PERFORMANCE

During the year under review, the Company has achieved Net Sales of ₹4014.35 crores as against ₹3677.77 crores in the previous financial year registering growth of 9%. The EBITDA for the year was ₹544.99 crores as against ₹556.43 crores in the previous year. After providing for interest, depreciation and tax, the Profit after Tax of the Company grew by 2% from ₹348.17 crores to ₹355.45 crores resulting an EPS of ₹19.85. EBITDA and PAT in the previous financial year included profit of ₹37 crores from sale of some assets.

During the year the Company has achieved its highest ever sales volume of 9.78 lakhs tonnes registering growth of ~14% over the last fiscal. Further, the Company is pleased to inform that on 15th February, 2025, the Company had started the coal extraction and despatches from its Bhaskarpara Coal mine to its integrated steel plant. During the period, the Company extracted 76,351 MT of coal from the mine.

FUTURE PROSPECTS

The Company is likely to achieve the coal extraction target of ~1 million tonnes in the very first full year of its operation i.e. FY2025-2026. The supplies of coal from the mine shall result in substantial cost reductions and lead to higher efficiencies in the plant operations. As such, the Company is likely to achieve steel production of over 1 million tonnes in this year.

DIVIDEND

After a thorough evaluation of the financial performance for the year ending 31st March, 2025, the Board has proposed a dividend of ₹1.50 per Equity Share of ₹10 each. This decision reflects our commitment to delivering value to our shareholders while maintaining prudent financial management. Additionally, we have established a comprehensive Dividend Distribution Policy, accessible on our Company website at www.prakash.com outlining our approach to dividend distribution and shareholder returns.

ENVIRONMENT

The Company has always prioritized the Environmental Protection and Sustainable Development as its highest responsibility and has placed significant emphasis on environmental, legal, and regulatory obligations, Corporate Social Responsibility (CSR), delivery of quality products, and ensuring healthy and safe workplace for all employees & stake holders. The Company is dedicated to address all environmental, quality, safety, and social issues through its Integrated Management System (IMS) Policy and ensuring its effective implementation and compliance at all levels in its operations. The IMS policy of the Company is designed with a comprehensive and organized approach aimed at achieving goal of sustainable advancement of the organization. Environmental considerations are integrated into all business decisions and processes from the design phase itself. The Company is committed to enhance its environmental performance by reducing its ecological footprint through regular assessments of its Environmental policy and accordingly taken necessary initiatives for a cleaner environment, including up-gradation of the equipments with the latest environmental protection technologies.

In addition to adhering to all relevant environmental regulations, the Company has implemented the following initiatives to achieve a clean and sustainable environment:

CORPORATE SOCIAL RESPONSIBILITY AND GOVERNANCE COMMITTEE

The Company upholds a strong commitment to sustainable community development, recognizing it as a key driver in fostering harmony between industries and the communities in which they operate. In alignment with the Companies (Corporate Social Responsibility Policy) Rules, 2014, CSR is deeply integrated into the Company's vision and policy framework. With a particular focus on supporting underprivileged and vulnerable populations, the Company implements a wide range of initiatives in the areas of socio-economic development, education and healthcare.

A significant portion of the Company's CSR outlay is allocated to ISKCON, a organization dedicated to addressing food insecurity among marginalized communities. ISKCON utilizes the funds primarily to provide meals to individuals and families in need, thereby directly contributing to improved health and well-being. Other CSR activities are meticulously planned, executed, and overseen by designated committees or the Board to ensure strategic alignment with both regulatory

requirements and community-specific needs. Through these concerted efforts, the Company strives to make a lasting and meaningful impact on society, promoting inclusive and sustainable development.

- **Water Sustainability Initiatives:** The Company has initiated several water resource management projects aimed at enhancing access to clean and safe water. These include the installation of drinking water systems, construction of drainage networks, restoration of local ponds, and the development of hygienic bathing infrastructure-significantly contributing to improved public health and sanitation.
- **Environmental Stewardship:** In support of ecological conservation and community cleanliness, the Company has undertaken large-scale environmental initiatives such as the establishment of green belts, road cleaning drives, and public awareness campaigns on hygiene and sustainability. These efforts are aligned with national priorities such as the Swachh Bharat Abhiyan and underscore the Company's dedication to environmental responsibility.
- **Educational Advancement:** Recognizing education as a key enabler of social progress, the Company runs programs that support academic and vocational development. These include awareness campaigns, infrastructural support to schools, provision of educational materials, and apprenticeship training opportunities for local youth to enhance their employability.
- **Community Health & Wellness:** The Company places a strong emphasis on preventive and primary healthcare through initiatives designed to reach underserved populations. Activities include the organization of medical camps, distribution of essential medical aids, provision of ambulance services, and health awareness drives-all contributing to the overall health and resilience of the community.
- **Empowering Women:** Through dedicated programs aimed at promoting gender equity, the Company supports women's empowerment by facilitating skills training and livelihood opportunities. These initiatives aim to strengthen socio-economic inclusion and foster long-term self-reliance among women..
- **Animal Care Initiatives:** Recognizing the integral role of animal welfare in societal well-being, the Company undertakes activities aimed at supporting and safeguarding animals, thereby contributing to a more

compassionate and balanced community environment.

These diverse and well-structured initiatives reaffirm the Company's unwavering commitment to corporate social responsibility and its strategic focus on delivering sustainable, long-term benefits to the communities it engages with.

To ensure effective governance and oversight, the Company has constituted a dedicated Board-level Corporate Social Responsibility (CSR) Committee. This Committee is entrusted with formulating, monitoring, and guiding the execution of CSR strategies in line with applicable statutory provisions and the Company's broader sustainability vision. Comprehensive details regarding the composition of this Committee, along with records of its meetings, are provided in the Corporate Governance Report, which forms an integral part of this Annual Report.

In addition, the Company's CSR Policy-detailing its objectives, focus areas, and implementation framework-is publicly available on the Company's website at www.prakash.com, ensuring transparency and accountability.

A detailed account of the Company's CSR activities, outcomes and financial contributions is presented in Annexure I of this Report, offering stakeholders a clear and holistic view of the impact and reach of the Company's social initiatives.

Board Evaluation

During the financial year, a structured and formal evaluation of the performance of the Board, its Committees and individual Directors was carried out in accordance with the applicable provisions of the Companies Act, 2013, the Rules framed thereunder and the corporate governance standards outlined in Regulation 17 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The evaluation process was also guided by the principles and best practices articulated in SEBI's Guidance Note on Board Evaluation and relevant circulars.

As part of this process, separate meetings of the Independent Directors were convened to undertake a critical assessment of the performance of Non-Independent Directors, the Board as a collective body and the functioning of its various Committees. The performance of the Chairman was also evaluated independently, incorporating feedback from Executive Directors.

The evaluation encompassed parameters such as strategic leadership, board dynamics, quality of deliberations, adherence to fiduciary duties and the effectiveness of governance oversight. This rigorous and transparent review mechanism reflects the Company's commitment to strengthening board performance, promoting continuous improvement and reinforcing the highest standards of corporate governance.

NUMBER OF MEETINGS OF THE BOARD AND COMMITTEES THEREOF

During the financial year 2024-25, a structured record of all Board Meetings and Committee Meetings convened was maintained, detailing the dates of each meeting along with the attendance of every Director. This information has been systematically compiled and presented in the Corporate Governance Report, which forms an integral part of the Annual Report. The document not only outlines the frequency and conduct of meetings but also reflects the Directors' commitment to fulfilling their fiduciary and oversight responsibilities.

The Corporate Governance Report serves as an important reference point, offering stakeholders clear insights into the functioning and governance practices of the Board and its Committees. It captures essential information such as quorum management, agenda-setting processes, deliberations undertaken, decision-making procedures and the manner in which governance responsibilities have been discharged throughout the year.

By transparently disclosing attendance records and meeting details, the Company underscores its unwavering commitment to principles of sound corporate governance, accountability, and responsible leadership. Such disclosures also demonstrate the active engagement of the Board in strategic oversight, risk management, and ensuring that the interests of all stakeholders are effectively safeguarded.

Stakeholders are encouraged to refer to the Corporate Governance Report for a comprehensive account of the Board's performance, governance structures and the Company's continuous efforts to uphold and strengthen the principles of good corporate governance.

DECLARATION BY INDEPENDENT DIRECTORS

In accordance with the provisions of Section 149(7) of the Companies Act, 2013, read with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014, as well as Regulation 25(8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations,

2015, the Company has duly obtained formal declarations and confirmations from all its Independent Directors. These declarations explicitly affirm that each Independent Director continues to meet the prescribed criteria of independence as defined under the applicable laws and regulatory frameworks.

The confirmations further underscore the Directors' integrity, objectivity, and continued commitment to upholding the highest standards of ethical conduct and corporate governance. In addition to statutory compliance, these declarations also reflect the Company's proactive approach toward ensuring that its Board composition remains balanced, unbiased and fully aligned with the evolving expectations of shareholders and other stakeholders.

All such disclosures have been duly reviewed and noted by the Board and form part of the Board's continuous monitoring process to ensure that the independence and effectiveness of the Independent Directors are maintained without compromise. This reinforces the Company's emphasis on transparency, board accountability, and adherence to globally benchmarked governance practices.

FAMILIARISATION PROGRAMME FOR THE INDEPENDENT DIRECTORS

In line with Regulation 25(7) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has diligently implemented a robust Familiarization Programme designed to provide Independent Directors with comprehensive insights into various facets of the Company's operations, governance structure and the broader industry landscape. This initiative ensures that Independent Directors are thoroughly acquainted with the Company's roles, rights and responsibilities as well as the specific regulatory environment in which the Company operates, including key updates from the Companies Act, 2013 and relevant SEBI regulations.

The program covers essential areas such as the Company's coal mining operations, steel plant activities and other critical business segments, alongside the latest regulatory changes that impact corporate governance. This includes familiarization with the regulatory updates under the Companies Act, 2013 and the evolving requirements under SEBI's corporate governance norms. The sessions focus on enhancing Directors' understanding of the Company's operational strategies,

industry trends and the strategic goals within its respective sectors.

By providing in-depth exposure to the coal and steel industries along with the operational nuances of each the programme ensures that Independent Directors are well-equipped to effectively oversee the Company's strategies and operations. The goal is to empower them to contribute meaningfully to governance processes, while keeping pace with regulatory developments and industry-specific dynamics.

The details of the familiarization sessions conducted during the year are made available on the Company's website for stakeholder reference at www.prakash.com. This initiative underscores the Company's ongoing commitment to upholding strong governance practices by ensuring that Independent Directors are well-versed in both operational intricacies and regulatory requirements, thereby enhancing their ability to offer informed advice and robust oversight.

This framework is designed to provide a secure and confidential channel for

Directors, employees and other stakeholders to report genuine concerns about unethical practices, fraud, financial irregularities or any other form of misconduct.

The Vigil Mechanism aims to promote a culture of openness, integrity and accountability across all levels of the organization. It ensures that individuals can raise concerns in good faith without fear of retaliation, victimization or discrimination. The Policy outlines a structured process for handling such disclosures, ensuring that all concerns are investigated promptly, thoroughly and impartially.

To uphold transparency and ensure easy access, the Vigil Mechanism and Whistleblower Policy are available on the Company's official website at www.prakash.com.

