About this Report

Our Approach to Reporting

Home First Finance Company India Limited (HomeFirst) is publishing its first Integrated Annual Report for FY 2022 to provide a holistic assessment of its financial as well as non-financial performance. Through this report, we strive to provide enhanced disclosures to meet the requirements of our stakeholders.

Reporting Principle

The financial and statutory data forming part of this report are in line with the requirements of:

- The Companies Act, 2013 (including the rules made thereunder),
- The Indian Accounting Standards,
- The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The report has been prepared in accordance with the framework prescribed by the International Integrated Reporting Council (IIRC) and also contains disclosures as per the Global Reporting Initiative (GRI) Standards: Comprehensive option relevant to HomeFirst and United Nations Sustainable Development Goals (UN SDGs).

Reporting Period

The Integrated Annual Report FY2022 is an annual publication for the period April 1, 2021 to March 31, 2022.

Materiality & Scope & Boundary

The Integrated Annual Report FY2022 includes information that is material to HomeFirst's stakeholders and provides an overview of the business processes and activities that assist in long term value creation. HomeFirst also shares insights about the strategic priorities, business model, risks and mitigants. The reporting boundary covers overall environmental, social and economic performance of HomeFirst across 80 physical branches and its Head office and other offices in Mumbai.

Independent Assurance

The quality of information content in the report is prepared in consultation with, and reviewed by internal stakeholders. This Report covers financial and non-financial information and activities of Home First Finance Company India Limited for the period April 1, 2021 to March 31, 2022. While the financial information has been audited by Deloitte Haskins & Sells, Chartered Accountants, the select non-financial information as referred to in the assurance report has been assured by Price Waterhouse Chartered Accountants LLP. This non-financial assurance report is in accordance with the limited assurance criteria of the International Standards on Assurance Engagements (ISAE) 3000 Revised. The assurance criteria, methodology and conclusion are presented in the assurance report. The assurance report is available on page no. 302.

Theme of the Report

'The Land of Opportunities' is a title that one normally associates with the USA, but India is fast emerging as a strong contender to seizing this title. We are making significant contributions toward world prosperity and resilience. Our progress in key sectors like Infrastructure, Energy, Healthcare, and Technology is becoming a model for the other developing nations. As India works towards creating a stronger domestic economy, the focus would be on nurturing local businesses and scaling them up.

At HomeFirst, we are excited about the huge opportunity in housing finance! Housing will remain a fundamental need for citizens of a fast growing country and the demand for housing will increase multi-fold as India

moves from a low-middle income economy to an upper-middle-income economy over the next decade. We at HomeFirst are at a juncture where we are ready to seize the day.

We have developed a differentiated approach to home finance, that is centred on customer centricity, design thinking, use of technology, and prudence. Our mobile first approach, digital processes and industry leading turnaround times set us apart from traditional players. We will continue to build on our strengths and sharpen our edge to capture a large share of the emerging opportunities.

Sustainable Building Design

A sustainable building design is fundamental to making a home a Green home. The primary objective here is to incorporate climate-friendly measures in the design stage itself. Thus, reducing the need for artificial lighting during daytime and artificial heating or cooling depending on the seasons. Rooms are brighter and airy in such designs; roofs are treated with High SRI paints to keep the heat away and it becomes cost-effective in the long run. Residential units that use lesser energy while maintaining occupants' comfort are ideal Green homes!

Solar Reflective Index (SRI) is important to understand when selecting a highly reflective roof coating that will help lower energy cooling costs. Highest SRI Value Paint is 130 In India. It saves electricity up to 30%. Cools up to 22 Degrees on the surface and between 4-8 Degrees inside.

HomeFirst at a Glance

Mani is a lathe operator in a small factory earning ₹20,000 every month. His wife teaches in a primary school and earns ₹15,000 per month. They do not have salary slips or other documents to prove their income. Can they get a housing loan of ₹10 lakhs to build a house on a piece of land that they have inherited from their parents? A decade ago, the answer would have been NO.

A decade ago, Mani and other such customers in this segment did not have access to formal lending due to various factors. Some did not have the necessary paperwork to support their income. Some found the loan application process and jargon too intimidating.

Most applications never saw the light of day because customers were unable to clearly articulate their requirements.

These were the challenges that gave birth to the idea of "HomeFirst" in 2010. Our goal was to make the home loan process simple and give first time homeowners a fast yet customized solution - to deliver an ordinary home loan wrapped with extraordinary customer service.

Since inception, we have stayed true to our mission, and have grown into a leading affordable housing finance company in the country.

Chairman's Statement

We have built a profitable business model which will grow larger through a calibrated expansion strategy, focus on the quality of the book and a diversified lender base"

Deepak Satwalekar

Chairman / Independent / Non-Executive Director

It provides me great pleasure in writing to you to share my thoughts. Let me first place on record my heartfelt gratitude to all stakeholders for their support through the times of Covid disruption we have all faced and for coming out stronger.

While it was a huge relief for all of us to witness the reducing impact of the Covid over the last few months of the Financial Year and seeing a degree of normality returning, we cannot afford to ignore all precautions to ensure that the pandemic does not rear its unpleasant head again. The cost in human terms, as also economic terms is too large to bear again. Several steps taken by the Government and the Regulators have helped in a faster revival of the economy.

However, the recent events in Eastern Europe have cast a shadow over the global economies and further exacerbated the commodity pricing. Oil prices are at an all time high which will impact transportation and supply chain costs. The loose purse strings of the various Central Banks over the past few years, while battling the impact of Covid, has now led to inflation of prices across the board as demand has risen while supply has not kept pace. We are beginning to see the interest rates hardening globally and should see that in India too as the RBI is moving away from a dovish stance.

India's mortgage to GDP penetration is relatively very low compared with other countries and hence growth prospects for housing finance in India remain bright. Given that the informal economy and the SME sector are still substantial and income assessment is still a major challenge for many lenders, it presents a large untapped opportunity for your Company.

Our addressable market in Affordable Housing Finance is large and expanding, contributed by an increasing middle-class population, rapid industrialization, favorable demographics, and nuclearization of families. This sector continues to receive the support of Government policies. One by-product of the pandemic has been to demonstrate that congregation of employees in offices is an idea of the past. Many companies are now adopting Work from Anywhere policies to help improve the work life balance for their employees. A result of this is the increasing demand for housing away from major metros and Tier 1 cities where the commuting time is very high. This is good news for your company and we shall spread our geographic presence to make our products and services available widely.

India has leveraged the use of technology in taking banking to the masses through the digital medium. UPI continues to drive digital payments with volumes and value increasing every month. HomeFirst has been a huge proponent of

technology use for faster turnaround, transparency as well as business scalability. The customers have adopted readily to this use of technology as it significantly improves their service experience with the company. Your Company has a continuing process improvement program as it strives to achieve best in class productivity metrics.

Your company's strong focus on financial management during the year, was acknowledged by the rating agencies which have reaffirmed their confidence in your Company. ICRA Ratings has revised the long-term outlook from "A+ Stable" to "A+ Positive". Also, in its first long term rating, "India Ratings & Research" assigned "AA- Stable". Your Company continues to have strong relations with lenders and has broadened the pool of lenders.

Your Company has crossed an important milestone of ₹ 5000 Crs AUM during FY22 in the month of Jan'22 and ended the year with an AUM of ₹5,380 Crs, a growth of 30% from Mar'21, enabling more than 60,000 customers across 13

States/UT in the country to own a home of their own. Your Company's focus on quality has resulted in the GNPA of 2.3% in line with RBI circular dated 12 Nov 2021. Prior to such classification, it stands at 1.3% (Mar'21: 1.8%).

We will continue to focus on housing finance for the middle-class population of the country by doubling our touch-points in the medium term. We have built a profitable business model which would grow larger through a calibrated expansion strategy, focus on the quality of the book and a diversified lender base.

I appreciate the support provided by all stakeholders, our regulator Reserve Bank of India (RBI), National Housing Bank (NHB), my colleagues on the Board, Lenders, Rating Agencies and our Customers. The unwavering efforts by our employees during the past 2 years under Covid disruption deserves huge appreciation.

Wish you good health and success in the new financial year.

From the desk of MD & CEO

Manoj Viswanathan

Managing Director and CEO

The year started with a severe wave 2 of Covid sweeping across the country in Q1. This time the spread was rapid and encompassed the country in just 2 months. The impact was more on health but this in turn impacted incomes temporarily. Some customers could not make their EMI payments in April and May leading to an increase in delinquencies. New origination and disbursements were also disrupted in Q1. The recovery started in June itself and was equally sharp. The revival sustained across the rest of the year with each quarter better than the previous one. The year ended on a high with all time high disbursements on the back of strong consumer demand for affordable homes, supported by meaningful reduction in delinquency. This enabled us to disburse ₹2000+ Crs as per our original plan in spite of the wave 2 related setback in Q1. As a result, our AUM has grown by 30% from ₹4,141 Crs to ₹5,380 Crs. GNPA's also came down to 1.3% (prior to RBI classification) as of Mar'22, not very far from pre-covid levels of 1%. Liquidity scenario was benign throughout the year and our funding requirement was fulfilled through a combination of 20 marquee lenders, refinance from NHB and direct assignment of our assets. Rating agencies endorsed our business, by upgrading our ratings. ICRA enhanced our rating from A+ (Stable outlook) to A+ (Positive outlook). India Ratings assigned a rating of AA- with stable outlook. All said and done, a successful end to a tenuous start.

The stress due to covid was intense and many of us were balancing personal challenges with higher pressure at work due to greater volume of collections. We experienced our own version of the 'Great Resignation' with elevated levels of

It was the worst of times and then again it was the best of times... this rewording of the old classic seems to best fit our experience in this financial year"

attrition in Q2 and Q3 adding to the workload of those who chose to remain employed with us. This small band of committed employees have created and upheld a culture of ownership that helped all of us get through the tough times and we are extremely grateful to them. We are gradually emerging as an employer of choice in the affordable housing space and this has enabled us to increase our average employee strength from 687 in FY21 to 851 in FY22.

The huge size and potential of the housing finance market in India has been proclaimed and applauded in many reports and forums. Within this universe, "affordable housing" has emerged as a rewarding sub-category that offers higher risk adjusted returns comparable to the mid and high-ticket segments. The business appears simple on the outside but has a number of nuances. Players who understand the complexity and connect the various parts of their business through a cohesive strategy will emerge winners.

Efficiency is the first part of the strategy, while the large lenders brag about their low cost to income or opex to AUM ratios, our smaller ticket size in affordable housing makes it difficult to reach those numbers. We aspire to be amongst the most efficient players in this business. In order to achieve this, we obsessively monitor the activities carried out by our employees especially those at the front-end and back-office who are handling individual transactions with the objective of eliminating or automating some of these activities. A recent example of this is the recently launched e-signature process that enables the customer to sign the loan agreement from the convenience of his home or office and

saves time for the customer as well as our customer service officers. This kind of Kaizen will increase the bandwidth of our employees to focus on value added activities like origination or collections. At present we run amongst the leanest businesses in affordable housing finance with an AUM per employee of ₹7 Cr and AUM per branch of ₹71 Cr.

Approximately 10 out of every 100 families will purchase a TW in any given year. In comparison, only 1 in every 100 families is looking to build or buy a home in a given year (in the affordable housing space). Customers in most parts of the country like to build their homes on their own plot of land. The 'apartment culture' exists only in larger towns and among the more affluent. The complexity of constructing a house overwhelms customers and generally the customer behaviour is to go ahead with the first lender to offer a loan. The market share figures are highly fragmented with most lenders holding only 1-5 % share of the market. Last mile distribution plays an important role in capturing market share. It is important to offer the product through a person who is embedded in the local ecosystem. It can be the local builder, carpenter or an insurance agent. He or she is the home loan equivalent of the omnipresent 'Kirana Store'. We are building our network of such home loan 'Connectors' who are associated with us through an app. They share leads and receive updates on the app. At present about 1500 connectors are active with us in a given quarter. India has more than 12 mn kirana stores...just saying.

The risk in the affordable housing loan business was perceived to be higher than that in the formal segment. Initially this kept away most lenders. The recent success of a few players in this segment, has created a perception in the industry that this is just like formal housing loans but with smaller ticket size and some 'informal' customer income to be assessed. This naive understanding of risk has led to its share of blowouts. Focused affordable housing players have to consider risks across many dimensions of the business such as origins and title flow of the property title, land demarcations and identifiability, impersonation, exaggeration of incomes, down payment, builder exposure etc just to mention a few and in each case, there has to be an analysis of cost vs benefit of identifying and eliminating the risk since the it is a high opex business as mentioned earlier. Unfortunately, over emphasis on identifying all the risks upfront will still not make it a successful business. Customers in this segment are vulnerable to personal and professional shocks. In the event of a crisis in the customer's

life, it is important for the lender to navigate the customer through it and facilitate liquidation of the property where required.

Extreme complexity couched in apparent simplicity makes this a difficult but rewarding business. Macro tailwinds make it a growing business for decades to come. Constructing a home is challenging by itself and simultaneously arranging financing adds to the anxiety. Low market shares and scattered distribution of industry players makes a strong business case for a focused player with deep distribution who can deliver high quality service levels. Traditional processes are conducive for higher ticket loans with simpler risk management requirements. Only a technology led player who can continuously drive down operating costs can become successful in this business.

HomeFirst is well positioned and committed to capitalize on this opportunity. We are currently present in 200 touchpoints across 98 districts and 13 States/UT. We are expanding our presence in 6 focus States viz., Gujarat, Maharashtra, Tamil Nadu, Karnataka, Andhra Pradesh and Telangana. We intend to be present in 400 cities in 24-36 months. This will give us access to ~70% of the affordable housing business in the country. We will continue to invest in technology to automate processes, improve turnaround times and service levels, improve productivity and reduce costs. Our aim is to reduce our cost to income to 30% levels in the next 3 years. Competition in the affordable housing finance space has been heating up, yet we were able to hold our yields in the market. Our focus on providing extraordinary service and industry leading turnaround times has enabled us to maintain our pricing power. Our average yield stands at 12.8%. Our goal is to sustain our current ROAs as we scale up and leverage our capital to achieve an ROE of 15-16% in 2-3 years.

Affordable housing finance is a very large opportunity with many consumer problems yet to be solved. Our objective is to establish Home First as a preferred brand in this segment, known for its exceptional service powered by a frictionless digital process.

Spilling The Beans

The HomeFirst guide to establishing a new market

Since time immemorial, the growth of a colony, an empire, and even a brand is critically linked to its strategic distribution and expansion. Be it through finding river routes in the Middle Ages or setting up contiguous locations across industrial corridors in the 21st century. Through sustainable growth and a robust distribution network, HomeFirst has developed its own framework for spreading the mission to empower people in the affordable housing segment. This is the story of Team Vijayawada - what they have done and how. Setting up a branch that hasn't just developed into an important portfolio but a vast region with multiple branches, satellite locations, and virtual branches.

Scope

The second-largest city of Andhra Pradesh, Vijayawada is known as its commercial and educational capital. Classified as a grade Y city with a GDP of \$ 3 billion, it is a buzzing hub of trade and commerce, with well-established construction, agricultural exports, food processing units, hospitality, and logistics. A huge but closely knit labor market supports this industrial market as 70% of the city's population is employed in the tertiary sector. Since its establishment as an

important industrial town, the affordable housing market has also picked up. The market size of the regions Guntur, Vijayawada, Vizag, Rajahmundry and Eluru is, and currently, it's around ₹27,000 Crs with annual housing demand of ₹5,500 Crs.

Research

We had a lot of learnings from our previously established Southern states like Tamil Nadu and Karnataka and we wanted to replicate the same model in Andhra Pradesh & Telangana. In the spring of 2018, we started our operations in Vijayawada. Despite our macro understanding of the market, we faced challenges of every form: geopolitical, economic, and social. Andhra Pradesh was facing political turbulence as the state capital was being changed from Hyderabad to Amaravati causing instability in the real estate market. Vijayawada also has a unique housing concept - Group homes. A society with only 2-3 flats. These flats are too costly to rent for the regular workforce and owning them remains a distant dream for many. These migrants find it difficult to get access to formal credit as they earn their livelihood in cash. As a result, they are often left at the mercy of relatives, friends, and money lenders and overall the market remains underpenetrated.

Unique People Strategy

We could sense that these challenges required a special team to crack it and we needed to understand this market from scratch. We needed a combination of fresh enthusiasm and expertise. The Regional Manager started his hunt with the local MBA colleges and offered a few students a chance to prove themselves in the field. Led by an experienced Branch Manager, the new recruits eventually proved themselves and grew individually along with the portfolio. Fast forward a couple of years, they were given the opportunity to take up leadership positions and shoulder more responsibilities in newer prospective markets and develop them in the same model. The employee strength has grown from 17 in FY20 to 36 employees in FY22

Branch Operations

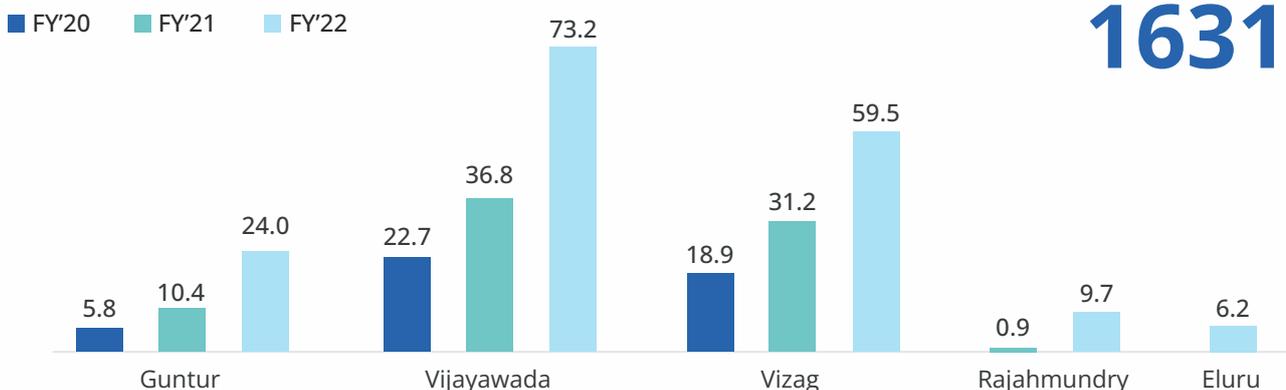

Straight out of college and coached by the best in the industry, our new recruits conducted many on-field activities over the coming months - Market mapping, identifying lucrative industry pockets, and slowly growing the portfolio through relationship building. Understanding the flavour of the market, we set up our Vijayawada physical branch on 25th August 2018, at Benz Circle - the heart of all business and commerce in the city. We stay in touch with all our business partners through monthly branch meets to

educate them about new products, company policies, and industry trends. These bonds of trust helped us when projects across the region were stalled due to the supply issues of building materials. With the customers in dismay, HomeFirst was able to create deals for materials at reasonable prices for its customers. This local presence has also helped us provide valuable services to aid the customers when they needed it the most. Such interventions were much welcomed by the customers who saw HomeFirst as more than just a lender but as a guide who could help them become a homeowner despite all odds.

Our disbursements in the regions Guntur, Vijayawada, Vizag, Rajahmundry and Eluru has increased from ₹41 Crs in FY20 to ₹109 Crs in FY22 - reflecting a CAGR of 62.8% (FY20-FY22)

Soon after Vijayawada, we expanded in the neighboring cities like Vizag in the same year, Guntur in 2019, Rajamundry in 2020 and Eluru in 2021 and further success at these locations has now encouraged us to go even deeper in these markets. Contiguous cities of Tenali, Narasaraopet, Sattenapalle, Machilipatnam, Nandigam, Ongole and Bhimavaram as satellite branches in the region, each led by a homegrown spirited Branch Managers with smaller groups of passionate new HomeFirsters ready to prove themselves.

Operating Efficiency (Case Study)

HomeFirst core value is:

Doing the unconventional in a swift and transparent manner!

Our core values are swift, transparent and unconventional. In order to drive faster turnaround times, we are constantly innovating and introducing digital initiatives to reduce the redundancy of manual efforts, increase accuracy and promote efficiency by applying efforts towards higher focus areas.

FTR% Improvement Over 6 Months (Across India)

One such area for improvement of turnaround times is the accuracy of 'demand notes' raised for disbursal. Errors such as minor differences in property address across the various documents can delay the disbursal with each small mistake causing a delay of 2-3 days. The number of times a disbursal transaction passes through human touch both at the branch end as well as head office end also has a bearing on capacity planning at the backend. Getting a demand 'First Time Right' (FTR) helps improve turnaround times and optimize backend resources.

