MANAGEMENT DISCUSSION & ANALYSIS

Industry Structure & Developments

Hercules Hoists Limited ("HHL") was engaged in the business of manufacturing, sales, distribution, and marketing of mechanical hoists, electric chain hoists, wire rope hoists, and other material handling equipment. In addition, the Company has also made investments in various mutual fund schemes and equity instruments.

Pursuant to a strategic restructuring initiative, the Hon'ble National Company Law Tribunal (NCLT), vide its order dated August 2, 2024, approved the Scheme of Demerger between HHL and its wholly owned subsidiary Indef Manufacturing Limited ("IML"), along with their respective shareholders. Under this Scheme, the manufacturing business of HHL was transferred to IML.

This restructuring aims to:

- Unlock value and enhance the scope of work for both HHL and IML, enabling them to attract new investors, joint ventures, technology partners, and potential merger or acquisition opportunities;
- Increase operational flexibility and strengthen the ability of both companies to focus on their respective business activities, thereby enhancing their future growth potential;
- Allow the respective management teams to independently pursue growth strategies and collaborations;
- Transfer and vest the manufacturing undertaking, along with related assets and liabilities, from HHL to IML;
- Cancel shares held by HHL in IML and allot equity shares of IML to HHL's shareholders on a 1:1 basis; and
- Facilitate the listing of IML on The Bombay Stock Exchange Limited and National Stock Exchange of India Limited.

Following the demerger, HHL continues to focus on its investment activities. The Company's investments, both listed and unlisted, are held primarily for long-term appreciation and are considered strategic in nature rather than for trading purposes. The Directors expect these investments to generate value over the medium to long term, supporting operating income and dividend distribution.

HHL's investment strategy is driven by a structured process that includes internal analysis, market research, and alignment with both global and domestic macroeconomic conditions.

This restructuring is a significant development that positions HHL and IML to independently pursue focused growth strategies aligned with their core activities.

Opportunities and Threats:

The World Economic Outlook Report of April 2024 from IMF describes the Global Economic situation as “Steady but Slow”. It says as global inflation has descended from its mid-2022 peak, economic activity has grown steadily. Growth in employment and incomes have held steady, resulting in increased consumption demand. The unexpected growth in consumption is a residual effect of the substantial savings accumulated by households during the pandemic.

The IMF projects India's economy to grow by 6.2% in 2025 and 6.3% in 2026, according to its April 2025 World Economic Outlook. This growth projection makes India the fastest-growing major economy, outpacing global and regional peers, including China and the United States. Global growth, estimated to continue at the same pace in 2024 and 2025. Global headline inflation is expected to fall to 5.9 percent in 2024 and 4.5 percent in 2025. Indian economy remains resilient with elevated inflation.

The IMF's forecast for India's growth is supported by factors like macroeconomic stability, financial stability, strong digital infrastructure, and a robust government infrastructure program. While the 2025 forecast saw a slight downward revision due to global trade tensions and uncertainty, the overall outlook remains positive, highlighting India's economic resilience.

Oil prices fell to a four year low due to United States and China Trade War, it could depress economic growth and oil demand. Further the Organization of the Petroleum Exporting Countries (OPEC) decided to boost oil output by more than previously expected.

On May 7, 2025, India launches attack on Pakistan after pahalgam terrorist attack. Clashes between two countries were continued till ceasefire was announced between them. The estimated cost of the war ranged from \$180 million to \$600 million per day.

Outlook

Following the approval and implementation of the Scheme of Demerger, Hercules Hoists Limited ("HHL") has become a non-registered Core Investment Company. Going forward, the management's focus will be on strengthening the Company's investment portfolio.

HHL aims to enhance its earnings primarily through income generated from dividends, interest, and capital appreciation on its investment holdings. The Company will continue to adopt a prudent and strategic approach in managing its investments, with the objective of creating sustainable long-term value for its shareholders.

The management remains optimistic about leveraging market opportunities and navigating economic conditions to optimize returns from its portfolio, thereby supporting steady growth in operating income and dividend distributions, but strictly through compliances of CIC norms

Risks and Concerns

In today's dynamic and often volatile global business environment, unforeseen risks can significantly impact companies across sectors. Recognizing this, Hercules Hoists Limited has adopted a proactive risk management and mitigation framework to effectively identify, assess, and manage potential risks.