NOMINATION AND REMUNERATION POLICY

The Company has constituted a Nomination and Remuneration Committee in accordance with the provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The Committee comprises only Non-Executive and Independent Directors, ensuring objectivity and independence in decision-making.

During the financial year, the Nomination and Remuneration Committee convened to discuss and decide on critical matters pertaining to the appointment, remuneration and performance evaluation of Directors, Key Managerial Personnel and senior management. Comprehensive details regarding the number of meetings held and the attendance record of each Committee member are presented in the Corporate Governance Report, which forms an integral part of this Annual Report.

The Board of Directors has also adopted a Nomination and Remuneration Policy to guide the Committee in its responsibilities. This policy outlines the criteria for selection and evaluation of Directors and senior management and the framework for determining their remuneration. The policy is available on the Company's official website at www.prakash.com.

PARTICULARS OF EMPLOYEES AND RELATED DISCLOSURES

The Company has a comprehensive Policy on Prevention, Prohibition and Redressal of Sexual Harassment of Women at the Workplace, in accordance with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. This policy outlines the framework for addressing issues related to sexual harassment and is designed to ensure a safe, respectful and inclusive work environment for all employees, regardless of gender.

The policy is widely disseminated and readily accessible to all employees and stakeholders through the Company's official website at www.prakash.com. It provides a clear mechanism for lodging complaints and ensures fair and impartial inquiry procedures, while also emphasizing prevention through awareness and sensitization initiatives.

During the financial year 2024-25, the Company did not receive any complaint under this policy. This reflects the effectiveness of the Company's preventive measures and its continued commitment to upholding a culture of dignity, respect and zero tolerance towards any form of harassment in the workplace.

DISCLOSURE REQUIREMENTS

In compliance with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Corporate Governance Report, along with the Certificate issued by the Practising Company Secretary on compliance with Corporate Governance norms and the Management Discussion and Analysis Report are annexed to this Annual Report as Annexures 5, 5A, 5B, and 5C, respectively.

The Company has instituted robust internal systems and processes to ensure adherence to all applicable Secretarial Standards issued by the Institute of Company Secretaries of India (ICSI). These systems have been thoughtfully structured and are considered adequate and are effectively functioning to maintain the highest standards of corporate governance, transparency and regulatory compliance across the organization.

BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

In accordance with Regulation 34(2)(f) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Business Responsibility and Sustainability Report (BRSR) forms an integral part of this Annual Report. The BRSR provides a comprehensive overview of the Company's environmental, social and governance (ESG) initiatives, reflecting its commitment to responsible and sustainable business practices.

The report highlights the Company's efforts towards sustainability, stakeholder engagement, ethical conduct and long-term value creation. It reinforces the Company's dedication to transparency, accountability and aligning its operations with globally recognized ESG principles. The BRSR is annexed herewith as Annexure 6.

**SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2025**

To

The Members,

Prakash Industries Limited

15 Km Stone, Delhi Road,

Hissar, Haryana India - 125044

I, **Bhoopendra Kumar Bohra**, proprietor of **M/S B K Bohra & Associates**, have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Prakash Industries Limited (CIN: L27109HR1980PLC010724)** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me an able basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the **Prakash Industries Limited's** books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, the explanations and clarifications given to me and the representations made by the Management, I hereby report that in my opinion, the Company has, during the audit period covering the Financial Year ended on 31st March, 2025 complied with the statutory provisions listed here under and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made here in after:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by **Prakash Industries Limited** ("the Company") for the financial year ended on 31st March, 2025 according to the provisions of:

- i) The Companies Act, 2013 (the Act) and the rules made there under;
- ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- iv) Foreign Exchange Management Act, 1999 and the

rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

- v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b) Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended from time to time (Not applicable to the Company during the Audit Period);
 - d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (Not applicable to the Company during the Audit Period);
 - e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 and The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 (Not applicable to the Company during the audit period);
 - f) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 and The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 (Not applicable to the Company during the audit period);
 - g) The Securities and Exchange Board of India (Registrar to an Issue and Share Transfer Agents) Regulations, 1993 as amended from time to time;
 - h) The Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018 as amended from time to time;
 - i) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 (Not applicable to the Company during the Audit Period); and

- j) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- vi) Other laws applicable specifically to the Company as per their presentation made by the Management including
 - a) Air (Prevention and Control of Pollution) Act, 1981;
 - b) Water (Prevention and Control of Pollution) Act, 1974 and Water (Prevention and Control of Pollution) Rules, 1975;
 - c) Environment Protection Act, 1986;
 - d) Factories Act, 1948;
 - e) The Mines Act, 1952 and Rules made there under.
 - f) Mines and Minerals (Development & Regulation) Act, 1957 and the rules made there under.

For the compliance of Labour Laws & other General Laws my examination and reporting is based on the documents, record and files as produced and shown to me and the information and explanations provided by the Company, its officers, and authorised representatives, including compliance reports taken on record by the Board of Directors, to the best of my judgment and understanding of the applicability of the different enactments upon the Company, in my opinion there are adequate systems and processes exist in the Company to monitor and ensure compliance with applicable General laws and Labour Laws.

I have also examined compliance with the applicable clauses of the following:

- i. The Listing Agreements entered into by the Company with National Stock Exchange of India Limited and BSE Limited read with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- ii. Applicable clauses of Secretarial Standards issued by the Institute of Company Secretaries of India.

During the period under review and as per the explanations and clarifications given to me and their presentation made by the Management, the Company has complied with the provisions of the applicable laws, rules, regulations and guidelines, etc as mentioned above.

During the period under review as per the explanations and financial statements, Company's CSR Obligation during the year was of INR 464.74 Lakhs and an amount of

INR 1839.25 Lakhs was available to set-off from previous Financial Year, the Company has spent an amount of INR 1323.41 Lakhs during the audit period even though Net Obligation was NIL, therefore an amount of INR 2697.92 Lakhs will be available for set-off in succeeding Financial Years.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes, if any in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provision of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, except notes on items of business which are in the nature of Unpublished Price Sensitive Information have been given at a shorter period of time than stated above, with the consent of a majority of the Directors, which includes one Independent Director and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the minutes of the meetings duly recorded and signed by the Chairperson, the decisions were unanimous and no dissenting views were recorded.

I further report that as per the explanations given to me and the representation made by the Management and relied upon by me there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines etc.

I further report that during the audit period no events occurred which had bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards etc.

MANAGEMENT DISCUSSION AND ANALYSIS**Industry Structure & Developments**

Despite the global slowdown in steel demand and free inflow of cheap imports into the country, the domestic steel industry registered production growth of ~ 5% over last fiscal to reach ~152 million tonnes in FY2025. Further, the domestic steel demand also registered growth of 12% over the last fiscal sponsored largely by sectors like infrastructure, construction, general engineering and automotive. The massive allocation of ₹11.5 lakh Crores announced by the Central Government in the Union Budget 2025 towards capital expenditure to augment infrastructure shall continue to boost the demand for steel. The Indian government is aiming to achieve steel capacity of 300 million tonnes by 2030-31, and is implementing several initiatives to achieve this target like Production Linked Incentive (PLI) Scheme, increased export duties, policies like "Make in India" and the "Domestically Manufactured Iron & Steel Products (DMI&SP)".

Opportunities and Threats

The opportunities before the domestic steel industry includes strong domestic demand driven by strong urbanization, major government investment in infrastructure projects along with a vision to become a leading global steel producer by 2030. The government is actively promoting the steel industry through various initiatives, including production-linked incentive schemes and infrastructure development. It is envisaged that by the year 2030, the domestic per capita steel consumption will rise to around 160 kgs from the exiting level of 98 kgs.

The key threats faced by the steel industry continues to be the volatility in key raw materials like coal and iron ore and erratic supplies thereof due to inadequate infrastructure, particularly in transportation and logistics leading to increased costs and adversely affecting the efficiencies. In addition, competition from cheap imports at predatory prices continues to be a major threat to the domestic steel players. However, your Company has insulated itself against these possible threats as the Company has an operational iron ore mine and also has coal linkage from Coal India Limited. Further, the Bhaskarpara Commercial Coal Mine allotted to the Company has become operational during the Q4FY2025 and the coal despatches to the Steel plant have started. The supplies of coal from the mine shall result in substantial cost

reductions and higher efficiencies in its plant operations. As regards competition from steel imports at cheaper prices, the government is poised to impose safeguard duty on certain steel products to protect domestic steel manufacturers.

Outlook

Steel demand in India is expected to outpace other major steel consuming economies in the next fiscal with a growth of 8-9%. The pan India domestic steel demand shall be driven by a shift towards steel-intensive construction in the housing and infrastructure sectors along with better demand from engineering, automotive and other segments. Easing of inflation during the year shall also potentially pave the way for monetary policy easing by the RBI, which shall also add to the steel demand. Also, the domestic per capita steel consumption of 98 kgs is much lower against the global average of 219 kgs, showing high potential for growth in steel demand in coming times. The long term outlook for the indigenous steel industry looks quite promising considering the large scale steel expansion that is targeted to reach 300 million tonnes per annum by 2030.

Risks and Concerns

Business risks encompass any factor that could negatively impact a company's financial goals and operations. Effectively managing these risks is crucial for a company's long-term sustainability and growth and for safeguarding the interest of all the stakeholders. The Company has a Risk Management Committee to detect the risks and suggest the methods to mitigate them. All the risks are adequately identified, measured, estimated and controlled.

Raw material price volatility and supply chain disruptions continue to be the major risks faced by a steel company. The Company has significantly reduced the risks of raw material price volatility and supply chain disruptions through backward integration of its operations. The Company has safeguarded itself against iron ore price volatility to a significant extent by having an operational captive iron ore mine in Sirkaguttu, State Odisha. Further, as regards Coal, the coal extraction from the Bhaskarpara Commercial Coal Mine has commenced and the coal despatches to the Steel plant have started. The supplies of coal from the mine shall result in substantial cost reductions and efficiencies in its plant operations. In addition, the Company has also in place coal linkages from Coal India Limited for supply of Coal at a stable price.

Internal Control System and their Adequacy

Internal controls are a system of policies and procedures that are designed to provide reasonable assurance that a company's objectives are achieved, including operational effectiveness, financial reporting reliability, and compliance with laws and regulations. The Company has an adequate internal control system to manage the business operations effectively and efficiently. The Company has an independent professional firm for conducting Internal Audit at regular intervals and to monitor the compliance of all operations with prescribed business standards. Any variance from the budget is flagged off to the senior management which advises modification to ensure strict adherence to compliances. The audit team supervises all internal processes and recommends the changes to ensure quick remedication of deviations, wherever required.

Material Developments in Human Resource/Industrial Relations

Ashuman resource is the most critical resource for the success of any organisation, it is important that all the aspects related to the employees like recruitment, training,

compensation, employee development, and ensuring compliance with employment laws are adequately managed. The Company follows a well developed human resource approach, which aims to address the key aspects of human resource thereby maintaining healthy work environment and constructive relationship with its employees with a continuing focus on efficiency and productivity. The Company had maintained healthy and cordial industrial relations during the year.

Inclusion & Diversity

Prakash Industries Limited is committed to fostering an inclusive and diverse workplace that support equal opportunity and encourages representation from all sections of society. Under its Inclusion & Diversity pillar, the Company aims to create a respectful, supportive, and empowering environment for all employees, irrespective of gender, physical ability, or background.