Monitoring FTRs and guiding branches to improve FTRs has helped in improving it from 72.9% to 78.4% over a period of 6 months.

FTR methodology has helped us reduce errors significantly and maintain good turnaround times, which gave us the ability to deliver market commitments on time. Delivering our disbursal commitments on time helps generate more business, and enhance market share.

ESG

what we plan to do

Strengthen our Environment, Social and Governance (ESG) commitments

Building blocks and what is on our mind

- We have been a socially inclusive organization by design – our business model is built on the Vision of shaping the future of financing homes and empowering people to live better – and we do so by lending to the underserved segments.
- Strong governance has been the backbone of our growth since the start of the journey. We have attracted global investors from a nascent stage and we have received continuous validation from regulators and rating agencies.
- We are a paperless organization in our processes right from the beginning and have been focusing on using tech solutions to reduce paper across all our stakeholders.

How will we measure it

In this edition, we have come out with Integrated Annual Report comprising of a dedicated Sustainability Report Section. We have mentioned the value generated by our organization through different types of capital and we have started tracking the same through various metrics. Further, we have availed external assurance on our adherence to the GRI Standards. Our efforts and transparency in our journey to maintain “Sustainability at the Core of our operations” will help us in furthering our impact as a socially inclusive organization.

- We will track our ESG impact more closely and ensure increased monitoring and improvement.

Overview by MD & CEO

Dear Stakeholders,

Financial Year 2022 was in a broader sense “Business As Usual” for HomeFirst with minor hiccups in the form of Wave 2 in Apr’21. We continue to work on our mission to provide loans for affordable homes to our customers and we feel proud to enable homeownership for thousands of middle class Indian families.

The on-ground demand for affordable housing is strong. We achieved the highest quarterly disbursement of ₹641 Crs in Q4FY22 and the highest annual disbursement of ₹2,031 Crs in FY22.

Asset quality has improved with disciplined collection efforts supported by revival of the economy. Our Gross Stage 3 (GNPA) stands at 2.3% in line with RBI circular dated 12 Nov 2021. Prior to such classification, it stands at 1.3% (Mar’21: 1.8%).

Strengths enabling business sustainability

Our tech led business model has facilitated the continuity of business through various disruptive waves of covid. Adoption of technology also makes the business more scalable; For example, our integrated CRM, LOS and LMS on Salesforce platform, centralized data science backed underwriting, digital validation of customer credentials etc will enable us to scale up while keeping cost under control. We continue to roll out tech interventions like e-NACH, e-Sign, e-Stamp etc that have a 3-pronged benefit – enhancing customer experience, reducing cost for the Company as well as reducing the carbon footprint. Our industry leading NPS score (79 for FY22), is a testimony to our customer centric approach.

We have diversified sources for our funding requirements and optimised the cost of borrowing through efficient treasury management. Our primary consideration is maintaining a prudent Asset Liability match and to this end we strictly do not borrow short term funds.

Focus on ESG

We have always acted responsibly with respect to Environment, Social and Governance aspects. Sustainability is at the core of our operations and we aim to convey the impact of our initiatives through voluntary publication of the Business Responsibility and Sustainability Report (BRSR).

The Company’s business of providing loans for affordable homes to first time home buyers – promotes the social objective of providing housing to underpenetrated segments of the society. The company’s value statements of swift, transparent and unconventional percolate down to creating long term value for its stakeholders. We have supported 28,368 customers in availing ₹703.8 Crs PMAY subsidy since the scheme was initiated by government.

As a tech-driven housing finance company, we relentlessly endeavour to innovate and introduce new digital initiatives to drive speed and efficiency of operations. Mobile apps for customers, multitude of electronic payment modes and digital interventions in customer onboarding processes enable us to save paper, time as well as energy. Our pioneering initiative to nudge customers towards pre-paying their loans has saved huge amounts in interest costs for our customers.

Our Corporate Social Responsibility activities are aligned towards promoting a green footprint, climate resilience, clean energy and welfare of the communities that we serve.

On the occasion of the Company crossing the ₹5,000 Crs AUM milestone, we distributed 5000 fruit and herbal tree saplings to marginal farmers.

To promote and highlight the importance of renewable energy, we donated funds for a solar panel installation at a physiotherapy centre.

To promote climate resilience, we have launched a project to encourage green homes. Through this project we plan to raise awareness on the usage of eco-friendly materials and

raise awareness on the usage of eco-friendly materials for building homes. Further, we are in the process of developing a calculator to determine the green evaluation mechanism for individual housing units.

We understand the impact we can create at the community level and are committed to undertake welfare activities. During this financial year, we have launched two major projects – Project Sashakt (for empowerment of migrant factory workers and their families) and Mahila Shram Shakti Kendra (multipurpose centers exclusively for migrant women construction workers). Through our various CSR Activities, we have impacted over 12,400 beneficiaries.

Considering our internal stakeholders, our people are our strength. During the year we have conducted over 5200 manhours of training across functional and behavioural domains. Different types of trainings conducted include induction training, role specific training, skill upgradation (Six Sigma training), trainings on Cyber security, prohibition of insider trading, code of conduct, etc. We are a young and diverse organisation. Our median employee age is 26.5 years and ~27% of our employees are women.

Governance is a major component for solid foundation of a housing finance company. Transparency, accountability and integrity are the three pillars of a strong corporate governance framework. During the year, we further enhanced our board with Independent Directors coming from diverse backgrounds. We have Geeta Dutta Goel

(Country Director Michael & Susan Dell Foundation), Anuj Srivastava (Co-Founder – LivSpace) and Sucharita Mukherjee (Co-founder, whole-time director and CEO of Kaleidofin) joining HomeFirst as Independent Directors. I am sure that HomeFirst will immensely benefit from their experience on important aspects of our business such as technology, risk management, social impact, funding sources etc.

Additionally, we onboarded a Chief Risk Officer and a Chief Technology Officer during the year. Dedicated leadership in these areas will further strengthen the Company.

Closing Remarks

I would request you to read this document in full as this is the first time, we are publishing non-financial information on our business. I hope that you will find this useful and appreciate the long-term thinking that goes in to building it.

I would like to thank each and every stakeholder who has supported us to reach the stage we are at today. As we embark on our sustainability journey, it will be appropriate to remember the words of Sir Issac Newton:

“I do not know what I may appear to the world, but to myself I seem to have been only like a boy playing on the seashore, and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me.”

Board Effectiveness And Performance

HomeFirst is adopting the most effective way to ensure that Board Members understand their duties and adopt good governance practices. Furthermore, the Directors of the Company commit to act in good faith to promote the objects of the Company for the benefit of its stakeholders. The Company has defined a manner of evaluation as per the provisions of the Act and SEBI LODR Regulations and for the Evaluation of the performance of the Board, Committees of Board & Individual Directors. The above manner is based on the Guidance Note on Board Evaluation issued by the SEBI on January 05, 2017.

Newly appointed Directors are given a familiarization training by the management team members to apprise the directors about the business operations, organization and governance structures and other requisite matters. The Company has also provided directors with a reference manual which inter alia covers the roles, functions, powers and duties of the directors, disclosures and declarations to be submitted by directors and various codes and policies of the Company. The details of familiarization programme imparted to the Independent Directors of the Company are available on the Company's website at <https://homefirstindia.com/files/Policy on familiarization program for ID.pdf>

Ethics and Governance

The Board carries out the evaluation of every Director's performance and its own performance as a whole and the statutory board committees namely Audit Committee, Nomination & Remuneration Committee, Corporate Social Responsibility (CSR) Committee, Stakeholders Relationship Committee and Risk Management Committee and all the Independent Directors without the presence of the Director being evaluated. The Board expressed its satisfaction with performance evaluation. To review the performance of

Non-Independent Directors a separate meeting of Independent Directors was convened.

Fortifying Data Protection and Privacy

Our governance is further strengthened by our robust cyber security framework and our stable and scalable technology infrastructure. We are a tech-driven affordable finance company. We target first time home buyers. Such customers find it difficult to disrupt their daily work routine and apply for a loan. Hence, our focus is to provide a solution to process the loans digitally from lead to disbursal stage. We use our tech-platforms to perform functions such as lead generation, underwriting, property valuation and collections. We capture and store all our data on a cloud services platform. Since our CRM, loan management and accounting systems were maintained on the cloud, we were able to easily migrate to a work-from-home model during the disruptive pandemic

Our operations depend on our ability to process a high volume of transactions across our network of branches, which are connected through a cloud network to our corporate office. We have an integrated customer relationship management, loan origination and loan management system. Further, we have developed proprietary data science models, data lake and mobile applications. As part of our growth strategy, we intend to further develop and invest in our information technology systems and create an end-to-end digital process.

We have a well-established IT infrastructure that ensures performance stability and flexibility as well as IT security. We have a detailed IT policy in place, which sets out processes and controls that are required to be maintained in relation to the IT systems. The policy is amended from time to time in order to be compliant with the guidelines of NHB as well as other regulatory bodies. In addition, we conduct an IT audit once every two years, to determine issues and process level gaps, if any. As part of our IT risk management process, we consider the information (in IT assets or IT systems) at risk, determine the consequence of compromise of such information, identify threat, recommend appropriate security controls and safeguards, and determine the reduced residual risk remaining after the controls and safeguards are implemented. We also train our new and existing staff in our IT policies, procedures and codes of conduct.

Data Protection & Customer Privacy

At HomeFirst, we are committed to providing the best customer service while also protecting customer information they trust us with. We recognize that this commitment is not just about the loan products and services we offer, but how we operate as an organization with respect to our own compliance.

Home First has implemented an organization-wide data protection compliance strategy intended to meet all requirements in the applicable regulation, involving a cross-functional team of internal resources. We have maintained industry best practices to incorporate data protection and privacy in our day-to-day practices, as well as build strong compliance programs.

Customer Consent

When a customer applies for a loan with us, he consents to providing his personal details to us and once the loan is sanctioned, the customer details are governed by the loan agreement executed by him. We ensure that the customer provides his consent for processing the loan.

We have a dedicated mobile application for customers where they can carry out a number of transactions, including accessing their loan statements, prepaying loans and raising queries. This enables the customer to access information on his/her loan in strict privacy.

Data Security:

We have taken and will continue to take reasonable efforts to protect Personal Data in our possession or control by making reasonable security arrangements to prevent unauthorized access, collection, use, disclosure, copying, modification, disposal or similar risks.

Fortifying Data Protection and Privacy

- ✔ We have an integrated customer relationship management and loan management system on a dedicated platform, which serves as a single portal for all internal and external customer related interactions. We have agreements with service providers to ensure data security and business continuity.
- ✔ Our applications/servers/LMS/CRM/Database all communicate with each other with the help of APIs which are encrypted using the latest security algorithms. All APIs are IP restricted to prevent DDoS attack (Distributed Denial of Service Attack) and to ensure that the privileged users have access to these APIs. All our applications have gone through VAPT (Vulnerability Assessment and Penetration Testing) and we have received the requisite certification for the same.
- ✔ We use administrative, organizational, technical, and physical security measures to protect the confidentiality, integrity, and availability of the personal information. These measures include technological safeguards and appropriate access controls to data and facilities.

Data Request Management:

Disclosure of process for evaluating and responding to law enforcement or government data requests - The Credit Information Companies (Regulation) Act, 2005 and the respective RBI and NHB Directives state that all credit institutions should become a member of a Credit Information Bureau. In compliance of the same we currently provide monthly data to TransUnion CIBIL, Equifax Credit Information Services Pvt. Ltd., CRIF High Mark Credit Information Services and Experian Credit Information Company of India Pvt. Ltd. with regards to our loans and EMI payments.

As per the Central Government's directives, the lending institutions shall register all information with regards to

security interests created on any asset or property with CERSAI. Such registration is required to be completed within a period not exceeding 30 days from the date of the creation of security interests. In compliance with the same we provide the data pertaining to our secured assets to CERSAI.

Apart from this customer data is also disclosed for various compliance purpose such as statutory audit, internal audit and investor disclosures.

Data is shared with third party service providers only on a need-to-know basis subject to thorough confidentiality obligations vide exhaustive service agreements executed for the arrangement.

Employee Training and Awareness:

All HomeFirst employees must complete data privacy and security training. In addition to these training requirements, we continue to conduct ongoing awareness initiatives for data protection, security and privacy.

All the new joiners are made to sign the General Terms and Conditions of service which enumerates the importance of confidentiality along with a mandatory training program where they are made aware about the same. We also have a training module for the employees wherein periodic tests are conducted in order to ensure applicability.

Business Continuity and Disaster Recovery

HomeFirst has board approved policies on Business Continuity Plan and Disaster Recovery Plan. Business impact analysis is included in its BCP Policy as well as in Risk Management framework. The functioning of BCP is monitored by the IT Strategy Committee as well as by the Board by way of periodic reports.

Materiality Assessment

We identified material risks which have an impact on our business operations.

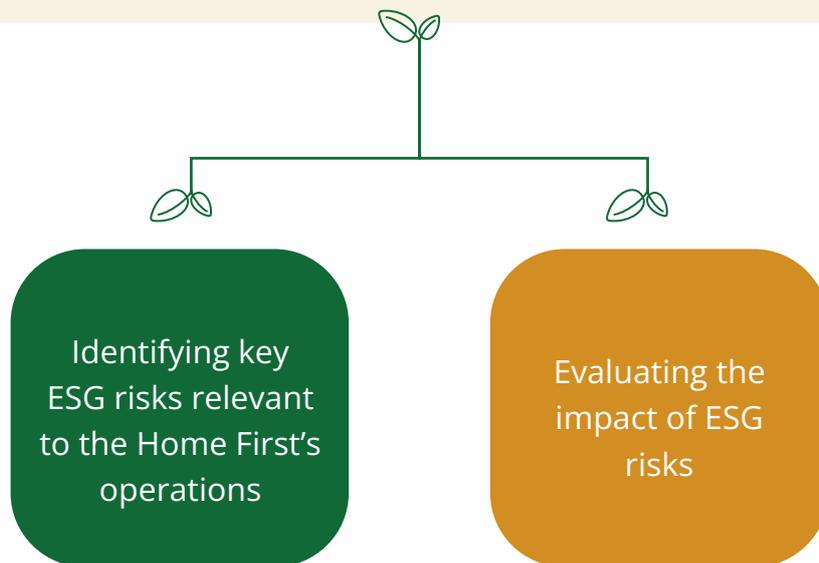

Materiality assessments are the vital starting point, from which one can manage their non- financial risks and opportunities.

The definition of “material aspects” as per Global Reporting Initiative (GRI) include those aspects that reflect an organization’s significant economic,

environmental and social impacts; or that substantively influence the assessments and decisions of stakeholders.

A materiality assessment exercise was performed to determine and manage the risk inventory and understand its relationship with the business strategy, objectives and performance.

The following steps have been conducted as part of the exercise:

Materiality Assessment

Sr. No.	Material Topic	Category	Capital Impacted	Why is this material
1	Corporate Governance	Governance		Corporate governance is the key for smooth business operations. HomeFirst strives to adopt best practices and ensures adherence to all applicable regulatory requirements.
2	Risk Management	Governance		Risk management is essential to proactively evaluate the possible risks across the business organisation and processes and implement measures for mitigating and addressing the same.
3	Code of Conduct and Business Ethics	Governance		Code of Conduct and Business Ethics is critical to ensure ethical conduct of business operations, legal compliance and building trust of all the stakeholders.

Summary

Our disciplined approach towards managing our financial capital have led to a strong financial position, sustained growth and improving shareholder returns. The financial capital includes shareholder equity, retained earnings, external borrowings among others.

Despite challenges over the past couple of years due to Covid disruption, Credit Rating agencies have continued to

reaffirm their belief in our business model by improvement in outlook (by ICRA) from A+ Stable to A+ Positive and “India Ratings” assigning “AA- Stable”.

We remain diligent about optimising our cost of operations along with the cost of borrowings. This enables us, besides other factors, to offer access to finance to the unbanked, thereby supporting one of our ESG goals of financial inclusion.

Industry Leading Performance in a challenging environment

Your company has maintained its growth momentum and delivered improvements in majority of its key financial parameters. Despite being a pandemic-disrupted year, your company held up with a strong customer base, robust risk management framework and best governance practices. Your company crossed an AUM of ₹ 5,000 Crs in Jan'22.

Raising the right resources in challenging times: Liquidity raised in FY22: ₹2,015 Crs

Our efficiency in managing capital can be seen from our diversified sources of capital incl NHB refinancing.

During the year ended Mar'22, the Company raised over ₹ 2,015 Crs in long term borrowings across quarters reflecting the strength of it's balance sheet.

- ✔ Maintained cumulatively positive ALM gaps and high liquidity in stress scenarios.
- ✔ Favourable interest rate environment and our treasury efforts led to a reduction in cost of borrowings and further focussed on building a strong liability franchise.

Our profitability in disruptive times, is an outcome of the operational efficiencies built into our system. We continue to deliver a double-digit growth in earnings, with an increase of 73.8% in net profit, while keeping a check on our operational costs, resulting in a lower cost to income ratio of 34.0%. The business resilience is an important indicator of our credit risk evaluation and management. Our key strength continues to be maintaining one of the lowest levels of Gross Non-Performing Assets (NPAs) in the industry with provision coverage ratio of 47.1% (83.6% pre-RBI circular).

Prudent Asset Liability Management

ALM framework at HomeFirst involves measuring, monitoring and managing liquidity and interest rate risks and is closely aligned to the Company's business strategy and risk management. HomeFirst has built a strong ALM

framework by maintaining cumulative positive liquidity gaps in all buckets. HomeFirst is compliant with LCR requirements. Company remains prudent and holds liquidity of ₹1,063 Crs (₹ 1,063 Crs includes Undrawn bank lines of ₹ 437 Crs) as of Mar'22.

ALM Position (as of Mar'22)

Robust Liability Management

HomeFirst, due to its strong business fundamental continues to enjoy competitive rating from reputed rating agencies. This combined with market confidence provides access to diverse sources of funds such as Term loans, NCD, etc. Our treasury also makes continuous efforts to reduce the Cost of Borrowing (CoB) of existing borrowing through various measures.

During FY22, HomeFirst entered into Direct Assignment (DA) transactions amounting to ₹ 465 Crs DAs are an efficient source of funds for us as it helps us manage ALM and release capital for further growth.

We also believe that short term sources of funds, though cheaper, are not appropriate for a long duration asset like housing loan. Hence, we have not raised any funds from Commercial Paper or other short-term sources.

Balance Sheet

HomeFirst saw significant improvement in collections and disbursements in year ended Mar'22, highlighting the robustness of the unique business model. HomeFirst continues with prudent provisioning policy enabling absorption of any shocks on account of Covid.

Provisioning

By the end of Mar'22, collection efficiency improved materially and we expect our delinquency buckets to reach pre-Covid levels in FY23. We have been conservative in providing for bad loans and have provision of 1.1% on book.

Despite challenging times, asset quality improved. Our Gross Stage 3 (GNPA) stands at 2.3% in line with RBI circular dated 12 Nov 2021. Prior to such classification, it stands at

1.3% (Mar'21: 1.8%). The Company is still carrying ₹47.8 Crs of provisions. The PCR (Provision Coverage Ratio) is stable at 47.1% as at Mar'22 (pre-RBI circular: 83.6%).

Credit Rating

During the year, there were two important developments related to credit rating. India Ratings & Research has assigned AA- Stable for Term Loans and NCDs of Home First. Also, ICRA upgraded the long-term outlook on the company to A+ with a Positive Outlook. We believe, these improvements on outlook and rating are due to our excellent asset quality, strong focus on profitable growth, resilient customer segment and strong balance sheet. We believe the above actions can help us in lowering cost of borrowing and diversify our source of funds.

Real estate sector contributes up to 6-7% to India's GDP. Of this, the housing sector alone accounts for 22% of all the emissions and increasing at an alarming rate as urbanization becomes more and more mainstream. Cities across the country are continually spreading to welcome new residents, the majority of whom are migrants moving to a bigger city for employment opportunities. As their lives and earnings stabilize here, these migrants turned residents look to improve their standard of living by owning a home in the city. As per Knight Frank, gap of 9.7 Crs houses is projected in India between 2019-30, this is a sizeable chunk of the market set to build their houses in near future. By the year 2030, India's new climate targets aim to reduce carbon emissions of the country by 1 billion tonnes. In order to meet the reduced emissions with increasing population and demographic shift towards urbanisation and nuclearization, it becomes imperative to focus on housing sector.

