) acquired for internal use are treated as intangible assets.

An item of intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Any profit or loss arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

3) CWIP:

CWIP are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing costs. Subsequent expenditures relating to property, plant and equipment are capitalised only when it is probable that future economic benefit associated with these will flow to the Company and the cost of the item can be measured reliably. Advances given to acquire property, plant and equipment are recorded as non-current assets and subsequently transferred to CWIP on acquisition of related assets.

4) Impairment of tangible (PPE) and intangible assets:

At the end of each reporting period, the Company reviews the carrying amounts of its PPE and other intangible assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit (CGU) to which the asset

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

belongs. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognised in the Statement of Profit and Loss.

The recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Where an impairment loss subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or CGU in prior years. A reversal of an impairment loss is recognised in the Statement of Profit and Loss.

5) Inventories:

Raw materials, packing materials and stores and spares are valued at lower of cost and net realisable value. However, materials held for use in production of inventories are not written down below cost, if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, packing materials and stores and spares is determined on daily moving weighted average cost basis.

Work in progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated cost necessary to make the sale.

6) Leases:

The Company has adopted Ind AS 116-Leases effective April 1, 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognised on the date of initial application (April 1, 2019). Accordingly, previous period information has not been restated.

Where the Company is a lessee-

At inception of a contract, the Company assesses whether a contract is or contains a lease. A contract is, or contains, a lease if a contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract conveys the right to use an identified asset;
- the Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the identified asset.

At the date of commencement of a lease, the Company recognises a right-of-use asset ("ROU assets") and a corresponding lease liability for all leases, except for leases with a term of twelve months or less (short-term leases) and low value leases. For short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liability is measured by discounting the lease payments using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates.

Lease payments are allocated between principal and finance cost. The finance cost is charged to Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives and restoration costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. ROU assets are depreciated on a straight-line basis over the asset's useful life or the lease whichever is shorter. Impairment of ROU assets is in accordance with the Company's accounting policy for impairment of tangible and intangible assets.

Where the Company is a lessor-

Lease income from operating leases where the Company is a lessor is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

Management has assessed applicability of Ind AS 116 – Leases, to the Mall property. In assessing such applicability, management has considered the ownership of assets, terms of license agreements, various services provided to the licensees, etc. Since the licensee does not have the right to obtain substantially all the economic benefits from the use of the asset or does not have complete right to direct the use of the asset, the Management is of the view that Ind AS 116 – Leases is not applicable to the Mall property

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

7) Government grants:

Government grants/subsidy are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants/subsidy will be received.

Grants/subsidy related to income are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate on a systematic basis. Government grants/subsidy that are receivable as compensation for expenses or losses already incurred or for the purpose of providing immediate financial support with no future related costs are recognized in the Statement of Profit and Loss in the period in which they become receivable. Grants/subsidy related to income are presented under other income in the Statement of Profit and Loss except for grants/subsidy received in the form of rebate or exemption which are deducted in reporting the related expense. Grant/subsidy receivable against a specific fixed asset is deducted from the cost of the relevant fixed asset.

8) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when there is a present legal or constructive obligation as a result of a past event and it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Such provisions are determined based on management estimate of the amount required to settle the obligation at the balance sheet date. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a standalone asset only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist when a contract under which the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received from it.

Contingent liabilities are disclosed on the basis of judgment of management / independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent Assets are not recognized, however, disclosed in financial statement when inflow of economic benefits is probable.

9) Foreign Currency Transactions:

The financial statements of Company are presented in Indian Rupees, which is also the functional currency. In preparing the financial statements, transactions in currencies other than the entity's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items denominated in foreign currency are reported at the exchange rate ruling on the date of transaction. Exchange difference on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

10) Share Capital and Securities Premium:

Ordinary shares are classified as equity, incremental costs directly attributable to the issue of new shares are shown in equity as a deduction net of tax from the proceeds. Par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as securities premium.

11) Dividend Distribution to equity shareholders:

The Company recognizes a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Company. A distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in other equity along with any tax thereon.

12) Cash Flows and Cash and cash equivalents:

Statement of cash flows is prepared in accordance with the indirect method prescribed in the relevant Ind AS. For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cheques and drafts on hand, deposits held with Banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

13) Revenue recognition:

The Company derives revenues primarily from sale of goods comprising Surface Finishings. The revenue of Engineering division is from design, fabrication and manufacture of surface coating equipment and plant. In respect of Mall revenue is derived from Business Conducting/License Fees.

The following is a summary of significant accounting policies related to revenue recognition:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Revenue from contract with customers is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer.

Revenue is measured based on the transaction price, which is the consideration, adjusted for turnover/product/prompt payment discounts to customer as specified in the contract with the customers. When the level of discount varies with increase in levels of revenue transactions, the Company recognises the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognised until the payment is probable and the amount can be estimated reliably. The Company recognises changes in the estimated amount of obligations for discounts in the period in which the change occurs. Revenue also excludes taxes collected from customers.

Use of significant judgements in revenue recognition.

- Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of consideration or variable consideration with elements such as turnover/product/prompt payment discounts. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.
- The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

i. Sale of Goods:

Revenue from sale of goods is recognized, at a point in time when control is transferred to customer, as per the terms of the contracts and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. It excludes value added tax/sales tax, Goods and Services tax. It is measured at fair value of consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

ii. Engineering Division:

Equipment manufactured by the Engineering Division for use by other divisions is included in the Sales at transfer price and are capitalised by other division.

iii. Income from Business Conducting/Licence Fees:

Income arising out of Business Conducting/Licence Fees is accounted at contracted rates, keeping in view, the collectability of the resulting receivables is reasonably assured and is disclosed net of indirect taxes, if any.

iv. Revenue from Amenities provided:

Revenue from amenities provided is recognized at value of service and is disclosed net of indirect taxes, if any. Recoveries made against common area maintenance expenses are netted of against expenses.

v. Job Contract Receipts:

The Company follows the "Percentage of Completion Method" of accounting for all contracts. The revenue from the execution of contracts is recognized proportionately with the degree of completion achieved under each contract, matching revenue with expenses incurred and is accounted over a period of time.

vi. Rendering of Services:

Revenue from rendering of services is recognized as per the terms of the contract with customers when related services are performed and when the outcome of the transactions involving rendering of services can be estimated reliably.

vii. Dividend Income:

Dividend Income is accounted for when the right to receive the same is established, which is generally when shareholders approve the dividend.

viii. Interest Income:

Interest Income on financial assets measured at amortised cost is recognised on a time-proportion basis using the effective interest method.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

ix. Insurance and Other Claims:

Insurance and other claims/refunds, due to uncertainty in realisation are accounted for on acceptance/actual receipt basis.