1. Gender Diversity

The metals and mining sector, due to its inherent structural challenges, has traditionally seen lower female participation in its workforce. Cultural perceptions, a lack of representation, and limited gender-sensitive infrastructure have contributed to this trend. Prakash Industries acknowledges these challenges and has taken proactive measures to gradually shift this paradigm. Despite the slow pace of transformation, the Company is consistently working towards improving female representation by creating more opportunities for women, especially in roles such as healthcare support (nursing) and in corporate and administrative functions. Dedicated efforts are being made to promote a gender sensitive work environment, with equal access to growth opportunities, training, and compensation.

2. Inclusion of Persons with Disabilities (PwDs)

The metals and mining sector, due to its inherent structural challenges, has traditionally seen lower female participation in its workforce. Cultural perceptions, a lack of representation, and limited gender-sensitive infrastructure have contributed to this trend. Prakash Industries acknowledges these challenges and has taken proactive measures to gradually shift this paradigm. Despite the slow pace of transformation, the Company is consistently working towards improving female representation by creating more opportunities for women, especially in roles such as healthcare support (nursing) and in corporate and administrative functions. 27. Overview of the entity's material responsible business conduct issues:

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format; Material topics are those that have a significant impact on our ability to create value for our stakeholders and are influenced by the economic, social, and environmental context in which we operate. We have the following material topics:

Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adaptor mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
GHG Emissions / Climate Change	Risk and Opportunity	Periodic monitoring in earlier years may have limited real-time insights, which are increasingly important in meeting evolving disclosure expectations. Effective GHG management strengthens regulatory alignment and contributes to climate goals.	GHG emission calculation has been initiated this year, with efficiency measures being implemented to improve monitoring and reduce emissions.	Positive and Negative
Circular Economy / Resource Use	Opportunity	Efficient reuse of industrial by-products such as fly ash, slag, and char enhances resource efficiency, reduces waste, and supports long-term cost optimization, aligning with circular economy practices in the steel sector.		Positive

Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adaptor mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
Water Management	Risk and Opportunity	Increasing water stress in regions like Chhattisgarh and Odisha may impact long-term water availability. Recycling through STP and ETP, along with zero liquid discharge, strengthens water efficiency and regulatory compliance.	The company ensures optimal use of water through continuous monitoring and conservation efforts. Treated water is recycled through STP and ETP, and the plant maintains Zero Liquid Discharge status. These measures strengthen resilience and reduce freshwater dependency.	Positive and Negative
Occupational Health & Safety	Opportunity	Implementation of ISO 45001:2018, regular safety trainings, and robust safety systems promote a culture of well-being and minimize workplace incidents, enhancing workforce productivity and compliance.		Positive
Community Engagement/ CSR	Opportunity	CSR initiatives in education, health, women empowerment, and skilling foster inclusive development, strengthen community relations, and contribute to long-term social sustainability.		Positive
Employee Development/ Well-being	Risk and Opportunity	Evolving workforce expectations highlight the need to broaden skill development efforts across all employee groups to maintain high engagement and operational excellence. Regular trainings, structured career development, and employee engagement initiatives support retention, motivation, and productivity.	We are exploring opportunities to diversify our energy mix by evaluating renewable options, while continuing to expand efficiency measures such as waste heat recovery (WHR) and high-efficiency equipment. In addition, we conduct regular energy audits and implement the recommended actions to drive continuous improvement in energy performance and sustainability.	Positive and Negative

PRAKASH INDUSTRIES LIMITED

Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adaptor mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
Energy / Renewable Energy	Risk and Opportunity	Continued dependence on fossil-based captive power may face economic and regulatory headwinds under evolving carbon pricing or ESG-linked funding frameworks. Enhancing energy efficiency through WHR and other measures offers cost savings and supports low-carbon transition.	The company is exploring opportunities to diversify our energy mix by evaluating renewable options, while continuing to expand efficiency measures such as WHR and high-efficiency equipment.	Positive and Negative
Air Pollution	Opportunity	Deployment of pollution control technologies like bag filters, scrubbers, ESPs, and dry fog systems enhances air quality and ensures ongoing compliance with regulatory norms, contributing to a safer and cleaner work environment.		Positive
Human Rights and Labour Practices	Risk and Opportunity	Strengthening human rights governance across the value chain is becoming increasingly important, as evolving stakeholder expectations and regulatory scrutiny may pose reputational or compliance risks in the absence of formal due diligence mechanisms. By improving working conditions, wages, and safety standards, we can attract better talent, reduce employee turnover, and enhance productivity. Respecting labor rights fosters a more loyal, engaged, and healthier workforce.	The Company is in the process of integrating human rights clauses into supplier agreements and developing a comprehensive framework for supply chain due diligence, in alignment with global best practices. The Company is also conducting training programs for workers in high-risk areas, monitoring their activities to ensure safe work practices, and providing adequate personal protective equipment (PPE). A strict policy enforcing a 100% ban on child labor has been implemented, which is expected to enhance worker satisfaction and significantly reduce industrial accidents.	Negative (with potential to become positive as practices are improved)

Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adaptor mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
Ethics / Transparency/ Governance	Risk and Opportunity	Evolving stakeholder expectations highlight the need to expand ethical governance frameworks to ensure consistency and safeguard employee interests. Strong policies such as the Code of Conduct, whistleblower mechanism, and grievance redressal promote transparency and responsible business conduct.	The Company is working to broaden the scope of its Code of Conduct, introduce a comprehensive Human Resources (HR) manual, and formalize a human rights policy to strengthen governance and align with emerging compliance standards. The Code of Conduct is being actively communicated to Heads of Departments (HODs) and senior management an being ensured across all leadership levels.	Positive and Negative
Legal Compliance	Opportunity	Regular audits across labor, environmental, and safety domains, supported by internal SOPs, reinforce regulatory adherence and contribute to efficient, compliant operations. Legal and statutory compliance is ensured by aligning all processes with the applicable acts, laws, and regulations of the land, thereby upholding a strong foundation for lawful and responsible business practices.		Positive

4. Anti-corruption or Anti-bribery policy

Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.

Yes, the Company has established a robust Whistle Blower Policy and Vigil Mechanism, which is aligned with the provisions of the Companies Act, 2013, LODR Regulations, 2015, and SEBI (Prohibition of Insider Trading) Regulations, 2015. While the policy primarily provides a platform for stakeholders (including employees, directors, and shareholders) to report unethical behaviour, suspected fraud, or violation of the Code of Conduct, it implicitly supports the Company's commitment to preventing corruption, bribery, and other unethical practices.

The policy includes:

- Protection for whistle-blowers from any kind of retaliation or unfair treatment.
- Investigation procedures for allegations related to financial misconduct, misrepresentation of accounts, and unethical conduct.
- Oversight by the Audit Committee and Ethics Counsellor for ensuring transparency and accountability.
- Provisions for retention of investigation records for a minimum of seven years.

This mechanism fosters ethical conduct and acts as a deterrent against corrupt and fraudulent practices.

PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively:

	FY 2024-2025 (Current Financial Year)	FY 2023-2024 (Current Financial Year)	Details of improvements in environmental and social impacts
R & D	-	-	The Company's Research & Development (R&D) and continuous improvement initiatives are strategically integrated into the cost of production. These efforts focus on enhancing product quality, optimizing processes, and driving innovation, thereby contributing to overall operational efficiency and competitiveness.
Capex	-	-	To enhance operational efficiency and environmental compliance, the Company has made significant capital investments across its 30-year-old plant. Major CAPEX initiatives include the installation of advanced Air Pollution Control Devices such as High-efficiency Electrostatic Precipitators, Bag Filter Systems, Fume Extraction Systems, Venturi Scrubber Systems, Dust Suppression Systems, and Higher Stacks to reduce particulate emissions. The Company has also deployed Online Continuous Emission and Effluent Monitoring Systems (CEEMS) to ensure real-time monitoring of environmental parameters. Substantial capital has been allocated to strengthening effluent management through the augmentation of the Effluent Treatment Plant (ETP), including additional treatment facilities, and the construction of water recirculation and spray systems. Further infrastructure enhancements include the installation of rainwater and roof water harvesting systems, spout installations, dust collectors, and water sprinklers in the Coal Handling Plant (CHP). In line with energy efficiency goals, the Company has invested in Variable Frequency Drives (VFDs), high-efficiency motors (IE3/IE4), condensate recovery systems, power factor improvement panels, and thermal storage systems. Upgrades to facility lighting through LED replacement and integration of motion/daylight sensors have further optimized power consumption. Additional improvements include HVAC optimization with energy-efficient chillers, insulation of hot surfaces, efficient pumping systems, and building envelope upgrades. The Company has also undertaken a large-scale green belt development initiative, including the plantation of over 10,000 trees, and has initiated renewable energy installations such as solar panels and biomass boilers. These capital-intensive efforts demonstrate the Company's commitment to long-term environmental sustainability and energy conservation.

2. Sustainable sourcing:

Does the entity have procedures in place for sustainable sourcing? (Yes/No)	No, PIL has established robust policies and procedures to ensure the sustainable sourcing of materials. All value chain partners are required to comply with the company's supplier assessment requirements before engaging in any business activities. The assessment criteria encompass key areas such as working conditions and employment practices, health and safety, environmental responsibility, and business ethics. We source materials only from qualified and registered vendors, following a structured evaluation process based on Quality (Q), Priority (P), Delivery (D), Energy (E), Social (S), and ISO compliance. This comprehensive approach ensures that our sourcing practices align with our sustainability goals and operational standards.
If yes, what percentage of inputs were sourced sustainably?	Currently, we are developing a mechanism to estimate the percentage of materials sourced sustainably across all manufacturing facilities of the Company.

3. Processes in place to reclaim products for reuse, recycle and safe disposal of products at the end of life:

Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging)(b) E-waste(c) Hazardous waste and (d) other waste.	The Company is committed to the principles of circular economy and sustainable waste management. It follows the philosophy of "Wealth from Waste," aiming to reuse and recycle byproducts and wastes generated during the steelmaking process to the maximum extent possible. The processes in place for different waste categories are as under: (a) Plastics (including packaging): Plastic waste is not applicable to the Company, as plastic is not used in the manufacturing process. (b) E-waste: E-waste generated from the plant is disposed of through authorized re-processors and vendors approved by the appropriate authorities. (c) Hazardous Waste: Hazardous waste, mainly comprising used oil and waste oil, is 100% sold to authorized dealers for further recycling. (d) Other Waste: The Company believes in creating wealth from waste and has adopted several initiatives to reuse and recycle various byproducts and waste generated in the steelmaking process. Slag from the Steel Melting Shop and Ferro Alloy Plant is processed in a Metal Recovery Plant to recover valuable metal for reuse in steelmaking. The remaining slag is reused in road construction and for filling abandoned mines. Mill Scale from SMS, Accretion, and Cooler Oversize Material from the DRI plant are used in the production of ferro alloys. Fly ash from the Power Plant is utilized for making fly ash bricks and is also supplied to cement plants.

Leadership Indicators

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format? No.