At the present moment, green buildings only constitute 2% of the total new constructions in our country. The end-users

in the affordable segment lack awareness and are very price sensitive in nature. The general misconception around the matter is the belief that green buildings and environmentally sustainable housing are only an issue for the rich and wealthy since it is expensive. However, our research revealed that this could not be farther from the truth.

As we decided to understand the problem on the ground, we carried out our own field research, talked to our customers, and reached out to members of the construction ecosystem. This made us realise that there are several small alternatives available which are not only easy on the pocket but can also help make a big difference environmentally.

This led us to understand the concept of a 'Green Home'- an environmentally sustainable home that focuses on efficient use of natural resources. Let's see what makes a home a green home:

What Makes a Home Green Home?

Use of Eco friendly building materials during construction to reduce carbon emission

Use of energy efficient lighting, cooling systems and other appliances

Adoption of sustainable lifestyle. Mindful of water wastage and usage of cheap plastics

Provision of natural light, ventilation and protection from heat

Integrating renewable energy for daily consumption like solar panels for water heaters

Recycling of water, rain water harvesting units and effective waste management

To create some real impact, we have started our journey toward turning individual homes into green homes and this is our progress towards the same now

Started building a green roadmap

As we set out to reduce the carbon footprint in our ecosystem through interventions, we selected three main routes towards a Green Future: A Green Box to convert affordable homes to green homes, digital processes to reduce our daily carbon footprint and environmental interventions through adopting and promoting eco-friendly practices.

So, as we understood the concept of a green home, we developed a program called Green Box - A simplified solution to turn affordable homes into green homes. As we looked for an evaluation process to certify a green home, we realised that the existing certification and evaluation mechanism needed a framework to measure how we define a green home. So, we set out to create a format to assess and grade individual housing units based on their environmental sustainability. With a large share of our country residing in unorganised, individual houses, we sought the help of several experts and authorities on the subject to discuss and co-create a greenhouse rating calculator to gauge the same. As the affordable housing sector leads the charge for post covid recovery in the industry, the completed calculator shall soon pave way for a new wave of affordable green homes in the market.

Next, with tech in mind, our interventions in digital processes also go a long way in helping us become environment-friendly and reduce our carbon footprint. Gone are the days when you needed to take a road trip to a bank branch to print out paper bank statements or having them mailed and delivered to your home. We have full-service mobile apps, that cater to all our customer needs and through it, we are trying to catalyze decarbonization. When our customer repays through the app, we are saving on carbon emissions. When they pull out an account statement from the app, we are saving paper. We are not only helping our consumers and business partners make informed choices we are also prioritizing the planet! More and more processes everyday are taking the online route starting from onboarding to collections. The tribulations of covid have further inspired innovations like e-verification, and e-signing. Over time, all these interventions are bound to make a huge dent in our carbon footprint through savings not just on paper but also on fuel.

Various metrics tracking the technological initiatives undertaken by the company across processes and operations is detailed in the Intellectual Capital Chapter on pg 72. Further, the digital adoption of Company's mobility

Natural Capital

solutions is gaining traction. In the last quarter of FY22, we witnessed 34.1% y-o-y growth in App logins, 96.9% y-o-y growth in the number of unique users making payment via app and an increase of 41.8% y-o-y in the number of service requests raised on the App.

Lastly, not only within our operations, we are also promoting environmental sustainability in our society. Recently, we created a Herbal Garden with 1,000 herbal plants in Palghar district of Maharashtra and distributed 4,000 fruit tree saplings to farmers from the marginal community. This will

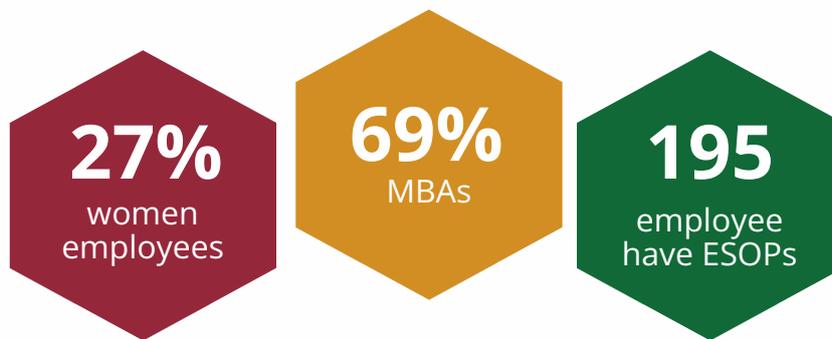

not only help create a new source of income for these marginalized families and tribal communities but also off set some carbon footprints. All branches of HomeFirst use jute bags and other recycled products for any documentation, gifting or storage purposes internal or external. As we scale up the interventions to reduce our carbon footprint we hope to inspire other organisations.

Human Capital

HomeFirst understands and acknowledges that human capital is an important business enabler and an important asset for the company. HomeFirst understands the importance of workplace culture and creating an environment for employees to grow and thrive. Our culture empowers employees to be agile,

learn and develop skills and achieve their full potential. We have an entrepreneurial organisation culture that drives innovation – this in turn promotes high employee & customer satisfaction. We have been Certified as “Great Place To Work” by GPTW Institute for 2 successive years.

Training & Development

We have an elaborate year long training and development program for all our new hires, which comprises of classroom-training sessions, on the job training and a buddy program.

Aspire Program-Aspire is the opportunity for growth from a Relationship Manager/ Customer Service Manager to Branch Manager at Home First. The objective is to nurture fresh minds and give them a big platform.

Evo Program-Evo is an "evolution" program for all our newcomers at HomeFirst. The idea is to turn a novice into a professional with the help of an interactive training & assessment program.

Human capital development is one of the key focus areas for us and we strive to upskill the employees by providing them functional, behavioural and other types of trainings. The different types of functional trainings conducted include property, credit, disbursal, collection. We also provide training on interpersonal skills, grooming and etiquette as well as on leading teams. Areas such as code of conduct, different policies of the company and information security are

Employee Wellbeing & Benefits

HomeFirst is committed to employee safety and wellbeing. During the pandemic, treatment expenses during home quarantine for employees and their family members was covered by the company. Further, the Company has Group Personal Accident Insurance Policy and Group Health Insurance Policy for the employees. The Company also offers to cover the medical expenses, as applicable. In case of death of the employee who had ESOPs, the ESOPs immediately vest with the nominee of such an employee. The employees

are given HomeFirst Lyf Culture Book at the time of code of conduct training. The Culture book provides the employees an overview of all their eligible employee benefits. During the year, we introduced the option for employees to invest in National Pension System (NPS). We introduced the option in Jan'22 and by Mar'22, 8 employees already availed the option to invest in the scheme (1 female and 7 males).

Employee Engagement Programs

In order to boost the morale of the employees, there are many employee engagement programs undertaken throughout the year.

Diwali Dhamaka/Celebrations : Gift Hampers for all employees and special gifts on lucky-draw

Santa Is Real /Christmas Celebrations:- HomeFirst delivered gifts to all employees' kids this Christmas

On Women's Day we started with Walkathon-Walk for a cause contest for employees to support a good cause by number of steps HomeFirst employees walk. We also celebrated women employees by gifting them with a token of appreciation and conducted an internal competition to celebrate the women in their lives.

Human Capital

We celebrated crossing ₹5,000 Crs AUM milestone of the company on the company's incorporation day and listing anniversary day i.e. 3rd Feb; with all the employees with a town hall in an unconventional way by having a tete-a-tete with the MD & CEO.

Engagement surveys are conducted amongst the employees to monitor employee satisfaction. Another external engagement survey conducted was for Great Place to Work accreditation. Further, we practice an open-door policy and have regular performance appraisals and feedback processes.

To address employee complaints and grievances, the employees can raise a complaint on the employee portal or even connect personally with HR team. Any employee can access the HR team to raise a complaint and the same is then taken up by the HR team who travel to the location (in case of conflict) or reach out on phone to resolve with the complaint / grievance / issue. Any grievance raised is responded within the same day and resolved within the next 4 days. Alternatively, the employees can raise complaint on the LEENA AI portal. The company follows an open-door policy and is a lean organization. Employees have access to the management/ business heads/HR to raise their concerns.

Promoting Human Rights & Non-discrimination

HomeFirst has a very strict policy against any case of sexual harassment at workplace. We provide an easy channel for reporting the offence. We have a policy on Prevention of Sexual harassment in the workplace. To ensure women feel comfortable and safe raising their complaint, the Internal Committee is headed by a Senior Woman employee.

CSR Activities

HomeFirst lives in every community across the nation through our customers and business partners. We can relate to the everyday struggle of a daily wage earner. The morning bus chase of an employee running late for work, the afternoon hunger of an autorickshaw driver, or the midnight drowsiness of a watchman swatting mosquitoes! Our philosophy of giving back to society as a responsible corporate citizen is deep-rooted in our CSR (Corporate Social Responsibility) Policy. It acts as a guiding star to design initiatives that would benefit the communities at large.

Every year hundreds of thousands of workers migrate to urban areas in search of employment opportunities to give

their families a chance at a better life. Here, many of them help translate the dreams of our customers to reality. Daily wage earners and construction workers form the backbone of the housing industry. It is their sweat and tireless determination that transforms brick and mortar into a home. In order to celebrate their hard work and promote the welfare of this community that supports our cause, our CSR initiatives are focused on these groups. We have conducted surveys based on various parameters such as healthcare, workplace safety, job skills etc. with the assistance of local NGOs and created programs accordingly.

What we have done

During the year, we implemented 14 Projects. 12 projects (including donations) were executed in collaboration with NGOs and 2 of them (Covid Care and Relief and Workplace Safety) through head office and branches directly.

The community engagement process involves:

Since some of them are long-term projects, we have broken them down into phases. Post completion of each phase, the NGOs submit their impact reports. In case of any grievances, the beneficiaries can walk into the community centres

created in collaboration with the NGOs. Let us take you through the details of our CSR projects including our flagship projects.

Flagship Project 1 Project Sashakt

With the struggles of the migrant population in mind, we surveyed 1,000+ families in the Narol area of Ahmedabad to study their demographics, family income, educational background, and the problems they face in everyday life. The observations from our survey indicated that 63% of families only had 1 earning member of which 43 families earned less than ₹5,000. Even families with 2 or more earning members had monthly incomes less than ₹15,000. After the age of 35, their incomes stagnated due to lack of skills. On the health front, 75% of the families surveyed were not vaccinated for covid and from a socio-economic perspective, 90% of the families could not avail any Government schemes due to lack of awareness and basic documents like Aadhar card, ration card, BPL card, etc.

These families lived in a fragile situation where most of their earnings got exhausted in daily expenses, and years of savings and family heirlooms could potentially be wiped away by common diseases and health problems. The objective of our intervention was to make these families 'sashakt', meaning "self-sufficient".

From the survey of 1000 families, we selected 500 most vulnerable families for intervention. Unique identifiers were given to each family in order to facilitate tracking of benefits and progress made over a period of time. Project Sashakt aims to uplift the health and socio-economic status of these families over a period of time. Health check-up camps and

covid vaccination drives were organized. Doctors at the camps checked the children for basic diseases and deficiencies and the elderly for BP and diabetes. With malnourishment being a common observation, nutrition kits were distributed to children and pregnant women. This free health check-up camp has since been made a weekly event for all families along with free medicine distribution. We have enrolled 120 individuals to learn new skills. Including GST - Tally courses, tailoring, and beautician therapy. Also, helped open 80 Sukanya Smabridhhi Yojna accounts.

In order to focus on children, we decided to incorporate a separate flagship program within Project Sashakt to specifically target holistic development for children. This led to the foundation of Bal Sashakt program. Bal Sashakt targets children aged 6-15 years in the beneficiary families for extra-curricular activities, incorporating academics, arts, crafts, sports, nutrition, culture and performing arts aspects. The first batch of Bal Sashakt was recently concluded at Narol, Ahmedabad. In addition to providing exposure to various skills and hobbies, here we help these children to become confident at expressing themselves, develop their creativity, and in the process, sometimes discover hidden talents. Added to this, the height and weight of each child is recorded at the beginning of the program and at every session, we distribute healthy food to the children. Wholesome learning has been combined with measurable health goals of these children.

Flagship Project 2

Mahila Shram Shakti Kendra

When a family migrates, the women often migrate along with their husbands and kids in search of a better life. However, with restricted means and higher costs of living in urban cities, they are forced to find a job for themselves in addition to handling the responsibility of the household and children. Classified mostly as “unskilled laborers”, they wait at local market spots to get hired by the local construction contractors. Here they face the stigma of being delicate and weak, so they either don't get an opportunity to work, and even when they do, they are barely paid half the wages as their male counterparts. Adding to this, many of them also have to care for their children who end up traveling along to these harsh working conditions. When we reached out to these women to understand the various challenges and struggles in their

lives, lack of job skills, and awareness seemed to be the main pain points. So, we set up 3 multipurpose centres exclusively for women workers called “Mahila Shram Shakti Kendra”.

The objective of these centres is to provide a safe space for women construction workers and their children and provide them with important skills and knowledge to improve their prospects of getting regular work in the long run. Initially, women workers turned up at our centre seeking refuge to rest for themselves and their children. As more and more women heard about our centres and visited us, we started talking to them about the various ways we could help them in terms of knowledge, and skills to enhance their employment prospects. 21 Women have

enrolled to learn masonry, and plumbing in the construction field as well as skills like tailoring in non-construction fields were imparted to these women.

To bring more awareness around various government social security schemes in this community, we started registering women-construction workers with Buildings and Other Construction Workers welfare board (BOCW) on e-nirman portal and registered them for insurance and health schemes. Also, workshops on financial literacy were

carried out, where we helped them open a bank account, and a Jandhan account and taught them how to handle their cheque books, passbooks and how to use an ATM. Next, we launched a series of health and nutrition workshops. We started off by linking our MSSK with ICDS (Integrated Child Development Services) centres. This helped us provide primary and universal healthcare to teenage girls, lactating mothers and their children. Then, we facilitated regular access to food and nutrition, iron tablets and timely vaccinations at our MSSKs. A workshop

on family planning and female hygiene was also held to build awareness of reproductive health along with valuable information on Ante-natal and Post-natal Care. In the last financial year, we have conducted 31 awareness meetings helping 650+ women.

Another important initiative was to impart legal awareness and aid among the women labourers. Following our

commitment, we have provided counselling and assistance with 70+ legal cases. In addition to this, we have helped raise awareness regarding minimum wages, due payments, and payments book maintenance for 1,000+ women. Empowering women to raise their voice in places of importance and protect themselves against workplace harassment, gender sensitization workshops were held at all MSSKs by expert trainers.

Other Projects

Workplace Safety

Loss of hearing is one of the hazards of working in a loom factory. Noise levels are upwards of 90 decibels which is 30 decibels more to an environment that is considered to be normal. So, we aided these loom workers by providing them with high-quality noise cancellation ear muffs. Construction workers are often exposed to hazardous working conditions. Basic safety gear like helmets, gloves, and glasses goes a long way in ensuring the safety of this workforce and improving their overall working conditions. We provided 5,000+ construction safety kits to workers at the construction sites.. We have also, facilitated e-shram and e-nirman card registrations in Surat. That will provide them with state-sponsored welfare schemes and benefits.

Going Green

This Jan'22 we crossed ₹5,000 crores in AUM. We distributed 5,000 fruit and herbal trees to the marginal farmers as a contribution to a green and cleaner environment. These initiatives will not only help the marginalized farmers / tribal communities to create an additional source of income but also help the environment. In another initiative, we have installed Solar Panels at a Physiotherapy Institute and Research Centre in Nagpur which provides its services to specially-abled individuals at discounted rates to install solar panels at their centre. This will help in cutting down the overall running cost of the centre and lower its carbon footprint.

Healthcare Initiatives

Financial support for medical surgeries

We sponsored cleft lip surgeries and clubfoot rectifications for close to 100 children. At Vizag, 100 cataract cure surgeries were also sponsored in association with Shankar Netralay Foundation to help the elderly get their vision back.

Capacity Building and Covid Care

We have also made contributions to hospitals to build their infrastructure and worked with organizations like JCI and Rotary Club to provide oxygen concentrators to covid patients during the second wave of covid. We were able to help 170+ critical patients during the peak of the second wave. In addition we also contributed food kits to vulnerable families during covid.

We at HomeFirst try to use our network and resources to spread happiness and joy among the various communities at the grassroot level such that the less fortunate who live at the bottom of the economic pyramid are also able to access the best of facilities and healthcare. It is they who toil day and night in all weathers and by the sweat of their brows build the castle of our customer's dreams. While we may take you home, it is they who bring it into existence.

We are focused towards working towards betterment of our society. Given that the nature of our business is providing housing finance loans and is a service – oriented business, we do not have any direct adverse impact on the environment due to our business operations.

Customer Centricity

HomeFirst is driven by relentless customer focus. We believe that customers should get the best solution. Something that would delight them. This drives us to innovate, find a smarter solution, and customize it to the individual's need.

Process

We are talking about first-time home buyers here who find it difficult to disrupt their work routines to go and apply for a loan and comprehend the terms of a loan transaction on their own. In order to address such concerns, we have set up a simple customer friendly process. Right from the application stage to the disbursement of the loan. A paperless process to onboard customers home and workplace visits to ensure minimal disruption to a customer's daily routine is just one such example of keeping the customer in mind and then working backwards.

Our Approach

We believe that we play a key role in overall Financial Inclusion by facilitating access to organised loans for affordable homes and empower buyers from the EWS & LIG segment, who account for 75%+ of our book. Also, around 90% of our loans have Woman Borrowers

(either as main applicant or co-applicant). Till date, we have helped 28,368 customers to claim PMAY subsidy. We have received ₹703.8 Crs till date as PMAY subsidy that has been credited to customers' account to reduce their loan amount.

We have assumed the role of a guide to our customers. Any prospective customer can reach out to us for a free consultation and clarify any doubts that they might have regarding the loan. Our Customer Philosophy is to be "swift" by providing quick services and turnarounds, to be "transparent" in our delivery and "unconventional" if necessary to bring in any positive changes.

In our Loan Agreements, all the terms are explained in simple English and six other regional languages (Hindi, Marathi, Gujarati, Tamil, Telugu & Kannada) for easy understanding. Our website and branches also clearly display, all the fees and charges that the customer would incur for the loan and the terms and conditions which are further summarized in a document attached to the Loan Agreement - MITC (Most important terms and conditions).

Some of our customer friendly features are worth highlighting:

1. Product Feature - Auto Prepay:

This is a small, monthly pre-payment option. Starts from as low as ₹500/- a month and comes with a flexibility to not pay if one chooses to. The facility is given for free, to all our customers through our auto-prepay feature on the mobile application. Auto-prepay gets its name from its auto-debit functionality, where customers can set their monthly pre-payment amount that would be deducted from their bank account. This feature was introduced with the objective of 'nudging' customers towards prudent financial planning by facilitating the process of pre-paying their loan. We

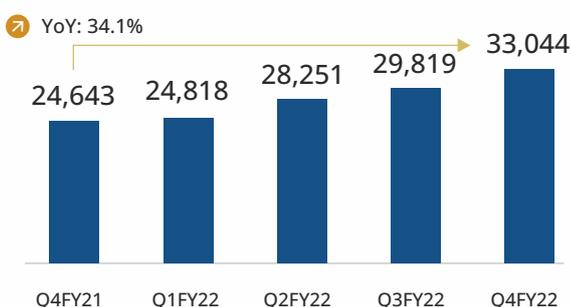

also provide easy balance transfer options with no pre-payment charges for our housing loan customers.

2. Customer Experience - Customer App:

We offer mobility solutions through dedicated mobile applications for our customers to enable quick and transparent loan related transactions. We have HomeFirst Customer App which is feature rich and customer friendly. The app can be used for submitting queries, downloading the statement of account and making part payments, refer a person, locate the nearest branch, etc. The App was rated 4.2 stars as of Apr'22. Due to the ease of making payments via app, the number of customers making payments via app is going up. The service requests raised on app are also increasing.

Customer Awareness

We maintain high levels of transparency in all our interactions with customers across every channel. When we meet our customers in person at the branches, we conduct mandatory counselling sessions to educate them about the loan. All the key terms of the

loan agreements, charges, fees etc are all explained in detail. The counselling is usually conducted in a language which the customer is most comfortable in, to ensure that the customer has good understanding of the terms and conditions and the product details. Awareness is also created around being tech smart.