The Risk Management Committee plays a vital role in assisting the Board of Directors by continuously reviewing and analyzing the Company's risk exposures. This committee ensures that appropriate risk mitigation measures are in place and monitors their effectiveness.

Regular periodic diligence is conducted to evaluate emerging risks and vulnerabilities. Based on these assessments, the Committee recommends corrective actions and process improvements, which are then implemented with oversight from the Board.

This structured and ongoing approach to risk management enables the Company to remain resilient and agile, safeguarding stakeholder interests and supporting sustainable business continuity.

Internal control systems and their adequacy.

The Company upholds robust internal control systems tailored to its scale and business operations. In reinforcement of these endeavors, we have engaged a reputable internal audit firm. Oversight of the audit process is diligently conducted by both the audit committee and the Board, ensuring the effectiveness of internal control systems and adherence to regulatory standards.

Our management takes a proactive approach in rectifying any identified gaps or areas for improvement, swiftly implementing corrective measures based on recommendations from both the internal auditor and the audit committee.

Through a steadfast commitment to transparency and accountability, we uphold the highest standards of corporate governance, safeguarding the integrity of our operations.

Discussion on financial performance with respect to operational performance

The Company is an Unregistered Core Investment Company (CIC) and, as such, does not engage in any operational or manufacturing activities. Its primary business activity involves holding investments in group companies and providing strategic support, including financial assistance strictly within the Group, as and when required.

As a result, there is no direct correlation between financial performance and operational metrics, since the Company does not generate revenue from operations in the conventional sense. The financial performance during the year is primarily influenced by:

- Dividend income received from investments,
- Interest income from loans and advances extended to group companies,
- Interest income from Fixed Deposits in Bank(s) or Debt Instruments invested in Sovereign Government Securities
- Fair valuation of investments in Group Companies, and
- Any impairment or provisioning in respect of investments or loans.

For the financial year under review, the Company's financial results reflect the performance of its investment portfolio and treasury operations. Given the passive nature of its business model, operational performance indicators such as production volume, capacity utilization, or cost of goods sold are not applicable.

Material Development in Human Resources / Industrial Relations front:

The HHL after sanction of scheme has become a Unregistered Core Investment Company (CIC) and has transferred its significant human resource to Indef Manufacturing Limited (IML). However, the HHL places significant importance on the welfare of its employees, reflecting the strength and stability of the Company. The Company continuously strives to enhance HR processes, including recruitment, performance management, learning and development, workforce planning, and employee welfare. Hercules Hoist Limited fosters a work environment that champions performance, role clarity, cooperation, and mutual respect, backed by significant investments aimed at enriching the lives of its employees. Through this culture, the Company nurtures a sense of unity, valuing each employee for their skills and expertise.

Over the years, Hercules Hoist Limited has built a dedicated team by fostering a nurturing environment, providing comprehensive training, implementing robust talent management practices, and acknowledging performance. Furthermore, Hercules Hoist Limited is committed to empowering its team to achieve their personal goals and contribute their best towards organisational objectives. As of 31st March, 2025, the Company's team comprises of 2 employees.

Details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios, along with detailed explanations therefor, including

As the Company is an Unregistered Core Investment Company (CIC) and does not have any operational business, the conventional financial ratios are not applicable to the Company.

The Company does not have revenue from operations, trade receivables, inventories, or borrowings that would require computation of these ratios. Hence, there have been no significant changes in such ratios as compared to the previous financial year, and no such ratios are disclosed.

The financial performance of the Company is largely dependent on dividend and interest income from fixed deposits and fair valuation of investments in liquid mutual funds, which do not lend themselves to conventional ratio analysis.

Details of any change in Return on Net Worth as compared to the immediately previous financial year along with a detailed explanation thereof

The Company's investments are held under the Fair Value through Other Comprehensive Income (FVOCI) category in accordance with applicable accounting standards.

During the year under review, there has been no material change in the Return on Net Worth as compared to the immediately preceding financial year. The marginal fluctuations observed are attributable to changes in the market value of the Company's investments, which are primarily in listed Bajaj Group companies.

These changes are purely market-driven and reflect movements in the share prices of the underlying investee companies. As the Company follows a conservative investment strategy, with a minor portion (less than 2%) of the total portfolio held in liquid mutual funds and fixed deposits for meeting day-to-day operational expenses, the overall impact on Return on Net Worth due to such short-term investments is negligible.