14) Borrowing costs:

Borrowing cost includes interest, commitment charges, brokerage, underwriting costs, discounts / premiums, financing charges, exchange difference to the extent they are regarded as interest costs and all ancillary / incidental costs incurred in connection with the arrangement of borrowing.

Borrowing costs which are directly attributable to acquisition / construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized as a part of cost pertaining to those assets. All other borrowing costs are recognised as expense in the period in which they are incurred.

15) Employee benefits:

i. Short term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., are recognized during the period in which the employee renders related services and are measured at undiscounted amount expected to be paid when the liabilities are settled.

ii. Long term Employee Benefits:

The cost of providing long term employee benefit such as earned leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. The expected costs of the benefit is accrued over the period of employment using the same methodology as used for defined benefits post employment plans. Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit and Loss in which they arise except those included in cost of assets as permitted. The benefit is valued annually by an independent actuary.

iii. Post Employment Benefits:

The Company provides the following post employment benefits:

- i) Defined benefit plans such as gratuity; and
- ii) Defined contributions plans such as provident fund.

iv. Defined benefits Plans:

The cost of providing benefits on account of gratuity are determined using the projected unit credit method on the basis of actuarial valuation made at the end of each balance sheet date, which recognises each period of service as given rise to additional unit of employees benefit entitlement and measuring each unit separately to build up the final obligation. The yearly expenses on account of these benefits are provided in the books of accounts.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss except those included in cost of assets as permitted.

Re-measurements comprising of actuarial gains and losses arising from experience adjustments and change in actuarial assumptions, the effect of change in assets ceiling (if applicable) and the return on plan asset (excluding net interest as defined above) are recognized in other comprehensive income (OCI) except those included in cost of assets as permitted in the period in which they occur. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements) is recognized in the Statement of Profit and Loss except those included in cost of assets as permitted in the period in which they occur.

v. Defined Contribution Plans:

Payments to defined contribution retirement benefit plans, viz., Provident Fund for eligible employees, and Superannuation benefits are recognized as an expense when employees have rendered the service entitling them to the contribution.

16) Taxes on income:

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

a) Current tax:

Current tax includes provision for Income Tax computed under special provision (i.e., Minimum alternate tax) or normal provision of Income Tax Act. Tax on Income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments/appeals.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

b) Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unabsorbed losses and unabsorbed depreciation to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, unabsorbed losses and unabsorbed depreciation can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

17) Earnings per share:

Basic earnings per share is calculated by dividing the profit from continuing operations and total profit, both attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

For calculating diluted earnings per share the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

18) Current versus non-current classification:

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

a) An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

b) A liability is current when:

- It is expected to be settled in the normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

c) Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

19) Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of asset and liability if market participants would take those into consideration. Fair value for measurement and / or disclosure purposes in these financial statements is determined in on such basis except for inventories, leases and value in use of non- financial assets. Normally at initial recognition, the transaction price is the best evidence of fair value.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Financial assets and Financial liabilities that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

20) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

21) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Company recognizes a financial asset or financial liability in its balance sheet only when the entity becomes party to the contractual provisions of the instrument.

a) Financial assets:

A financial asset inter-alia includes any asset that is cash, equity instrument of another entity or contractual obligation to receive cash or another financial asset or to exchange financial asset or financial liability under condition that are potentially favourable to the Company.

Investments in subsidiaries:

Investments in equity shares of subsidiaries are carried at cost less impairment. Impairment is provided for on the basis explained in Para C (3) above.

Financial assets other than investment in subsidiaries:

Financial assets of the Company comprise trade receivable, cash and cash equivalents, Bank balances, Investments in equity shares of companies other than in subsidiaries, investment other than equity shares, loans/advances to employee/related parties/others, security deposit, claims recoverable etc.

Initial recognition and measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss. Where transaction price is not the measure of fair value and fair value is determined using a valuation method that uses data from observable market, the difference between transaction price and fair value is recognized in Statement of Profit and Loss and in other cases spread over life of the financial instrument using effective interest method.

Subsequent measurement:

For purposes of subsequent measurement financial assets are classified in three categories:

- Financial assets measured at amortized cost
- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020**Financial assets measured at amortized cost:-**

Financial assets are measured at amortized cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are amortized using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognized in the Statement of Profit and Loss in finance costs.

Financial assets at fair value through OCI (FVTOCI):-

Financial assets are measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At initial recognition, an irrevocable election is made (on an instrument-by-instrument basis) to designate investments in equity instruments other than held for trading purpose at FVTOCI. Fair value changes are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the income statement. On derecognition of the financial asset other than equity instruments, cumulative gain or loss previously recognised in OCI is reclassified to income statements.

Financial assets at fair value through profit or loss (FVTPL):-

Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as financial assets at fair value through profit or loss. Further, financial assets at fair value through profit or loss also include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets at fair value through profit or loss are fair valued at each reporting date with all the changes recognized in the Statement of Profit and Loss.

Derecognition:

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay.

Impairment of financial assets:

The Company assesses impairment based on expected credit loss (ECL) model on the following:

- Financial assets that are measured at amortised cost.
- Financial assets measured at fair value through other comprehensive income (FVTOCI).

ECL is measured through a loss allowance on a following basis:

- The 12 month expected credit losses (expected credit losses that result from those default events on the financial instruments that are possible within 12 months after the reporting date)
- Full life time expected credit losses (expected credit losses that result from all possible default events over the life of financial instruments)

The Company follows 'simplified approach' for recognition of impairment on trade receivables or contract assets resulting from normal business transactions. The application of simplified approach does not require the Company to track changes in credit risk. However, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, from the date of initial recognition.

For recognition of impairment loss on other financial assets, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has increased significantly, lifetime ECL is provided. For assessing increase in credit risk and impairment loss, the Company assesses the credit risk characteristics on instrument-by-instrument basis.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

Impairment loss allowance (or reversal) recognized during the year is recognized as expense/income in the Statement of Profit and Loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

b) Financial liabilities:

The Company's financial liabilities include loans and borrowings including book overdraft, trade payable, accrued expenses and other payables.

Initial recognition and measurement:

All financial liabilities at initial recognition are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss depending upon the level of fair value.

Subsequent measurement:

The subsequent measurement of financial liabilities depends upon the classification as described below:-

- Financial Liabilities classified as Amortised Cost
- Financial Liabilities that are not held for trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective Interest Rate. Interest expense that is not capitalised as part of costs of assets is included as Finance costs in the Statement of Profit and Loss.

Financial Liabilities at Fair value through profit and loss (FVTPL):-

- FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities have not been designated upon initial recognition at FVTPL.

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged / cancelled / expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments:

Financial assets and Financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

c) Derivatives

Derivative instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument and is recognised in Other Comprehensive Income (OCI).