Social and Relationship Capital

There's strict prohibition on pre-payment of loan via cash. Digital channels like our Website's blog section, social media handles, and marketing collaterals also frequently carry communication related to awareness. HomeFirst Gyaan Series on our YouTube channel is a similar initiative - where we educate the customers on various topics related to home loans and allied activities in a vlogging format.

Customer Engagement Activities

We aim to maintain high levels of customer service and we have mapped each customer to a dedicated service manager and a relationship manager. We send regular updates to customers on the status of their loan applications and remind them of their payment

schedules through automated calls and text messages. We undertake various activities in order to engage with our customers from time to time. We send birthday wishes, season's greetings, etc. We also have a Customer Grievance Redressal Mechanism in place to address the concerns of the customers in a professional and timely manner.

Response

As a result of our expertise, experience, business model and a customer centric approach, we are able to effectively serve customers and achieve superior net promoter scores. We take feedback from customers after every service closure (CSAT). Our approach has been to listen carefully to our customers, take feedback, understand the issues and create meaningful solutions.

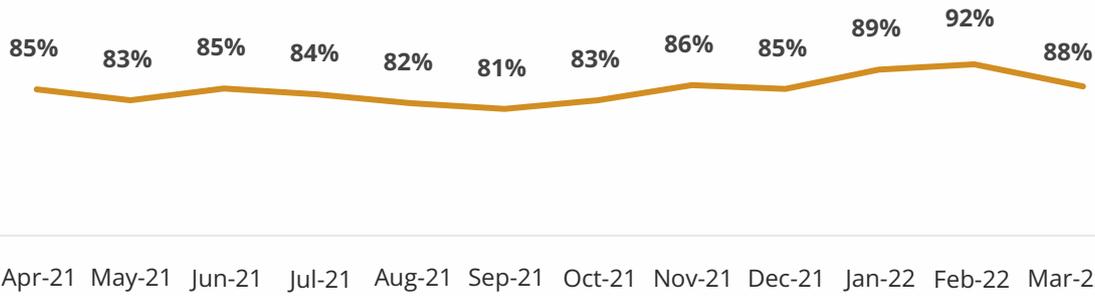

Our superior customer service is reflected in the below statistics:

- ✔ Overall queries (in Mar'22) as a % of live base is 6% of live loans.
- ✔ Overall complaints (in Mar'22) as a % of live base is 0.04%.
- ✔ 85% of Queries are resolved within 48 Hrs (FY22).

Credit Approval and Disbursement

We have set up a robust credit approval process comprising the following stages:

Initial Screening and Pre-Sanction Check

Customer leads are logged into our system which are pursued and reviewed completely by our in-house team of well-educated and trained relationship managers. Each lead is checked against KYC, credit bureau and other third-party databases to establish customer credentials. We have an efficient paperless process to onboard and verify customers as well as determine their eligibility. Our relationship managers conduct workplace and residence verifications and submit the loan application on the central platform – this is then cross-checked by our underwriting and operations team for a number of factors including completeness of application form, KYC, eligibility, fraud check, credit bureau, income assessment, loan-to-value, value of collateral, bank statements, debt burden and third-party databases for income and asset ownership.

Customer Credit Underwriting

Our centralized underwriting team is assisted by data-science backed customer-scoring model to evaluate a customer's ability to repay the loan and maintain consistency

in underwriting procedures across branches and regions. Further integrated customer relationship management and loan management system allows our underwriters to conduct the credit appraisal process in a quick and efficient manner. We have also integrated our systems with third-party databases to obtain additional customer data points. This helps us gather data to assess credit worthiness of the customers and conduct a fraud check in case of any discrepancies. Further, we utilize proprietary machine learning credit scoring models to assist us with our credit assessment process.

Property Underwriting and Disbursement Process

We assess the value of the collateral at the time of sanctioning the loan and conduct additional checks before disbursing the loan and giving final approval of the property. Our teams initiate a legal and technical assessment through third party vendors to verify the authenticity of the technical documents, legal title to the collateral property and its market value. We have set up a legal and technical portal to simplify the process of evaluation of the property. Our proprietary machine learning backed property price predictor coupled with geo-tagging of properties further assists in reducing our turnaround times for approving loans and improving accuracy in determining loan to value ratio.

Intellectual Capital

Loan Collection and Monitoring

We have set up a robust and tiered, collections management system with prescribed collection action at each stage of severity of default. All our borrowers register for an automated debit facility, which reduces our cash management risk, and we track the status of installments collected on a real time basis through a collections module. We employ a structured collection process wherein we remind our customers of their payment schedules through text messages and automated calls to maintain adequate balance in their account on the due date. We also use our proprietary machine learning model to predict probability of bounce, which helps us in obtaining early signals of potential bounce and initiate action such as pre-emptive reminder calls made by branch teams. Our collection process is completely managed by our branch teams and a significant portion of our employee incentives are dependent on collections.

Tech in sourcing:

We use digital media and have strategic alliances with organisations such as Airtel payments bank, Paytm, Paisa Bazaar, IndiaPost Payments Bank, etc. to source digital leads. We run digital marketing campaigns on major social media platforms. We also run short videos to educate the customer on various facets of home buying. Our customers can reach us through social media, Whatsapp, emails, etc.

Tech in loan processing:

We have developed a paperless process to onboard customers efficiently and our well-trained front-end teams appraise customers by conducting home and workplace visits and ensure minimal disruption to a customer's daily routine. The data collected by our front-end teams is uploaded on the cloud-based platform. As a result of which real time data can be accessed from any location. This also enables us to do consistent and centralized underwriting and facilitates quick turnaround times. We also have an integrated customer relationship management and loan management system set up on a leading cloud-based customer relationship platform providing us with a holistic view of all our customers.

Tech in underwriting:

We capture over 100 data points of a customer besides credit bureau data such as scanned collateral documents, videos, photographs, etc. This data is captured and stored on the cloud. Further, our tie-ups with third-party service providers provide us with data such as fraud related data, banking, vehicle ownership of customers and taxation related data. This further strengthens our underwriting process and helps identify areas of concern to take quick and accurate decisions. Our proprietary machine learning customer scoring models also assists in our underwriting process. Further, all our financed properties are geo-tagged and we use a machine-learning backed property price predictor. This helps us achieve higher accuracy in determining the loan-to-value ratio. The seamless integration and availability of data across platforms and users enables us to process loans in a paperless manner and with quick turnaround times.

We use a data lake, to store the data from all our different applications. This expedites data consolidation, visualization, machine learning model development, and model implementation. The data lake also facilitates detailed analytics leading to better operational decisions.

Tech in collections:

95% of our collections are non-cash. During the year we have introduced more channels to make electronic payments. All our borrowers register for an automated debit facility, and we track the status of instalments collected on a real time basis through a collection module in our system. We remind our customers of their payments and schedules by way of automated calls and text messages. Further, we use AI and ML to predict the probability of default. This provides us early warning signals and we can take appropriate action to mitigate the risks.

Mobility solutions:

We offer mobility solutions to our stakeholders – internal as well as external. We have HomeFirst Customer Portal app for our customers which has features such as accessing loan statements, prepayment of loans without any prepayment charges and service requests. We also have an application 'HomeFirst Connect' for our channel partners and 'HomeFirst RM Pro' for our relationship managers.

Intellectual Capital

New Digital Initiatives:

Subsequent to the onset of the COVID-19 pandemic in India, we launched new processes following an even more digital approach, as follows:

a. E-Verifications: Branches started conducting office and home digital verifications through video calls for certain categories of customers, with records of such calls uploaded in our internal systems.

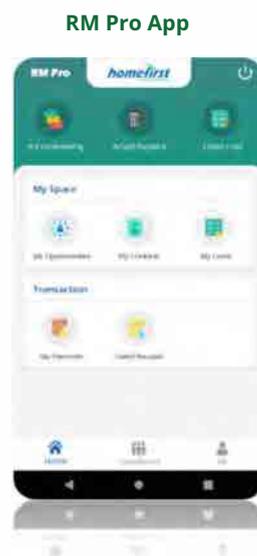

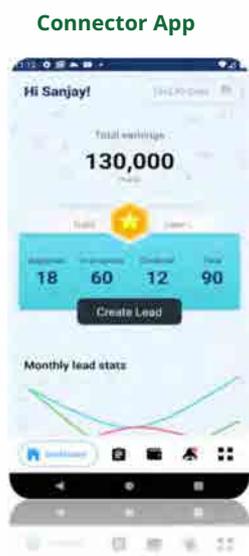

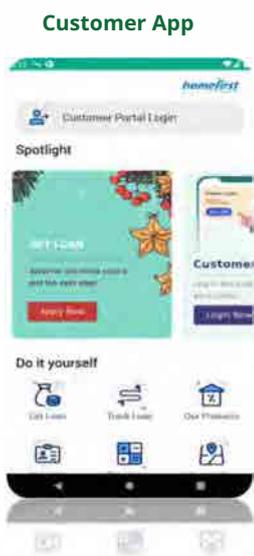

b. E-Sign: We have launched systems for Aadhar based E-signature of loan documents,. We believe that over time this will result in savings on printing, storage and transaction costs.

c. E-KYC: We have set up systems for E-KYC of customers, including KYC verification, geo tagging of the customer and facial matches.

d. E-Vault: E-signed loan sets will be stored in E-vault.

e. Biometric authentication on Customer App

f. Instant Soft-Approval of Loans on App – A potential customer can self-onboard on our website or mobile application in 4 easy steps.

Tech in Risk Management

Risk management is integral to our operations – be it financial or non-financial risks. We have a risk management framework in place to identify, manage and mitigate the risks faced across various business operations. Our risk management initiatives include obtaining a better understanding of the geographies we are based in, optimising tech usage in underwriting the loans and deploying initiatives for an efficient and effective collections system. Our customer relationship management and loan origination system is integrated with our loan management system, which is set up on a leading cloud-based platform. Tie-ups with third-party aggregators assist in taking more

efficient underwriting decisions. This helps mitigate credit risks. The bounce predictor enables us to take early steps to predict potential defaults. We also have an IT Policy in place which sets out processes and controls to mitigate the IT risk arising on account of inadequacies or failure of technical infrastructure or IT systems which can have an adverse impact on the availability, integrity, accessibility and security of the data and the IT infrastructure. We have a well-established IT infrastructure that ensures performance stability and flexibility as well as IT security. The loan processing applications of the company are built on a globally recognized platform with low downtime and low security risk.

Sustainable Building Materials

Sustainable building materials are made of recycled ingredients. AAC blocks have fly ash, a by-product from the thermal power plants as their primary ingredient, instead of soil that is used by red bricks. M sand instead of river sand is a great choice and the usage of low-energy materials for flooring, furniture, partitions, false ceiling, etc is picking up pace in the home construction. Vitrified / Ceramic tiles do not require energy for polishing, plywood / engineered wood instead of teak wood is also considered to be eco-friendly.

Management Discussion and Analysis

We have prepared a comprehensive overview of the housing finance space sequenced as macroeconomic view, industrial and exports revival in India, rising middle class, digital leap frogging and housing demand drivers.

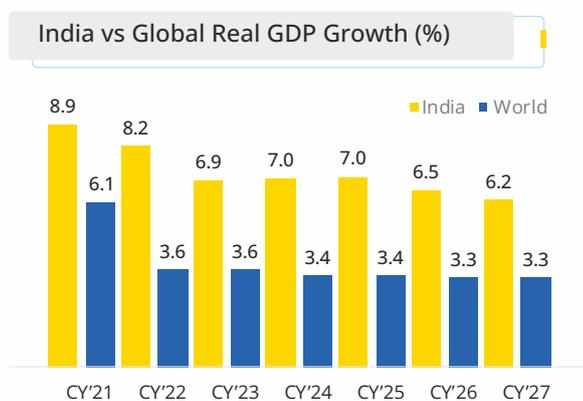

FY22 Macroeconomic Overview

Economy Back to Growth, Business As Usual

It is a big relief to see world economy getting back on growth. India started seeing economic revival in Q3FY21 and FY22 is certainly a turnaround year. Countries have adapted to Covid and consequently economies have opened up. This is due to higher inoculation of populations with vaccines. Environment is very positive.

According to IMF's World Economic Outlook (Apr'22), the world economy is projected to grow by 3.6% each in 2022 and 2023 from a growth of 6.1% in 2021 and normalize in the range of 3.3%-3.4% over the medium term. India is the third largest economy on PPP basis as per World Bank and is projected to fare better than peers with an impressive estimated growth of 8.2% in 2022 and 6.9% in 2023. As per various leading research institutions, Indian economy has the potential to deliver the highest GDP CAGR globally in the medium term amongst large economies, driven by various structural policy measures taken by the Indian government.

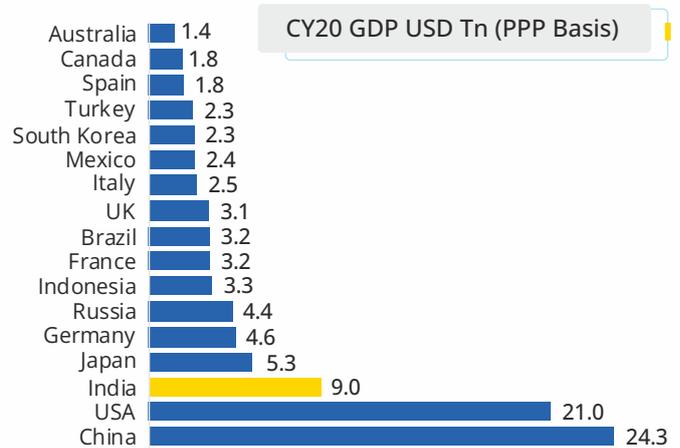

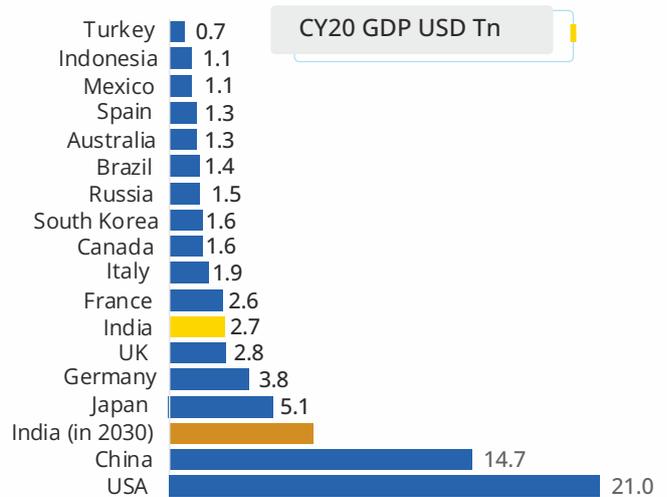

Exhibit: Indian Economy GDP growth & Global GDP growth

Source: IMF, World Economic Outlook, Apr'22

India is expected to be the third largest economy (non-PPP) in 2030 from its 6th position currently only after USA, China, Japan and Germany and United Kingdom. India is already 3rd highest economy on PPP basis after USA and China.

Exhibit: Indian & other major economies ranking (CY20).

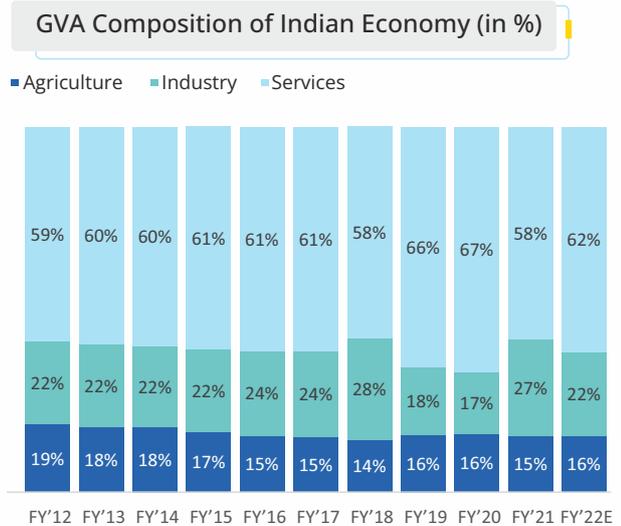

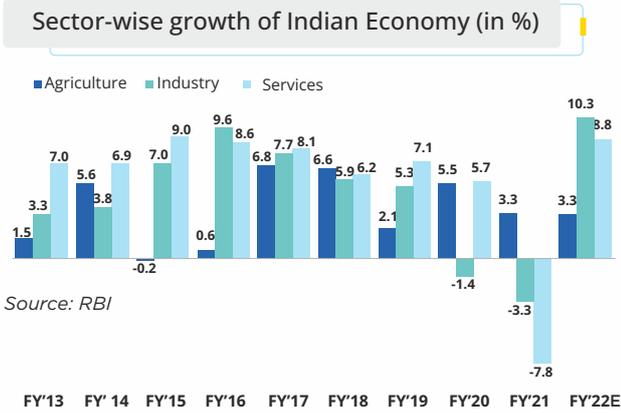

Source: World Bank

Indian economy's three major pillars are expected to witness growth in FY22; with Industry sector growing the highest at 10.3% vs decline of 3.3% in FY21. However, services sector growth has also been robust at 8.8% despite its higher share in GDP.

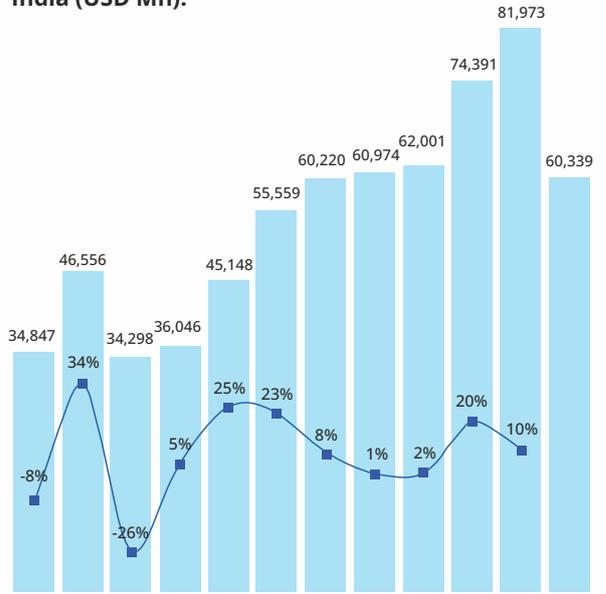

Management Discussion and Analysis

Exhibit: Indian Economy contribution by 3 major sectors.

India has always been a preferred economy within emerging markets when it comes to long-term investments by foreign investors. During FY21, India received USD 82bn of investments which is also the highest India has ever received. This is again due to long-term prospects of the economy, stable government and its structural policies for a reliable business operation, growing middle class population with higher share of working-age population.

Exhibit: Foreign Direct Investments received by India (USD Mn).

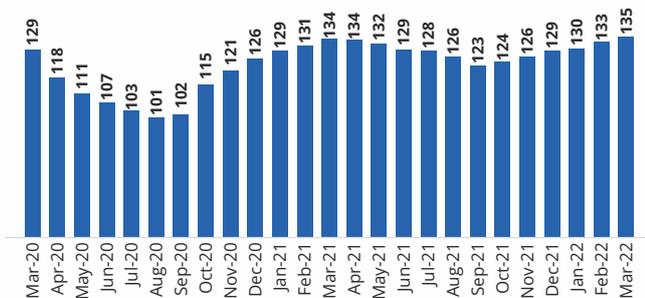

Source: Department for promotion of industry and internal trade. Note that FY22 is for 9 Months

Indian economy will benefit from structural positives like i.e. transition to higher urbanization, higher discretionary spending, government push on transparency through digitization (for eg: Faceless Tax Assessment, FASTag, digitalization of land records, etc) and government push for reforms in various sectors are expected to continue to drive GDP growth in medium to long term. India's medium-term growth is supported by demand-side stimulus provided by the current fiscal budget promoting an uptick in public investment with main focus on Infrastructure investments.

Post Covid Wave 2, GST collections have been strong with a monthly run-rate of 1.4 Tn. It reached an all-time high of 1.41 Tn in the month of Jan'22. It is expected that GST collections will remain robust on the back of strong recovery and government reforms like PLI, etc that have given a boost to the manufacturing sector. FY22 saw an average of 1.24 Tn monthly collection.

