MANAGEMENT DISCUSSION AND ANALYSIS REPORT**(A) INDUSTRY STRUCTURE AND DEVELOPMENT:**

Considering the global economic slowdown, Indian economy appears to be the bright spot growing at 7.5% in 2015-16 as against 7.3% in 2014-15. Services Sector in India remained the most vibrant sector in terms of contribution to national and state incomes, trade flows, FDI inflows, and employment. Industry sector also performed satisfactorily although commodity prices remained low due to weakness in economic activity and global trade especially in China's economy. Manufacturing and construction sectors, the key consuming sectors, had a mixed performance with lot of planned investments, but suffered from lack of implementation on the ground.

Indian iron and steel industry had a challenging time in 2015-16 with oversupply in China and lower demand of iron due to weak industrial activity in India. For the second consecutive year, iron exports from India dropped by 60% year on year which resulted in oversupply in the domestic market. However, in calendar year 2017, it is forecasted that world steel demand will return to growth of 0.4%.

The Government's efforts for quick reforms may result in investments in infrastructure and construction sectors and economic activities will pick up. Manufacturing sector including the casting industry is poised to grow with the Government's on-going and

proposed investments in water and sanitation schemes, especially in new states like Telangana, as well as development of 100 smart cities in the country.

(B) FINANCIAL PERFORMANCE:

During the year, companies' production of G.I. Pipes has been reduced from 21427.464 M.T to 16479.193 M.T, whereas the production of Black Pipes has been increased from 1324.125 M.T to 3742.045 M.T. Trading export of the Company also increased during the previous year from 605.2 M.T to 917.175 M.T.

Total turnover of the Companies has been reduced from Rs. 11931.99 Lacs approx. to Rs. 9486.55 lacs approx. this is due to fall in the price of Steel in domestic as well international market. But overall profit of the company during the year has been increased from Rs. 83.38 Lacs approx. to Rs. 122.36 Lacs approx.

To sum up we can conclude that the company has delivered its best ever performance for a second year in succession.

(C) OPPORTUNITIES:

Foundry Industry in India is poised to grow because of "Make in India" initiative of the Government, as the Industry is a significant contributor to engineering and manufacturing activities with almost all equipment or machinery having some casting in it.

During the year 2015-16, the Company judiciously chose the market and customer segments which helped to optimize the overall price realization. During 2016-17, the Company's focus on increasing sale to direct customers with higher customized grades sale and enhances focus on proximate and credit-free market of eastern India are being planned to increase value which can be realized from the iron market.

(D) THREATS:

In the short-term, the slowdown in the global iron and steel market which started in 2014-15 and continued in 2015-16 may extend in 2016-17 as well. With a 60 % drop in pig iron exports in 2015-16 and the likelihood of continued global slowdown in 2016-17, there may be challenging times ahead for the domestic pig iron industry due to temporary oversupply. Further, indications of international coal and coke prices firming up in the near future along with the likelihood of imposition of anti-dumping duty on chins coke may put pressure on margins for pig iron manufacturers.

(E) OUTLOOK:

Production of the Galvanized Pipes in 2016-17 is projected to be almost at the same level as the previous level, whereas production of Black Steel Pipes will be more, as its demand in the international as well as domestic market is on higher side. This will results in lower sale of Galvanized pipes but increased sale of Black Steel pipes which will be more value creating for the shareholders.

In the long-term, demand for foundry grade iron is expected to improve on account of Government's focus on "Make in India".

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