Cash flow hedges shall be reclassified to profit or loss as a reclassification adjustment in the same period or periods during which the hedged expected future cash flows affect profit or loss. If hedge of a forecast transaction results in the recognition of a non-financial asset or a non-financial liability, then the gain or loss that are accumulated in the cash flow hedge reserve is recognised in the initial cost or other carrying amount of the asset or liability (this is also referred to as "Basis Adjustment").

22) Recent accounting pronouncements:

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards. There is no such notification issued prior to March 31, 2020 which would have been applicable from April 1, 2020.

The reinstatement of some of these assets is still in progress and the balance claim is expected to be finalised once the reinstatement is completed.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

NOTE- 31: CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves, long term funds attributable to the Equity Shareholders of the Company. The primary objective of the Company's Capital Management is to maximise shareholders value and keep the debt equity ratio within acceptable range. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

NOTE- 32: FINANCIAL RISK MANAGEMENT

The Company's activities expose it to various financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company by setting appropriate limits and controls and monitoring such risks. The policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations leading to a financial loss. The Company is exposed to credit risk arising from its operating (primarily trade receivables) and investing activities including deposits placed with banks.

The Company exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed through close monitoring of receivables and having a strict control on allowing the credit period to customers. Additionally, the Company does not have any significant concentration of exposures to specific industry sectors or specific country risks.

The Company limits its exposure to credit risk for investments by generally investing in Fixed Deposits and only with counterparties that have a good credit rating.

Considering that significant part of Company's sales in Surface Finishings division is either with established dealer network where payments are generally in advance/cash on delivery or with direct customers wherein credit worthiness as well as credit limits, wherever possible, are closely monitored on a case to case basis by Management, Company expects a low probability of default on Trade Receivables as on March 31, 2020. Going forward Management has factored in the uncertainties for deliveries subsequent to March 31, 2020.

Liquidity risk

Liquidity Risk is the risk that the Company will not be able to meet the financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both, normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

The Company has unutilised working capital limits from banks of Rs. 8,687 Lacs as on March 31, 2020 (Rs. 7,575 Lacs as on March 31, 2019), cash and cash equivalents of Rs. 3,328.90 Lacs as on March 31, 2020 (Rs. 3,861.01 Lacs as on March 31, 2019) and in Fixed deposits of Rs. 11,595.63 Lacs as on March 31, 2020 (Rs. 7,378.05 Lacs as on March 31, 2019). Therefore, Company does not expect any material Liquidity risk.

With significant investments in Fixed deposits, Cash in hand and available borrowing lines as mentioned above, the Company does not envisage any material effect on its liquidity.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes investments, trade payables, trade receivables and loans.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Company has insignificant interest bearing borrowings, the exposure to risk of changes in market interest rates is minimal.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The Company generally enters into forward exchange contracts to hedge its foreign currency exposures for imports wherever required.

The carrying amounts of the Company's foreign currency denominated monetary items are as follows:

Rupees in Lacs

Currency	Liabilities		Assets	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
US Dollars	335.89	516.19	887.49	1,167.35
EURO	2.41	-	44.58	146.54
GBP	-	-	-	3.48
JPY	12.40	360.16	9.28	0.04

The table below demonstrates the sensitivity to a 1% increase or decrease in the foreign currency against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 1% represents management's assessment of reasonably possible change in foreign exchange rate.

-1%	347.19	867.59	931.94	1,304.24

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Other price risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from financial assets such as investments in equity instruments and bonds.

The company does not have significant investments in Quoted shares. Hence the 10% price sensitivity upward /downward will not have any material impact on the profitability of the company.

B. Measurement of fair values

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used:

Financial instruments measured at fair value

Type	Valuation technique
Forward contracts for foreign exchange contracts	Forward pricing : The fair value is determined using quoted forward exchange rates at the reporting date and present value calculations based on high credit quality yield curves in the respective currencies.
Non current financial assets / liabilities measured at amortised cost	Discounted cash flow technique : The valuation model considers present value of expected payments discounted using an appropriate discounting rate.

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

- Q. The adoption of Ind AS 116 has resulted in recognition of 'Right of Use' asset of Rs. 311.62 Lacs, and a lease liability of Rs.372.36 Lacs. The cumulative effect of applying the standard, amounting to Rs. 60.74 Lacs was debited to retained earnings, net of taxes amounting to Rs. 39.51 Lacs. The effect of this adoption is insignificant on the profit for the period and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The weighted average incremental borrowing rate applied to lease liabilities as at April 01, 2019 is 8% p.a.

The changes in the carrying value of right of use (ROU) assets for the year ended March 31, 2020 are disclosed in Note 3.

- R.** The Company is closely monitoring the impact of COVID-19 pandemic on its business operations. Whilst reduced off-take from customers due to curtailed production volumes at their end and challenges of manpower availability are likely to have impact on its surface finishing's business segment for some time to come, significantly curtailed mall operations with only a few take-away food counters operating from it along with some sections of a multi-retail chain store are significantly impacting Company's shoppertainment business segment.

The Company however, believes that the impact of COVID-19 is likely to be short term in nature. With its multi-locational operations spread across multiple business segments and other proactive steps taken by Company, no medium to long term risk is anticipated by Company in its ability to meet its liabilities as and when they fall due impacting going concern.

The situation created by Covid-19 continues to hold some uncertainties for the future and in view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent period is highly dependent upon circumstances as they evolve.

- S.** Previous Years figures have been regrouped and reclassified wherever required.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GRAUER & WEIL (INDIA) LIMITED

Report on the Audit of Consolidated Ind AS Financial Statements

1. Opinion

We have audited the accompanying consolidated Ind AS financial statements of **Grauer & Weil (India) Limited** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its Associates, which comprise the consolidated Balance Sheet as at March 31, 2020 and the consolidated Statement of Profit and Loss (including other Comprehensive Income), consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs (financial position) of the Group and its associates as at March 31, 2020, and its consolidated profit (financial performance including other comprehensive income), the consolidated changes in equity and its consolidated cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group and associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

3. Emphasis of Matter

We draw attention to Note 33 H in the Notes to the Consolidated Ind AS financial statements which describes the impact of the outbreak of Corona virus (COVID-19) on the business operations of the Group. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.

Our opinion is not modified in respect of this matter.

4. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No.	Key Audit Matter	Our Response
I	<p>Evaluation of Provisions and Contingent Liabilities w.r.t. litigations and claims</p> <p>The Group has uncertain positions including matters under dispute which involves significant judgement to determine the possible outcome of the disputes</p>	<p>We performed the following substantive procedures:</p> <p>Testing the design, implementation and operating effectiveness of key internal controls around the recognition and measurement of provisions and re-assessment of development of contingent liabilities.</p> <p>We have assessed the value of significant provisions and contingent liabilities in light of the nature of the exposures, applicable regulations and related correspondence with the authorities.</p> <p>Evaluating judgements made by the Group by comparing the estimates of prior year to the actual outcome.</p> <p>Assessing the Group's disclosures in the financial statements in respect of provisions and contingent liabilities.</p>

Sr. No.	Key Audit Matter	Our Response
2	<p>Defined benefit obligation</p> <p>The valuation of the retirement benefit schemes in the Group is determined with reference to various actuarial assumptions including discount rate, future salary increases, rate of inflation, mortality rates and attrition rates. Due to the size of these schemes, small changes in these assumptions can have a material impact on the estimated defined benefit obligation</p>	<p>We have examined the key controls over the process involving member data, formulation of assumptions and the financial reporting process in arriving at the provision for retirement benefits. We tested the controls for determining the actuarial assumptions and the approval of those assumptions by senior management. We found these key controls were designed, implemented and operated effectively, and therefore determined that we could place reliance on these key controls for the purposes of our audit.</p> <p>We tested the employee data used in calculating the obligation and where material, we also considered the treatment of curtailments, settlements, past service costs, re-measurements, benefits paid, and any other amendments made to obligations during the year. From the evidence obtained, we found the data and assumptions used by management in the actuarial valuations for retirement benefit obligations to be appropriate.</p>

5. Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report thereon

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Holding Company's Board Report including Annexures to Board's Report, Management Discussion and Analysis, Report on Corporate Governance, but does not include the consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

6. Management's Responsibility and those charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group including its associates in accordance with the the accounting principles generally accepted in India including the accounting standards specified under section 133 of the Act. The respective Board of Directors of the Companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the Group's and of its associates ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or any of its associates, or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for overseeing the financial reporting process of the Group and of its associates.

7. Auditor's Responsibilities for the audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and of its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditor's report. However, future events or conditions may cause the Group and of its associates to cease to continue as a going concern. Refer Note 33 H to the consolidated Ind AS financial statements which describes the impact of the outbreak of Corona virus (COVID-19) on the business operations of the Group. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

8. Other Matters

- Due to the COVID-19 related lock-down we were not able to participate in the physical verification of inventory that was carried out by the management of the holding company subsequent to the year end. Consequently we have performed alternate procedures to audit the existence of inventory as per the guidance provided in SA 501 "Audit Evidence –Specific Considerations for Selected Items" and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on these consolidated Ind AS financial statements. Our opinion is not modified in respect of this matter.
- The consolidated Ind AS financial statements include the audited financial results of two subsidiaries whose financial statements/financial information reflect total assets (before consolidation adjustments) of Rs 456.98 lakhs as at December 31, 2019, total revenue (before consolidation adjustments) of Rs 521.24 lakhs and total net profit after tax (before consolidation adjustments) of Rs 8.44 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements, which have been audited by their respective independent auditors. The consolidated Ind AS financial statements also include the Group's share of loss (before consolidation adjustments) of Rs 4.61 lakhs for the year ended December 31, 2019 as considered in the consolidated Ind AS financial statements in respect of an associate whose financial statements/financial information have been audited by its independent auditor. The independent auditors' reports on financial statements/financial information of these entities have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these entities is based solely on the report of such auditors and the procedures performed by us are as stated in the paragraph above.

Grauer & Weil (India) Limited

The consolidated Ind AS financial statements include the unaudited financial results of a subsidiary whose financial statements/financial information reflect total assets (before consolidation adjustments) of Rs 7.72 lakhs as at December 31, 2019, total revenue (before consolidation adjustments) of Rs Nil and total net profit/(loss) after tax (before consolidation adjustments) of Rs Nil for the year ended on that date, as considered in the consolidated annual financial results. The consolidated Ind AS financial statements also include the Group's share of loss (before consolidation adjustments) of Rs 0.40 lakhs for the year ended March 31, 2020 as considered in the consolidated Ind AS financial statements in respect of two associates whose financial statements/financial information is unaudited.. These unaudited financial statements/financial information have been furnished to us by the Management and our opinion on the consolidated annual financial results in so far as it relates to the amounts and disclosures included in respect of these entities is based solely on such annual financial statements/financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements/financial information is not material to the Group.

The subsidiaries and an associate are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries. The Holding Company's Management have converted the financial statements of these entities to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's Management.

Our opinion on the consolidated Ind AS financial results is not modified in respect of the above matters with respect to our reliance of the work done and the reports of the other auditors and the financial statements/financial information certified by the Management

9. Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law maintained by the Holding Company, its subsidiaries included in the Group and its associates including relevant records relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the certification of the Management.
- c) The consolidated Balance Sheet, the consolidated Statement of Profit and Loss including Other Comprehensive Income, the consolidated Statement of Changes in Equity and the consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2020 taken on record by the Board of Directors of the Holding Company and on the basis of representations made by the respective Board of Directors of the associates, none of the directors are disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) This report does not contain a separate report on the internal financial controls over financial reporting of the Group under clause (i) of sub section 3 of section 143 of the Act as there are no subsidiaries incorporated in India.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended. In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated Ind AS financial position of the Group and its associates – Refer Note 33 E to the consolidated financial statements;
 - ii. The Group has long-term contracts including derivative contracts for which there were no material foreseeable losses; and
 - iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding Company. There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the associate companies incorporated in India.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

A) General Information:

Grauer & Weil (India) Limited ('the Holding Company') and its subsidiaries (together to as 'the Group') and its associates are engaged in the business of manufacturing and selling of Surface Finishings besides Engineering and Shoppertainment business. The Group has its business operations mainly in India, Europe and the Far East. The Holding Company is a Public limited Company incorporated and domiciled in India and has its registered office at Growel Corporate, Akurli Road, Kandivli (East), Mumbai 400 101. The Group presently has its manufacturing facilities in Dadra, Vapi (Gujarat), Barotiwala (Himachal Pradesh) and Samba (Jammu & Kashmir) and Engineering division at Khed (Pune District) and a Mall at Kandivli (Mumbai).

B) Basis of preparation of Consolidated financial statements:

The principal accounting policies applied in the preparation of these consolidated financial statements are set out in para C below. These policies have been consistently applied to all the years presented.

i) Statement of compliance:

These Consolidated Financial Statements have been prepared in accordance with Ind AS as prescribed under Section 133 of the Companies Act, 2013 read together with the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto.

The Consolidated financial statements of the Group for the year ended March 31, 2020 were authorised for issue in accordance with a resolution of the Board of Directors dated July 29, 2020.

ii) Basis of preparation and presentation:

The Consolidated financial statements have been prepared on historical cost basis considering the applicable provisions of Companies Act 2013, except for the following material items that have been measured at fair value as required by the relevant Ind AS. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services at the time of initial recognition.

- a) Certain financial assets/liabilities measured at fair value (*Refer Note 32 - Fair Values and Hierarchy*)
- b) Employees Defined Benefit Plan as per actuarial valuation
- c) Any other item as specifically stated in the accounting policy.