NIC Code	Name of the Product/ Service	% of Total Turnover Contributed	Boundary for which the Life Cycle Perspective/ Assessment was conducted	Whether conducted by Independent external agency (Yes/No)	Results Communicated in Public domain (Yes/No) If Yes, Provide the link
----------	------------------------------	---------------------------------	---	---	--

During the period under review, no Life Cycle Perspective/ Assessment (LCA) was conducted for any of our products

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Name of the Product/ Service	Description of the Risk/Concern	Action Taken
------------------------------	---------------------------------	--------------

There are no significant social or environmental concerns or risks identified from the production or disposal of our product. Steel billets, like other steel products, are not considered waste at the end of life. Instead, they are part of a closed-loop recycling process where scrap steel is remelted and reused as an input for steel manufacturing. This contributes to resource conservation and promotes circularity in the steel industry.

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Indicate input material	Recycled or re-used input material to total material	
	FY 2024-2025 (Current Financial Year)	FY 2023-2024 (Previous Financial Year)
Slag	10.26	10.55%
Coal Char	68.94	62.44%
MS Scrap	8.74%	7.87%

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:

	FY 2024-2025 (Current Financial Year)			FY 2023-2024 (Previous Financial Year)		
	Re-Used	Recycled	Safely Disposed	Re-Used	Recycled	Safely Disposed
Plastics (including packaging)	NA	NA	NA	NA	NA	NA
E-waste	NA	NA	0.258	NA	NA	0.57
Hazardous waste	NA	NA	10.20	NA	NA	14.10
Other waste Batteries	NA	NA	2.39	NA	NA	1.92

5. Reclaimed products and their packaging materials (as percentage of products sold) for each product category.

Indicate product category	Reclaimed products and their packaging materials as % of total products sold in respective category

8. Project related to reducing Green House Gas emission:

Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Yes. The Company has undertaken multiple initiatives aimed at reducing Greenhouse Gas (GHG) emissions, with a strong emphasis on energy efficiency. Significant efforts have been made to improve energy performance and optimize resource consumption across the plant. Key measures include:

- Installation of Variable Frequency Drives (VFDs) and high-efficiency motors (IE3/IE4) to reduce electricity consumption in process equipment.
- Implementation of condensate recovery systems and thermal storage systems to enhance thermal energy efficiency.
- Power Factor Improvement Panels installed to reduce energy losses and improve electrical efficiency.

- Up gradation of lighting infrastructure with LED lighting and motion/daylight sensors, significantly reducing energy consumption in non-process areas.
- HVAC optimization through installation of energy-efficient chillers and insulation of hot surfaces to minimize heat loss.
- Deployment of efficient pumping systems and building envelope upgrades to reduce overall power usage.
- Installation of insulation on ESP and duct lines to prevent energy and heat losses in air pollution control systems.
- Utilization of coal char from the Sponge Iron Plant as fuel in the Captive Power Plant to optimize resource use and reduce fossil fuel consumption.
- Installation of solar panels and biomass boilers to initiate renewable energy use in operations.
- A comprehensive green belt development initiative with the plantation of over 10,000 trees for carbon sequestration.

These initiatives demonstrate the Company's long-term commitment to reducing its carbon footprint through energy conservation, efficient resource use, and cleaner technologies. Additionally, the Company has conducted GHG accounting for the year 2024-25, aligning with its broader environmental sustainability goals.

10. Waste management practices adopted in the establishment:

Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

In the process of sponge iron production, coal is used to generate the heat and chemical reaction necessary for removing oxygen from iron ore. During this metallurgical reaction, along with sponge iron, coal char and flue gas are generated as by-products of the DRI process. To utilize this waste, coal char is used as a fuel for power generation in the captive power plant. By using char in power generation, the Company saves a proportional amount of coal, thereby contributing to the conservation of natural resources and maintaining a cleaner environment.

To further optimize resource use, the Company has installed a Waste Heat Recovery System (WHRS) to generate power using the flue gas from the DRI process.

In the steel-making process via Induction Furnace, slag is generated, which contains iron particles mixed with non-metallic residues. To recover these metal particles, a magnetic slag crusher has been installed. Approximately 10% of the metal content is recovered and reused in the induction furnace for steel production, thereby conserving raw materials. The remaining portion of slag is utilized for levelling work, road construction, and similar applications.

Waste generated from the power plant, primarily fly ash, is used in brick/block making, road construction, and various concrete applications. Fly ash is also disposed of in abandoned mines. The Company operates a fly ash brick manufacturing plant within its premises, and these bricks are used in all types of construction activities at the plant. In addition, fly ash is also disposed of in low-lying areas using safe and scientific methods for handling, transportation, and dumping.

Through these practices, the Company effectively utilizes waste as a source of energy and raw material, thereby reducing environmental pollution and conserving natural resources.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not Applicable			

*The company is locating in Hathneora, Dist - Janjgir- Champa and there are no ecologically sensitive areas in around our company.

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not Applicable					

*The company has not taken any project in the current financial year 2024-2025 hence the Environmental Impact Assessment was not carried out.

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

YES, The Company is compliant with all Water, Air and Environment Protection Act of India and there are no non-compliances identified in FY 2024-25.

S. No.	Specify the law/ regulation/ guidelines which was not complied with	Provide details of the non compliance	Any fines/penalties/action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Not Applicable				

Yes, the Company is an ISO 14001 and ISO 45001 certified organization and has implemented and complied with all statutory and legal requirements, including applicable environmental laws, regulations, and guidelines in India- such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and the Environment Protection Act and Rules. The Company ensures adherence to all water, air, and environmental protection guidelines and maintains compliance as per the Consent to Operate granted by CPCB and MoEF guidelines.

PRAKASH INDUSTRIES LIMITED

The Company has installed efficient effluent treatment plant (ETP) of capacity-19200m³/day and Sewage treatment plant (STP) of capacity - 500 m³/day for treatment of effluent & sewage water of Plant and Colony and Company ensures Zero Liquid Discharge (ZLD) norms and guidelines with continuous monitoring and control mechanism and treated water is being used appropriately in the process as well as in cooling tower make up, road cleaning, dust separation, plantation & horticulture purpose.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No.

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2024-2025 (Current Financial Year)	FY 2023-2024 (Previous Financial Year)
Total Scope 3 emissions (Break- up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	-	-
Total Scope 3 emissions per rupee of turn over	Metric tonnes of CO ₂ equivalent	-	-
Total Scope 3 emission intensity (optional) - the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent	-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No.

3. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

There is no ecologically sensitive areas in around the company premises.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative	Corrective actions taken, if any
1.	Installation of Density Separator System DNS for Coal Beneficiation	With the use of DNS System, the Coal FC is improved	The Improved FC of coal resulted Into better process of DRI Kilns	Periodic review of system performance and adjustments as needed
2.	Installation of Cone Crusher for Iron Ore Crushing	This resulted into provide the required size of Iron ore in the Kilns	Leads to better operation of Kilns	Scheduled maintenance and inspection to avoid breakdowns
3.	Installation of Fogging system in Kiln Separation Area	Leads to dust suppression	Fugitive Emission reduced	Optimization of fogging intervals and nozzle alignment
4.	Installation of two nos coal dryers In SID Kiln Areas	Leads to reduce moisture in Coal	Leads to better operation of Kilns	Monitoring of drying efficiency and timely servicing of equipment

5.	One bag filter installed in kiln 1 and 2 fines bin to reduce dust content in sponge iron	Leads to reduce Fines fraction in Sponge Iron	Leads to better efficiency in IFD	Regular monitoring and maintenance to ensure optimal performance
6.	Kiln 1 ESP ash handling system is diverted to kiln 3 bin. Resulted in power saving of pug mill, RAV and building lighting	Leads to reduce the Dust Emission Points	Resulted in power saving of pug mill, RAV and building lighting	Periodic review of ash flow and system load to ensure continued efficiency
7.	Bag filter installed in kiln 4 & 5 char bin for pollution control	Leads to Dust Control and Minimize the emission	Leads to Dust Control and Minimize the emission	Routine inspection and timely replacement of filter elements to maintain performance

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, Prakash Industries Limited has implemented comprehensive Onsite and Offsite Disaster Management Plans, complemented by a Business Continuity Plan to ensure operational resilience. Regular mock drills are conducted to evaluate the effectiveness of these plans, and employees receive ongoing training to understand their roles during emergencies. Firefighting systems undergo routine inspections, and fire extinguishers are refilled and certified to maintain readiness. Furthermore, the company engages with the surrounding community through awareness camps, educating them about potential disasters and corresponding emergency response strategies. These proactive measures underscore Prakash Industries' commitment to safety and preparedness for both employees and the local community.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

All value chain partners are required to comply with the Company's supplier assessment criteria prior to commencing any business activities. These criteria encompass key areas such as working conditions and employment practices, health and safety, environmental responsibility, and business ethics. At present, there is no indication of any significant environmental impact arising from the Company's value chain operations.

PRINCIPLE 7: BUSINESSES, WHEN ENGAGING IN INFLUENCING PUBLIC AND REGULATORY POLICY, SHOULD DO SO IN A MANNER THAT IS RESPONSIBLE AND TRANSPARENT

1. A) Affiliations with trade and industry chambers/ associations:
B) List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to:

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	Confederation of Indian Industry	National
2	PHD Chamber of Commerce and Industry	National
3	ASSOCHAM	National

- Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
Not Applicable						

There is no any case of Rehabilitation and Resettlement (R&R)- talk about CSR and ESG

- Community redressal mechanism

Describe the mechanisms to receive and redress grievances of the community

The Company has a structured mechanism to receive and redress community grievances through both written and verbal communication, primarily from nearby villages. These grievances are directed to the concerned department for timely and appropriate resolution. The Company encourages community participation and maintains a transparent process for addressing concerns. As part of its CSR initiatives, the Company has adopted two villages- Kotadabri and Hathnewara- and regularly engages with residents to understand and respond to their needs. Key areas of intervention include education, healthcare, and sanitation, where the Company actively works to address issues and support overall community development.

- Percentage of input material (inputs to total inputs by value) sourced from suppliers:

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not Applicable	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent (In INR)
1	Chhattisgarh	Janjgir - Champa	23058844
2	Delhi	South Delhi	98125000
3	Odisha	Sirkaguttu Keonjhar	11157562

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

No. Prakash Industries follows an egalitarian approach in its procurement practices, ensuring equal opportunity for all suppliers based on merit. Supplier selection is based on key performance parameters such as quality, cost, delivery timelines, and reliability. While there is no formal preferential procurement policy, the Company encourages engagement with local and MSME suppliers to support inclusive growth.

(b) From which marginalized /vulnerable groups do you procure? Not Applicable

(c) What percentage of total procurement (by value) does it constitute? Not Applicable

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:-

S. No.	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
Not Applicable				

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved:

Name of authority	Brief of the Case	Corrective action taken
Not Applicable		

6. Details of beneficiaries of CSR Projects:

S. No.	CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized group
1	Drinking water facility	6243	94.00%
2	Promotion of education	6972	91.00%
3	Health care	3120	94.00%
4	Environmental awareness- Plantation and water conservation	2512	97.00%
5	Promotion of Sport	2170	92.00%
6	Social causes	4125	98.00%

The execution of programs under the thematic heads Education, Healthcare, Rural Transformation, Environment and Sanitation are carried out with the support from development sector Organizations and institutions apart from implementation through respective CSR teams. Employee volunteering also acts as a critical implementing arm across for the earmarked communities. The interventions are carried out in tandem with local Government bodies to meet the social mandate for the earmarked communities.