Given the nature of the Company as a Core Investment Company, and in the absence of any operational revenue or leverage, the Return on Net Worth does not reflect operational performance but rather the market performance of its strategic investment portfolio.

Disclosure of Accounting Treatment

During the year ended 31st March 2025, the Company implemented the Scheme of Arrangement involving the demerger of the Demerged Undertaking of Hercules Hoists Limited (HHL) ("Demerged Entity") into Indef Manufacturing Limited (IML) ("Resulting Entity"), pursuant to the necessary regulatory and shareholder approvals.

In accordance with the Scheme, the accounting for the demerger has been carried out using the Pooling of Interest method, as prescribed under Appendix C to Ind AS 103 – Business Combinations, applicable to combinations of entities under common control.

As required by the accounting standards, this treatment has been applied retrospectively, and the corresponding figures for the previous financial year have been restated to reflect the impact of the demerger in a consistent manner. The financial statements, therefore, present a comparable view of the Company's financial position and performance.

The Company confirms that the accounting treatment followed for the Scheme of Arrangement is in compliance with the applicable Indian Accounting Standards (Ind AS) notified under the Companies Act, 2013 and other relevant accounting principles generally accepted in India.

Cautionary Statement and Safe Harbor:

Statements in the Management Discussion and Analysis, describing the Company's growth prospects, are forward-looking statements. The actual results may vary, depending upon economic conditions, raw-material prices, government policies,

regulations, tax laws and other incidental factors since such factors may influence markets and in turn the investments portfolio of HHL.

Responsibilities of Management and Those charged with Governance for the Financial Statements

The Company's management and the Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, the financial performance, the changes in equity and the cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a

material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 2(f) of 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls over financial reporting of **HERCULES HOISTS LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the

auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

On 27 May 2025, Audit Committee and Board of Directors of the Company approved and recommended the financial statements for consideration and adoption by the shareholders in its Annual General Meeting.

2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Basis Of Preparation Of Financial Statement

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) read together with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time, other relevant provisions of the Act and the RBI guidelines/regulations to the extent applicable on an accrual basis (other than Statement of Cash Flows).

The financial statements are prepared on a going concern basis as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and financial liabilities that are measured at fair value.

The financial statements are presented in Indian Rupee (INR), which is also the Company's functional currency and all values are rounded off to the nearest Lakhs (INR 00,000) with two decimals as permitted by Schedule III to the Act, except when otherwise indicated.

The financial statements were authorized for issue by the Company's Board of Directors as on May 27, 2024.

i) Historical cost convention

The Company follows the mercantile system of accounting and recognizes income and expenditure on an accrual basis. The financial statements are prepared under the historical cost convention, except in case of significant uncertainties and except for the following:

- (a) Certain financial assets and liabilities (Including Derivative Instruments) that are measured at fair value;
- (b) Defined benefit plans where plan assets are measured at fair value.
- (c) Investments are measured at fair value.

ii) Current and Non Current Classification.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of business and the time between the acquisition of assets for investing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

(B) Presentation of financial statements

The Company prepares and presents its Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the format prescribed by Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only where it has legally enforceable right to offset the recognised amounts and the Company intends to either settle on a net basis or to realise the asset and settle the liability simultaneously as permitted by Ind AS. Similarly, the Company offsets incomes and expenses and reports the same on a net basis where the netting off reflects the substance of the transaction or other events as permitted by Ind AS.

(C) Summary of material accounting policies

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

(D) Revenue recognition Income

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery

a. Interest income

Interest income from debt instruments is recognised using the Effective Interest Rate (EIR) method. Financial assets invested in group securities are subsequently measured either at amortised cost or at fair value through Other Comprehensive Income (FVOCI). Financial assets invested in non-group securities are subsequently measured either at amortised cost or at fair value through Profit or Loss (FVTPL).

The EIR is the rate that exactly discounts the estimated future cash flows over the expected life of the financial asset to its gross carrying amount. While determining the EIR, the Company considers all contractual terms of the instrument, including fees and transaction costs, but excludes any expected credit losses.

The EIR (and, consequently, the amortised cost of the asset) is determined by incorporating any discount or premium on acquisition, as well as fees and costs that are integral to the instrument. Interest income is then recognised using this EIR, which represents the best estimate of a constant rate of return over the instrument's expected life.

Interest on financial assets subsequently measured at fair value through Profit or Loss (FVTPL) is recognised at the contractual rate of interest.

b. Dividends

Dividends are recognised in the Statement of Profit and Loss only when the right to receive income is established.