The Group reclassifies comparable amounts unless impracticable and whenever the Group changes the presentation or classification of items in financial statements materially. No such material reclassification has been made during the year.

The financial statements are presented in Indian Rupees which is the functional currency of the Holding Company and the currency of the primary economic environment in which Group operates. Figures have been rounded off to rupees Lacs unless otherwise stated.

iii) Basis and principle of consolidation:

The financial statements of the group and its associates have been prepared in compliance with Accounting Standards specified under Section 133 of the Companies Act, 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015, and those of foreign subsidiaries and a foreign associate have been prepared in compliance with the local laws and applicable Accounting Standards. Necessary adjustments for material differences in the accounting policies, if any, have been made in the consolidated financial statements. The financial statements have been prepared on an accrual basis and under the historical cost convention.

All assets and liabilities have been classified as current or non-current as per the normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

The consolidated financial statements have been prepared on the following basis:-

a) Investment in subsidiaries:

Subsidiaries are entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of that entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together the items of assets, liabilities, equity, income and expenses. Intra-group transactions, balances and unrealised gains on transactions between entities within the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020
b) Investments in associates:

Associates are entities over which the Group has significant influence but not control or joint control. Investment in associates are accounted for using the equity method of accounting after initially being recognised at cost

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post acquisition profits or losses of the investee in the Consolidated Statement of Profit and Loss, and the Group's share of Other Comprehensive Income of the Investee in Other Comprehensive Income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment. When the Group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the Group and its Associates are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group. The carrying amount of equity accounted investments are tested for impairment.

c) Foreign subsidiaries:

Revenue items have been consolidated at the average rate of foreign exchange prevailing during the year. The assets and liabilities, both monetary and non-monetary, of the non-integral foreign operations are translated at the closing rate. Exchange differences arising on monetary and non-monetary items that in substance forms part of the Group's net investments in non-integral foreign operations are accumulated in the Foreign Currency Translation Reserve.

d) Information on subsidiaries / associate companies:

The following subsidiaries are considered in the consolidated financial statements:

Sr. No.	Particulars	% Shares held as at March 31, 2020	% Shares held as at March 31, 2019	Country of Incorporation
i	Grauer & Weil (Shanghai) Limited	100%	100%	China
ii	Grauer & Weil (UK) Limited	100%	100%	England
iii	Growel Chemicals Co. Limited	100%	100%	Thailand

The Financial Statements of the subsidiary companies viz Grauer & Weil (Shanghai) Limited and Growel Chemicals Co. Limited used in the consolidation are drawn up to December 31, 2019 and that of Grauer & Weil (UK) Limited upto June 30, 2019 respectively.

The following associate companies are considered in the consolidated financial statements:

Sr. No.	Particulars	% Shares held as at March 31, 2020	% Shares held as at March 31, 2019	Country of Incorporation
i	Grauer & Weil Engineering Private Limited	29.99%	29.99%	India
ii	Grauer & Weil (Thailand) Co. Limited	48.99%	48.99%	Thailand
iii	Growel Sidasa Industries Private Limited	49.80%	49.80%	India

iv) Major sources of estimation uncertainty

In the application of accounting policies which are described in Para C below, the management is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities, income and expenses, contingent liabilities and the accompanying disclosures that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant and are prudent and reasonable. Actual results may differ from those estimates. The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future period.

The few critical estimations and judgments made in applying accounting policies are:

- Inventories:

Inventory obsolescence is based on assessment of the future uses. In all cases, inventory is carried at the lower of historical cost and net realisable value.

- Lease:

Lease accounting after evaluating the right to use the underlying assets, substance of the transactions including legally enforceable arrangements and other significant terms and conditions of the arrangement to conclude whether the arrangements meet the criteria under Ind AS 116.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

- Impairment of non-financial assets:

For calculating the recoverable amount of non-financial assets, the Group is required to estimate the value-in-use of the asset or the Cash Generating Unit and the fair value less cost of disposal. For calculating value-in-use the Group is required to estimate the cash flows to be generated from using the asset. The fair value of an asset is estimated using a valuation technique where observable prices are not available. Further the discount rate used in value-in-use calculations includes an estimate of risk assessment specific to the asset.

- Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

- Defined benefit plans:

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

- Fair value measurement of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

- Income tax and Deferred tax assets :

Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amounts expected to be paid/reversed for uncertain tax positions.

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and the losses can be utilised. Accordingly the Group exercises judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

- Covid 19 pandemic :

The Group has evaluated impact of the Covid 19 pandemic on its business operations and financial position and based on its review of current indicators of future economic conditions, there is no significant impact on its financial statements as at March 31, 2020. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial statements. The Group will continue to monitor any material changes to future economic conditions.

C) Summary of Significant Accounting Policies:

I) Property, Plant and Equipment (PPE):

Property, Plant and Equipment are stated at cost less accumulated depreciation and accumulated impairment losses if any, except for freehold land which is not depreciated. Cost includes purchase price (after deducting trade discount / rebate) import duties, non-refundable taxes, cost of replacing the component parts, borrowing costs and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management.

Spares parts procured along with the Plant and Equipment or subsequently which meets the definition and recognition criteria of PPE considering the concept of materiality are capitalized and added to the carrying amount of such items. The carrying amount of those spare parts that are replaced is derecognized when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as 'stores and spares' forming part of the inventory. If the cost of the replaced part is not available, the estimated cost of similar new parts is used as an indication of what the cost of the existing part was when the item was acquired.

Management has assessed applicability of Ind AS 40 - Investment Property to the Mall property. In assessing such applicability, management has considered the ownership of assets, terms of license agreements, various services provided to the licensees, etc. Based on such assessment, the management has considered the Mall property as owner occupied property and hence classified as Property, Plant and Equipment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Expenditure on acquisition of PPE for Research and Development (R&D) is included in PPE and depreciation thereon is provided as applicable.

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in Statement of Profit and Loss when the asset is derecognised.

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognised till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale in accordance with Ind AS 105 and the date that the asset is derecognised. Depreciation on all assets is provided on straight line basis.

Description of the Asset	Estimated useful life
Tangible:	
Land – Leasehold	Primary period of lease
Building	
– Factory	30 Years
– Other than factory buildings	60 Years
Plant and Equipment	10 to 20 Years
Furniture and Fixtures	10 Years
Computer Servers	6 Years
Computers	3 Years
Laboratory Equipment	10 Years
Office Equipment	5 Years
Vehicles Four Wheelers	8 Years
Vehicles Two Wheelers	10 Years
Intangible:	
Software (up to previous year)	5 Years
Software (from current year)	3 Years

Further, the Group has identified and determined separate useful life for each major component of fixed assets, if they are materially different from that of the remaining assets, for providing depreciation in compliance with Schedule II of the Companies Act, 2013.