PRAKASH INDUSTRIES LIMITED

The Company's Corporate Social Responsibility (CSR) initiatives are implemented through delivery mechanisms comprising of employees, local bodies, non-governmental organizations, not for-profit entities and government institutions etc. The CSR is the integral part of the Company policy and all CSR initiatives is being planned, executed and monitored by the dedicated CSR Team.

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Consumer Complaints and feedback:

Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Company has implemented ISO-9001:2015 and have structured procedure under ISO -9001:2015 to receive and respond to consumer complaints and feedback. The Company take the customer satisfaction survey as per ISO-9001:2015 procedures and accordingly action is initiated for ensuring higher customer satisfaction.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	-
Safe and responsible usage	-
Recycling and/or safe disposal	-

3. Number of consumer complaints in respect of the following:

	FY 2024-2025		Remarks	FY 2023-2024		Remarks
	Received during the year	Pending resolution at end of year		Received during the year	Pending resolution at end of year

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls	Nil	Nil
Forced recalls	Nil	Nil

5. Cyber security policy:

Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy. -NO

6. Corrective Actions:

Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

No such issues arose relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services

7. Provide the following information relating to data breaches:
 - a. Number of instances of data breaches- Nil
 - b. Percentage of data breaches involving personally identifiable information of customers- NA
 - c. Impact, if any, of the data breaches- NA

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available). -Yes, www.prakash.com.
2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.
As our Product is B2B and Industrial Usage Product, hence we mention the heat specific details on each billet and also provide the test certificate with each lot for safe and responsible usage of the product by the users in their manufacturing process.
3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.
Company has implemented ISO-9001:2015 (QMS) System and follow the procedure for customer centric approach, customer complaints redressal process and accordingly the customer communication is performed as per ISO documented procedures.
4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)
Yes. As our product is industrial-grade and used in B2B applications, we provide additional information beyond regulatory requirements. Each billet is marked with heat-specific details, and a test certificate is provided with every lot to ensure traceability, quality assurance, and safe, responsible use. Furthermore, we conduct customer satisfaction surveys as per the procedure defined under ISO 9001 standards to assess and improve client experience across significant operational locations. This reflects our commitment to transparency, quality, and continuous improvement in customer engagement.

INFORMATION IN ACCORDANCE WITH THE PROVISIONS OF SECTION 134(3) (m) OF THE COMPANIES ACT 2013; READ WITH RULE 8 OF COMPANIES (ACCOUNTS) RULES 2014 REGARDING CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO FOR THE YEAR ENDED 31ST MARCH, 2025

A) CONSERVATION OF ENERGY

I) STEPS TAKEN FOR IMPACT ON CONSERVATION OF ENERGY

Company is committed to conserve the Energy with energy efficient operations, Energy Management System aligned with ISO 50001 certification has been implemented to ensure a systematic approach towards energy management.

Detailed energy audits are conducted through esteemed agencies like the Confederation of Indian Industry (CII) and other competent agencies to identify areas for improvement and adoption of new technologies and processes for achieving energy efficiencies. Company has also implemented the recommendations in Energy audits across all processes, resulting continuous improvement in energy conservation. This proactive approach has not only reduced the environmental footprint but also optimized the operational efficiency."

Following are the details of some of the major initiatives taken by the Company towards Conservation of Energy :

Sponge Iron Division

1. Reduction of the specific coal consumption & optimization to a level to 1.242 T/T of DRI in 2024-25, which was 1.29 T/T of DRI in 2023-24 and 1.34 T/T DRI in 2022-23 which was made possible with better process optimization and consistency in Coal FC.
2. Increase in Yield in DRI kilns to 66.40 % in 2024-25 from 66.29 % in 2023-24 and 66.00% in 2022-23 by better process optimization, efficient process controls and uses of better raw materials.
3. In order to control the sponge iron output temperature, Cooling towers installed in the kilns to avoid re-oxidation & to maintain the FeM of Sponge iron which helped in better yield in IFD.
4. We've done insulation in the Electrostatic Precipitator (ESP) systems across all kilns and minimized heat losses. This has also extended the lifespan of the ESP systems by preventing water ingress during the rainy season.
5. High Mast Light replaced from HPMV Lights to LED Light in Different areas of Plant in Kiln & RMP areas for energy conservation and improved illumination.
6. The catalyst "Thermol" was used in Coal dryers & to reduce the LDO consumption during the Dryer Operation in the Monsoon Season.

Induction Furnace Division (IFD)

1. Improved the IFD Productivity and IFD yield by use of Better charge mix of Iron ore DRI and Pellet DRI with optimized process control and reduced downtime resulting reduction of specific energy consumption and improved patching life.
2. Optimized the Patching life by using superior quality Ramming Mass, resulting increase in productivity & less power consumption. This has resulted into reduction of Cost, increased productivity and reduction of energy Consumption.
3. Improved the IFD Yield by 0.89 % Yield i.e. 81.34% in 2024-25 as compare to 80.45% in the year 2023-24 with efficient operation and optimized charge-mix.
4. Introduced the Inductoplast insulation for furnace coil insulation in place of sub-bond hardner type insulation which leads to better performance and minimized the sparking problem.
5. Modified the CCM Primary and Secondary cooling system with improved quality water which lead to improved cooling efficiency, increased productivity & reduced power consumption.

SAF Division

1. Optimized the use of Iron Ore lumps and other Raw Materials in the SAF by better process control & better charge mix which lead to increase in the productivity & less power consumption.
2. Optimized the Specific Power consumption with increased Pearl coke % & Better Process Control.
3. Water Cooling pressure Ring replaced in SAF Furnaces for minimised breakdown and maintaining the Furnace temperature. Water Cooling Jackets are also replaced in the SAF Furnaces for effective alignment of copper Contact Clamps and to arrest water leakages.
4. Modified and replaced the Deformed Mantle, Protection shield in SAF to reduce Furnace Electrode deflection as well as mis-alignment of Electrode for minimizing Breakdowns and to arrest the sparking problem. This has resulted to lesser energy consumption.
5. Installed the motorized vibro-feeder at batching system of SAF 7,8 and 9 in place of coil type feeder to improve the productivity and for lesser power consumption.
6. Energy efficient motors are installed and all HPSV Lights are replaced with LED Lights for Energy Conservation in SAF
7. Replacement of Flexible copper wire ropes in SAF to operate the Furnace at Optimum Load with better efficiency & at lower power consumption.

Power Plant Division

1. Regular cleaning of the Condenser and generator air cooler with chemical and high pressure jet water for improving the vacuum for optimized steam consumption in the turbines. This has also reduced winding temperature of generator resulting lower steam consumption.
2. Major overhauling of TG-10 at Siemens Baroda to improve the power generation to reduce the specific steam consumption to the design value.
3. Replacement & modification in economizer coils, Bed Coils, Bed Super heater Coils, APH tubes , furnace refractory and coal feeding system in AFBC boilers to increase the availability and reliability of boilers which has resulted into the lower fuel consumption and more power generations.
4. Modified and Shifted the power source for Aux load of TG in Coal based PP for better Islanding prospect in 4x25 mw power plant to avoid total blackout condition and power failure during any interruption in Grid. This has resulted into uninterrupted power supply for production.
5. APFC (Automatic power factor control) Panels of latest technology were installed at 4x25 mw Power Plant for reactive power control and power factor optimization of electrical system of plant.
6. Conventional flouocent Tube lights & HPSV light fittings are replaced with LED lights to conserve energy.
7. Coal Additive (Multifunctional Combustion Catalyst) is used successfully and achieved the significant Coal Savings in Boiler and also reduced the Loss of Ignition in fly ash making fly ash usable for cement plant and thus created wealth from waste.
8. Enhanced the Use of Kiln waste product (Char) in AFBC boilers as alternative fuel which has replaced 35 to 40% of Coal and thus reduction of Fresh Coal procurement.
9. Installation of high efficiency feed pump of KSB make in place of old design Sulzer make in WHRB -2. By which we have achieved power savings and also reduction of breakdowns.
10. Installation of probe in ash handling systems of FBB Boilers and also optimized operation of Compressor which has resulted into reduction of power consumption, reduction of breakdowns and leads to improvement in operation of compressors.
11. Improved the Cooling Tower's Efficiency by performing Cooling Tower cleaning and overhauling which leads to improve the performance of Turbines, and improved the condenser vacuum levels as per design limits & ultimately resulting maximum generation with minimum steam consumption and reduction of Auxiliary power consumption.

II) STEPS TAKEN BY THE COMPANY FOR UTILIZING ALTERNATE SOURCES OF ENERGY

The alternate source of energy used by the Company is Power Generation through Waste Heat Recovery Boilers (WHRB) attached with DRI Kilns by utilizing waste heat of flue gases of Kilns. Apart from Power Generation through WHRB based, Boilers power is also generated through AFBC Boilers using the Coal Char, the solid waste generated in the Kilns as alternate fuel to save Coal in Power Plant. To meet out additional power during peak demand of Furnaces in Steel Melting Shop, power is sourced from the Grid (CSEB).

PROCESS IMPROVEMENT

Following are the some of the major initiatives taken by the Company towards Process Improvement :

Sponge Iron Division

1. Reduction of the specific coal consumption & optimization to a level to 1.242 T/T of DRI in 2024-25, which was 1.29 T/T of DRI in 2023-24 and 1.34 T/T DRI in 2022-23 which was made possible with better process optimization and consistency in Coal FC.
2. Increase in Yield in DRI kilns to 66.40 % in 2024-25 from 66.29 % in 2023-24 and 66.00% in 2022-23 by better process optimization, efficient process controls and uses of better raw materials.
3. To enhance efficiency and consistency in the kiln operations, Company has installed Coal Dryers to maintain optimal kiln performance, even during the monsoon season, by ensuring a consistent supply of dry coal. Previously, we had to reduce the feed rate by an average of 1-2 tons per hour in each kiln to maintain product quality due to wet coal. With the coal dryers, we can now operate the kilns at full capacity, regardless of the season, while maintaining high product quality.
4. Installed New bag filters of latest technology at kiln 4, 5 product separation for better operation of Product separation and efficient working of Pollution control system resulting elimination of fugitive emissions
5. Modified the CD belts from 500 mm to 650 mm for uninterrupted operation, to eliminate the spillage and to control wastage of Material.
6. In order to minimize the fugitive emission for better work environment ESP ash handling systems were clubbed to discharge all materials into single Silo.
7. In order to control the sponge iron output temperature, Cooling towers installed in the kilns to avoid re-oxidation & to maintain the FeM of Sponge iron which helped in better yield in IFD.
8. Modified and Increased the Height of Coal Sheds to increase the capacity of storage which also ensured bigger capacity trucks unloading resulting fuels saving and availability of more dry coal,
9. We've done insulation in the Electrostatic Precipitator (ESP) systems across all kilns and minimized heat losses. This has also extended the lifespan of the ESP systems by preventing water ingress during the rainy season.
10. Upgraded the Kiln PLC system with Latest Technology for efficient and smooth operation of Kilns.
11. Upgraded the old MCC Panel of Pump House with new MCC Panel to reduce breakdowns & for smooth operation of Pump House.
12. High Mast Light replaced from HPMV Lights to LED Light in Different areas of Plant in Kiln & RMP areas for energy conservation and improved illumination.
13. The catalyst "Thermol" was used in Coal dryers & to reduce the LDO consumption during the Dryer Operation in the Monsoon Season.
14. A new Product Super Absorbent Polymer (SAP333) was used in Monsoon season to reduce the Moisture of Iron Ore Fines, which helped to utilize the iron ore fines during the monsoon season also and leads to minimize the handling losses of Iron Ore Fines.
15. Optimized the Kiln Process for better process control and Product Quality by continuous operation of Cone Crusher to meet the requirement of Crushed Iron ore for the Kiln operations.
16. The consistent quality of Coal is being ensured from our Captive Mines to improve the Kiln Operations and

Quality of Product. It also helped in improving the Campaign Life Productivity and also reduced the cost of Production.