Industrial Capex expected to get a boost from Private capex & PLI Scheme's positive Impact

Industrial capex is expected to pick up, driven by conducive government support through policy measures such as the Production-Linked Incentive (PLI) scheme, reduced tax rates, accommodative monetary policies, lower interest rates, commodity upcycle which has

benefitted metal and cement players by repairing their balance sheets, rising merchandise exports, supply chain diversification, healthy balance sheets and global liquidity. Government capex has a higher multiplier effect of 3.25x on economic output. It also has a 'crowd in' effect on private investment, inducing a disproportionate increase in investments in the economy.

Since its introduction in March 2020, PLI has been announced for 15 sectors, involving government incentives to the tune ₹1.93 Tn. Of this, 50-60% is to be spent on sectors with domestic manufacturing and export focus, and the rest on import localisation. As per research reports, of the ₹2.5-3 Tn potential spend under the scheme, 60% is already approved by the government and major spending set to occur over fiscals 2023-2026. PLI schemes will account for up to 13-15% capex in key sectors and incremental revenue of ₹30-35 Tn over the scheme period. The approved capex for PLI schemes is in 10 sectors. While capex in mobile, pharma and telecom has already kicked off, that in capital-intensive sectors such as automobile and solar photovoltaics, which form 70% of the committed investment, will kick off from April 2022. The key changes brought upon by the PLI scheme are in terms of bringing integration across supply chains, reducing import dependencies, and propelling exports.

PLI scheme is particularly attractive for mobile phones, electronic components, telecom equipment, and IT hardware, which have high dependence on imports across value chains and relatively lower domestic base. The rate of incentives offered under the PLI scheme are measured as a percentage of incremental sales over the 5-7-year scheme period and vary from 4-6% for mobiles and white goods and 5-20% for active pharma ingredients to 8-18% for autos and auto-components.

Management Discussion and Analysis

The scheme has received interest from over 900 players across sectors, of which ~350 have got approval so far. Of the approvals, 20% have been received by global multinationals and the rest by domestic players. Also, 50% of the bidders are large in terms of revenue, while the rest are medium and small players.

As per recent comment from Chief Economic Advisor of India, bank credit is beginning to pick up especially in MSME sector and by 2HFY23, capital expenditure in the private sector will pick-up. RBI survey has shown a jump in capacity utilisation by the industry to 72.4% and the top four firms in several sectors are already operating at over 80%. This also highlights the pick-up in economic activity in India.

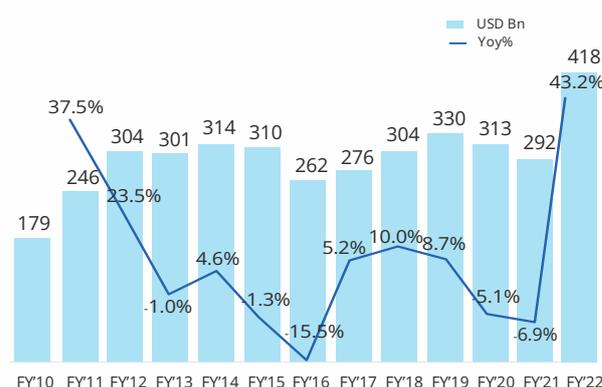

High Share of Indian Exports in our Focused States

In FY22, India has delivered its highest ever merchandise export figure of USD 418 bn and overall exports (merchandise + services) also reached an all-time high of USD 670bn. Services sector touched USD 250 bn for the first time (all-time high) despite Covid disruption in sectors like tourism, aviation and hospitality. In FY22, India has seen a significant jump in the growth of non-oil, non-gems & jewellery exports at about 34%. This has raised the confidence of entrepreneurs regarding India's global competitiveness. As per CII, India is poised to target \$1 Tn of merchandise exports and a similar level for services exports by 2030. Electronics, Machinery, vehicles, pharmaceuticals and plastic products are top five categories that have the potential to contribute the most to the \$1 Tn target. India has demonstrated effectively that it is fully capable of meeting global demand, adhering to international quality standards and ramping up capacity with flexibility within a short time period.

While global trade growth may revert to its usual trend line next year, India can strategize to acquire a greater share of global exports by building manufacturing capacity for its existing product base as well as looking at emerging products. The recent production linked schemes in some of these sectors would go a long way in raising manufacturing investments and production.

Aside from the supply-chain integration benefits of PLI, it will also aid exports. Of the 15 sectors, nine show an export potential of ₹11 Tn, ranging from 20-80% of the incremental revenue generated.

Rising Middle Class - Secular Opportunity for Housing Finance

Most examples of rapid & sustained economic growth coincide with the development and expansion of the middle class. Once the size of the middle class passes a threshold size, a virtuous cycle is initiated. A bigger middle class spends more, saves and invests more, leading to higher business activity and profits. The evolution of middle class is also correlated with rapid urbanization. Empirical evidence, based on India's household surveys, changing demographics and

favourable trends in urbanisation, show that a massive shift towards a middle-class society is already in the making in India. As per a recent CII report "Harnessing India's Demographic Dividend for Boosting Growth", a whopping 24.3% of the incremental global workforce over the next decade will come from India and this golden period between 2020-50 is when the country's working age population will bulge and will be an important enabler for economic growth. Income growth will transform India to a truly middle-income country, with consumer spending growing from \$1.5 Tn to nearly \$6 Tn by 2030.

Exhibit: India will have more middle class people than any other country. India's middle-class growth is predicted to accelerate. From 2027 India's population is set to overtake China's and the middle class will overtake that of the United States, Europe and China.

The Global Middle-class Wave

Global middle-class consumption will shift heavily toward China, India and other Asian countries (excluding Japan) as the high-income countries see their share decrease.

Management Discussion and Analysis

India is currently the third-largest middle-class market, after China and the United States, and is expected to be the largest in another decade. India would soon have a middle class that is as large as that of the US population. Compared to China, India's middle class is more dynamic since it is expected to have a growth rate of 8.5% until 2030. According to World Bank, by 2030, over 70% of China's population could be middle class, but **India could be the world's largest middle class consumer market, surpassing both China and the U.S. with its sheer size.**

In aggregate, China and India will represent roughly two-thirds of the global middle-class population and 59% of middle-class consumption that is expected to total \$64 Tn by 2030. Middle-class spending in 2015 was roughly \$35 Tn, and was concentrated in the U.S. and Europe. As per experts, by 2030, the middle-class in India and China together will be spending more than the combined middle-class spending in Europe and the US in 2015.

Digitisation Momentum Continues to Benefit Economy

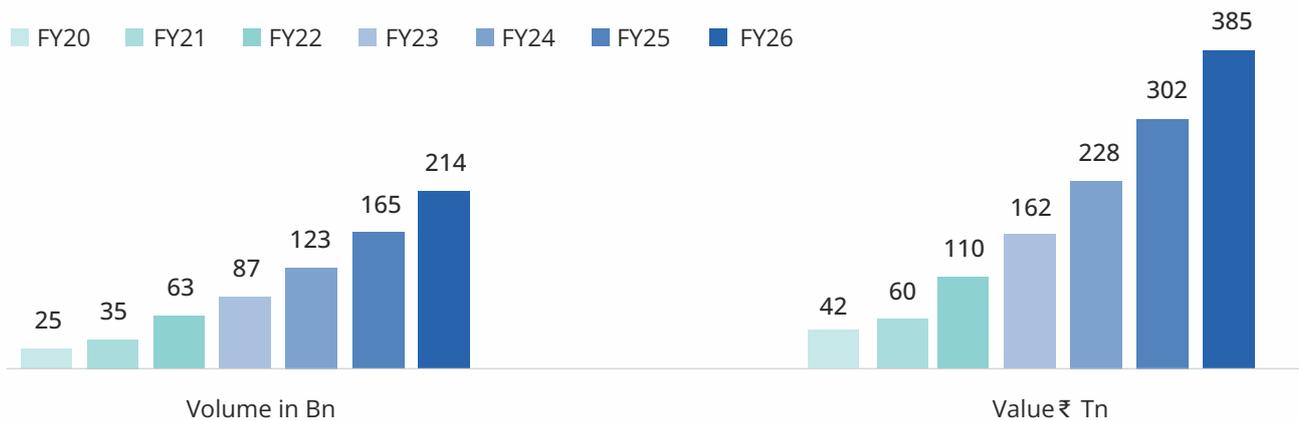

We believe that companies with better technology capabilities backed by talented workforce and strong leadership will witness superior performance in the new world. There is an increased willingness of customers to avail financial services through digital channels. This has also helped in penetrating new regions. We have been proponents of technology usage almost since the inception of the company as we

believe this will drive speed and scalability for the company. Banks and non-banking financial companies are now more focused on providing integrated solutions. Digital payments have evolved from being viewed as a cost centre for banks to a revenue centre and a key lever for customer acquisition. As per various research reports, India is poised to have 1 bn smartphone users by 2025, propelled by 5G implementation. This will support operations of tech focused companies like HomeFirst. Focus on technology has been a matter of habit for us.

UPI payment method has transformed Digital Payments in India. Within the past half decade, UPI adoption has increased multi-fold. In the month of Feb'22 & Mar'22, UPI transactions crossed ₹ 8 Tn each (USD 105 Bn), which solidifies the quick adoption of

digital channels by India population. The quantum of digital transactions in India is highest globally and even crossed China. As per PWC, UPI based transactions are expected to show 30% value growth between FY22 and FY26 and touch ₹ 327 Tn from ₹ 85 Tn respectively.

Management Discussion and Analysis

Bharat Bill Pay System (BBPS) is also widely used mode of payments in India. Electricity bill payment contributes 57% of the total, whereas loan repayments contributes 21% of the total. The role of Fintech's focused on digital payment has been very important in achieving the growth seen in BBPS mode. BBPS has grown from ₹ 91 Bn to around ₹ 430 Bn just between two years FY20 and FY22 and is further expected to

deliver 30% growth by FY26 touching ₹ 4,701 Bn in value terms. This is almost 4x from today's level. These disruptions in digital payment have immensely benefited HomeFirst and with further digitalisation, the efficiency and timely execution will be the key moat in businesses going forward in a hyper-competitive world.

The hyper-growth in digital payments in the past and expectation from future would not have been possible without increasing smartphone penetration and low data cost in India. As per research report, by the year CY'25, India will see about 60% penetration of smartphone or about 860 mn smartphones being actively used. Also, with 5G telecom auction in the near future, smartphone adoption will be faster and inevitable with affordable phones.

Indian Housing Demand Scenario & Housing Finance Opportunity

India's real estate sector, which is a \$200 Bn market currently, has come out of the disruptions caused by the Covid and is on the path to become a \$1 Tn industry by 2030. With growing urbanisation, nuclearization, increasing working population coupled with increasing per capita income, demand for housing will see a rise. As per a report by Knight Frank, there will be a housing gap for about 97 mn households by 2030, up from 70mn households in 2019. These numbers are very close to that in the RBI document published in 2019.

Source: Knight Frank's report titled "State of the Affordable Housing Sector in India".

As per the above table, the total opportunity in affordable housing segment is around USD 146bn or ₹111Tn between 2019-30. This implies immense potential for the housing finance market.

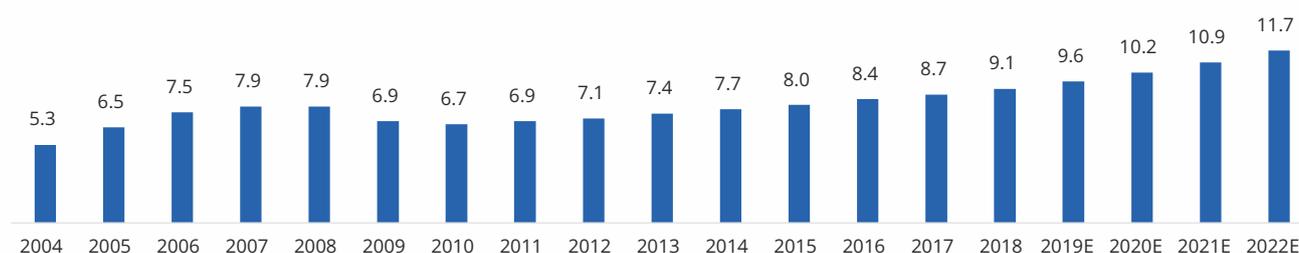

The Indian housing finance market grew at ~16% CAGR over FY15-21 owing to rise in disposable income, healthy demand, government impetus on housing and more market players catering to different segments. It is estimated to grow in the range of 8-10% CAGR. HFCs accounted for 41% share of the total home loan outstanding amount as of Sep'21. The growth of HFCs is faster on account of deeper reach, focused approach, and expertise in this segment.

As per credit bureau, the overall affordable housing outstanding credit growth grew at a CAGR of ~10% during FY15-21. The major growth drivers being increase in penetration of financiers in rural and semi-urban areas, favourable demographics, government push to promote "Housing for All", and improved affordability of borrowers. The affordable housing market outstanding is ~ ₹9.2 Tn as on FY21 and as per various research, it is projected to grow by at least 9-10% CAGR in the medium term to touch ~ ₹22 Tn by FY30. In volume terms, affordable housing loans comprises majority of overall housing loan volumes.

Strong Momentum in Housing Sale Deed Registration in FY22

Indian Housing Sector has seen a strong inventory absorption in the past 18 months supported by pent-up demand, improved affordability, all-time low home loan interest rates, and certain state incentives etc. For Example, Maharashtra, within the first 11 months of FY22 has earned ₹5,671 Crs from property registrations; 63% per cent higher than ₹3,474 Crs in FY21.

The heightened activity in property registrations is expected to surpass all-time high revenue of ₹ 5,878 Crs of FY18.

The major growth drivers supporting higher mortgage penetration are:

Apart from the positives highlighted on domestic economy, there are some specific drivers of housing sector growth positively impacting financing business.

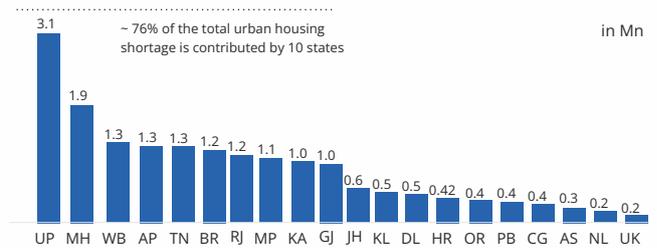

Management Discussion and Analysis

- Increasing Population:** The pace of rising population will propel India to the most populated country by 2050. India is currently the second most populated country in the world after China. India's population currently stands at 138 Crs which is expected to rise to 155 Crs by 2035 and 164 Crs by 2050. This is one of the key driver to rising housing demand potential in the country.
- Covid led to change in house ownership dynamics:** As per various surveys, reverse migration has further supported an increase in housing demand in tier II/III cities. This is validated by the strong recovery seen in Real Estate sector in FY22. Also, as per experts, the demand dynamics of the Indian real estate have undergone a change during pandemic. Buyers are demanding homes which offer more liveable space. The residential property now doubles up as an office corner, virtual workouts as well as a place for online schooling.
- Initiatives to boost housing ownership by government:** Initiatives such as Income tax deductions along with various regulatory measures to boost liquidity and demand for housing have been instrumental in boosting the housing demand in the past. We expect that these will continue going forward as well given that housing ownership in India is low as compared to other countries.

Exhibit: 76% of the total urban housing shortage is contributed by 10 states. We have presence in 8 of them.

Housing Shortage by State

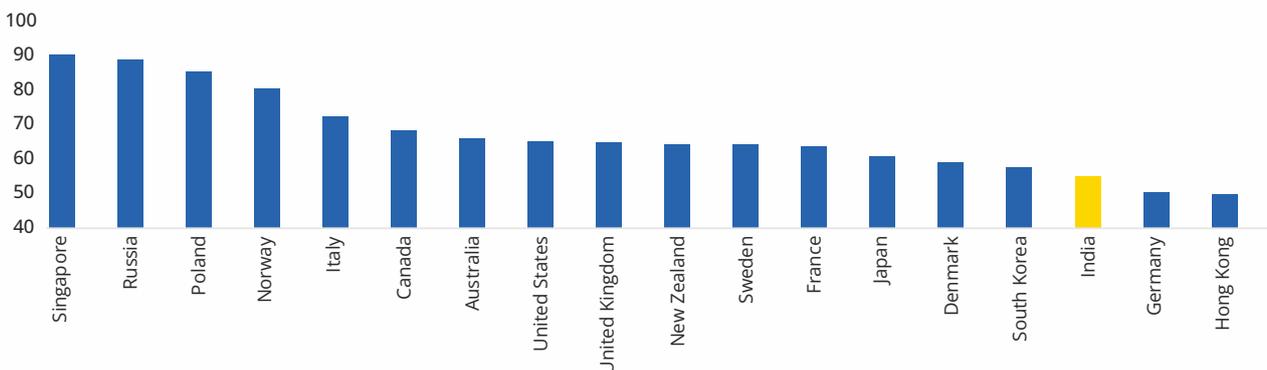

Source: Report of the Technical Urban Group on Urban Housing Shortage (TG-12)

- Urbanization:** According to Census 2011, Urbanisation in India rose from 28% in 2001 to around 31% by 2011. Currently it is around 36% as per World Bank. Urban population is expected to cross Rural population in the year 2045 and to reach 53% by 2050 as per United Nations report on World Urbanization Prospects 2018 Revision. Higher urbanisation is expected to boost demand for housing in urban areas. It is estimated that around 70-75% of India's GDP will be contributed by Urban centres by 2030.

5. **Strong relation between rising Per-capita income & mortgage penetration:** As per IMF estimates, India's per capita income (at constant prices) is expected to grow at 7.8% CAGR from FY20 to FY25 rising from USD 1877 in 2020 to USD 2729 by FY25. The per capita income is expected to grow along with improvement in GDP growth. As per ADB, higher per capita income leads to higher discretionary income which will lead to higher spending including buying of larger housing space. This can be corroborated with the trend of

mortgage to GDP seen in the USA from 1946 to 2000. In 1946, per capita income in the USA was at similar levels as where India is at now (~\$2000 non-PPP adjusted). As incomes rose from \$2000 to \$5000 (between 1946 to 1973), mortgage penetration has increased from 12% to 30%. If adjusted for PPP, India is at similar levels to where USA was in 1973. Incomes in the USA have increased from \$6000 to \$35,000 over 1973 to 2000 and mortgage to GDP has moved from 35% to 52% in the same period.

China shows a similar co-relation. The mortgage to GDP ratio of China has grown from 12% in 2008 to 34% in 2021. The per capita income of the country has increased from USD 7,600 to USD 17,700 during the same period. India has started a similar journey with mortgage penetration in the country increasing from 7.9% in 2008 to 11.0% in 2021 that is correlated to the increase in per capita income of the country from USD 3,700 in 2008 (PPP) to USD 7,300 in 2021 and set to enter a period of sharp growth.

6. Nuclear Families Led Consumption: Reducing average household size driven by changing lifestyle of people, changing social culture, and increased mobility of labour is expected to continue in future. The average household size has reduced from 5.5 persons in 1991 to 4.8 persons in 2011 as per Census 2011. Nuclearization is also expected to drive housing demand.

7. Working Population led Economic growth: As per Economic Survey FY19, working age population will grow by 9.7 million per year during FY21-31 and 4.2 million per year during FY31-41. Favourable demographics coupled with declining age of home loan borrowers, growth in salaries/incomes and increasing preference to accumulate assets is also expected to boost mortgage penetration in India.