Depreciation on fixed assets added/disposed off during the year is provided on pro-rata basis with reference to the date of addition/disposal.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

2) Intangible assets:

Intangible assets acquired separately are measured on initial recognition at cost. After initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Software (not being an integral part of the related hardware) acquired for internal use are treated as intangible assets.

An item of Intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Any profit or loss arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

3) CWIP:

CWIP are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing costs. Subsequent expenditures relating to property, plant and equipment are capitalised only when it is probable that future economic benefit associated with these will flow to the Group and the cost of the item can be measured reliably. Advances given to acquire property, plant and equipment are recorded as non-current assets and subsequently transferred to CWIP on acquisition of related assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

4) Impairment of tangible (PPE) and intangible assets:

At the end of each reporting period, the Group reviews the carrying amounts of its PPE and other intangible assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognised in the Statement of Profit and Loss.

The recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Where an impairment loss subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or CGU in prior years. A reversal of an impairment loss is recognised in the Statement of Profit and Loss.

5) Inventories:

Raw materials, packing materials and stores and spares are valued at lower of cost and net realisable value. However, materials held for use in production of inventories are not written down below cost, if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, packing materials and stores and spares is determined on daily moving weighted average cost basis.

Work in progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated cost necessary to make the sale.

6) Leases:

The Group has adopted Ind AS 116-Leases effective April 1, 2019, using the modified retrospective method. The Group has applied the standard to its leases with the cumulative impact recognised on the date of initial application (April 1, 2019). Accordingly, previous period information has not been restated.

Where the Group is a lessee-

At inception of a contract, the Group assesses whether a contract is or contains a lease. A contract is, or contains, a lease if a contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract conveys the right to use an identified asset;
- the Group has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the identified asset.

At the date of commencement of a lease, the Group recognises a right-of-use asset ("ROU assets") and a corresponding lease liability for all leases, except for leases with a term of twelve months or less (short-term leases) and low value leases. For short-term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liability is measured by discounting the lease payments using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates.

Lease payments are allocated between principal and finance cost. The finance cost is charged to statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives and restoration costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. ROU assets are depreciated on a straight-line basis over the asset's useful life or the lease whichever is shorter. Impairment of ROU assets is in accordance with the Company's accounting policy for impairment of tangible and intangible assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Where the Group is a lessor-

Lease income from operating leases where the Company is a lessor is recognised in the statement of profit and loss on a straight-line basis over the lease term.

Management has assessed applicability of Ind AS 116 – Leases, to the Mall property. In assessing such applicability, management has considered the ownership of assets, terms of license agreements, various services provided to the licensees, etc. Since the licensee does not have the right to obtain substantially all the economic benefits from the use of the asset or does not have complete right to direct the use of the asset, the Management is of the view that Ind AS 116 – Leases is not applicable to the Mall property

7) Government grants:

Government grants/subsidy are recognized when there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants/subsidy will be received.

Grants/subsidy related to income are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate on a systematic basis. Government grants/subsidy that are receivable as compensation for expenses or losses already incurred or for the purpose of providing immediate financial support with no future related costs are recognized in the Statement of Profit and Loss in the period in which they become receivable. Grants/subsidy related to income are presented under other income in the Statement of Profit and Loss except for grants/subsidy received in the form of rebate or exemption which are deducted in reporting the related expense. Grant/subsidy receivable against a specific fixed asset is deducted from the cost of the relevant fixed asset.

8) Provisions, contingent liabilities and contingent assets:

Provisions are recognised when there is a present legal or constructive obligation as a result of a past event and it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Such provisions are determined based on management estimate of the amount required to settle the obligation at the balance sheet date. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a standalone asset only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist when a contract under which the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received from it.

Contingent liabilities are disclosed on the basis of judgment of management / independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent Assets are not recognized, however, disclosed in financial statement when inflow of economic benefits is probable.

9) Foreign currency transactions:

The financial statements of Group are presented in Indian Rupees, which is also the functional currency. In preparing the financial statements, transactions in currencies other than the entity's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items denominated in foreign currency are reported at the exchange rate ruling on the date of transaction. Exchange difference on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

10) Share capital and securities premium:

Ordinary shares are classified as equity, incremental costs directly attributable to the issue of new shares are shown in equity as a deduction net of tax from the proceeds. Par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as securities premium.

11) Dividend distribution to equity shareholders:

The Group recognizes a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Group. A distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in other equity along with any tax thereon.

12) Cash flows and cash and cash equivalents:

Statement of cash flows is prepared in accordance with the indirect method prescribed in the relevant Ind AS. For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cheques and drafts on hand, deposits held with Banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

13) Revenue recognition:

The Group derives revenues primarily from sale of goods comprising Surface Finishings. The revenue of Engineering division is from design, fabrication and manufacture of surface coating equipment and plant. In respect of Mall revenue is derived from Business Conducting/License Fees.

The following is a summary of significant accounting policies related to revenue recognition:

Revenue from contract with customers is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer.

Revenue is measured based on the transaction price, which is the consideration, adjusted for turnover/product/prompt payment discounts to customer as specified in the contract with the customers. When the level of discount varies with increase in levels of revenue transactions, the Group recognises the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognised until the payment is probable and the amount can be estimated reliably. The Group recognises changes in the estimated amount of obligations for discounts in the period in which the change occurs. Revenue also excludes taxes collected from customers.

Use of significant judgements in revenue recognition.

- Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of consideration or variable consideration with elements such as turnover/product/prompt payment discounts. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.
- The Group exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Group considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

i. Sale of Goods:

Revenue from sale of goods is recognized, when all significant risks and rewards are transferred to the buyer, as per the terms of the contracts and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. It excludes value added tax/sales tax, Goods and Services tax. It is measured at fair value of consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

ii. Engineering Division:

Equipment manufactured by the Engineering Division for use by other divisions is included in the Sales at transfer price and are capitalised by other division.

iii. Income from Business Conducting/Licence Fees:

Income arising out of Business Conducting/License Fees is accounted at contracted rates, keeping in view, the collectability of the resulting receivables is reasonably assured and is disclosed net of indirect taxes, if any.

iv. Revenue from Amenities provided:

Revenue from amenities provided is recognized at value of service and is disclosed net of indirect taxes, if any. Recoveries made against common area maintenance expenses are netted of against relevant expenses.

v. Job Contract Receipts:

The Group follows the "Percentage of Completion Method" of accounting for all contracts. The revenue from the execution of contracts is recognized proportionately with the degree of completion achieved under each contract, matching revenue with expenses incurred and is accounted over a period of time.

vi. Rendering of Services:

Revenue from rendering of services is recognized as per the terms of the contract with customers when related services are performed and when the outcome of the transactions involving rendering of services can be estimated reliably.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020**vii. Dividend Income:**

Dividend Income is accounted for when the right to receive the same is established, which is generally when shareholders approve the dividend.

viii. Interest Income:

Interest Income on financial assets measured at amortised cost is recognised on a time-proportion basis using the effective interest method.

ix. Insurance and Other Claims:

Insurance and other claims/refunds, due to uncertainty in realisation are accounted for on acceptance/actual receipt basis.