17. Used Improved Quality Refractory for better Campaign life to avoid the radiation Losses of Kilns.
18. To improve the Air tubes Life and to avoid air tube crakes we have applied the heat resistant coating successfully on the air tubes.
19. Continuous operation and use of Dry Density Separator for ROM coal to improve the FC in the Coal by separating and removing the Stone and Shell stone from the coal for providing the consistent quality Coal for Kiln Feed, which helped in better kiln operation.

Induction Furnace Division

1. Improved the IFD Productivity and IFD yield by use of Better charge mix of Iron ore DRI and Pellet DRI with optimized process control and reduced downtime resulting reduction of specific energy consumption and improved patching life.
2. Optimized the Patching life by using superior quality Ramming Mass, resulting increase in productivity & less power consumption. This has resulted into reduction of Cost, increased productivity and reduction of energy Consumption.
3. Improved the IFD Yield by 0.89 % Yield i.e. 81.34% in 2024-25 as compare to 80.45% in the year 2023-24 with efficient operation and optimized charge-mix.
4. Optimized the SiMN consumption by better furnace Operation and control.
5. Upgraded the CCM by installing the latest technology Eccentric Cam assemblies by replacing the Old system of fixed stroke Eccentric Cam assembly.
6. Modified the Apron chamber from MS Plates to Bricks lining & RCC work for Better Safety and enhanced durability which also helped in better operation and working environment.
7. Introduced the Inductoplast insulation for furnace coil insulation in place of sub-bond hardner type insulation which leads to better performance and minimized the sparking problem.
8. Modified the CCM Primary and Secondary cooling system with improved quality water which lead to improved cooling efficiency, increased productivity & reduced power consumption.
9. Installed and effectively used the Hydraulic pushers in the Furnaces to avoid furnace jamming during more percentage of pellets sponge. This has also helped in optimizing the power consumption.
10. Silicon mica sheet has been introduced in place of normal mica sheet which does not spoil out during any water leakage problem. Hence, reduced the breakdowns.
11. Header and risers of cooling system modified in all CCM's, which reduced consumption of water hose & also increased cooling which ultimately resulted to smooth operation and improved product quality.
12. Installation of latest technology slag Processing Unit for better quality of metal recovered from IFD slag which has resulted into reduction of DRI Consumption and better solid waste management.

Power Plant Division

1. Regular cleaning of the Condenser and generator air cooler with chemical and high pressure jet water for improving the vacuum for optimized steam consumption in the turbines. This has also reduced winding temperature of generator & lower steam consumption.
2. Major overhauling of TG-10 by Siemens Baroda to improve the power generation & to reduce the specific steam consumption to the designed valve.
3. Replacement & modification in Economizer coils, Bed Coils, Bed Super heater Coils, APH tubes, furnace refractory and coal feeding system in AFBC boilers to increase the availability and reliability of boilers which has resulted into the lower fuel consumption and more power generations.
4. Applied the Plastic refractory In AFBC Boiler bed coils to increase the life of tubes and for avoiding direct hitting

of bed material with bed coil tubes during operation which has ensured more availability and reliability of the Power Plant.

5. Replaced the Economizer coils, Water wall tubes and refractory in WHRB boilers and also installed sonic horn in place of steam soot blower for Improving the availability and reliability of the WHRB by reducing the breakdowns and thus improved the performance of WHRB.
6. Modified and Shifted the power source for Aux load of TG in Coal based Power Plant for better Islanding in 4x25 mw power plant to avoid total blackout condition and power failure during any interruption in Grid. This has resulted into uninterrupted power supply for production.
7. Revamping of ESP of AFBC Boilers to minimise the emission level from chimney, by replacing the conventional TR panels of ESP with IGBT based HFPS panels and by installing advanced controllers, the emission level at chimney outlet has been reduced lower than the statutory norms.
8. APFC (Automatic power factor control) Panels of latest technology were installed at 4x25 mw Power Plant for reactive power control and power factor optimization of electrical system of plant.
9. Conventional flouocent Tube lights & HPSV light fittings are replaced with LED lights to conserve energy.
10. Coal Additive (Multifunctional Combustion Catalyst) is used successfully and achieved the significant Coal Savings in Boiler and also Reduction in Loss of Ignition making fly ash usable for cement plant and thus created wealth from waste.
11. Enhanced the Use of Kiln waste product (Char) in boiler as alternative fuel replacing to 35 to 40 % of Coal which leads to reduction of Fresh Coal procurement.
12. Replacement of high efficiency feed pump of KSB make in place of old design Sulzer make in WHRB -2. By which we have achieved power saving and also reduction of breakdown.
13. Installation of New modified screen in FBB New CHP, due to which Now CHP efficiency has improved drastically. Also it has reduced breakdowns significantly.
14. Installation of probe in ash handling systems of FBB Boilers and also optimized system operation which has resulted into reduction of power consumption, reduction of breakdowns and leads to improvement in operation of compressors.
15. Improved the Cooling Tower's Cooling Efficiency by performing the all Cooling Tower cleaning and overhauling which leads to improve the performance of Turbines, and improved the condenser vacuum within design limits resulting maximum generation with minimum steam and has leads to reduction of Auxiliary power consumption.
16. Latest technology Oxygen analysers installed in AFBC Boilers to monitor correctly & control the Oxygen percentage in the boiler furnaces which helped to improve the performance of Boiler.

SAF Division

1. Optimized the use of Iron Ore lumps and other Raw Materials in the SAF by better process control & better charge mix which lead to increase in the productivity & lesser power consumption.
2. Optimized the Specific Power consumption with increased Pearl coke % & Better Process Control
3. Water Cooling pressure Ring replaced in SAF Furnaces to minimised breakdown and maintaining the Furnace temperature and Water Cooling Jackets are also replaced in all SAF Furnaces for effective alignment of copper Contact Clamps and to arrest water leakage.
4. Modified and replaced the Deformed Mantle, Protection shield in SAF to reduce Furnace Electrode deflection as well as alignment of Electrode to minimized Breakdowns and to arrest the sparking problem. This has resulted to lesser energy consumption.
5. Replaced the Filter Bags of Pollution Control System of SAF Furnaces with new efficient glass Filter Bags to increase suction of Furnace hot gas and minimize the fugitive emissions.
6. Installed the motorized vibro-feeder at batching system of SAF 7,8 and 9 in place of coil type feeder to improve the productivity and less power consumption.

7. SAF Furnace Digging work carried out as and when required in the Furnaces to remove the accumulation inside the furnace, to increase the furnace hearth areas, to improve the furnace operation to improve Electrode Penetration and to reduce the break down for maximum production.
8. Energy efficient motors are being used and all HPSV Lights are replaced with LED Lights for Energy Conservation in SAF
9. Replacement of Flexible copper wire ropes in SAF to operate the Furnace at Optimum Load with better efficiency & at lower power consumption.
10. Metallic coated PU liner has been fitted to feeder tray at Batching system of SAF which leads to increase the life and also leads to smooth discharge of Raw Material into Furnace through Belt Conveyor & Skip Hoist & thereby better furnace operation.

PRAKASH INDUSTRIES LIMITED

INDEPENDENT AUDITOR'S REPORT

To,

THE MEMBERS OF PRAKASH INDUSTRIES LIMITED

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the accompanying financial statements of Prakash Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year on that date and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter(s) described in the Basis for Qualified Opinion section of our report, the aforesaid financial statements give the true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit and total other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

1. Note 34 to the financial statements, wherein the deferred tax liability of ₹3,146 lakhs for the year ended on March 31, 2025, has been adjusted against the Securities Premium Account in terms of a court order. Had the deferred tax been accounted for pursuant to Ind AS -12 'Income Taxes', tax expense would have been higher by ₹3,146 lakhs and net profit and total comprehensive income after tax for year ended on March 31, 2025, would have been lower by ₹3,146 lakhs.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including its Annexures, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with the governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"). Issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-A" a statement on the matters specified in paragraph 3 and 4 of the order, to the extent applicable.

As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and except for the matter described under the "Basis for Qualified Opinion" paragraph, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) Except for the effects of the matter described in the "Basis for Qualified Opinion" paragraph, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion" paragraph, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014.
- e) On the basis of written representations received from the directors as on March 31, 2025 taken on the record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of section 164(2) of the Act.
- f) The qualification relating to the maintenance of account other matter connected there with are as stated in the "Basis for Qualified Opinion" paragraph.
- g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure-B". Our report expresses a modified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- h) In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid during the current year by the company to directors is in accordance with the provisions of section 197 of the Act.

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The company has disclosed the impact of pending litigations on its financial position in its financial statements, (Refer to note no. 31)
 - ii. Except for the matter described under the "Basis for Qualified Opinion" paragraph, the Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring the amount required to be transferred, to the Investor Education and Protection Fund by the Company during the year.
 - iv (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - iv (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - iv (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
 - v. As stated in the note 47 of the financial statement, the board have proposed the final dividend of ₹1.50 per share of ₹10.00 each for the year which is subject to approval at the annual meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to the declaration of dividend.
 - vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been persevered by the Company as per the statutory requirement for record retention.

According to the information and explanations given to us and on the basis of the financial ratios (also refer Note 45 to the financial statements), ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of the balance sheet as and when they fall due within a period of one year from the balance sheet date. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.
- xx. The Company has spent the specified amount under Corporate Social Responsibility as required under sub section(5) of Section 135 of the Act during the year.
- xxi. The reporting under Clause 3(xxi) of the Order is related to the consolidated financial statements. Accordingly, clause xxi is not applicable.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in 'Report on other Legal and Regulatory Requirement' section of our report to the Members of PRAKASH INDUSTRIES LIMITED of even date)

Report on the Internal Financial Controls over Financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Prakash Industries Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Qualified Opinion

In our opinion according to the information and explanations given to us and based on our audit, a material weakness in the process of financial reporting is identified. As stated in basis of qualified opinion paragraph of our report, wherein the deferred tax liability of ₹3,146 lakhs for the year ended on March 31, 2025, has been adjusted against the Securities Premium Account in terms of a court order. Had the deferred tax been accounted for pursuant to Ind AS -12 'Income Taxes', tax expense would have been higher and net profit and total comprehensive income after tax for year ended on March 31, 2025, would have been lower by the same amount.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Qualified opinion

In our opinion, except for the effects of material weaknesses described in "Basis for Qualified Opinion" paragraph above, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

PRAKASH INDUSTRIES LIMITED

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the financial statements of the Company for the year ended on March 31, 2025, and these material weaknesses have affected our opinion on the financial statements of the Company and we have issued a qualified opinion on the financial statements.

