Q2 Performance

Q2 Background

- The Company had one more excellent quarter despite the introduction of GST and the effect of the application of the Prevention of Money Laundering Act to jewellery sector during the quarter.
- Market share gains in the jewellery segment continued and good growth in the Watches division helped the Company achieve 30% growth in revenue and almost 74% growth in profit before tax.
- Post introduction of GST, revenue numbers are not strictly comparable as current Net revenue figures are after deduction of GST which includes the erstwhile Excise duty and VAT. Previously only VAT was deducted from revenue and Excise duty was shown separately.
- While GST transition at the front end has been smooth and has not caused any disruption to business, work on the back end has been taking considerable time of the company and it is expected that it will take one more quarter for situation to normalise.
- Stock levels at the business associates level are back to normal levels.
- The Government extended the application of the Prevention of Money Laundering Act to the jewellery segment in end August 2017. KYC norms were applicable to sales over Rs 50,000 and there was some impact on our sales. However based on representations from the jewellery associations, the Government suspended the applicability of the Act in early October till regulations are framed specifically for the sector. One of the main changes we expect are substantial increase of the limit for KYC norms and reporting requirements.
- The Company added 49 stores with a retail space of 38k sq feet in H1 FY 17-18
- The Company has moved into its new Corporate office premises in Electronic City, Bengaluru

Q2 Background

Jewellery

- The division had an excellent quarter, delivering 36% growth on the top line and an even better 68% growth at the EBIT level. Retail growth was 22% with same store growth at 18%.
- While we reported GST related advancement of sales in the previous quarter to the tune of an estimated Rs 250 cr, the festive season was also ahead this year and compensated for the lower July sales. Primary sales were also higher this quarter due to the stocking requirement for the festive season.
- The division had its diamond studded activation during the quarter and fell a little short of internal expectations as the businessmen client base were preoccupied with the introduction of GST. Studded ratio therefore fell to 36% in the quarter compared to 42% in the previous year.
- Gold tonnage increased by 49% for the quarter
- Despite a lower studded ratio compared to the previous year, the division achieved a higher gross margin due to better product margins. Hedging gains were about the same as the previous year.
- The division designed all the jewellery for the Hindi film “Padmavati” and the collection under the same name has been a huge hit.
- GHS contribution is now up to 18% this year
- Wedding jewellery and high value studded categories are growing very well and have contributed significantly to market share gains
- Store openings have been behind schedule with only 5 stores with 12k sft being opened so far this year. The rate is expected to rise considerably in the second half.

Q2 Background

Watches

- Q2 was a very good quarter for the Watch division. While the top line growth was 9%, if figures were restated for excise duty corrections, the growth in the quarter comes to 13.6% .
- Domestic watches sales have grown by 16% with volume growth at 15%.
- The quarter had the Titan brand activation which did fairly well.
- Exports continue to remain a concern declining 15% in revenue terms.
- Titan launched the “Regalia Sovereign” and Raga “Espana” collections during the quarter.
- Fastrack launched its “Lightweight” collection also during the quarter. Fastrack wearables have been a great hit with the target customer base.
- The NXT2 collection came from the Sonata stable. Sonata has also appointed Sushant Singh Rajput as its brand ambassador.
- The division added 11 WOTs, 11 Fastrack and 13 Helios stores adding upto 15,000 sq feet in the year so far

Eye Wear

- Prescription eye wear business was under some pressure in the quarter and growth was 3.5%
- The sunglass business had a very successful activation and grew by 39%
- Fastrack frames were launched for the first time targeted at the youth
- 14 stores measuring 10k sft were added in the year

Tanishq	22%	18%