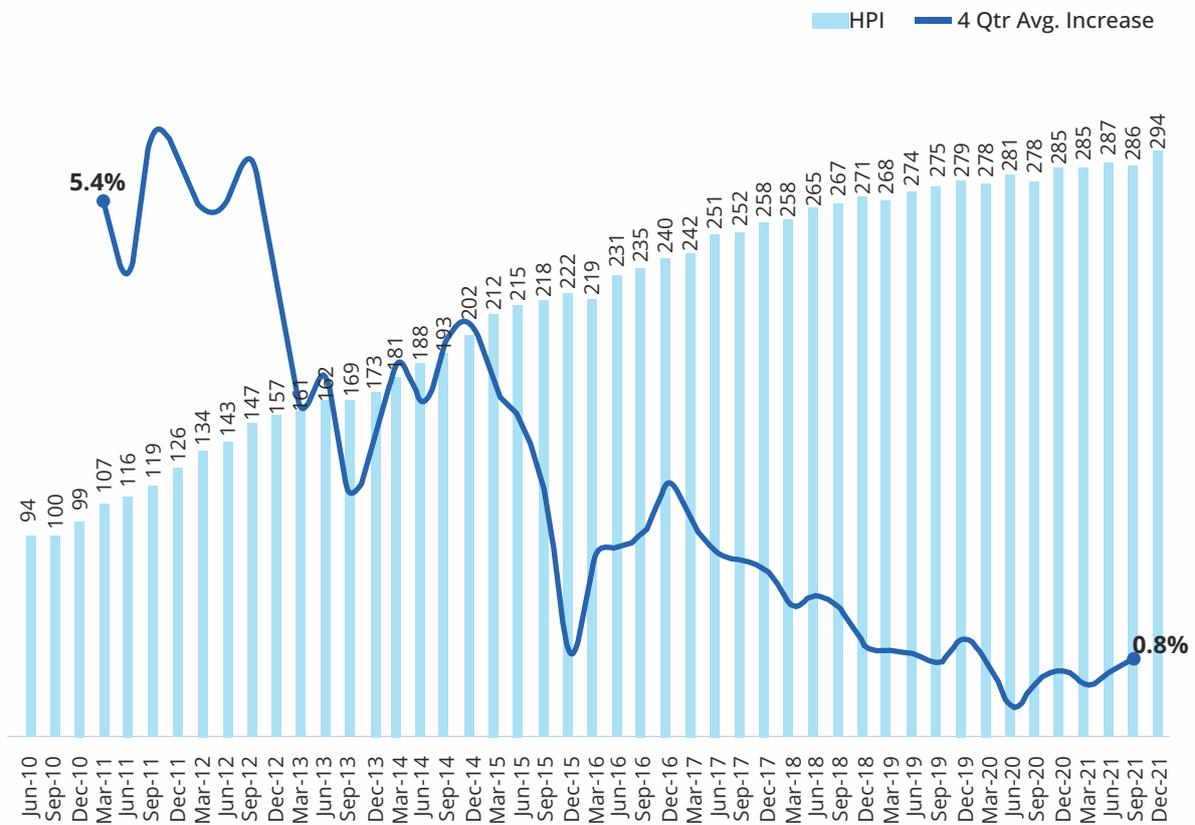

Management Discussion and Analysis

8. Stable Housing Prices driving affordability:

As per RBI statistics, the affordability of housing is at its highest and as shown in the chart below, the housing price rise has slowed down since mid of

2017. With lower price levels of houses and lower interest rates, the housing demand is expected to be strong.

15. **Policy Review**

In case of any subsequent changes in the provisions of the Act and the Rules framed thereunder, the Act and its Rules would prevail over the Policy and the provisions in the Policy would be modified in due course to make it consistent with law. The Board shall have the right to amend the Policy from time to time, based on recommendations of Audit Committee. The Policy shall be reviewed as and when required, However, it shall be reviewed earlier if need arises for the same and/ or under special circumstances, for example a change in law.

Report of the Directors on Corporate Governance for FY22

Company's philosophy on Corporate Governance

Corporate governance offers a comprehensive and interdisciplinary approach for the Company's management, operation and control. It is the use of best management practices, strict compliance to the letter and spirit of the law and adherence to superior ethical standards. Corporate governance is essential to the company's survival and is needed to create a corporate culture of transparency, accountability and disclosure.

Your Company's corporate governance framework incorporates a system of robust checks and balances between the prominent players; namely, the Board, its committees, the management, auditors and various other stakeholders. The Board of Directors and management of your Company place a greater emphasis on maintaining oversight and integrity in governing the Company and conducting business operations.

The Corporate Governance practices followed by us are commensurate with the size of the Company and in the best interest of our shareholders, employees, consumers, the community and other stakeholders. The Company has adopted improved and efficient governance structures to ensure quality decision-making, facilitate effective succession planning for senior management and enhance the long-term prosperity.

We also believe in formulating better regulatory and self-regulatory corporate governance frameworks and enforcement mechanisms. Our corporate governance framework ensures that it makes timely, adequate and appropriate disclosures and disseminates factual and accurate information.

The Board of Directors

The Board holds a fiduciary position and is entrusted with the responsibility to act in the best interests of the Company and ensure value creation for all. Through the Governance mechanism in the Company, the Board along with its committees assumes its responsibility towards all its stakeholders by ensuring transparency, fair play and independence in its decision making.

The contribution of the Board is critical for ensuring appropriate guidance with regard to leadership, vision, strategy, policies, monitoring, supervision, accountability to shareholders and other stakeholders, and for achieving greater levels of performance on a sustained basis as well as adherence to the best practices of corporate governance.

We further endorse the importance of a diverse and more inclusive Board, which brings a valuable range of outlooks, opinions and suggestions regarding decision-making and problem-solving. Board diversity can open a path to more inclusive and collective corporate governance, positively impact a company's culture, and help keep pace with an evolving market and consumer base.

Board Diversity:

To ensure that a fair and transparent process is in place to encourage diversity in thought, knowledge, skills, experience, age and gender, perspective, functional and industry experience, cultural and geographical background, the Board has adopted the "Policy to promote diversity on the Board of Directors" as recommended by the Nomination and Remuneration Committee.

We recognize the benefits of having a diverse Board, and see increasing diversity at Board level as an essential element in maintaining a competitive advantage.

The present Board comprises of adequate number of members with diverse backgrounds that best serve the governance and business requirements of the Company. The directors are persons of eminence in their respective fields and bring with them a plethora of skills and experience that add value to the performance of the Board.

Role of Independent Directors

The role of Independent Directors is important in the decision-making process of the board as they approve the overall strategy of the Company and oversee performance of the management. The Independent Directors bring along an extensive experience, knowledge and judgment in the field of accounts, housing, credit & risk, finance etc. This wide knowledge of both, their field of expertise and boardroom practices brings in varied, unbiased, independent and experienced perspectives. All Independent Directors have committed and allocated sufficient time to perform their duties effectively.

Directors' Report

Declaration of Independence:

All the Independent Directors have submitted a declaration of independence, stating that they meet the criteria of independence provided under section 149(6) of the Act, as amended, and regulation 16(1)(b) and 25 of the SEBI Listing Regulations. The Independent Directors have also confirmed compliance with the provisions of Rule 6 of Companies (Appointment and Qualifications of Directors) Rules, 2014, as amended, relating to inclusion of their name in the databank of independent directors maintained by Indian Institute of Corporate Affairs.

All Independent Directors of the Company have been appointed as per the provisions of the Companies Act, 2013 and SEBI Listing Regulations. Formal and detailed letters of appointment have been issued to the Independent Directors. The terms and conditions of appointment of Independent Directors are available on <https://homefirstindia.com/files/Terms-Conditions-for-Appointment-of-Independent-Director.pdf>

In the opinion of the Board, the Independent Directors are independent of the management. Mr. Sakti Prasad Ghosh and Ms. Sujatha Venkatramanan independent directors resigned before the expiry of their tenure due to advanced age and professional commitments respectively and they confirmed that there are no other material reasons other than those mentioned in their resignation.

Familiarization Programme:

Your Company, on an ongoing basis strives to keep the Board, specifically the Independent Directors informed and updated with matters related to the industry and business environment in which we operate, our business model, risk metrics, mitigation and management, ever evolving governing regulations, information technology including cyber security, their roles, rights and responsibilities and any other major developments and updates.

All new Independent Directors are taken through a detailed induction and familiarization programme,

that covers the history, background, cultures, values, organizational structures, board procedures and overview of the business operations of the Company. The Company has also provided directors with a reference manual which inter alia covers the roles, functions, powers and duties of the directors, disclosures and declarations to be submitted by directors and various codes and policies of the Company.

The induction and ongoing programmes enable the Independent Directors to take better informed and conscious decisions, in the best interests of the stakeholders of the Company.

The details of familiarization programme imparted to the Independent Directors and the policy of the Company are available on the Company's website at <https://homefirstindia.com/files/Familiarisation-Programme-of-the-Independent-Directors.pdf>

Directors' Report

Procedure of Postal Ballot:

The Company provides facility to exercise votes by means of postal ballot through remote electronic voting system, in addition to physical ballot. Postal ballot notices and forms are dispatched to the members with the postage pre-paid business reply envelope to members/beneficial owners through email at their registered email IDs and through physical copy to the members who have not registered their email IDs. For FY22, in view of the COVID-19 pandemic and the circulars issued by MCA, postal ballot notice was sent through e-mail only, to all those members who had registered their e-mail ids with the Company/depositories. The Company also publishes notice in the newspapers for the information of the members.

A scrutinizer is appointed for conducting the postal ballot process in a fair and transparent manner. Voting rights are reckoned on the equity shares held by the members as on the cut-off date. The scrutinizer submits his report on the postal ballot to the Chairman, and the voting results are announced by placing the report on the website of the Company and by communicating to the Stock Exchanges.

Means of Communication

Directors' Report

Credit Approval and Disbursement

We have set up a robust credit approval process comprising the following stages:

Initial Screening and Pre-Sanction Check

Customer leads are logged into our system which are pursued and reviewed completely by our in-house team of well-educated and trained relationship managers. Each lead is checked against KYC, credit bureau and other third-party databases to establish customer credentials. We have an efficient paperless process to onboard and verify customers as well as determine their eligibility. Our relationship managers conduct workplace and residence verifications and submit the loan application on the central platform – this is then cross-checked by our underwriting and operations team for a number of factors including completeness of application form, KYC, eligibility, fraud check, credit bureau, income assessment, loan-to-value, value of collateral, bank statements, debt burden and third party databases for income and asset ownership.

Customer Credit Underwriting

We have a centralized underwriting process, assisted by a data-science backed customer-scoring model to evaluate a customer's ability to repay the loan and maintain consistency in underwriting procedures across branches and regions. Further, our integrated customer relationship management and loan management system allows our underwriters to conduct the credit appraisal process in a quick and efficient manner. We have also integrated our systems with third-party databases to obtain additional customer data points. This helps us gather data to assess credit worthiness of the customers and conduct a fraud check in case of any discrepancies.

Property Underwriting and Disbursement Process

At the time of sanctioning the loan, we assess the value of the collateral. Our teams initiate a legal and technical assessment through third party vendors to verify the authenticity of the legal documents, the title to the property and its market value. We have set up a legal and technical portal to simplify the process of

evaluation of the property. Our proprietary machine learning backed property price predictor coupled with geo-tagging of properties further assists in reducing our turnaround times for approving loans and improving accuracy in determining loan to value ratio.

Loan Collection and Monitoring

We have set up a robust and tiered, collections management system with prescribed collection action at each stage of severity of default. All our borrowers register for an automated debit facility, which reduces our cash management risk, and we track the status of installments collected on a real time basis through a collections module. We employ a structured collection process wherein we remind our customers of their payment schedules through text messages and automated calls to maintain adequate balance in their account on the due date. We also use models to predict probability of bounce, which helps us in obtaining early signals of potential bounce and initiate action such as pre-emptive reminder calls. Our collection process is completely managed by our branch teams (inhouse) and a significant portion of our employee incentives are dependent on collections.

We initiate recovery action immediately after the customer defaults in their monthly payment and the severity of our action increases as the number of days past due increase. At one day past due, our front-end field teams call customers and initiate visits to understand reasons for default and recovery of the dues. At 30 days past due, while our employees continue to engage with the customer, we send a default notice or loan recall notice depending upon the severity of the case. At 60 days past due, we send a pre-SARFAESI notice and our employees increase the visit frequency and reiterate the repercussions of the loan default to the customer. Thereafter, at 90 days past due, we seek to resolve cases by initiating legal action through SARFAESI.

2. 9. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Remote payment link is sent to customers to make payment – thus the effort to collect cash payments is reduced	The Relationship Manager can collect payments from customers remotely from anywhere using RM Pro App. The RM has to send the payment link using the app to the customer. The payment can be tracked on the App.	Reduced number of cash collections – saving time and efforts of the relationship manager and providing convenience to the customer as well. This also reduces fuel consumption and prevents health impact on our employees.
2	Digital loan agreements	Our customers can E-sign the loan agreements and do not have to come to the branch office physically to sign the document.	This feature provides convenience to the customer to execute the agreement at his/her home. Further, E-signing saves paper and storage space. This also reduces fuel consumption and prevents health impact on our employees.
3	Customer App	Customer App is a feature rich app that can be used for raising queries, downloading statement of account, making part payments, refer a prospective customer, locate the nearest branch, etc.	Customers don't have to visit the branch to avail these services -saving time, fuel and effort.
4	Directive to purchase 3 Star+ electronic Appliances	As an environmentally friendly and responsible company, we strive to use energy efficient appliances and consequently have issued the directive to purchase only such compliant devices henceforth.	Energy consumption is reduced due to usage of energy efficient devices.

Waste Management

With 60+ million tonnes of waste generated by our country every year, the mantra is - Reduce. Reuse. Recycle. While organic waste can be recycled by installing small compost pits, usage of inorganic materials like plastic must be reduced and replaced with eco-friendly material like jute bags.

At HomeFirst, adopting more technology not only makes processes more unbiased and swifter but also helps prevent wastage of natural resources. From e-KYC to e-verification, technology helps us save both paper and fuel.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF HOME FIRST FINANCE COMPANY INDIA LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Home First Finance Company India Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. The matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

<u>Key Audit Matter</u>	<u>Auditor's Response</u>
<u>Impairment of loans</u>	<u>Principal audit procedures performed</u>
Management estimates impairment provision using Expected Credit loss model for the loan exposure as per the Board approved policy which is in line with Ind AS and the Regulations. Auditors' Report

Information Other than the Financial Statements and Auditors' Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis and Directors' Report (the "Reports") but does not include financial statements and our auditors' report thereon. The reports are expected to be made available to us after the date of this auditors' report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 (Revised) 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation

and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate

Auditors' Report

internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to

communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The financial statements as at and for the year ended March 31, 2021, have been audited by the predecessor auditor. The report of the predecessor auditor on the comparative financial statements dated May 03, 2021 expressed an unmodified opinion.

Our opinion on the financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

Auditors' Report

- e) On the basis of the written representations received from the directors as and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration has been paid by the Company to its directors during the year in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations as at year-end which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts as at the year-end for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Refer note 53 to the financial statements.
 - (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the notes to accounts, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Refer note 53 to the financial statements.
 - (c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement
- v. The company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
2. As required by the Companies (Auditors' Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Report on Internal Financial Controls Over Financial Reporting

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of **HOME FIRST FINANCE COMPANY INDIA LIMITED** (the "Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain

reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Auditors' Report

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Auditors' Report

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) According to the information and explanations given to us, in respect of Property, Plant and Equipment & Intangible Assets.
 - a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment. The Company has maintained proper records showing full particulars of intangible assets.
 - b) The Company has a program of verification of Property, Plant and Equipment, so to cover all the items once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c) The Company does not have any immovable properties and hence reporting under clause 3(i)(c) of the Order is not applicable.
 - d) The Company has not revalued any of its Property, Plant and Equipment including Right of Use Assets and intangible assets during the year.
 - e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii)
 - a) The Company does not have any inventory and hence, reporting under clause 3(ii)(a) of the Order is not applicable.
 - b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, at points of time during the year, from banks on the basis of security of current assets. In our opinion and according to the information and explanations given to us, the quarterly returns or statements comprising book debts statement filed by the Company with such banks are in agreement with the unaudited books of account of the Company of the respective quarters and no material discrepancies have been observed.
- (iii) During the year, the Company has made investments in and granted loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties. The Company has not provided any guarantee or security to any other entity during the year. With respect to such investments and loans and advances:
 - a) The Company's principal business is to give loans, and hence reporting under clause 3(iii)(a) of the Order is not applicable.
 - b) The investments made and the terms and conditions of the grant of all the loans and advances in the nature of loans, during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.
 - c) In respect of loans and advances in the nature of loans (together referred to as "loan assets"), the schedule of repayment of principal and payment of interest has been stipulated. Note 1.3 to the Financial Statements explains the Company's accounting policy relating to impairment of

Auditors' Report

financial assets which include loans assets. In accordance with that policy, loan assets with balances as at March 31, 2022, aggregating ₹1,026.13 million were categorised as credit impaired ("Stage 3") and ₹718.44 million were categorised as those where the credit risk has increased significantly since initial recognition ("Stage 2"). Disclosures in respect of such loans have been provided in Note 4.1 to the Financial Statements. Additionally, out of loans and advances in the nature of loans with balances as at the year-end aggregating ₹42,321.03 million, where credit risk has not significantly increased since initial recognition (categorised as "Stage 1"), overdues in the repayment interest and/or principal aggregating ₹779.61 million were also identified. In all other cases, the repayment of principal and interest is regular. Having regard to the nature of the Company's business and the volume of information involved, it is not practicable to provide an itemised list of loan assets where delinquencies in the repayment of principal and interest have been identified.

- d) The total amount overdue for more than ninety days, in respect of loans and advances in the nature of loans, as at the year-end is ₹577.25 million. Reasonable steps are been taken by the Company for recovery of the principal and interest as stated in the applicable Regulations and Loan agreements.
- e) The Company's principal business is to give loans, and hence reporting under clause 3(iii)(e) of the Order is not applicable.
- f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable.

- (iv) According to information and explanation given to us, the Company has not advanced loans or made investments in or provided guarantees or security to parties covered by section 185 and 186 of the Act. Hence reporting under paragraph 3(iv) of the Order is not applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits during the year and no order in this respect has been passed by the Company Law Board or National Company Law Tribunal or the Reserve Bank of India or any Court or any other Tribunals in regard to the Company. Hence, reporting under clause 3(v) of the Order is not applicable.
- (vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, in respect of the services rendered by the Company. Hence, reporting under clause 3(vi) of the Order is not applicable.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
 - a) Undisputed statutory dues, including Goods and Service tax (GST), Provident Fund, Employees' State Insurance, Income-tax, cess and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities.
 - b) There were no undisputed amounts payable in respect of GST, Provident Fund, Employees' State Insurance, Income-tax, cess and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.
 - c) There were no dues referred in sub clause (a) above which have not been deposited on account of disputes as at March 31, 2022.

Auditors' Report

- (viii) According to the information and explanations given to us, no transactions relating to previously unrecorded income were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 during the year.
- (ix) According to the information and explanations given to us, in respect of borrowings:
 - a) The Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
 - b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
 - c) In our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained, other than temporary deployment pending application in respect of term loans raised towards the end of the year.
 - d) On an overall examination of the financial statements of the Company, funds raised on short term basis have, prima facie, not been used during the year for long-term purposes by the Company.
 - e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause 3(ix)(e) of the Order is not applicable.
 - f) The Company does not have any subsidiary or associate or joint venture and hence reporting on clause 3(ix)(f) of the Order is not applicable.
- (x) a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
 - b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) during the year and hence reporting under clause 3(x)(b) of the Order is not applicable.
- (xi) a) According to the information and explanations given to us, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
 - b) No report under section 143(12) of the Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year and upto the date of this report.
 - c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence, reporting under clause 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us, the Company is in compliance with Section 188 and 177 of the Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements, etc. as required by the applicable accounting standards.
- (xiv) a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto March 31, 2022.
- (xv) According to the information and explanations given to us, during the year, the Company has not entered into any non-cash transactions with its

Auditors' Report

directors or persons connected with him and hence, provisions of section 192 of the Act are not applicable.

- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clauses 3(xvi) a, b and c of the Order is not applicable.

The Group does not have any CIC as part of the group and accordingly reporting under clause (xvi) (d) of the Order is not applicable.

- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

- (xviii) There has been no resignation of the statutory auditors of the Company. Hence, reporting under clause 3(xviii) of the Order is not applicable.

- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, Asset Liability Maturity (ALM) pattern, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material

uncertainty exists as on the date of the audit report indicating that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Act or special account in compliance with the provision of section 135(6) of the said Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable.

- (xxi) According to the information and explanations given to us, the Company does not have subsidiary, associate and joint venture. Accordingly, reporting under clause 3(xxi) of the Order is not applicable.

Company information

Significant accounting policies and other explanatory information. Home First Finance Company India Limited (the 'Company') is a Housing Finance Company founded on 03 February 2010 with offices across various cities in India. It's registered office is located at 511, Acme Plaza, Andheri Kurla Road, Andheri East, Mumbai – 400 059. The Company obtained its license to carry on the business of a housing finance institution from National Housing Bank ('NHB') on 11 August 2010. The Company was converted to a public limited Company with effect from 14 March 2018. The Company's equity shares were listed on National Stock Exchange of India Limited (NSE) and on BSE Limited (BSE) on 03 February 2021.