Notes on financial statements

1. Company Overview

Prakash Industries Limited (the "Company") is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India and its equity shares are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) in India. It has been engaged primarily in the business of manufacture and sale of Steel Products and generation of Power. The Company has its manufacturing facilities in India and sells products in India.

The financial statements for the year ended 31st March, 2025 were approved for issue in accordance with a resolution of the Board of Directors of the Company dated 23rd May, 2025.

2. Significant Accounting policies

2.1 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended, and presentation requirements of Schedule III to the Act under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in INR, which is also the Company's functional currency and all values are rounded to the nearest lakhs (INR 00,000), except when otherwise indicated.

All assets and liabilities, other than deferred tax assets and liabilities, have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III (Division II) to the Act. Deferred tax assets and liabilities are classified as non-current assets and liabilities. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for current and non-current classification of assets and liabilities.

2.2 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at the date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgements In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Discount rate used to determine the carrying amount of the Company's defined benefit obligation: In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

Contingences and commitments: In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, company treat them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, company does not expect them to have a materially adverse impact on the financial position or profitability.

Notes on financial statements**Key sources of estimation uncertainty**

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Income taxes: The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

Useful lives of property, plant and equipment: As described in note 2.7, the Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

Allowances for doubtful debts: The Company makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates.

2.3 Operating Cycle and Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification in accordance with Part-I of Division-II of Schedule III of the Companies Act, 2013.

An asset is treated as current when it (a) Expected to be realised or intended to be sold or consumed in normal operating cycle; (b) Held primarily for the purpose of trading; or (c) Expected to be realised within twelve months after the reporting period, or (d) The asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when (a) It is expected to be settled in normal operating cycle; or (b) It is held primarily for the purpose of trading; or (c) It is due to be settled within twelve months after the reporting period, or (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counter party, results in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its normal operating cycle.

2.4 Revenue recognition**Revenue**

The Company manufactures and sells a range of steel products. The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided below.

Sale of products

Revenue from sale of products is recognised when control of the products has transferred, being when the products are delivered to the customer. Delivery occurs when the products have been delivered to the specific location as the case may be, the risks of loss has been transferred, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied. Sale of products include related ancillary services, if any.

Revenue from these sales is recognised based on the price specified in the contract, net of the estimated trade discounts. Accumulated experience is used to estimate and provide for the discounts, using the most likely method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

No element of financing is deemed present as the sales are generally made with a credit term of 30-60 days, which is consistent with market practice. Any obligation to provide a refund is recognised as a provision. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due. The Company does not have any contracts where

Notes on financial statements

the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year.

Interest income Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends Dividend income from investments is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.5 Segment Reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the Chief Financial Officer in deciding how to allocate resources and assessing performance. Thus, the Company's business falls under - one operational segment i.e. "Iron & Steel".

The entire power generated by its power plant at Champa is captively used by the Company in its production processes of iron & steel. Therefore, in terms of Para 12 of Ind AS 108, the management has decided to aggregate it into primary business operating segment i.e., "Iron & Steel". Hence, the figure of captive power generation has been included in one reportable segment "Iron & Steel".

Moreover, Wind Power Business does not meet any of the quantitative thresholds as defined in the Para 13 of Ind AS 108. Hence, the information about that segment is not being continued to be reported separately in the current period.

2.6 Foreign Currencies

Functional currency: The functional currency of the Company is the Indian rupee.

Transactions and translations: Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Foreign exchange difference regarded as borrowing taken for non-monetary items, an adjustment to borrowing costs are presented/reported as part of non-monetary item.

2.7 Property, plant and equipment

Property, plant and equipment (PPE) are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Notes on financial statements

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and use full lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the straight- line method ("SLM") in the manner prescribed in Schedule II of the Act. Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.) that the useful lives of the assets as considered by the company reflect the periods over which these assets are expected to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

Mining assets are amortised over the useful life of the mine or lease period whichever is lower.

Freehold land is not depreciated.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in profit or loss. Fully depreciated assets still in use are retained in financial statements.

2.8 i. Exploration for and evaluation of mineral resources

Expenditures associated with search for specific mineral resources are recognised as exploration and evaluation assets. The following expenditure comprises cost of exploration and evaluation assets:

- obtaining of the rights to explore and evaluate mineral reserves and resources including costs directly related to this acquisition.
- researching and analysing existing exploration data.
- conducting geological studies, exploratory drilling and sampling
- examining and testing extraction and treatment methods
- compiling pre-feasibility and feasibility studies
- activities in relation to evaluating the technical feasibility and commercial viability of extracting a mineral resource.

Administration and other overhead costs are charged to the cost of exploration and evaluation assets only if directly related to an exploration and evaluation project.

If a project does not prove viable, all irrecoverable exploration and evaluation expenditure associated with the project net of any related impairment allowances is written off to the statement of profit and loss.

The Company measures its exploration and evaluation assets at cost and classifies as property, plant and equipment or intangible assets according to the nature of the assets acquired and applies the classification consistently. To the extent that a tangible asset is consumed in developing an intangible asset, the amount reflecting that consumption is capitalised as a part of the cost of the intangible asset.

As the asset is not available for use, it is not depreciated. All exploration and evaluation assets are monitored for indications of impairment. An exploration and evaluation asset is no longer classified as such when the technical

Notes on financial statements

feasibility and commercial viability of extracting a mineral resource are demonstrable and the development of the deposit is sanctioned by the management. The carrying value of such exploration and evaluation asset is reclassified to mining assets.

ii. Development expenditure for mineral reserves

Development is the establishment of access to mineral reserves and other preparations for commercial production. Development activities often continue during production and include:

- sinking shafts and underground drifts (often called mine development)
- making permanent excavations
- developing passageways and rooms or galleries
- building roads and tunnels and
- advance removal of overburden and waste rock

Development (or construction) also includes the installation of infrastructure (e.g., roads, utilities and housing), machinery, equipment and facilities.

Development expenditure is capitalised and presented as part of mining assets. No depreciation is charged on the development expenditure before the start of commercial production.

iii. Provision for restoration and environmental costs

The Company has liabilities related to restoration of soil and other related works, which are due upon the closure of certain of its mining sites.

Such liabilities are estimated case-by-case based on available information, taking into account applicable local legal requirements. The estimation is made using existing technology, at current prices, and discounted using an appropriate discount rate where the effect of time value of money is material.

Future restoration and environmental costs, discounted to net present value, are capitalised and the corresponding restoration liability is raised as soon as the obligation to incur such costs arises. Future restoration and environmental costs are capitalized in property, plant and equipment or mining assets as appropriate and are depreciated over the life of the related asset. The effect of time value of money on the restoration and environmental costs liability is recognised in the statement of profit and loss.

2.9 Capital work-in-progress

Capital work-in-progress is carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

2.10 Intangible assets

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortisation and accumulated impairment losses, if any

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on derecognition are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

The Company amortises intangible assets with a finite useful life using the straight-line method over the useful lives determined by the terms of the agreement /contract. The estimated useful life is reviewed annually by the management.

2.11 Impairment of PPE and intangibles assets: Property, plant and equipment and intangible assets with finite life are evaluated for recover ability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs.

Notes on financial statements

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the Statement of Profit and Loss.

2.12 Investment in subsidiary/joint ventures (JV)

Investments in subsidiary/JV are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiary/JV, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

2.13 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax: Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax: Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of a deferred tax asset is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

2.14 Operating Leases Including Investment Properties

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee**a) Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Notes on financial statements

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to note 2.11 for accounting policies on impairment of non financial assets.

b) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments primarily comprise of fixed payments.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

c) Short-term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases of office spaces and certain equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

As a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income

2.15 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.16 Provisions and Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

2.17 Inventories

Inventories are valued at lower of cost on FIFO basis and net realisable value after providing for obsolescence and

Notes on financial statements

other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

2.18 Non-derivative financial instruments

Classification

The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets classified as 'measured at fair value', gains and losses will either be recorded in profit or loss or other comprehensive income, as elected. For assets classified as 'measured at amortized cost', this will depend on the business model and contractual terms of the cash flows.

Initial Measurement and Recognition

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a. Financial assets - Subsequent measurement

Financial assets at amortised cost: Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI): Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through profit or loss (FVTPL): Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

b. Financial liabilities - Subsequent measurement

Financial liabilities are measured at amortised cost using the effective interest method. The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings: After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost on accrual basis.

Composite financial Instrument: The fair value of the liability portion of an optionally convertible bond is determined using a market interest rate for an equivalent non-convertible bond. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the bonds. The remainder of the proceeds is attributable to the equity portion of the compound instrument. This is recognised and included in shareholders' equity.

Impairment of financial assets

The Company assesses on a forward-looking basis, the expected credit losses associated with its financial assets carried at amortised cost for e.g., debt securities, deposits, trade receivables and bank balances; and

Notes on financial statements

lease receivables. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables and all lease receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit losses (ECL) at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument over the expected life of the financial instrument.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss. The Balance Sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost, revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments based on shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

For debt instruments at fair value through OCI, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument.

However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

c. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Notes on financial statements**2.19 Borrowing costs**

General and specific borrowing costs (including exchange differences arising from foreign currency borrowing to the extent that they are regarded as an adjustment to interest cost) that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

Foreign exchange difference regarded as borrowing taken for non-monetary items, an adjustment to borrowing costs are presented/reported as part of non-monetary item.

2.20 Employee Benefits

Employee benefits consist of contribution to employees state insurance, provident fund, gratuity fund and compensated absences.

Post-employment benefit plans**Defined Contribution plans**

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company operates defined benefit plan in the form of gratuity and compensated absence. The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the said obligation is determined by discounting the estimated future cash out flows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

The interest expenses are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest expense on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

The classification of the company's net obligation into current and non-current is as per the actuarial valuation report.

2.21 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

Notes of financial statements

- (i) Valuation technique used to determine fair value:-
- The fair value of foreign currency convertible bonds and interest thereon are valued using respective currency conversion rate available on the reporting date with the Reserve Bank of India.
 - The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

- (ii) Fair value of financial assets and liabilities measured at amortized cost:- ₹ in lakhs

Financial liabilities	2025		2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Lease obligation	-	178	-	177

- (iii) The carrying amount of trade receivable, trade payable, capital creditors and cash and cash equivalents are considered to be the same as their fair value; due to their short-term nature.

43. Financial risk management
44.1. Capital management

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing the return to stakeholders through optimization of debt and equity balance. The Company is not subject to any externally imposed capital requirements.

The capital structure of the Company consists of net debt (borrowings as detailed in notes 15 and 18 less cash and bank balances as detailed in note 9 & 10) and total equity of the Company. Equity consists of equity capital, share premium and all other equity reserves attributable to the equity holders.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

(a) Capital risk management

The company's objectives when managing capital are to

- Safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits for other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital.

The company strategy is to optimize gearing ratio. The gearing ratios were as follows: ₹ in lakhs

Particulars	As at 31 st March, 2025	As at 31 st March, 2024
Net debt	15,107	8,461
Total equity	3,31,865	3,02,375
Net debt to equity ratio (in times)	0.05	0.03

44.2. Financial risk management

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company's principal financial assets comprise investments, cash and bank balance, trade and other receivables.