14) Borrowing costs:

Borrowing cost includes interest, commitment charges, brokerage, underwriting costs, discounts / premiums, financing charges, exchange difference to the extent they are regarded as interest costs and all ancillary / incidental costs incurred in connection with the arrangement of borrowing.

Borrowing costs which are directly attributable to acquisition / construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized as a part of cost pertaining to those assets. All other borrowing costs are recognised as expense in the period in which they are incurred.

15) Employee benefits:**i. Short term Employee Benefits:**

All employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., are recognized during the period in which the employee renders related services and are measured at undiscounted amount expected to be paid when the liabilities are settled.

ii. Long term Employee Benefits:

The cost of providing long term employee benefit such as earned leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. The expected costs of the benefit is accrued over the period of employment using the same methodology as used for defined benefits post employment plans. Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit and Loss in which they arise except those included in cost of assets as permitted. The benefit is valued annually by an independent actuary.

iii. Post Employment Benefits:

The Group provides the following post employment benefits:

- i) Defined benefit plans such as gratuity; and
- ii) Defined contributions plans such as provident fund.

iv. Defined benefits Plans:

The cost of providing benefits on account of gratuity are determined using the projected unit credit method on the basis of actuarial valuation made at the end of each balance sheet date, which recognises each period of service as given rise to additional unit of employees benefit entitlement and measuring each unit separately to build up the final obligation. The yearly expenses on account of these benefits are provided in the books of accounts.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss except those included in cost of assets as permitted.

Re-measurements comprising of actuarial gains and losses arising from experience adjustments and change in actuarial assumptions, the effect of change in assets ceiling (if applicable) and the return on plan asset (excluding net interest as defined above) are recognized in other comprehensive income (OCI) except those included in cost of assets as permitted in the period in which they occur. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements) is recognized in the Statement of Profit and Loss except those included in cost of assets as permitted in the period in which they occur.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020**v. Defined Contribution Plans:**

Payments to defined contribution retirement benefit plans, viz., Provident Fund for eligible employees, and Superannuation benefits are recognized as an expense when employees have rendered the service entitling them to the contribution.

16) Taxes on income:

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

a) Current tax:

Current tax includes provision for Income Tax computed under Special provision (i.e., Minimum alternate tax) or normal provision of Income Tax Act. Tax on Income for the current period is determined on the basis on estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments/appeals.

b) Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unabsorbed losses and unabsorbed depreciation to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, unabsorbed losses and unabsorbed depreciation can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

17) Earnings per Share:

Basic earnings per share is calculated by dividing the profit from continuing operations and total profit, both attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the period.

For calculating diluted earnings per share the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

18) Current versus non-current classification:

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification.

a) An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

b) A liability is current when:

- It is expected to be settled in the normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

All other liabilities are classified as non-current.

c) Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

19) Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of asset and liability if market participants would take those into consideration. Fair value for measurement and / or disclosure purposes in these financial statements is determined in on such basis except for inventories, leases and value in use of non- financial assets. Normally at initial recognition, the transaction price is the best evidence of fair value.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Financial assets and Financial liabilities that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

20) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Group.

21) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Group recognizes a financial asset or financial liability in its balance sheet only when the entity becomes party to the contractual provisions of the instrument.

a) Financial Assets:

A financial asset inter-alia includes any asset that is cash, equity instrument of another entity or contractual obligation to receive cash or another financial asset or to exchange financial asset or financial liability under condition that are potentially favorable to the Group.

Investments in subsidiaries:

Investments in equity shares of subsidiaries are carried at cost less impairment. Impairment is provided for on the basis explained in Para C (3) above.

Financial assets other than investment in subsidiaries:

Financial assets of the Group comprise trade receivable, cash and cash equivalents, Bank balances, Investments in equity shares of companies other than in subsidiaries, investment other than equity shares, loans/advances to employee/related parties/others, security deposit, claims recoverable etc.

Initial recognition and measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss. Where transaction price is not the measure of fair value

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

and fair value is determined using a valuation method that uses data from observable market, the difference between transaction price and fair value is recognized in Statement of Profit and Loss and in other cases spread over life of the financial instrument using effective interest method.

Subsequent measurement:

For purposes of subsequent measurement financial assets are classified in three categories:

- Financial assets measured at amortized cost
- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss

Financial assets measured at amortized cost:-

Financial assets are measured at amortized cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are amortized using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognized in the Statement of Profit and Loss in finance costs.

Financial assets at fair value through OCI (FVTOCI):-

Financial assets are measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At initial recognition, an irrevocable election is made (on an instrument-by-instrument basis) to designate investments in equity instruments other than held for trading purpose at FVTOCI. Fair value changes are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the income statement. On derecognition of the financial asset other than equity instruments, cumulative gain or loss previously recognised in OCI is reclassified to income statements.

Financial assets at fair value through profit or loss (FVTPL):-

Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as financial assets at fair value through profit or loss. Further, financial assets at fair value through profit or loss also include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets at fair value through profit or loss are fair valued at each reporting date with all the changes recognized in the Statement of Profit and Loss.

Derecognition:

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay.

Impairment of financial assets:

The Group assesses impairment based on expected credit loss (ECL) model on the following:

- Financial assets that are measured at amortised cost.
- Financial assets measured at fair value through other comprehensive income (FVTOCI).

ECL is measured through a loss allowance on a following basis:

- The 12 month expected credit losses (expected credit losses that result from those default events on the financial instruments that are possible within 12 months after the reporting date)
- Full life time expected credit losses (expected credit losses that result from all possible default events over the life of financial instruments)

The Group follows 'simplified approach' for recognition of impairment on trade receivables or contract assets resulting from normal business transactions. The application of simplified approach does not require the Group to track changes in credit risk. However, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, from the date of initial recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

For recognition of impairment loss on other financial assets, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has increased significantly, lifetime ECL is provided. For assessing increase in credit risk and impairment loss, the Group assesses the credit risk characteristics on instrument-by-instrument basis.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

Impairment loss allowance (or reversal) recognized during the year is recognized as expense/income in the Statement of Profit and Loss.

b) Financial Liabilities:

The Group's financial liabilities include loans and borrowings including book overdraft, trade payable, accrued expenses and other payables.

Initial recognition and measurement:

All financial liabilities at initial recognition are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss depending upon the level of fair value.