The Company is primarily engaged in the business of lending of housing loans, loans for the purpose of purchasing a commercial property, loan against property and construction finance.

1. Significant accounting policies

1.1 Basis of preparation of financial statements

Statement of Compliance

The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows (the "financial statements") have been prepared under historical cost convention on an accrual basis in accordance with the Indian Accounting Standards ("Ind AS") and the relevant provisions of the Companies Act, 2013 (the "Act") (to the extent notified) and the guidelines issued by the National Housing Bank ("NHB") and Reserve Bank of India ("RBI") to the extent applicable. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment II rules issued thereafter. Details of the Company's accounting policies are disclosed below.

Presentation of Financial Statements

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". As required by Division III issued under Schedule III of the Act, the Company has presented the assets and liabilities in the

balance sheet in the order of liquidity.

Functional and presentation currency

The financial statements are prepared in Indian Rupees (₹) rounded off to the nearest million unless otherwise indicated.

Basis of Measurement

The financial statements have been prepared on historical cost basis except for certain financial instruments that are measured at fair values.

A historical cost is a measure of value used for accounting in which the price of an asset on the balance sheet is based on its historical cost, it is generally fair value of consideration given in exchange for goods and services at the time of transaction or original cost when acquired by the Company.

Fair value is the price that is likely to be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102 share based payment, leasing transactions that are within the scope of Ind AS 116 Leases.

Fair value measurements under Ind AS are categorised into fair value hierarchy based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access on measurement date.
- Level 2 inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 where unobservable inputs are used for the valuation of assets or liabilities.

Annual Accounts

1.2 Use of estimates and judgments

The preparation of financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Examples of these estimates include useful lives of property, plant and equipment, expected credit loss allowance, future obligations under employee retirement benefit plans, income taxes, business model assessment, share-based payments expenses, determination of prepayment rate, discounting rates, determining lease parameters, etc. Actual results could differ from these estimates. Any revisions to accounting estimates are recognised in the period in which such revisions are made.

The management believes that these estimates are prudent and reasonable and are based upon the management's best knowledge of current events and actions. Actual results could differ from these estimates and differences between actual results and estimates are recognised in the periods in which the results are known or materialised.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

i) Business model assessment

The Company determines its business model at the level that best reflects how it manages group of financial assets to achieve its business objective.

The Company considers the frequency, volume and timing of sale of portfolios in prior period, the reason for such sale of portfolios, and its expectations about future sales activity. However, information about sale of portfolios activity is not considered in isolation, but as part of a holistic assessment of how Company's stated objective for managing the financial assets is

achieved and how cash flows are realised. Therefore, the Company considers information about past sale of portfolios in the context of the reasons for those sale of portfolios and the conditions that existed at that time as compared to current conditions.

Based on this assessment of current conditions and future business plans of the Company, the management has measured its financial assets at amortised cost as the asset is held within a business model whose objective is to collect contractual cash flows, and the contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest (the 'SPPI criterion').

The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

ii) Impairment of financial assets

The measurement of impairment losses on across all categories of financial assets requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk. The Company's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL model, including the calculation of Probability of Defaults (PDs), Loss Given Default (LGD)
- Assessment of qualitative factors having an impact on the credit risk

Annual Accounts

The measurement of all expected credit losses for financial assets held at the reporting date is based on historical experience, current conditions and reasonable and supportable forecasts. The measurement of ECL involves increased complexity and judgement, including estimation of Probability of Defaults (PDs), Loss Given Default (LGD), a range of unbiased future economic scenarios, estimation of expected lives and estimation of EAD and assessing significant increases in credit risk.

It has been the Company's policy to regularly review its model in the context of actual loss experience and adjust when necessary (Refer note 4 and 32).

iii) Income taxes

The Company's tax jurisdiction is in India. Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for certain tax positions.

iv) Share-based payments

Estimating fair value for share-based payment transaction requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

v) Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

1.3 Financial instruments

i) Financial assets

Initial recognition and measurement

Financial assets are recognised when the Company

becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those financial assets classified as at fair value through profit and loss (FVTPL). Transaction costs directly attributable to the acquisition of financial assets classified as FVTPL are recognised immediately in the statement of profit and loss.

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (OCI), or through the statement of profit and loss), and
- those measured at amortised cost.

Subsequent measurement

Financial instruments at amortised cost – the financial instrument is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All the debt instruments of the Company are measured at amortised cost.

Financial instruments at FVTPL/FVOCI - For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or Other comprehensive income. Investments in equity instruments are classified as FVTPL unless the Company irrevocably elects at initial recognition to present subsequent changes in fair value through other comprehensive income (FVOCI) for Investments in equity instruments which are not held for trading.

Reclassifications within classes of financial assets

A change in the business model would lead to a prospective re-classification of the financial asset and accordingly, the measurement principles applicable to the new classification will be applied. During the

Annual Accounts

current financial year ended 31 March 2022 and previous accounting year, there was no change in the business model under which the Company holds financial assets and therefore no reclassifications were made.

Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies.

The measurement of ECL is calculated using three main components:

- (i) probability of default (PD);
- (ii) loss given default (LGD); and
- (iii) the exposure at default (EAD).

Probability of Default (PD) is the probability of whether borrowers will default on their obligations which are calculated based on historical default rate summary of past years using vintage analysis.

Loss Given Default (LGD) is an estimate of the loss from a financial asset given that a default occurs. The LGD is computed using the Company's own loss and recovery experience. It is usually expressed as a percentage of the EAD.

Exposure at Default (EAD) is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

The 12-month ECL is calculated by multiplying the 12-month PD, LGD and the EAD. The 12 months and lifetime PDs represent the PD occurring over the next 12 months and the remaining maturity of the instruments respectively. The EAD represents the

expected balance at default, taking into account the repayment of principal and interest from the balance sheet date to the default event together with any expected drawdowns of committed facilities. The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money.

The Company applies a three-stage approach to measure ECL on financial assets accounted for at amortised cost and FVOCI. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

Stage 1: 12-months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised. Exposures with days past due (DPD) less than or equal to 29 days are classified as Stage 1. The Company has provided ECL on the undisbursed loan commitments classified under Stage 1.

Stage 2: Lifetime ECL – not credit impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised. Exposures with DPD equal to 30 days but less than or equal to 89 days are classified as Stage 2. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for the financial asset since initial recognition by comparing the risk of a default occurring over the expected life between the reporting date and the date of initial recognition. The Company has identified cases with DPD equal to or more than 30 days and less than or equal to 59 days and cases with DPD equal to or more than 60 days and less than or equal to 89 days as two separate buckets.

Stage 3: Lifetime ECL – credit impaired

A financial asset is assessed as credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For a financial asset that has become credit-impaired, a lifetime ECL is recognised on principal

Annual Accounts

outstanding as at the year end. Exposures with DPD equal to or more than 90 days are classified as Stage 3.

Exposures are considered to have resulted in a significant increase in credit risk and are moved to Stage 2 when the accounts are overdue for more than 30 days. Accounts that are overdue for 90 days or more are moved to Stage 3.

Inputs, assumptions and estimation techniques used for estimating ECL: Refer note 4

De-recognition of financial assets

A financial asset is derecognised only when

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount (measured at the date of derecognition) and the consideration received (including any new asset obtained less any new liability assumed) shall be recognised in the statement of profit and loss.

On derecognition of a part of financial asset in its entirety, the previous carrying amount of the larger financial asset shall be allocated between the part that continues to be recognised and the part that is derecognised, on the basis of the relative fair values of those parts on the date of the transfer. For this

purpose, a retained servicing asset shall be treated as a part that continues to be recognised. The difference between the carrying amount (measured at the date of derecognition) allocated to the part derecognised and the consideration received for the part derecognised (including any new asset obtained less any new liability assumed) shall be recognised in the statement of profit and loss.

Also, the Company recognises servicing income as a percentage of interest spread over tenure of loan in cases where it retains the obligation to service the transferred financial asset.

Definition of default

The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-months or lifetime ECL. The Company considers the following as constituting an event of default:

- the borrower is past due more than 90 days + cases identified by the Company as NPA as per regulatory guidelines + Objective Evidence for impairment (Qualitative Overlay); or
- the borrower is unlikely to pay its credit obligations to the Company.

When assessing if the borrower is unlikely to pay its credit obligation, the Company takes into account both qualitative and quantitative indicators.

Write-offs

Impaired loans and receivables are written off, against the related allowance for loan impairment on completion of the Company's internal processes and when the Company concludes that there is no longer any realistic prospect of recovery of part or all of the loan. For loans that are individually assessed for impairment, the timing of write off is determined on a case-by-case basis. A write-off constitutes a derecognition event. The Company has a right to apply enforcement activities to recover such written off financial assets. Subsequent recoveries of amounts previously written off are credited to the statement of profit and loss.

Collateral Valuation and Repossession

The Company provides fully secured loans to individuals and Corporates to mitigate the credit risk on financial assets, the Company seeks to use

Annual Accounts

collateral, where possible as per the powers conferred on the Housing Finance Companies under the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 ("SARFAESI"). In its normal course of business, the Company does not physically repossess properties or other assets in its retail portfolio, but engages external agents to recover funds, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/ obligors. As a result of this practice, the properties under legal repossession processes are not recorded on the balance sheet and not treated as non-current assets held for sale.

Modification of financial assets

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between the initial recognition and maturity of the financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date.

The Company renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. Loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness).

When a financial asset is modified the Company assesses whether this modification results in derecognition. In accordance with the Company's policy, a modification results in derecognition when it gives rise to substantially different terms. To determine if the modified terms are substantially different from the original contractual terms the Company considers the following:

Qualitative factors, such as contractual cash flows after modification, are no longer SPPI, change of counterparty, the extent of change in interest rates, maturity, if these do not clearly indicate a substantial modification, then; a quantitative assessment is performed to compare the present value of the

remaining contractual cash flows under the original terms with the contractual cash flows under the revised terms, both amounts discounted at the original EIR. If there is a significant difference in present value, the Company deems the arrangement substantially different, leading to derecognition.

When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Company determines if the financial asset's credit risk has increased significantly since initial recognition by comparing:

- The remaining lifetime PD estimated based on data at initial recognition and the original contractual terms;
- The remaining lifetime PD at the reporting date based on the modified terms.

For financial assets modified, where modification does not result in derecognition, the estimate of PD reflects the Company's ability to collect the modified cash flows taking into account the Company's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition, the loss allowance is continued to be measured at an amount equal to lifetime ECL. The loss allowance on forborne loans is generally measured based on 12-month ECL when there is evidence of the borrower's improved repayment behaviour following modification leading to a reversal of the previous significant increase in credit risk.

Where a modification does not lead to derecognition, the Company calculates the modification gain/loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then the Company measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

ii) Financial liability

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company or a contract that will or may be settled in the

Annual Accounts

Company's equity instruments and is a non-derivative contract for which the Company is or may be obliged to deliver a variable number of its equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Company's equity instruments.

Classification

The Company classifies its financial liability as "Financial liability measured at amortised cost" except for those classified as financial liabilities measured at FVTPL. Financial liabilities are never reclassified.

Initial recognition and measurement

A financial liability is recognised initially at cost of acquisition net of transaction costs and incomes that are attributable to the acquisition of the financial liability. Cost equates the fair value on the acquisition.

De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability

simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.4 Property, plant and equipment, other intangible assets

Property, plant and equipment and other intangible assets are stated at cost less accumulated depreciation, amortisation and impairment losses. Cost includes purchase price, inward freight, taxes and expenses incidental to acquisition and installation, up to the point the asset is ready for its intended use.

Cost of property, plant and equipment and other intangible assets not ready for their intended use before such date is disclosed under Capital work-in-progress.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the statement of profit and loss.

Depreciation and Amortisation

Depreciation in respect of assets is provided on the Straight-Line Method as per Schedule II of the Act. Intangible assets are amortized on a straight-line basis over the estimated useful economic life. The Company follows estimated useful lives which are given under Part C of Schedule II of the Act.

The estimated useful lives of items of property, plant and equipment for the current period is as follows:

Property, plant and equipment	Estimated useful life (In years)
Furniture and fixtures	10
Office equipment	5
Computers	3
Leasehold improvements	Over the lease period
Other intangible assets	
Computer software	3

Property, plant and equipment purchased/ sold during the year are depreciated on a pro-rata basis.

Annual Accounts

1.5 Revenue Recognition

i) Interest income

Interest income on financial instruments is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ("EIR") applicable.

Effective Interest Rate ("EIR")

EIR is the rate that exactly discounts the estimated future cash flows over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable and are an integral part of the EIR, but not future credit losses. The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset (Gross Value less ECL provision). If the financial assets cures and are no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

ii) Fees and other revenue

Fees income includes fees other than those that are an integral part of EIR. The Company recognises such fees income in accordance with the terms of relevant contracts/agreements with the customers.

iii) Investment income

Income from investments made in units of mutual funds is measured at FVTPL and presented under net gain on fair value changes.

iv) Income from transfer and servicing of assets

The Company transfers loans through direct assignment transactions. The transferred loans are de-recognised and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on de-recognition of a financial asset under assigned transactions, the difference between the carrying

amount and the consideration received are recognised in the statement of profit and loss.

The Company recognises either a servicing asset or a servicing liability for servicing contract. If the fee to be received is not expected to compensate the Company adequately for performing the servicing activities, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing activities, a servicing asset is recognised. Corresponding amount is recognised in statement of profit and loss.

v) Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

1.6 Taxes on income

Income tax expense comprises current tax expenses and net change in the deferred tax assets or liabilities during the year. Current and deferred taxes are recognised in the statement of profit and loss, except when they relate to an item that is recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

The income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for the deductible and taxable temporary differences arising between the tax base of an assets and liabilities and their carrying amount in the financial statements, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of recognition.

Annual Accounts

Deferred tax asset is recognised to the extent that sufficient taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable sufficient taxable profit will be available to allow or part of deferred income tax assets to be utilised. At each reporting date, the Company re-assesses un-recognised deferred tax assets. It recognises un-recognised deferred tax asset to the extent that it has become reasonably certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

1.7 Leases:

The Company's leased assets primarily consist of leases for buildings. The Company assesses whether a contract contains a lease as defined under Ind AS 116 – Leases, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- i. the contract involves the use of an identified asset;
- ii. the Company has substantially all of the economic benefits from the use of the asset through the period of the lease; and
- iii. the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the

Company recognises a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a lease term of twelve months or less (short-term leases) and low-value assets.

For these short-term and low-value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets.

The lease liability is initially measured at the present value of the fixed lease payments including variable lease payments that depend on an index or a rate. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate of the Company.

The Company recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the ROU assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in the statement of profit and loss.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

Annual Accounts

Lease liability and ROU asset have been separately presented in the balance sheet.

1.8 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in profit and loss.

1.9 Impairment of non-financial assets

The carrying amount of the non-financial assets are reviewed at each balance sheet date if there is any indication of impairment based on internal /external factors. An impairment loss is recognised whenever the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash-generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. The impairment loss is recognised in the statement of profit and loss. After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation/amortisation if there were no impairment.

1.10 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash in hand, demand deposits with banks and financial institutions, other short-term, highly liquid

investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.11 Provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to passage of time is recognised as interest expense. Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or; present obligation that arises from past events where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability are disclosed as contingent liability and not provided for.

Contingent assets are not recognised in the financial statements. However, it is disclosed only when an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

1.12 Commitments

Commitments are future contractual liabilities, classified and disclosed as follows:

- a. The estimated amount of contracts remaining to be executed on capital account and not provided for;
- b. Uncalled liability on shares;
- c. Undisbursed commitment relating to loans; and
- d. Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

Annual Accounts

1.13 Employee benefits

i. Post-employment benefits

Defined contribution plan

The Company's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

The Company contributes 10% of the basic salary for certain employees to National Pension Scheme (NPS), a defined contribution plan, which is managed and administered by pension management companies. The Company also gives an option to its employees to receive the amount in lieu of such contribution along with the monthly salary during their employment.

Defined benefit plans

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset)

during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii. Other long-term employee benefits

Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

iii. Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include salaries, wages, performance incentive, short term compensated absences and expected cost of bonus which are expected to occur within twelve months after the end of the year in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

1.14 Share-based payments

Estimating fair value for share-based payment transactions requires use of an appropriate valuation model. The Company measures the cost of equity-

Annual Accounts

settled transactions with Option holders using Black-Scholes Model to determine the fair value of the options on the grant date. Inputs into the valuation model, includes assumption such as the expected life of the share option, volatility and dividend yield. The stock options granted to employees pursuant to the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date using Black Scholes Model. Details regarding the determination of the fair value of equity-settled share-based payments transactions are set out in Note 35.

The fair value of the options determined at grant date is accounted as employee compensation cost over the vesting period on a straight-line basis over the period of option, based on the number of grants expected to vest, with corresponding increase in equity. On cancellation or lapse of option granted to employees, the compensation cost charged to statement of profit & loss is credited with corresponding decrease in equity.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

1.15 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33, Earnings Per Share.

Basic earnings per share are calculated by dividing the net profit or loss (excluding other comprehensive income) attributable to equity shareholders by the weighted average number of equity shares outstanding. The weighted average number of equity shares outstanding is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reserve share splits (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss (excluding other comprehensive income) attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

1.16 Share issue expense

Share issue expenses are adjusted from the share premium account in terms of section 52 of the Act.

1.17 Borrowing Costs

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs primarily include interest on amounts borrowed for the revenue operations of the Company. These are expensed to the statement of profit and loss using the EIR. All other Borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

1.18 Securities premium

Securities premium is credited when shares are issued at premium. It can be used to issue bonus shares, to provide for premium on redemption of shares and issue expenses of securities which qualify as equity instruments.

1.19 Goods and Services Tax Input Credit

Goods and Services tax input credit is recognised in the books in the period in which the supply of goods or service received is recognised and when there is no uncertainty in availing/utilising the credits.

1.20 Statement of Cash flows

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

1.21 Segments

The Company's main business is financing by way of loans for the purchase or construction of residential houses, commercial real estate or certain other purposes, in India. All other activities of the Company revolve around the main business. This in the context of Ind AS 108 - Operating Segments reporting is considered to constitute one reportable segment.

STANDARD ISSUED BUT NOT YET EFFECTIVE

No new standards as notified by Ministry of Corporate Affairs ("MCA"), through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules are effective for the current year.

4.2 Impairment assessment

The references below show where the Company's impairment assessment and measurement approach is set out in these notes.

Definition of default

The Company considers a financial instrument as defaulted and considers it as Stage 3 (credit-impaired) for expected credit loss (ECL) calculations, when the assets become equal to or more than 90 days past due on its contractual payments. These assets continue to be classified as Stage 3 till the entire overdues are received, in accordance with RBI guidelines and the ECL Policy. The probability of default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

Exposure at default

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the client's ability to increase its exposure while approaching default and potential early repayments too.

To calculate the EAD for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 months ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments.

Probability of default

Probability of default (PD) represents the likelihood of default over a defined time horizon.

Loss given default

LGD has been calculated by taking into account the recovery experience across the Company's loan accounts post default. The recoveries are tracked and discounted to the date of default using the interest rate.

Significant increase in credit risk

The Company continuously monitors all assets subject to ECL. In order to determine whether an instrument or a portfolio of instruments is subject to 12 months ECL or Lifetime ECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers an exposure to have significantly increased in credit risk when contractual payments are more than 30 days past due and when the accounts have been restructured under the RBI 'Resolution Framework - 2.0: Resolution of COVID-19 related stress of Individuals and Small Businesses' Guidelines.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Annual Accounts

Grouping financial assets measured on a collective basis

As explained above, the Company calculates ECL on a collective basis on the following asset classes:

- Home loans
- Loan against property
- Commercial loan
- Construction finance

Risk assessment model

The Company has designed and operates its risk assessment model that factors in both quantitative as well as qualitative information on the loans and the borrowers. The model uses historical empirical data to arrive at factors that are indicative of future credit risk and segments the portfolio on the basis of combinations of these parameters into smaller homogenous portfolios from the perspective of credit behaviour.

Collateral

The Company holds collateral to mitigate credit risk associated with financial assets. The main types of collateral include residential and commercial properties. The collateral presented relates to instruments that are measured at amortised cost.