(E) Property, plant and equipment and depreciation Property, plant and equipment (PPE)

The Company had elected to continue with carrying value of all PPE as the deemed cost of PPE i.e. historical cost. PPE are stated at acquisition or construction cost less accumulated depreciation and impairment losses, if any. Land is carried at cost of acquisition

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred.

Depreciation

Depreciation on PPE is provided on straight-line method using the rates arrived at based on the useful lives as specified in the Schedule II of the Companies Act, 2013. Leasehold improvements are depreciated over the period of lease terms.

Impairment of non financial assets

An assessment is done at each Balance Sheet date as to whether there are any indications that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/Cash Generating Unit (CGU) is made. Where the carrying value of the asset/CGU exceeds the recoverable amount, the carrying value is written down to the recoverable amount.

(F) Investment properties

Land and buildings, if applicable, which are held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment properties. Investment properties are measured initially at its cost, including related transaction costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are expensed when incurred. Depreciation on investment properties are provided on a pro rata basis on straight line method over the estimated useful lives. Useful life of assets, as assessed by the Management, corresponds to those prescribed by Schedule II of the Companies Act, 2013.

Impairment of non financial assets

An assessment is done at each Balance Sheet date as to whether there are any indications that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/Cash Generating Unit (CGU) is made. Where the carrying value of the asset/CGU exceeds the recoverable amount, the carrying value is written down to the recoverable amount

(G) Investments and financial assets

a. Recognition and initial measurement

Financial assets are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. All financial assets are recognised initially at fair value. Further, in the case of financial assets not recorded at fair value through profit or loss, transaction costs, that are attributable to the acquisition of the financial asset, are added to the fair value.

b. Subsequent measurement

Subsequent measurement of financial assets depends on the Company's business model for managing the financial asset and the cash flow characteristics of the financial asset.

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at amortised cost
- those to be measured subsequently at fair value through profit or loss (FVTPL), and
- those to be measured subsequently at fair value through other comprehensive income (FVOCI),

The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets classified as 'measured at fair value', gain/(loss) will either be recorded in profit or loss or other comprehensive income, as elected. For assets classified as 'measured at amortised cost', this will depend on the business model and contractual terms of the cash flows.

c. Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment

If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

d. The SPPI test (Solely Payments of Principal and Interest)

As a second step of its classification process, the Company assesses the contractual terms of financial instruments to identify whether they meet the SPPI test.

As part of its classification process under Ind AS 109, the Company assesses the contractual terms of financial assets to determine whether they meet the criteria for Solely Payments of Principal and Interest (SPPI).

For this purpose, 'Principal' is defined as the fair value of the financial asset at initial recognition, which may vary over the life of the asset. 'Interest' refers to consideration for the time value of money, credit risk associated with the principal amount outstanding during a specified period, and other basic lending risks and costs, including a reasonable profit margin.

e. Subsequently measured at amortised cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost e.g. debentures, bonds, certificate of deposits, open ended target maturity funds etc. A gain/ (loss) on a financial asset that is subsequently measured at amortised cost is recognised in the Statement of Profit and Loss when the asset is derecognised or impaired. Interest income from these financial assets is included in investment income using the effective interest rate method.

f. Subsequently measured at FVTPL

Financial assets that do not meet the criteria for amortised cost and FVOCI, are measured at FVTPL e.g. investments in mutual funds. A gain/(loss) on a financial asset that is subsequently measured at FVTPL is recognised in profit or loss and presented net in the Statement of Profit and Loss with other gain/(loss) in the period in which it arises.

g. Equity instruments subsequently measured at FVOCI

The Company subsequently measures all equity investments at FVTPL, unless the Company's Management has elected to classify irrevocably some of its equity investments as equity instruments at FVOCI, when such instruments meet the definition of equity under Ind AS 32 Financial Instruments: Presentation. Such classification is determined on an instrument-by-instrument basis.

Gain/(loss) on these equity instruments is never recycled to Statement of Profit and Loss. Dividends are recognised in Statement of Profit and Loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gain is recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

h. Debt instruments subsequently measured at FVOCI

Debt instruments such as Government securities, corporate debentures and alternate investment funds are measured at FVOCI when both of the following conditions are met:

- The instrument is held within a business model, the objective of which is both collecting contractual cash flows and selling financial assets;
- The contractual terms of the financial asset meet the SPPI test.