Subsequent measurement:

The subsequent measurement of financial liabilities depends upon the classification as described below:-

- Financial Liabilities classified as Amortised Cost
- Financial Liabilities that are not held for trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective Interest Rate. Interest expense that is not capitalised as part of costs of assets is included as Finance costs in the Statement of Profit and Loss.

Financial Liabilities at Fair value through profit and loss (FVTPL):-

- FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities have not been designated upon initial recognition at FVTPL.

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged / cancelled / expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments:

Financial assets and Financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

c) Derivatives

Derivative instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument and is recognised in Other Comprehensive Income (OCI). Cash flow hedges shall be reclassified to profit or loss as a reclassification adjustment in the same period or periods during which the hedged expected future cash flows affect profit or loss. If hedge of a forecast transaction results in the recognition of a non-financial asset or a non-financial liability, then the gain or loss that are accumulated in the cash flow hedge reserve is recognised in the initial cost or other carrying amount of the asset or liability (this is also referred to as "Basis Adjustment").

22) Recent accounting pronouncements:

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards. There is no such notification issued prior to March 31, 2020 which would have been applicable from April 1, 2020.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

NOTE- 29: EXCEPTIONAL ITEMS

On January 1, 2019, a fire broke out in one of the production units of the Holding Company at Vapi resulting in loss of assets comprising of inventories, building, plant & machinery and other fixed assets.

These assets were adequately insured on reinstatement basis, the book value of these assets at Rs. 618.78 Lacs on the date of claim was duly debited to the Statement of Profit and Loss and same was disclosed as an Exceptional item in FY 2018-19.

During the current year i.e. FY 2019-20, the Holding Company received Rs. 806.71 Lacs from Insurance Company as part settlement of claim and Rs. 52.71 Lacs towards scrap realisation on disposal of damaged assets and the same has been disclosed as Extraordinary Income.

The reinstatement of some of these assets is still in progress and the balance claim is expected to be finalised once the reinstatement is completed.

NOTE- 30: CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued capital and other equity reserves, long term funds attributable to the Equity Shareholders of the Group. The primary objective of the Group's Capital Management is to maximise shareholders value and keep the debt equity ratio within acceptable range. The Group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Group monitors capital using adjusted net debt to equity ratio. For this purpose, Group's adjusted net debt and its equity position is as follows.

	Rupees in Lacs	
	As at March 31, 2020	As at March 31 2019
Non-current long term borrowings	20.06	63.45

Adjusted net debt	(12,475.56)	(8,627.90)
Total equity	44,480.55	40,124.61
Adjusted net debt to equity ratio	(0.28)	(0.22)

NOTE- 31: FINANCIAL RISK MANAGEMENT

The Group's activities expose it to various financial risks, including market risk, credit risk and liquidity risk. The Group's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Group by setting appropriate limits and controls and monitoring such risks. The policies and processes are reviewed regularly to reflect changes in market conditions and the Group's activities.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations leading to a financial loss. The Group is exposed to credit risk arising from its operating (primarily trade receivables) and investing activities including deposits placed with banks.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed through close monitoring of receivables and having a strict control on allowing the credit period to customers. Additionally, the Company does not have any significant concentration of exposures to specific industry sectors or specific country risks.

The Group limits its exposure to credit risk for investments by generally investing in Fixed Deposits and only with counterparties that have a good credit rating.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

Considering that significant part of Group's sales in Surface Finishings division is either with established dealer network where payments are generally in advance/cash on delivery or with direct customers wherein credit worthiness as well as credit limits, wherever possible, are closely monitored on a case to case basis by Management, Group expects a low probability of default on Trade receivables as on March 31, 2020. Going forward Management has factored in the uncertainties for deliveries subsequent to March 31, 2020.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

LIQUIDITY RISK

Liquidity Risk is the risk that the Group will not be able to meet the financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both, normal and stressed conditions, without incurring unacceptable losses or risk to the Group's reputation.

The Group has unutilised working capital limits from banks of Rs. 8,687 Lacs as on March 31, 2020 (Rs. 7,575 Lacs as on March 31, 2019), cash and cash equivalents of Rs. 3,345.08 Lacs as on March 31, 2020 (Rs. 3,868.47 Lacs as on March 31, 2019) and in Fixed deposits of Rs. 11,595.63 Lacs as on March 31, 2020 (Rs.7,378.05 Lacs as on March 31, 2019). Therefore, Group does not expect any material Liquidity risk.

With significant investments in Fixed deposits, Cash in hand and available borrowing lines as mentioned above, the Group does not envisage any material effect on its liquidity.

The table below provides details regarding the contractual maturities of significant financial liabilities

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk includes investments, trade payables, trade receivables and loans.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Group has insignificant interest bearing borrowings, the exposure to risk of changes in market interest rates is minimal.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The Group generally enters into forward exchange contracts to hedge its foreign currency exposures for imports wherever required.

The carrying amounts of the Group's foreign currency denominated monetary items are as follows:

Currency	Rupees in Lacs			
	Liabilities		Assets	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

The table below demonstrates the sensitivity to a 1% increase or decrease in the Foreign Currency against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Group as at the reporting date. 1% represents management's assessment of reasonably possible change in foreign exchange rate.

Rupees in Lacs

Change in rate	Liabilities		Assets	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019

-1%	347.19	867.59	676.20	1,304.24

Other price risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from financial assets such as investments in equity instruments and bonds.

The Group does not have significant investments in Quoted shares. Hence the 10% price sensitivity upward/downward will not have any material impact on the profitability of the Group.

B. Measurement of fair values

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used:

Financial instruments measured at fair value

Type	Valuation technique
Forward contracts for foreign exchange contracts	Forward pricing : The fair value is determined using quoted forward exchange rates at the reporting date and present value calculations based on high credit quality yield curves in the respective currencies.
Non current financial assets / liabilities measured at amortised cost	Discounted cash flow technique : The valuation model considers present value of expected payments discounted using an appropriate discounting rate.

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

Previous year figures are in brackets.

H. The Group is closely monitoring the impact of COVID-19 pandemic on its business operations. Whilst reduced off-take from customers due to curtailed production volumes at their end and challenges of manpower availability are likely to have impact on its surface finishing's business segment for some time to come, significantly curtailed mall operations with only a few take-away food counters operating from it along with some sections of a multi-retail chain store are significantly impacting Group's shoppertainment business segment.

The Group however, believes that the impact of COVID-19 is likely to be short term in nature. With its multi-locational operations spread across multiple business segments and other proactive steps taken by Group, no medium to long term risks is anticipated by Group in its ability to meet its liabilities as and when they fall due impacting going concern.

The situation created by Covid-19 continues to hold some uncertainties for the future and in view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent period is highly dependent upon circumstances as they evolve.

I. Previous Years figures have been regrouped and reclassified wherever required.