The Company is exposed to various financial risks such as market risk, credit risk and liquidity risk. The financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

a. Market Risk

The Company's activities expose it primarily to the financial risk of changes in foreign currency exchange rates and changes in interest rates. There have been no changes to the Company's exposure to market risk or the manner in which it manages and measures the risk in recent past.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings and bank deposits.

Notes of financial statements

I. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is limited.

₹ in lakhs

ii. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's borrowings. The Company's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Company's policies.

a) Particulars of unhedged foreign currency exposure as at the reporting date:

INR/USD-increased by 6% (Previous Year 6%)	575	560
INR/USD-decreased by 6% (Previous Year 6%)	(575)	(560)

b. Credit risk

Credit risk is the risk that counter party will default on its contractual obligations resulting in financial loss to the company. The Company has adopted a policy of only dealing with creditworthy customers.

The credit limit is granted to a customer after assessing the Credit worthiness based on the information supplied by credit rating agencies, publicly available financial information or its own past trading records and trends.

At March 31, 2025, the company did not consider there to be any significant concentration of credit risk, which had not been adequately provided for. The carrying amount of the financial assets recorded in the financial statements, grossed up for any allowances for losses, represent the maximum exposure to credit risk.

09/2024 dated September 19, 2024 respectively issued by the MCA and in compliance with the provisions of the Act and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the 44th Annual General Meeting (AGM) of the Company is being held through VC/OAVM without the physical presence of Members at a common venue. Notice of the AGM along with the Annual Report for the financial year 2024-25 is being sent only through electronic mode to those Members whose email addresses are registered with the Company/Depositories.

4. Members may note that the Notice and Annual Report 2024-25 will also be available on the Company's website www.prakash.com, RTA website www.skyline.com websites of the Stock Exchanges i.e., BSE Limited and National Stock Exchange of India Limited at www.besindia.com and www.nesindia.com respectively. The AGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM i.e. www.evotingindia.com).

Additionally, in accordance with Regulation 36(1)(b) of the Listing Regulations, the Company is also sending a letter to Members whose e-mail ids are not registered with Company/RTA/Depository Participant providing the web-link of Company's website from where the Annual Report for financial year 2024-25 can be accessed/downloaded.

5. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorised e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

6. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairperson of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
7. The attendance of the members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
8. Since this AGM is being held pursuant to the MCA circulars through VC/OAVM, physical attendance of Members has been dispensed with and there is no provision for the appointment of proxies. Accordingly, the facility for appointment of proxies by the Members under Section 105 of the Act will not be available for the 44th AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice. However, in pursuance of Section 112 and 113 of the Company Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.

10. Pursuant to Finance Act 2020, dividend income will be taxable in the hands of shareholders w.e.f. 1st April, 2020 and the Company is required to deduct TDS from dividend paid to shareholders at the prescribed rates. For the prescribed rates for various categories, the shareholders are requested to refer to the Finance Act, 2020 and amendments thereof. To enable the Company to determine the appropriate TDS / withholding tax rate applicability, a Resident individual shareholder with PAN and

who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by email to the Company at investorshelpline@prakash.com or Company's RTA at admin@skyline.com by 17th September, 2025. No communication on the tax determination / deduction shall be entertained thereafter. The shareholders are requested to update their PAN with the Company (in case of shares held in physical mode) and depositories (in case of shares held in demat mode).

11. Shareholder may note that that SEBI, vide its circular dated November 03, 2021 (subsequently amended by circulars dated December 14, 2021, March 16, 2023 and November 17, 2023) mandated that the security holders (holding securities in physical form), whose folio(s) are not updated with the KYC details (any of the details viz., PAN; Choice of Nomination; Contact Details; Mobile Number, Bank Account Details and signature, if any) shall be eligible for any payment including dividend, interest or redemption in respect of such folios, only through electronic mode with effect from April 01, 2024.

Accordingly, as mandated vide above circulars, dividend is liable to be withheld if the KYC details are not updated against physical folios. Shareholders are requested to complete their KYC by writing to the Company at investorshelpline@prakash.com or Company's RTA at admin@skyline.com. 19. The instructions for shareholders voting electronically are as under:

Commencement of E-voting	Saturday, 27th September, 2025 from 9 a.m. (IST)
End of E-voting	Monday, 29th September, 2025 by 5.00 p.m. (IST)

- (i) During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date 23rd September, 2025, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR /P/2020/242 dated 9th December, 2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional

shareholders/ retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

- (iv) In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only

facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (v) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 9th December, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. EXPLANATORY STATEMENT

(Pursuant to Section 102 of the Companies Act, 2013).

As required by Section 102 of the Companies Act, 2013

("Act"), the following explanatory statement sets out all material facts relating to the business mentioned under Item No. 4 to Item No. 8 of the accompanying Notice

Item No.4

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014 the remuneration payable to the Cost Auditors has to be ratified by the shareholders of the Company. The Board on the recommendation of the Audit Committee has approved the remuneration of the Cost Auditors to conduct the audit of the cost records of the Company for the financial year 2025-26 as mentioned in the resolution set out at Item No.4 of the notice. Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at this item of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year 2025-26.

The Board recommends the Resolution set out at Item No.4 for ratification by the shareholders.

Item No.5

Shri Sanjay Jain is a highly experienced professional holding a Bachelor's degree in Mechanical Engineering and a Master's degree in Business Administration with a specialization in Operations Management. He possesses over three decades of extensive experience in the areas of Operations, Project Management, Environmental Management, and Cost Economics. Shri Jain has been associated with the Company since 2004 and has developed a deep understanding of the Company's operations and strategic functions.

In view of his vast experience, technical expertise and continued contribution to the growth and efficiency of the Company, the Board of Directors, based on the recommendation of the Nomination and Remuneration Committee (NRC), at its meeting held on 23rd May, 2025, approved the reappointment of Shri Sanjay Jain as Whole-time Director, designated as Director (Operations), for a further period of three years, effective from 2nd August 2025 to 1st August 2028. The terms and conditions of his appointment, including remuneration, are as specified in the resolution set out at Item No. 5 of the accompanying Notice, subject to the approval of the shareholders.

In accordance with the provisions of the Companies Act, 2013, a copy of the resolution passed by the Board of Directors, along with the terms and conditions of appointment and relevant documents, is available for inspection by the members at the Registered/Corporate

Offices of the Company between 11:00 AM and 1:00 PM on any working day up to the date of the Annual General Meeting.

The terms of appointment as mentioned in the resolution may also be treated as an abstract of the terms and conditions of the appointment of Shri Sanjay Jain under Section 190 of the Companies Act, 2013.

Except for Shri Sanjay Jain, none of the Directors or Key Managerial Personnel of the Company or their relatives is, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board recommends the Special Resolution set out at Item No. 5 of the Notice for approval of the shareholders.

Item No. 6

Pursuant to the provisions of Section 204 of the Companies Act, 2013, read with the applicable rules framed thereunder and Regulation 24A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, every listed entity is required to obtain a Secretarial Audit Report from a practicing company secretary and annex the same with the Board's Report.

In compliance with the above statutory requirements, and based on the recommendation of the Board of Directors, it is proposed to appoint Shri Bhoopendra Kumar Bohra, Proprietor of M/s. B K Bohra and Associates, Practicing Company Secretaries, as the Secretarial Auditor of the Company for a term of five consecutive financial years commencing from the financial year 2025-26.

Shri Bhoopendra Kumar Bohra is a seasoned professional with substantial expertise in corporate laws, governance, and secretarial compliances. The Board is of the view that his appointment would facilitate the continued adherence to statutory requirements and best governance practices.

The terms and conditions of appointment, including the remuneration payable to the Secretarial Auditor, shall be determined by the Board of Directors of the Company, in consultation with the Auditor, from time to time.

None of the Directors and Key Managerial Personnel of the Company or their respective relatives are, in any manner, concerned or interested, financially or otherwise, in the proposed resolution.

The Board recommends the Ordinary Resolution as set out at Item No. 6 of the Notice for approval of the Shareholders.

Item No. 7

The members of the Company had earlier approved the appointment and remuneration of Shri Ved Prakash Agarwal (DIN: 00048907) as Whole-time Director designated as Chairman of the Company for a specified term on the terms and conditions as set out in the resolution passed at the time.

Shri Ved Prakash Agarwal, under whose leadership the Company has witnessed sustained growth, will attain the age of 70 (seventy) years in the month of March, 2026. As per the provisions of Section 196(3)(a) of the Companies Act, 2013, no company shall continue the employment of a Whole-time Director who has attained the age of 70 years unless it is approved by the members by passing a special resolution and supported by an explanatory statement justifying such continuation.

Considering his invaluable experience, strategic vision, and significant contribution to the growth and success of the Company, the Nomination and Remuneration Committee (NRC), at its meeting held on 11th August, 2025, reviewed the matter in detail and recommended to the Board the continuation of Shri Ved Prakash Agarwal as Whole-time Director designated as Chairman of the Company beyond the age of 70 years, on the existing terms and conditions.

Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors, at its meeting held on 11th August, 2025, approved the continuation of his tenure beyond the age of 70 years, subject to the approval of the members by way of a Special Resolution.

Shri Vikram Agarwal, Managing Director and Shri Kanha Agarwal, Joint Managing Director of the Company, are sons of Shri Ved Prakash Agarwal. Accordingly, Shri Ved Prakash Agarwal, Shri Vikram Agarwal and Shri Kanha Agarwal are deemed to be interested in this resolution. Save and except the aforementioned Directors, none of the other Directors or Key Managerial Personnel of the Company or their respective relatives are, in any manner, concerned or interested, financially or otherwise, in this resolution.

The Board recommends the Special Resolution set out at Item No. 7 of the Notice for approval of the shareholders.

Item No. 8

Dr. S C. Gosain (DIN: 08202130) was appointed as an Independent Director of the Company for a term in

PRAKASH INDUSTRIES LIMITED

accordance with the provisions of Section 149 of the Companies Act, 2013 and Regulation 17 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"). He has contributed significantly towards the governance, compliance, and strategic oversight of the Company.

In terms of Regulation 17(1A) of the SEBI LODR Regulations, no listed entity shall appoint or continue the directorship of a non-executive director who has attained the age of 75 years, unless a special resolution is passed to that effect by the shareholders, and justification is provided in the explanatory statement.

Dr. Gosain will attain the age of 75 (seventy-five) years in the month of July, 2026, during the existing tenure as an Independent Director. Considering his vast experience, domain expertise, and continuing valuable guidance to the Board, the Nomination and Remuneration Committee (NRC), at its meeting held on 11th August, 2025, after due evaluation of his performance and independence, recommended the continuation of his directorship beyond the age of 75 years. Based on the recommendation of the NRC, the Board of Directors, at its meeting held on 11th August, 2025, approved the continuation of his directorship beyond the age of 75 years, subject to the

approval of the shareholders by way of a special resolution.

The Board is of the view that Dr. Gosain's continued association would be highly beneficial and in the best interest of the Company and recommends the resolution for approval of the members.

Dr. Gosain is interested in this resolution to the extent of his continuation as an Independent Director. None of the other Directors or Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board recommends the Special Resolution set out at Item No. 8 of the Notice for approval of the shareholders.