Assets possessed under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002

Loan Portfolio includes gross loans amounting to ₹ 160.27 million (31 March 2021: ₹2.57 million) against which the Company has taken possession of the properties under Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 and held such properties for disposal. The value of assets possessed against these loans is ₹ 172.51 million (31 March 2021: ₹ 2.43 million). Value of repossessed assets for loans written off is ₹ 25.06 million (31 March 2021: ₹ 10.14 million).

29 Capital management

The Company's capital management strategy is to effectively determine, raise and deploy capital to cover risk inherent in business and meeting the capital adequacy requirements of the Reserve Bank of India (RBI). The same is done through a mix of either equity and / or combination of short term / long term debt as may be appropriate. The Company determines the amount of capital required on the basis of operations and capital expenditure. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by the RBI.

The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio. The Company's policy is in line with Master Direction – Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021 which currently permits HFCs to borrow up to 12 times of their net owned funds ("NOF"). Refer Note 49 for Capital to risk-weighted assets ratio (CRAR).

The Company has complied in full with all its externally imposed capital requirements over the reported periods.

Particulars	As at	As at
	31 March 2022	31 March 2021
Net total debt including interest accrued and not due thereon (net of cash and cash equivalents) (₹ in million)	28,630.39	28,670.14
Total equity (₹ in million)	15,736.85	13,805.43
Net debt to equity ratio	1.82	2.08

Loan covenants

In order to achieve the overall objective, the Company's capital management, amongst other things, aims to ensure that it meets the financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breach in meeting these financial covenants would permit the

bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any borrowing in the reporting year.

Loan covenants mainly include minimum CRAR of 12%, the ratio of total outstanding liability to total net worth to be less than or equal to 12 times etc.

30.2 Fair value hierarchy

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the Indian Accounting standard.

Level 1: Level 1 hierarchy includes financial

instruments measured using quoted prices. For example, listed equity instruments that have quoted market price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Open-ended mutual funds are valued at Net Asset Value (NAV) declared by respective fund house and are classified under Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

30.3 Financial assets and liabilities measured at fair value through profit or loss at each reporting date (₹ in million)

Particulars	Level 2	
	As at 31 March 2022	As at 31 March 2021
Financial assets measured at FVTPL		
Investments	-	3,750.15

30.4 Financial assets and liabilities measured at amortised cost at each reporting date

The carrying value of loans given, interest strip receivable, bank deposits and borrowings represents its fair value. Further, the carrying value of cash and cash equivalents, other financial assets, trade payables and other payables and other financial liabilities are considered to be approximately equal to the fair value due to their short term maturities.

The above mentioned financial assets and liabilities are classified under level 2 of the fair valuation hierarchy.

30.5 Valuation techniques

The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Loans - The fair value of floating rate loans are deemed to be equivalent to the carrying value.

Borrowings (including debt securities) - The fair value of debt securities is determined by discounting expected future contractual cash flows using current market interest rates

Annual Accounts

charged for similar new loans and the carrying value approximates the fair value. The fair value of floating rate borrowings are deemed to be equivalent to the carrying value.

During the years mentioned above, there have been no transfers amongst the levels of hierarchy.

31 Financial risk management

The Company is exposed to certain financial risks namely credit risk, liquidity risk and market risk i.e. interest risk, foreign currency risk and price risk. The Company's primary focus is to achieve better predictability of financial markets and minimise potential adverse effects on its financial performance by effectively managing the risks on its financial assets and liabilities.

The principal objective in Company's risk management processes is to measure and monitor the various risks associated with the Company and to follow policies and procedures to address such risks. The Company's risk management framework is driven by its Board

and its subcommittees including the Audit Committee, the Asset Liability Management Committee and the Risk Management Committee. The Company gives due importance to prudent lending practices and have implemented suitable measures for risk mitigation, which include verification of credit history from credit information bureaus, personal verification of a customer's business and residence, valuation of collateral, technical and legal verifications, conservative loan to value, and required term cover for insurance.

A Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. For the Company, liquidity risk arises from obligations on account of financial liabilities - borrowing, trade payables and other financial liabilities. The Company manages liquidity risk by maintaining adequate cash reserves by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The tables below summarises the maturity profile of the undiscounted cash flows of the Company's financial liabilities (Refer Note 64):

(iii) Price risk

The Company is exposed to price risk from its investment in mutual funds measured at fair value through statement of profit and loss

31 March 2022 and 31 March 2021.

(ii) Interest rate risk

The Company is subject to interest rate risk, since the rates of loans and borrowings might fluctuate over the tenure of instrument. Interest rates are highly sensitive to many factors beyond control, including the monetary policies of the Reserve Bank of India, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other factors. In order to manage interest rate risk, the Company seeks to optimise borrowing profile between short-term and long-term loans. The liabilities are categorised into various time buckets based on their maturities and Asset Liability Management Committee supervise an interest rate sensitivity report periodically for assessment of interest rate risks.

32 Credit risk management

Credit quality of assets

Credit risk is the risk that the Company will incur a loss because the counterparty might fail to discharge their contractual obligations. The Company has a comprehensive framework for monitoring credit quality of its retail and other loans primarily based on number of days past due.

The Company manage credit risks by using a set of credit procedures and guidelines, laid down in our credit risk policy, to ensure effective credit risk management and health of our portfolio. The adherence to the policy and various process is monitored and appraised in credit committee meetings on a quarterly basis. The policy is amended periodically to ensure compliance with the guidelines of the RBI as well as other regulatory bodies.

We have implemented a structured credit approval process, including multi-step customer verification and comprehensive credit risk assessment, which encompasses analysis of relevant quantitative and qualitative information to ascertain the credit worthiness of a potential customer. As part of our multi-step

customer verification, we have established a process by which separate set of verifications are conducted by a customer relationship manager and customer service officer to ensure the quality of customers acquired as well as eliminate misuse of borrowing practices.

Portfolio quality, credit limits, collateral quality and credit exposure limits are regularly monitored at various levels.

The Company considers a financial instrument as defaulted and considers it as Stage 3 (credit-impaired) for expected credit loss (ECL) calculations, when the assets become equal to or more than 90 days past due on its contractual payments. These assets continue to be classified as Stage 3 till the entire overdues are received, in accordance with RBI guidelines and the Board approved ECL Policy. Refer Note 42 and 43.

The following table sets out information about credit quality of loans and investments measured at amortised cost based on days past due information. The amount represents gross carrying amount. (Refer note 4 - Loans for detailed disclosure on gross carrying value and ECL amount on loans).

at least five years of service gets a gratuity on departure at 15 days of salary for each year of service.

Contribution to gratuity fund (unfunded scheme)

In accordance with Indian Accounting Standard 19 'Employee benefits', actuarial valuation was done in respect of the aforesaid defined benefit plan of gratuity based on the following assumptions:

34 Employee benefits

(A) Defined benefit obligation

The Company has an unfunded defined benefit plan i.e., Gratuity, for its employees. Under the gratuity plan every employee who has completed

Rate of salary increase (% p.a.)	8.00%	5.00%
Rate of employee turnover (% p.a.)	20.00%	20.00%

Annual Accounts

Interest rate risk: The risk of government security yields falling due to which the corresponding discount rate used for valuing liabilities falls. Such a fall in discount rate will result in a larger value placed on the future benefit cash flows whilst computing the liability and thereby requiring higher accounting provisioning.

Longevity risk: Longevity risks arises when the quantum of benefits payable under the plan is based on how long the employee lives post cessation of service with the company. The gratuity plan provides

the benefit in a lump sum form and since the benefit is not payable as an annuity for the rest of the lives of the employees, there is no longevity risk.

Salary risk: The gratuity benefits under the plan are related to the employee's last drawn salary. Consequently, any unusual rise in future salary of the employee raises the quantum of benefit payable by the company, which results in a higher liability for the company and is therefore a plan risk for the company.

Assurance Report

Price Waterhouse Chartered Accountants LLP

Independent practitioner's limited assurance report

To the Board of Directors of Home First Finance Company India Limited

We have undertaken to perform limited assurance engagement for Home First Finance Company India Limited (the 'Company') vide Engagement Letter dated April 28, 2022 in respect of the agreed indicators/parameters listed below (the "Identified Sustainability Indicators"). These indicators/parameters are as identified in the Global Reporting Initiative (GRI) Standards Content index on pages 75 to 76 of the Integrated Annual Report of the Company for the year ended March 31, 2022 (the Integrated Annual Report').

Identified Sustainability Indicators

The Identified Sustainability Indicators are summarised in Annexure 1 to this report.

Our limited assurance engagement was with respect to the year ended March 31, 2022 information only and we have not performed any procedures with respect to earlier periods or any other elements included in the Integrated Annual Report and, therefore, do not express any conclusion thereon.

Criteria

The criteria used by the Company to prepare Identified Sustainability Indicators are Global Reporting Initiatives Standards ("GRI Standards") as stated under "About this Report" on page (i) of the Integrated Annual Report (the 'Criteria').

Management's Responsibility

The Company's management is responsible for identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Integrated Annual Report in accordance with the Criteria. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of the integrated annual report and measurement of Identified Sustainability Indicators, which is free from material misstatement, whether due to fraud or error.

Inherent limitations

The absence of a significant body of established practice on which to draw to evaluate and measure non-financial indicators allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants (IESBA Code), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

Our firm applies International Standard on Quality Control 1 and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Price Waterhouse (a Partnership Firm) converted into Price Waterhouse Chartered Accountants LLP (a Limited Liability Partnership with LLP identity no: LLPIN AAC-5001) with effect from July 25, 2014. Post its conversion to Price Waterhouse Chartered Accountants LLP, its ICAI registration number is 012754N/N500016 (ICAI registration number before conversion was 012754N).

Assurance Report

Our Responsibility

Our responsibility is to express a limited assurance conclusion on the Identified Sustainability Indicators based on the procedures we have performed and evidence we have obtained. We conducted our limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) 'Assurance Engagements other than Audits or Reviews of Historical Financial Information', issued by the International Auditing and Assurance Standards Board. These standards require that we plan and perform this engagement to obtain limited assurance about whether the Identified Sustainability Indicators are free from material misstatement.

A limited assurance engagement involves assessing the suitability in the circumstances of the Company's use of the Criteria as the basis for the preparation of the Identified Sustainability Indicators, assessing the risks of material misstatement of the Identified Sustainability Indicators whether due to fraud or error, responding to the assessed risks as necessary in the circumstances, and evaluating the overall presentation of the Identified Sustainability Indicators.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, and agreeing or reconciling with underlying records.

Given the circumstances of the engagement, in performing the procedures listed above, we:

- Made enquiries of Company's management, including the various teams such as Sustainability team, Corporate Social Responsibility (CSR) Team, etc., and those with responsibility for managing company's Integrated annual reporting.
- Performed understanding and evaluation of the design of the key structures, systems, processes and controls for managing, recording and reporting on the agreed Indicators/ parameters.
- Performed limited substantive testing on a selective basis of the identified sustainability Indicators at corporate head office, to check that data had been appropriately measured, recorded, collated and reported.
- Reviewed the level of adherence to GRI Standards, the reporting framework followed by the Company in preparing the Integrated Annual Report.
- Reviewed of the Integrated Annual Report for detecting, on a test basis, any major anomalies between the information reported in the Integrated Annual Report on performance with respect to agreed Indicators/ parameters and relevant source data/information.
- Obtained representations from Company's Management.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether the Identified Sustainability Indicators have been prepared, in all material respects, in accordance with the Criteria.

Assurance Report

Exclusions

Our limited assurance scope excludes the following and therefore we do not express a conclusion on the same:

- Operations of the Company other than those mentioned in the "Scope of Assurance"
- Aspects of the Integrated Annual Report and the data/information (qualitative or quantitative) other than the identified Sustainability Indicators.
- Data and information outside the defined reporting period i.e. April 1, 2021 to March 31, 2022.
- The statements that describe expression of opinion, belief, aspiration, expectation, aim or future intentions provided by the Company.

Limited Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Company's Identified Sustainability Indicators contained in the Integrated Annual Report for the year ended March 31, 2022 are not prepared, in all material respects, in accordance with the Criteria.

Restriction on Use

Our limited assurance report has been prepared and addressed to the Board of Directors of the Company at the request of the company solely to assist the company in reporting on the Company's Sustainability performance and activities. Accordingly, we accept no liability to anyone, other than the Company. Our deliverables should not be used for any other purpose or by any person other than the addressees of our deliverables. The Firm neither accepts nor assumes any duty of care or liability for any other purpose or to any other party to whom our Deliverables are shown or into whose hands it may come without our prior consent in writing.

Notice of Annual General Meeting

Notes:

1. In view of the current extraordinary circumstances due to COVID-19 pandemic requiring social distancing, Ministry of Corporate Affairs, Government of India (the "MCA") vide its General Circular No. 20/2020 dated 5th May, 2020, Circular No. 02/2021 dated January 13, 2021, General Circular No. 21/2021 December 14, 2021 and General Circular No 2/2022 dated May 5, 2022 read together with General Circular Nos. 14/2020 & 17/2020 dated 8th April, 2020 and 13th April, 2020, respectively, (collectively referred to as "MCA Circulars"), and the Securities and Exchange Board of India ("SEBI") vide its Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12th May, 2020 and SEBI/HO/CFD /CMD2/ CIR/P/2021/11 dated January 15, 2021, permitted the holding of the Annual General Meeting (AGM) through Video Conferencing ('VC')/Other Audio Visual Means ('OAVM'), without the physical presence of the Members at a common venue. The deemed venue for the AGM shall be the registered office of the Company. Since, the AGM will be held through VC, the route map, and attendance slip are also not annexed to this Notice.
2. Further pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 (as amended) , Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India and the MCA and SEBI Circulars, the Company is holding its Annual General Meeting (AGM) through Video Conferencing ('VC')/Other Audio-Visual Means ('OAVM'), without the physical presence of the Members at a common venue. For the said purpose the Company has engaged the services of National Securities Depository Limited (NSDL) for conducting AGM through VC/OAVM. Further, NSDL has also been engaged for facilitating e-voting to enable the members to cast their votes electronically using remote e-

voting system as well as e-voting during the AGM. The procedure for participating in the meeting through VC/OAVM is explained in the notes below.

3. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 ("the Act") setting out material facts relating to the special business(es) to be transacted at the AGM is annexed hereto. The Board of Directors, at its meeting held on May 3, 2022 considered that the Special business under item no. 2, 3 and 4 being unavoidable, be transacted at the AGM.
4. All documents referred to in the Notice will be available for electronic inspection without any fee by the members from the date of circulation of this Notice up to the date of AGM, i.e. June 10, 2022. Members seeking to inspect such documents can send an email to corporate@homefirstindia.com.
5. The Register of Directors and Key Managerial Personnel and their shareholding, maintained under Section 170 of the Companies Act, 2013 ("Act"), the Register of Contracts or Arrangements in which the directors are interested, maintained under Section 189 of the Act and the Certificate from the Secretarial Auditors pursuant to Regulation 13 of the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, will be available electronically for inspection by the members during the AGM.

Further, members seeking any information with regard to the accounts or any other matter to be placed at the AGM, are requested to write to the Company from their registered email address, mentioning their name, DP ID and Client ID number and mobile number, at least 48 hours in advance before the commencement of the Meeting i.e. latest by June 8, 2022, 02.00 P.M. IST through email to corporate@homefirstindia.com. Such questions shall be taken up during the meeting or replied by the Company suitably.

Notice of Annual General Meeting

6. In terms of the MCA circulars since the physical attendance of Members has been dispensed with, there is no requirement of appointment of proxies. Accordingly, the facility of appointing proxies by Members under Section 105 of the Companies Act, 2013 will not be available for the AGM. However, in pursuance of Section 113 of the Act, representatives of the Members may be appointed for the purpose of voting through remote e-voting, participation in the AGM through VC/OAVM and e-voting during the AGM. Corporate Members intending to appoint their representatives are requested to send a scanned certified copy of the board resolution authorizing their representatives to corporate@homefirstindia.com with a copy marked to mail@aashishbhatt.com and evoting@nsdl.co.in.
7. Pursuant to the abovementioned Circulars, the Company will send the Annual Report for the FY22 and AGM notice in electronic form only. EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013 ("the Act")

The following Explanatory Statement, pursuant to Section 102 of the Companies Act, 2013 ("Act"), sets out all material facts relating to the business mentioned in the accompanying Notice dated May 17, 2022:

Item No. 2:

Pursuant to the provisions of Section 152(7) of the Act and in accordance with the Articles of Association of the Company, Mr. Vishal Gupta (DIN: 01913013), Nominee Director of Bessemer India Capital Holdings II Ltd ("Bessemer") appointed on February 28, 2018, is liable to retire by rotation at the ensuing Annual General Meeting. Mr. Vishal Vijay Gupta has expressed his opinion indicated to the Company that he intends proposes to retire from his directorship and therefore is not seeking re-appointment at the AGM. The Company has also received an intimation from Bessemer that it giving their consent to retire Mr. Vishal Gupta as their Nominee and does not intend to nominate any other Director to fill up the vacancy.

The Board of Directors of the Company ("Board") at its meeting held on May 3, 2022 placed on record the appreciation for the invaluable inputs in the area of information technology development, digital platforms partnerships and in shaping the growth strategy of the Company during his tenure as a Nominee Director and accordingly, the Board does not propose to fill the vacancy caused due to his retirement at this Annual General Meeting.

Further as per Section 152(7) of the Companies Act, 2013, the members shall expressly resolve not to fill the vacancy caused by such retirement at the Annual General Meeting or any adjournment thereof.

The Board recommends the Ordinary Resolution as set out in item no.2 for approval of the Members of the Company.

Except Mr. Gupta, None of the Directors or Key Managerial Personnel of the Company or their relatives is/are in any way, concerned or interested, financially or otherwise, in the resolution set out in item no.2 of the accompanying Notice.

Item No. 3 & 4:

At the 10th Annual General Meeting of the Company held on June 12, 2019, the members in terms of the provisions of Section 180(1)(c) of the Companies Act, 2013, had granted their approval by way of a Special Resolution to the Board of Directors, to borrow from time to time, such amounts as they may deem necessary for the purpose of business of the Company, not exceeding ₹5,000 Crores (Rupees Five Thousand Crores only) over and above the then paid-up share capital and free reserves of the Company (reserves not set apart for any specific purpose) and in terms of provisions of Section 180(1)(a) of the Companies Act, 2013 to mortgage and/or create a charge on any of the moveable and/or immoveable properties and/or the whole or any part of undertaking(s) of the Company to secure its borrowings up to the limits of Section 180(1)(c).

In terms of provisions of Section 180(1)(c) of the Companies Act, 2013, the Board of Directors of the Company cannot, except with the consent of the Members in a general meeting, by means of a Special Resolution, borrow money(ies) where the money to be borrowed, together with the money already borrowed (apart from temporary loans obtained from the Company's bankers in the ordinary course of business), in excess of the aggregate of the paid-up share capital, free reserves and securities premium.

As at March 31, 2022, the outstanding borrowings of the Company stood at ₹3,467 Crores (Rupees Three Thousand Four Hundred and Sixty-Seven Crore). In contemplation of business expansion and in order to fulfil the loan disbursements in the future, the Board may have to resort to multiple financing alternatives, the amount of which is expected to exceed the approved existing borrowing limit of ₹5,000 Crores (Rupees Five Thousand Crores only).

Taking into account the increased fund requirements, as well as the enabling provisions of Section 180(1)(c) of the Companies Act, 2013, the approval of the Members for item no. 3 of the notice is being sought by means of a Special Resolution, as the borrowing limit of ₹7,500 Crore (Rupees Seven Thousand Five Hundred only).

Notice of Annual General Meeting

In accordance to above, the said borrowings by way of loan or issue of securities may be required to be secured by way of charge through lien / hypothecation / mortgage over all or any part of the movable and / or immovable asset of the Company and as per the provisions of Section 180(1)(a) of the Act, the mortgage or charge on all or any part of the movable and /or immovable asset of the Company, may be deemed as disposal of the whole, or substantially the whole, of the undertaking of the Company and hence the approval of the Members of the Company is required by way of a Special Resolution as set out at Item No. 4 of the Notice.

As per Section 180(1)(a) and 180(1)(c) and other applicable provisions of the Act, approval of the Members is being sought by way of passing Special Resolution. Hence, the Board recommends passing of the enabling Special Resolutions set out at item No. 3 and 4 of the Notice.

None of the Directors or Key Managerial Personnel of the Company or their relatives is/are in any way, concerned or interested, financially or otherwise, in the resolutions set out at Item No. 3 and 4 of the accompanying Notice.