Movements in the carrying amount are taken through OCI, except for the recognition of impairment gain/(loss) and interest income which are recognised in profit and loss.

i. Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.

Since the Company makes investments in highly rated fixed income securities, which are categorised as 'subsequently measured at amortised cost', the risk parameters such as tenor, the probability of default corresponding to the credit rating by rating agency (viz. CRISIL, ICRA), for each of these instruments is considered in estimating the probable credit loss over life time of such securities.

ECL impairment loss allowance (or reversal) is recognised during the period only if material and is recognised as income/expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

j. Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line.

k. Derecognition of financial assets

A financial asset is derecognised only when:

- The rights to receive cash flows from the asset have expired or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either: (a) the Company has transferred substantially all the risks and rewards of the asset; or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the assets

Any gain or loss on derecognition of FVTPL assets are recognised directly in Statement of Profit and Loss account, whereas for FVOCI assets, they are transferred to the Statement of Profit and Loss account in the case of debt instruments, and transferred to retained earnings without affecting the Statement of Profit and Loss account in the case of designated equity instruments.

(H) Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. Financial liabilities at FVTPL are measured at fair value and net gain and loss, including any interest expense, are recognised in Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Interest expense and foreign exchange gain and loss are recognised in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in the Statement of Profit and Loss.

a. Recognition and initial measurement

All financial liabilities are recognised initially at fair value and, in the case of payables, net of directly attributable transaction costs.

b. Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Any gain or loss arising on derecognition of liabilities are recognised in the Statement of Profit and Loss.

c. Derecognition

The Company derecognises financial liability when the obligation under the liability is discharged, cancelled or expired and are finally recognised in Statement of Profit and Loss

(I) Employee benefits

Short-term employee benefits and defined contribution plan

Liabilities for salaries, including non-monetary benefits and accumulating leave balance in respect of employees' services up to the end of the reporting period, are recognised as liabilities (and expensed), and are measured at the amounts expected to be paid when the liabilities are settled.

(J) Taxation

a. Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

b. Deferred tax

Deferred tax is recognized for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are measured using tax rates and laws that are enacted or substantively enacted at the reporting date and that are expected to apply in the period when the asset is realized or the liability is settled.

The Company reviews the carrying amount of deferred tax assets at each reporting date and reduces it to the extent that it is no longer probable that sufficient taxable profit will be available for full utilization.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities, and the deferred tax relates to the same taxable entity under the same taxation authority.

(K) Provisions, Contingent liabilities and Contingent assets

The Company creates a provision when there is present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When the likelihood of outflow of resources is remote, no provision or disclosure is made.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Assets are disclosed, where an inflow of economic benefits is probable.

(L) Dividends on equity shares

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised.

(M) Fair value measurement

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into Level 1, Level 2 and Level 3 based on the lowest level input that is significant to the fair value measurement as a whole. [See note 24].

(N) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortization, where appropriate.

(O) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes outstanding bank overdraft shown within current liabilities in statement of financial balance sheet and which are considered as integral part of company's cash management policy.

(P) Intangible assets

- (i) An intangible asset shall be recognised if, and only if: (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and (b) the cost of the asset can be measured reliably.
- (ii) Cost of technical know-how is amortised over a period of six years.
- (iii) Computer software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and costs of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use. The same is amortised over a period of 5 years on straight-line method.

(Q) Leases

(i) As a lessee

As a lessee, the Company previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Company. Under Ind AS 116, the Company recognizes right of use assets and lease liabilities for most leases i.e. these leases are on balance sheet.

On transition, the Company has applied following practical expedients:

- > Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with similar end date.
- > Applied the exemption not to recognise right-of-use-assets and liabilities for leases with less than 12 months of lease term on the date of transition.
- > Excluded the initial direct costs from the measurement of the right-of-use-asset at the date of transition.
- > Grandfathered the assessment of which transactions are, or contain leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.
- > Relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review.
- > Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

(ii) As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

(R) Earnings per share

(i) Basic earnings per share (EPS)

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the Company, excluding any income or expenses related to non-controlling interests.
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

EPS reflects the performance of investments in group entities, ensuring transparency in financial reporting and regulatory compliance.

(ii) Diluted Earnings Per Share

ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares; and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

Diluted EPS calculations ensure accurate representation of potential equity dilution, maintaining compliance with Ind AS 33
